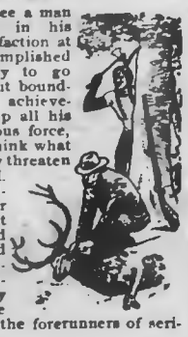
UNDERTAKERS.

M. McFADDEN, Undertaker and Dealer in Descriptions of Furniture, HUNTER STREET, WEST

D. BELLEGHEM, Leading Undertaker. Can be found day or night at his Warerooms Hunter Street, or at his residence adjoining his Warerooms. Telephone Communication.



How often you see a man deeply engrossed in his work, full of satisfaction at what he has accomplished in business, ready to go ahead and carry out boundless schemes of achievement, and using up all his strength and nervous force, never pausing to think what unseen danger may threaten him from behind. Mighty few hard-working men ever stop to realize that the headaches and dizzy sensations and feelings of weakness and sluggishness and incapacity that overcome them at times are the forerunners of serious disease.

More men would succeed in carrying out their life purposes if they would put their constitutions in strong, forceful, high condition, without waiting until disease has plunged its axe into their vital organs. If a man who is using up his working vitality faster than his nutritive powers supply it, will use Dr. Pierce's Golden Medical Discovery as an adjunct to his daily meals, it will give the digestive organs power to take hold of the food and extract from it the elements which strengthen the vital organism and build up healthy blood.

It revitalizes every organ and tissue of the body; purges bilious poisons out of the circulation; invigorates the nerve centers and the muscular system and makes a man altogether a man—full of ambition, energy and pluck.

Mr. Jos. Henderson Dirblun, of 544 Josephine Street, New Orleans, La., writes to Dr. Pierce: "I was ailing for some years, suffering from dyspepsia, a tired feeling and loss of energy and appetite. I tried one bottle of Dr. Pierce's Golden Medical Discovery and found great relief. I took two more bottles, three in all, and one or two bottles of the 'Pellets,' when I found myself in good health again. I recommend Dr. Pierce's Golden Medical Discovery to do all that it is claimed to do."

In many cases where constipation is one of the aggravating causes of disease, Dr. Pierce's Pleasant Pellets should be used in conjunction with the "Discovery." They are the simplest and most perfectly natural laxative ever invented.

It is a dealer's business to sell you what you ask for—not what he prefers for selfish profit's sake to sell.

OUR DEBT TO BUMBLEBEES.

The Part These Busy Workers Play In the Fertilization of Flowers.

Barney Hoskin Standish writes an article on "The Bumblebee" for St. Nicholas. Mr. Standish says: The work of the bumblebee in bringing about the cross fertilization of flowers is as important as that of the honeybee, and these two stand at the head of the list of insects useful in this respect. Each has its flowers which it alone visits, but there are many flowers on neutral ground visited by both. So we may say of the bumblebee, as of the honeybee, the more bumblebees the more seeds; the more seeds the more flowers —especially wild flowers, as the tall bellflower, touch me not, Solomon's seal, gentian, Dutchmen's breeches and turtle head. But probably the most important work this insect does for agriculture is upon the fields of red clover. There is abundant proof that this plant will not produce seed without the cooperation of the bumblebee. It is impossible for the wind to bring about the fertilization of the seed, as it may do in the case of Indian corn, grain and some forest trees. The tube of red clover blossoms, too, is so long that other insects (including the honeybee) are not regular visitants.

Here is proof that this plant must have visits from the bumblebee. This insect is not a native of Australia, and red clover failed to produce seed there until bumblebees were imported. As soon as they became numerous the plant could be depended upon for seed. Again, the blossoms of the first crop of the Medium Red clover of our own country are just as perfect as those of the second crop, but there are too few bumblebees in the field, so early in the season, to produce fertilization, hence little or no seed in this crop. If bumblebees were sufficiently numerous, there is no reason why much larger yields of clover seed might not be expected than at present.

Here is what a well informed farmer says about it:

"It was formerly thought that the world rested on the shoulders of Atlas. I can prove that its prosperity rests on the bumblebee. The world cannot prosper without the farmers' product. The farm will not be productive without clover. We cannot raise clover without seed, and we cannot have clover seed without the bumblebee, because it is this insect that carries the pollen from flower to flower, securing its development and continuance. Let us learn to know and to protect our friends."

GETTING THE FACTS.

The Signs and Symptoms of Dyspepsia, Pure and Simple.

Dodd's Dyspepsia Tablets Knock Them all out—The First Dose Relieves—More Relief Follows Other Doses—Then Comes the Complete Cure.

IS THIS YOUR STORY?

I have pains in the chest, after eating.

I have burning pains at the pit of the stomach after every meal.

I am tortured by neuralgia in head and face. Nausea, or sickness follows every meal. My tongue is coated and furry, there is a bad taste in my mouth, and I am tormented by thirst.

Acid fluids come up into my mouth leaving a burning sensation; I can't concentrate my thoughts; I am pale and am losing flesh daily; have "lost heart" in my work, can't sleep, my hands and feet sweat, my bowels seem full of gas.

I dread being left alone; if I walk any distance, a lump forms in my throat, a fulness grows in my chest, and my pulse gets weak and rapid. I feel as if I would fall, my knees become shaky, I tremble all over, and I have to sit down. There is a terrible pain near my heart.

IS THIS YOUR EXPERIENCE?

I have been doctored for heart trouble and other diseases. But all such treatment utterly failed.

I grew worse daily. Finally I was attacked by dizzy spells. Everything would grow black, as if I were blind. I was afraid I would die.

HERE IS YOUR CURE.

I read of Dodd's Dyspepsia Tablets and tried them. The first dose relieved me. The second relieved me much more. Two boxes cured me completely.

To-day I am sound and well, strong and healthy, thanks to Dodd's Dyspepsia Tablets.

Dodd's Dyspepsia Tablets are sold by all druggists at fifty cents a box, six boxes $2.50, or sent, on receipt of price, by The Dodds Medicine Co., Limited, Toronto.

An Old Joke.

My Lord Craven, in King James First's Reign, was very desirous to see Ben Jonson, which being told to Ben, he went to my Lord's House; but, being in a very tatter'd Condition, as Poets sometimes are, the Porter refus'd him Admittance, with some saucy Language, which the other did not fail to return: My Lord, happening to come out while they were wrangling, asked the occasion of it: Ben, who stood in need of no-body to speak for him, said, he understood his Lordship desired to see him; you, Friend, said my Lord, who are you? Ben Jonson, reply'd the other: No, no, quoth my Lord, you cannot be Ben Jonson who wrote the Silent Woman, you look as if you could not say Bo to a Goose: Bo, cry'd Ben, very well, said my Lord, who was better pleas'd at the Joke than offended at the Affront, I am now convinced by your Wit, you are Ben Jonson.—"Joe Miller's Jest Book," 1739.

An Olympian Joke.

"Jupiter," said Mercury in a low whisper as he dusted off the wing on his left foot. "There's a man over in the southwest corner of Olympus carrying on dreadfully."

"What is he doing?" said Jupiter, scratching his head with a new model thunderbolt.

"Frothing at the mouth and writhing about. It's not proper for such a mortal to be here."

"Perhaps not, but, on the other hand, mayhap he is an epileptic fit for the gods."

Forgetting to make his usual kick about the quality of the ambrosia, Jupiter hurried way.—Buffalo Courier.

THE ONLY HOPE!

For Victims of Bright's Disease is Dodd's Kidney Pills.

Not a day passes on which the newspapers do not record the death of one or more persons from Bright's Disease. Already its victims number hundreds of thousands. Day by day the awful total grows larger. No class is safe from this destroyer.

War and intemperance, with all their miseries and fatalities, are not responsible for as many deaths as have been caused by Bright's Disease. Yet, there is a way of resisting it; of drawing its poisoned fangs, and making it as harmless as a summer breeze. That great medicine, Dodd's Kidney Pills, has cured thousands of the worst cases. It never fails to cure, hopeless as the case may seem.

Would you safely shield your loved ones from the fatal grip of this curse of mankind—Bright's Disease? Then use Dodd's Kidney Pills, the only cure on earth for this disease.

TRIBUTE TO HENRY GEORGE.

A Monument, Fashioned by His Son, Unveiled.

New York, July 6—Two thousand friends and followers of the late Henry George assembled around the plot where the body of the great economist lies buried in Greenwood cemetery, Monday, at the unveiling of his monument by Rev. Dr. Edward McGlynn. In the speakers' tent were Dr. McGlynn, Dr. Montague, Dr. R. Lewerson, one of Henry George's earliest followers in California; Chas. Fred Adams, who was nominated for justice of the court of appeals by the George party at the last election; John. V. Ross, brother of the deceased, and the son, Richard George, who designed the monument and sculptured the bust of his father, which is a part of the monument. Henry George jr., and his mother, the widow, are in Europe.

The exercises were presided over by Charles F. Adams. He introduced Dr. McGlynn, who removed the covering from the monument. Dr. McGlynn said in part: "It was the necessary lot of the prophet, the forerunner, to meet with prejudice and obloquy and misrepresentation, but Henry George stood it all, believing in the wisdom of his philosophy. His books are not only philosophy, but a poem and a prayer. In a hundred years from now people will make a pilgrimage to this spot to look upon the features of this, fashioned by the hand of his loving son."

BAILLIEBORO.

From Our Own Correspondent.

Miss Lillie Laurie, of Toronto, is visiting at the Pastorium.

There has been a very heavy crop of hay throughout this section. It is mostly housed.

Mr. Joseph Armstrong cut a field of wheat on July 7th. This is the first we have seen or heard of this year. We are not sure if this is earlier than when it was cut two years ago or not. The majority of the wheat looks well, and is nearly ripe.

Rev. Mr. McIntosh went to Toronto, we believe, last week and bought furniture for the manse. He has been living with Mr. Joseph Porter and his mother since coming here. He now proposes living with his sister in the manse.

Mr. Henry Perrin, the father of our postmaster, suffered a paralytic stroke about a week ago, and is very low since. As Mr. Perrin is an aged man, his recovery is scarcely looked for.

Severe Bronchitis Yields Promptly to Dr. Chase's Syrup of Linseed and Turpentine

I used your Dr. Chase's Syrup of Linseed and Turpentine for a severe attack of Bronchitis. I got better from the time of taking the first dose. Having a family of small children, my doctor's bills have annually come to a considerable sum. I believe a bottle of Dr. Chase's Syrup occasionally will aid me in reducing them very materially.

SPORTING PASTIMES.

Wheeling and Other Items of Local and General Interest.

CANOEING.

The members of the American Canoe Association are looking forward with great interest to their annual meet which will be held at Stave Island on the St. Lawrence, commencing August 5th and and continuing for two weeks. The attendance promises to exceed all previous meets, and the interest exhibited in the racing programme evidences that each event will be hotly contested. This may seem doubtful to many of our readers but they must remember that this year the racing regulations are all changed and the field is open to the open canoe, while the racing machines have been limited to three races. This has done much to increase the interest in the sport, and it is expected that in each event there will be at least 25 entries.

The officers this year have been selected from the younger element of the Association. Commodore Dunnell of the Brooklyn Canoe Club is the youngest member ever elected to the position, and has entered into the spirit of his work with a zeal that has done much to bring the members closer together during the winter and spring months. Nearly every club affiliated with canoeing he has visited, and while there his every desire has been to boom the Canoe Camp, and if our expectation as to attendance is verified the credit is due to him.

Then the Regetta Committee has been selected from the more practical canoeists, and, as might have been expected, they have practically barred out the racing machine and have left the majority of events open to the ordinary canoe only, and in the sailing races the sail area has been limited to 40 square feet. In addition to these beneficial changes, the rules have been simplified and there is now no chance for dispute, each regulation is in plain every day English. Mr. Percy F. Hogan can take the greater part if not the whole credit for this.

It is to be hoped that our local canoeists will band themselves together as soon as possible and let Peterborough make her old showing at the A. C. A. The chance may come in a few years to have the meet in our own waters, and in addition to being of beneficial effect to Peterborough it would do much to stimulate this popular sport which of late years has fallen into decay here.

The initiation fee is only $1, and the yearly membership fee is $1, and for this each member receives a copy of the official organ, Recreation, and is entitled to the many privileges of the Association.

Mr. Walter J. English, this year's signal officer, will be only too glad to give any one contemplating the trip, all the information in his power and at the same time furnish them with application blanks for membership.

The following Peterborough gentlemen will likely be at the Stave Island camp this year: Mr. E. B. Edwards, Mr. F. H. Dobbin, Mrs. Dobbin. Mr. LeBrun, Col. H. C. Rogers and W. J. English.

LACROSSE.

Practice will be held on Monday, Tuesday and Wednesday evenings of next week. All players will do well to turn out regularly.

Miller Craig, of last year's juniors, plays to-day with the Elms-Tecumeehs II against the Mimico Stars in Toronto.

The P.A.A.A. grounds are faster now than at any time this year. It will be noticeable at the next game.

THE WHEEL.

The Lindsay Warder has no use for the wheel. In its last issue it thus refers to the bicycle in connection with the meet here:—"A very competent authority, one whose daily duty brings him into contact with the facts bearing on the case, stated last week that the bicycle has developed and engendered more looseness in morals among the male and female population, more degradation of man and womanhood and more crime than any other single cause of the times. An observer cannot but endorse that assertion. The facts are evident on every hand. One need not go beyond Peterborough, and the trains leading thereto and therefrom last week to find abundant evidence in support of the degrading tendency of the bicycle craze.

There is no doubt but thousands find and make the bicycle a source of honest locomotion and downright assistance in every day life. Those are the exceptions. Concurrent with the "drawn face," "twisted jaw," bowed legs," "diseased heart," and "contracted chest," one usually finds the "tobacco mouth," "whiskey breath," and "boorish vulgar manner."

BASEBALL.

The race in the Eastern League series is mighty close, the difference between the leading teams standing pretty steady at about 125 per cent. In the National League series Cincinnati is holding the lead well.

LONDON WOMEN

Have Words of Praise for Doan's Kidney Pills.

No wonder the praises of Doan's Kidney Pills are on the lips of nearly every woman in London, Ont.

The terrible backaches, side-aches and headaches which are so common among women quickly disappear when these conquerors of kidney ills are used. Women are recognizing more and more that the seat of these troubles is in the kidneys—that Doan's Kidney Pills banish all the pains and aches by making the kidneys filter out the poisons from the system.

Here are two London ladies who want to say something for Doan and his Pills. One is Mrs. Jane Reding, 435 Gray Street. She says,

"I highly recommend Doan's Kidney Pills. I have had a weak and painful back for a long time, and until I took this reliable kidney medicine was unable to secure relief. They acted like magic, removing all my troubles and restoring me to health."

The other is Mrs. Taylor, 755 York street and she says, "For years I have been afflicted with kidney troubles, and now am pleased to say that Doan's Kidney Pills cured me, removing the pain from my back, and restoring my kidneys to natural action."

Doan's Kidney Pills are sold by all druggists at 50 cents a box or 3 boxes for $1.25.

THREE TRAMPS HELD.

Reward of $1,000 for Capture of Murderers of Henry Gray.

Almonte, July 9.—The three tramps arrested on suspicion of the murder of Henry Grey, watchman in the Almonte Knitting Mills, have been committed to Perth Jail for 30 days for vagrancy. They will be detained longer if the suspicion of their complicity in the murder is strengthened. The Town Council has offered a reward of $1,000 for information which would lead to the discovery of the murderer.

An Open Verdict.

Almonte, July 9.—The inquest on the murder of Henry Gray was resumed yesterday afternoon by Coroner Burns. After examination of several witnesses, the case was given to the jury, who returned the verdict "that Henry Gray came to his death on the 29th day of June, and that some person did wilfully murder the said Henry Gray by shooting him in the abdomen." The evidence did not divulge anything whatever to throw any light on the case towards the conviction of the perpetrator of the deed.

Policeman Twohey's Murderer Believed to Have Been Captured.

London, Ont., July 9.—The Chief of Police has received a telegram from Aurora, Ind., announcing the arrest of a man believed to be Policeman Twohey's murderer. The authorities believe they have got their man now.

Suicide of Miss Mary Watt.

Halifax, July 9.—Miss Mary Watt, aged 30, belonging to Quebec, was drowned in Bedford Basin yesterday afternoon. There is little doubt she committed suicide, as she has been deranged for a couple of months through overwork and grief on account of the recent death of her mother. The body was found near the shore at 3 o'clock.

BOMBARDMENT OF SANTIAGO.

The Fleet and Field Batteries Began Work on Sunday.

TORAL'S OFFER OF SURRENDER.

It Was Not Unconditional and General Shafter Would Not, Therefore, Accept It—Reinforcements to Both Armies —Present Strength of the Combatants—Sampson and the Santiago Harbor.

Washington, July 10.—The bombardment of Santiago by the big guns of Admiral Sampson's fleet and the siege mortars and field batteries of the Fifth Army Corps began this evening, in accordance with Gen. Shafter's ultimatum to the commander of the Spanish forces defending the city, that unless Santiago was surrendered without conditions the place would be attacked by land and sea. At 6 o'clock a despatch came to the War Department from Gen. Shafter saying that the bombardment would begin about 4 o'clock this afternoon, and a few hours later another message informed the department that the attack had begun. Gen. Shafter's notification that he would renew the assault on the town and its defences followed the receipt of a communication from Gen. Toral, commanding the Spanish forces, declining to surrender without terms. Yesterday Gen. Shafter in demanding the unconditional surrender of Santiago had informed Gen. Toral that unless the demand was complied with by to-day the American fleet and siege batteries would shell the place. That this threat has been carried out was shown in messages received this evening by the War Department, the first of which was as follows:

Siboney, via Hayti, 5.55 p.m., July 10. — Adjutant-General, Washington, Headquarters Fifth Army Corps, July 10.—I have just received letter from General Toral, declining unconditional surrender. Bombardment by army and navy will begin as near 4 p.m. to-day as possible. Shafter, Major-General.

Shafter's Fighting Condition.

Shafter is in better condition to take Santiago than he has been at any time since the operations against the city began. He was reinforced yesterday by two volunteer regiments, the First District of Columbia, which left Tampa on July 3 on the transport Catania, and the Eighth Ohio, which sailed from New York on the auxiliary cruiser St. Paul on Wednesday. Shafter has now a force of about 27,000 men, and is further strengthened by having six additional field batteries and seven siege mortars in position.

The Spanish Strength.

The Spaniards have been augmented by the arrival of 5,000 men from Manzanillo. These are the troops nominally under command of Gen. Pando, but that officer is in Havana. There have been several reports of their arrival at Santiago and as many denials, but the War Department has now received positive information that they did succeed in reaching the city. The Spanish army in Santiago at the time Shafter began his operations consisted of about 14,000 men, and with Pando's troops and a few thousand other bodies that succeeded in getting in the town from the western side, where the American lines do not extend. Gen. Toral has now a force of about 23,000. The most interesting feature of the bombardment is the prospect it affords of an attempt by Admiral Sampson to take some of his ships into Santiago harbor in spite of the shore batteries and submarine mines. That Sampson will make the attempt if the bombardment from a distance is not successful is the general understanding in naval and military circles. He has been anxious to force the entrance, and naval officers believe that it may be done without great loss of life if a quick dash is made.

TORAL'S OFFER TO SURRENDER.

Would Give Up If He Could March His Troops Out—Shafter Declined.

On board the Associated Press boat Wanda, off Juragua, Saturday, July 9, 7 p.m., via Port Antonio, Sunday, July 10, 9 a.m., and Kingston, Jamaica, 10.40 a.m.—The surrender of Santiago was formally offered by the Spanish commander, General Toral, to-day, but the conditions attached caused a prompt refusal of the offer by Gen. Shafter.

Shortly before noon to-day, when a little group of Spanish officers, under a flag of truce, came out from under the yellow wall of the besieged city and slowly made their way towards the American lines, a detail was sent to meet them and they were escorted to comfortable quarters, while the letter from Gen. Toral was carried to Gen. Shafter's tent, two miles from the front. The letter was couched in the cold, courteous terms characteristic of Spanish communications, and was very brief.

It bore the signature of Gen. Toral, who commands at Santiago since Gen. Linares was wounded, and stated that he was prepared to surrender the city, provided his army be permitted to capitulate "with honor." This, he explained, meant that the Spanish forces should be unmolested and go in any direction they wished with arms and flying colors. The letter concluded with the bold statement that surrender under any other terms was an impossibility and would not be considered.

General Shafter immediately cabled the facts to Washington and sent to Gen. Toral a refusal of his proposal, but added that he would communicate with his Government and would extend the informal armistice until Sunday at noon.

More U. S. Troops Arrive.

The second fleet of transports arrived off Juragua this morning bearing 2,500 troops, including a large detachment of artillery.

Spaniards Intend to Die Hard.

Siboney, July 11.—Refugees from Santiago report Spanish soldiers busy digging trenches and erecting barricades in the streets, and piercing houses with loopholes, indicating an intention to die hard, and make a house to house and street to street fight. The fighting will be long and desperate, unless Sampson can get into the harbor, as it is not believed his guns will be effective at the long range from off Aguidores. Reconnaissances show the Spaniards to be exceptionally well positioned, though the reports are that they are disheartened and half-famished.

Hamilton Fish's father is here making arrangements to take his son's body home.

The Enemy Opened Fire.

Washington, July 11.—Shortly after midnight the department gave out the following despatch from General Shafter: "Playa del Este, July 10, Adjt.-Gen., Washington:

"Headquarters, Fifth Corps, July 10. —Enemy opened fire a few minutes past 4 with light guns, which were soon silenced by ours. Very little musketry firing and the enemy kept entirely in their entrenchments. Three men slightly wounded. Will have considerable forces to-morrow, enough to completely block all the roads on the northwest. I am quite well. (Signed) Shafter."

THE OFFICIAL ACCOUNT.

Spanish Officer's Report of the Capture of Admiral Cervera's Fleet by the U. S. Warships.

Guantanamo Bay, July 9, per Associated Press despatch boat Cynthia, via Port Antonio and Kingston, July 10.—Lieut. Adolphus Kentreres, the executive officer of the Spanish cruiser Cristobal Colon, has written to Spain an official account of the movements of Admiral Cervera's squadron in the fight. The translation of his letter is as follows:

About 9 o'clock the squadron got under way. The ships were one cable's distance from each other. At 9.30 a.m. the Infanta Maria Teresa cleared the entrance to the harbor, without receiving any fire until she had passed the Morro.

The Vizcaya felt the fire when at the head of the entrance, as well as the Cristobal Colon, and it is certain that the Almirante Oquendo opened fire within the channel.

When clear of the entrance the Cristobal Colon went ahead at her maximum speed. The Infanta Maria Teresa at 9.30, when hardly clear of the entrance, was seen to be on fire in her after part, and a few moments afterwards was headed for the beach.

A quarter of an hour later the Almirante Oquendo was seen to be on fire, and she, too, was headed for the beach at the same point.

The Vizcaya and the Cristobal Colon continued to fight. The former about 11 o'clock, seeing herself overhauled by the Brooklyn, manoeuvred as if to ram, and, without doubt, at that moment must have received the projectile that started the fire on her, the same as on the other two ships, and she was seen to head for the beach, in order to strand herself.

The Cristobal Colon alone remained, sustaining the fire of the Brooklyn, the only ship within range. But a few moments later she observed the Oregon closing up and later the same with the other ships.

The projectiles of the Oregon began reaching us at 1 o'clock and that, together with the fact that it was not possible to fight with the after guns, on account of the Colon's lack of large calibre pieces and the certainty of being overhauled by the whole American squadron in a few hours, left no other remedy than to run ashore in order to avoid useless sacrifice of life.

The Admiral made no signals while at sea, instructions for forcing the blockade having been given the captains at a meeting which took place on the morning of the previous day.

PRISONERS OF UNCLE SAM.

Including Admiral Cervera, Have Arrived at Portsmouth, N. S.— A Number Sick.

Portsmouth, N. H., July 11.—The auxiliary cruiser St. Louis, with more than 800 Spanish prisoners, arrived in Portsmouth harbor at 8.30 o'clock Sunday morning. The big liner left Guantanamo at 6 p.m. Tuesday, July 5, and did not make a stop until she dropped anchor in Portsmouth harbor. Including the prisoners, there were 1,038 people on the boat, and of this number there were 91 sick and wounded Spaniards under the care of surgeons. Admiral Cervera is confined to his cabin, having been quite ill for the past three days, although he was able to be dressed yesterday morning. Capt. Eulate of the Vizcaya is also quite ill from his wound in the head.

Health Officer Towle went on board and visited the sick, finding that most of the sickness was due to wounds received in the battle. He says there is no evidence of yellow fever or contagious disease.

All of the Spanish commissioned officers have been on parole and had the freedom of the ship with one exception, and he was the Governor of Santiago de Cuba, who was trying to escape from the city on Admiral Cervera's flagship when she was destroyed on that memorable morning of July 3. He refused to sign the parole papers and was consequently confined in one of the cabins under guard. The remainder of the prisoners were confined between decks and closely guarded.

Admiral Cervera remained in his cabin on the starboard side during the trip. Health Officer Towle visited him and was warmly greeted. He shook hands with the health officer, and in good English said he was situated very pleasantly on the boat and had received nothing but the kindest and most considerate treatment from both officers and men ever since he had been taken prisoner. He presents the appearance of a broken-hearted man, and keenly feels the loss of his fleet, containing the pick of the Spanish navy.

Cervera Interviewed.

Portsmouth, N. H., July 11.—Admiral Cervera came on deck late yesterday afternoon and consented to talk with the representative of the Associated Press, who came out to the St. Louis on a tug.

"You ask me," he said "how I like America, and I answer you that I have always liked, and, I may say, loved your people, but this war has been my duty and the men under me. I knew that the American fleet clearly outclassed us, but it was a question of fighting either inside or outside the harbor. I have many friends in America and have only the kindliest feelings for them, but every man has a duty to perform to his country, and all Spaniards tried to perform that duty. There has been much feeling in Spain, and I want all Spain to know the truth, that every ship of my squadron fought until the last, and when we could do no more we surrendered. I have much interest to know the exact situation. Capt. Goodrich has treated us all as well as anyone could possibly be treated. My officers have occupied quarters in the saloon and we cannot complain."

NAPANEE BANK ROBBERY.

Arrest at St. Thomas de Montmagny That May Lead to Important Results.

Montreal, July 10.—The Dominion Bank robbery at Napanee may now be cleared up. The other day the Pinkerton agency made an important capture at St. Thomas de Montmagny, which will probably bring about the solution of this mystery. Three weeks since the Pinkertons were informed that a good many of the stolen Dominion Bank notes were being circulated in Montreal, and, after some time, one of the agency's men succeeded in getting a description of the person who put these notes in circulation. This party was a French-Canadian woman born in Montreal, but who had lived in the States for a number of years. When the woman found the detectives were on her track, she left the city, but was followed as far as St. Thomas de Montmagny, where she was arrested and brought back to this city. So far her name has not been divulged.

DELEWARE LEFT IN FLAMES.

A Clyde Line Steamer Catches Fire Off Barnegat, New Jersey.

Atlantic, City, N.J., July 11.—The Barnegat (N.J.) life-saving station reported on Saturday that the Clyde Line steamer Delaware, from New York for Charleston and Jacksonville, was abandoned off Barnegat, N.J., at 10.30 o'clock the previous night, being on fire. The passengers and crew, 70 in all, left in boats and on rafts, and were rescued by the Cedar Creek life-saving crew. All were transferred to the tug boat Ocean King, and the captain and twelve of the crew were landed at Barnegat. The others will be taken to New York. The Delaware was built at Philadelphia in 1880. She registered 1,279 tons net and was 250 feet long, 37 feet beam and 17.8 feet deep.

No Control of Corners.

London, July 11.—In the House of Commons Friday, Mr. Ritchie, President of the Board of Trade, said that the Government had no intention to arrange for an international governmental conference with a view of preventing the formation of corners in foodstuffs, believing that such action would lead to no practical results.

English capitalists have secured a controlling interest in the New Westminster & Burrard Inlet Telephone Company.

FACTS ABOUT HEALTH

It Is Easy to Keep Well if We Know How—Some of the Conditions Necessary to Perfect Health.

The importance of maintaining good health is easily understood, and it is really a simple matter if we take a correct view of the conditions required. In perfect health the stomach promptly digests food, and thus prepares nourishment. The blood is employed to carry this nourishment to the organs, nerves, muscles and tissues which need it. The first great essential for good health, therefore, is pure, rich blood. Now it is certainly a fact that no medicine has such a record of cures as Hood's Sarsaparilla. It is literally true that there are hundreds of people alive and well today who would have been in their graves had they not taken Hood's Sarsaparilla. It is depended upon as a family medicine and general regulator of the system by tens of thousands of people. This is because Hood's Sarsaparilla makes the blood pure. This is the secret of its great success. Keep your system in good health by keeping your blood pure with Hood's Sarsaparilla, which absolutely succeeds when other medicines fail to do any good whatever.

Hood's Pills are the only pills to take with Hood's Sarsaparilla.

Daily Examiner.

MONDAY, JULY 11, 1898.

A SENSIBLE STEP.

Peterborough, says the Belleville Ontario, is getting not a little notoriety just now on account of its progressive action in declaring in favor of abolishing the ward system and cutting down the number of its councillors. This course is quite a radical departure from the old municipal system, but we believe it possesses all the elements of common-sense and civil economy. The plan adopted by the town is to make the population the basis of representation—one councillor for every thousand—and this will give them at present a council of nine members elected by general vote.

The action of Peterborough reminds us that on a couple of occasions Belleville voted in the same direction, although not exactly upon the same plan. We have a council of twenty-one members—as big as that which regulates New York city and big enough to run half a dozen cities this size. We have felt for some time that our municipal system is too cumbersome and we fancied that by reducing the number of wards the council would be reduced in consequence. We voted that way twice—but the esteemed aldermen evidently do not think that the electors of the city are to be taken seriously, for they have failed to give effect to the expressed wish of the citizens. It will probably be a few years before they will do so.

The principle of decreasing the number of municipal legislators is becoming more popular every day and the favourable result of the experiment adopted with the county councils has done much to add to that sentiment. We don't know that we are especially inspired with the spirit of prophecy if we venture the statement that a few years will notice marked reform in this direction.

EDITORIAL NOTES.

SENTENCING a man to two years in the Penitentiary, as did an Ottawa police magistrate for attempt to commit suicide, is, it seems, a greater interference with the liberty of the subject than is involved in prohibiting his glass of grog.

A recent issue of the British Consular Journal said: We have always held that Canada is the most go-ahead of our colonies. It is strong in its administration; its territories are enormous, and its people are inspired by the loftiest admiration for the old country. The various measures adopted by the Government are evidence of this, and too much stress cannot be put upon the discussion of the final stages of the tariff resolution which took place the other day in the House of Commons at Ottawa. In moving the resolution, Mr. Fielding—who has a splendid record as a man of the people, and who, it may safely be said, has not in the Finance Ministership reached the zenith of his power—stated that it has been decided to make a further extension in the direction of Imperial preferential trade by admitting raw sugar from every part of the British Empire at preferential rates."

GOOD ROADS.

Bobcaygeon Independent.

The Provincial Inspector in Road-Making, Mr. A. W. Campbell, presented his annual report to the Provincial Government, and this report has been printed and issued. It contains much valuable information and should be carefully read by rural municipal authorities.

There can be no doubt as to the present system of road construction and maintenance in Ontario being an exceedingly bad one. There is not a country in the world, characterized by good roads, where a system of statute labour is in use. Mr. Campbell points out that if the statute labour system is to be retained in Ontario, it will have to be placed on a basis whereby satisfactory results can be obtained. He also says: There is a prevalent opinion that a resident on a concession road knows better than anyone else the requirements of that particular road. A remarkable feature, however, is that no two citizens agree in their ideas of what work should be done, or how it should be done. No doubt there are cases in which one man is right, but when one man is right all the rest must be wrong. Pathmasters are appointed in turn from among these to plan and superintend the road work. The only result which could reasonably follow from such a system is that which we find—waste and bad roads.

It is safe to assert that fifty per cent. of the money expended on the roads of our own district is absolutely wasted. Mr. Campbell says: Councils commonly appropriate an amount of money each year to be spent on the roads. If this money were spent in making complete and durable work it would be of the greatest assistance in improving the roads. We find, however, that the money is distributed in small sums among the pathmasters, is spent in small sums for repairing temporary culverts; in doing a little draining in front of the farm of some discontented ratepayer to appease him; in doing no particular work at all, but merely to give some voter an opportunity to earn a few dollars. In such ways as these is the money which should be spent on durable improvements, scattered, wasted and misapplied.

Mr. Campbell says truly that much of the money is spent to give some voter an opportunity to earn a few dollars. This journal could point to an instance where a particular clique has been kept in municipal office for several years by purchasing votes with municipal road money. On one road section of six miles a vote of about $25 was divided among five residents on the road as commissioners. It is not surprising that in that municipality the roads are but little better than trails.

The Provincial Instructor refers approvingly to the system adopted in the County of Hastings. In that county between 400 and 500 miles of road are maintained exclusively by the county. The County Council appoints a man, during its pleasure, called "the superintendent of gravel roads and county surveyor." He has charge of all gravel roads and county bridges. He devoted all his time to it. Under him are gangs of men each with a foreman. They are employed most of the year and are paid monthly. The consequence it that Hastings has good roads.

The time has arrived when good roads will have to be constructed. So long as it was only those who kept horses that had to be considered to great mass of the public could not be interested in road construction, but the invention of the bicycle has changed the conditions, and all classes are now interested in good roads.

Municipal Reeves and Councillors and in fact every man in the country are strongly urged to carefully read Mr. Campbell's report.

SWISS RAILROAD MANAGEMENT

While we pride ourselves on our progressiveness, as compared with European countries, we have much to learn from them in many things, especially in railroad management. As was stated in the Sun, the people of Switzerland voted some months ago to purchase the railroad system in that country. Good results are already apparent, the railroads now being managed with a view to the largest possible public service, rather than the largest profit to the railroads.

It is an established fact that the fixed charges of a railroad vary but little, and that the cost of carrying five hundred passengers is almost the same as the cost of carrying one hundred. This principle has been fully recognized in Switzerland, which now issues passes good for 15 days over all the railroads and steamboats in the country for very small sums. The cost of a first-class ticket for fifteen days is $12, a second-class $8, and a third-class $6. The Swiss Government also issues second-class tickets good for the whole year over all its lines for $84, and third-class for $60.

We are having object lessons every day which show us how mistaken our railroad policy is. We have given more to railroads than any country in the world. Yet we have higher railroad rates than our neighbours, and make no attempt to regulate rates or prevent discriminations. Our principal railroad, on the other hand, not only defies public authority, but dictates public action. Its control by the State has become the most important question of the day.—Farmer's Son.

The workman often eats his lunch on the same bench where he does his work. The office man turns his desk into a dinner table. Neither gets the out of door exercise he needs, neither takes the proper time for eating. It is small wonder that the digestion of both get out of order. In such cases Dr. Pierce's Pleasant Pellets come to their assistance by aiding nature in taking care of the food.

The cause of nine-tenths of the sickness of the world is constipation. From this one cause come indigestion, disorders of the stomach, liver and kidneys; billousness, headaches, flatulence, heartburn, impurity of the blood and the serious complications that follow. To begin with, constipation is a little thing and a little thing will cure it. The "Pleasant Pellets" are tiny, sugar-coated granules. They will perfectly cure the worst case of constipation and indigestion. If the druggist tries to sell you some other pill that *pays him greater profit* just think of what will best pay you.

The Cadiz fleet still hesitates to sail. Perhaps the Cadiz fleet has not yet been able to pick out an antagonist of its own size. If the press censorship will permit, we would suggest to the Cadiz fleet that the Louisville Baseball club has a few open dates.—Louisville Courier-Journal.

Of Dodd's Kidney Pills Cured Mr. Colwell of Bright's Disease.

Windsor, July 11th.—"Is it true, Mr. Colwell, that you have been cured of Bright's Disease by Dodd's Kidney Pills?" our reporter asked Mr. R. F. Colwell, jeweller, of No. 9, Ouiette street, to-day.

"It is indeed," was the answer. I suffered two years with Bright's Disease. My back ached all the time. I had awful, aching pains in my loins, a puffiness under my eyes, and my urine was very dark coloured.

"For a time I could find no remedy to do me any good. But one day a friend told me he had been cured of the same disease by Dodd's Kidney Pills. I bought a supply. A few boxes cured me thoroughly." Dodd's Kidney Pills cure all kidney complaints.

Very Close Elections in the Province of British Columbia.

HON. JOSEPH MARTIN ELECTED.

The Government Has 15 Seats, the Opposition 17, and There Are 6 Yet Uncertain—The Meaning of the Close Vote—Two Independents Who, However, Favor the Opposition.

Vancouver, B.C., July 10.—The final result of the general election in British Columbia is not yet known, but returns are so far in that it is shown that neither the Government nor the Opposition has secured a working majority. Several up-country seats are still uncertain, as outlying districts have still to be heard from. In the most favorable circumstances it is impossible for the Government to have a majority of more than four, while the Opposition's chances are considered bright for securing a majority of two or perhaps three. The contest has proved the closest in the history of the province. The Government, which is now uncertain of its lease of power, had a majority of nine in the last House of 38 members. The House just elected consists of 38 members, and, as stated, four is the utmost majority that the Government can secure. It is only on Vancouver Island that the Government has retained power. Here, as on nearly all the rest of the mainland, Opposition candidates have been elected. There are two Independent candidates on the mainland who during the campaign adopted practically the Opposition platform, but the Government will be sure to make strenuous efforts to secure their votes, even if it goes the length of offering one a seat in the Cabinet.

The Latest Returns.

Vancouver, B.C., July 11.—At midnight the general election result was as follows, as far as known:

The following seats have gone Government: Comox, Corvicham, Esquimalt (2), Kootenay East (north riding), Lillooet West, Nanaimo North, New Westminster City, Victoria South, Victoria City (3), Victoria North, Westminster, Dewdney, Yale (east riding)—15.

The following seats have gone Opposition: Alberni, Cariboo (2), Kootenay (Revelstoke), Kootenay (Slocan), Kootenay (Nelson), Kootenay (Rossland), Nanaimo City, Nanaimo South, Vancouver City (4), Westminster (Chilliwack), Westminster (Delta), Westminster (Richmond), Yale West—17.

Places uncertain: Victoria City one, North Yale, East Kootenay (south riding), and Lillooet East. Vassiar's two seats will be contested later. Total 6.

AN INCENDIARY CAUGHT.

Austin Smith, St. Catharines, Accused of Burning His Aunt's Barn.

St. Catharines, Ont., July 11.—Austin Smith, son of Mrs. Jane Smith of the Western Hill, created quite a sensation on Saturday and is locked up awaiting trial for two separate charges of arson and theft. Friday night he stole a horse from Voisard & Sons' barn, and started off for the farm of his aunt, in Pelham. About 1 o'clock in the morning Mrs. Smith heard a noise in the barn, and thinking it was tramps, called a neighbor, who investigated, and discovered that the straw stacks, 12 or 15 feet from the barn, had been set on fire. Fortunately the night was wet or the fire would have communicated to the barn.

A number of neighboring farmers turned out and joined in the search for the incendiary and succeeded in arresting young Smith and brought him to town. Smith is also accused of trying to burn a schoolhouse in Louth Township.

BLAZE AT COLBORNE.

Many Business Places Destroyed Saturday —Loss $20,000.

Colborne, Ont., July 11.—About 2 o'clock Saturday morning fire broke out in the dressmaking department of the Huyck Mercantile Co. It rapidly spread to the lower storey, and soon the whole block was a mass of flames.

The adjoining office, occupied by J. S. Britnell & Son, insurance agents, Division Court clerk and G.N.W. Telegraph agents, was totally destroyed. Next came A. J. Kemp, tin shop, Drs. Mallory and Knight's office, and a photograph gallery. This block, owned by D. W. Simmons, was also destroyed, occupied by S. H. Scripture, agent for agricultural implements, and Charles McGuire, butcher. The Brunswick Hotel and the Presbyterian Church were saved. The loss is estimated at about $20,000, covered by insurance.

An ordinary cough or cold may not be thought much of at the time, but neglect may mean in the end a consumptive's grave. Dr. Chase's Syrup of Linseed and Turpentine will not cure consumption when the lungs are riddled with cavities; but it will stop the cough, will cure consumption in its early stages, and even in its last stages gives such relief as to be a perfect Godsend to those whose lives are nearing a close.

Wm. McCabe, Esq., Managing Director, N. A. L.:

DEAR SIR:—In answer to your request for me to decide upon one of the following options offered me for settlement of my 15-payment Life Investment Policy for $5,000 which has matured this year, viz.:

1st, to take the value of the Policy in Cash	$5,008 00
2nd, or fully paid-up insurance for	3,280 00
3rd, or take the profits in cash	2,080 25

and continue my policy without further payments being required from me, such policy participating in future profits.

I find it somewhat difficult to make a decision either of the three options being so satisfactory. I am certainly very much pleased with the results offered me, and as I find many others are giving full testimony to the profit-earning power of this company. I do not hesitate to give my endorsement as well, that the North American Life is one of our strongest Canadian institutions to day, giving first class results on Investment Policies, on a safe and conservative basis. I find that my policy, which was originally a Life by fifteen payments, has become an Endowment at the end of the Investment period.

Canadian National C. E. Rally.

Nashville, Tenn., July 11.—Many enthusiastic meetings marked the second day of the Christian Endeavor Convention and all were well attended. In the afternoon two great services were held at Hall Williston and the auditorium, and at both meetings speeches of high order were delivered.

One of the notable features of the day was the Canadian National rally held by the enthusiastic delegates from the Dominion in Grace Church. After stirring speeches, resolutions were adopted which advocated closer relations of all kinds between Anglo-Saxon nations.

MUST PAY WORKMEN.

Government's Step in Interests of Crow's Nest Laborers.

THE SUBSIDY HELD FOR CLAIMS.

Hon. Mr. Fielding Has Notified the Canadian Pacific Railway Co. That Claims for Labor Must Be Paid, or That Government Will Withhold Amount From Company's Subsidy.

Ottawa, July 11.—The Government have taken a further step with a view to protect the interests of those who claim to have been unjustly treated in the work of constructing the Crow's Nest Pass Railway. The circumstances, too, attending the death of the two young men from Pictou County, N.S., are to be the subject of a thorough inquiry by a special commissioner who has been chosen for that purpose. In the report that has already been made public respecting work on the Crow's Nest Pass and in the discussions that have taken place on the subject it has been represented that in many cases workmen employed on the road have been unjustly dealt with and suffered severs losses. In the case of men who have just claims for labor on the road it is believed that some remedy can be found. Hon. Mr. Fielding, acting Minister of Railways and Canals, has notified the Canadian Pacific Railway Co. that, as respects claims of this character, the Government will hold the company responsible and will look to them to see that ample justice is done, and that if it be shown that just claims for labor remain unpaid the Government will withhold the amount from the company's subsidy.

The Yukon Administration.

The official staff of the Yukon Administration is as follows: Wm. Ogilvie, Commissioner, $5,000; T. D. Pattullo, stenographer, $900; H. A. Bliss, clerk, $900.

Mining branch—Thos. Fawcett, Gold Commissioner, $2,000; Oswald Fitnie, clerk, $900; Mr. Conklin, clerk, $900; Jos. Clarke, stenographer, $900; J. D. McGregor, mining inspector, $1,500; H. H. Norwood, mining inspector, $1,500; Wm. Maddin, mining inspector, $1,500.

Timber and land branch—Geo. Layfield, chief clerk, $1,200; H. Landerkin, clerk, $900; Wallace Montgomery (Kingston), clerk, $900; J. W. Willison, inspector, $1,500; D. A. McRae, inspector, $1,200; F. D. MacFarlane, inspector, $1,200; F. C. Wade, legal adviser, $2,500; J. E. Girouard, Registrar, $2,000; John N. E. Brown, stenographer and clerk, $900. The offices of controller, clerk and accountant of the mining branch and Crown timber and land agent are not included in this list.

A STARTLING TALE.

May Yet Have to Be Told About the Jameson Raid.

New York, July 11.—The London correspondent of the Evening Post cables his paper as follows:

"There is yet a startling tale to be told of the Jameson raid, if the little group of men who know of it ever receive sufficient inducement to tell. This week another little corner of the veil has been drawn aside by a report of the House of Commons Committee on Public Accounts. The report conveys the surprising information that the British officers taking part in the raid, though struck off the army list, have been awarded substantial allowances, namely $1,500 annually of retired pay to Colonel Rhodes, and gratuities of $6,000 to Capt. White, $8,000 to Capt. Raleigh Grey, $8,750 to Major White, and $5,665 to Major Willoughby. These items provoked a heated battle between the Commons Committee and the Ministry."

GUILLEMAIN FOUND GUILTY.

Notice of Appeal—An Anonymous Letter Threatening Prisoner's Life.

St. Hyacinthe, Que., July 11.—The Guillemain trial was concluded Saturday evening, the jury returning a verdict of guilty. Guillemain will not be sentenced till after the argument on the points raised by his counsel, notice of appeal having been given. Half reclining on a pillow, he listened to the addresses of counsel, and then the judge's charge, which was, on the whole, rather favorable to the accused.

Sheriff Coste has received an anonymous letter threatening Guillemain's life. The letter, which was in French, and written here, reads as follows: "I have just discovered a plot. Two men arrived this morning, and they propose to blow out prisoner's brains." This letter is believed to be a practical joke.

Welsh Coal Strike.

New York, July 11.—A special to the Evening Post from London says: "The South Wales coal strike, which has gone so far towards paralyzing English commerce and naval strategy on the high seas, is at last reaching a close. The Government conciliator is now arranging a compromise. Meanwhile, the agreement come to on Saturday by the Miners' National Federation for regulation of wages in the conference of employers, secured two years' truce from coal strikes in all districts except South Wales and Northumberland.

Black Flags Rising.

Hong-Kong, July 11.—The British Consul at Wuchau, province of Kwang-Si, on the West River, west of Canton, has telegraphed asking for gunboats. He says that the Black Flag rebels have successfully risen at Yung-Chang in the west and are marching on Wuchau. The situation is threatening.

THE ESTIMATED YIELD.

The Wheat Markets Were Influenced as Indicated Above Last Week—The Latest Quotations.

Saturday Evening, July 9.

The wheat markets have been wholly under the influence of the weather this week, and, according as the reports indicated a decrease or an increase in the estimated yield for 1898, quotations have gone up or down. On the Chicago board to-day July wheat closed 1c per bushel higher than a week ago, while the September and December options record a loss of over 2c. In Liverpool, July wheat is up ¾d per cental since last Saturday, with the later options down ⅝d to 1½d. Continental markets have changed in accordance.

Very large attendance.

London, Ont., July 9.—Forty-six factories offered 9854 boxes June; no sales. The agreement to sell on market day only was not adopted, owing to the action of the Ingersoll board in refusing to come under the same agreement.

East Buffalo Cattle Market.

East Buffalo, July 9.—Cattle—Receipts, nine cars of fresh Canada stockers and a load of cattle held over from former receipts of the week. Demand fair from all classes of buyers, but holders were firm for the few good cattle on sale, and none were sold, sellers preferring to hold over for Monday's trade.

Veals and Calves—Supply exceedingly light, only a few head. Market about steady.

Hogs—Receipts light. Market opened excited and higher, which was in part due to light receipts. Good to choice Yorkers, $4.20 to $4.25; prime light Yorkers, $4.25; mixed packers' grades, $4.10 to $4.15; medium, $4.10 to $4.15; heavy hogs, $4.10 to $4.15; roughs, $3.25 to $3.40; stags, $2.75 to $2.90; pigs, $3.75 to $4.15.

A PRESSMAN'S STORY.

Mr. Parnham Tells how Dodd's Kidney Pills Cured His Lumbago.

Toronto, June 27.—The story of the escape of the Globe pressman, Mr. John H. Parnham, from the agonies of Lumbago, by using Dodd's Kidney Pills, is unusually interesting.

Mr. Parnham writes to the Dodd's Medicine Co., Limited, thus:—"I am proud to testify to the wonderful efficacy of Dodd's Kidney Pills. About eight months ago I was attacked by severe pains in my back. I consulted an eminent physician, who said I had Lumbago and told me to take Turkish baths. These did me no good.

"A friend advised me to try Dodd's Kidney Pills. I did so, and one box cured me. My back has never troubled me since."

HIS HOLINESS IS ILL.

So Serious That a Fatal Termination May Come at Any Time.

New York, July 11.—A London special to the Sun says: "Most of the European Governments have been confidently advised that the Pope's health is now so serious that a fatal termination may come at any moment. This, despite the fact that His Holiness continues to transact business and receive important visitors. His recent trouble has been weakness of the heart and poor circulation. It is now complicated by peculiarly obstinate intestinal catarrh, which is extremely difficult to deal with.

"The Pope's physician, Dr. Caponi, has thought it advisable to call the assistance of the famous doctor, Marchiffava, and two other experts, who have unanimously warned the Pontiff that he must implicitly follow their directions if he wants to live to see peace between the United States and Spain. As that happens to be the Pope's most ardent wish the warning has had some effect.

"The Pope's latest move in behalf of peace was made at the beginning of the week, when he instructed the papal nuncio at Madrid to urge certain fiery Spanish prelates to refrain from advocating the continuance of war."

APPALLING DEATH

From Kidney Disease Prevented by Dodd's Kidney Pills, Only.

"Kidney Disease." Do you know what it means? It means that the kidneys are either *rotten*, or rotting; the blood is full of poisonous, death-dealing corruption; that the Kidneys can't do their work; that the victim is a walking charnel-house; that his hours are numbered; that the victim MUST take Dodd's Kidney Pills if he does not want to die.

Have you Kidney Disease? Is your skin hot and dry; memory failing; breath short; urine, reddish, or pale colored; does it scald when passing; is your appetite changeable; do your ankles swell; have you bitter taste in the mouth on getting up mornings; is there a brick-dust deposit in your urine?

Any of these signs is proof positive of Kidney Disease. Will you be cured, or will you die? Dodd's Kidney Pills are the only means on earth that will cure you. They never fail.

Special Meeting.

A special meeting of Court Peterborough No. 29, Canadian Order of Foresters will be held this Monday evening, July 11th, at 8 o'clock, to arrange for the funeral of our late Brother John Fraser, which takes place from the C. P. R. station tomorrow afternoon on arrival of the 2 45 train from Toronto. By order of the Chief Ranger. A. D. RUSSELL, secretary.

Accident to Mr. John Mervin.

This morning as Mr. John Mervin was driving to town he met with an accident near his residence, in the vicinity of the Roman Catholic cemetery. At the C.P.R. crossing, Park street, his horse became frightened at a train, and in his efforts to control the animal, he was thrown out and had his ankle badly twisted. It was thought at first that the bones were broken, but Dr. King, who was summoned, pronounced it a very severe sprain.

A Business-Like Cheese Romance.

The Red Rock Cheese Factory is doing a big business this season. Last week 16,000 pounds of milk were delivered, and the June make will come up to about 30,000 pounds of cheese. Last fall Mr. Saylor put a note in a little bottle in one of the cheese and has received a letter from Montreal, dated June 10th, saying: "Yesterday in opening a cheese we found in one a little bottle, in which there was a letter, and have noted contents of same. In reply must say that we have found the quality of the cheese extra, and have no doubt it can be put in the first rank.—Laporte Martin Co."

SUNDAY'S SHOOTING A MERE SKIRMISH.

Bombardment of Santiago City Was Begun To-day.

IS DOUBTED AT WASHINGTON.

All the Talk of Peace Turns Out to be Fruitless.

THE POPULAR FEELING FOR PEACE.

The Spanish Ministry Tottering to its Fall—No Ministry Anxious for the Abhorrent Duty of Suing for Peace.

Special 3 p. m. despatches to the Examiner.

Resultless Peace Talk.

London, July 11.—A special from Madrid says:—All the talk of peace seems, up to the present, to have led to no tangible results, and looks as though the policy of drift and waiting for something to turn up would continue until Santiago has fallen.

The Spanish Idea.

New York, July 11.—A World's Madrid despatch says:—The Government's plan is to sue for peace when ever the war situation, according to Spanish ideas, will permit it. The appeal will be made directly to the United States. There is a growing feeling of disposal all round to let Sagasta's government perform the galling task of negotating peace.

Camara Allowed to Coal.

Port Said, July 11.—Admiral Camara's ships have been allowed to take on board some coal after furnishing a written guarantee that the entire squadron is returning to Spain direct.

The Vatican's Cautious Course.

London, July 11.—Rome correspondence says: The action of the Vatican in urging the Queen Regent of Spain in the direction of peace has been very cautious in order to avoid displeasing the United States.

Bombardment to Begin To-day.

Washington, July 11.—A cablegram from General Shafter was received at the war department over night stating that the bombardment of Santiago will begin to-day. It appears that the affair of Sunday was only a preliminary skirmish.

Yokohoma, July 11.—Another plot at Zoul, the capital of Correa against the government has been disclosed. Several prominent officials have been arrested on charge of complicity. Others, including a former minister of war, have fled.

The Pendulum Swings towards Peace.

Madrid, July 11.—Public opinion is inclining rapidly in favour of peace. The people are becoming more convinced every day of the impossibility of withstanding the power of the United States.

Ships Begin the Bombardment.

Off Aquadores, July 10, 5.15 p.m.—To-day vessels of the United States fleet began the bombardment of the city of Santiago.

A Crisis at Madrid.

Madrid, July 11th.—The newspapers of this city openly discuss the imminence of the ministerial crisis owing to the attitude of Senor Gomaso. The official Correspondencia confirms the report of the cabinet crisis.

Bombardment of Fleet Doubted.

Washington, July 11.—Secretary Long states that in his opinion the fleet has so far taken no part in to-day's engagement, otherwise, he said, Admiral Sampson would have reported, which he has not done.

PERSONAL.

Miss Rossie Lambert left for Rochester to-day.

Miss A. MacKenery, of town, is visiting her mother at Port Perry.

Mr. Chas. Johnston, of Montreal, is visiting relatives in town.

Mr. J. D. Tully, of Peterborough, was in Lindsay Saturday.

Mrs. W. H. Donnelly left this morning for a month's visit to friends in Detroit and Cleveland.

Mrs. George Rose, Reid street, left a day or two ago on a voyage to England to visit her parents.

Miss Gertie and Master Harry Latimer, Gilmour street, went to Seaforth, Ont., this morning to spend the holidays with their grand parents.

Mr. Tony Miller and bride (nee Miss Polly Payne) of Rochester, N. Y., are visiting in town, the guests of Mr. and Mrs. J. Butcher, Ashburnham.

Mr. R. R. Rogers was in Fenelon Falls last week looking into complaints made by boatmen as to waste of water by lumbermen, causing difficult navigation.

Miss Mary Grant, organist of St. Andrew's church, left this morning on a visit to friends in Guelph and Exeter. Miss Vida Gladman will supply for Miss Grant during her absence.

The Rochester Democrat contains a list of the graduates of the City Hospital Training School for Nurses. Among the successful candidates appears the names of Miss Jessie Glover, of Ashburnham, and Miss Marian Johnston of Ottawa, the only two Canadian graduates.

Mr. D. D. Henderson, of Otonabee, left at the EXAMINER Office a twig of spruce, the underside of which was thickly crusted with cocoons—those of the tent caterpillars. These cocoons are good things to destroy. Each one will hatch a butterfly or moth of a dirty gray colour, which will deposit in the form of an egg bracelet, the raw material of about three hundred tent caterpillars.

ALL BAD--BUTCHERING, COOKING AND BEDS.

BACK FROM THE CROW'S NEST PASS.

Three Peterborough Men After a Tough Experience are Glad to Get Home—The Hardships they Underwent.

This afternoon the C.P.R train brought to town Messrs. Charles Gibson, 23 Parnell street, Charles Brewer, 31 Albert street, and Amos Green, of Auburn, and you could hardly find three gladder to set their foot upon their native heath than these same men. They had just returned from working upon the Crow's Nest Pass railway, and they had to answer so many questions from those they met at the station that it took them a long time to reach the homes they were so anxious to revisit.

On the first of last March the party left Peterborough—after having put in their votes—under engagement with the C.P.R., under Superintendent Haney, to work upon the Crow's Nest Pass railway line. They were, they said, to receive $1.75 per day, and pay $5 per week for their board. They had no fare to pay out to the pass but paid two dollars to the agent that engaged them. According to Messrs. Gibson and Brewer, the men had a rough experience. They worked hard, got $1.75 per day, and had to pay $22 26 per month for board, 50c a month for doctor's fees, and 25c per month for mail matter through during the time they were at the Crow's Nest Pass none of them got any mail matter.

They make great complaint of the board for which they had to pay such high prices. Cleanliness in preparing the food was not an element that bothered either the butchers or cooks. A drove of cattle would be brought into camp. One of them would be lassoed and shot, his throat cut, the skin peeled off, the entrails removed, and a little of the remaining blood scooped out with the hands, and that was all the dressing it received. The cooking and serving of the food was on a par with the method of slaughter. One of them was asked as to the sleeping accomodation and the answer came with emphasis:—

"Why, you wouldn't put a decent pig to sleep in such quarters." And the speaker continued "I'm a Christian man and civilized, but these clothes you see on me," and he backed considerately from the little group that surrounded the trio, "have served their usefulness, I shall have to take them off before I enter a house—there so lively you know," and the hearer was left to infer what the nature of the sleeping quarters was like.

But the men complained most perhaps of the treatment on the return home. They declare that when the work was completed on their section, they were paid off, and they had no choice if they wished to get work again but to foot it to the Kooteney, a distance of 80 miles, carrying their heavy packs, and paying en route fifty cents for every miserable meal, and fifteen cents for a glass of beer. Therefore, they decided to return home, especially as one of them, Charles Brewer, was too ill to work, and his appearance as he arrived at the station here, showed that he had passed through an experience sufficient to wreck a stronger man.

The men left the Crow's Nest Pass last Saturday week, and the journey home is another sore ground of complaint, except in the case of Mr. Brewer who having a doctor's certificate got free passage home. They started, and Messrs. Gibson and Green had to pay $2.25 to ride thirty miles in a box car over an ungraded track—from Cold Creek to Bulls Head. On reaching this spot they found there would be no train till the following Monday morning, and as living was very expensive, 50 cents a meal, they decided to walk, and tramped it to the "eighth siding." Then pretty thoroughly tired out, they took the train and had to pay $2.25 for another thirty miles, and were charged 50 cents a meal. It cost Messrs. Gibson and Green $19 00 from McLeod to Peterborough, with 50 cents per meal.

Mr. Gibson worked at piece work and had a little better showing than men that worked by the day, and even then the workmen had to look pretty sharply if he protected his interests on the measuring up. He says that men working by the day could only make $13 per month to do their best. The work was hard and the board and lodging horribly disagreeable. The joy of the men at returning home seems to indicate that their experience in the now notorious Crow's Nest Pass was "not all beer and skittles."

—A wages case enlarged from Saturday came up this morning at the police court. A servant girl claimed $70 from her employer, a hotel keeper. But as the amount sued for was beyond the jurisdiction of the court, no further proceedings were taken.

—It is just a year ago to-day that Andree and his two venturesome companions sailed from the Spitzbergen Islands in a balloon on their aerial voyage of discovery for the North Pole. With the exception of a note brought back by a carrier pigeon several weeks after their departure, nothing has been heard from them since. It is within the range of possibility that Andree and his companions may return in safety, with a marvellous tale to tell, but their chances seem desperate. Andree, however, before his departure told his friends not to feel any anxiety if he was not heard from until this summer.

TEMPTED AS WE ARE YET WITHOUT SIN.

TEXT OF A GRAND SERMON BY REV. C. W. BRENT.

The Lessons to be Learned From Our Lord's Temptation and Victory Over it—He was Tempted as Man, and as Man Overcame —We can Follow His Example.

At St. John's church yesterday morning there was a large attendance. The sermon was preached by Rev. C. H. Brent, of Boston, who is in attendance at the 'School for clergymen at Lakefield." The reverend gentleman took for his text a part of the 15th verse of the fourth chapter of St. Paul's Epistle to the Hebrews—"Was in all points tempted like as we are yet without sin." The preacher is a very effective and pleasant speaker, of facile delivery; his sermon was pregnant of thought, and was expressed in language beautiful for its direct simplicity and adaptability to the expression, in the most effective and affecting manner, of the beautiful ideas extracted from his subject. In the troubles and bitter experiences of life we all turned eagerly to the friend capable of sympathizing—by virtue of a similar experience—who had passed through trouble similar to that which was riving our own hearts. A common experience was what united in the closest bonds individuals and social communities. There were exceptions but in general this feature was characteristic of both these relations. The unifying force that will unite the world in closer bonds in the happy future we all hope for, will be common experience. The common experience of our Blessed Lord with the children of men was the distinguishing characteristic of His relation to them. Christ lived His life—the human part of it—as a man, and He lived it to the full. He took no advantage of His divine power to mitigate the sorrows that in common with the world at large marked His earthly sojourn with mankind. The resistance by Jesus of temptation as spoken of in the text was referred to, and the possibility of our similarly succeeding pointed out. We might not always succeed, for it might be that in this as in other things, we could not imitate Jesus. We were not, the speaker pointed out, called upon to imitate Him; we were required to follow Him. Jesus was tempted, not as God but as man, and as man, by the divine power, He resisted and was "without sin." He always used the same weapons we all must use — faith and prayer. The preacher then made beautiful reference to the great temptations that Jesus suffered, and it was pointed out that they were typical of the temptations that enter into the common experience of human life. The first temptation in the wilderness where the tempter pandered to the desires of the flesh—to hunger—represented the temptation of youth, to yield to the gratification the desires of the flesh. That of the pinnacle of the temple represented the temptation of mature life, the love of ambition, and the temptation on the cross, the despairing cry of the human Jesus, "forsaken" in the hour of his agony, represented the temptation to despair, that was the common lot of advanced years. The subject was traced in many of its ramifications and comforting lessons drawn, illuminated by strikings and apt illustrations. The speaker's style is terse and epigrammatic and many a felicitous phrase will rest in the memory of his hearers, not only as a delightful memory but as a hope, inspiration and earnest of our power to triumph, as our blessed Lord did by divine help, over the temptations that so sorely beset the pathway of human life.

THE PRINCIPLES OF THE ORANGE ORDER.

THEIR EXPOSITION LAST NIGHT BY REV. W. L. ARMITAGE.

Annual Church Parade of the Members to All Saints'—"Honour all Men; Love the Brotherhood; Fear God; Honour the King."

Last night the Orange fraternity mustered for church parade to All Saints' Church, at the Orange Hall, George street.

A procession marshalled by Bros. G. W. Hall and J. Hetherington, and headed by the Fire Brigade Band, was formed. It consisted of Diamond L. O. L. No. 80; Young Canadian L.O.L. No. 49; Col. Sanderson L. O. L., No. 321; Downers' Corners; Nassau L.O.L., Queen's Own L.T.B., No. 48; Jubilee L.O.L., No. 178, and representatives of the 'Prentice Boys, Royal Black Preceptory, and Royal Scarlet Chapter. The procession marched to All Saints' Church and there were between two hundred and three hundred in the cortege.

The large turn out of brethren filled the seats in the front half of the church assigned to them. In recognition of the visit of the brethren the church was decorated by the banner of the order placed in the chancel angle, and the entrance of the chancel was marked by a rood screen formed by the Union Jack on either side. Leaflets containing the order of service and the hymns were distributed for the benefit of those members not of the Anglican communion, and as a consequence the visitors were able, as they in fact did, to enter heartily into the services.

The preacher, Rev. Bro. W. L. Armitage, who during the course of the service welcomed the local members of the Orange Association of British North America on the occasion of their presence for the first time at All Saints to worship in a corporate capacity, preached the sermon. He chose for his text the 17th verse of the second chapter of the first general epistle of St. Peter:—

Honour all men; Love the Brotherhood; Fear God; Honour the King.

The preacher said, in extending a welcome to the visiting Orangemen, we recognized a common sympathy with the church of God, especially the Church of England, which had given its sons to suffer and die for "the faith once delivered to the saints." The duty that specially devolved upon the preacher was the duty that was imposed upon the prophet Jonah—to preach the preaching which God had given him. His text was the golden text of the Orange order, which was inscribed upon its banners. The order did not claim to be of the church, but it represented Christian freedom. The objects of the Order was to bind brethren together in the practice and extension of the principles of the Christian religion. The Orange Order was bound to loyalty to the British constitution as the embodiment of the highest principles of Christianity. Another principle was the duty of the mutual support of brethren, as well as a regard for the rights and liberty of humanity. These were the principles upon which the preacher welcomed the representatives of the Orange Order. The injunction to honour all men was one to which all true Orangemen would live up to it for all men, though in one sense many were unworthy of honour, were the children of a common father and worthy of the love and sympathy and indeed honour of the members of the order. The order claimed the privilege of living up to the injunction to "Love the Brotherhood," though there were many who ignored it, and from various motives set themselves at variance with each other. The brotherhood should be loved for what it had done in the past, to bring about the enjoyment of Christian liberty. The brethren were especially urged to live up to their principles in their daily lives. They would be called upon in a day or two to join in a celebration, unique in the history of the nations—to pay a tribute to a man who waged so noble a fight for the establishment of a grand principle, and they would only do credit to such an occasion, so far as they lived up to the principle for which William of Orange fought so bravely. Another way of showing "Love to the Brotherhood," could be shown by looking after the erring brother whose loyalty to the order had grown cold—who had gone astray—and by endeavoring to reclaim him. To "Fear God" was the first principle of the order, but unless they lived up to that—lived up to the principles set forth in an open Bible in their hearts and homes, they might as well adopt the principles of any secular book. God was to be feared on account of His great Redemption. Many claimed that we made too much of the cross. Not if we made it an admonishment of the duty of our daily life, and not a mere ornament and emblem. "Honour the King" was made easy with such a sovereign as we had upon the throne. Gladstone had paid a grand tribute to the Queen as a monarch and a woman. Other men are loyal, but Orangemen especially honour the Queen for the religious principles she represents. Orangemen should honour the Queen by imitation of the goodness of her life, and her work for the advancement of the good of her subjects. Orangemen should especially unite to advance the interests of this fair Dominion, to whose greatness, present and future, the preacher paid an eloquent and patriotic tribute. The speaker concluded by urging the brethren to so observe the 12th of July, that they should do no single act that would be at variance with, or bring discredit upon, the grand principles of the Order.

The procession reformed and, on returning to the lodge rooms, cordial votes of thanks were passed to the preacher, the church wardens and the choir of All Saints.

MR. BUXTON RETIRES.

Report of Monthly Meeting of the Y. M. C. A.

The regular monthly meeting of the Board of Directors of the Y.M.C.A. was held on Friday evening last, there being a good attendance.

Mr. Parker presided. It was decided to hold the annual meeting on Tuesday evening, Aug. 2nd. The following were appointed as a committee to nominate officers and directors. Four represent the Board and four the membership. Messrs. A. E. Dixon, chairman, A. L. Grover, J. W. Bennett and W. L. Innis, also Messrs. A. Stevenson, R. G. Irwin, Wm. Beaton and G S Bell.

The secretary read the following letter of thanks from Mr. F. H. Dobbin, secretary of the Meet Committee, C.W.A.

Secretary Y.M.C.A.

DEAR SIR,—Will you please convey to your Board of Directors the thanks of our committee for your generous act in placing the freedom of your fine building at the disposal of visiting members of the C.W.A. on July 1st and 2nd.

I am instructed by our committee to advise you as above.

Yours respectfully,
F. H. DOBBIN,
Secretary Com.

Mr. Williamson stated that over 200 baths had been taken and that a large number had inspected them. All were well pleased with the accommodation.

The matter of an instructor in the gymnasium for next year was then discussed by the Board, Mr. Buxton being present. An effort was made to secure him to act for another year, but without success. Mr. Buxton preferring to return to the Springfield Training School and finish his course.

In view of the summer season's work being hampered because of Mr. Buxton's recent illness, it was mutually agreed that he should take a much needed rest until the school should open. Consequently he will leave for his home in Washington, D.C., in a few days.

The Secretary was authorized to open correspondence with several capable physical men with a view to securing a successor for the position. Duties to commence on Sept. 1st.

Mr. Buxton's departure will be much regretted, as his work as an instructor was much appreciated, not only by the membership generally, but by the members of the board.

The members and friends of the work are asked to remember the annual meet on the 2nd of Aug.

The nominating committee will meet in the board room on Tuesday evening of this week.

DIED IN TORONTO.

Demise of John Fraser.

A telegraphic despatch was received this morning from Toronto announcing the death in that city of John Fraser, well known in Peterborough. Deceased has been in Toronto about a year. He was for many years an employee of the William Hamilton Manufacturing Company and a prominent member of the Fire Brigade Band. He was at one time a member of the Oddfellows' Order and of Canton Militant, No. 10. He was also a member of Court Peterborough Canadian Order of Foresters.

The funeral will take place to-morrow on the arrival of the Klondyke Flier. The funeral will be in charge of the Foresters.

A LARGE FUNERAL.

Obsequies of the Late W. G. Allin.

The unusually large attendance at the funeral of the late William G. Allin, yesterday afternoon, was evidence of the high degree of respect he enjoyed in life.

The funeral took place from the family residence, Crescent street. The services at the house and the grave were conducted by Rev. S. J. Shorey, assisted by Rev. W. L. Smith, of the Charlotte street church. Additional evidences of esteem were represented by the very large contribution of flowers. The Sons of England sent a beautiful wreath bearing the letters, wrought in flowers, ; "S.O.E." and the Canadian Order of Foresters, a fine floral pillow with the initials "C.O.F." The employees of Ackerman's harness factory contributed a handsome anchor, and the employees of Allin's pottery, also sent a floral tribute, besides there were large tributes of flowers from private friends.

The Sons of England, Canadian Order of Foresters and the employees of the harness factory attended the funeral in a corporate capacity. An immense procession followed the remains to the Little Lake cemetery, where thousands were assembled to join in the tribute of respect to the deceased, who was held in very great esteem and respect. The pall bearers were intimate friends of the deceased.

Resolutions of condolence to the relatives of deceased were passed at the special meetings of the Sons of England and Foresters.

Removing Nuisances.

Having purchased the property used as a dumping ground for the town, I am prepared to take orders for the removal of dead animals, night soil, etc.—ROBERT NICHOLLS, 47 Park street. 30d138

"A KILLING FROST."

Potatoes, Beans, Corn and Tomatoes Touched up Fatally.

Both last night and the night before was marked by a sharp frost in several sections. Last night was most severe, and tender garden crops in low lying grounds in the south ward were badly bitten and blackened. The special crops suffering were potatoes, corn, beans and tomatoes. In the south ward the injury was especially great. The frost was, as far as can be learned, general. From different parts of Otonabee we get reports of damage done by frost, ice being even formed. Huckleberry harvesters coming in from north of Buckhorn, reported that they saw ice formed on wayside pools. A gentleman that boarded the C.P.R. train at an early hour at Smith's Fall, reports having seen ice on pools there. A lady from Otonabee rose at 5 o'clock this morning, picked up a leaf encrusted and stiffened with frost, which remained in that condition long enough to permit her to take it upstairs and show her slug-a-bed husband. One farmer from Smith reported that the frost was severe enough to damage the spring wheat, but it is to be hoped that he is pessimistic in his feelings.

TORONTO INDUSTRIAL EXHIBITION.

The prize list for the Toronto Industrial Exhibition, which is to be held this year from the 29th of August to the 10th of September, has been issued, a copy of which we have received. The exhibition is to be formally opened by the Governor-General and the Countess of Aberdeen, on Tuesday, the 30th August, and this will probably be their last official act in the Dominion previous to their departure from our shores. The exhibition this year promises to be more interesting than usual on account of Great Britain and France each sending large exhibits.

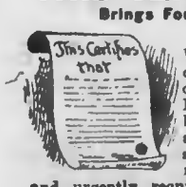
THIS CERTIFICATE

Brings Forth a Story.



BOWMANVILLE, ONT.

We, the undersigned, certify that the health of the Rev. R. A. Bilkey has for months been deteriorating, and that he is now suffering from severe nervous prostration, and urgently requires immediate and prolonged rest. J. W. McLaughlin, M.D., A. Beith, M.D., L. Holland Reid, M.R.C.S., etc.

THIS INTERVIEW TELLS IT.

A reporter called on the Rev. R. A. Bilkey, rector St. John's (Episcopal) Church, Bowmanville, Ontario, during a church function, and on congratulating him on the great change for the better in his appearance, the reverend gentleman said, "It is due entirely to Dr. Ward's Blood and Nerve Pills.

"I suffered for over three years from extreme nervousness, weakness and prostration, and could not obtain relief. A few months ago it became only too apparent that extreme nervous prostration had set in, as I lost flesh and appetite rapidly. Three of our four medical men pronounced me in urgent need of immediate and prolonged rest in order to build up my nervous system, giving me a certificate to that effect. About this time, by pure accident, Dr. Ward's Blood and Nerve Pills were brought to my notice. I decided to try them, and on doing so a decided change for the better took place at once. I have since continued taking the pills, with continued and marked benefit and improvement. My appetite has returned. I am gaining in flesh steadily, and my general health is now good. Further, I am sure that these results are due to the action of Dr. Ward's Blood and Nerve Pills, and I have every confidence that they will do for others all that they have done for me."

Dr. Ward's Blood and Nerve Pills are sold at 50c. per box, 6 boxes for $2, at Druggists, or mailed on receipt of price by the Dr. Ward Co., 71 Victoria Street, Toronto. Book of information free.

A CLEVER EQUITY JUDGE.

But as a Jury He Proved a Monumental Failure.

Ex-Judge Dillon delights in telling anecdotes of the days when he was on the United States circuit bench and hold court in Kansas. He lately told the story to some New York friends of a jury in his court at Leavenworth which tried a Brown county woman who was charged with selling whisky without a government license. It was shown by the testimony that the woman was in the habit of concocting a medicine from whisky and herbs, which she sold to neighboring farmers. This was the jury's verdict: "We do hereby find the defendant not guilty, but we warn her that if she does not cease the practice she is likely to go to jail."

Once upon a time there was a happening in Judge Dillon's court at Leavenworth which so far he has never embodied in any of his anecdotes. A man had been indicted for stealing government mules from Fort Hays. Judge Horton was then United States district attorney, and Tom Fenlon, the well known Leavenworth lawyer, appeared for the defense. It happened when the case was reached on the docket that two juries were already out, and Judge Dillon remarked that the case would have to be postponed until one of them came in. Mr. Fenlon stated that the defendant was ready to go to trial before the court without a jury, and with this waiver the case went to trial. The government officers testified to the prisoner's guilt in a manner that appeared to be conclusive, but in rebuttal the prisoner produced a great gang of pals who clearly proved an alibi. When Judge Dillon came to deliver his verdict, he said, "While the preponderance of testimony appears to be greatly in favor of the accused, I am nevertheless convinced of his guilt, and will so decide."

Tom Fenlon was divided between astonishment and anger. He said nothing, however, until he met the judge at the dinner table that day in the Planters' hotel, when he walked up to the table where his honor was sitting and said:

"Judge Dillon, I regard you as the best equity judge in the United States, but as a jury you are the d——dest failure I ever heard of!"—Kansas City Journal.

Throat lined with Ulcers

A Young Lady Cured of Long Standing Catarrh and Catarrhal Sore Throat by Dr. Chase's Catarrh Cure.

Miss Anna A. Howey, of Eden, Ont., says that she suffered from Catarrh for ten years, used a number of remedies advertised, but was always disappointed in the result.

Last fall she suffered intense pain in her head and her throat was lined with ulcers. The doctors called it Catarrhal Sore Throat, but did not cure it. She saw that Dr. Chase's Catarrh Cure was being highly recommended, so procured a box from C. Thomson, druggist, Tilsonburg, Ont., and commenced its use. Soon the ulcers cleared away from her throat, the pain in her head ceased. She says that Dr. Chase's Catarrh Cure does not cause distress or sneezing when being used, and is the most effective catarrh remedy she ever tried.

Mr. J. D. Phillips, a Justice of the Peace, declares that he knows Miss Howey and her mother, and can vouch for the truthfulness of her statements.

Dr. Chase's Catarrh Cure, sold by all Dealers. Price 25 cents, complete with blower.

FIERCE NAVAL FIGHT

THE WYOMING'S HEROIC BATTLE WITH THE JAPANESE.

Against Overwhelming Odds the American Commander McDugall Fought One of the Most Daring and Successful Engagements In the History of Marine Warfare.

Strange as it may seem, the Wyoming's oriental battle is an almost unrecorded chapter of our naval annals, though it ranks even higher in point of daring and success against overwhelming odds than the defeat of the Alabama by the Wyoming's sister ship, the Kearsarge. But the Wyoming never was in very great luck as a naval star. She had her part throughout the civil war in all the hardest of blockading and cruising service, and fought well whenever she had the chance, but she did not have the luck of getting into the papers. She was sent off at the same time as the Kearsarge to cruise for that scourge of the seas, the Alabama, and just missed her by the merest chance on two occasions in the China seas.

It was in 1863, toward the end of the dual reign of the tycoon and the mikado, when Japan was in the throes of civil war, and the forces of the rebel princes were resisting to the last the passing of the old feudal system. The Prince of Nagato was one of these, and from his tiny kingdom that fronted on the straits of Simonoseki he declared himself lord paramount of everything in sight, including the neighboring seas, from which he took generous toll as did ever the pirate chiefs of Tarifa. He had laid violent hands and hot shot upon the vessels of various powers, including Great Britain, France, the Netherlands and the United States.

Meantime Prince Nagato throve and flourished by the strait of Simonoseki, and failing one day to wring tribute or blackmail by any other means he fired on the American merchantman Pembroke and killed a couple of her crew. There was another diplomatic protest of the combined foreign representatives to the Japanese government, and Commander McDugall, who happened to be in port with the Wyoming, suggested that if the mikado could not take a fall out of his rebellious subject the Wyoming could and would without much urging. This struck the government as a good thing and an easy way out of the international difficulty, so McDugall was given carte blanche to settle accounts with the Prince of Nagato in behalf of all the powers concerned, and he forthwith sailed away.

It was the middle of July when the Wyoming found herself in the strait of Simonoseki and in sight of the shore batteries which were a part of the prince's defenses to seaward. Before she had time to open on the batteries two Japanese gunboats loomed up, one ahead and one astern, in the narrow strait, and presently a third came cruising out from among the neighboring islands. It was a nasty place for a fight, McDugall being without charts or pilots, and the odds were more than enough for Nelson himself, being 48 guns of the three Japanese vessels to the 26 of the old Wyoming, to say nothing of the batteries on shore. There was still a chance to run, barring some danger of grounding in the narrow channels among the islands, but the idea does not seem to have occurred to any one aboard the frigate.

Working to windward of the nearest Japanese, the Wyoming opened at long range and worked down on her till, when close aboard, there was nothing of the enemy left standing above decks. The other two vessels had come up in the meantime and engaged the American on either side, but she lay to and gave them shot for shot, port and starboard, till her gunners were smoke blind and the flame of the guns no longer served to light the battlecloud that rolled in white billows over the smooth waters of the strait. It was desperate work in the shallow water, but the Wyoming was the best vessel, and she outmaneuvered her two opponents from start to finish, though twice aground and once afire, with as many men knocked out from splinters and heat as from the enemy's shot.

Fighting themselves out of one smoke patch into another, the three combatants circled around like two crows and a kingbird till they had drifted down in range of the shore batteries, which gayly took a hand in the game. But McDugall ran across the bows of one of his enemies, raked her as he went and left her a floating wreck, and then turned his attention to the batteries. The Wyoming's men rigged the smith's forge on deck and tossed hot shot into the works ashore till they set them afire and the soldiers fled, and the other Japs on the remaining cruiser, deciding enough was as good as a feast, followed their example.

So McDugall mended his rigging and patched his bulwarks, and meanwhile sent word to the recalcitrant prince to come down and settle or he would sail inland and shell the royal palace about its royal owner's ears.

The prince, who was no less discreet than Colonel Crockett's coon, came down promptly, and of the resulting indemnity $300,000 fell to the lot of the United States. It was many years before this money got into the treasury of the United States, but meantime the state department had charge of it and had invested it so well that there was a very little short of $2,000,000 finally turned over to the government, which, after all, was pretty good pay for one day's fighting, with a loss of only five killed and six wounded.—Washington Post.

FIVE WORKMEN KILLED.

Case of Cartridges Exploded When Being Carried on the Manitoba.

London, July 9.—While the steamer Manitoba, which was recently purchased by the United States Government from the Atlantic Transport Line, was loading at Albert Docks yesterday morning, a case of cartridges which was being carried aboard exploded. Five workmen were killed, all of them literally blown to atoms, and 15 others were terribly injured.

The Ontario Medical Council.

Toronto, July 9.—The Ontario Medical Council began the day yesterday with a hot discussion on lodge doctors and the abuse of hospital privileges by those able to pay for them. Finally the discussion was ruled out of order. Then Dr. Rogers of Ottawa wanted to raise the matriculation standard, but he, too, was bowled out and withdrew his motion. A bylaw to tax the profession a $2 annual fee was passed. It was decided to sell the Medical building, but not at a less price than $90,000. In elections hereafter open voting will prevail, and the balance of the sessions yesterday were spent in internal matters.

Leak in the New Canal.

St. Catharines, Ont., July 9.—Navigation was suspended Thursday night on the Welland Canal, on account of a bad leak in the bank at Lock 19. A large staff of men were immediately set to work, but it was 4 p.m. yesterday before locking was resumed.

Fell From His Wagon.

St. Catharines, July 9.—An iceman named J. W. Coleman met with a bad accident here yesterday afternoon. He fell from his wagon, the wheel going over his head, tearing the scalp almost entirely off. He is now lying in a precarious condition.

Battleford Rancher Killed.

Battleford, N.W.T., July 9.—Antoine Day, a prominent rancher of this district, 25 years of age, was drowned yesterday evening while crossing cattle over the Saskatchewan River, two miles above this town.

The Alpha in Port.

Vancouver, July 9.—The steamer Alpha completed a long voyage from Halifax by arriving in the harbor yesterday.

Fighting Joe Has a Good Show.

Victoria, B.C., July 9.—The provincial elections take place here to-day. Excitement is keen, the Opposition is making a great fight. Railway bonusing and the financial policy are the principal issues of the contest. Each side is confident. The return of Mr. Joseph Martin for one of the Vancouver seats is generally conceded.

Seamen Desert.

Vancouver, July 9.—Several men have deserted from the warships. Gunner Blakeley, the best marksman on the Flagship Imperieuse, is supposed to have made his way to the States with a view of entering the United States Navy.

Have Left Canada.

Montreal, July 9.—Senor Du Bose and Lieut. Carranza have taken passage by the Dominion line steamship Ottoman, which sails from this port on Wednesday next.

A baby is like crazy patchwork, composed of bits of its ancestors. All of them contribute something to baby's physical or mental or moral make-up. The mother gives the largest share. To a great extent the health of a child depends upon the health of the mother, both before and after birth.

If, during the period of expectancy, the mother enjoys good general and local health, she will have a child with a robust body, an alert brain and vigorous health. You cannot expect such a child from a weak, sickly, nervous, despondent woman, who is broken down by derangements and disease of the distinctly feminine organs. A woman in that condition is almost sure to have a puny, sickly, peevish baby. Dr. Pierce's Favorite Prescription is the best preparation for motherhood. It relieves maternity of its dangers, and of almost all its pain. It restores the delicate and important organs that bear the brunt of maternity to perfect health and strength, and assists the regular and healthful performance of all the natural functions. It banishes the ailments of the critical period, and makes baby's debut easy and almost painless. It insures the little new-comer's health. Thousands have testified to its merits. Good medicine dealers sell it, and no honest druggist will insult your intelligence by urging upon you something else as "just as good." The "just as good" kind is dear at any price.

Mrs. F. B. Cannings, of No. 4320 Humphrey Street, St. Louis, Mo., writes: "I am now the happy mother of a fine, healthy baby girl. I feel that your 'Favorite Prescription' has done me more good than anything I have ever taken. I took three bottles of the 'Prescription,' and the consequences were I was only in labor forty-five minutes. With my first baby I suffered eighteen hours, and then had to lose him."

A $1.50 home doctor-book FREE. For a paper-covered copy of Dr. Pierce's Common Sense Medical Adviser send 31 one-cent stamps to cover cost of customs and mailing *only*. Cloth binding 50 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

ORCHARD AND GARDEN.

To have a good garden try to have something growing all the time.

Starvation and neglect are great causes of unfruitfulness in orchards.

Too much manuring increases woody growth at the expense of fruit.

Use a short whiffletree in cultivating among the trees in the orchard.

Sawdust is one of the best materials to use for mulching all kinds of berries.

With flowering plants, cutting the flowers as they mature strengthens the plants.

Cultivation in the garden, like planting, will not admit of any unnecessary delay.

A young tree set out on the side of an old tree that has died seldom thrives. It usually starves to death.

With raspberries and blackberries the best treatment is to keep the canes pinched back to four feet.—Exchange.

A WINDSOR JEWELLER.

Cured of Bright's Disease by Dodd's Kidney Pills.

Windsor, July 4th.—(Special despatch)—"If the United States army had taken a supply of Dodd's Kidney Pills to Cuba it would have been able to withstand the ravages of disease arising from the drinking of bad water," said a promident physician to-day.

"Dodd's Kidney Pills he continued, are the greatest life savers in the world. I know a score of persons whose lives they have saved.

"Right here in Windsor Mr. R. F. Colwell, the Ouiette street jeweller, has been cured of Bright's Disease by them after two years' suffering. I use them in my practice, and can cure the worst case of Bright's Disease, Diabetes, or any other Kidney complaint with them."

HE HEARD THE SONG.

Comedian Knowles and His Attentive Audience of One.

R. G. Knowles, popularly known as Dick, the very funny American comedian, acknowledges that on one occasion he was almost put out of countenance, and it cannot be gainsaid that it would take a deal to do that.

His publishers had issued a song bearing his portrait and name, called "Girl Wanted." It was a ditty that Dick intended to sing, but had not produced up to the time of his visit to a city in Ireland called Dublin. But the published copies of the song were in the windows of the music shops.

Knowles met with a big reception on his appearance at the Star Music hall, and there was more applause after his first contribution to the programme. But he was astonished to hear amid the applause a stentorian voice shouting, "Girl wanted!"

And each time that Knowles finished one of his items came again that loud and piercing cry: "Girl wanted! Girl wanted!"

At last, after responding to several encores, the comedian had to take some notice of the request. So he went down to the footlights and said: "There is a gentleman asking me to sing 'Girl Wanted.' I am sorry I cannot oblige him, as I have no music for the orchestra, but if the gentleman is particularly anxious perhaps he will come round to my hotel tomorrow, and I will sing it for him!"

Of course the audience laughed at the jocular invitation, and Knowles dismissed the subject from his mind. But next day at the hotel a waiter handed him a card bearing a strange name. Wondering who his caller might be, Knowles consented to see him, and there entered a severe looking gentleman carrying a roll of music.

"Good afternoon, Mr. Knowles," said the stranger. "I've come to hear you sing that song, if you please."

That was when Dick felt a draft. For a moment he was completely nonplused; but, entering into the spirit of the affair, he laughingly said, "Very well; sit where you are," and proceeded to stand up and sing the song completely through. The stranger, whose music proved to be a copy of "Girl Wanted," followed every word and every note.

When the strange performance was finished, Knowles sat down, laughing now and thoroughly amused. The gentleman gravely took his hat, bowed and said: "Thank you. It is a very good song."

"You are quite welcome," said Knowles, "though you did not pay to see the performance."

"Yes, I did," remarked the stranger. "I paid my usual shilling to the porter at the door."—Ally Sloper.

An Experiment Which Made Matters Worse Than They Had Been.

A story, the truth of which is vouched for in high quarters, is told concerning the "manners" of the political members of a small country renowned for its ancient courage. The prime minister gave a reception to meet some distinguished Englishmen. The assemblage consisted solely of the strangers, the members of the parliament and the prime minister. During the course of the evening one of the more distinguished of the English guests discovered that his watch had been taken. He went to his host and informed him of his loss, adding that he especially prized the watch, as it was a present to him from the king of the country whose guest he had the honor to be at that moment.

The prime minister saw at once that there was only one thing to be done, and, asking for silence, explained the situation to the company. He said that no doubt some one had yielded to the temptation of the moment, but that when they learned that the missing article was the gift of their king he was sure their loyalty, if nothing else, would prompt them to restore it to its owner. In order that the culprit's honor might be preserved and the country saved from a scandal, he said, the lights would be lowered for five minutes and the guests would defile past the writing table, which would give an opportunity for the delinquent to place the watch there.

Upon this the room was darkened for the stipulated time. On the lights being turned up it was found that the watch had not been placed on the writing table, but that a valuable silver inkstand, also a gift of the king to his prime minister, was missing as well.—London Telegraph.

Economics.

Frants Poesing could not understand why he should not be allowed to leave the barge office. His card bore the inscription, "Not money enough," but he thought he had something as good as money besides the cash he had shown. He was a healthy young German, his accent fresh from Unter den Linden, his suit and his boots spick and span, his manner full of dignity and method.

"They say I have not money enough," he argued, "but I have a brand new suit in my trunk, for which I paid 64 marks, and I have not worn it more than four or five times. You wish to see it? Well, anyhow, it is worth at least 55 marks now. I assure you it is as good as new. Then I have a lot of new books, for which I paid 50 marks. They are all about business, and one is entitled 'The Merchant on the Height of His Success, and How to Follow Him.' I bought all these books before leaving because I had made up my mind to go into business in this country and I wanted to prepare for it. So, you see, I have 50 marks' worth of books and a suit of clothes worth 55 marks. This makes together 105 marks, and yet they say I have not money enough."—New York Commercial Advertiser.

HUMAN SACRIFICES

On the Altar of Diabetes, Saved by Dodd's Kidney Pills, Only.

Hardly a family in the country is free from Diabetes. Great thirst, failing sight, numbness in the thighs, bleeding gums, swollen ankles, emaciation, nervousness, pale or turbid urine, loss of sexual power, decaying teeth, pains in the loins or small of the back, are all positive signs that Diabetes is in the system.

Do you know how it ends? IN DEATH. A premature, horrible, agonized, pitiful death. The victim has no peace, no ease in life. His days are filled with tortures. His nights are waking dreams of agony. He longs to die, yet fears the terrors of his end. He dies, a bloated, fetid, repulsive mass of corruption. That is the only end of unchecked Diabetes. Dodd's Kidney Pills will cure it. They drive it out of the system thoroughly, create new, clean blood, rebuild the diseased kidneys, and restore robust health.

His Greatest Misery.

The great ocean steamer, now nearly out of sight of land, was rolling and pitching in a heavy sea.

In his stateroom in the agonies of his first trip on blue water lay a blond young man moaning dismally.

"Don't take it so hard," said a sympathizing friend who had come down from the deck to console him. "It's pretty tough while it lasts, but you'll soon get over it."

"I don't mind the suffering," groaned the hapless victim, "though that isn't plossant, but I'd give $100 to know whether this is seasickness or whether it's that strong cigar I smoked a little while ago!"

And he continued to grow sicker.—Chicago Tribune.

The prisoner replied, "Because I could not live without her!"—Judy.

TREMBLED LIKE A LEAF

A young lady prostrated with nervousness and heart trouble restored to perfect health by MILBURN'S HEART AND NERVE PILLS.

THERE are too many pale faces, palpitating hearts, weak, nervous, run down constitutions among the young women of this generation. More nerve force, more rich blood, more vital energy for the heart is what they need, and Milburn's Heart and Nerve Pills is the very remedy that meets all the requirements necessary to give them bounding health.

"To prove these statements we give an account of her daughter's cure, supplied us by Mrs. Jas. Scott, 221 Emerald Street, Hamilton, Ont.: "Five years ago my daughter had a severe spell of sickness and has been an invalid ever since. She had no strength and could not sleep at night, often having to sit in a rocking chair all night on account of the shortness of breath. She suffered greatly with pains in the heart as well as palpitation, and was very nervous and easily startled, so much so that any noise or excitement would make her tremble like a leaf.

"She commenced taking Milburn's Heart and Nerve Pills and has now taken three boxes in all. Constant improvement has been the record of this medicine in her case. She finds no difficulty in walking down town and back, something she was unable to do for many months. She sleeps well, eats well and is not troubled with the distressing shortness of breath which afflicted her before she took the pills. I am thankful we tried this valuable medicine as the results in my daughter's case have been gratifying in the highest degree." (Sgd.) MRS JAS. SCOTT.

THE JEWELERS' ART.

Russian enamel, principally in blue and red effects, appears very popular in bric-a-brac.

A very attractive application of silver openwork is over the colored silk shades of candelabra.

Beaded bags, purses and cardcases are now provided in the gayest hues, with sumptuous gold mountings.

As a variation of the *omnipresent flag*, the American eagle in nature's own coloring is inclosed in a *crystal as a charm*.

Battleships, surmounted by the flag, eagle or shield, are a favorite painted decoration on square buckles of silver or silver gilt.

One of the silver gilt buckles for the new wrinkled silk belts is shaped like the wheel of a ship. Inside of the rim is enameled a yacht in full sail.

The old time hoop and drop earrings may soon be familiar objects. The latter are already in evidence in gold and silver filigree and several small stones united by fine gold chain.

An unusually elegant solid silver tea set, including the ordinary pieces and tray, is in a most graceful colonial pattern, the *surface plain*, with the exception of a small wreathed design on each panel.—Jewelers' Circular.

DIPHTHERIA.

Medical and Investigatory Science Robbing it of Its Terrors.

The last report of the Provincial Board of Health shows that during March, April and May, there were reported 654 deaths from contagious diseases, against 709 for the same period of last year. These figures include deaths from tuberculosis. These show an increase from 455 to 470, while those from measles increased from 10 to 26, and those from typhoid fever from 23 to 32. Whooping cough caused only 14 deaths, against 18 the previous term, and scarletina 57 against 65. It will be noticed that the changes in figures either way are not great. That fact, therefore, makes the enormous decrease in the number of deaths due to diphtheria, all the more striking. In March, April and May, 1897, some 138 persons died of the disease. In the same period of 1898, only 55 persons succumbed to it. This great decrease in the mortality can only be ascribed to the extended use of anti-toxin. And if so valuable and effective a remedy has been discovered for one deadly disease, is it not likely in time similar remedies will be found for the others?

A CUT IN COAL.

Lackawanna & Western Making it Unpleasant for Dealers in Anthracite.

New York, July 9.—The 'Times' says: Much uneasiness was caused in the anthracite coal trade by the news that a further cut in the price of coal had been made by the Delaware, Lackawanna & Western Railway. An open circular issued by the Lackawanna Company announces a reduction in the quoted price of stove size from $4.50 to $4.00 per ton. This is the third cut in price made by the same company within the past three or four weeks, and it is regarded by the officers of other coal-carrying railways as of serious import.

THE JULY OUTLOOK.

The issue of the Outlook, which appears in Fourth of July week is an illustrated patriotic number. Its contents are very largely of a character to correspond with this designation. A particularly interesting article is Brigadier General Fred D. Grant's "With Grant at Vicksburg." This tells in an extremely readable way the present General Grant's experience when, as a boy, he was with his father, the more famous General Grant, before Vicksburg. Among the illustrations is a double-page drawing by the well-known artist, Mr. T. de Thulstrup, which depicts a strikingly pathetic incident which took place in the presence of General U.S. Grant, General Sherman, and the writer of the article; another interesting article is a full-page portrait of General Fred D. Grant sitting before his tent at Chickamauga. Perhaps of equal interest with this article is that by Colonel T. W. Higginson, called "The First Black Regiment," in which he tells the story of the organization and service of the first South Carolina Volunteers (coloured); several quaint pictures are reproduced from illustrated papers of the time, and ambrotypes of some of the coloured officers also give a quaint interest to the article. A facsimile of "America," written for the "Outlook" by the author, Rev. Samuel Francis Smith, not long before his death, accompanies the words of "America" and "God Save the Queen," printed side by side under music common to both, while the story of the two songs is told. "Under the White Rose Tree" is an idyl of the Civil War in story form. ($3 a year. The Outlook Company, 287 Fourth Avenue, New York.)

CHRISTIAN FELLOWSHIP.

A POWERFUL SERMON ON THE SUBJECT BY REV. C. H. BRENT.

An Injunction to the Exercise of True Love—International Amity Proof of Human Desire for Closer Relationship.

A very powerful sermon on "Christian Fellowship" was preached in St. Luke's church last night by Rev. C. H. Brent, of St. Stephen's Church, Boston. Mr. Brent is one of the foremost clergymen of the United States and has made a special study of social questions.

Taking for his text the words of St. John "My little children, let us not love in word, neither in tongue, but in deed and truth." He told the story of St. John's reply to one who asked him why he continually repeated the words "little children love one another." Nothing is more dangerous than the possession of an ideal, which we are not trying to make real. Love is the ideal brought forward by the Apostle—but he insists upon its practice—"Let us not love in word, neither in tongue, but in deed and in truth."

Love, we need constantly to remember is not an emotion but a force. It may spring from emotion, but if it pass not into action it is worthless. These are days in which we speak much of human love and fellowship. There is a real thirst after it, but we have not as yet developed its possibilities. The speaker proceeded to defend the rush to the cities. For a city stands for closer fellowship. It is not the duty of those who live in cities to repel those who are entering them, but to seek to receive them into a pure society. Nations, too, are drawing closer together. The glory to the pomps of war are gone. The appeal for international amity tells of man's desire for closer relationship.

There is only one thing greater than human fellowship, viz., fellowship with God. We are not only members of Christ, but members one of another. We too, are to be like Jesus. As He gave himself for us, so we are to give ourselves for others.

Three obstacles to fellowship were enumerated, the first of which was elaborated at considerable length. (1) Social chasms; (2) Temperamental dislike; (3) A Weakness for Interesting People.

In the great cities of the United States and England the phenomena is presented of masses of men entirely separated by artificial distinctions. There are the East and West End of London, the East Side and up town in New York, the north end and the Back Bay in Boston. In the one region is wealth, culture, luxury and every opportunity for self realization. In the other is poverty, squalor, misery and lack of opportunity. Between these there is a great gulf fixed. Where life does not touch life there is ignorance. The rich think the poor discontented and a menace to society; the poor think the rich utterly selfish. Neither understand the other. How is this gulf to be bridged? That is the modern social problem in the cities. It is not enough that the rich shall give to poor funds. Lazarus sat of the crumbs that fell from the table of Dives. The gulf is not to be filled with gold and silver, but with human sympathy.

Mr. Brent then proceeded to describe the work of social settlements, the fundamental principle of which is that the cultured and well-to-do not merely visit or give, but live amongst the poorest and most degraded. This is fellowship.

But the social chasm exists in town and village as well as in the city, although it may take on a different form. There is a social problem everywhere. He did not wish to be understood as holding that all social differentiations should be abolished, but that in so far as they destroyed Christian fellowship they must be done away. No homage, he contended, was due either to birth or wealth, but to genuine piety, wisdom and nobility of character homage was due, and these were not limited to any one class.

In imagination we had overcome our social prejudice. Fiction presented many lowly heroes, the object of our admiration. Even amongst negroes, we all loved Uncle Tom. Adam Bede, and many other instances could be adduced.

Tempermental dislike was a source of social friction. There were some whom we could not love, but we ought to remember that there is no credit due to good nature and fellowship when all are congenial souls. We must not allow the social fabric to be impaired by prejudice.

(3) By weakness for interesting people, Mr. Brent meant that we often think those whom we only meet occasionally interesting, whilst those who are always with us seem to be commonplace. We should not reserve our best manners or thought, or service for strangers. If we love "in deed and in truth" we shall strive to overcome all obstacles to the realization of Christian fellowship.

CHURCH CHIMES.

At All Saint's last night the well sung anthem was Falconer's "Hark, Hark, My Soul." Miss Brundrette took the solo, and the work of the basses in their obligato part was very pleasing, as was the anthem as a whole.

The anthem sung by St. Andrew's church choir yesterday morning was entitled "Sweet the Moment Rich in Blessing." In the evening Miss Falconer and Mrs. Martin sang the duett in the anthem "Saviour Breathe an Evening Blessing." Mrs. Martin sang the beautiful solo entitled "Forget all thy Sorrow," which particularly suited her beautiful contralto voice, at the evening service at St. Andrew's church.

There is no lack of so-called cures for the commen ailment known in corns. The vegetable, animal, and mineral kingdoms have been ransacked for cures. It is a simple matter to remove corns without pain, for if you will go to any druggist or medicine dealer and buy a bottle of Putman's Painless Corn Extractor and apply it as directed the thing is done. Get "Putman's," and no other.

Biliousness.

For the past few years I suffered a great deal from bilious attack but after using two bottles of Burdock Blood Bitters I was completely cured. I consider B. B. B. an invaluable remedy." DANIEL SCHWARN, Newdale, Man.

WILLOW AND WICKET.

A brisk cricket match was played on Saturday afternoon on the Nicholls Park oval between teams captained by Messrs. Miles Hamilton and Dr. Boucher, jr. Dr. Boucher won the toss and wisely decided to send his men in first. Nobody was able to make much of a stand against Cumberland (pro.) with the single exception of Sam Ray, the veteran, who played a splendid innings, his wicket being the last to fall on his side with a fine total of 33 out of a score of 54. Mr. Hamilton's side started off well with Cumberland and Dr. Young. The "pro" made things hot for the bowlers. He treated them with strict impartiality. One hit was particularly fine, a square leg drive for seven, all run out.

Everybody was delighted to witness such an exhibition of correct batting.

Without a doubt he is the finest and most correct bat that as been seen in Peterborough for a long time. He was bowled by Montgomery after playing a faultless innings of 66 runs.

BRITISH STEAMER ASHORE.

The Parklands Stove a Hole in Her Forward and Had to Be Beached.

Halifax, N.S., July 11.—A special from Parrsboro says: The British steamer Parklands, Captain Carty, from Boston for this port to load deals for England, went ashore yesterday morning in a thick fog about two miles below West Bay. The rocks broke a large hole in her forward, causing her to leak at the rate of a foot an hour and making her settle so much forward that she became unmanagable and the crew were obliged to beach her at West Bay. She is a vessel of sixteen hundred and twenty-seven tons register. She sailed from Boston on the 8th, and was anxiously expected, as there was two million feet of deals afloat in lighters awaiting her arrival.

MOTHER! DO NOT DARE

Be Without a Bottle of Dr. Fowler's Extract of Wild Strawberry in The House.

The Life of your child may some day depend upon it.

Hot weather is a dangerous time for babies and an anxious time for mothers. Fermentation is everywhere active, and the ever present germs of disease multiply rapidly under the influence of heat and moisture.

It's hard to keep the children well, and despite all you can do they may be seized at any time with diarrhœa, cholera or summer complaint. With Dr. Fowler's Extract of Wild Strawberry in the house you are always safe.

It never fails in the worst cases and is a remedy that over forty years experience has proven to be without an equal for bowel complaints of children or adults. Mr. Chas. Smith, Shoal Lake, Man. writes: "I think Dr. Fowler's Extract of Wild Strawberry is the best medicine that was ever made for diarrhœa, dysentery and summer complaint. It is the best thing to give children when they are teething. I have always used it in our own family and it has never yet failed."

Dr. Fowler's Extract of Wild Strawberry is the one remedy that the medical profession would recommend for bowel complaints in preference to all others, as its sterling merits and reliability place it above all others.

AMERICANS HAVE ADVANTAGE.

General Miles' Arrival at the American Headquarters in Cuba—Meagre Accounts of the Sunday and Monday Bombardments—Only One of Cervera's Ships Worth Anything to Spain's Foe.

Playa del Este, July 11.—Advices that have been received here this morning from the front are to the effect that the bombardment by the fleet was resumed early this morning. At the same time a general attack by the land forces was being carried on. Our artillery was doing very effective work, and the men were fighting with the greatest enthusiasm. Our gunners have the ranges of the principal Spanish positions and are pouring into them a most destructive fire. The enemy is responding, but their fire is nowise so hot as ours. The fighting thus far, according to the advices, continues to be an artillery duel, in which the advantage is greatly on the side of the Americans. It is not definitely known what the effect has been from the fire from the warships, but it is thought that their aid will very materially reduce the time necessary to compel the capitulation of the city. It is understood here that the plan of attack contemplates the forcing of the harbor if the land batteries do not speedily reduce the Spanish defences.

SUNDAY'S BOMBARDMENT.

Sampson's Guns Could Not Reach Santiago—Experimental Work—The Casualties on Sunday.

On board the Associated Press despatch boat Dandy, off Aguadores, Province of Santiago de Cuba, July 10, via Port Antonio, Jamaica, July 11.—The Brooklyn, Texas and Indiana, under Commodore Schley, began the bombardment of the City of Santiago de Cuba at 5.15 this afternoon in obedience to a request from General Shafter, conveyed by a signal from the shore.

The warships lined up from east to west, a quarter of a mile from the shore, and fired over the limestone cliff that comes down to the sea and hides the city, five miles away. The bombardment was continued for one hour. After 35 shots had been fired from the 8-inch guns Commodore Schley became convinced that the Brooklyn was falling short in her fire and ordered a cessation, permitting the battleships to continue, they, with their large guns, having a longer range. The shots were fired, apparently, with great deliberation and at intervals of two minutes. The signals from the shore announced that the shells fell a thousand feet short and a little to the left of the Spanish position. At dusk the squadron ceased firing entirely and Commodore Schley sent a launch to the shore to ask General Shafter if he desired firing continued during the night.

General Shafter states that the affair of Sunday was only a preliminary artillery skirmish.

Following is a report of casualties in the first division Sunday afternoon as sent by Gen. Shafter in his report to Washington: Killed—Captain Charles W. Rowell, Second Infantry, and Private Peter Nelson, Company A, Second Infantry. Wounded—Lieut. N. J. Lutz, Second Infantry; Private Charles Jenks, Company A, Second Infantry; Private Charles Lentki, Company B, Second Infantry, and Private Nelson Gilbert, jr., 21st Infantry.

MONDAY'S BOMBARDMENT.

Shots Every Five Minutes for Two Hours, But With Little Effect—What Was the Truce About?

Off Santiago de Cuba, via Playa del Este, July 11.—At 9.30 o'clock this morning after several range finding shots over the ridge protecting Santiago from the sea, the U. S. cruiser Newark opened fire into the city with her 8-inch guns.

The signal corps officers stationed on top of the ridge reported the effect of the shots.

The New York, Brooklyn and Indiana participated in the firing at intervals of five minutes.

The bombardment lasted for two hours, when General Shafter reported that the shells were mostly falling in the bay, and doing but little damage.

The last shot, however, struck a prominent church in the heart of the city, which was heavily stored with powder and ammunition, causing a tremendous explosion. The extent of the damage is not yet known.

When the warships ceased firing, and before General Shafter had begun a land attack, a flag of truce was seen coming from the city. The object of this was not known at noon to-day, when the correspondent of the Associated Press left the front.

At 2 o'clock this afternoon the United States auxiliary cruiser Yale, with General Nelson A. Miles, and the United States protected cruiser Columbia, arrived.

Rear-Admiral Sampson visited General Miles immediately on his arrival, and then the Yale went to Siboney, General Miles and his personal staff landing in a pouring rain.

THE SITUATION IN SANTIAGO.

Spanish Deserters Say a Good Fight Will Be Put Up.

At Gen. Shafter's Headquarters, July 10, via Port Antonio, July 11.—1.20 a.m.—Deserters from the Spanish ranks this morning included one of the non-commissioned officers. He said that the situation in Santiago was bad, but by no means hopeless from the Spanish point of view. He said the troops had food enough for their present needs, were in good health, and would make a good fight when they were called upon. He said the men were given $4 each on Saturday, and as it was the first money they had received in many months, they were feeling very cheerful. The water supply for the Spanish troops is getting quite bad, and the amount of it is somewhat limited, although up to this time there has been no serious distress on this account. Desertions from the ranks of the Spanish volunteers continue, and it is now said that fully 5,000 men who had a great fight for Spain, are out of the city. A party of 500 cavalry left the city Sunday morning, marching in the direction of Holguin. The Spanish infantry have removed all light articles from the trenches in order to facilitate their movements in case the abandonment of the city is determined upon.

BADLY USED UP.

Uncle Sam's Navy Will Not Be Much Reinforced by the Salvage From Cervera's Fleet.

Off Santiago de Cuba, July 10, via Kingston, Jamaica, July 11, 11.30 a.m.—The Board of Survey appointed to examine the wrecks of the Spanish ships and to enquire into the nature of their injuries, reports that only one ship can possibly be saved. She is the Infanta Maria Teresa, the former flagship of Admiral Cervera.

The hull of the Cristobal shows she was only hit six times, and then only by shells of 8-inch, 5-inch and 6-pound calibre. This verifies the story that the commander of the Cristobal Colon surrendered because he saw she could not get away from the Brooklyn and Oregon, and to continue the battle meant sacrifice of life. It was found that the brass plugs of the large guns and the bolts and locks of the small arms had been thrown overboard.

The Vizcaya showed she had been riddled by the Brooklyn and Oregon. She had not been struck by projectiles larger than eight inches.

Her upper works were riddled by one and six-pounder shells. Nearly all of these shells exploded inside the superstructure, and must have driven the men from the guns. This confirms the story of Captain Eulate that the Brooklyn's secondary battery was so terrible that the men deserted their guns. The Survey Board arrived at the wrecks of the Almirante Oquendo and Infanta Maria Teresa last night, and at dark the work was postponed.

MAY CATCH CAMARA.

A Fast U. S. Fleet Could Waylay Him Before He Gets Back to Spain.

Madrid, July 12.—It will take Camara's warships ten days to reach Cartagena.

The torpedo boats and auxiliary cruisers will go to Cadiz and Ferrol.

The present danger is that if the United States despatches the fastest cruisers with the Oregon, Texas, New York and Iowa, they will waylay Admiral Camara in the Mediterranean.

The coast defences will be ready in ten days.

Conditions Demanded for Peace.

Madrid, July 11.—10 p.m.—It is asserted that the United States makes the following demands as conditions of peace:

First—The possession of Cuba and Porto Rico, with a port in the Canaries.

Second—An indemnity of £48,000,000 (about $240,000,000.)

Third—The retention of the Philippines as a guarantee of the payment of the indemnity.

These terms are regarded as impossible.

SAGASTA TENDERS RESIGNATION.

Advised the Queen Regent to Appoint a Military Cabinet.

London, July 12.—The Madrid correspondent of the Times, telegraphing Monday, says:

Senor Sagasta went to the Palace today and tendered his resignation, and that of the Cabinet. It is said that he advised the Queen to appoint a new Cabinet, largely consisting of the military element, which would not necessarily mean the adoption of a warlike policy, but probably the reverse.

It is generally expected that the resignation will be accepted; but the result may possibly be merely a partial reconstruction of the Cabinet. The Ministers are now in council, and Senor Sagasta has doubtless communicated to them an account of his audience with the Queen Regent.

Spain Must Sue for Peace.

New York, July 12.—A Washington special to the Press says: Reports from Madrid that the United States has proposed terms of peace to Spain were pronounced in official circles here last night as the rankest nonsense. The United States Government is conducting the war with all possible vigor to compel Spain to sue for peace. So far the war has cost $360,000,000 in appropriations, with more to follow, even should hostilities cease at once. There will be no peace until Spain asks for it, and Spain does not seem to have much sense in that direction.

Bryan to Join Lee.

Washington, July 12.—William Jennings Bryan's regiment of Nebraska infantry yesterday was ordered to join General Fitzhugh Lee's corps at Jacksonville.

STOLEN BANK BILLS.

Caroline Pare Said to Be the Woman Who Circulated Them.

A FAMILY OF VERY BAD REPUTE

The Napanee Bank Robbery Mystery May Now Ere Long Be Cleared Up—There Have Been No Further Developments Beyond the Giving of the Arrested Woman's Name.

Montreal, July 12.—Caroline Pare is the name of the woman who was arrested the other day at St. Thomas de Montmagny, charged with putting stolen Dominion Bank bills in circulation between Montreal and the Lower St. Lawrence. If Caroline Pare is not a criminal, she belongs to a family of very bad repute. Her brother, Edward Pare, was arrested in Quebec in 1888, charged with having, in company with Howard and Larschelle, blown open a safe belonging to Ferdinand Delisle, a broker, and stole $8,000. Caroline appeared as a witness, and her brother and Larschelle got ten years at St. Vincent de Paul, while Howard got off with five years. A few years since, when Edward Pare was liberated, he attempted another burglary, and being arrested, escaped from the cells in the Police Court here, and no trace of the robber has since been discovered. It is thought that this same gang robbed the Napanee Bank, and that Caroline Pare, the sister, undertook to get clear of the bills. She started a little shop on St. Catharine street, and sold small wares at ridiculously low prices for a while, after which she pulled up her stakes and left for St. Thomas de Montmagny, where she was scooped in by the police. Miss Pare, the prisoner, married a man named Sariver, but he died three years ago. The accused is now being held, and it is hoped that the whole band of co-respondents may be bagged before long.

"Colonel" R. Wilson Smith.

Ex-Mayor R. Wilson Smith received word yesterday that he had been appointed honorary colonel of the second regiment of Canadian artillery.

TO HANG HIM.

Guillemain to Pay the Penalty of His Crime on September 30.

St. Hyacinthe, July 12.—John Baptiste Guillemain, found guilty on Saturday evening of the murder of his uncle, J. B. La Plante, at St. Liboire, last October, was yesterday sentenced to hang on September 30. Judge Tellier refused two motions for an appeal on questions of law.

Guillemain's Marvellous Nerve.

Guillemain's marvelous nerve still abides with him. A moment after learning his fate, Guillemain, surrounded by a curious throng, began to write autographs.

Mr. Bourgault says that he will apply to the Attorney-General for a new trial on the ground that the Biddeford confessions were irregular and were obtained by illegitimate means. Failing that, he will avail himself of the privilege of applying to the Minister of Justice for a new trial.

Suicide at Preston.

Preston, Ont., July 12.—Mrs. John Haltzhauer committed suicide here yesterday by drowning herself in her son-in-law's cistern. Her husband missed her about 5 o'clock, and while searching found the cistern lid removed. Upon looking down he discovered the remains of his wife cold in death. Continued ill-health was the cause.

Head and Limbs

All Covered With Eruptions—Could Not Work, the Suffering Was So Great—Hood's Has Cured.

"I was all run down with complaints peculiar to my sex, and I broke out in sores on my body, head, limbs and hands, and my hair all came out. I was under the doctor's treatment a long time without benefit. They called my trouble eczema. Finally I began taking Hood's Sarsaparilla, and after I had used three or four bottles I found I was improving. I kept on until I had taken several more bottles and the sores and itching have disappeared and my hair has grown out." MRS. J. G. BROWN, Brantford, Ontario.

"I was all run down and had no appetite. I had a tired feeling all the time. I was advised to try Hood's Sarsaparilla. I did so and it benefited me so much that I would not be without it." MRS. G. I. BURNETT, Central Norton, N. B.

EDITORIAL NOTES.

"You do not want politics here very badly. What you want is less politics and more immigration," said Hon. Mr. Cameron in answer to a civic address. The remark is wise and of wider application than in the Northwest merely.

THE Montreal Herald is on the shady side of ninety but it has all the snap and enterprise of youth. It's illustrated horse supplement of Saturday was a beauty. It gives a score of beautiful portraits of the equine aristocracy of the turf, as well as pen pictures of prominent patrons of the racing stud. The letter press is also full of interest, racy—no pun intended—and well written. The photogravures are not to be surpassed in clearness and artistic tone.

A VALUABLE REPORT.

In view of the fact that Hon. Mr. Fisher, Minister of Agriculture, and Mr. J. W. Robertson, Commissioner of Agriculture and Dairying, are now in England studying the conditions of the various local markets for such farm products as Canada has for export, additional interest attaches to the annual report Mr. Robertson has just issued. Having regard to the immense amount of information given on a great variety of subjects, it well deserves the the comment passed upon it by Farming, that "it is one of the most valuable and complete reports ever issued by the department." The introduction deals with the necessity for and advantages of co-operation, and the means that have been taken to secure it. There is a summary of the work done by travelling dairies, dairy schools and dairy stations in different parts of the Dominion. Complete information is given concerning the practice of butter-making, the raising and marketing of cattle, sheep, hogs, poultry and eggs, the packing and marketing of perishable fruits, a vast amount of precise information of the greatest value being given in each case. What is perhaps most important is the section devoted to the

COLD STORAGE SERVICE,

in which full instructions and designs are furnished, so that the local mechanics may be enabled to construct the most modern appliances for the preservation of perishable foods. The report ought to be in the hands of every progressive farmer and commission merchant in the country, for the information it contains is of a kind that can readily be turned into dollars and cents.

The basis upon which the departments of agriculture for the Dominion and the provinces are constituted is the assumption that the burdens of the farming community can be lightened and their profits increased at the same time. The farmers of the Dominion have never been accused of lack of industry; on the contrary, the $600,000,000 of wealth produced on the farms each year has been at the expense of the hardest of labour, lasting from daylight to dark. The limit to which industrious toilers of the soil can increase their prosperity by mere bodily toil has long ago been reached; departments of agriculture were inaugurated with the idea that "increasing prosperity must come in some other way than through harder work by the farmer." Co-operation was soon recognized as being of the

MOST URGENT NECESSITY.

The farmers could not maintain creameries and cheese factories of their own, out they could organize and support one or more in a district. In some cases even this much could not be done, and in Prince Edward Island, Manitoba and the Northwest the Government started the creameries, and withdrew when well established. Farmers and creamery owners could not very well organize a cold storage system, so the Government got it under way for them, and the result has been most gratifying. Beyond this the aims of the Government have been principally three—to obtain information not before available, which might be of service to the farming community; to make the farmers aware of the most improved methods, conclusions as to which could only be reached individually with great difficulty, if at all; and finally to devise means for enabling producers to dispose of their products speedily and at the minimum of loss. All this is being done, and we see the effect of it in the enormous increase in the cheese and butter industries and in many other directions.

The various agricultural departments have, as a rule, worked with careful regard for cause and effect. If they have striven to produce exportable goods of a uniform quality and appearance, it is because they first ascertained that

IN THE BRITISH MARKET,

the great hope of the Canadian producer, these things are regarded as essential. It was no light task to produce this uniformity, but to a very large extent it has been done. The British are good customers, but they are discriminating buyers. They have the whole world to choose from and can demand the best. Last year they imported $633,252,253 of food products, perhaps ten per cent. of which came from Canada. Their bill for meats alone was nearly 186 millions. Imported cheese cost them $28,647,857, of which we sent rather more than our share. For butter they paid $77,462,300, our proportion being relatively insignificant, although it amounted to the respectable total of $2,164,995, four times what it was in 1895. It looks as though this year there would be another four-fold increase; even that would be only a beginning. In 1897 the tidy sum of $21,203,088 was paid out for eggs, Canada getting $944,123. How to increase all these proportions is the substance of Mr. Robertson's very excellent report, and the object of the inquiries now being made by the Minister of Agriculture. Thirty or forty millions more per annum would be very acceptable to Canada, and it may be believed that the British public would, other things being equal, be glad that it should come here. It is satisfactory to know that the necessary efforts are being made.—Montreal Herald.

CANADA'S BRAVE SONS.

Canada has good cause to be proud of her sons who have gone forth from the military college at Kingston to take up the career of soldiers in the Imperial army. Many of them have won high honour at a very early age, and almost every month brings news of good work done or doing by them and of the distinction and promotion they have earned. The Canadian who has most recently attracted attention 'at home' is Lieut.-Colonel Benson, late of the 17th Lancers, who has been assistant adjutant-general on the Dublin staff for some time, and who has been promoted to be full colonel and will join General Sir William Butler's staff at Dover as its chief officer. Colonel Benson, prior to his Dublin appointment, commanded the Egyptian cavalry under the Sirdar, Sir Herbert Kitchener, in which service he was highly successful. In Dublin he was, says the Pall Mall Gazette, a great favourite, and his promotion was popular. Colonel Benson is a son of the late Senator Benson, of St. Catharines, Ontario.

THE KAHRTOUM CAMPAIGN.

The Khartoum campaign is about to begin. Sir Herbert Kitchener and all his officers left Cairo some days ago for the front, and they must by this time be at Berber. It was expected that the railway from Wady Halfa would be completed by the middle of June to the Atbara river, beyond Berber, and that the expedition for Kartoum would start from that point about the middle of July, when the water in the Nile would be sufficiently high to render the passage by the gunboats of the sixth cataract at Shabluka easy. The river begins to rise about the third or last week in June, when the Atbara becomes a rushing torrent. It is possible that if the season is an extremely rainy one the beginning of the campaign may be delayed for two or three weeks until the weather conditions improve. Quite a number of additional gunboats, brought over the railway in sections, have been put together on the Nile above Berber, so that General Kitchener must have quite a little war fleet ready for operations against Omdurman. It is taken for granted that the troops will be marched along the banks of the Nile, though it would seem possible to have them put on native boats or barges to be towed up the Nile by the gunboats.

GOVERNMENT OF THE YUKON.

The Appointment of Ogilvie the Incorruptable by the "Terrible" Sifton.

The Hamilton Herald (Independent), says: "The Laurier Government could not have done a more popular thing than its appointment of William Ogilvie to the responsible position of Commissioner of the new Yukon Territory. It will be a popular appointment because the wisdom and justice of the selection will be universally recognized. It is wise, because there is no man in Canada who is so well fitted as Mr. Ogilvie to undertake the difficult duties of the position. Doubtless there are many Canadians as well fitted by nature as he for such work, but his fitness has been abundantly proved, and in addition to natural fitness he has the advantage of experience in the territory and knowledge of it that are possessed by no other man who could be named as Commissioner. It is an act of justice, for Mr. Ogilvie's vast service to his country, his heroism, his self-denial and devotion to duty during the long period that he served as Government surveyor in that lone land, although universally recognized, have hitherto brought him no substantial reward. Such service as his is the sort of service for which there should always be reward. A country can't afford to be ungrateful to those who serve it well. Recognition and reward of faithful service are incentives to good and faithful work in the future. She four members of the Council which will assist Mr. Ogilvie in the administration of the territory are not so well known as he, but are no doubt capable men.

A Great Book Free.

When Dr. R. V. Pierce, of Buffalo, N.Y., published the first edition of his great work, The People's Common Sense Medical Adviser, he announced that after 680,000 copies had been sold at the regular price, $1.50 per copy, the profit on which would repay him for the great amount of labor and money expended in producing it, he would distribute the next half million free. As this number of copies has already been sold, he is now giving away, absolutely free, 500,000 copies of this most complete interesting and valuable common sense medical work ever published—the recipient only being required to mail to him, at above address, (21) one-cent stamps to cover cost of mailing only, and the book will be sent post-paid. It is a veritable medical library, complete in one volume. Contains 1008 pages, profusely illustrated. The Free Edition is precisely the same as that sold at $1.50 except only that the books are in strong manilla paper covers instead of cloth. Send now before all are given away.

BENSFORT.

From Our Own Correspondent.

Mr. Andrew Huggins received rather a painful shaking up last week. In unhitching a horse he had been working, his foot became entangled in the tug of the harness, and the horse taking fright at the dog, ran away, dragging Mr. Huggins probably a quarter of a mile before he succeeded in stopping it. His injuries, which are not serious, but very painful, were dressed by Dr. Montgomery of Baliilebero. We are glad to say he is around again, but he will not be able to work for some time.

Mr. Wm. Whittington, in jumping off a load of hay to the fence, missed his mark, and slipped between the load and the fence, breaking the lining of two or three ribs. He is attended by Dr. Gray of Peterborough.

Mr. Robert Emberson is again home from college, where he is preparing for the Methodist ministry; after a hard winter's study.

Mr. Scarlett, of Toronto, one of the residents of Bensfort in former days, spent July 1st with friends in Monaghan.

Stirton brothers' new house is now under way, and promises to be as fine a residence as any in the vicinity.

Mr. John Morrison has re-shingled his barn, making quite an improvement.

Several of the members of the different Orange lodges in the township attended service at Centreville, where the anniversary sermon was preached by Mr. McIntosh, the Presbyterian minister at that place.

Mr. Steele, the new incumbent of the circuit, of which the church here forms a part, preached his first sermon on Sunday last. He promises to have a very successful term.

Harvest is now in full swing. Fall wheat is ripe and will most likely be harvested this coming week.

Frost in July is not of very common occurrence, but such happened to be the case on the night of Sunday, July 10th, doing considerable damage to corn, pumpkins, etc.

CAPITAL TOPICS.

Golden Jubilee Congratulations—Jew-Baiting in Ottawa—D.R.A. Matches —Compliments to the 43rd.

Ottawa, July 12.—The following officers of the Department of Customs have been placed on the permanent list: John Stephenson and Robert MacPherson of the London customs staff; R. J. Lunny, Assistant Appraiser, Montreal; J. M. Lott, Sub-Collector at Courtright; N. P. Horton, Collector, Owen Sound; Samuel J. Sidey, Sub-Collector, Port Colborne; Alexander Reid, Sub-Collector, Orillia; G. F. Jones, Collector, Cobourg, and William Lounsborough, Collector at Lindsay. Charles W. Cowan, St. John, N.B., has been dismissed from the customs service for insubordination.

Will Shoot as Usual.

The dismantling of the old Rideau rifle range and the unfinished condition of the new range at Rockliffe caused grave doubts to be entertained all along as to the possibility of having the D.R.A. meet take place this year. These doubts have been removed by the action of the Dominion Rifle Association Council in announcing the date for the competition and providing for the preparation of the programme. The Council met Saturday evening and decided that the annual matches should take place on the date originally fixed.

Street Railway Conductors.

The street railway conductors yesterday decided to stand by a demand of $1.50 per day for nine hours' work. The company a few days ago refused their demand and the decision yesterday was arrived at after the company's reply was considered.

Golden Jubilee Congratulations.

The following telegram was sent from here yesterday to Right Rev. Monsignor Connolly, Vicar-General of St. John, N.B.:

"Hundreds of New Brunswick's sons, while far away from that fair old city by the sea, will to-day join, as do the rest of your flock, in offering their incense and congratulations to you on your golden jubilee. We recall with pleasure and pride your splendid achievements as a priest and prelate, and moreover your unostentatious efforts and ceaseless half century of toil for God and country.

"(Signed) John Costigan, John Connors Dennis Burk, J. D. Grace, Harry Costigan, W. J. Quinn and D. J. Driscoll."

It was arranged to send the telegram before Mr. Costigan left for the west, and he signed it then.

Shout "Christ-Killers" at Them.

The Jewish residents of Lower Town have protested to Chief Powell that their French-speaking neighbors along St. Patrick and other streets abuse them because they are Jews. Opprobrious epithets, such as "Christ-killers," and others equally coarse, are shouted at the Jews by many who should display more breadth of mind.

Compliments to the 43rd.

Lieut.-Col. A. P. Sherwood of the 43rd battalion, has received from Dr. Crinnell of Burlington, dean of the medical department of the University of Vermont, a letter which is quite complimentary to the battalion. Among other things the letter says: "Especially am I disposed to compliment the 43rd battalion for their civil and gentlemanly conduct while with us. It is worthy of note that this unusual number of men remained within our limits for such a time and not a word of complaint would be made in regard to the personal and gentlemanly conduct of the troops. The sentiment which was so widely expressed in the mingling of the English and American flags, I assure you, was more than appreciated by all of us. I hope this is the beginning of an amalgamation of the English-speaking people of the world which nothing will ever sever."

A WINDSOR JEWELLER.

Cured of Bright's Disease by Dodd's Kidney Pills.

Windsor, July 4th.—(Special despatch)—"If the United States army had taken a supply of Dodd's Kidney Pills to Cuba it would have been able to withstand the ravages of disease arising from the drinking of bad water," said a promident physician to-day.

"Dodds Kidney Pills he continued, are the greatest life savers in the world. I know a score of persons whose lives they have saved.

"Right here in Windsor Mr. R. F. Colwell, the Ouiette street jeweller, has been cured of Bright's Disease by them after two years' suffering. I use them in my practice, and can cure the worst case of Bright's Disease, Diabetes, or any other Kidney complaint with them."

FROM CORNWALL.

Farmer Badly Hurt by a Train—Octogenarian Dead—Andrew Dillabough in Trouble.

Cornwall, Ont., July 12. — Robert Book of Mille Roches is in the Cornwall General Hospital, suffering from cuts and bruises which he received yesterday morning at Moulinette. He was working along the G.T.R. track cutting hay, got in the way of a passing train and was thrown into the ditch. The train was stopped and the injured man picked up and taken to Cornwall.

John Murray died here yesterday at the residence of his daughter, Mrs. (Rev.) Binnie. The deceased was born 82 years ago in Scotland, and lived until two years ago at New Glasgow, Que. He leaves four children, Mrs. George Bertram of Toronto; Mrs. (Rev.) Binnie, Cornwall; Mr. Alexander Murray, Brockville, and Mr. William Murray, Iroquois.

Andrew Dillabough is charged with threatening to kill his wife, from whom he has been separated for some time; also with assaulting and threatening to kill Thomas Dey, a well-known merchant of Moose Creek, in which village all the parties live. It appears that Dillabough and his wife did not get along happily, and after their separation she forced him to give her as alimony certain buildings in the village of Moose Creek. These buildings were burned under suspicious circumstances on Friday last, and next day Dillabough met Thomas Dey, with whom he had a feud, and assaulted him. Dey's daughter took a hand in the fray, and Dillabough received several ugly wounds on his head. He came to Cornwall yesterday, and was arrested last night on the strength of a telephone message from Moose Creek. The medical men who examined his wounds ordered him to be removed to the General Hospital. The case will come up before a magistrate to-day.

TWIN TORTURERS!

Lumbago and Rheumatism made Harmless by Dodd's Kidney Pills.

Lumbago and Rheumatism cause endless pain and suffering. Every man and woman who runs chances of getting wet, or catching cold, is liable to suffer from one or both. Our hospitals are full of sufferers from these diseases; none are more painful. Every nerve is on fire; every joint is a centre of agony; every muscle an area of torture. To move hand or foot makes the victim shriek with agony.

Rheumatism makes more cripples than all the railroad accidents that ever happened. Twisted, mis-shapen caricatures of humanity, who cannot walk without misery, are to be seen every day. The kidneys are to blame. If they are healthy you needn't fear Rheumatism or Lumbago. Dodd's Kidney Pills keep the kidneys healthy and cure Rheumatism and Lumbago.

Dodd's Kidney Pills ALWAYS CURE.

MR. TURNER'S DEFEAT

B. C. Opposition Has 18 and the Government 17 Seats,

WITH 3 SEATS UNDETERMINED.

The Outcome of the Situation May Be a Tie and Is Almost Sure to Be a Deadlock—A Coalition Government Is Said to Be an Impossibility—The Returns.

Vancouver, July 12.—The result of Saturday's elections in the province so far as heard from leave matters almost as uncertain as before the polling. The following are the returns now in:

Government.

Comox—James Dunsmuir.
Cowichan—W. R. Robertson.
Esquimalt—W. F. Bullen.
Esquimalt—Hon. C. E. Pooley.
Kootenay East (north riding)—W. G. Nelson (Ind.).

New Westminster City—Alex. Henderson.
Dewdney—R. McBride.
Victoria City—Hon. J. H. Turner, R. Hall, H. D. Helmcken, W. E. McPhillips.
Victoria (North)—J. P. Booth.
Victoria (South)—Hon. D. M. Eberts.
Yale (East)—Price Ellison.—Total 17.

Opposition.

Cariboo—Major-Gen. Kinchant, H. Hedgesen.
Kootenay W. Revelstoke—J. M. Kellie.
Nelson—J. F. Hume.
Rossland—J. M. Martin.
Slocan—R. F. Green.
Lillooet (East)—Prentice.
Nanaimo City—Dr. McKechnie.
Nanaimo (South)—Ralph Smith.
Chilliwack—Charles Munro.
Delta—Thomas Forster.
Richmond—Thomas Kidd.
Vancouver—Joseph Martin, F. C. Cotton, C. E. Tisdale, Robert McPherson.
Yale (North)—J. T. Deane.
Yale (West)—C. A. Semlin.—Total 18.

Alberni is claimed by both parties. There are two places to hear from, Neil (Opposition) leading. The election of two members for Cassiar will not take place for some time, but it is conceded by the Opposition that they will go Government. The above list may be subject to some change, but it will not materially affect the result, which will make it an extremely difficult task for the Government to hold together. These returns account for 35 seats out of 38. Leaving all doubtful seats out would not change the result, and giving all doubtful seats to the Government, including Cassiar, would give them a majority of two. A coalition Government is impossible, the feeling of sectionalism in certain constituencies on the mainland, where ambitious Opposition members have been elected, preventing such a course.

The votes polled in Vancouver were as follows: Tisdale, gunsmith, Opposition, 1,798; McPherson, Labor candidate, Opposition, 1,795; Cotton, editor Advertiser, Opposition, 1,661; Martin, lawyer, Opposition, 1,611; Mayor Garden, surveyor, Government, 1,151; Dr. Carroll, Government, 954; W. J. Bowser, lawyer, Government, 879; McDonald, Labor candidate, Government, 785. The Opposition majority was thus 1,068.

In Victoria city the result was as follows: Helmecke, Government, 1,484; Turner, Government, 1,352; Hall, Government, 1,274; McPhillips, Government, 1,229; Gregory, Opposition, 1,149; Stewart, Opposition, 1,095; Belyea, Opposition, 949; Beaven, Opposition, 916.

Dominion politics did not figure in the contest.

In the last House the Government had a majority of 9 in a House of 33 members. The new House will have 38 members.

DRAGGED IN A MOWER.

Shocking Accident to a Guelph Township Farmer's Lad.

Guelph, July 12.—A shocking accident occurred on the farm of Mr. Alexander McIntosh, Wilson's Corners, Guelph Township, on Saturday evening. His son Alexander, 17 years of age, was mowing hay, when, through some defect, the large wheel of the mower broke, and the horses, which were the most powerful and yet the most docile on the farm, ran away. When the mower tilted to one side young McIntosh was caught in the axle and twisted around it. The horses tore on at a maddened pace for fully a quarter of a mile, dragging the unfortunate youth along, when they ran into some obstruction, upset the mower on top of McIntosh and fell on top of it themselves. They were badly cut with the knives and commenced to kick viciously. A neighbor who saw the accident ran to the rescue as quickly as possible, jumped on the horses' heads and held them down, and kept them from kicking the young man to death. A woman also came to the assistance and blinded the frantic animals with her skirts. Soon there was more assistance, and the horses were removed with difficulty. McIntosh was so wound around the axle that nearly all his clothing had to be cut before he could be released. He was taken home in a state of collapse, in which he remained for several hours. His injuries consist of a compound comminuted fracture of his left leg, both bones being shattered and exposed. The right leg, though much torn, is not fractured. There are minor cuts and scratches on the head and face and all over the body. It is hard to tell if there are any internal injuries as yet. He may survive, and the leg may have to be amputated.

An ordinary cough or cold may not be thought much of at the time, but neglect may mean in the end a consumptive's grave. Dr. Chase's Syrup of Linseed and Turpentine will not cure consumption when the lungs are riddled with cavities; but it will stop the cough, will cure consumption in its early stages, and even in its last stages gives such relief as to be a perfect Godsend to those whose lives are nearing a close.

WHEAT WEAKER.

The Arrival of New Wheat in Chicago and St. Louis Depressed the American Market—Prices.

Monday Evening, July 11.

Lower prices in Liverpool and large receipts of new wheat at St. Louis and Chicago weakened the American markets today. At the close at Chicago July wheat showed a decline of 1¼c per bushel, and September and December ½c per bush. The statistical news, which reflected large decreases in the American visible, and the quantity afloat was the bullish feature of the day, which caused quotations to close slightly above the lowest point. The Government crop report issued to-day and condensed below is of interest.

On the Toronto Grain Board wheat continues dull, with red winter at 78c and 79c middle freights and Manitoba No. 1 hard at 93c afloat at Fort William. Stocks of grain at Toronto are unchanged from a week ago.

Wheat futures were dull in Liverpool today, July closing 1½d lower per cental, September 1d and December 1¼d per cental lower. Paris wheat closed 10c to 20c higher.

Visible and Afloat.

As compared with a week ago, the visible supply of wheat in Canada and the United States has decreased 2,185,000 bushels; that of corn has increased 280,000 bushels, and that of oats has decreased 246,000 bushels. Following is a comparative statement for the week ending to-day, the preceding week and the corresponding week last year:

	July 11, 1898.	July 4, 1898.	July 12, 1897.
Wheat, bu	12,516,000	14,701,000	16,609,000
Corn, bu	22,855,000	22,575,000	15,425,000
Oats, bu	5,940,000	6,186,000	6,949,000

To recapitulate, the visible supply of wheat in Canada and the United States, together with that afloat to Europe, is 43,796,000 bushels, against 40,181,000 bushels a week ago and 30,329,000 bushels a year ago.

Sheep and Lambs—Fair demand; receipts fair. Spring lambs, choice to extra ewes and wethers, $6.25 to $6.50; bucky and fair, $5.75 to $6; culls, fair to good, $4.75 to $5.50; common to choice yearlings, $4.50 to $5.35; native clipped sheep, choice to selected wethers, $4.65 to $4.75; fair to choice mixed sheep, $4.25 to $4.60; culls and common sheep, $2.25 to $3.75.

Montreal Live Stock.

Montreal, July 11.—There were about 420 head of butchers' cattle, 150 calves and 300 sheep and lambs offered for sale at the East End Abattoir to-day. The weather was cool and bracing, and, as the supplies were rather small, prices were higher all round, being unusually high, considering the quality. Prime beeves sold at from 4½c to 4¾c per lb.; pretty good stock at from 3½c to 4¼c do., and the common arrivals at from 2½c to 3½c a lb. Good calves sold at from $5.50 to $9 each, and the common ones at from $2 to $5 each. Sheep sold at from 2¾c to 3½c per lb., and lambs at from $2.50 to $3.75 each. There were no fat hogs at the Point St. Charles stock yards to-day, and the last sales were at about 5c per lb.

Cheese Markets.

Lindsay, Ont., July 11.—Victoria County Cheese Board met here to-day. The salesmen and representatives of the various factories selling on the board here were sorely disappointed this morning when they learned that a scant 7c would be the best figure quoted. Buyers present were: Whitton, Flavelle and Fitzgerald. Twenty-two hundred boxes were boarded. Mr. Flavelle and Mr. Whitton took each 800 boxes, and Mr. Fitzgerald 600 at 7c.

British Markets.

Liverpool, July 11.—Spring wheat is quoted at 6s 8½d; red winter at 6s 9d; No. 1 Cal. 7s 2d to 7s 3d; corn, 3s 1½d; peas, 4s 10d; pork, 51s 3d; lard, 27s 6d; tallow, 18s 6d; heavy, l.c., 31s; light, 30s 6d; do., short cut, 29s 6d; cheese, white and colored 35s.

North American Life

ASSURANCE CO.

OFFICE OF W. A. MURRAY & CO., 17 to 27 King St., East, Toronto.

Wm. McCabe, Esq., Managing Director, N. A. L.:

DEAR SIR:—In answer to your request for me to decide upon one of the following options offered me for settlement of my 15-payment Life Investment Policy for $5,000 which has matured this year, viz.:

1st, to take the value of the Policy in Cash	$5,008 00
2nd, or fully paid-up insurance for	8,280 00
3rd, or take the profits in cash	2,050 25

and continue my policy without further payments being required from me, such policy participating in future profits.

I find it somewhat difficult to make a decision either of the three options being so satisfactory. I am certainly very much pleased with the results offered me, and as I find many others are giving full testimony to the profit-earning power of this company, I do not hesitate to give my endorsement as well, that the North American Life is one of our strongest Canadian institutions to day's giving first class results on Investment Policies, on a safe and conservative basis. I find that my policy, which was originally a Life by fifteen payments, has become an Endowment at the end of the Investment period.

Sons of Scotland Excursion.

At a well attended meeting of the Sons of Scotland excursion committee held on Monday evening, it was decided to change the date of their excursion to Thursday, August 4th. It was found that the first date arranged for was the date selected by the Sons of England for their excursion, besides a number of other excursions were slated for that same week. The Sons of Scotland committee were anxious not to interfere with any of these events, and good naturedly changed their date. The posters will be issued at once, and in the meantime tickets have been distributed to the members, who are all good ticket sellers, and will vie with each other for the credit of selling the largest number before the 4th of August.

Good Fishing.

Yesterday Mr. Bernard Matchske, of New York, who is paying a visit to Peterborough, and Mr. H. Nesbitt went down the Otonabee on a fishing expedition. They fished the river from Campbelltown to Rice Lake and made a magnificent catch. They bagged 19 splendid bass all of good size, but the daddy of them all was a monster of the large weight of five pounds. He required the efforts of both fishers to land him. Mr. Matchske, who is delighted with the scenic beauties and fishing resources of the river, leaves to-morrow morning for New York to resume his duties as captain of the fire brigade. He is well pleased with his visit to Peterborough this season. This is the fourth summer he has spent in Peterborough, and of all, this present visit furnishes the most pleasant recollections of the enjoyment of our splendid fishing and the hearty hospitality and unvarying courtesy of the many whole hearted citizens he has come in contact with.

SANTIAGO TO FALL WITHIN 24 HOURS

This is General Shafter's Forecast.

Peace Prospects Still a Subject of Speculation.

THE SPANISH FIRE IS WEAK.

SPAIN HAS MADE NO OVERTURES.

Special 5 p. m. despatches to the Examiner.

All Quiet at Santiago.

Washington, July 12.—General Shafter in a despatch probably written yesterday afternoon says: Everything is quiet and that a flag of truce was up while the enemy was considering the surrender. He reported that he had the town surrounded but the line was thin and would be strengthened in the morning

Insurgent Activity in the Philippines.

Madrid, July 12 8 a. m.—An official despatch from Iloilo Philippine Islands says: "Aguinaldo" the insurgent leader is patrolling the coast with a squadron of merchantmen. Two bands of insurgents at Cebu have been defeated and three insurgent leaders have been captured and shot.

Peace the Talk in Spain.

Madrid, July 12, 9 a.m.—The possibility of peace with the United States is being widely discussed in the newspapers and by the public. The Conservative papers declare Spain is preparing to accept peace provided it implies only the loss of Cuba. It is said the Minister of War does not disagree with the other Cabinet ministers, so seriously as generally supposed, and in view of the gravity of the Cuban situation, it is possible he will no longer oppose peace provided the conditions are not too onerous.

No Peace Overtures Yet.

Washington, D.C., July 12—Secretary of State Day authorized the statement that no peace overtures of any kind have been made.

Santiago to Fall Within 24 Hours.

General Shafter's Headquarters, July 11, 4 p.m., via Kingston, Jamaica, July 12, 10.30 a.m.—Fighting continued during the day, and at this hour (4 p.m) it is believed that the city of Santiago de Cuba will be captured by the American forces within the next 24 hours. The Americans have advanced steadily all day. In several of the Spanish trenches our troops found dummy guns and no Spanish soldiers. There was a very weak fire from the Spanish troops, and the American officers received further evidence of the great distress existing in Santiago.

Halifax, July 12.—The wreck commission opened its sitting this morning to enquire into the La Bourgoyne disaster.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—The William English Canoe Company to-day shipped a crate of eighteen canoes to Mosquito Land—Muskoka.

—Belleville Water Works Co. wants $200,000 to sell to the city, or a rental of $6,000 a year. This, the city thinks extravagant, and the matter will now be referred to arbitration.

—All Saints' Company No. 30, of the C. B. Brigade, will go under canvas near Jubilee next Monday, with Colour-Sergeant Edwards, of the 57th Battalion, as camp instructor.

—Roy, the photographer, will go to the great photo convention at Chatauqua from July 11th to 15th. Parties wishing sittings will kindly come before or after above dates. He will return with all the newest ideas. eod

—In another column appears the advertisement of Mr. E. Phelan, announcing the fact that his finely furnished, centrally situated and thoroughly equipped hotel, Simcoe street, is for sale or to lease. Mrs. Phelan's ill-health preventing her superintendance of the establishment is the reason for wishing to retire from the business.

—Mr. Collector Denne has returned his roll but has sharpened a stick for certain taxable delinquints. On Monday fifteen young men will be called upon to explain to the Police Magistrate why they have not paid their statute labour tax for the use of the magnificent roads of the town.

—The Cobourg car works in some departments are running from ten to fourteen hours a day, enabling those who are employed an opportunity to earn good wages. There is not a large force of men employed at present, but the Post learns that prospects are bright for a good sized contract in the near future.

The Peterborough Navigation Co.

The steamer City of Peterborough, having been chartered by the Hastings Methodist Sunday School, will run an excursion from Hastings to Jubilee Point on Friday, July 15th. The steamer Eclipse will run the City of Peterborough's regular trip from Peterborough to Hastings and return, calling at Jubilee Point. The steamer will leave Peterborough at 8 a.m., calling at Ashburnham. Returning will call at Harwood and Jubilee Point and reach Peterborough at 8 p.m. Return tickets to Jubilee Point 50c. Jas Bogue, Water street	18c	16c
F Dolan & R Sheehy	16½c	13½c

On motion of Messrs. Meldrum and Langford, the tender of Messrs. McFadden & Sabine was recommended for acceptance for the cement walk.

Mr. McWilliams and Hamilton moved that the granolithic pavement be laid on George street, and the balance on Water street (all six feet on Water street) be cement.

Messrs. Langford and Meldrum moved in amendment that all the work be done with sand and cement.

The amendment was adopted in committee.

Messrs. Meldrum and McWilliams moved that all the deposits of tenderers be returned, except those of J. E. Hayes, Jas. Bogue, F. Dolan, R. Sheehy and McFadden & Sabine—Carried in Committee.

Messrs. Langford and Meldrum moved in regard to the petition for Homewood avenue drain, that the town pay $65 when the drain is completed to the satisfaction of the Inspector.

At the meeting of the Committee on Appointments the following were present: Messrs. McWilliams, the Mayor, Meldrum, Best, Hamilton, Langford and J. M. White.

On motion of Messrs. McWilliams and Meldrum, Messrs. T. McGrath, Thos. McKee, J. Kincaid and W. Aldridge, were recommended as assessors—Messrs. Aldridge and McKee for No. 2 and 4 Wards, and Messrs. Kincaid and McGrath for No. 1 and 3 Wards.

KING WILLIAM WEATHER

FOR THE CELEBRATION OF THE GLORIOUS TWELFTH.

Big Muster at Central Park—The Procession to the Station—Heavily Freighted Special Trains for Lindsay.

Lindsay, where for the Twelfth of July, the Boyne and the Sougog meet, was the Mecca of loyal Orangemen to-day.

It was King William weather, and though the demands of the ripened harvest kept many at farm duties. There was a large turn-out. Col. Saunderson L.O.L. No. 321 was the first to invade the town. They were headed by the Fire Brigade Band, and escorted by Mr. Hiram S. Armstrong, County Master; and marched up with banners waving to the rendesvous, Central Park. Here there was a short wait for the contingent from Lakefield and the north. The fire Brigade Band met the Lakefield train at McDonel street where the brethren disembarked and played them to the park, where the procession was formed in the following order:

Mr. J. B. McWilliams was marshall for the day, mounted; Mr. H. S. Armstrong, County Master, and Mr. Robert Campbell, District Master, were also mounted in the procession which left the park with banners waving and bands playing. The procession though only a fraction of the grand parade in Lindsay was a large one, the cortege extending on George street from Brock to Charlotte streets, by way of which the Grand Trunk station was reached where a special train awaited them, upon which the brethren embarked, having been joined by some of the brethren from Fraserville. A large number of citizens also accompanied the brethren, between 400 and 500 occupying the seven coaches of the special train.

A BENSFORT BOY MISSING.

Fred Peters, Aged 13, Has Not Been Seen for Three Weeks—His Distracted Parents Would be Glad to Hear of His Whereabouts.

This morning Mrs. James Peters, of Bensfort, accompanied by three children, called at the EXAMINER office to tell the story of her great trouble. This spring her son Fred, aged only 13 years, went out to work for Mr. Woods, near Mud Lake, on a farm. He was delighted at the prospect of earning good wages. Mr. Woods, however, finding that the lad was not strong enough for the work, and little wonder—a lad of 13 trying to earn a wage at farm work—paid him up and decided to send him home. He took him in his milk wagon on June 21st as far as Fowler's Corners, and put him in a wagon that was coming towards Peterborough, and that is the last seen of the boy to the knowledge of anyone who knows him.

At the time of his disappearance the lad was dressed in a sack coat, light coloured. The boy was quiet in manner and steady in his habits, and his mysterious disappearance is a great agony to his mother, who, when she related in broken sentences her story, could not keep back the tears that coursed down her careworn cheeks and dropped upon the flaxen head of the baby at her breast.

The lad was supposed to have five dollars, the proceeds of his labours, in his purse, at the time of his disappearance.

His distracted parents, especially the heartbroken mother, would be glad of any information, transmitted by post card to Bensfort, or left at the EXAMINER office. Most of all, she would rejoice at the return of the missing lad.

Whoever reads this is requested to transmit the slightest clue or information respecting the boy to his mother and father, whose persistent search and inquiry for the past three long weeks, has been discouragingly fruitless.

OBITUARY.

The Late Margaret T. Breckenridge.

The funeral of the late Margaret T., daughter of Mr. and Mrs. Matthew Breckenridge, of Otonabee, took place to the Westwood Cemetery on Sunday afternoon, July 10. Miss Breckenridge had been confined to her bed since March with weakness of the heart, and on Friday morning last death released her from the sufferings of her long illness.

The deceased had just entered upon the twentieth year of her life, and by her loving nature, cheerful disposition and unselfish aims had won for herself a warm place in the hearts of her many acquaintances, and had become a general favourite among her more intimate friends. During the many weeks of her illness she bore with Christian patience and meekness the burden laid upon her, and through an unfailing trust in her Saviour, whom having not seen yet she loved, was quite prepared when the great change came.

The deceased will be greatly missed in the community, while at her own home the vacant chair must remain unfilled. In the sad hour of bereavement the tenderest sympathy of their many friends will be extended to the sorrowing family.

Court St. Peter, No. 225, C.O.F.

A special meeting of Court St. Peter, No. 225, Catholic Order of Forester's, will be held on Tuesday evening, July 12th, at 8 o'clock. Full attendance of members is particularly requested. JOHN O'BRIEN, Chief Ranger. 2d8

PUTTING TEACHERS IN HAPPY FRAME FOR THE HOLIDAYS.

THE BOARD RE-APPOINTS THE TEACHING STAFF.

List of the Teachers for Another Year—The Emoluments they Will Receive.

At the special meeting of the Board of Education last night Mr. Hamilton occupied the chair, and there were present besides Messrs. Hill, Fair, Ferguson, Hartley, Wrighton, Dr. Burnham, Edgcumbe, Denne, Bamford, Dr. Caldwell, McBain and Stevenson.

A COMMUNICATION

was received from the Ottawa School Board enclosing copy of a circular in respect to legislation affecting High Schools, was referred to the Committee on Supervision.

RE-APPOINTING TEACHERS.

Mr. McBain, chairman, presented the report of the Committee on Appointments as below:

To the Chairman and Members of the Board of Education:

Your Committee on Appointments beg leave to report and recommend as follows:

1. That Miss Allen be appointed on the public school staff in place of Miss Wilson, resigned, salary to be in accordance with schedule—namely, $375. She is well qualified to take the position, as she is the holder of a first-class certificate and comes highly recommended.

2. In reference to the communication of Miss Spence, your committee recommend that it be received, and that the vacancy on the staff be not filled at present.

3. Your committee, after considering the Inspector's confidential report, recommend that the following teachers be re-engaged for the ensuing year at the salary opposite their respective names:

" Mighe	287 50
" Meharry	287 50

4. Your committee recommend that Mr Tighe be notified that his services will not be required after 31st December, 1898, and that the secretary notify him accordingly.

All of which is respectfully submitted.

J. J. McBAIN, Chairman.

SEWERAGE CONNECTION.

Mr. Ferguson brought up the matter of connecting the Central School buildings with the sewer, and presented plans and estimates of the cost.

After pretty thorough discussion, the matter was referred to the Property Committee with power to act.

The Board adjourned till the first Tuesday in September, unless earlier called by the chairman.

AN ITALIAN WEDDING.

Nuptials of Signor Giovanni Cupoli and Signorina Pasqualina Minnicolo.

An unusual nuptial event at St. Peter's Cathedral this morning was the marriage of two prominent members of the Italian colony. Ven Archdeacon Casey performed the ceremony that united in the holy bonds of matrimony Signor Giovanni Cupoli and Signorina Pasqualina Minnicolo. The bride, who was resplendently attired in white satin with the conventional veil and orange blossoms, was attended by her sister, Signorina Maria Minnicolo, while Signor Leonardo Minnicolo performed the duties of best man. After receiving the felicitations of their friends the happy pair dropped the romance of the wedding festa and entered upon the prosaic duties of every day life.

LACROSSE.

Practice to-night.

A full turnout to practice is requested to-morrow night, after which the committee will meet at the EXAMINER office at 9 o'clock to pick the team and complete arrangements for Friday's game.

The Toronto News of last night says: Midland plays in Peterborough on the 15th. They are running a large excursion down, and having an entirely new team on the field will give Peterborough a hard tussle.

There are about eighteen men available for the senior team this year. The committee will be put to their wits end towards the end of the season to select a dozen men. There will no doubt be further changes in the team to play against Midland on Friday.

At the meeting last night the secretary was instructed to write Perth that owing to the number of championship games to be played it would be impossible to send a first class team to that town for a month to come, but that about the date of the C. P. R. picnic a game might be arranged.

There is a one championship game each week for the next month.

A large crowd should attend the game on Friday, the receipts of this game go to paying the expenses of the game at Midland which are considerable.

Expert Lady Dyers.

Mrs. William Warder, Spry, Ont., says: "Your Diamond Dyes are excellent, and nothing could now tempt me to use any other make of dyes. Diamond Dyes always give me entire satisfaction."

Mrs. McNeill, Stanley Bridge, P.E.I., says: "I have used the Diamond Dyes with great success. I recommend them to all ladies who wish to do their own dyeing. For colouring dress goods they are just perfect."

Mrs. L. Reid, Newcastle, Ont., says: "We have used your Diamond Dyes for the last ten years and find them to be the best dyes made."

ASHBURNHAM BREVITIES.

The Sons of England Band will be present at the Mark street church Ladies' Aid Flower and Fruit Social Thursday evening, July 14th on the parsonage lawn. A musical programme will be presented and a tempting bill of fare provided. An admission ticket admits the holder, and also enables him to enjoy the programme and refreshments. A good crowd is expected.

Mark street church trustees met last evening to further arrangements for the church repairs which are contemplated.

St. Luke's Sunday school expect a large turn-out at their annual picnic down the river on Thursday, July 14th.

Some repairs are to be made to the Ashburnham Public School during vacation. The annual picnic of this school will be held on Tuesday, Aug. 30th, to Jubilee Point per City of Peterborough.

A Wheel Within a Wheel?

Is this a possible clue to the person guilty of the larceny of the wheel of Norman Williams, which was taken from the Morgan House on July 2nd? There is now resting in the condemned cell of the police station a wheel of '92 make, with the tire of the front wheel in a state of collapse. On the morning of July 1st, this wheel, which has evidently lived out its usefulness, was left leaning against a tree in front of the residence of Mr. George Record. Is it not probable that the owner of the superannuated wheel left his machine there and took his chance of replacing it with the wheel taken from the Morgan House? If the police could find who owned the wheel left at Mr. Record's, Ashburnham, they would have a clue to the thief of the wheel taken from Mr. Williams.

It Makes People Well.

Paine's Celery Compound is the one true specific recognized and prescribed to-day by the most able practitioners for all diseases arising from a debilitated nervous system.

That eminent medical professor Dr. Phelps gave it to his profession as a positive cure for sleeplessness, wasting strength, dyspepsia, biliousness, liver and kidney troubles, rheumatism and neuralgia, and in every case it has triumphed over sickness and disease when all other medicines failed.

Paine's Celery Compound works wonders in the season of oppressive heat. It gives vim, energy and strength to the weak, languid, irritable and morose; it banishes all tired feelings, and enables men and women to go through the routine of daily toil with heart, soul and energy.

Let us urge you to try this marvellous medicine that millions are talking about. The use of Paine's Celery Compound means vigorous appetite, good digestion, happy disposition and continued good health. Paine's Celery Compound makes people well.

Weak Heart.

"For years I suffered from weak action of the heart, dizziness and a watery condition of the blood. Milburn's Heart and Nerve Pills have made my heart strong and enrichened my blood so that now I am free from the troubles that formally distressed me." B. A. ROSS, Ailsa Craig, Ont.

THE NORTH STAR TRIPS.

The Steamer North Star recommenced her Daily Trips on Thursday, July 7th, leaving Peterborough wharf at 9.15 a.m each day for Jubilee and Idyl Wild. This was the popular boat last season and is now faster and more complete than ever. GEO. McWILLIAMS, Proprietor.

Can't Sleep.

The weary vigils of the night, anxious hours that drag like days. How often they come, and how unwelcome they are. A system robbed by sleeplessness of natural rest cannot be vigorous and strong. The nerves are at fault and must be built up. Dr. Ward's Blood and Nerve Pills are the remedy that cured

MISS EMMA TEMPLE.

HERE IS WHAT SHE SAYS:

At last, after eight months of physical weakness and nervous prostration, caused by over exertion and want of rest,—during which time I suffered greatly on account of the shattered condition of my nerves, and for which I was unable to find any relief. I have found a medicine (Dr. Ward's Blood and Nerve Pills) that in three months made my nerves strong, removed all nervous troubles, built up my physical system and made me strong and well. They removed despondency, and in consequence of taking your valuable Pills I look forward to the future hopefully. I have to thank your great cure for nervousness and bodily weakness for my present good health and strength.

Yours truly,

Signed, EMMA TEMPLE, Hastings, Ont.

Dr. Ward's Blood and Nerve Pills are sold at 50 cents per box, 5 boxes for $2.00, at druggists, or mailed on receipt of price by The Dr. Ward Co., 71 Victoria St., Toronto. Book of information free.

"A LASS AM I."

A lass am I, and I wait my day.
To some 'twill be nay, but to one 'twill be yea.
When the time comes, I shall know what to say.
The winter goes, and the warm wind blows,
And who shall keep the color from the red, red rose?

A lass am I, neither high nor low.
My heart is mine now, but I'd have the world know,
When the wind's right, away it will go.
The brook sings below, and the birds sing above,
And sweeter in between sings the lover to his love.

—John Vance Cheney in Century.

A DOCTOR'S OFFER.

There was once a learned doctor who had studied long and hard, but in Cucuguano, where he had settled, no one had faith in him. Meeting him always with a book in his hand, the Cucuguanese said:

"That doctor knows nothing—he is always studying. If he studies so much, it means he has need to learn; if he needs to learn, it means he does not know; if he does not know, he is an ignoramus."

A doctor without patients is like a lamp without oil. Without other resources, forced therefore to earn a living by hook or by crook, up to this time the poor devil had not been able to pay even for the water he drank. He decided there would have to be a change, so one day he managed to spread abroad through all Cucuguano the report that his science was so sublime and all powerful that not only could he heal the sick—mere child's play—but raise the dead as well; a miracle of God, surely. And this miracle he promised to perform openly in broad day in the graveyard amid the multitude.

Few gave credence to the report, yet even the incredulous said: "We will let him attempt it anyhow. Let's see him at work—the proof of the pudding is the eating. He may succeed—he reads so much, and nowadays such wonderful discoveries are being made. If he succeeds, we will applaud him; if not, we will hiss him out of the countryside. Let him bring a man to life again and we will say he is the cleverest doctor we have ever had."

Finally it was settled that on the following Sunday, at the stroke of noon in the cemetery of Cucuguano the doctor would raise a man from the dead—nine or ten, some old women went so far as to say.

That Sunday, long before noon, the graveyard was as jammed as is the church on Holy Easter day. True to his word, on the second stroke of the bell appeared the doctor, all in black. He elbowed his way to the steps of the central cross. There he saluted the crowd, spat on the ground, blew his nose and began:

"My dear friends, I have promised to bring one of your dead back to life. I intend to keep my word. Be silent and hearken to me. It will cost me absolutely no effort to raise from the tomb Giacomo or Giovanni, Nannina or Betta, Amadeo or Simone. Shall I raise Simone? Simone—what was his last name? Simone Capannaro, who died of pleurisy a year ago?"

"Excuse me, signor dottore," said Caterina, poor Simone's widow. "Certainly he was a fine fellow. He made me very happy, and I will mourn him as long as I have eyes for tears. But, pray, do not bring him back; for, you see, toward the end of the month I'm to put off mourning, and, to please my family, I'm to marry Pasqualone. The banns are already published, and I've accepted the presents."

"You did well to tell me, Caterina. Then I will raise Nina Carota, who died Candlemas day."

"For heaven's sake, signor dottore!" cried Giacomo Carota. "Nina was my wife; we lived together ten years—ten years of purgatory, as all Cucuguano knows. Let her stay where she is, for her rest and mine. What a peppery temper, doctor! Obstinate as a mule, lazy and quarrelsome and slovenly and ragged! And that is not all. Wasteful, and a tongue—a viper's tongue—that would have set St. Joseph to quarreling with the Madonna. I might add— But that's better left unsaid."

"Yet, my dear fellow"—

"Excuse me for interrupting, signor dottore. A new broom sweeps clean. Nina left me three brats, who certainly do not take after their father, and as I could not handle them all I have married again; so you see it is useless."

"Well and good. I can conceive it would be martyrdom to have two wives in the house. One is more than enough sometimes. Then whom shall I restore to you, my dear people? I must find some one. How about Master Pietro?"

"Ah, my poor father!" cried a voice. "May God rest his soul. A good man was he. But don't bring him back, pray, doctor. He who wished so much to see us a united family would be heartbroken to find our affairs in such a muddle. After a dozen lawsuits the six of us—four sons and two daughters—have finally divided the property into six little strips. Each of us has a swarm of children, each of us has to shift for himself. There is not one of us who has anything to spare."

"So it cannot be?"

"No. If you should bring him back, we would have to make up a little income for him among us all. Only the times are so hard, doctor, you know. The silkworms don't hatch well, nor spin when they do; the vines are diseased, the grain is thin, the olives are wormy, there is no rain, the taxes are heavy"—

"Enough, we will let Master Pietro sleep on. But I have not come here to string beads and to have the crowd gape at me. Tell me whom to raise."

"Ghita—bring back Ghita, my Ghita," cried a poor old woman, weeping like Mary Magdalen.

"No, no, doctor, do not wake her," interrupted a girl. "Oh, no, pretty creature, it's all well she died. Before she left us she told me all. We dressed her in white and put a wreath on her hair till she looked like a bride. Leave her in holy ground. The man she loved deserted her for some one else."

"Poor Ghita. But you must admit you are making it hard for me. To put an end to it all I will bring back Grisgaletto, who choked to death eating codfish not a month ago."

"You must not, you must not," cried Lina Paparero, wringing her hands. "He sold me that vineyard of his on the installment plan. For ten long years I've been paying in hard coin far more than its value, and now would you have me begin all over again? It's not fair, signor dottore."

"What a state of things. But we will let that go. I will now propose one who left to mourn him neither brother nor sister, wife nor parent; one who left only a blessed memory, an example of all the virtues, and his little savings to the hospital—I mean your good priest, who loved you so well, whom you regretted so deeply, who made, you remember, such a dreadful journey to the other world, seeking, poor pilgrim, his Cucuguanese in every corner, even in yawning hell itself, not missing a single one. Shall I restore him to you?"

"No, no," cried various devout members of the flock. "No, no," added Lena Russolina, the mother of the congregation. "He was old, poor man, and deaf as a post, so much so that at confession he always absolved us of sins we had never committed. Leave him in glory, especially since we now have a young and hearty curate. He is as good as a saint, he sings like an organ, he preaches like a seraph, and he swims with the current."

"What's to be done? I'll try some one else. I see over there a little white wooden cross. The harebells seem trying to hide it; the tall grass is almost on a level with it. You can read that that narrow grave holds a 10-months-old baby. True, it seems half a pity to bring the tender soul back to this world to bear—what you have all been bearing. Still, if you wish him raised, say but the word and I will display my power."

"Signor dottore," whispered a wrinkled crone, "that little one is ours, alas! I am the grandmother. My daughter had not yet weaned him. He was just getting his teeth, when suddenly he died. But God took him from us. God's will be done! Now there is another babe at the breast. God knows what he is doing. What he takes with one hand he gives back with the other. My daughter couldn't suckle both, and we are too poor to put him out to nurse."

At this the doctor burst out: "Enough for today, if not too much, indeed! Since you won't have the miracle now, I will perform it on another occasion. Only I beg of you to agree beforehand on the person to be brought to life." And he strode away.

From that memorable Sunday our doctor has done wonders in Cucuguano. It is true he does not raise the dead, but he saves the lives of the sick. The Cucuguanese, now fully trusting him, say, "If he did not fulfill his promise, to tell the truth, it was not his fault—it was ours, for we wished to leave our dead underground."—Translated For Argonaut From the Italian.

RUNNING TOO FAST.

The Speed of La Bourgogne Was Too Great and Violated Law.

Washington, D.C., July 11.—In commenting upon the question of the liability of the French Liner La Bourgogne for the loss of life in the collision of July 4, a competent legal authority here today said:

From the descriptions thus far published, it appears that La Bourgogne violated rule 16 of the international rules, which requires a vessel in a fog to go at *moderate speed*, constantly sounding her fog horn, whether other vessels are heard in the vicinity or not. She is reported to have been going ahead at 17 knots, though our courts held in the case of La Normandie that 10 knots was excessive. But rule 16 goes even further, providing that when a steam vessel, hearing apparently forward of her beam the fog signal of a vessel, the position of which is not ascertained, shall, so far as the circumstances admit, stop her engines altogether. She may then navigate with caution until the danger of collision is over. Under the general admiralty law there is no liability for causing the death of a passenger upon the high sea.

Will Sue for Damages.

Paris, July 11.—Counsel for the owners of the British ship Cromartyshire, which was in collision on July 4, off Sable Island, Nova Scotia, with the French liner La Bourgogne, resulting in the sinking of the latter, with the loss of over 500 lives, have lodged a claim for damages against the Compagnie Generale Transatlantique, owners of La Bourgogne.

Blame the Passengers.

New York, July 11.—A large number of the crew have made sworn statements to Consul-General Bruwaert, repesenting the French Government in this city, the tenor of which is that the passengers went crazy with fright and would not allow anything to be done for them.

Successful At Last.

"I was a sufferer from neuralgia in my side, and headaches. I followed numerous prescriptions without benefit and was persuaded to try Hood's Sarsaparilla. When I had taken only one bottle I realized it was doing me good and I continued taking it until I was cured." MRS. CARRIE PRICE, Georgetown, Ontario.

Hood's Pills are the favorite family cathartic. Easy to take, easy to operate. 25c.

Team to Come to Canada.

London, July 11.—The volunteer artillery team under Lord Strathcona's command, to visit Canada for the purpose of competing in big gun practice with the Canadian volunteers, will probably consist of two officers and only twenty-five men on account of lack of money. The War Office declined to grant any money towards the expenses of the expedition. The team will sail on July 20, and will remain abroad seven weeks.

That weather-beaten relic, the remains of the Queenston bridge, which for the past score of years has hung over the lower Niagara River, and served as an object of interest and curiosity to all, now lies at the bottom of the river. A new bridge will be put there.

During the visit of Li Hung Chang, the "Grand Old Man of China," to this country, the New York Sun said of him: "He is a large, strong, impressive specimen of manhood. He has a massive frame, a shapely head, a commanding face and well posed features. He is a keen observant of mankind, of life and of things. He is seventy-four years of age and still in the hey-day of his power."

If a Chinaman, usually regarded by us as a barbarian, can live to a healthy, hale old age, why cannot Americans, with their more advanced civilization, do the same? The reporters discovered during Li Hung Chang's stay in this country, that he took every thought for his health. He lived upon the simplest of diets and never passed a day without consulting his physician. He limited his toil to a reasonable number of hours, and would not deviate from his rule in this matter. American men follow just the opposite practice. They work to the limit of endurance, will not even take the proper time for eating, resting and sleeping, and never think of their health until it is gone. There is a wonderful medicine for hard-working men. It is Dr. Pierce's Golden Medical Discovery. It takes the place of a physician. It keeps away ill-health and restores health when it is lost. It is the great appetite sharpener, blood-maker and flesh-builder. It makes the digestion perfect, the liver active and the blood pure and rich. Medicine dealers sell it.

"My husband had been a robust young man," writes Mrs. M. J. Tedder, of Ellington, Reynolds Co., Mo. "When he was 31 years old he began to cough very hard. He had pains through his chest and lungs. His mother and the rest of his family had died with consumption. He continued to cough every winter, until in 1883 he had an attack of pneumonia. His cough grew worse and worse. He would vomit immediately after his meals. In 1888 he coughed night and day. He was getting very weak and had no appetite. He commenced Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets.' He improved. His appetite got better. When he had taken seven bottles he looked like a new man and felt like a new person. He weighs more than he ever weighed before. He gained twenty-eight pounds and is cured."

THE MOHAMMEDANS.

The Queer Manner in Which They Mix Up Religion and Murder.

The month of Ramadan, in which the first part of the Koran is said to have been revealed, is observed as a fast by all Mohammedans. The fast extends over the whole "month of raging heat" and involves extraordinary self denial and self control. No food or drink of any kind may be taken from daybreak until the appearance of the stars at nightfall.

The rigor with which a Mohammedan observes this fast and the great gulf between its observance and obedience to the moral code are both illustrated by a story told in the life of one of the heroes of India, Major John Nicholson.

While Nicholson in 1854 was deputy commissioner in Bannu, a native killed his brother and was arrested. He was brought before Nicholson on a very hot evening, looking parched and exhausted, for he had walked many miles, and it was the month of Ramadan.

"Why," exclaimed Nicholson, "is it possible that you have walked in fasting on a day like this?"

"Thank God," answered the Banuchi, "I am a good faster."

"Why did you kill your brother?"

"I saw a fowl killed last night, and the sight of the blood put the devil into me."

"He had chopped up his brother, stood a long chase and been marched in here, but he was keeping the fast," wrote the commissioner to a friend, that he might know what sort of bloodthirsty and bigoted people he, Nicholson, had to govern.

One day a wretched little child was brought before the commissioner. He had been ordered by his relatives of the Waziri tribe to poison food.

"Don't you know it is wrong to kill people?" asked Nicholson.

"I know it is wrong to kill with a knife or a sword," answered the child.

"Why?"

"Because the blood leaves marks," answered the trained poisoner.

A Pathan chief, who fell by Nicholson's side in a skirmish, left a little son, upon whom the English officer lavished care and attention. One day the 7-year-old boy asked his protector to grant him a special favor.

"Tell me first what you want."

"Only your permission, sahib, to go and kill my cousins, the children of your and my deadly enemy, my uncle, Faltri Khan."

"To kill your cousins?" exclaimed the Englishman, horrified at the answer.

"Yes, sahib, to kill all the boys while they are young. It is quite easy now."

"You little monster! Would you murder your own cousins?"

"Yes, sahib, for if I don't they will certainly murder me."

The little boy wished to follow Pathan usage and thought it very hard that his guardian should prevent his taking so simple a precaution.

THOSE PRICELESS BOXES

Of Dodd's Kidney Pills Cured Mr. Colwell of Bright's Disease.

Windsor, July 11th.—"Is it true, Mr. Colwell, that you have been cured of Bright's Disease by Dodd's Kidney Pills?" our reporter asked Mr. R. F. Colwell, jeweller, of No. 9, Ouiette street, to-day.

"It is indeed," was the answer. I suffered two years with Bright's Disease. My back ached all the time. I had awful, aching pains in my loins, a puffiness under my eyes, and my urine was very dark coloured.

"For a time I could find no remedy to do me any good. But one day a friend told me he had been cured of the same disease by Dodd's Kidney Pills. I bought a supply. A few boxes cured me thoroughly." Dodd's Kidney Pills cure all kidney complaints.

Your Pulse.

Is it regular in its beat, or is it weak and intermittent? A weak pulse indicates a weak heart. Milburn's Heart and Nerve Pills is the great remedy for weak, palpitating heart—makes them strong and steady.

THE ABBE'S DOG.

Abbe Santeu was the cure of a sleepy little village at the extreme end of Provence—the Provence of the olden time, when doubts had not yet crept in to corrupt the simple faith of the peasants. The old priest lived happily among his parishioners, kindly souls all of them, and so obedient to the commandments of God and our holy mother church that their lives were a real benediction for their spiritual father. The good man had no need to touch them up every now and then with a rousing sermon, nor did he ask the aid of others more eloquent than himself to convert his flock. They were born, lived and died in the fold, and their pastor discharged his simple priestly duties and led in anticipation the life of the blessed.

The abbe adored nature, and every day you could have seen him strolling among the fields, reading his breviary, while from time to time he glanced at the gambols of Oremus, his little dog. They were as inseparable as St. Roch and his famous bowwow. Oremus enjoyed these strolls as much as his master, but in a different fashion. The priest's pleasure was purely contemplative, that of the doggie active.

Oremus firmly believed that God gave four legs to little dogs so that they could be twice as alert as their masters, who, poor creatures, had but two. So he raced over the fields, sometimes behind, sometimes ahead of the cure, jumping, making a corkscrew of his tail, snapping at the birds and giving himself up to all the pranks befitting the well bred dog of a priest.

Superfluous to add that Oremus understood absolutely all that his master said to him and that he could do everything but speak. As for tricks, our Oremus could have given points to the whole canine world. He danced on his hind legs and shook hands like a Christian, and his great feat was to refuse the most delicious chop, the juiciest morsel, if offered with the left hand.

You may well believe that this victory over the canine flesh was not gained without effort. The abbe and his dog had given much time and patience to the perfecting of this triumph, and evenings after the cure had dined alone the little dog was put through his paces, always ending the performance with the famous "chop act." Then the abbe, with tears in his eyes, would ask himself if the good God could have the heart to refuse a scrap of paradise to such a creature. Let us hasten to add that the worthy priest would have died before giving voice to such a sentiment—he, a son of the church.

But nothing is perfect in this world, and one day the sacred calm of Abiho was turned into confusion. Listen, and you will learn how. A young conscript, who had been absent seven years and who was supposed by the villagers to have been killed in the war, reappeared one fine morning and immediately took up his old life of farming. So far so good. But what a scandal arose, my friends, when it was known that Le Faiard absented himself from mass on Sunday, swore like a pirate at every word, and, more than all, ate meat on Friday!

Abbe Santeu almost died of mortification. Night and day he racked his brain to find some means of bringing the apostate back to the faith of his childhood. As if by accident M. le Cure often strolled past the field where Le Faiard was working. Almost always he stopped to gossip with his black sheep, and very often the conversation turned on the all absorbing question. Le Faiard, for his part, was only too ready to argue the point. He was a pigheaded fellow, who liked to hear himself talk, and frequently it happened that our good abbe—who was by no means a well of learning—found himself floored by the arguments which his opponent had picked up in his military life and which he reeled off with a parrotlike volubility.

One day when Le Faiard had reduced his adversary to silence, he asked, as a finishing stroke:

"Anyway, father, do you take me for a saint?"

"Alas, far from it, my son."

"The devil fly away with me, then, if you don't demand more of me than a saint or even an apostle is capable of."

"Heaven forbid!" ejaculated the priest, falling innocently into the snare.

"Well, then, father," said Le Faiard, with a sly grin, "did St. Thomas believe on the faith of others? Didn't he require a miracle, and, trono-de-Dieu, what a miracle! Who can blame me for following St. Thomas' example—only I ask less than his saintship. Show me the least little miracle, I don't care how small, and I'll go to confession with all my heart."

Then seeing that the priest was dumfounded, he added: "Morbleu, father, won't you show me one? That ought not to feaze a friend of God's."

Then he walked away, in high glee, at the effect produced by his words.

"Work a miracle," said the priest to himself. "Impossible! And yet if God would help me"—

In truth God did help him, and one day in mid-Lent Father Santeu left the house, escorted by his dog. All the way to Le Faiard's field he chuckled softly to himself.

"A miracle, indeed. You must have a miracle, must you, you rogue? Oremus, little villain, leave those birds alone. You have other things to do. A miracle! Yes, my fine fellow, you are going to have your miracle, and I'm going to have your soul!"

It was Friday. Le Faiard has just killed his pig, and would probably have a sausage for dinner.

The priest soon reached his destination.

"Good day, Le Faiard," said he, in a fatherly tone.

"Good day, father," replied the disciple of Voltaire.

With that they fell into a chat, interrupted from time to time by the yelps of Oremus, and punctured, so to speak, by the handfuls of seed that the young farmer scattered right and left as he walked along.

Dinner hour. The two men seated themselves on a little hillock, and Le Faiard pulled a sausage from his pocket, a superb sausage, red as a tomato, and with an odor to have made a saint's mouth water.

"Holy Virgin, Le Faiard, what a sin! On a Friday, in Lent too. Don't eat it, my son."

"Not eat it! That's good. The idea! I would eat it on Good Friday if I had it. Besides, haven't I seen with my own eyes bishops and archbishops, too, for that matter, in India, who always ate meat whether it was good or bad Friday."

"Your joking is ill timed. God is good, but he will not always have patience with you. Some day he will open your eyes by a miracle, but who can say if then the gate of mercy may not be closed for you."

"Father, miracles are always in season, but unfortunately the time for them has gone by. As for me, death of my life, I wouldn't ask better than to see what you threaten me with. Meanwhile the sausage claims my attention—and"— And the rascal took a great mouthful of his dinner.

Oremus had not lifted his eyes from the sausage since its appearance on the scene. Every time Le Faiard took a bite the poor bowwow licked his chops and wagged his tail, which distinctly said in dog language:

"Oh, what an elegant sausage! How I should like some!"

"Watch my dog, you mocker," said the abbe. "See how he is devouring the sausage with his eyes. Well, when I say, 'It is Friday, Oremus,' he will not touch the piece that I am going to offer And he is only a dog."

Le Faiard was convulsed with laughter.

"Oh, father, that's too much! All the same, though, I would like to see your miracle—it would take me to mass—yes, and vespers too."

Taking a delicious morsel of the sausage, the abbe called, "Oremus!"

Oremus came like a streak.

"It is Friday, Oremus," went on the abbe, "but just see what I have for you," and he offered the tempting bit, which he held, be it understood, in his left hand.

Imagine, if you can, the astonishment of Le Faiard when he saw Oremus halt suddenly in front of his master, head lowered, tail between his legs and with the air of an actor who had forgotten his lines.

"Good doggie, Oremus, eat it!"

Sure of his success, the priest put the sausage under the dog's nose. Not a movement! Oremus' eyes were good. He saw that the sausage staid in the left hand, and after a few minutes he turned tail and retreated to the shade of a bush close by, where he sadly flung himself down and tried to forget his disappointment in a little nap.

During this scene Le Faiard had been petrified. With open mouth he watched the priest and his dog as a criminal watches his judge. When Oremus finally beat a retreat, Le Faiard roused himself and ejected the mouthful already half masticated.

"Father," he cried, "I have seen enough and too much. I am the most miserable sinner on earth, and it has taken a dog to convince me of it."

The following Sunday Le Faiard went to mass and vespers, and ever since that memorable day it is he who lights the candles and rings the bells in Abiho, where the holy peace of God reigns now as formerly.—"L'Echo de la Semaine."

DYING BY INCHES!

But Dodd's Kidney Pills will Yet Renew Life.

Thousands of persons die in the prime of life because doctors think Bright's Disease and Diabetes incurable. But Dodd's Kidney Pills cure them both. They *have cured* thousands of cases.

These diseases and other Kidney complaints are as common as ordinary colds. But people don't realize that they are afflicted till the disease has eaten deep into the system. Even then, Dodd's Kidney Pills will positively cure.

Thousands of *people are dying on their feet, but do not realize it.* They notice one or more of these symptoms: shortness of breath, loss of memory, failing sight, ravenous appetite, pale or reddish urine, with brick-colored deposit, scalding when urinating, constipation, nervousness, pains in the loins. Their only hope is Dodd's Kidney Pills. They won't fail. They never do.

The Mystery of Mysteries.

Providence moves in a mysterious way, but those who make a specialty of explaining these mysteries have never been able to account for the regularity with which twins and triplets come to the home of the man who earns a salary of $8 per week.—Washington Post.

TO MEET ON AUGUST 3

Special Session of the Ontario Legislature Called.

VERY IMPORTANT TOPICS UP.

The Election Petitions, Right of Constables to Vote and Provincial Control of Fisheries—Memo by the Attorney-General Giving Reasons for Calling the House Together.

Toronto, July 13.—A memorandum by the Attorney-General of the Province of Ontario, Hon. A. S. Hardy, dated yesterday, and addressed to the Lieutenant-Governor-in-Council, sets forth that he has had under consideration the provisions of section 86 of the British North America Act, and section 4 of the Act respecting the Legislative Assembly (chapter 12, R.S.O., 1897), which requires that "there shall be a session of the Legislature once at least in every year, so that twelve months shall not intervene between the last sitting of the Legislature in one session and its first sitting in the next." The last session of the Legislature of the Province closed on the 17th day of January, and under the sections above cited the next session of the Legislature must begin not later than the 16th of next January.

65 Protests Entered.

The Attorney-General then proceeds: Since the prorogation a general provincial election has been held, and 65 protests (besides several cross-petitions) have been entered against the election of members who were returned duly elected. Up to the present time it would appear that none of these petitions have been ready for trial. The undersigned has learned, however, that the election judges have fixed the time for the trial of 31 of said petitions, or less than one-half, the earliest date fixed being the 29th day of August, and the latest day the 3rd of November, leaving the remainder to be tried, it is assumed, at later dates.

Every District Should Be Represented.

Having regard to the number of petitions to be disposed of and to the right of appeal from the election court to the Court of Appeal, and having regard to the time required for a new election, it appears reasonably certain, should many of the petitions be successful, that all the trials and appeals cannot be disposed of and new elections held where necessary before the 16th day of January next, the time at which the new Legislature should meet under the Acts already quoted. In the opinion of the undersigned it is important in the public interest that every electoral district should, if possible, be represented when the Assembly is called together. Should the House be so called during the autumn or in December this would, under the Election Act, put a stop to any election trials which might then be ready or in progress, and would seriously interfere with the plan for the trial of the petitions which the learned judges have prepared, and of which public notice has been given.

The Vote of Constables.

A question has been raised as to the right to vote of persons called upon or sworn in by the deputy returning officers to act as constables or special constables on polling day under the Election Act, and who are paid out of public funds, and possibly, too, as to the right of persons to vote whose premises have been used for the purposes of the election, and who are also paid therefor out of municipal or other public funds, and perhaps of others. Although the statute under which it is alleged that constables acting under the authority of the Election Act are deprived of their vote has been in existence for many years, the undersigned has not been able to learn that any objection has been taken to such right of voting at any election trial heretofore held in the Province, or that upon any scrutiny of votes it has been contended on either side that such persons had become disqualified. The undersigned is of the opinion that constables appointed under the Election Act are not by law disqualified, and should not be deprived of the right to vote.

Provincial Control of Fisheries.

The Attorney-General then argues the case and cites convincing precedents for this course, and finally gives a third emphatic reason for the meeting of the Legislature, namely, that arising out of the decision of the fisheries by the Judicial Committee of the Privy Council. The decision, while it awards the property in the beds of lakes and rivers, and the fish therein, to the provinces, divides the jurisdiction. The sole right to issue fishery leases, licenses and permits to fish, and to receive the fees, is in the provinces, but the Dominion will fix the close seasons and determine what instruments are to be used in fishing. In 1897 the Legislature passed an Act respecting fisheries, framed in accordance with a decision of the Supreme Court, giving the province more extensive powers than are granted by the final judgment. In view of the possibility of the Supreme Court judgment being reversed, it was provided that the Act should not go into force except upon proclamation of the Lieutenant-Governor. The Privy Council judgment, while substantially in favor of the province, is not of such a character as to allow the law of 1897 to be proclaimed, nor is it possible, except by new legislation, to modify the law so as to bring it within the terms of the Privy Council judgment.

TO MEET AUG. 3.

Having regard to these considerations, the Attorney-General is of the opinion that the Legislative Assembly should be convened on the third day of August next, for the despatch of business, and respectfully recommends that a proclamation to that end be issued.

The Attorney-General further recommends that after the disposal of such business as the Assembly may be pleased to entertain, its assent be asked to an adjournment, so that the meeting to be held as aforesaid, and the subsequent meeting of the Assembly in the early part of next year, shall be taken as but one session. In order that the meeting of the House may not put a stop to the trial of the election petitions, it may be necessary to provide by legislation that the calling of the House and its adjournment shall not prevent or interfere with such trials during the recess.

TOLLS OF THE YUKON.

30,000 Miners Have Passed Lynn Canal and 20,000 More Are on Their Way to the Gold Fields.

Ottawa, July 13.—The Controller of Mounted Police is informed by his officers on the routes to the Yukon that between twenty-seven and thirty thousand souls have crossed the summits of the passes beyond the Lynn Canal and at least twenty thousand are on their way down the rivers beyond Bennett to the gold fields. The reports also say the customs duties are being collected with very little difficulty. One remittance of $125,000 has been received by the customs authorities here this season, and another $75,000 odd is on its way.

THE BOURGOGNE DISASTER.

Capt. Henderson, of the Cromartyshire, Tells His Story Under Oath.

Halifax, July 13.—The enquiry into the Bourgogne disaster by the Dominion Government opened yesterday in Halifax, with all the parties concerned fully represented by counsel. The enquiry was held in order to fix the responsibility for the disaster, especially as regards Capt. Henderson of the Cromartyshire.

Capt. Henderson's sworn testimony was to the effect that he did everything possible to avert the collision. He did not know the Bourgogne had gone down until the first boat came alongside. The first boat contained mostly seamen, all of whom were dressed, and none of them wet. He said they couldn't have been in the water. The second boat had a number of passengers, and the rest were seamen. Capt. Henderson said the collision occurred about 180 miles from Halifax and 700 miles from New York, and that more than 10 minutes elapsed between the time he heard the Bourgogne's first whistle and the time of the collision.

The captain stated that the Bourgogne was 160 miles north of the regular track of eastbound steamers. According to Capt. Henderson's testimony, the quartermaster of the Bourgogne stated that he heard the Cromartyshire's fog horn four or five times before the collision, and that the Bourgogne was going at a speed of 18 knots an hour when the collision occurred. The enquiry will be continued to-day.

TRAIN CRASHES INTO A WAGON

Containing Eight Children—One Killed, Two Jumped and Escaped.

Grand Valley, Ont., July 13.—About one mile west of here the eastbound freight train crashed into a wagon drawn by a team of horses, containing eight small children, Sam, Nellie, Maggie, Thomas, Annie and Bertha Duckworth, children of Samuel Duckworth, and Gilbert and Nellie Birney, children of Mrs. Birney, both of whom reside a short distance from town. Gilbert Birney is dead. Thomas Duckworth and Nellie Birney jumped and escaped. Two of the others are very badly injured. Doctors are in attendance, and the full extent of the injuries are not known. The Birney girl was driving and the horses becoming frightened at the approaching train, ran away, and just as they reached the track the train crashed into them. The engineer says he whistled for the crossing and reversed the engine when he saw an accident was inevitable.

THE SANTIAGO SIEGE.

City Now Almost Wholly Surrounded by U. S. Troops.

GEN. TORAL'S FLAG OF TRUCE.

The Spanish Commander Not Yet Driven to Unconditional Surrender—Shafter to Toral—Toral's Response—British Blockade Runner Captured—The News From Spain—No Premier Yet.

Siboney, July 11, 7 p.m., via Kingston, Jamaica, July 13.—(11.30 a.m.)—A concerted movement has been made by the United States army and navy against the city of Santiago de Cuba during the past 24 hours, which the American officers here believe will result in the almost immediate fall of the city.

The fleet lying off Aguadores, three miles east of Morro Castle, commenced the bombardment of Santiago on Sunday afternoon and continued it this morning. Notwithstanding that the ships had to fire at an extreme elevation and, although the range was nearly five miles, the aim was so accurate that many of the shells fell in the city and set fire to it in four places.

One shell struck St. Michael's Church, in which was a quantity of powder and ammunition, and blew it to pieces.

During the bombardment from the sea, the army extended its lines and drew in closer to the city, so that at noon to-day every road and trail leading out of the city was guarded, and the escape of the Spanish soldiers seemed impossible. The only way they can get out of the city is to ferry across the bay to the western side of the harbor, and even then they could not get into the interior without encountering American troops.

During the time the warships were bombarding Santiago this morning, the batteries of artillery on the hills facing the city shelled the Spanish entrenchments and received but a light response. The American sharpshooters also sent in a deadly fire and the Spaniards fell back to their last entrenchments, offering but little resistance.

The Americans suffered no loss.

At about noon to-day, General Shafter communicated by signal with Rear-Admiral Sampson, requesting the latter to cease firing. Then the General sent General Wheeler into the Spanish lines under a flag of truce with a message to General Toral, the Spanish commander, reciting the fact that the American ships had given complete demonstration that they could throw shells into the city and destroy it at will; that the American troops had the city practically surrounded, and that there were 18,000 Spanish and Cuban refugees starving to death at El Caney, and also pointing out that the American army had no means of feeding them. General Shafter then demanded the unconditional surrender of the city, and coupled this demand with the statement that, unless General Toral acceded, an assault upon the city, both by the land and sea forces, would be renewed at once.

Several hours elapsed before any reply was received from General Toral, and then he sent a message to General Shafter to the effect that the matter was of such great importance that he had been obliged to refer it to the Madrid Government, and that he would send his final answer as soon as he could receive instructions from Madrid.

It was then late in the afternoon and General Shafter gave orders to all the troops to get as much rest as possible and be prepared to resume the attack at any moment. No answer had been received from General Toral up to 6 o'clock this evening.

During the time the negotiations were pending Major-General Miles arrived off Aguadores on board the Yale from Charleston. Admiral Sampson went on board the Yale and held a conference with General Miles. Then the latter went to Siboney, landed for a short while and held a telephone communication with General Shafter, seven miles away.

General Miles will go to the front to-morrow (Tuesday) morning.

British Blockade Runner Nipped.

Key West, Fla., July 12.—(5.25 p.m.)—The British sloop Wary, another would-be blockade runner, was captured on the 2nd inst. by the United States auxiliary cruiser St. Louis, and arrived here to-day under a prize crew, consisting of Port Officer F. J. Albrecht and two men.

The Wary is a 21-ton vessel and was loaded with provisions of a miscellaneous character, including flour, rice, cheese, lard, potatoes and beer.

SITUATION IN SPAIN.

Nobody Willing to Accept the Premiership—Military Want War, the Public Want Peace.

Madrid, July 12, via Bayonne, France, July 13.—All the Spanish Ministers have handed their resignations to the Premier, Senor Sagasta, who has explained the situation to the Queen Regent. But the difficulty is that nobody is willing to accept the Premiership. Marshal Martinez de Campos would accept it, but he does not command a majority in the Chamber of Deputies.

While the military party urges war, the large proportion of the civil population is desirous of peace. It is pointed out, however, that if the United States insists upon the cession of Porto Rico and the Philippine Islands, the general feeling will be in favor of a continuation of the hostilities, many Spaniards believing that the situation in Cuba will enable Spain to prolong the struggle.

EDITORIAL NOTES.

BRANTFORD is said to be eager to follow the example of Peterborough and abolish the ward system, reducing the number of her aldermen to ten. The votes of the electors will be taken on the question at an early date. The movement spreads.

THE London Advertiser says:—Peterborough, by a majority of nearly two to one, has voted to abolish the ward system. Peterborough deserves credit for making the experiment. It cannot do much harm and it may correct the abuses which every thinking citizen knows are inseparable from ward representation.

THE Retail Grocery Clerks' National Herald says on behalf of the United States:—"We must take a hand in the enlightenment of the benighted millions of the old world," and follows it up with this briefly outlined method:—"The Philippines are ours; we must hold them, Porto Rico and the Canaries next. And, finally, old Spain herself, if we can get no other indemnity for the enormous outlay we shall be put to in the interest of humanity." This is a rather formidable programme, but it may not be so easily carried out. The Yankees tried to take Canada about 75 years ago, and all it succeeded in taking was earth enough for the graves of its soldiers lost in its disastrous and futile attempt at invasion. And that was when Canada was weaker than it is now—when we had no Church Boys' Brigades and volunteers.

THE DROP IN COAL.

Contrary to theories that were in vogue some years ago, the price of anthracite, or hard coal, is falling instead of rising. The anthracite companies find themselves with large surplus stocks on hand, and the consumption is diminishing from year to year. Last year the production was about one million tons less than that of the preceding year, and a drop in price of 50 cents a ton is now announced. It is believed that the reduction will be permanent, and that the price may go even lower, and stay there. While the production of anthracite is diminishing, that of bituminous coal is on the increase. The latter coal is being employed in many fields that were formerly regarded as the exclusive territory of the anthracite companies. The use of gas for cooking and heating has displaced a large volume of anthracite, while coal oil and other fuels are being used much more extensively than heretofore. Greater economy is being exercised in the burning of fuels of all kinds, and the tendency seems to be in the direction of lower prices all around. Anthracite was once considered an absolute necessity in the household for cooking as well as heating. As soon as the gas companies sell gas at cost price, which is somewhere in the vicinity of 50 cents, anthracite will be used very little in cities for any purpose.

SMOKELESS POWDER.

In a reference a couple of days ago to smokeless powder, the remark was made "evidently but a short time will elapse now until both the United States and British armies use that species of powder." An officer posted in military matters says that that the cordite powder used in the new Lee Metford or Lee-Enfield rifles with which the British troops and Canadian militia are being armed is practically a smokeless powder. That powder is used also in the new 12-pounder guns which are being supplied to our artillery. In the American army the Krag-Jorgenson rifle used by the regulars also has smokeless powder, but the artillery has not. On the American fleet, gunpowder is still used, inasmuch as the big guns were not constructed with a view to the use of smokeless powder, except on the New Orleans, a British-built war ship bought by the United States from Brazil, whose guns are of the very latest construction.

It is evident, however, that all the powers which still use gunpowder either on ships or for land arms will make haste now to get things in shape for the exclusive use of smokeless powder.

SAMPSON'S EXCUSE.

And now arises Admiral Sampson with a refusal to take his ships into Santiago harbour, over the mines, and he says that any attempt to raise or explode the mines would be prevented by the Spanish shore batteries and rifle men.

But how come those batteries there if past reports be true that Sampson's fleet demolished Morro Castle and the other fortifications, tore the batteries to pieces time after time, blew them up with dynamite shells, sent great Spanish guns hurling through the air, raised great clouds of red earth, and played the mischief generally with the Dons' defences? If all the tales we have been told are true, how is it the Spaniards have even a sand bank or a hill left behind which they can find shelter? Surely, with all the effectiveness of the fleet's gunnery, a few shells judiciously dropped among the riflemen should cause them to "scamper away, like so many frightened sheep." Yes, that is the way we have been told all along that the Spaniards cleared out when fired on by the gunboats.

Perhaps, after all, the destruction of the several bombardments has not been as extensive as has been alleged.—Toronto Star.

BRITAIN'S DEATH ROLL AT SEA.

Britain has dearly paid the penalty of being mistress of the seas. Apart from her losses in naval warfare the loss of British life and warshipping during this and the last century from unpreventable and unforseen disasters is simply appalling. Taking no account whatever of the hundreds of lives which the angry seas annually demand from the sea-bred English, as the contribution of Britain's merchant marine, the following account of disasters of warships alone is impressive as well as deeply interesting:

Edgar, English, blew up, 1711; all on board perished.

Namur, English, 1749; 330 lost.

Prince George, English sloop, burned, 1758; 400 lost.

Royal George, English frigate, 1782; 600 lost.

St. George and Defence, English frigates, 1811; nearly 2,000 lost.

Meduse, French frigate, 1816; nearly 200 lost.

Birkenhead, English troopship, 1852; 454 lost.

Albany, British sloop of war, 1853; 210 lost, all on board.

Lady Nugent, English troopship, 1854; 400 lives lost.

Eurydice, English training ship, 1878; 300 lost.

Captain, English war vessel, 1870; nearly every one on board perished.

Dotterel, English sloop of war, exploded 1881; 143 killed and drowned.

Victoria, English battleship, 1893; 400 lost.

England has been the unfortunate victim of the two greatest naval disasters on record. On Nov. 20th, 1703, the Stirling Castle, 70 guns; Mary, 70 guns; Northumberland, 70 guns; the Vanguard, 70 guns; York, 70 guns; Resolution, 60 guns; Newcastle, 60 guns; and Reserve, 60 guns, were all lost in the same storm and many hundreds perished.

Again in October, 1780, the Thunderer, 74 guns; Stirling, 64 guns; Defiance, 64 guns; Phœnix, 44 guns; La Blanche, 32 guns; Laurel, 28 guns; Shark, 28 guns; Andromeda, 28 guns; Deal Castle, 24 guns; Penelope, 24 guns; Scarborough, 24 guns; Barbadoes, 14 guns; Chameleon, 14 guns; Endeavour, 14 guns and Victor, 10 guns, were lost in the West Indies.

THE HARVEST OUTLOOK.

The Causes that Contribute to our Agricultural Prominence and Prosperity.

The result of the investigation made by the travelling correspondent of the Globe into the condition of the crops, and the prospects of the farmers of Ontario, are gratifying. The Province is an essentially agricultural country, and the prosperity of the farming community is the first step towards good times in the towns and cities. The country has this season been favoured with suitable weather for almost all crops. This is fortunate for on this depends the success of the year's works. The yield of wheat will be an unusually heavy one in all parts of the province, both the straw and the berry being of the first quality. This is the principal grain in almost every section of the country, and its success, coupled with the present better prices, will be most satisfactory. All spring grains will yield heavily on account of the abundance of showers during the past three months. The hay crop at present promises to be an enormous one in all districts, with the exception of Lambton and Kent, which counties were not so fortunate as the rest in the matter of spring showers. The fruit crop is less successful. The strawberries and raspberries have had the

MOST BENEFICIAL WEATHER

and have broken all records in their yield. Prices have, of course, dropped very close to the margin of profit, but it is satisfactory to know that after all there has been no trouble in selling all that were grown. The hold these fruits have secured on the people for table use is stronger than would have been dreamed of 25 years ago. The apple crop, while it will not be a failure altogether, will probably be small all over the Province, and it is unlikely that any will be left for export after the home wants have been supplied. The shortage will be felt somewhat in some sections, but in no place is reliance for subsistence placed wholly on apples or any other kind of fruit. The peach crop will be even less. The apparent reason for the failure is the existence of a comparatively new plague, known as the curl leaf, the cause and cure of which scientists are engaged in discovering. There seems to be a disposition on the part of some people to ascribe the disease to the cool weather of the present year. The plum crop will likewise be short generally, while that of cherries and pears will be a little heavier. Of potatoes and other kinds of roots there will be abundance, if the weather continues favourable from this out. Up to the present their appearance would indicate a splendid return.

The letters from correspondent have clearly indicated the

REVOLUTION IN FARMING METHODS

that is at present going on in Ontario. The break in the prices of nearly all kinds of grains, which occurred seven or eight years ago, followed by no new markets for the coarser cereals, caused the farmers to turn their attention to other means of making money. One of the causes of the drop in values was a succession of adverse tariffs enacted by the United States, which gradually shut Canada out from their markets. Reflection and experiments soon led the Canadians to see that they could by securing the British market for Canadian stock reap a two-fold benefit; their grain would be fed on the farm, which would be the gainer, and they would be dealing with a customer from which no tariff retaliation would be forthcoming. The process of establishing themselves in Great Britain was a slow one, and every pound of meat or cheese had to earn its own place on its own merits. Finally the point was won and the enthusiasm of the Diamond Jubilee, together with the Canadian preferential tariff, drew attention to this country and its products. Whatever may have been the cause, there has in the last year been no difficulty in selling all the live cattle and the bacon and cheese that Canadians choose to send across the Atlantic.

In addition to these products steps are now being taken to establish a large

EXPORT TRADE IN CREAMERY BUTTER,

which will be made by special machinery in the cheese factories during the winter months. Several dealers have received gratifying assurances that it will find a ready sale in the British market, the product of Canadian ensilage corn winning a place even in front of the long-famed Danish article, which has heretofore been the favourite in England. In several counties extensive preparations are now going on towards meeting this demand during the coming winter. This will be but an extension of the cheese trade, which is limited to the summer, when the cattle are living on grass. The abundant pasturage of this season has caused an increase of from 5 to 20 per cent. in the quantity of cheese manufactured, while the number of factories is gradually increasing. The growth of the cheese industry to be one of the most profitable and important branches of farming is due largely to the dairymen's associations, which have done a great educational work. The part played by these and the farmers' institutes in educating the farmers into turning out new products is worthy of all praise. Among stockraising industries the hog holds first place, with cattle a very close second.

THE FEEDING OF HOGS

is undoubtedly very profitable, and is constantly increasing, and even in counties which a few years ago were scarcely heard of except for their fruit, the hog is fast becoming important. There has been some danger to this industry on account of errors in feeding. The best diet is undoubtedly peas, but corn and peas mixed are almost as good. The danger note has been sounded against fattening them on soft American corn, and it is unlikely that any more trouble will be experienced in this regard. This branch of farming is especially valuable because it brings in a handsome revenue from the feeding of grains which at present are very cheap in the Canadian market, while at the same time the farms are greatly enriched by being made feeding grounds.

It is clear that as the country becomes older the business of farming must become more scientific in order to prevent exhaustion of the land. The lessons annually taught at such institutions as the Guelph Model Farm will have great value in showing the utility of a simple rotation of crops, together with the tremendous yield that results from ordinary labour. The present outlook of the Ontario farmers, as voiced by hundreds of them during conversation with the correspondent, is one of supreme hopefulness, and unless some disaster in the form of hail or heavy rain befalls the Province before harvest is over, there will be such crops as have not been seen here in two or three decades.

A WINDSOR JEWELLER.

Cured of Bright's Disease by Dodd's Kidney Pills.

Windsor, July 4th.—(Special despatch)—"If the United States army had taken a supply of Dodd's Kidney Pills to Cuba it would have been able to withstand the ravages of disease arising from the drinking of bad water," said a promident physician to-day.

"Dodd's Kidney Pills he continued, are the greatest life savers in the world. I know a score of persons whose lives they have saved.

"Right here in Windsor Mr. R. F. Colwell, the Oulette street jeweller, has been cured of Bright's Disease by them after two years' suffering. I use them in my practice, and can cure the worst case of Bright's Disease, Diabetes, or any other Kidney complaint with them."

THAT STOLEN SHIP

Is Tied Up at Highgate Springs, Vt.—No Attempt at Concealment.

Phillipsburg, Que., July 13. — The schooner Redfin, seized for violation of the Canadian fishery laws, and cut out on Sunday night and taken to Vermont, now lies at anchor off Missisquoi Park, Highgate Springs. There appears to be no attempt at concealment, and evidently no fear on the part of the crew that they will be brought to justice.

Mr. P. E. Luke, the officer who made the seizure about one month ago, has written a report of the case, and transmitted it to the Department of Marine and Fisheries at Ottawa.

THE GLORIOUS TWELFTH.

The Battle of the Boyne Celebrated in Very Many Places.

Toronto, July 13.—That Orangeism still has a firm hold in Ontario was demonstrated yesterday with emphasis. Celebrations were held all over the province, and the number of people who partook, either as Orangemen or spectators, showed that the 12th of July is considered a most important anniversary in Canada. Not only in Ontario, but in the Maritime Provinces, the day was marked by processions, speeches and sports. In Toronto the turnout was one of the greatest that the city has ever seen, and reports show that all over the province the people turned out and celebrated the day as if it were a general holiday.

Foundry Fire at Durham.

A Great Book Free.

When Dr. R. V. Pierce, of Buffalo, N.Y., published the first edition of his great work, The People's Common Sense Medical Adviser, he announced that after 680,000 copies had been sold at the regular price, $1.50 per copy, the profit on which would repay him for the great amount of labor and money expended in producing it, he would distribute the next half million free. As this number of copies has already been sold, he is now giving away, absolutely free, 500,000 copies of this most complete interesting and valuable common sense medical work ever published—the recipient only being required to mail to him, at above address, (31) one-cent stamps to cover cost of mailing only, and the book will be sent post-paid. It is a veritable medical library, complete in one volume. Contains 1008 pages, profusely illustrated. The Free Edition is precisely the same as that sold at $1.50 except only that the books are in strong manilla paper covers instead of cloth. Send now before all are given away.

HAVE LEFT CANADA.

Senors Du Bose and Carranza Have Sailed for Liverpool.

GO AT SIR WILFRID'S REQUEST.

Carranza's Stolen Letter Led to Representations From Washington That Rendered Their Absence From the Dominion Desirable—Senor Du Bose Protests Against the Treatment Meted Out.

Montreal, July 13.—Senor Du Bose, late secretary to the Spanish legation at Washington, and Lieut. Carranza, military attache, left Montreal last night by the Dominion steamer Ottoman, at the urgent and repeated request of the Dominion Government. This request was conveyed through Mr. H. C. St. Pierre, Q.C., who was counsel for Messrs. Du Bose and Carranza in the litigation following upon the arrest of Detective Kellert on a charge of stealing a letter from Lieut. Carranza's rooms. On June 9th, Mr. St. Pierre received from the solicitor-general an urgent summons to Ottawa, and he went up by the first train the following day as requested. In an interview with tthe members of the Government he was informed that the United States objected to the presence of his clients in Canada, and the Dominion Government wished, with as little fuss and trouble as was possible, to induce them to leave. Mr. St. Pierre replied that nothing could be done so long as the money of his clients in the Bank of Montreal was held under the capias issued at the instance of Detective Kellert, but that when their money was released he would see what they had to say about going. He returned to Montreal and consulted his clients. How Senor Du Bose felt about the matter will be gathered from the following letter, which he addressed to his counsel, on being informed by Mr. St. Pierre that his absence was desired by the Government:

Montreal, 23rd June, 1898.

Mr. Dear Mr. St. Pierre,—I wish to make a few remarks regarding our conversation of to-day upon the subject of my departure from Canada, with a view to placing in a clear light the circumstances of the case, and to point out what I consider are my undeniable rights in the matter.

I understand, that, acting upon instructions received from the Imperial Government, the Government of the Dominion is about to expel me from Canada, but desires that this should be accomplished with all the courtesy and consideration which such an enlightened and respected Government would naturally observe towards a foreigner, having held the high official position with which my Government has honored me.

Without entering into the merits of the case, I may mention that no attempt even, beyond vague newspaper rumor, has been made to connect me with the letter stolen from Mr. Carranza, and whose alleged contents form apparently the basis upon which my expulsion from Canada is founded.

The notorious injustice of this persecution will be only too clear to your brilliant and legal intelligence.

As I have already stated, my acquiescence in these arbitrary proceedings without a present legal struggle, which could only result in my being authorized to enjoy that British hospitality which it is an invariable tradition to extend to all foreigners who observe the laws of the land, is not to be taken as an abdication of rights which upon a future and fitting occasion I shall promptly vindicate.

Believe me, dear Mr. St. Pierre, yours sincerely, Juan Du Bose.

Mr. St. Pierre acquainted the Government with the position taken by Senor Du Bose, and on Monday, June 27, received a telegram asking if his clients would be prepared to leave the following Saturday. Judge De Lorimier did not deliver his decision quashing the capias till Thursday, the 30th, and on that very day Sir Wilfrid Laurier telegraphed, urging that the departure should take place on Saturday, July 2nd. On the same date he wrote as follows:

Ottawa, June 30, 1898.

Dear Mr. St. Pierre,—I have already confidentially communicated with you in your capacity as legal adviser to Senor Carranza and to Senor Du Bose, on the offence which was charged against them of having violated the neutrality laws of this country. It is now my duty to address you officially on the same subject.

The Secretary of State of the United States of America has given communication to Sir Julian Pauncefote, Her Majesty's Ambassador at Washington, of the original letter addressed by Senor Carranza from Montreal, on May 26 last, to the Spanish Minister of Marine, and placed in his hands a photographic copy of the same, which Sir Julian has transmitted to the Canadian Government. The letter of Senor Carranza unequivocally states that he has been left in Canada to receive and send telegrams, and to look after the spy service, which service he was then establishing.

The action of Senor Carranza is a violation of the laws of the land, and I have, therefore, to request Senor Carranza to leave this country. I have to make the same request of Senor Du Bose, who, from evidence in our hands, is an accomplice in the establishment of the spy service, which was organized by Senor Carranza.

I have now to ask you to be good enough to convey yourself this request to your clients. I am anxious that they should not be subjected to any unnecessary inconvenience, but I must insist upon their departure.

Believe me, dear Mr. St. Pierre, yours very sincerely, Wilfrid Laurier.

H. C. St. Pierre, Esq., Q. C., Montreal.

This letter was received by Mr. St. Pierre on July 1st, and communicated to Senor Du Bose the following day. Immediately upon its receipt he wrote to Mr. St. Pierre as follows:

Montreal, July 2, 1898.

My dear Mr. Saint Pierre:

I have this moment received and read the letter of Sir Wilfrid Laurier, dated Ottawa, 30th of June, addressed to you as my legal adviser, and in which he asks you to convey to me his official request that both Mr. Carranza and myself leave Canada immediately.

I shall, in consequence of this communication, sail in the first passenger steamer of the Dominion Line, which leaves Montreal next Saturday.

In thus yielding to a notably unjustifiable exercise of arbitrary authority on the part of the Canadian Government, I must refer you to my letter of the 23rd ult., in which I explained my motives for so doing.

I must, however, emphatically protest against the second paragraph of Sir Wilfrid's letter, in which he states that the Secretary of State of the United States of American has given communication to Sir Julian Pauncefote, Her Majesty's Ambassador at Washington, of the original letter addressed by Senor Carranza from Montreal on the 26th of May last to the Spanish Minister of Marine, and placed in his hands a photographic copy of the same, which Sir Julian has transmitted to the Canadian Government. This is completely false. Mr. Carranza has given me his word of honor that the only letter stolen thus far from him is a private one, addressed to Mr. Gomez Ines, a relation of his employed in the Navy Department of Madrid. This statement of Mr. Carranza is corroborated by the alleged translation of the letter, which I have seen published in the newspapers.

Further on in his communication, Sir Wilfrid Laurier permits himself to assert that "from evidence in our hands Senor Du Bose is an accomplice in the establishment of the spy service which was organized by Senor Carranza." This is a grave accusation, and one which should not be lightly made by a responsible statesman. It will be incumbent upon Sir Wilfrid to prove the correctness of his written accusation upon a future occasion.

As regards the statement contained in Sir Wilfrid Laurier's letter that "the action of Senor Carranza is a violation of the laws of the land," I can only say that Sir Wilfrid Laurier is equally mistaken in his law and his facts.

The only spy organization of which I have cognisance is that with which the Government of the United States has surrounded and dogged me since I have been in Canada. Of this, there is ample proof, which I shall be delighted to submit to Sir Wilfrid Laurier whenever he may so desire.

Within my own comparatively short official career, there have been three separate occasions upon which the Government of the United States has utilized private letters as the base of diplomatic representations.

In 1888 the publication of a private letter fraudulently obtained from the present Lord Sackville, then Her Majesty's Minister at Washington, caused the retirement from his post of that distinguished diplomat.

Another private letter stolen from the post and published in the United States was officially used by the State Department at Washington to compel the retirement of the late Spanish Minister De Lome. Finally the present alleged and stolen letter, written by a friend of mine, is employed as a means of causing my expulsion from Canadian soil.

What confidence or credence can be placed in the representations of a Government where diplomacy is based upon the utilization of criminal acts, I leave to the consideration of Sir Wilfrid Laurier and the Canadian Government.

Believe me, Dear Mr. St. Pierre, very sincerely yours, (Signed) Juan du Bose.

Some delay occurred in the arrival of this letter at Ottawa, and the Government at once became uneasy. Telegrams passed to and fro. Sir Wilfrid Laurier enquired anxiously "Have party left?" The party had not left. Senor Du Bose on July 2nd expressed his intention to leave by the next steamer of the Dominion line, leaving July 9th. He was unable to do so, because he could not obtain passage on her, and Mr. Torrance wrote to the Government to the effect that there was not a berth vacant. As the Government were so insistent, however, Senor Du Bose decided to sail on the Dominion steamer Ottoman, a large freight vessel which has very little passenger accommodation, and he went on board last night. He is very indignant at the treatment to which he has been subjected and says the Government will hear from him again, when the present troubles are over. Though of the Spanish type, Senor Du Bose speaks English fluently and without the slightest accent, being in fact, an English public school boy and university man. He is a good golf player and has made himself very popular during his short stay in the city. On his arrival in Liverpool he will go to London and await orders from his Government before proceeding to Madrid. Possibly he will be employed in the peace negotiations which may by that time be in progress.

THE ONLY HOPE!

For Victims of Bright's Disease is Dodd's Kidney Pills.

Not a day passes on which the newspapers do not record the death of one or more persons from Bright's Disease. Already its victims number hundreds of thousands. Day by day the awful total grows larger. No class is safe from this destroyer.

War and intemperance, with all their miseries and fatalities, are not responsible for as many deaths as have been caused by Bright's Disease. Yet, there is a way of resisting it; of drawing its poisoned fangs, and making it as harmless as a summer breeze. That great medicine, Dodd's Kidney Pills, has cured thousands of the worst cases. It never fails to cure, hopeless as the case may seem.

Would you safely shield your loved ones from the fatal grip of this curse of mankind—Bright's Disease? Then use Dodd's Kidney Pills, the only cure on earth for this disease.

SAG IN JULY WHEAT.

A Drop in Chicago of Two Cents by Reason of Receipt of This Year's Crop—Prices.

Tuesday Evening, July 12

Reports of prevalent good growing and pect of large receipts, and the speedy prospect of large receipts of new wheat in the southwest weakened the Chicago market to-day, and as a result the July article went off 2c per bushel, the September option ⅞c, and the December option ⅝c. The strength of Liverpool cables later caused this month's delivery to recover about half the loss, and the more remote options to close at about yesterday's final quotations.

Wheat futures were stronger in Liverpool to-day, the July, September and December deliveries closing ¼d to ⅝d per cental above yesterday's close. Paris wheat closed 15c to 20c lower for the day, with Antwerp unchanged.

Wheat continues dull on the Toronto Grain Exchange at yesterday's prices.

World's Available Wheat.

Bradstreet's returns make the decrease in the world's available supply of wheat the past week 2,780,000 bushels. The decrease east of the Rockies was 2,187,000 bushels, and the decrease in Europe and afloat 600,000 bushels.

Leading Wheat Markets.

Following are the closing prices to-day at important centres:

Corn—Canadian, 33c west and 39c on track here.

Buckwheat—Nominal.

Peas—Quoted around 47c to 49c north and west.

Oatmeal—Car lots of rolled oats in bags on track at Toronto, $4; in bbls., $4.10.

Toronto St. Lawrence Market.

Receipts of grain were larger to-day than for some time—1200 bushels.

One load of white wheat sold at 69c per bushel straight, and one load of goose at 70c.

Oats easier; 1000 bushels sold at 30c to 33c.

Hay sold at $8 to $9 per ton for five loads, and 10 loads of old at $7 per ton.

Straw sold at $6 to $7 per ton.

Dressed hogs sold at $6.75 to $7 per cwt.

Spring lamb by the carcase 10c to 11c per lb.

Mutton by the carcase 5c to 6c per lb.

New potatoes 90c per bushel.

Poultry, eggs and butter unchanged.

Lambskins 40c each.

Toronto Live Stock.

Receipts of live stock at the Cattle Market to-day were not large for Tuesday's market—68 loads, composed of 1200 cattle, 240 sheep, 1000 hogs and 125 calves.

There were some lots of extra fine fat cattle, exporters and butchers, which had been fed meal while on grass. For these prices were firm, while medium of both classes sold at Friday's quotations.

Export cattle sold at $4.30 to $4.75, with a few extras at 5c per cwt. more, the bulk going at $4.60 to $4.70.

Loads of exporters and good butchers' sold at $4.25 to $4.35.

Butchers' cattle, choice picked lots, sold at $4.25 to $4.35; loads of good $4.15 to $4.20; medium $3.85 to $4; common $3.30 to $3.60; inferior $3.12½ to $3.30, and inferior rough cows and bulls $2.85 to $3.

About 12 milk cows sold at $25 to $45 each, while prices for good milkers were firm. Inferior cows were slow of sale.

Heavy feeders were not in as good demand, prices easier at $3.50 to $3.65.

Prices for Buffalo stockers have taken a tumble, and are slow at $3 to $3.25 per cwt.

Calves—Prices firm, at $3 to $6 each for general run, while a few extra good veals brought $7 to $8.50 each.

Sheep sold at $3 to $3.25 for ewes and $2.50 to $2.75 for bucks per cwt.

Spring lambs sold at $3 to $4.25 each for general run, while one or two lots of heavy choice lambs sold at $4.75 each.

Prices for hogs were firmer, 1000 selling at $5.37½ to $5.50 for choice selections, off cars unfed and unwatered; heavy thick fats $4.60 to $4.75; light fats $5; Essex and Kent corn fed hogs $4.75 and not wanted.

Cheese Markets.

Ingersoll, Ont., July 12.—Offerings, 1029 boxes. Sales, 225 at 7¼c. Small offerings, majority having sold through the week.

Belleville, July 12.—At the Cheese Board to-day, 933 white and 160 colored cheese were offered. Sales, 675 white at 7⅞c.

Campbellford, Ont., July 12.—Cheese Market being held here to-night; 1525 boxes were boarded. Watkins bought 720 at 7 5-16c, Cook 195 at 7 5-16c, Magrath 100 at 7¾c; balance unsold.

East Buffalo Cattle Market.

East Buffalo, July 12.—Cattle—Market steady and firm for good to choice steers and butchers' stock. The exporters took all the good steers after noon at prices ranging from $5.15 to $5.50, and good medium weights and choice shippers closed at $4.80 to $5.10. Stockers closed dull and a number held over.

Milch Cows and Springers—Supply fairly liberal. Market opened with active demand for good to choice cows, but in a general way the market was only steady for good ones, while common to fair sold at easier prices. Big Fire in Berlin.

Berlin, Ont., July 12.—Yesterday morning about 9 o'clock the old button factory of J Y Shantz & Son, on King street, took fire. Unfortunately the horses used by the department were in the street watering carts, and quite a distance from the fire hall, and this gave the flames a chance to spread before the arrival of the fire wagons. The buildings were at the fire's mercy, and efforts were put forth to save the machinery, stock, etc.

The building has of late been occupied by the Berlin Brush Company and Oelschlager Bros., foundrymen. It was completely gutted. The fire spread to adjoining properties and demolished a frame dwelling. The loss so far is said to be about $30,000. The Bank of Commerce owns the building, which is covered by insurance. The fire was brought under control about 10 a.m. The Brush Company's loss on stock is about $2,000. Oelschlager Bros., foundrymen, estimate their loss at $2,000.

Shooting Affair at St. Henri.

Montreal, July 13.—A serious shooting affray took place last night in St. Henri. A young man named Joseph Mailloux, living in the city on Lusigan street, suspecting his wife of infidelity, followed her out to the suburb of St. Henri and found her with another man. The wife's lover, however, drew a revolver and fired several shots at Mailloux. One took effect in his leg, and he was brought to the hospital. Mailloux does not know the name of his assailant, but the police are looking for him.

North American Life

ASSURANCE CO.

OFFICE OF W. A. MURRAY & CO., 17 to 27 King St., East, Toronto.

Wm. McCabe, Esq., Managing Director, N. A. L.:

DEAR SIR:—In answer to your request for me to decide upon one of the following options offered me for settlement of my 15-payment Life Investment Policy for $5,000 which has matured this year, viz.:

1st, to take the value of the Policy in Cash	$5,008 00
2nd, or fully paid-up insurance for	8,280 00
3rd, or take the profits in cash	2,050 25

and continue my policy without further payments being required from me, such policy participating in future profits.

I find it somewhat difficult to make a decision either of the three options being so satisfactory. I am certainly very much pleased with the results offered me, and as I find many others are giving full testimony to the profit-earning power of this company, I do not hesitate to give my endorsement as well, that the North American Life is one of our strongest Canadian institutions to day giving first class results on investment Policies, on a safe and conservative basis. I find that my policy, which was originally a Life by fifteen payments, has become an Endowment at the end of the Investment period.

Court St. Peter, C. O. F.

A special meeting of Court St. Peter, C. O. F., was held on Tuesday evening in their hall, when it was decided to run an all rail excurrion to Hastings via. G. T. R. on the Civic Holiday. The matter was left in the hands of a good-working committee, who are already arranging rates and perfecting arrangements for the event.

Brisk Traffic on the Midland.

The G. T. R. is experiencing another siege of heavy traffic in grain from Midland, and all day Sunday long trains with two engines attached to each passed through town. Early in the afternoon as one of these trains was passing along near Lorneville Junction the driver noticed an obstruction on the track some distance ahead. On pulling up he found several ties across the track, evidently put there by some persons averse to Sunday train-running.

St. Anne de Beaupre Excursion.

The annual excursion to St. Anne de Beaupre takes place on Tuesday, July 19th. The train leaves the C.P.R. station, Peterborough, at 10 20 a.m. The train will be made up of first-class coaches and tourist cars equipped, to which will be attached a refreshment car, on which excellent meals will be served at moderate rates. Tea and coffee five cents per cup. Applications for berths should be made as early as possible this week to C.P.R. agent, Peterborough, or by post card to Rev. M. J. Staunton, Smith's Falls. Fare from Peterborough, $5.65. 2d1w

Frank Lush's Newspaper.

THE EXAMINER has received a copy of the first number of the Napink Gazette, published at Napinka, Manitoba, Mr. Frank Lush, editor and proprietor. Frank is a graduate of the EXAMINER office and a native Peterboroughaian and will do credit to the craft and his native town judging by the appearance of the first issue of his weekly. It is a seven column eight page journal, very neatly printed and made up, and begins with a satisfactory advertising patronage. Frank has the best wishes of the EXAMINER and staff and his numerous friends in town for a prosperous career and it is to be hoped that the outcome of his newspaper venture will never cause him to regret the day when he "went West as a young man to grow up with the country."

YELLOW FEVER ENTERS RANKS.

Fears Entertained of an Outbreak at Santiago.

COUNCIL OF WAR OVER IT.

Active German Interference in the Philippines.

BUT NOT CONFIRMED BY DEWEY.

Peace Problem Still Pressed for Solution—Urgent War Council and Cabinet Meeting at Washington.

Special 3 p. m. despatches to the Examiner.

Direct Overtures for Peace.

New York, July 13—Madrid despatch says: It is believed in official circles that direct overtures for peace will be made to the United States, and that it is only a question of hours when this will be done. The Queen is as anxious as the Ministers to come to terms, if the United States is not too exacting. Otherwise the war party is sure to have its own way.

Warship's Guns the Chief Reliance.

New York, July 13—A Tribune special from Siboney, Cuba, July 12, says: Warship's guns are the chief reliance in reducing Santiago. They have better range than the artillery. The Spanish fire is not heavy and the American troops are little exposed to it. The report that the Spanish soldiers are leaving the city is exaggerated.

Santiago Anxious For Peace.

The Archbishop renews his appeals to Madrid for a peaceful surrender and the foreign consuls are also urgent in their expression for the necessity of such a step.

Reported Interference of Germans at Manilla.

Manilla, July 9, via. Hong Kong, July 13.—The insurgents on Wednesday, July 6, reported that the German gunboat Irene refused to permit them to attack the Spaniards on Grand Island. Rear Admiral Dewey promptly despatched U. S. cruisers Raleigh and Concord to investigate the matter. On entering Subic Bay the Raleigh opened fire on the forts, whereupon the Irene shipped her cable and steamed out by the other channel. In reply to the fire of the American warship the Spaniards, over 500, surrendered everything.

"In the Cause of Humanity."

On returning to Manilla the Irene explained that she interfered "in the cause of humanity," and offered to hand over to the Americans the refugees she had on board. Dewey declined to accept them. The insurgents on the 7th of July made a vigourous attack on the Spaniards with little result.

Possibly a Rumour Only.

Washington, July 13—A cablegram received to-day from Admiral Dewey makes no reference to German interference.

Council of War at Washington.

Washington, July 13—A special meeting of the Cabinet has been called and the members are now arriving. The war conference with Secretary Day, Alger and Long, and Admiral Secard and Captain Mahan participating, has been in session continuously this forenoon. Important despatches are being considered.

Is it Yellow Fever?

LATER.—It was definitely learned that the despatches laid before the War Board and the special cabinet meeting related to the appearance of fever—which it is feared might prove to be the dreaded yellow fever—among the American forces before Santiago. There are fourteen suspicious cases of fever among the employees of the Quartermaster's department. The men have been isolated pending the determination of the exact character of above.

A PETITION FOR ADDITIONAL HOTEL LICENSES

Not Entertained by the Board of Commissioners.

A meeting of the License Commissioners of West Peterborough was held at their offices this morning, when a petition asking for the issue of licenses to the Southern and Royal Oak Hotels, which were included in the system of reduction imposed by the amended License Law, was considered. The petition set forth that the granting of these licenses were necessary in the interests of accommodation to the farmers frequenting the market. After a consideration of the petition, the following resolution was adopted:

Resolved: That whereas the recent amendment to the License Law provides for the reduction of the licenses in Peterborough from 24 to 17, and provides for the reduction by the cutting of four this year and three next year, and inasmuch as the Government of the Dominion will have a plebiscite taken on prohibition early this fall and inasmuch as the public have no experience as to whether these additional licenses are absolutely required or not, and seeing that three additional ones have to be cut off next year, it is thought desirable not to further consider the petition presented on behalf of the "Southern" and "Royal Oak" Hotels at the present time, but to wait another year so as to enable your board to see whether these licenses are absolutely required in the interests of the farmers and travelling public.

STONY LAKE SUNDAY SERVICES.

Interesting Services and Excellent Sermons by Visiting Clergymen.

An interesting Church of England service was held on Sunday, 10th inst., the 5th Sunday after Trinity, in the pavilion, Juniper Island. Morning prayer was said by Rev. F. Dibbs, rector of Wolfe Island, Ont., the lesson being read by the Rev. Rural Dean Carey, rector of St. Paul's, Kingston. An inspiring and eloquent discourse was delivered by the Rev. Mr. Crapsey, of Rochester, N. Y., from the words in the song of Moses, Deut. xxxii: "The Eternal God is thy refuge and underneath thee are the everlasting arms." A service and sermon which will long be remembered by the large congregation which filled the commodious pavilion.

Mr. Crapsey again preached in the afternoon to an attentive congregation in the grove near McCracken's Landing, and the Rev. F. Dibbs was the preacher at evening service held at Headlands.

AN OUTING AT JUBILEE.

St John's Sunday School Spend the Day at the Point.

One of the largest excursions of the season was that of St. John's Sunday school to Jubilee Point yesterday.

The day was an admirable one for a trip down the river. The City of Peterborough conveyed the excursionists to the Point in excellent time, and the officials were most obliging in their attention to their guests.

At Jubilee, the hours betwern the arrival and departure of the steamer was passed in various ways. The children, of course, were attracted to the programme of sports, which is always a feature of a Sunday school outing. Boating and bathing were also indulged in, and the afternoon passed away rapidly—too rapidly, in fact, for everyone.

The return trip, in the cool of the evening, was an enjoyable climax to the day's excursion.

Dr. Low's Worm Syrup is a safe, sure and reliable worm expeller. Acts equally well on children or adults. Be sure you get Low's.

THE BATTLE OF THE BOYNE.

RE-FOUGHT IN PEACE AT LINDSAY YESTERDAY.

A Highly Successful Celebration—Perfect Weather and Large Attendance—The Procession and Speeches.

The brethren and their friends that went up from Peterborough to celebrate the twelfth in Lindsay, numbered about six or eight hundred, carried on the regular and two special trains.

They were by no means lonely when they struck the Scugog, for there were thousands there to greet them.

The celebration yesterday was a marked success. From early morning special trains drew into the town from all parts. Steamers from Port Perry, Lakefield, Bobcaygeon, Cobocconk, Fenelon Falls, and other lake centres also bore thousands. The arrangements were perfect. The forenoon was spent in individual lodge processions. At one o'clock the general procession was formed in the Market Square park and paraded the principal streets, which were beautifully decorated. Led by Directors Woods and Martin on horseback, came a carriage containing Robt Birmingham, of Toronto; Col Sam Hughes, M. P., Lindsay, Past Grand Master; T B Collins, of Millbrook, and Senator Dobson. In the next carriage were Rev H C Dixon, of Toronto; R H Holland, of Port Hope; Thos Stephenson, of Omemee, and Robt Weir, of Peterborough.

The procession over, an immense public meeting was held in the market square park. County Master J Scott, presided. R H Holland, D G M, Ontario East, referred to the need of maintaining the Orange institutions from a spiritual as well as a temporal standpoint. The speaker declared that reports from Manitoba indicated that under the new school laws there one could scarcely conceive such an iniquitous condition as existed; the so-called "settlement" was no settlement

Rev H C Dixon reviewed the history of the order. Robert Birmingham reviewed the marvellous growth of Orangeism and its beneficient influences on all classes of the community. Reports from India, South Africa, Tasmania, as well as from Britain and the United States and Canada, gave evidence of the wonderful growth of Orangeism. Religious toleration was a great strength of the noble order, and evidences existed on every hand to show how, by tolerance and brotherly kindness our French-Canadian and Roman Catholic fellow-countrymen had been broadened and made also more tolerant.

Rev. H. C. Dixon, Rev. Mr. Manning, Rev. J. W. McMillan, Col. Sam. Hughes, M.P., Rev. Mr. Marsh and Rev. Mr. Tanner also spoke.

The celebration was a great success throughout. The local brethren returned at an early hour, having by their numbers and good behaviour contributed very largely to the success of the demonstration.

Daily Examiner.

WEDNESDAY, JULY 13, 1898.

A FATHER WITH JUST REASON FOR PRIDE.

Five Sons in One Family Pass the Promotion Examinations with Honours, and Three Head the Honour Roll.

The list of promotion examinations of the Separate Schools, published in the EXAMINER yesterday, furnishes another example of what some crank newspapers would call "French domination." Mr. Geo. H. Giroux of the Trent Valley Canal office, has five boys attending the Central Separate School, and all were under fire in the examinations. The result is, perhaps, unprecedented in the record of school examinations in any town or city, and is remarkable enough to merit special mention. Of Mr. Giroux's five boys all took honours in their respective classes, three taking first place in the honour list. Mr. Giroux has reason to be proud of this display of the ability and industry of his boys who, if they maintain the promise of their youth, will grow up to be a credit to him, to our Franco Canadian compatriots, and to their native country. One cannot avoid associating this remarkable circumstance, which probably has never happened before on this continent, and may never be repeated, with the fact that a French Canadian is Premier of the Dominion.

An ordinary cough or cold may not be thought much of at the time, but neglect may mean in the end a consumptive's grave. Dr. Chase's Syrup of Linseed and Turpentine will not cure consumption when the lungs are riddled with cavities; but it will stop the cough, will cure consumption in its early stages, and even in its last stages gives such relief as to be a perfect Godsend to those whose lives are nearing a close.

GRAND TRUNK STATION IMPROVEMENTS.

Renovation, Removal and a Marked General Change for the Better.

The Building Department of the Grand Trunk Railway has about completed changes and improvements at and about the station, which have very greatly added to its appearance and convenience.

As mentioned in the EXAMINER previously, the two octagonal water towers, situated at the ends of the grounds, near Charlotte and King streets respectively, have been torn down, the material removed, and their former site converted into lawns. The removal of these towers will, especially the southern one, afford a far better view of the track; and the extension of the platform about a hundred feet southward to King street, will be an additional great improvement. The buildings south of the station formerly used as lavoratories, have been entirely removed. The other buildings near the southern line, have been remodelled and converted into an office for the car inspector and a gentleman's lavatory. This and the ladies' lavatory in the ladies' waiting room, have been connected with the sewer.

The station building has been repainted throughout and generally improved and brightened. The grounds at the southern end of the station block have been laid to lawn and will be planted with trees and ornamental shrubs.

So great has been the change for the better in the general appearance of the station grounds and buildings, that they would be hardly recognisable by a citizen who had been two or three years out of town.

It is pleasant to see that the grand old Grand Trunk is renewing its youth in its old age. A greater energy of management has brought corresponding prosperity. The Midland line especially, which comes more immediately under local notice, is booming, and the traffic now taxes the increased and improved capacity of the line. All of which is subject for congratulation.

PETERBOROUGH CHEESE BOARD

There Were 5,888 Boxes Boarded and after a Lively Half Hour's Bidding the Board was Closed Out.

The Peterborough Cheese Board met this morning in the Council Chamber. There was a large attendance, including the following buyers: Messrs. Cook, Wrighton, Cluxton, Rollins, Whitton, Sanderson, Bailey, Fitzgerald, Hodgson and Jones. Mr. Geo. Stewart acted as clerk.

The factories boarded as follows:

After a somewhat acrimonious discussion on the appointment of an inspector, time was called and the President, Mr. J. M. Drummond, asked for bids.

Mr. Cook opened the bidding at 7c for selections, Mr. Jones raised one-sixth, Mr. Bailey bid 7⅛, Mr Cook 7¼, Mr. Cluxton 7 7-16, Mr. Hodgson 7½, Mr. Cluxton 7 9 16. There being no higher bids Mr. Cluxton selected North Smith, Westwood, Daisy D, Lakefield, Pine Grove, Fraserville and Lakeview; all accepted.

Mr. Whittan then offered 7⅜ for selections without any further bids and took Keene, Blackstock, Melrose Abbey, Fleetwood and Darlington Union.

Mr. Hodgson then offered 7 7-16, no other bids being made. Mr. Hodgson captured Freeburn, Cavanville, Central Smith, Lang and Peterborough.

Mr. Jones offered 7⅜, without any further bidding, and named Shearer, Myrtle, Norwood, Warsaw, Mount Pleasant and Ballyduff, but all refused the figure.

Mr. Whitton then offered 7 7-16 and got Shearer and Ormonde.

Mr. Cook started the bidding again at 7½. Mr. Rollins raised it to 7⅝ and named Indian River, Maple Leaf, Myrtle, Cedar Dale and North Dummer, all of which accepted.

Mr. Bailey offered 7⅝. No further bids being received, Mr. Bailey secured Norwood, Young's Point, Warminster, Warsaw and Missing Link.

Mr. Cook started again at 7½. Mr. Hodgson raised it to 7 5-16 and Benefort, Otonabee Union, Orono, Kendal and Stony Lake accepted.

The Board then adjourned for two weeks.

A POPULAR PASTOR.

Rev. D. N. McCamus Remembered on His Change of Circuit.

The following is taken from the Cobourg World, and refers to Rev. D. N. McCamus, who has many friends in Peterborough and vicinity:

The closing of the Methodist Conference year is always attended with a due amount of sadness and especially so to those ministers and their families who are called upon to go to new and untried fields of labour. There is the breaking of the ties of friendship between them and the people whom they have just got to know and love well. Much of this feeling has been prevalent in Port Perry, where Rev. D. N. McCamus, the new pastor of the local Methodist church, served well and faithfully for the last three years. We quote from the North Ontario Observer published in that town: "It is with no little regret that we refer to the removal from this place of Rev. D. N. McCamus and his amiable family. We congratulate the Methodist friends of Cobourg in having so gifted a preacher set over them in spiritual things, whose excellent example is of great importance, while he and his estimable family would be an acquisition to any community." But the above was not the only token of appreciation that either Mr. and Mrs. McCamus received. Port Perry church choir presented Mr. McCamus with a most appreciative address and a beautiful clock. Like remembrances were bestowed upon Mrs. McCamus by the young ladies composing her class, the well deserved tribute in this instance, which they paid their leader, being accompanied by a beautiful set of silver ware. The W.C.T.U. gave Mrs. McCamus an address and a handsomely bound copy of the life of Frances Willard.

BASEBALL.

The Spanish-American war is making serious inroads into the integrity of the Eastern Leagues, as the attendance in the different cities indicate. Although the race for the pennant is the closest in the history of the League, nevertheless a majority of the clubs are losing heavily, and at a recent meeting of the magnates it was deemed necessary to reduce the salaries of the players 20 per cent. As a result a great many of the best players are giving up the game, prefering to remain idle than play for a small remuneration.

Now that Ottawa has got Rochester's franchise in the Eastern League, Canadian interest in the game will be divided, they now having three teams in the League.

LACROSSE.

The team to represent Peterborough in their match with Midland will be picked this evening. The executive will have their hands full, for there are at least fifteen players eligible to play this game.

The game between the Beavers of Seaforth and the Dufferins of Orangeville, which took place at Orangeville yesterday—won by the latter 3 to 1—was a clean, scientific exhibition of the game. Both teams were well pleased with the work of Lionel King as referee. Lionel is making quite a name for himself as a referee, both in lacrosse and hockey.

Tweed defeated Marmora by 3 to 1 at the former place on July 1st.

The Toronto News says: Green, of last year's Maitland's, and formerly of Peterough, is out with the T.A.C. twelve and will be of immense strength to the college team.

ACQUATIC.

With Ten Eyck in the professional ranks sculling will receive a stimulus, for a race between Gaudar and the winner of the Diamond Sculls would awake world-wide interest.

B. H. Howell, the young American, who won the Diamond Sculls at Henley this year, is very popular in the old country. He not only won the sculls, but also established a new record for the course, his time being 8 min. 29 sec.

THE RING.

If arrangements for a contest between Jas. Corbett and Kid McCoy, to take place in Buffalo, Aug. 29th, are made without a hitch, it should attract a record-breaking crowd of sports to the city across the border.

THE WHEEL.

At the C.W.A. Meet here McLeod won $65 and three championship medals valued at $25 each; Carman, $65; McCarthy, $45 and a tandem championship medal; Davidson $10 and Greatrix a tandem championship medal. The C.W.A. share of the receipts at the meet amounted to $178 and Granby $77.

REGARDING TEA

Buy a tea of good quality and strength; you will find it more economical in the end than the so called "cheap teas." If it costs more per pound it will make more and better cups of tea.

Ram Lal's is one third stronger than China, Japan or Ceylon Tea selling at the same price and less of it is required.

Odds and Ends

The easiest way to clear out accumulations of stock is to ump them or get them all together, slash the profits off the price and give your friends a chance.

CAN'T ENJOY LIFE

Because of nervousness, dyspepsia, heart trouble, etc. Lots of people just have to sit and look on while their healthy, vigorous friends have all the enjoyment of a strong and robust body. Dr. Ward's Pills will bring back health, strength, snap, vim and energy to even the weakest and weariest of suffering humankind.

A BAD INVESTMENT MADE GOOD.

I have half a gross of empty bottles upon my shelves. Everything my neighbors and friends would tell me to try I would go straight away to the drug store and purchase. I was in a terrible condition from dyspepsia and liver troubles and was getting worse all the time. I was so discouraged buying one medicine and the other and receiving no benefit that I was about giving up all hope of ever getting better, when my husband brought me home a box of Dr. Ward's Blood and Nerve Pills, which he said had been highly recommended to him. I began using them at once, when, to my great surprise, I felt better in a very short time and continued them for about two weeks more which cured me entirely. I have not the least sign of dyspepsia or liver troubles now, and have also gained several pounds in weight.

Signed, ANNIE E. GAUNTLEY,

Dr. Ward's Blood and Nerve Pills are sold at 50 cents per box, 5 boxes for $2.00, at druggists, or mailed on receipt of price by The Dr. Ward Co., 71 Victoria St., Toronto. Book of information free.

TRAMP AND ARTIST.

"Thank God for all things beautiful," cried the artist.

"Thank God for my good dinner," said the tramp.

Then she wiped her mouth on the back of her rough hand, and the artist felt for his pipe.

He found it and fumbled for some matches, laying palette and brushes carefully on the ground.

The matches found, he struck one. Encountering in the process a glance from curious eyes, he sent the box spinning in their owner's lap.

"Join me?" he said, and, the tramp acquiescing with a nod, tossed a cigarette after it, as he had some time before tossed her his luncheon out of the wallet at his feet.

She picked it up and fingered it, then placed it somewhat gingerly between her lips.

It was a maiden effort. That was evident. He laughed when the thing rolled smoking to his feet.

Presently the girl's gaze wandered to the canvas.

"Is that me?" she asked and paused and flushed resentfully.

"A doubtful likeness, since you fail to recognize it." He laughed.

"It looks," she said and stopped.

"Well?" he urged, expectant of a quaint criticism.

"Like a play actress—in tights," she finished, frowning heavily.

He chuckled. The remark amused him. He knew so many "play actresses in tights" who would shrink from contact with this dusty wayside wanderer, yet in turn this vagrant shrank from them. She resented even the resemblance of a curve. The thing was humorous.

He turned and glanced at the canvas.

Yes, he had outlined the figure somewhat daringly, but then it was that grand sweep from knee to shoulder which had first attracted him. He had passed her earlier in the day, sitting by the roadside combing out her hair—had passed her, with his still buoyant step and knapsack strapped to shoulder, humming gayly. But—struck by something in the girl's attitude—he had retraced his steps and asked her to sit to him.

She still regarded the picture, lines of dissatisfaction puckering her brows.

"Well," said the artist.

"Them boots of mine," she answered. A pause. "Couldn't you rub 'em out?" persuasively. "I've got a better pair, spring side uns, in my bundle."

The artist shook his head. They were bad boots, he conceded, but good art.

"Is it for the Royle academy?" she said.

"What do you know about the Royal academy, pray?"

"Oh, nothin, reely, but I've been there once afore."

"I thought you told me this was your first sitting!"

"So 'tis—to remember; I was a baby the last time. Father took me. 'E was a artist too. 'E wos a real un, though, not a paivement chalker."

He laughed.

"That's understood, since he was a Royal academician. What was his name?"

"I ain't a-goin to tell."

"What was the subject?"

"I wos—in long clothes. Mother remembers it. It wos the time 'e come to see 'er, an she saw the picture afterward in a winder in Pall Mall."

He was embellishing his signature with a flourish of the brush when a thought seemed to strike him and hold him by the wrist.

"What was it like? Did your mother ever tell you?"

"'Course she did, lots of times. She was proud to think 'o'd noticed me. I wos lyin a'most naked on some workus lookin steps, an my eyes wos wide open, lookin up'ards at the stars."

"'The Love Child!'"

"That's it! You've seed the picture too?"

"Often," quietly. "It's copied quite a deal."

His hand was growing careless; it swerved, and the brush slipped. The girl cried out; there was a daub across the canvas.

"There now," regretfully, "you've made a smudge across your name."

The artist did not answer. His silence and abstraction were taken as dismissals. She hitched up her bundle, wishing him good day.

"No, wait a bit." He got up for the first time and came and stood before her. "Won't you shake hands before you go, my—my dear?"

Bewildered, but gratified, she gave him hers at once. It was rough and sunburned and perhaps not overclean, yet there was a curious resemblance between the tramp's hand and his own. He dropped it hurriedly.

"How old are you, my child?"

"Eighteen come Chris'mas."

His eyes were on her face. They studied it intently.

"Ah-h!" he said and dropped a few stops back. "Well, goodby. Good luck. God bless you."

Her eyes filled with tears.

"What are you crying for?"

The tears brimmed over.

"At you. You spoke so kind. You made me think of mother."

"A hint for your future guidance." His voice was hard again. "Never trust a man because he appears 'kind.' They are mostly dangerous, and often the worst sort."

The change in his tone depressed her.

She sighed forlornly. "Pore mother told me that."

His glance fell to earth. A pink tipped daisy was peeping above the grass. He ground it into the sod with the toe of his heavy boot.

"Goodby again."

She took his proffered hand.

"Stop that. I can't bear to see a woman cry."

Stop it she couldn't, but she crooked her arm and held it before her face.

"Life's so 'ard," she moaned. "People is such 'ogs, an, oh, I'm so lonely since my pore mother died."

He stood beside her, listening to her sobs.

"My dear," he said at last, "we are all lonely—you on the high road, I in the cities, 'pore mother' in her grave."

He paused, laying a hand on the girl's heaving shoulder. "Loneliness is the common lot; we carry it hidden in our souls through life. Even in crowds it cries out ceaselessly above the din. We can make a noise to drown it, we can bury it deep down, we can call our friends together and smoke and drink upon its tomb—it will creep out in the nighttime, when the others are all gone, and, climbing on to our pillows, sit and jabber to us in the dark. But life has to be lived through," throwing back his head, "its prizes fought for, squabbled over, and errors, I suppose, must be committed by the way. There's truth so brutal it might almost keep one good. The man who 'sees life' isn't asked to pay the piper; the 'wages' are exacted, but it's the innocent who pay."

The tramp's tears were dried; she was lost in admiring wonder.

"Take my advice, my dear," said the man, with a curiously gentle smile, "the advice of a man who might almost be your—father: Go on being respectable; stay innocent—keep good."

He patted her shoulder, then gave it a gentle push. And so they parted. He watched her tramping down the long white road.

"Confound her eyes!" he muttered. "That's why they haunted me!"

She trudged on with her bundle. His eyes followed almost yearningly. She rounded a bend. The tramp looked back.

"Liz!" he murmured half unconscious. "Poor, pretty, foolish Liz!" His own voice roused him. He smiled into vacancy. "That was the name! I thought I had forgotten."

The road turned. She disappeared from view.

He whistled, frowned and finally shrugged his shoulders.

"If she'd only been a lady," presently. He was staring at the canvas. "Bah! What nonsense! A tramp! Her mother's child!"

He fell on one knee and began packing up his traps.

"Life's so 'ard, an people is such 'ogs."

His laugh rang out, but it wasn't a merry one. Picking up the picture, he held it in both hands.

"Goodby, young mournful eyes," he said. "Good luck go with you. You've given me a heartache, but I wish you well."

His face twitched. He laid the canvas gently down.

"I'll burn the thing," he said, "directly I get home."—Sketch.

EVERY WITNESS DEAD.

The Awful Result of an Explosion of Gas in the Waterworks Construction Under Lake Erie.

Cleveland, Ohio, July 13.—The lives of ten men were snuffed out in the twinkling of an eye last evening as the result of an explosion of gas in the big waterworks that is being constructed under the bottom of Lake Erie. Following are the names of those killed:

John Parks, foreman, 32 years old, single.
James Parks, brother of John, 30, single.
John Fradey, an Italian, 22, single.
Tony Brunetti, Italian, 22, single.
John ——, Italian, 18, single.
Emerson Smith, bricklayer, 44, married.
John McCauley, 21 years old, married.
William Tucker, negro, 28, single.
Gus Watts, 27, wife and several children.
Frank Clements, married, several children.

The tunnel is an immense affair, being projected to extend out from the shore for a distance of four and a half miles, and it has been under construction for more than a year. The work has been attended by great difficulty. About six weeks ago an explosion of gas in the shore end of the big hole killed eight men and injured a number of others.

The explosion occurred at a few minutes before 7 o'clock last evening, but nobody will ever be able to tell how it happened, for every witness is dead, and the bodies of all are lying where they fell, 6,000 feet out under the lake. The only man in the tunnel who escaped death is Con. O'Donnell, a lock-tender, who was stationed 3,700 feet from the shore.

THOSE PRICELESS BOXES

Of Dodd's Kidney Pills Cured Mr. Colwell of Bright's Disease.

Windsor, July 11th.—"Is it true, Mr. Colwell, that you have been cured of Bright's Disease by Dodd's Kidney Pills?" our reporter asked Mr. R. F. Colwell, jeweller, of No. 9, Oulette street, to-day.

"It is indeed," was the answer. I suffered two years with Bright's Disease. My back ached all the time. I had awful, aching pains in my loins, a puffiness under my eyes, and my urine was very dark coloured.

"For a time I could find no remedy to do me any good. But one day a friend told me he had been cured of the same disease by Dodd's Kidney Pills. I bought a supply. A few boxes cured me thoroughly." Dodd's Kidney Pills cure all kidney complaints.

A Cinder Path Movement.

Hespeler, Ont., July 13.—At the meeting of the Municipal Council of Puslinch held at Aberfoyle yesterday the Hespeler Bicycle Club was granted the privilege of constructing a cinder path from Hespeler to Puslinch Lake through the township. Work will be begun immediately. This is the first move in a general agitation to have these paths constructed throughout Waterloo County, connecting the towns of Galt, Berlin, Waterloo, Preston and Hespeler.

Health of the Province.

Toronto, July 13.—The monthly report of the Provincial Board of Health will be issued to-day. It shows that throughout the province diphtheria is on the increase—from 16 cases in May to 25 in June—although the general health is better, there being fewer deaths from consumption, the figures up to date being 168 deaths last May and 164 in June. Scarlatina has decreased from 17 to 8 deaths.

A woman's health is her best and most precious endowment. Her good looks, her enjoyment of life, her happiness, and love and its continuance all depend upon her health. Call it vanity if you will, it is a woman's duty to worship at the shrine of her mirror. It is her duty to preserve her good looks and youthful spirits as long as possible.

The woman who suffers from some weakness or derangement of the organs distinctly feminine, can note the daily encroachments of general ill-health, by looking in her mirror. The sallow or blotched complexion, heavy eyes and dark circles under them, the little wrinkles that gradually creep around the corners of her eyes and mouth and the general look of listlessness and despondency will tell the story. Special troubles of this kind are too frequently neglected because the natural and proper modesty of women keeps them from consulting the average run of physicians. These men, because they are without inherent delicacy themselves, imagine that women are the same. They insist upon obnoxious examinations and local treatment from which any sensitive woman shrinks. Dr. Pierce's Favorite Prescription will do more for a woman who suffers in this way than all the doctors of this description together. During the past thirty years it has been used by over ninety thousand women with marvelous results. It is an unfailing cure for all weakness and disease peculiar to women. All good medicine dealers sell it.

"For a number of years I suffered with a complication of female troubles," writes Mrs. J. B. Ferguson, of Edgmoor, Chester Co., S. C. "I tried various remedies from physicians, but nothing seemed to do me any good. It seemed that my back would kill me. I had smothering spells at night so bad I could not rest. Also had constipation. I took Dr. Pierce's Favorite Prescription and 'Pleasant Pellets' and was entirely cured."

TALE OF A SLIPPER.

"Madame, would you mind if I accompanied Francois to his mother's home?"

"No, I am perfectly willing, but be back by 11 o'clock."

"Madame may be assured of that. We shall be here long before 11. Pierre is down stairs, and if madame should need anything"—

"All right. You may go, Mariette, and remember, 11 o'clock."

The Countess of Laispare had left her chateau in the neighborhood of Compiegne, and leaving all her servants, with the exception of her maid, whom she took with her to Trouville, intended to stay a few weeks in Paris—long enough to see all that was new and interesting—and divert herself with whatever offered itself in the way of novelty.

Mariette, her maid, was delighted with the idea of the short sojourn in Paris, for she could see her fiance, a brother of the janitor of the apartment in which they were stopping.

Mme. Laispare, a pretty widow, was a trifle fatigued by a day spent in going from tailor to dressmaker, from dressmaker to milliner. She was stretched comfortably in a reclining chair, and her whole attention, after her maid's departure, was centered in a book she was reading. It was intensely interesting, and she read on until midnight without noticing how quickly time was passing. The sound of the clock striking 12 aroused her.

"Is it possible! I had no idea it was so late. And where is Mariette?"

Sure that her maid had not yet returned, she passed out on the little balcony from her drawing room, overlooking Friedland avenue, and began looking vainly for the figures of Mariette and Francois.

After a short time, as they did not appear, she began to feel anxious and a little irritated. In her impatience she struck her foot repeatedly against the iron railing of the balcony, and directly the heel of her slipper caught in the ironwork, the slipper was pulled from her foot, and, falling, just escaped the face of a late promenader who stood star gazing beneath the balcony.

He uttered a startled exclamation, and, stooping in amazement, he picked up the missile, looked at it, turned it over, then, carrying it to the street lamp, examined it carefully. His surprised look gave way to one of amused pleasure. In fact, the slipper completely eclipsed the legendary one of Cinderella. It was small enough for the foot of a child and made of black satin, embroidered with gold.

The passer, feeling like the prince in the story, knew that the weaver of the slipper had a pretty foot and that the next thing to do was to find her.

"Well," said he to himself, "let's begin. This slipper didn't fall on my head from heaven. It came, evidently, from that lighted window. I thought I saw a figure there a moment ago. Well, then, here goes."

Concealed in a corner of the balcony, the countess had watched the pantomime, feeling all the time a strong desire to laugh. The man, in approaching the light, had given her a chance to observe him minutely. He appeared young and good looking; in dress and bearing he was all that could be desired. The young woman told herself that he had a very distinguished air, and so she felt not at all alarmed when he approached the door of the building and rang the bell.

As no one responded the first time, a second followed it, and then a third, prolonged, energetic and loud, which met with no greater success than the first two.

"He will waken every one in the apartment house except that sleepy headed janitor. What shall I do? I don't see anything but to go and open it myself."

And accepting her part boldly the countess descended the stairs, blaming Mariette severely for having put her in such a position. Opening the door a crack, she said:

"A thousand apologies, monsieur, and please give it to me quickly."

But such haste was entirely outside the plans of M. de la Briere, the man who held the slipper.

"In truth, madame, I regret exceedingly not being able to grant your request, but the object which I have just found is, I think, rather precious, and you will understand that I feel a certain responsibility. If the slipper is yours, it will of course fit you, and will you allow me to assure myself by the formality of trying it on?"

"Your conscience, monsieur, has a very keen edge, but as you are not satisfied in seeing me standing here on one foot I suppose I must submit to the proof you ask for."

She seated herself in one of the large antique chairs in the hall and putting out her little foot watched him as he gravely fitted the slipper upon it. The instant it was on the foot was withdrawn and disappeared beneath her skirt, while Rene de la Briere arose, somewhat disconcerted. Mme. Laispare, standing on both feet this time, made him the most gracious and at the same time the most ironical of bows, and opening the door wide motioned the young man out with a gesture in which the grace did not hide the authority.

But at the moment when, decidedly chagrined and confused, Rene was about to obey the command a loud report made itself heard a little distance from them.

The countess, never thinking that it was the eve of July 14, a day which all Paris celebrates with every variety of demonstration, thought only of a pistol shot and robbers. Remembering that she was alone, she grew frightened and wished to keep with her the stranger whom she had already impressively dismissed. Rene understood the situation in an instant and determined what part he would play in the little drama. Bowing profusely, he made as if to continue his departure.

"Monsieur, did you not hear it?"

"Perfectly, madame; a pistol shot."

"Then there are thieves in the neighborhood?"

"It is very probable, and now that I think of it I remember observing a little while ago a very villainous looking fellow prowling about."

"I have heard no cry"—

"Perhaps the shot missed."

"Are you not risking something in going out now?"

"Without doubt, madame. But I do not see any other way. You have shown me clearly that my presence here is inopportune, and I do not wish to intrude."

"Really, monsieur, I am afraid for you, and, to be frank, for myself too. My maid has not yet returned, and if I were not afraid of troubling you I would ask you to wait until she comes in."

Rene blessed his lucky star and replied respectfully, "I am happy to do you so small a service."

The hall was lighted brightly, and they seated themselves in the big chairs. There was a moment's awkward pause, and then M. de la Biere told his name and the countess followed his example, which put them at their ease. A literary man of great talent and merited reputation, a thorough man of the world, Rene was able to judge Mme. Laispare at her true value, and the esteem he felt for her character as he knew it must be was added to the profound admiration her beauty awakened in him.

Graceful and pretty, she combined with perfect regularity of feature a mobility of expression, and in her clear eyes the depth of her nature revealed itself. They talked of travel, of literature, of music, of painting and found on all these subjects they possessed a remarkable similarity of tastes. The situation was a peculiar one and possessed the charm of its novelty.

Learning that she was a widow, Rene dared to ask her if, young and pretty as she was, she had never thought of marying again. She responded with sudden sadness that her marriage had not made her happy; that her husband had not treated her with great kindness. Her illusions had been so utterly destroyed that she felt certain the only chance of happiness lay in keeping forever her liberty, full and entire. Rene, under the spell of a sudden enthusiasm, began to plead with ardor a cause which he almost felt to be his own. He tried to convince her how unjust she was in thus condemning beforehand any true love which might be offered to her because her first choice had fallen upon a man incapable of appreciating his happiness and proving himself unworthy of it. He grew eloquent, animated, persuasive and ended his pleading so full of warmth and youth by saying:

"There exists an old Persian legend which places whosoever finds a woman's slipper forever under the influence of its owner. I ask for nothing better than to be allowed to fulfill the prophetic legend and remain all my life in the spell of the dainty slipper I found tonight."

And did the countess allow herself to be convinced? Love and confidence work miracles. It is certain that when Marietto returned she was not scolded and her excuses were accepted in full. And later it was rumored that the chateau near Compiegne had obtained a master.—Translated from the French for Washington Times.

Raw from Her Toes to Her Knees

DR. CHASE MAKES A WONDERFUL CURE

Mrs. Knight, 17 Hanover Place, Toronto, makes the following statement:—

MY mother, Mrs. Wright, who lives at Norval, near Doncaster, suffered a summer and winter with Eczema in her feet. She could not walk, and very seldom got any sleep. It became so bad that she was perfectly raw from the toes to the knees. After trying every available remedy without receiving any benefit, and almost hopeless of relief, she was advised to try Dr. Chase's Ointment. She has altogether used 8 boxes since commencing, but with the happiest results, for she is now completely cured. There is but one scar on one of her feet, a memento of her fearful suffering condition. Any person desiring further testimony in this case is at liberty to communicate with Mrs. Wright at her address, Norval P.O.

Mrs. Knight says after such a grand success, is it any wonder we recommend Dr. Chase's Ointment?

HUMAN SACRIFICES

On the Altar of Diabetes, Saved by Dodd's Kidney Pills, Only.

Hardly a family in the country is free from Diabetes. Great thirst, failing sight, numbness in the thighs, bleeding gums, swollen ankles, emaciation, nervousness, pale or turbid urine, loss of sexual power, decaying teeth, pains in the loins or small of the back, are all positive signs that Diabetes is in the system.

Do you know how it ends? In Death. A premature, horrible, agonized, pitiful death. The victim has no peace, no ease in life. His days are filled with tortures. His nights are waking dreams of agony. He longs to die, yet fears the terrors of his end. He dies, a bloated, fetid, repulsive mass of corruption. That is the only end of unchecked Diabetes. Dodd's Kidney Pills will cure it. They drive it out of the system thoroughly, create new, clean blood, rebuild the diseased kidneys, and restore robust health.

A Baby In Battle.

Among the Chinese present at one of the battles between the two Asiatic nations in the Chinese and Japanese war was one spectator of an unusual kind.

After the capture of a small fort by the Japanese and the retreat of such of their enemies as had not been taken prisoners a healthy looking Chinese baby was found by the victors lying on the ground in their line of march.

The captain of a division picked him up and did his best to administer consolation and presently called one of the prisoners, to whom he offered his liberty on condition that he should take the child to his parents.

The captive joyously assented, but the baby raised a noisy objection. He lifted his voice on high and cried so loudly when the attempt was made to take him from his Japanese friend that the latter saw no resource but to submit.

So, holding the baby on his left arm while he grasped his saber with the right, Captain Higuchi marched on to the capture of the next fort, receiving, meanwhile, a bullet through his cap.

The baby looked on wonderingly while the fort was taken in gallant style and seemed to be quite unmoved by the din and uproar of battle so long as he could rest upon his captain's shoulder.

When the fight was over, the captain gave the child to some of his troopers, who bore the little creature to a Chinese house near by.

THE CLOUDS OF GOD.

The city is full of labor
And struggle and strife and care,
The fever pulse of the city
Is throbbing in all the air,
But calm through the sunlit spaces
And calm through the starlit sky
Forever, over the city,
The clouds of God go by.

The city is full of passion
And shame and anger and sin,
Of hearts that are dark with evil,
Of souls that are black within,
But white as the robes of angels,
As pure through the wind swept sky,
Forever, over the city,
The clouds of God go by.

The city is full of sorrow
And tears that are shed in vain,
By day and by night there rises
The voice of its grief and pain,
But soft as a benediction
They bend from the vault on high,
And over the sorrowful city
The clouds of God go by.

O eyes that are old with vigil,
O eyes that are dim with tears,
Look up from the path of sorrow
That measures itself in years
And read in the blue above you
The peace that is ever nigh,
While over the troubled city
The clouds of God go by!

BABY'S Terrible ECZEMA Speedily Cured By CUTICURA

My baby was about four weeks old when he began to suffer from that terrible disease, Eczema. I tried every remedy I thought would do him good. I even called in the doctor who told me it would wear away in time, but I used his medicine to no account. I did not know what to do with him. He cried all the time and his face was equal to a raw piece of meat, it was horrible, and looked as if there was never any skin on it. I had to carry him around on a pillow. I was fairly discouraged. I was then recommended to use CUTICURA REMEDIES. *The first time I used them I could see the change.* I used about half a box of CUTICURA (ointment), and not one half cake of CUTICURA SOAP, and at the *end of one short week my baby was entirely cured.* There has never been a trace of it since, to-day his skin is as smooth and soft as a piece of silk. MRS. J. C. FREESE,

Feb. 21, '98. 360 So. 1st St., Brooklyn, E. D.

MOTHERS! To know that a warm bath with CUTICURA SOAP, and a single anointing with CUTICURA, purest of emollient skin cures, will afford instant relief in the most distressing of itching, burning, and scaly infantile humors of the skin and scalp, with loss of hair, and not to use them, is to fail in your duty. This treatment means comfort and rest for parent as well as grateful relief and refreshing sleep for child, and is pure, sweet, safe, speedy, and economical.

Sold throughout the world. POTTER DRUG AND CHEM. CORP., Props., Boston. How to Cure Baby Humors, free.

BELLEVILLE FOLLOWS SUIT.

A Bylaw to Decrease the Number of of Aldermen.

Ald. Denmark gave notice at Monday night's meeting of Belleville City Council of a bylaw which provides that the City Council shall consist of the Mayor and one alderman for each 1,000 inhabitants, to be elected by the electors of the whole city.

This bylaw, which is proposed to be submitted to the people for their approval at the earliest possible date, will no doubt be passed by the electors, who have twice voted for a reduction in the number of wards—and of aldermen—but without effect. The bylaw is along the line of the one adopted by Peterborough ratepayers a week ago.

Beware of Cocaine.

Thos. Heys, Analytical Chemist, Toronto, says:—"I have made an examination of Dr. Chase's Catarrh Cure for cocaine and any of its compounds from samples purchased at the open market, and find none present." Dr. Chase's Catarrh Cure is a cure—not a drug. Price 25 cents, blower included.

Milburn's Sterling Headache Powders are easy to take, harmless in action and sure to cure any headache in from 5 to 20 minutes.

LINDSAY CHEESE BOARD.

OVER 2,000 BOXES OF CHEESE SOLD AT SEVEN CENTS.

Buyers Whitton Flavelle and Fitzgerald Clear the Board at the Above Figure.

The salesmen and representatives of the various factories selling on the Lindsay board were sorely disappointed this morning when they learned that a scant 7c. would be the best figure quoted. Buyers Whitton, Flavelle and Fitzgerald declaring that the market had "slumped" in an unaccountable fashionable fashion since the last sale, when 7⅞c was refused by some salesmen.

Mr. Whitton made the first and only bid of 7c., and selected the following:—Lorneville, Dunsford, Janetville, North Verulum, Fenelon Falls, Reaboro, Maple Leaf, Sutton (a new factory) and Pine Grove.

Mr. Fitzgerald took Star, Mariposa, Valentia, North Ops and Bobcaygeon at the same figure.

Mr. Flavelle then said he would give 7c. for the balance of the board and his offer was accepted. He secured Cameron, Cambray, Minden, Leaskdale, Palestine, Red Rock, Oakwood and Little Britain.

The board adjourned for two weeks after a short time had been spent discussing the proposed creamery.

Y. M. C. A. CAMP NOTES.

The Camp Committee are pleased to announce that Mr. W. J. Stubbs has arranged to take Mr. Buxton's place in connection with the camp. Mr. Stubbs has been captain of the craft "Pleo" for several years, and will have charge of the boat during the first week of the camp.

Twelve applications for membership in the camp have been received. Others are awaiting consent.

The Camp Committee meets on Thursday evening at 8 o'clock in the Board room.

There is only one opinion of Sandy Point, Clear Lake, and that is that it is a capital place for a boys' camp.

The dates are from Aug. 4th to 15th inclusive.

To Cure a Corn.

There is no lack of so-called cures for the common ailment known in corns. The vegetable, animal, and mineral kingdoms have been ransacked for cures. It is a simple matter to remove corns without pain, for if you will go to any druggist or medicine dealer and buy a bottle of Putman's Painless Corn Extractor and apply it as directed the thing is done. Get "Putman's," and no other.

NORWOOD.

From Our Own Correspondent.

Mrs Richard Lees, of St. Thomas, is visiting her mother, Mrs R W Waters, Queen street.

Mr Fred Anderson spent Sunday out of town.

Miss Martin, saleslady with Mr E P Cuffe, has gone to Orillia for a visit.

We notice that some of the Hastings young people enjoy the drive to Norwood on Sunday evenings.

The East Peterborough exhibition is to be held here on Oct. 11th and 12th.

Mr W E Roxborough and family left on Friday for the lakes, where they will spend the summer.

Mrs Carmichael and son, Mr C G Carmichael, of Markham, are occupying their Stony Lake cottage. Mr. Carmichael has accepted a position in the electric works, Peterborough.

Mr and Mrs Ashe, accompanied by Miss Gile, of Boston, left last week for Toronto. They will visit Montreal and Quebec before returning.

Mrs John Sharpe, of Toronto, formerly of Hastings, has been visiting friends in Norwood and Hastings.

Mr T Spike, clerk in Mr M E Knox's jewelry store, is in Stirling visiting friends.

Arthur Duffield, son of Mr. Geo Duffield, while playing in the garden last week, stepped on a rake, the teeth running through his foot.

Rev Mr Andrews, Keene, occupied the pulpit in the Presbyterian church Sunday evening.

On Saturday night, while the midnight express was standing at the station, some excitement was caused by the brakeman firing a revolver at tramps who were stealing a ride.

Mrs. Wood and Mr. Walk, of Toronto, and Mr. and Mrs. Stanberry and Miss Mabel Farley, of Boston, are guests of Mr. and Mrs. H. White.

The Norwood, Belmont and South Dummer Orange Lodges celebrated the 12th of July at Warkworth.

Mr. Joseph Harper, of the Hamilton Mfg. Co., Peterborough, spent the 12th with his parents, Ridge street.

Master John Sherry is spending a few days at Stony Lake, the guest of Dr. Ford.

Mr. D. M. Hunter has secured the situation of Public School principal's assistant during the fall Model term.

Mr. A. Hall is out of town on a short vacation.

For some time past petty thefts have not been infrequent, those suffering most being the business men of the town. In the early part of last week Mr. E. Squire, proprietor of the Norwood cheese factory, missed a quantity of cheese from the curing room in the factory. Upon looking for some clue to the missing property he discovered part of one cheese in the old grist mill, now unused. Thinking it altogether likely the party or parties would return for the rest of their plunder, a watch was set. About 11 p.m. Monday night, while Mr. Squire himself was on the watch, two men were seen to approach the place where the stolen goods were concealed, stop for a moment, then proceed slowly south. In a few minutes a third party went through the same manoeuvres, but instead of going on down the road as the other two had done, went into the mill. When about to carry away the remainder of the stolen cheese he was somewhat surprised by having a couple of rather formidable looking six-shooters pushed under his nose. Mr. Squire at once marched his prisoner, Arnethe Simpson, about sixteen years of age, to the lockup where he was safely lodged. The Chief of Police was at once notified and warrants were secured. Upon searching the premises of Richard Reeves, opposite Mr. C. Reilly's implement warerooms, a quantity of flour, tea, sugar, cheese and bread was found. Reeves was at once placed under arrest. On Tuesday the prisoners came up before Police Magistrate Edmison, of Peterborough, to answer the charge of shop-breaking and theft. After acknowledging the theft of bread, but denying knowledge of the cheese, they were remanded until Friday. On Tuesday the third man Cross was secured. On Friday at one o'clock the three appeared before Police Magistrate Edmison, of Peterborough. Mr. Squire gave evidence of his capture of Simpson and the finding of bread, tea and flour on the premises of Reeves. Mr. W. H. Tucker, of W. H. Tucker & Bro., bakers and confectioners, identified the last named articles as having been taken from their shop late Saturday night or early Sunday morning, the window having been left partly open. Cross, the third man, was sworn and said that the scheme was concocted one evening while he and Simpson were over at the C. P. R. station. He admitted all the charges and said that the three had partaken of the plunder at the table in Reeve's house, and that Simpson had sunken a suit of clothes, also taken from Tucker & Co.'s, in the millpond with stones. Simpson was convicted and sentenced to six months in the Central with hard labour. Reeves, as an accomplice and receiver of stolen property, was given the same sentence, while Cross was let go on suspended sentence.

Men, Women and children who are troubled with sores, humors, pimples, etc., may find permanent relief in Hood's Sarsaparilla.

Great Smash-up

IN PRICES DURING JULY.

$12,500 SLUMP IN ONE CLIP

Gough Bros.' Big Double Stores and Oak Hall Branch Included.

Mark these words! and study them over, and see what it means for you. Since the close of a great day's business last Saturday, we have deliberately slashed about $12,500 off prices in our two Big Double Stores and Oak Hall Branch—including a net shrinkage of fully 25 per cent. in profits.

This is a gigantic undertaking to save you money, and to rapidly reduce all summer stocks. We are not so awfully greedy after gain as not to make prices bend to our will when we want to—even if loss must follow. You can't move stocks fast enough in midsummer without cutting the life out of the profits. But as our great stocks are brought away down to begin with, we can afford to do some marvellous selling, still further away down to quickly clear them. Never anything done in Peterborough can compare with it:—

TORAL HAS THE POWER

Blanco Has Given Him Permission to Surrender Santiago.

ASSAULT UNLESS HE YIELDS.

Such Is the Decision of the United States Major-General and It Is Approved at Washington Yellow Fever Developed—An American Field Hospital Has 14 Cases.

Madrid, July 14.—The War Office here has received word from Capt.-Gen. Blanco that he has instructed Gen. Toral, the commander at Santiago, to resist the Americans as long as possible, but fully empowering him to end the struggle at his discretion. The War Office admits that the reserves of ammunition at Santiago were reduced by the explosion in the cathedral, caused by an American shell, and that provisions are short, but declares that the troops are in good spirits. They have lost more in wounded than killed. Nothing is known here of the reported advance of Gen. Nario from Holguin.

Shafter and Toral.

Washington, July 13.—The War Department has given out the following from General Shafter: Headquarters near Santiago, July 13. Your telegram saying no modification of orders allowed just received. Have had an interview of an hour and a half with General Toral, and have extended truce until noon to-morrow. I told him that his surrender only will be considered, and that he was without hope of escape and had no right to continue the fight. I think it made a strong impression on him, and hope for his surrender. If he refuses I will open on him at 12 noon to-morrow with every gun I have, and will have the assistance of the navy, who are ready to bombard the city with 13-inch shells. (Signed) Shafter.

Miles Confirms the Truce Interview.

Washington, July 13.—Secretary Alger has received the following despatch from General Miles: Playa del Este, July 13. Secretary of War: At a meeting between the lines at which General Shafter and General Wheeler and Spanish General Toral were present, the latter claimed that he is unable to act without authority of his government, but has received authority to withdraw and surrender harbor ports, munitions of war and eastern portion of Cuba. He urgently requests until to-morrow noon to receive answer from his government regarding offer of the American government to send his force to Spain, which was granted. (Signed) Miles, Major-General Commanding.

A BAPTISM OF FIRE

In Store for Santiago de Cuba if General Toral Does Not Surrender to Gen. Shafter.

Washington, July 14.—While the long-expected fall of Santiago did not take place yesterday, it is evident that the crisis has been reported. Within the next 24 hours Santiago will either surrender or receive such a baptism of fire as seldom falls to the lot of a besieged town.

"If he refuses I will open on him at 12 noon to-morrow with every gun I have and will have the assistance of the navy, which is ready to bombard the city with 13-inch shells."

This is the programme laid down by General Shafter and it is to be carried out to the letter. Gen. Shafter is still commanding according to the War Department officials, and, although despatches have been received from Major-General Miles, signed Major-General Commanding, it is said that he has not displaced Gen. Shafter in direct charge of the operations. The public, in one of these telegrams from Gen. Miles, was given first notice that the Government, in the course of negotiations with Gen. Toral, had offered to send the Spanish forces in Santiago back to Spain.

A few days ago it was stated that the President would insist upon unconditional surrender, but it appears that conditions had been modified. This was done from a desire to avoid useless bloodshed, for Gen. Toral's army removed to Spain would be harmless to prevent further operations in Cuba, and would serve as good a purpose as would the destruction of the Spanish army. To allow the Spanish General to withdraw to the interior and fall back on Havana, on the other hand, would put the Americans under the obligation of overcoming that additional force when it comes to the siege of Havana. The Government also is moved to make this proposal to remove the Spanish forces to Spain through a strong desire to close up the operations at Santiago at the earliest possible moment. This desire has been materially strengthened by the appearance of yellow fever within the American lines.

It was at first supposed that the men were falling ill with malaria and climatic fever, so the cases were reported as simply suspicious. Now, however, it is the final admission that they are genuine cases of Yellow Jack. Their appearance has determined the authorities upon a more active prosecution of the campaign.

Reluctant as the War Department is to sacrifice the many lives that might be lost in an assault, it is deemed to be better policy to make it than to allow the men to rot away with fevers and other diseases during the long period that would be required to perfect the reduction of the city by steady investment.

An expectation is still entertained, however, that this assault will be unnecessary, through Toral's surrendering before it begins.

GERMAN BOAT RAN AWAY.

Chased by Dewey When Siding With the Spaniards.

Manila, July 9, via Hong-Kong, July 14.—The insurgents on Wednesday, July 6, reported that the German gunboat Irene, in Subic Bay, refused to permit them to attack the Spaniards on Grand Island. Rear-Admiral Dewey promptly despatched the United States cruisers Raleigh and Concord to investigate the matter. On entering Subic Bay the Raleigh opened fire on the forts, whereupon the Irene slipped her cable and steamed out by the other channel.

In reply to the fire of the American warships the Spaniards, numbering over 500 men, surrendered everything. On returning to Manila the Irene explained that she interfered "in the cause of humanity" and offered to hand over to the Americans the refugees she had on board. Admiral Dewey, however, declined to accept them.

The insurgents yesterday made vigorous attacks on the Spaniards from all sides with little result. They shelled the Spanish blockhouses and trenches north of Manila and captured the Spanish guns at Santa Mesa.

There was a furious musketry fire all night long at San Juan, Santa Ana, Paco and Pasayi, the Spaniards replying with artillery and musketry.

14 Cases of Yellow Fever.

Washington, July 14.—The War Department yesterday made public the statement that Lieut.-Col. Pope, chief surgeon of Shafter's army, informed the Surgeon-General that there were 14 cases of yellow fever in the field hospital.

Thundered at the Don.

London, July 14.—The Times, commenting editorially on the situation this morning, says it thinks the outbreak of disease among the American troops, and the news of the Irene incident, may decide Spain to continue the war, but it dissuades her from "such rashness, which will only result in more onerous terms of peace later, as it is quite illusory for Spain to hope for real help from Germany."

BLANCO'S CITY AN IMMUNE.

Commodore Watson's Fleet to Sail This Week—No Bombardment of Havana.

New York, July 14.—A special to the Tribune from Washington says: The actual departure of Commodore Watson's raiding squadron for the coast of Spain, which the naval authorities expect will occur about the end of the present week, indicate sufficiently the complete abandonment of any intention to besiege Havana in the next three or four months, and confirms the impression that no intended military operations will be prosecuted in Cuba after the capitulation of Santiago.

The remarkable difficulties which have attended the investment of Santiago and the resulting tedious delays have served to convince the military and naval authorities that Havana cannot be attacked successfully with less than 100,000 men and the entire naval force in the Atlantic. The city, ordinarily one of the best fortified ports in the world, has been made much more impregnable in the last two months through the ceaseless activity of General Blanco, who has surrounded it with several chains of strong entrenchments and fortifications in addition to the new batteries he has mounted along the coast. Without the strong vessels attached to the raiding squadron the navy would be powerless to render effective assistance to the army against Havana, and it is deemed impossible that land forces alone could secure the surrender of the city with less than several months campaign, which will be out of the question before midwinter on account of the horrible climatic conditions.

Promptly upon the fall of Santiago, it is announced, the expedition to Porto Rico is to be undertaken, with General Miles in command of three divisions, aggregating more than 30,000 men. He will have the co-operation of Admiral Sampson's heavier ships in the assault on San Juan, and it is his intention to clear the entire island of Spanish troops with every energy at his command. His force will include practically all the regular and volunteer troops now at Santiago, the Cubans and immunes being left to hold that province. In addition to the fleet of 48 transports already secured to carry troops to Porto Rico, including the 30 that formed General Shafter's main expedition, the navy has consented to the temporary use of the auxiliary cruisers, the St. Paul, the St. Louis, the Yale and the Harvard, to carry regiments, and a number of other vessels will be available for the service next week.

Capt. Charles V. Gridley.

Chicago, July 14.—In an unpretentious wooden box which arrived in Chicago yesterday were the ashes of Captain Charles V. Gridley, late commander of Admiral Dewey's flagship, the Olympia. The box was transhipped to Erie, Pa., the home of the late commander.

"Fighting Bob" Volunteers.

Washington, July 14.—It is rumored that "Fighting Bob" Evans has volunteered to force a passage to the inner harbor of Santiago with the battleship Iowa.

Blockade Runner Wrecked.

Washington, July 14.—Captain Sawyer, signal officer at Key West, has reported to the War Department that the ship San Domingo was wrecked off the Isle of Pines, Cuba, while trying to run the blockade. Her nationality is unknown.

HOLDEN IN CUSTODY.

The Third Arrest in the Dominion Bank Robbery Case.

PRISONER REFUSES TO SPEAK.

Napanee Mystery Is at Last Being Cleared Up—Boston Man's Daughter Attempts to Burn the Dominion Bank Bills Found in His House—Well-Known Burglars.

Boston, July 14.—By the arrest of Caroline Saucier in Montreal last Thursday, followed by that of Edward Pare, her brother, in Manchester, N.H., on Saturday, and, finally, by that of William Henry Holden, here yesterday, it is believed that parties who were concerned in the robbery of the Dominion Bank at Napanee, on Aug. 28, 1897, have at last been apprehended. In the possession of all three of the persons arrested were found bills stolen from the bank, but of the $33,000 taken less than one-third has as yet been recovered. A greater part of this money is in Dominion Bank bills, $10,000 of which was stolen, with the signature of the cashier missing, but on the bills the signature is forged.

The balance of the Dominion bills have been put in circulation in Canada and this country, and are constantly turning up. The robbery of the bank at Napanee occurred on the night of Aug. 27, and strong boxes containing the money were forced and $33,000 in bills taken.

Of this amount $23,000 was in Canadian coin and bills and American gold, while the balance was in unsigned Dominion $10 bills. For a long time there was no clue to the robbery, but the appearance in April of $10 Dominion bills with the forged signature in various parts of this country and Canada started officers at work, and a part of the bills turned up in Montreal and Manchester, N.H., and, after a month of more hard work, Caroline Saucier was arrested. In her possession were found 103 of the Dominion bills. It was learned that the Saucier woman has a brother named Edward Pare, alias Leo A. Bolanger, alias Howard, living in Manchester, N.H.

Officers, before the arrest in Montreal, had already shadowed Pare in Manchester, and ascertained that he was in the habit of making deposits in the First National Bank of $50 to $100 a day, and in each deposit was mixed one or two of the Dominion bills with the forged signature. Pare was arrested early on July 9 in his house. He refused to make any statement, and denied all knowledge of the robbery.

In the frame of a tool chest 95 bills were found, and of these 57 had forged signatures. By some means, an associate of Pare's, W. H. Holden, was traced to Roxbury, this city, and yesterday, after an all-day wait in the rain, the officer arrested him.

In the room at the time was his wife and daughter. Mrs. Holden denied having ever seen the bills, but the officers caught the daughter throwing the roll into the fire. This roll was saved, and 19 charred bills are the result. Holden fought the officers, but was finally locked up. Both men will resist extradition.

ESTERHAZY NOT THE ONLY ONE.

Government Determined to Suppress the Dreyfus Agitation.

Paris, July 14.—The arrest of Major Comte Ferdinand Walsin Esterhazy, the alleged author of the bordereau in the Dreyfus case, and Madame Pays, has again revived interest here in this notable case. The arrests are apparently in connection with the reopening of the Dreyfus case. The Cabinet has decided to prosecute Col. Picquart, who was disciplined for giving testimony favorable to M. Zola, at the recent trial of the author, on the charge of an illegal communication of documents concerning the security of the state to Maitre Leblois, who was Col. Picquart's legal adviser during the Zola trials. Maitre Leblois will also be prosecuted as an accomplice.

Col. Picquart and Maitre Leblois have not yet been arrested, but they are liable to from two to five years imprisonment. The Government is determined to suppress the agitation on behalf of Dreyfus. The papers to-day publish a number of documents bearing on the whole case.

WELL KNOWN VIOLINIST

Traveled Extensively Throughout the Provinces—Interesting Statements Concerning His Experience.

STELLARTON, N.S.—James R. Murray, a well known violinist, of this place, who has traveled extensively throughout the Provinces, makes this statement:

"I was running down in health and my weight fell off from 175 to 150 pounds. Prescriptions did me but little good. My trouble was called nervous dyspepsia. I resorted to Hood's Sarsaparilla and after taking five bottles I was greatly benefited. I feel as well now as ever in my life, and have increased in flesh so that I now weigh 177 pounds. I am well known in this part of the country, having followed my profession, that of a violin musician for the last 26 years. I gladly tell my friends what Hood's Sarsaparilla has done for me. Before I began taking the medicine I did not have any ambition, but now all is changed and my dyspeptic trouble perfectly cured." JAMES R. MURRAY.

N. B. If you decide to take Hood's Sarsaparilla, do not be induced to buy any substitute. Be sure to get Hood's.

Hood's Pills are the only pills to take with Hood's Sarsaparilla.

EDITORIAL NOTES.

Do the United States intend to make its new territorial acquisition in the Pacific, the Hiwaii to further insular absorption.

AND to think, remarks the Montreal Herald, that all these years we have been cozened into thinking that Sir Charles Tupper, Bart., was the only Canadian who could get a word in edgwise in England.

IF any other Canadian Cabinet minister has anything to ask from the British government in the way of active co-operation, now is the time to speak. The indulgent Mother seems inclined to give the favourite Daughter anything she asks. It almost seems to be a case of infatuation.

ONE of the firms which supply paper to the Kingston Whig for its daily and weekly issues has been late in filling a carload order, and writes this excuse: "We must say that since the Laurier Government won the confidence of the people and Canada has gone ahead, we have been very busy."

SENDING Hon Mr. Fisher and Professor Robertson to Great Britain to talk with the farmers about the agricultural possibilities of Canada, men who have practical knowledge of what they are talking about, is a good deal better than sending a brewer or a doctor, on such a mission. The present Canadian Government is practical and does business through the means of agents skilled in their several departments.

Mr. Mulock has secured penny postage (for the ounce, instead of five cents for the half-ounce,) with Great Britain, Newfoundland, Cape Colony and Cape Natal. This will probably have as one of its effects an increase of trade with these places, consequent upon increased facilities of communication. If we hadn't such a big country—such a land of magnificent distances—making mail service expensive out of all porportion to the population to be served, we might soon have a two-cent letter rate in Canada.

LAST November Mr. Mulock issued a regulation making the postal rate from Canada to Great Britain one penny for the ounce, instead of five cents for the half ounce. Mr. Chamberlain objected because the change would interfere with the terms of the international postal union, with which the Imperial Government only had authority to deal. But Canadian persistence and Canadian desires met with the favour of the Imperial authorities, and penny postage is an accomplished fact.

WHILE the Conservative journals are abusing Hon. Mr. Mulock, Postmaster-General, he says nothing but—licks stamps. The organs took great delight in jeering at Her Majesty's mail man on account of his supposed failure to get inter-imperial postal reduction. But he was on the right track. It was a little up-hill work, but he has reached the goal. The Duke of Newcastle states that as the outcome of the Imperial conference on postal rates, the proposal of Mr. Mulock for a letter post at a penny an ounce has been adopted for the United Kindom, Canada, Newfoundland, Cape Colony and Cape Natal. He laughs best who laughs last; Mr. Mulock is smiling now.

A TEMPERANCE SERMON.

In a general order to the United States army, relative to the health and efficiency of the soldiers, General Miles, the commander-in-chief, says:

"The history of other armies has demonstrated that in a hot climate abstinence from the use of intoxicating drinks is essential to continued health and efficiency."

It is an interesting coincidence and a valuable temperance lesson that the commander-in-chief of the British army, Lord Wolseley, has expressed a similar opinion, and that with his concurrence Sir Herbert Kitchener absolutely prohibited liquor in the Soudan campaign.

As to the way General Miles puts it, the Chicago Record very appropriately remarks:

"This precautionary advice of General Miles to the officers and men of the army might be heeded with profit by civilians who mistakenly suppose that alcoholic beverages are beneficial in hot weather. The truth is directly the contrary. Other things being equal he endures hot weather best who is least addicted to the use of intoxicating liquors of any kind.

"The above remarks apply also to cold weather."

OLD-FASHIONED HONESTY.

Orange Sentinel.

Although it seems to be dying out in practice, the Sentinel believes that good, old fashioned honesty is still the best policy that a political party can adopt.

There is a school of politicians the graduates of which argue that only a party that has "the stuff" can win elections and retain power.

They are a danger to the State, for the reason that they exalt money above patriotism as a force in politics, and fix a standard that it is difficult for honest men to alter.

The people—the sovereign people—cannot be bribed in bulk, notwithstanding the assertion of "practical politicians" to the contrary. It is easy enough to buy supporters in detail with offices and contracts but for every friend made in that way a dozen disappointed ones become opponents.

If the appointments and contracts are made in the public interest it is possible to defend them, and thereby win the support of all fair-minded men whose friendship is of more value than that of place-hunters and seekers after emoluments that have not been earned.

AT THE RATHBUN LIMITS.

Reforestry Commission Return From a Visit to Hinchinbroke Township.

(Mail and Empire.)

Mr. Thomas Southworth, Clerk of Forestry for Ontario, has returned from a visit paid to the limits of the Rathbun Lumber Company in the township of Hinchinbrooke, where he went in company with the other members of the Reforestry Commission, Messrs. John Bertram, E. W. Rathbun and J. B. McWilliams. The object of the visit was partly to observe the effects of the plan for the prevention of forest fires—which has been in operation on the Rathbun limits for some time—and partly to ascertain to what extent the land could be made available either for settlement or for reforestry. The result of the Commissioners' visit, it is understood, has been to show that the system of fire protection has been satisfactory on the whole, but more data are needed before a definite opinion can be expressed upon the merits of any particular scheme. Some parts of the forest area are unfit for settlement, and in all probability will be reserved, so as to secure a second growth of timber. It has been found that in some parts where the timber has been cut an excellent growth of white pine is now coming up. This fact seems to show that by creating a forest reserve wherever the land is unfit for farming the timber will be reproduced by nature if proper precautions to guard against fire are taken.

The Rathbun limits have been under license practically since 1834, and some members of the commission were surprised to see the quantity of pine that is still standing. The value of this timber amounts to many thousands of dollars. That so much pine should remain after many years of steady cutting is creditable alike to the lumbering methods of the Rathbun Company and to the judgment and careful supervision of Mr. Scantling, the manager of the company. This gentleman accompanied the commission in their trip, and showed them every attention.

Besides the pine in the Rathbun limits there is an abundance of hardwood. The latter will be utilized in supplying fuel to the charcoal iron-smelting furnace which will be "blown in" at Deseronto on the 1st of October. The iron works are owned by Detroit capitalists, but Mr. Rathbun has contracted to supply them with a million bushels of charcoal per year. This will all be made from hardwood on the Hinchinbrooke limits. The works have been built with a great deal of despatch, seeing that building operations were only commenced on the 1st of May last.

A CENTRAL CREAMERY FOR VICTORIA.

A Movement in the Direction of Winter Dairying.

The Lindsay Post says:—A new project is now on which, while doing away with this source of complaint, will also be very beneficial in other ways. It is proposed to establish a central creamery station at Lindsay, where the milk of the county will be made into creamery butter during the winter months, when cheese cannot be made, as fodder milk is not suitable for the latter. Skimming stations will be located in different places, where the farmers may take home their sweet milk after the butter fat has been removed by the separator. The idea is to feed the skim milk to calves, which will be raised in the winter—the best time for them—instead of in the summer when they have to be fed on whey. It is contended by the promoters that the creamery process, besides yielding a more uniform quality, extracts from 20 to 25 per cent. more butter fat from the milk than does the ordinary system and is worth from four to five cents per pound more on the market. The whole dairy industry appears to be young yet, and seems to be capable of a great deal more extensive development.

The navigation system on the rivers and lakes of the Trent Valley pretty well cover this county and Peterborough, and is of considerable value in handling the various products, dairy and otherwise, of the district.

A Great Book Free.

When Dr. R. V. Pierce, of Buffalo, N.Y., published the first edition of his great work, The People's Common Sense Medical Adviser, he announced that after 680,000 copies had been sold at the regular price, $1.50 per copy, the profit on which would repay him for the great amount of labor and money expended in producing it, he would distribute the next half million free. As this number of copies has already been sold, he is now giving away, absolutely free, 500,000 copies of this most complete interesting and valuable common sense medical work ever published—the recipient only being required to mail to him, at above address, (31) one-cent stamps to cover cost of mailing only, and the book will be sent post-paid. It is a veritable medical library, complete in one volume. Contains 1008 pages, profusely illustrated. The Free Edition is precisely the same as that sold at $1.50 except only that the books are in strong manilla paper covers instead of cloth. Send now before all are given away.

LIFE RETURNED

To a Suffering Dyspeptic, When he Used Dodd's Dyspepsia Tablets.

Dodd's Dyspepsia Tablets Always Have This Result—They Positively Cure *Dyspepsia, Indigestion,* Biliousness and all Kindred Stomach Complaints.

Without exception, the dyspeptic is the most miserable being in existence.

He can't enjoy his meals. There are no dainty, enjoyable lunches, after the theatre, for him. No outings, no pleasant excursions with jolly friends.

He must mope at home, nursing his misery, while his friends are enjoying themselves, making the most of life.

Recently there was a young man in this position. He suffered greatly from Dyspepsia. He was virtually a close prisoner. He got no joy out of life.

One day he read about Dodd's Dyspepsia Tablets.

He bought a box—fifty cents.

He used the Tablets as directed, one after each meal.

Result—Dodd's Dyspepsia Tablets made a new man of him.

He appeared among his friends again, took part in their pleasures, and overflowed with life and good spirits.

His friends could not understand the change. They questioned him.

He answered: "Dodd's Dyspepsia Tablets did it all.

"I simply took one Tablet after each meal I ate, and my food was a pleasure and nourishment to me. It was promptly digested, whereas, before I began to use Dodd's Dyspepsia Tablets, it used to lie in a hard lump in my stomach and cause me agonizing pain."

Dodd's Dyspepsia Tablets always have this effect. They cure Indigestion and Dyspepsia by removing the cause. They digest the food, and tone and strengthen the stomach.

Dodd's Dyspepsia Tablets are sold by all druggists at 50c. a box, six boxes for $2.50, or sent, on receipt of price, by The Dodds Medicine Co., Limited, Toronto, Ont.

KILLED AT THE CROSSING.

Father and Daughter Lose Their Lives at Downsview.

Toronto, July 14.—At 7.30 last night, as the Northern train, No. 68, in charge of Conductor W. Williams, was rushing past the crossing near Downsview station (old Weston), Mr. Jacob Stong, with his two daughters—Mrs. J. Peterbaugh, Edgeley, and Melinda Jane—in a double rig, attempted to cross the track in front of the oncoming train. Engineer Fennell wildly blew the whistle, and Fireman Honeyworth reversed the lever, but all in vain, for the locomotive struck the vehicle square in the centre, crashing fearfully into the occupants. The horses broke away unhurt, but the father and Mrs. Peterbaugh were killed outright, while Miss Stong was terribly mangled and tossed over the fence. Mr. Stong was completely decapitated and his daughter bruised beyond recognition. The cow-catcher of the train was totally wrecked.

Miss Melinda Jane Stong's injuries are the fracture of three ribs, the perforation of the right lung by a rib, the upper jaw and face bruised, and several teeth knocked out. It is hardly possible for her to recover.

Jacob Stong was 70 years of age, a man of massive frame, weighing fully 225 pounds. Mrs. Peterbaugh was the wife of Mr. J. Peterbaugh, farmer, of Edgeley P.O., Vaughan Township, and leaves two little children.

Knights of Pythias Elect Officers.

Woodstock, July 14.—The Knights of Pythias Grand Lodge opened its annual convention at the Court House yesterday morning at 9 o'clock. Grand Chancellor Robert Ironsides of London presided. The election of officers took place and resulted as follows: Grand chancellor, W. H. Murch, St. Thomas; grand vice-chancellor, J. S. Mackay, Woodstock; grand prelate, W. A. Cates, Windsor; grand keeper of records and seal, Walter Haynes, Toronto; grand master of exchequer, Ald. J. P. MacLeod, Hamilton; grand master of arms, Jackson L. Little, Toronto; grand inner guard, T. A. Parkinson, London; grand outer guard, E. K. Barnsdale, Stratford.

Niagara Falls, Ont., was chosen as the next place of meeting of the Grand Lodge. The meeting will open on the second Tuesday in July, 1899.

Col. Holmes Transferred.

Winnipeg, July 14. — Lieut.-Colonel Holmes, D.O.C., who has been located at Winnipeg for the past five years, has been notified by the Government to hold himself ready to move on July 15th, and on that date he will hand over the office to Capt. Williams, who, it is understood, will combine the offices of D.O.C. and commandant of Fort Osborne. Col. Holmes has not been officially notified which post he will be moved to, but it is generally thought it will be London.

An ordinary cough or cold may not be thought much of at the time, but neglect may mean in the end a consumptive's grave. Dr. Chase's Syrup of Linseed and Turpentine will not cure consumption when the lungs are riddled with cavities; but it will stop the cough, will cure consumption in its early stages, and even in its last stages gives such relief as to be a perfect Godsend to those whose lives are nearing a close.

A LINK OF EMPIRE.

anada Is in Everyone's Mouth in London—Postmaster-General Mulock's Splendid Pioneer Work.

London, July 14. — (Toronto Globe Cable.)—Another link of empire has been completed by the adoption of a penny letter rate throughout the British Empire, except Australasia, which for the moment keeps aloof, but will doubtless come into the arrangement. The reduction takes effect as soon as some formal details are complete. The London journals of all kinds congratulate Canada on having brought about this result. The Hon. William Mulock had the honor of moving before the conference the proposition thus happily adopted, and the result is largely attributed to his argument and management before the conference. The result receives the hearty and unanimous approval of the British public, who recognize this increased means of communication between the peoples throughout the empire as one of the strongest bonds of union yet effected. Canada to-day is in everyone's mouth, an aftermath of last year's jubilee.

London, July 14.—(Montreal Star Cable.)—Everywhere to-day in the press and among the public men Canada is heartily congratulated on her successful stand against British officialdom in the matter of Imperial penny postage. No secret is made of the fact that the whole scheme would have failed had not Hon. Mr. Mulock strongly supported Rt. Hon. Mr. Chamberlain in the conference, and actually threatened to withdraw unless the Post-Office and Treasury officials' obstruction was abandoned. Canada as a pioneer of the empire is once again on all lips.

LA BOURGOGNE.

Test Suit to Be Brought Against the Compagnie Generale Transatlantique for $75,000.

New York, July 14.—A number of the survivors of La Bourgogne disaster have retained lawyers to prosecute their claims for damages against the Compagnie Generale Transatlantique, the owners of La Bourgogne. A test suit will be brought by Kantrowitz & Fatberg for Charles Liebre, chef of the Stratford Hotel, Philadelphia. A few months ago Liebre's wife died, and, having determined to have his two sons, Paul and Ernest, educated in Paris, he engaged passage for himself and sons on the ill-fated steamer. His sons were lost in the disaster and his trunks and valises, containing valuable property, were also lost. The father swam for upwards of half an hour in the ocean and finally approached the raft containing some of the survivors. He says he had to struggle to hold on to the raft against the assault of those on it, including the La Bourgogne sailors. He will sue for $75,000.

A $300,000 PULP MILL.

Mr. Charles Riordan to Start One at Hawkesbury—Another Strike.

Montreal, July 14.—Mr. Charles Riordan has about completed arrangements with the town of Hawkesbury to build a $300,000 pulp and paper mill in that municipality, promising that he will begin with not less than 100 hands. The town gives several valuable concessions, such as freedom from taxation, a large area of land, etc., and work will be begun immediately. Mr. Riordan has purchased extensive timber limits in the vicinity from Mr. J. K. Ward of this city. It is stated that the proposed establishment at Hawkesbury will not interfere at present with the operations at Merritton, Ont.

The lasters in J. & J. Bell's shoe factory have been ordered out by the union, the men claiming that they do not get the same figure as those who work in other factories. The employers claim, on the other hand, that the men are well paid and well treated all round.

SENTIMENT IN THE STATES.

Baptist Young People's Union Convention Opens To-Day.

Buffalo, July 14.—The spacious rooms on the second floor of Ellicott square, now being used as headquarters of the Baptist Young People's Union of America, were thronged with delegates and visitors all yesterday. The incoming trains brought a large number of delegates from Canada, and nearly every point in the United States. The decorations at the 74th Armory are elaborate and tasteful. Around the walls are placed shields bearing the coats of arms of each state of the union and each province of Canada. Hundreds of American and British flags are distributed about the large auditorium, while in the center are two mammoth flags, one the Stars and Stripes and the other the Union Jack of Great Britain. The convention proper will open to-day.

TWIN TORTURERS!

Lumbago and Rheumatism made Harmless by Dodd's Kidney Pills.

Lumbago and Rheumatism cause endless pain and suffering. Every man and woman who runs chances of getting wet, or catching cold, is liable to suffer from one or both. Our hospitals are full of sufferers from these diseases; none are more painful. Every nerve is on fire; every joint is a centre of agony; every muscle an area of torture. To move hand or foot makes the victim shriek with agony.

Rheumatism makes more cripples than all the railroad accidents that ever happened. Twisted, mis-shapen caricatures of humanity, who cannot walk without misery, are to be seen every day. The kidneys are to blame. If they are healthy you needn't fear Rheumatism or Lumbago. Dodd's Kidney Pills keep the kidneys healthy and cure Rheumatism and Lumbago.

Dodd's Kidney Pills ALWAYS CURE.

THIS YEAR'S WHEAT

Offered in Toronto and the Price Quoted for Same Is on Export Basis—The Prices.

Wednesday Evening, July 13.

New wheat is beginning to offer from Chatham, Essex and other Ontario points, and its price to-day on export basis may be placed at about 68c, north and west. To-day's open quotation for July wheat free-on-board at Toledo or Detroit, up to the end of the month, is 73½c. This is equal to 78c afloat at Montreal or 68c at north and west points. Outside buyers are therefore paying farmers about 65c for new wheat for export, though millers may for a while pay a small premium for small lots.

On the Toronto Board trade continues quiet. For old red winter 79c north and west is the quotation. A sale of 5000 bushels of No. 1 Manitoba hard is reported at $1.04, Toronto and west, equal to 97½c afloat at Fort William.

The Chicago wheat market opened strong this morning above yesterday's close on reports of large export orders at New York. Sales by scalpers and the fine harvest weather prevalent, brought about a decline, and July closed 1½c, Sept. ¾c and Dec. ½c per bushel below the previous final figures.

On the Liverpool board wheat to-day closed unchanged at ¾d per cental higher than yesterday. Paris wheat closed 10c higher for the day. Antwerp unchanged.

THOSE PRICELESS BOXES

Of Dodd's Kidney Pills Cured Mr. Colwell of Bright's Disease.

Windsor, July 11th.—"Is it true, Mr. Colwell, that you have been cured of Bright's Disease by Dodd's Kidney Pills?" our reporter asked Mr. R. F. Colwell, jeweller, of No. 9, Ouiette street, to-day.

"It is indeed," was the answer. I suffered two years with Bright's Disease. My back ached all the time. I had awful, aching pains in my loins, a puffiness under my eyes, and my urine was very dark coloured.

"For a time I could find no remedy to do me any good. But one day a friend told me he had been cured of the same disease by Dodd's Kidney Pills. I bought a supply. A few boxes cured me thoroughly." Dodd's Kidney Pills cure all kidney complaints.

ASSURANCE CO.

OFFICE OF W. A. MURRAY & CO., 17 to 27 King St, East, Toronto.

Wm. McCabe, Esq., Managing Director, N.A. L.:

DEAR SIR:—In answer to your request for me to decide upon one of the following options offered me for settlement of my 15-payment Life Investment Policy for $5,000 which has matured this year, viz.:

1st, to take the value of the Policy in Cash	$5,008 00
2nd, or fully paid-up insurance for	8,280 00
3rd, or take the profits in cash	2,050 25

and continue my policy without further payments being required from me, such policy participating in future profits.

I find it somewhat difficult to make a decision either of the three options being so satisfactory. I am certainly very much pleased with the results offered me, and as I find many others are giving full testimony to the profit-earning power of this company, I do not hesitate to give my endorsement as well, that the North American Life is one of our strongest Canadian institutions to day giving first class results on Investment Policies, on a safe and conservative basis. I find that my policy, which was originally a Life by fifteen payments, has become an Endowment at the end of the Investment period.

They Had a Pleasant Day.

The Bethany Mission Sunday school excursion to Jubilee yesterday passed off most successfully. Several hundred boarded the steamer "City of Peterborough" and had a pleasant sail down the winding Otonabee. During the afternoon two adults were baptized by immersion in the waters of Rice Lake. The pioneers arrived home at an early hour in the evening.

Victoria House Summer Resort.

A charming spot to spend a few days, a week, a month, is at the Victoria House Summer Resort, McCracken's Landing, Stony Lake. The new hotel is now in fine shape and the improvements made since last season add wonderfully to its appearance. The scenery is all that could be desired, and the stiff breeze off the lake renders the house cool and the wide verandahs as inviting and restful as one could wish during a hot day. The boating, bathing, fishing, etc., is unexcelled and can be enjoyed with safety. Those who are on the lookout for a most charming spot to spend their holidays should take a run up to McCracken's Landing.

Grafton & Co's big July Clearing Sale Now going on.

Trips to the Mounds.

The regular trip on the North Star yesterday took down quite a large party, who took in the famous Serpents' Mounds at Roach's Point. The boat first proceeded to Idyl Wild, where she made a short stay and then went on to the mounds. Here the party disembarked and spent considerable time in examining the mounds, which greatly interested them. They expressed the pleasure it afforded them of having the opportunity of visiting this interesting place. Mr. Green, of Chicago, was among the number. The North Star returned to town about 7.30, everyone having enjoyed a good day's outing, and promising to repeat the visit again during the season.

St. Anne de Beaupre Excursion.

The annual excursion to St. Anne de Beaupre takes place on Tuesday, July 19th. The train leaves the C.P.R. station, Peterborough, at 10.30 a.m. The train will be made up of first-class coaches and tourist cars equipped, to which will be attached a refreshment car, on which excellent meals will be served at moderate rates. Tea and coffee five cents per cup. Applications for berths should be made as early as possible this week to C.P.R. agent, Peterborough, or by post card to Rev. M. J. Staunton, Smith's Falls. Fare from Peterborough, $5.65. 2d1w

Spanish Fleet Again Limbers Its Guns—Rumours of Invasion of Spain Cause Excitement.

SPECIAL 3 P. M. DESPATCHES TO EXAMINER:

Washington, July 14.—Santiago has surrendered to the American forces.

The Santiago Crisis at Hand.

Washington, D.C., July.—It is the opinion among the best informed Administration officials that the crisis of the Santiago campaign is at hand. It is deemed certain that to-day will witness either a desperate fight or an unconditional surrender. It is expected that General Torral will yield at the last moment. Up to 1.30 this morning not a word of information that would throw any light on the situation at Santiago had been received by the War Department.

NOTHING TANGIBLE IS

expected before this afternoon. General Shafter's command is now in excellent condition and reports strong reinforcements having arrived and are at the front. The available fighting force is 21,875 men.

The Spanish Fleet Bobs Up Again.

New York, July 14.—A Gibralter despatch says: Camara's squadron was sighted by a recently arrived steamer steering in the direction of Carthagena. Gun practice was constantly carried on aboard the warships, as long as they were in sight. The report that an American fleet is coming to Spain has caused great excitement and produced anxiety. The inhabitants of coast cities are leaving for the interior.

Cervera at Annapolis.

Portsmouth, N.H., July 14.—The United States auxiliary cruiser St. Louis sailed for Annapolis this morning, having on board Admiral Cervera and other Spanish prisoners captured at Santiago.

Germany Takes the Lead to Keep the Philippines for Spain.

New York, July 14.—Madrid despatch to World says:—Germany positively has given to Spain assurance that she will take the lead among the European powers in exercising pressure to maintain Spanish rule in the Philippines.

The Future of the Philippines.

London, July 14.—The Berlin correspondent of the Times says:—The German press is actively discussing the future of the Philippines. The difficulties arising out of the present state of things may soon assume alarming proportions, such indeed as may finally necessitate the intervention of powers whose commercial interests in the islands are affected. It is beginning to be acknowledged here that Spain can now honourably sue for peace with every prospect of acceptance.

Considering Terms of Surrender.

Washington, July 14.—A message received from Shafter says: "Spaniards have appointed commissioners to arrange terms for surrender." It is indefinite but taken at War Department to mean that Santiago is to be surrendered. If not fighting will be resumed at noon.

Spaniards Ask for a Surrender Conference.

Washington, July 14.—The Spaniards have asked the United States for the appointment of a commission to confer with their commission over the surrender of Santiago.

Unconditional Surrender Only to be Considered.

Washington, July 14.—The Spanish proposition for commission has been declined and General Shafter has been notified that proposition is not entertained and nothing short of unconditional surrender and that immediately, is to be considered. The despatch to General Shafter has been started from the White House and in less than an hour he should have the President's rejection of the latest Spanish proposal.

Blanco's Instructions as to Surrender

Madrid, (noon) July 14.—It is officially announced that Capt. General Blanco has been instructed to order the Spanish Commander at Santiago to resist to the death.

European Coalition Against United States Commercial Aggrandisement.

London, July 14—Berlin correspondent of the Daily Mail says: The idea of forming a Central European coalition, consisting of the triple alliance and its immediate neighbour to oppose expected increased hostile commercial policy of the United States, is gaining ground in Germany.

PRUDENCE AND ENTHUSIASM

NECESSARY INGREDIENTS OF AN ANGLO-AMDRICAN ENTENTE.

Lord Farrar's Declaration to this Effect the Most Significent Feature of the Anglo-American League Meeting.

(Special to The Examiner.)

New York, July 14.—A London despatch to the Tribune, with reference to the meeting of the Anglo-American League on Wednesday, says:—The most significant remark which was made at the meeting was Lord Farrar's declaration that prudence was as necessary as enthusiasm in the direction of a movement for the promotion of better relation between two countries.

DEATH OF BISHOP LAFLECHE.

The Three Rivers Prelate Passes Away.

Special to the Examiner.

Three Rivers, Que., July 14—Bishop Lafleche, of the diocese of Three Rivers, died this afternoon at 1.25.

IS AT THE FRONT.

A Former Member of the 57th Combatting the Spaniards.

Mr. Geo. Might, son of Mr. Wm. Might, town, formerly colour-sergeant in No. 2 Company, 57th Battalion, has joined the American army and will be assigned to the 13th Regiment of regulars, now stationed before Santiago and at present bearing the brunt of the fighting.

LOCAL—LEGAL.

At Osgoode Hall yesterday the following case of local interest was heard:

Stethem v. Canada Consolidated Gold Mining Co.—Judgment in action tried without a jury at Peterborough. Action to have it declared that a certain agreement entered into in June, 1883 between the defendant company and the defendants Stevens and Rothwell and one Newberry, and a certain indenture made pursuant thereto, created a trust in favour of the creditors of the company, and that the company's properties stand charged with payment of plaintiff's claim and all other like claims in priority to any other advances made under the agreement, and for payment by defendants of the amount of plaintiff's claim as a creditor of the company upon certain acceptances, and to restrain the defendants from disposing of the company's properties until the plaintiff and other creditors are paid. Held, upon the evidence, that the plaintiff had accepted two bonds of the company in satisfaction of his claim, and had, therefore, no locus standi as a creditor to bring this action. Judgment dismissing the action with costs. Foussette, Q.C., for plaintiff. J. Bicknell for defendant company and defendant Stevens. H. S. Osler for defendant Bothwell.

Excursions Down the River.

The City of Peterborough took three hundred persons to Jubilee Point to-day on St. Luke's Sunday school excursion.

About Stationery.

At the Peterborough Bookstore fine stationery is having a brisk demand these days; and no wonder when such remarkable values are offered. 5 quires Washington society note paper, ruled or plain, for 10c per quire. 5 quires Francoise Mills note paper for 12c, or 3c per quire, 100 envelopes to match, 13c or 3c per package. A. H. STRATTON & Co.

The Peterborough Navigation Co.

The steamer City of Peterborough, having been chartered by the Hastings Methodist Sunday School, will run an excursion from Hastings to Jubilee Point on Friday, July 15th. The steamer Eclipse will run the City of Peterborough's regular trip from Peterborough to Hastings and return, calling at Jubilee Point. The steamer will leave Peterborough at 8 a.m., calling at Ashburnham. Returning will call at Harwood and Jubilee Point and reach Peterborough at 8 p.m. Return tickets to Jubilee Point 50c. Return tickets to Hastings, 75c.

"SWORD AND SHIELD."

Issued in the Interest of the Park street Baptist Church.

"Sword and Shield," is the title of a neat little periodical, printed at the EXAMINER office and published in the interest of the Park street Baptist church. Rev. O. C. Elliott, the enterprising pastor, is the editor, and the first number is a practical tribute to his fitness for the position. The "Sword and Shield," which is a monthly journal, is intended to be a medium of communication between pastor and people, and to keep the latter who are not in contact with the active work of the church in touch and sympathy with the aims of the church. It promises to be a valuable co-operator with the church, and will doubtless do much to add increasing effect to the already great progress that has been made in improving the spiritual, moral and social condition of the residents of the southern part of the town. All members of the congregation who desire the promotion of its interests should be in possession of the "Sword and Shield." In no other way can he be so well informed of the movements, meetings and schemes put into operation for the advancement of the cause of religion in connection with the pastor and congregation of the Park street Baptist church. The subscription price is only 25 cents per year. Post Office Box 97, Peterborough.

MANAGER BILLETT NOW.

Mr. T. R. Billett to Manage a New Bank of Commerce Branch at Fernie, B. C.

Mr. T. R. Billett, formerly of the local branch of the Bank of Commerce, has been appointed manager of a new branch of the bank opened at Fernie, on the Crow's Nest Pass Railway and the centre of operations for the Crow's Nest Pass Coal Co. Mr. Billett, up to the present, has occupied the position of accountant in the Winnipeg office. His Peterborough friends will be pleased to learn of Mr. Billett's promotion.

PERSONAL.

Mr. T. Barnett is at his home in Renfrew on a short visit.

Miss Marie Soucie, of Toronto, is in town on a visit to her sister, Mrs. T. J. Doris.

Mr. McKay, son of Mr. A. McKay, ex-M.P., Hamilton, is in town, on a visit to friends.

Hon. Geo. A. and Mrs. Cox came down from Toronto last night and went out to Stony Lake this morning.

Mrs. Rebill, George street, is entertaining for the holidays her nieces, Misses Lillie and Amy Parsons, Omemee.

Mr. W. Benson of Cobourg, who has been on a visit to town for the past few days, returned home this afternoon.

Mrs. W. G. Ferguson and family went up to Stony Lake this morning to occupy their cottage at Boschink for the season.

Rev. Mr. and Mrs. O. C. Elliott, of the Park street Baptist church, and family, and Mrs. A. L. Grover and family, are camping at Chambers' Point on the river.

Mr. James Stubbs, failing to get enough water in town to meet the desires of his principles, went up to cold water headquarters, Stony Lake, this morning for a few days' stay.

Mrs. LeHane, of Rochester, N. Y., is visiting her sister, Mrs. O'Shea, of the Commercial Hotel. Miss Maggie O'Brien, of Rochester, N. Y., is also visiting Mrs. O'Shea, after an absence from town of four years.

Mrs. Brandon, and Mr. J. H. Brandon of Fenelon Falls, after spending a few days the guests of Mr. W. H. Robertson, returned home on Monday, accompanied by Miss Mattie Robertson, Mrs. Brandon's grand-daughter.

Mr. W. H. Buxton, who has recently resigned the position of physical director of the Y. M. C. A., which he has occupied the past nine months, left last evening for Seattle where he will recruit his health on his brother's ranch.

Miss Alice Fife passed the Normal School Examinations successfully. Miss A. H. Cameron has secured a Kindergarten assistant's certificate. Mr. J. G. Cumming, of town, and Mr. W. B. Beer, formerly of town, have also passed their examinations at the Normal.

Mr. Bert Belleghem returned from a pleasant trip to Chicago, St. Paul and Minneapolis last evening. The Peterborough people he met in these cities all appeared to be enjoying success, as well as good health. War excitement is at a high pitch, and the loyalty of every citizen is evidenced by a liberal display of flags and bunting.

INTO THE UNKNOWN.

Survey Party Leaves For an Unexplored Country—Will be Gone Three Months.

Mr. Speight, O. L. S., left Saturday to run an exploratory line for the Ontario Government in the Algoma district. He will be absent about three months. The proposed line will start from the north end of the line, between Whitman and Hodgins Townships, some distance east of east of Goulais Bay on Lake Superior, and will extend due north to the Canadian Pacific Railway at or near Dalton Station. This region of country has never been explored, and it is wholly unknown. The survey party is accompanied by a forest ranger and a geologist, who will examine the country for a distance of ten miles on either side of the line, and will report on the timber and mineral resources, as well as on its suitableness for settlement.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—The Street and Bridge and Legal Committees meet to-night.

—Mr. Dickinson has erected a very neat two story terrace on Aylmer street, between Charlotte and Simcoe streets.

—The financial district meeting of the Peterborough district of the Methodist church will be held at Lakefield on August 16th.

—A number of the Millbrook Oddfellows will receive the three degrees this evening at a meeting of Peterborough Lodge No. 111.

—The Bank of Commerce will soon open three new branches in British Columbia, two of which are on the line of the Crow's Nest Pass Railway.

—Rev. Father Barcello, of Midland, lost two sisters in the wreck of the French steamer Bourgogne, which went down off Cape Sable, Nova Scotia.

—A drunk and disorderly arrested on Water street last night, was discharged at the Police Court this morning. Mr. R. S. Davidson, J. P., presided.

—Belleville School Board has a staff of officers—secretary-treasurer, $400 salary; school inspector, $400; building inspector, $160, and a "supernummerary" at $175.

—Roy, the photographer, will go to the great photo convention at Chatauqua from July 11th to 15th. Parties wishing sittings will kindly come before or after above dates. He will return with all the newest ideas. ecd

—The Y.M.C.A. camp, Sandy Point, Clear Lake, is booked to open August 4th. Caleb and Joshua (Messrs. W. J. Stubbs and T. E. Baker, went up this morning to "spy out the nakedness of the land"—that is make preparations for the camp.

—It is learned from the "Sword and Shield" that fifteen of the boys of the Park street Baptist Sunday school, will go into camp at Chamber's Point, five or six miles down the river, during the week between July 18th and 23rd. The lads will be under the care of the pastor, Rev. O. C. Elliott.

—The Kaladar and Anglesea gold mining company will at once begin the erection of a separating plant on its property at Bridgewater, north of Tweed. The work will be performed under the direction of Dr. Eames, the company's assayist, and will be in running condition within thirty days after the erection first begins.

—A man must be in a strange moral condition who considers it his duty in the interests of Sabbath observance to derail a Sunday freight train and incidentally commit murder by destroying or at least endangering the lives of the crew. The fanaticisms of a Jap who commits hari-kari or of a Hindoo who throws himself under the wheels of the car of Juggernaut, is heroic in comparison. In the latter cases the idiots destroy their own lives, but in the case of the miscreant who is supposed to have obstructed the Midland Railway track last Sunday to prevent the desecration of the Sabbath, he saves his own worthless skin and risks the lives of useful men in his perverted pusuit of what, in connection with the circumstances, is a mere fad.

Mrs. Chas. Clark, Cincinnati, and her two little sons, are the guests of Mrs. D. H. Burritt.

Mr. and Mrs. Harry Danne were at their cottage Sunday.

Mrs. Jas. Tully spent a few days with Mrs. J. A. Jobe.

A day or two ago Mrs. W. H. Meldrum and party spent a pleasant afternoon at the Park.

Monday morning Mr. D. H. Burritt caught a 20 lb. lunge. Mr. Elcome, the taxidermist, is mounting the head.

Although it was a stiff wind to wheel against Sunday, Messrs. Chas. McGill and R. Davidson reached the Park not a whit the worse of the exacting ride.

A pretty little tea party, not many evenings ago, was noticed by all who passed down the shady Park. Fair ladies and their gallant escorts sat about the festive board heartily enjoying the crisp Chemong air, while they did justice to the dainty spread of toothsomes arrayed by the ladies. Among the party, which numbered about eighteen, were the familiar faces of Messrs. F. D. McKay, Andrew Mercer and Robert Neil.

Divine service was conducted by the Rev. H. Symonds at the Pavilion Sunday, and attended by a good gathering.

Many visitors to Chemong this summer will be pleased to find genial a pastor in the neat Bridgenorth church as the Rev. Mr. Harrison, the lately appointed clergyman.

The following will represent the Peterborough team in their championship game with Midland to-morrow on the P.A.A.A. grounds. Ball faced at 3 o'clock. Dobbis, goal; Lynch, point; Brown, cover; Mein, Glover, McCabe, defence field; King, centre; Hogarth, McCabe, Rubidge, home field; McDonough, outside home; Mooney, inside home; B. Dolan, captain.

Almonte has written asking the Peterboroughs for a game in Peterborough. There is no open date till after August as the local team have a game scheduled for every week in that month.

The Orangeville team has won its first protest against the Elm-Tecumsehs, and as a result the game on June 25th last, which was won by the Elms, will have to be played over again.

Lacrosse is becoming very popular in North Dakota, the games played in the different towns being well patronized.

The race for the senior league pennant is very close, and the game between the Elm-Tecumsehs and Athletics, of St. Catharines, at Toronto Island, Saturday next, will be watched closely by enthusiasts.

The Beaverton team is a strong one this year and will bear watching in this district.

THE WHEEL.

A puncture is a holey terror.
Puncture(ality) is the thief of time.

If you want to get off the earth, ride a bicycle and you may be off very promptly.

We congratulate bicyclists on the grand cycling weather we had on Dominion Day.

There is a trick in riding a wheel which you will be sure to tumble to when you when you learn to ride.

It requires "sand" to learn how to ride a bicycle, but one don't care to encounter much of it afterwards.

You never know how dear bicycles are until you go to buy a new one, or how cheap they are until you try to sell an old one.

The difference between a fort and a tire is that if you blow up the former it is no good, and the latter is no good when it is blown up.

A fellow who tries to show off on a bicycle generally succeeds in falling off not only his wheel, but also in the estimation of any spectators.

Cycling is not at all a dangerous pastime this year. The daily press is able to get all the "copy" and sensation it wants out of the Spanish American war.

It is a sure sign that the novice is becoming an experienced rider when he knows that another fellow knows that he does not know something that he ought to know.

An American lady has been lecturing on "First aid to the bicycle-injured." For a second lecture the Cyclist neatly suggests "First aid to the injured bicycle."

We are told that "Consciousness of power" is power itself. We have known many novices superlatively conscious of their own power who would make very little show of it.

The man who promises his friends to "leave no stone unturned" in his efforts to win a road race, will never land first at the winning post if attempts to keep his promise literally.

TENNIS.

Millbrook and Lindsay drew in a contest on Tuesday at Lindsay.

CRICKET.

A cricket eleven will make a trip round Lake Simcoe next week, starting from Orillia on Monday morning. Matches have been arranged at Beaverton on Monday, Sutton on Tuesday, Bradford on Thursday, New Market at Bradford on Friday, and at Roach's Point on Wednesday. The team of tourists will be made up of Dr. J. N. Harvie, G. A. Cole, A. B. Thompson, A. M. Snelgrove, E. A. Doolittle, W. B. Thompson, A. T. Stephenson, D. I. Grant, C. H. Hale, D. B. Beaton, C. D. Corbould, and one or two others.

BASEBALL.

The Ottawa team started off well yesterday, winning from Syracuse.

The Cincinnati Red Stockings are making a great fight for the pennant in the National. On both Tuesday and Wednesday they administered decisive defeats to Boston on the latter's grounds, playing errorless games on both occasions.

The Toronto team do not appear to be agreeable to the proposed cut in salaries.

Anson picks Cincinnati to win the pennant in the National. He is considered a good authority, he having picked out Boston to win last year.

An End to Bilious Headache.

Biliousness, which is caused by excessive bile in the stomach, has a marked effect upon the nerves, and often manifests itself by severe headache. This is the most distressing headache one can have. There are headaches *from cold, from fever*, and from other causes, but the most excruciating of all is the bilious headache. Parmelee's Vegetable Pills will cure it—cure it almost immediately. It will disappear as soon as the pills operate. There is nothing surer in the treatment of bilious headache.

STRIKE AT WALKERVILLE.

Malleable Iron Works at That Place Have Trouble With Their Employes.

Walkerville, July 14.—The Malleable Iron Works here are deserted, and the majority of the men are on strike. The cause of the trouble is the question of wages. According to the statement of one of the employes, their wages have been reduced on three occasions during the past four years. This was submitted to on account of the depression in trade. With the improvement in business, the employes through a committee asked for an increase of 20 per cent. They were told by the superintendent that an answer would be given them on Tuesday at 6 o'clock. When the time arrived the employes were told that no advance could be given at present, but that something might be done about August 1st. This was not considered satisfactory, and the strike took place at noon Tuesday. Some of the employers treated the matter as a joke, and said the boys wanted a holiday for the 12th.

ACCOUNTS WERE CROOKED.

Five Thousand Dollars Shortage Left by Albert Fowley.

Toronto, July 14.—The accounts of the late Albert Fowley, the treasurer of Orillia township, have been found to be considerably short. The provincial auditor has just returned from Orillia township, where he fully investigated the books and accounts of deceased. Altogether there was a shortage of $5,000. The finding of this shortage has caused quite a sensation among the people of the vicinity.

Extension of U. S. Weather Service.

Washington, July 14.—The most radical extension of the weather service yet made will be operated immediately by this Government by the establishment of a complete system of weather stations on the Caribbean Sea for the benefit of all nations whose interests lie in that region. Between 10 and 12 new stations will be organized and the corps to inaugurate the new service and man the stations will be despatched to the field in a few days.

PEOPLE GETTING OLD.

As age advances, vitality retreats. Old people find themselves tired, listless, dyspeptic and lacking in strength. They lose interest in the active affairs of life, and may either become chronic complainers, burdening their friends, or they may, by using Dr. Ward's Blood and Nerve Pills be made bright, cheery, happy and healthy, as witness the following interesting example. The words of those who have lived many years carry wisdom with them. Why not profit by them?

WISE WORDS.

Nothing does a right-thinking man more good than helping his neighbors, especially the sick and weary. In recommending Dr. Ward's Blood and Nerve Pills, and helping to bring them before the public, I feel that I am truly helping my neighbors. Both my wife and myself have used these Pills and derived great benefit from them. We are getting along in years, and like many others feel the need of a tonic and strengthening medicine. My blood was thin and impoverished, and my wife was miserable with general debility, brought on by dyspepsia. We used many kinds of medicine, but nothing did so much good as the Dr. Ward's Blood and Nerve Pills.

Yours very truly,
Signed, MR. & MRS. CLARK, Victoria St., Glencoe, Ont.

Dr. Ward's Blood and Nerve Pills are sold at 50 cents per box, 5 boxes for $2.00, at druggists, or mailed on receipt of price by The Dr. Ward Co., 71 Victoria St., Toronto. Book of information free.

A DEBT OF HONOR.

It was at Charing Cross station, where I called to make some inquiries, and I knew her instantly, though she was veiled. She recognized me also and returned my greeting with a warmth which I hoped was not altogether due to the fact that I was able to extricate her from a human eddy in which she was entangled. I forgot all about the time table and turned back, delighted that the rush of the preoccupied crowd around us gave an excuse to keep her little silk gloved hand upon my arm. She had been seeing Cousin Phil and his wife off, she said, and was now, I guessed, returning to the desolate house in Bloomsbury square. The picture called up by the thought was so poignant that I proposed a visit to Westminster abbey. She appeared a shade surprised—I certainly was myself—and then agreed, with a little sigh, which plainly said, "As well there as anywhere else." But once she accepted my companionship by stepping into the hansom I called she made, I could see, a distinct effort to take interest in the multicolored life swirling by.

"The abbey is the first place one thinks of visiting when one is away," she observed, "and yet, when one is at home, it is so near that one keeps deferring the visit from day to day, and I am leaving town tomorrow. Papa meant"— She did not finish the sentence, but added, "It is so kind of you to give your time."

"I am a man of leisure," said I dryly.

"Papa was always in a hurry," she went on, and then stopped again. All roads of conversation led to her father, and death had written "No thoroughfare" across every one.

"Better wear out than rust out," said I considerately, "though the best of us but write their names on water after all. A very consoling reflection for the idlers."

"Yes, if everything ended here," she replied as the cab pulled up and the great gray temple loomed above us.

If time be duration set out by measure, my watch was of opinion that we spent two hours here. My consciousness, however, has nothing definite to say on the matter, "the endurance of all enduring things" not being painfully prominent. Neither do I remember having shone among the tombs. On one thing at least I am quite clear. It is when we came out I was decidedly hungry; so, artfully piloting my charge past a restaurant, I suggested lunch.

Here again a lacuna occurs, for I have no distinct recollection of the earlier stages of the banquet save the other fact that her mode of eating and drinking forced me to make comparisons which would have brought me slowly to my senses had not the unforeseen, which has such a trick of happening, done so with paralyzing promptitude.

Her little hunting watch had run down, but the officious cuckoo belonging to the restaurant clock spoke so plainly that the young girl almost jumped from her chair.

"Oh, Mr. Patterson," she cried, "what shall I do? I was to call upon Mr. Turnbull—he *is* my guardian, you know—about papa's will at half past 2, and now it is a quarter past."

"Where does he live?" I asked.

"In the city," she replied despairingly, "and, oh, he is so precise, and there may be delays—you don't know him."

I did, having met him in his professional capacity some years before, when I was a witness for the defense.

"We'll drive there at once!" I cried royally, putting my hand in my pocket while she fumbled for her glove. Then an awful fact struck me; my purse was gone. I suppose my consternation got into my face, for I caught the eye of the polyglot waiter fixed upon me. He was tall, and, I doubt not, swift of foot, and as he smiled thinly I could see that he had lost one front tooth and all his illusions. I put my hat on and took it off again. At another time, in another place, the incident would have been merely laughable, but now, with her! I had been so blase, so mildly cynical! Oh, it was unthinkable! I moved toward the counter which was near the door, shadowed by the waiter, who was mentally calling the police, and approaching the lady in charge explained the situation. She was a German frau of spotless morals, and she listened calmly to my tale, the cold contempt of a narrow, literal nature glinting in her small eyes. The comedy of the situation did not strike her. She only saw that I had no money. "Dey pay, dose who eat here; dose are de rules," she reiterated, declining even to examine the ring I offered, "as a guarantee of good faith."

The waiter, who had been fielding in the immediate vicinity, advanced and asked me if I had lost anything. I inquired for the proprietor, but by some hideous ill luck he was not accessible. I saw Miss Langton, who had gone to the door, looking back, evidently surprised at the delay. Then the storm burst. The German was impenetrable; the waiter passed rapidly from legitimate doubt to open skepticism as I tendered my card, which was not a trump one, and seeing that we all talked together, the effect was very striking.

"Excuse me," remarked a thin, crisp voice, "it is a little trouble about the bill, is it not? Miss Langton, I shall be with you in a moment. Don't be alarmed."

Of course it was old Turnbull, who ought to have been miles away and had been lunching here all the time instead. I bowed, he looked me in the face, and I understood that he remembered the last occasion on which we had met. I recalled his terrible, "Now, upon your oath, sir," as I stood clutching the edge of the witness stand, a bit of court plaster over one eye.

"You are doubtless aware that Miss Langton is my ward?" he observed when he had appeased the Teuton sphinx.

"I learned it," I replied. "Permit me to congratulate you."

"And you will also learn now," he retorted, shutting his pocketbook with a snap, "that I wish the acquaintance to end here."

"On what grounds?" said I.

"If on no other than that of the present—er—disgraceful scene, I should be justified," he answered, "but I forbid it on—ahem—higher grounds."

Then he began to talk, "as one man of the world to another," about Arbuscula and her sisters. He was illogical, but convincing.

"What is the amount of the bill?" I asked shortly.

He handed me the receipted slip of paper. I put it in my pocket. He smiled sardonically, and gathering up his black bag went out to Miss Langton, while the waiter hailed a cab by whistling through his fingers in a most talented way.

Beyond the glass door I could see Turnbull talking to Miss Langton as she rearranged her veil. Some girls at an adjacent table put their heads together, whispering and tittering. The chariot pulled up at the sidewalk with a flourish, and Turnbull touched Miss Langton's arm. She made a step forward, but looked round and paused irresolutely. I instantly went to her, and taking the little warm hand she gave me pressed it to my lips.

"I am so sorry you were inconvenienced," she said. "If I had only known"—and she actually laughed!

"I shall easily get over the recollection of the inconvenience in the recollection of the pleasure I have had," I replied.

She blushed.

"But why did you not tell me?" she murmured.

"It would have been commonplace," I replied. "I preferred to be a paladin, though a comic one."

"I don't think it comic at all," she replied, trying hard not to smile. "What stupid people!"

"Miss Langton, as this gentleman is rather richer in time than I, perhaps he will excuse us if we economize," remarked Mr. Turnbull. "Here is the cab. Get in, please."

She threw me a bright look and went with him. Recollecting that I was without my hat, I returned for it and found on the ground hard by a little black silk glove. I picked it up, intending to return it, but when I reached the street the cab was already several yards away. Then the lawyer's talk came back to me with diabolical distinctness, and I said to myself that, after all, he was right. I went straight to my bankers', sent him the amount of the bill, answered a perfumed, badly spelled note I had received that morning, looked the glove with the photo away in a drawer and took the next train for Paris.—William Buckley in Black and White.

DEFEAT CERTAIN.

Lieut.-Governor McInnes of British Columbia Will Ask the Opposition to Form a Cabinet.

Vancouver, July 13.—A few polling booths in remote parts of the province are yet to be heard from, but these cannot materially alter the result nor save the Turner Government from defeat. Out of the 38 seats 19 can be said to have gone straight Opposition, 15 Government and 2 independent, while in Cassiar, which constituency has two representatives, the election has not yet been held. At first the two independents were credited to the Government, but one of them, Henderson of New Westminster, has since declared his intention of voting with the Opposition on a want of confidence in the Government. Bullen, Government candidate in Esquimault, was elected over Higgins by the returning officer's vote, and may be defeated on a re-count to-day. Protests will be filed against a number of successful Government candidates, who, it is alleged, spent money lavishly in their respective constituencies. The Government organs refuse to admit defeat. It is understood that Lieut.-Governor McInnes will take the first opportunity to dismiss Turner and call on the Opposition to form a Cabinet. It is yet too early to make a forecast of this Cabinet, the likely members remaining silent till all doubt is over.

A WINDSOR JEWELLER.

Cured of Bright's Disease by Dodd's Kidney Pills.

Windsor, July 4th.—(Special despatch)—"If the United States army had taken a supply of Dodd's Kidney Pills to Cuba it would have been able to withstand the ravages of disease arising from the drinking of bad water," said a promident physician to-day.

"Dodds Kidney Pills he continued, are the greatest life savers in the world. I know a score of persons whose lives they have saved.

"Right here in Windsor Mr. R. F. Colwell, the Oulette street jeweller, has been cured of Bright's Disease by them after two years' suffering. I use them in my practice, and can cure the worst case of Bright's Disease, Diabetes, or any other Kidney complaint with them."

The Canadians at Bisley.

Bisley Camp, July 13.—The annual meeting of the National Rifle Association opened yesterday under the most favorable auspices, and will continue until Saturday, the 23rd inst. The Canadian twenty are all here, and in good trim, having put in a diligent season of practice at Staines. There were no important events to engage in to-day, so the majority went in for the open competitions, and made some fair scoring.

A Young Man Missing.

Goderich, Ont., July 13.—A young man named Charles Stockwell, whose parents reside in Manchester, England, went out for a sail last Wednesday evening in a small boat and he has not been seen or heard of since. He was in business in a small way as a machinist, and was very generally known here. Enquiries made thus far fail to get any trace of him, and it is feared he has been drowned.

A magnificent example of what care of health will do for a man is presented in the life of Mr. Gladstone, the greatest statesman of the century. This "Grand Old Man" at eighty-six years of age, retained his intellectual vigor unabated, and had not lost the sinewy grip with which he fastened upon any subject that interested him.

Nearly every man has it in his power to live to a green old age like the great statesman of England. It is simply a matter of a little daily thought and regard for health. If, when a man feels that he is a little off of sorts, he will resort to the right remedy, he will never have to submit to the more serious ills of life. Most men, when they have a headache, feel drowsy during the day and are restless during the night, and find their appetite falling off, pay little or no heed to these warnings. The inevitable result is some dangerous and possibly fatal malady. The doctor may call it consumption, malaria or biliousness, or perhaps some blood or skin disease. It makes but little difference. These troubles all have their inception in the same cause—improper and insufficient nourishment. Dr. Pierce's Golden Medical Discovery corrects that cause. It makes the appetite keen and hearty, the digestion perfect, the liver active and the blood pure and rich. It is the great blood-maker and flesh-builder. It facilitates the assimilation of the life-giving elements of the food, filling the blood with the nutriment that makes new and healthy flesh and nerve tissue. Medicine dealers sell it.

"Last summer," writes Miss Laura Piersel, of East Bethlehem, Washington Co., Pa., "I was going into consumption. Dr. Pierce's Golden Medical Discovery completely cured me."

A man or woman who neglects constipation suffers from slow poisoning. Doctor Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two a mild cathartic.

LIEUTENANT CLOVER.

The colonel seemed much disturbed. He walked to the window and gazed out at the empty parade. He walked to his desk, and Adjutant Caldwell Clover, who was signing orders, glanced out of the corner of his eye and saw that the colonel was pulling his mustache.

Then the colonel sat down and said rather sharply, "Are you busy, Clover?"

It was not customary for the colonel to address the officers by their names in this way. He was supposed to address Adjutant Clover as lieutenant, and to say that the young man was surprised would be placing it mildly. Of course he didn't object. In fact, it pleased him to have the colonel speak to him familiarly, only it was so unexpected.

"I am not busy, colonel," said the adjutant.

"How old do you think I am, Clover?" asked the colonel.

"Why, I don't know, colonel," stammered the adjutant, "not any older than—than you ought to be."

The colonel was slicing a sheet of paper with the paper knife. "I want you to do something for me, Clover. I have come to depend on you so entirely for everything that I am going to put this personal matter in your hands. I want you to write a proposal of marriage to a young lady for me."

The colonel was much embarrassed. His face was red under the tan.

"A proposal of marriage!" echoed the adjutant.

"Yes. If any one had told me I was afraid of a woman, I would have laughed at him. I tried to speak to her about it last night at the hop, and when she looked at me with those steady brown eyes of hers I couldn't say a word."

"Then it's Miss Lacey?" said the adjutant.

"It is Miss Lacey."

"Very well, colonel." Adjutant Clover received the order just as he would have received an order to appoint a substitute captain for the recruits or any trivial thing of that sort, and he turned to his desk as the colonel went out.

There are those who think an adjutant has nothing else to do save listen to 37 bugle calls a day and look his best from reveille to taps. It is a mistake. He has a thousand and one things to do. He oversees guard mount. He selects the colonel's orderly. He writes letters and signs papers, and now Adjutant Caldwell Clover of Troop X is asked to write a proposal for his colonel to Agnes Lacey.

When Captain Lester went east and returned with a golden haired young wife, Lieutenant Clover danced with the bride at the reception given them.

"I am sure I shall not be lonely here," she said to him. "I find it all so new and interesting, and then in the summer my sister is coming to me." They were promenading then, and she looked up at the six feet of handsome manhood beside her and said: "You will like my sister. She is not at all like me. She is almost as tall as you are and independent and brave." And from that night Lieutenant Clover looked forward to the coming of Captain Lester's fair sister-in-law.

Alice Lacey reached the post in July. Mrs. Lester had been watching for the coach, and when it appeared on the brow of the hill Lieutenant Clover handed her a pair of fieldglasses, and when at last the rumble of the wheels was heard they walked together across the parade, and it was Lieutenant Clover's hand that opened the stage door and then reached up to help the girl alight.

When he took off his cap to her and then escorted herself and sister to the captain's quarters, Agnes Lacey felt that all her sister had written about the courteous young officers of the post must be true.

The summer was a quiet one at the post. There were a few dances, some rides over the prairie, a picnic or two and long, quiet hours on the verandas, and then one day there came news of Captain Lester's transfer to another post. It was on the day before the one set for his departure that the colonel gave his adjutant his peculiar order.

When the colonel had gone, Lieutenant Clover leaned back in his chair and clasped his hands behind his head. He was to propose to Agnes Lacey for the colonel. He thought over all the hours he had spent with Agnes, and his face grew tender and his lips quivered a little as he remembered that tomorrow she was going away, then he said to himself: "What's the use of my feeling like a dog in the manger? She wouldn't marry me. She'll never think of me again after she leaves here." He took up his pen, then hesitated as he dipped it in the ink. "My, but it will be lonesome when she is gone." Then he went on writing, and when the letter was finished he forgot and signed his own name instead of the colonel's, and then laughed as he saw his mistake. He had to write the letter all over again then. This time he signed the colonel's name and called the orderly and sent him to Miss Lacey with the letter. And when it was done he walked up and down the room, and all that evening he felt like a caged lion. What would her answer be? Had the colonel received it? Once or twice he took up his cap to walk down past the captain's quarters, then he threw it down again. Of course she would accept. Yes, but after all, would she?

The stage left in the early morning. Lieutenant Clover noted the stir of departure about the captain's quarters. Then he saw the captain and Mrs. Lester appear, and he ran out to speak to them. He half expected to find the colonel with them, but he was not there. A flush dashed up to his face. Had she really refused the offer? If so, why? There was no time for explanations. She came out ready for her journey. She gave him her hand, and her eyes looked level into his.

"I shall never forget how much you did to make my stay pleasant," she said. "I hope I shall meet you again, Lieutenant Clover."

The driver's whip circled out over the heads of the forward mules, she waved her hand to him, and Lieutenant Caldwell Clover was standing alone with an aching heart with nothing in the world to do but listen to 37 bugle calls a day and follow the dreary routine of an adjutant's life.

Then there came a time when the country called for troops. "Boots and Saddles" quickly followed, and Troop X started for the south.

Army headquarters at Tampa was thronged with officers. Orderlies were speeding everywhere. Spurs jingled across the floors, and the few army wives who followed their husbands walked up and down the rose trellis paths in the evening and talked of what the morrow might bring. Lieutenant Caldwell Clover was still adjutant to the colonel. A telegram was handed the latter. The colonel frowned, pulled his mustache, then said: "Lieutenant, I have a telegram from a friend now at Chickamauga. His sister arrives at this hotel tonight to join the Red Cross forces at Key West. Please meet her and see that she gets her train for Port Tampa in the morning."

The lieutenant saluted. When the Pullman car backed into the spacious hotel ground that night, a few officers, a newspaper man or two and one woman alighted. As she stepped forward the waiting adjutant was startled at first, then hurried toward her.

"Miss Lacey! You here?"

"Ah, Lieutenant Clover! How glad I am to see you again! It is good to see a face one knows. I felt rather lonely, for there wasn't another woman on the car all day."

"I was to look out for a nurse," said the lieutenant, glancing around, "but it seems she didn't come."

The girl stepped into the broader light. "Oh, then you didn't know," she said and pointed to her sleeve. An insignia honored the world over was sewed there—the Red Cross.

"Is it possible?" It seemed to him that nothing but interjections came into his mouth. "You are really going to the front?"

"Going to the front," she repeated, with a smile in his face. "I shall probably meet you there." She said it as though it would be a pleasure. They were crossing the wide veranda. Vladimir Purishoff's orchestra was playing "The Serenade." "You will come for me by and by and bring me to hear the music," she said. "It will seem like old times when we danced to the music of the regimental band."

"Were you lonely after I left the post?" she asked. No one but a woman could have asked such a question.

"I never before knew what loneliness was," he said. "I wonder if you would forgive me if I told you just how lonely I was—but, no." For a moment he thought only of his love for her. Then he remembered that she had refused the flower of the army, that she had a mission in life.

"Tell me," she said softly.

A man may spend the best of his life in the dreary confines of an army post two days' journey from a railway station. He may listen to 37 bugle calls a day and attend to an adjutant's thousand and one duties for years, but the blossoms of his heart may remain eternally fresh and fragrant.

There were tears in the girl's eyes when he finished his story. "I am glad," she said as she put her hand in his. "I thought you would tell me before I left the post. I should have staid."

"And now, Agnes—now?"

"After the war," she said.

So you, who pray for the safety of those who go into battle and for blessings upon those who wear the Red Cross, remember these two—country first, self after and then, with his will, long life and happiness.—Katharine Hartman in Buffalo News.

Democrats and Whisky.

The *Chambersburg (Penn.)* Valley Spirit recalls the fact that it was at the Girard House, Philadelphia, that Judge Black first uttered the story which has since wended its way in and out of the highways and byways, near and remote, about Democrats and whisky. It was on a Philadelphia hot night. The air was still and stifling. A friend of the judge walked up to him mopping his brow and expressed his surprise that the judge was not at Cape May sniffing salt breezes. The judge assured his visitor that such weather was of incalculable benefit to humanity.

"Why?"

"Well, you see, if we didn't have hot weather we wouldn't have corn; if we didn't have corn, we wouldn't have whisky, and if we didn't have whisky we wouldn't have Democrats!"

Raised . . . From a Bed of Sickness . . .

SIMCOE, Jan. 18th, 1897.

Messrs. Edmanson, Bates & Co., Toronto.

Gentlemen—For over five months I was confined to my bed, not being able to move. The best medical skill was called in, all treating me for catarrh of the stomach, but to no avail. I could not eat the most simple food without being in dreadful misery, and found no relief until same was vomited up. After spending a large sum in medical advice, I was advised to try a box of Dr. Chase's Catarrh Cure. I purchased a box from J. Austin and Company, Simcoe, and to my surprise found great relief. Not being able to eat I tried a box of Dr. Chase's Kidney-Liver Pills; the pains left me the third day. My appetite has been fully restored. I consider myself perfectly cured, and feel as well as when a young woman, although I am 65 years old at present. I was almost a shadow, now I am as fleshy as before my sickness. Have used only three boxes of Dr. Chase's Kidney-Liver Pills, and two boxes of Dr. Chase's Catarrh Cure. I can do my house work as usual. I am positive that my marvellous cure (which I think it is) is due purely to Dr. Chase's remedies, which I have used. I can honestly recommend the same to any persons suffering from symptoms similar to mine. Wishing you every success,

Yours truly,

MRS. ANN CHURCHILL, Sr.

APPALLING DEATH

From Kidney Disease Prevented by Dodd's Kidney Pills, Only.

"Kidney Disease." Do you know what it means? It means that the kidneys are either *rotten*, or rotting; the blood is full of poisonous, death-dealing corruption; that the Kidneys can't do their work; that the victim is a walking charnel-house; that his hours are numbered; that the victim MUST take Dodd's Kidney Pills if he does not want to die.

Have you Kidney Disease? Is your skin hot and dry; memory failing; breath short; urine, reddish, or pale colored; does it scald when passing; is your appetite changeable; do your ankles swell; have you bitter taste in the mouth on getting up mornings; is there a brick-dust deposit in your urine?

Any of these signs is proof positive of Kidney Disease. Will you be cured, or will you die? Dodd's Kidney Pills are the only means on earth that will cure you. They never fail.

Thin in flesh? Perhaps it's natural.

If perfectly well, this is probably the case.

But many are suffering from frequent colds, nervous debility, pallor, and a hundred aches and pains, simply because they are not fleshy enough.

Scott's Emulsion of Cod-liver Oil with Hypophosphites strengthens the digestion, gives new force to the nerves, and makes rich, red blood. It is a food in itself.

TWILIGHT.

Still in the west a berry colored bar
Of sunset glooms. Against it one lone fir
Darkens deep boughs. Above it, courier
Of dew and dreams, burns dusk's appointed star.
Like fairy bombs exploding in a war
'Twixt elves and gnomes the fireflies flame, the chirr
Of cricket wakes, and each green chorister
Of marsh and creek lifts a vague voice afar,
And now, withdrawn behind the woodland belts,
A whippoorwill, where, with attendant states
Of purple and silver, slow the great moon melts
Into the night, to show me where she waits,
There at the lane's end, by the old beech tree,
Who keeps her lips, sweet as a flower, for me.

MR. T. GIBSON'S SUCCESS.

He Made the Speech of the Day at the Mining Congress in Salt Lake City.

Mr. Tom Gibson, Secretary of the Ontario Bureau of Mines, who is attending the American Mining Convention, now in session in Salt Lake City, as the official representative of the Provincial Government, has scored a great success, according to the reports which have reached Toronto. The convention is a very important and very representative one, comprising delegates from all the leading mining centres in the United States and it is no small thing for Mr. Gibson to have produced the favourable impression which he seems to have made, judging by the reports in the local press.

one Salt Lake City paper refers in the following complimentary terms to the Ontario Government's representative:—"Oratorically speaking the gem of the whole convention was the speech delivered by Thomas A. Gibson, the delegate from Toronto. Mr. Gibson introduced his talk on the mineral wealth of his Province with a reference to the sympathy of Canada for the United States in its battles for the extension of human liberty. Before he got far in this vein the delegates awoke to the fact that they were hearing the one eloquent speech of the day, and the applause that followed almost every sentence amounted to an ovation. After the adjournment many of the delegates shook hands with Mr. Gibson, and congratulated him on his speech.

VOICES CANADIAN SYMPATHY.

The remarks by Mr. Gibson which appear to have aroused so much enthusiasm in the mining congress were to the following effect: "Gentlemen, I may be a stranger among you, but I am not a foreigner. If you will allow me to say it, I feel I am but expressing the almost universal sentiment in my own land when I tell you that at the present juncture in your national affairs, when your army and navy are gloriously warring to rescue a downtrodden people from their tyrants and oppressors, you have the heartiest good-will of the people of Canada, and their most ardent wishes for your success. I am sure that within the sound of my voice are some natives of Canada, for many thousands of my countrymen have crossed the border and made their homes among you; and I make bold to say that among the many lands which have sent their sons and daughters to swell your population, none have sent you worthier, more industrious or more desirable people that the land where the same breeze stirs the maple leaf and floats the Union Jack."

To Cure a Corn.

Mr. James Lynch, of Peterborough, is spending a few days at the Point.

A quiet and interesting wedding took place at the English Church mission chapel, Young's Point, July 11th, in the presence of a few friends. The contracting parties were Miss Maggie Godfrey and Mr. Elliott Robinson, and were married by the Rev. W. Creswick. We wish them much happiness in their future life.

The Rev. Father Fitzpatrick is visiting friends in Norwood.

CASE OF SIMILAR ONE

Premier Hardy Following Sir John Macdonald's Precedent.

HON. DAVID MILLS SPEAKS OUT

The Dominion Minister of Justice Endorses the Views of the Attorney-General of Ontario on the Rights of Constables to Vote at General Elections—Not Paid Employes.

London, July 14.—The Hon. David Mills, Minister of Justice, was asked last evening to state his view of the reasons given by Premier Hardy for calling the Legislature together at this juncture. The honorable gentleman remarked that he had very little to say regarding the matter. Mr. Hardy had, in his statement published in the papers yesterday, said about all that was necessary. "The case," said Mr. Mills, "is similar to that which the late Sir John Macdonald dealt with after the election of 1887, when, instead of leaving the matter to the election courts upon which there might possibly be a difference of opinion, he passed a declaratory Act. By that Act he defined what the true meaning of the statute was, and I presume Mr. Hardy will do the same thing in this case. I cannot see that there is much room to doubt what the true intention of the Act is. The parties disqualified from voting are paid employes. The officials are spoken of as persons who are appointed, not as persons employed. Sub-section 3 of section 6 excepts deputy returning officers and deputy poll clerks from the disqualification, and it has been asserted by some that this is done to except them out from the disqualified class. But this is not so. A careful examination of the section will show that at the beginning returning officers and poll clerks are, except in the single instance, disqualified, and the exception of their deputies is for the purpose of making clear that they are not included in this disqualification. The general disqualification applied solely to employes, and not to officials. If the Legislature meets and declares this to be the law I feel very sure that that declaration will not differ from the conclusion to which any division of the high court would arrive were the matter dealt with by any of them."

Council Meeting.

From Our Own Correspondent.

Minutes of council meeting held at Hale's school house, May 28th, 1898. Reeve and councillors all present. Minutes of last meeting were read and adopted.

Moved by Messrs. Campbell and Hales that this council pass a bylaw abolishing school section No. 5, but that on condition of their holding school for only nine months in 1898 and for a term of not more than six months during each year thereafter, and that if the trustees sign an agreement to that effect the said bylaw will then become null and void, but should these conditions not be agreed upon, said bylaw will then be enforced.—Carried.

Moved by Messrs. Bullied and Rosebush that a grant of $6 be given to H. Woodbeck with which to make repairs on concession 3, leading from Wellington road to his own lot.—Carried.

Moved by Messrs. Campbell and Rosebush that Wm. James receive an order for the sum of $15 on account for Mrs. Tomlinson's board.—Carried.

Moved by Messrs. Hales and Bullied that an order be drawn in favour of Mrs. S. E. Scott on account of improper assessment.—Carried.

Moved by Messrs. Campbell and Bullied that an order be drawn in favour of F. Howe for $1.50 for repairs on bridge over Eel's Creek.—Carried.

Moved by Messrs. Hales and Bullied That Joseph Parks receive an order for $3 for repairs done on Wellington road.—Carried.

Moved by Messrs. Campbell and Hales that a grant of $10 be made for the purpose of opening road from Wellington road to lot 20, concession 3, and that the work be let by contract to the lowest bidder and that Jno. Hales and J. Bullied be appointed to let contract and inspect work when done.—Carried.

Moved by J. Hales, seconded by D. Campbell, that an order be drawn in favour of Dr. Caldwell for $15 on Board of Health account—Carried.

Moved by W. Rosebush, seconded by J. Hales, that orders be drawn in favour of John Cleary for $12.43, Hugh Cleary for $9.73, and John Scott $9.91, on account of back taxes charged against said parties.—Carried.

Moved by W. Rosebush, seconded by D. Campbell, that an order be drawn in favor of Aaron Post for $20.25, being for salary as assessor for 1898 and postage—Carried.

Moved by J. Hales, seconded by W. Rosebush, that J. Menogue and D. Campbell be a committee to arrange for the opening of a road from Con. 15 to the Scott line, to accommodate Harry Fletcher and others—Carried.

Moved by D. Campbell, seconded by J. Bullied, that the collectors time for return of roll be extended till August 15th, 1898—Carried.

Meeting adjourned to meet at Caldwell's school house at call of reeve.

The Work of Miscreants.

Some parties unknown made a bold attempt to wreck a corn train Sunday between the fifth and sixth concession of Eldon, a short distance west of Eldon. About 2 30 a heavy train with two engines attached, was bowling along at a good speed, when an obstruction was noticed on the track ahead; the drivers reversed their levers and whistled for brakes, and the train was brought to a standstill a few feet from the obstruction, which consisted of a number of ties. It is supposed that some person who objects to the Sunday running of trains, took the above method of manifesting his displeasure.

$12,500 SLUMP IN ONE CLIP

Gough Bros.' Big Double Stores and Oak Hall Branch Included.

Mark these words! and study them over, and see what it means for you. Since the close of a great day's business last Saturday, we have deliberately slashed about $12,500 off prices in our two Big Double Stores and Oak Hall Branch—including a net shrinkage of fully 25 per cent. in profits.

This is a gigantic undertaking to save you money, and to rapidly reduce all summer stocks. We are not so awfully greedy after gain as not to make prices bend to our will when we want to—even if loss must follow. You can't move stocks fast enough in midsummer without cutting the life out of the profits. But as our great stocks are brought away down to begin with, we can afford to do some marvellous selling, still further away down to quickly clear them. Never anything done in Peterborough can compare with it:—

SUMMER MINING SCHOOLS.

The Schools a Great Success.

Mr. Archibald Blue, Director of the Bureau of Mines, yesterday received a letter from Prof W. L. Goodwin, Principal of the Kingston School of Mines, reporting on the summer mining schools which he and Prof. Nichol have conducted in eastern Ontario. He states that the summer school at Parry Sound has proved a great success. In all 51 students attended and the daily average attendance was 20. The school at Mattawa, where he now is, has been even more successful. There were 72 students, the average attendance was 45, and there was no indication of a falling off. The bureau has divided their summer school between the School of Science and the Kingston School, the former taking the district west of Michipicoton and the latter Michipicoton and the territory east.

ON TO PORTO RICO.

First Chapter Ends Gloriously for American Flag.

THE SANTIAGO CASUALTIES.

Retrospect of the Part of the Campaign Just Closed as Seen in Washington—Major-General Miles Will Take 25,000 Men to Subdue Spain's Easternmost Possession.

Washington, July 15.—An early sequence of the surrender of Santiago and the eastern end of Cuba will be the invasion of Porto Rico with a military force almost entirely composed of fresh troops from the United States. This means a radical change of policy on the part of the army, for it was expected that the movement against Porto Rico would be made by regiments now engaged in the Santiago campaign. It was anticipated that only a few organizations of soldiers would be sent to Porto Rico from the Department of the Gulf. The Government relied on the expected seasoned character of the Santiago troops, and it could not be foreseen that the health of the men would become so impaired in the short campaign in southern Cuba as to render them unfit for duty in Porto Rico. It is the present intention of the War Department to send one army corps from the Florida coast to participate in the Porto Rico campaign, and to maintain the fifth corps under Gen. Shafter in Santiago Province for the present. At least two regiments of immunes will be sent to garrison the City of Santiago.

Gen. Brooke Summoned.

Major-Gen. John R. Brooke, commanding the first army corps, has been summoned to Washington to consult with the War Department officials in regard to the Porto Rico expedition, and he will unquestionably be placed second in command to Major-Gen. Miles in the invasion of the island. The first army corps will compose the bulk of the invading force. The President and Secretary of War are disinclined to use a single man from Santiago in the Porto Rico campaign, on account of the danger of spreading yellow fever among the other troops. It is probable, however, that several batteries of artillery from the regular army forces now in Santiago will be detailed for the Porto Rico expedition. There are very few batteries of artillery left in the United States, and the large guns are considered absolutely necessary for the subjugation of the Spanish garrison in San Juan and other Porto Rican towns. It is expected that Gen. Brooke will arrive in Washington to-day, when the details of the expedition will be arranged.

Gen. Wilson Already Instructed.

Major-Gen. J. H. Wilson has already been instructed to prepare for the Porto Rico expedition at once. He is now at Charleston, S.C., and he will go at the head of the first division of the first army corps with the first troops started for the island. The War Department plans provide for the embarkation of the expedition before the end of next week, and under the most favorable circumstances the troops will be on their way within six or seven days.

Miles to Command.

The Porto Rican expedition will be commanded by General Miles in person, though General Brooke, now in command at Camp Thomas, is expected to be his main dependence. The size of the expedition will depend upon General Miles' wishes, although it is believed that 25,000 men will be sufficient. At San Juan the navy will be of greater assistance than it was at Santiago, owing to the possibility of approaching the town more closely without risking contact with mines.

The experience gained in despatching Shafter's expedition, it is expected, will aid the officials in their determination to make short work of the Porto Rican affair. There will be plenty of transports available for the expedition, as the Government has devised other means of removing the Spaniards captured at Santiago to Spain than by carrying them on these transports. That the navy is ready to do its share at short notice, goes without saying.

Porto Rico is not expected to offer a very formidable resistance.

SANTIAGO SURRENDERED.

It Falls Into the Hands of the United States on the Spanish General Toral's Terms.

Washington, July 14.—(2.05 p.m.)—Santiago has surrendor to the American forces. General Shafter's soldiers are now advancing to take possession of the city. There is considerable rioting, but it is expected that to-night everything will be tranquil.

TORAL'S TERMS.

Spanish General Wants All His Men Conveyed Back to Spain.

Washington, July 14.—The Adjutant-General has received the following from Playa del Este: Have just returned from interview with General Toral. He agrees to surrender upon the basis of being returned to Spain. This proposition embraces all of eastern Cuba from Asseraderos on the south of Sagua on the north via Palma with practically the fourth army corps. Commissioners meet this afternoon at 2.30 to definitely arrange the terms. (Signed),

Shafter, Major-General.

MILES TO THE WAR DEPARTMENT.

He Praises Gen. Shafter and the Troops for Their Good Work.

Washington, July 14.—The War Department has received the following despatch from General Miles, written apparently before the final surrender of Santiago at 3 o'clock:

Playa del Este, July 14.—Secretary of War, Washington: Before Santiago, July 14.—General Toral formally surrendered the troops of his army—troops and division of Santiago—on the terms and understanding that his troops shall be returned to Spain. General Shafter will appoint commissioners to draw up the conditions of arrangements for carrying out the terms of surrender.

This is highly gratifying, and General Shafter and the officers and men of his command are entitled to great credit for their sincerity and fortitude in overcoming the almost insuperable obstacles which they encountered.

A portion of the army has been infected with yellow fever, and efforts will be made to separate those who are infected and those free from it, and to keep those who are still on board ship separated from those on shore. Arrangements will be immediately made for carrying out further instructions of the President and yourself. (Signed), Nelson A. Miles, Major-General of the Army.

PRISONERS OF WAR.

30,000 of Them to Be Disposed Off—The Commissioners Will Be Directed From Washington.

Washington, July 14.—The Spanish forces involved in the capitulation at Santiago will not be taken back to Spain in American vessels unless there is an official pledge for the safety of our craft and their crew. Secretary Alger had no hesitation in saying to-day that he doubted if Spain wanted the prisoners brought back there, and said that, if transported in our own vessels and without some agreement with the Spanish representatives, Spain would not refrain from seizing them. It is a very notty problem which will be tackled by the commissioners arranging the capitulation under the direction of the authorities here.

On the basis of being returned to Spain with the troops under his command—over 30,000 men—Gen. Toral hands over his sword to Gen. Shafter. Only the details remain to be settled, and Gen. Shafter has telegraphed that the American commissioners appointed to arrange them will meet similar emissaries on the part of the enemy in the field at 2.30 o'clock this afternoon. Government officials expect to hear soon the result of this meeting. The Spanish troops involved in the surrender occupy all the territory in Eastern Cuba marked by a line from Asseraderos on the south through Palma to Sagua on the north. The War Department has notified Gen. Shafter this plans are approved so far as they have been made known, and are the result of orders, including the shipment of Spanish troops to Spain. The statement that the Spanish proposition embraces all Eastern Cuba from Asseraderos to Sagua is important, in that it shows the surrender to embrace all the harbor and contiguous territory of Santiago. It does not include Holguin and Manzanillo, where the Spaniards are reported to have considerable bodies of soldiers, as these places are to the west of the surrendered zone.

To transport the surrendered army will require no less than 45 large steamers, a number in excess of the entire flotilla of transports now available in southern waters. Secretary Alger, however, declares that our ships will not be used for the movement unless a specific official agreement be arrived at with Spain for the protection of our vessels against the seizure of which by the enemy there would otherwise be no preventative.

ON TO PORTO RICO.

The U. S. Authorities Losing No Time in Pushing the War.

Washington, July 15.—Major-General Brooke has been ordered from Chickamauga to Washington immediately for consultation regarding the Porto Rican expedition. No more troops will be sent to Cuba, save two regiments of immunes from New Orleans and Galveston. A large part at least of our troops now in Cuba will be withdrawn after Santiago surrenders.

Five Deaths From Yellow Fever.

Washington, July 15.—Reports which reached the War Department show there has been some mortality among the yellow fever cases with Shafter's army.

This, however, has been slight, as it is said that up to the present time but five cases have resulted fatally.

Camara Sailing Towards Watson.

New York, July 15.—A despatch to the World from Gibraltar, Spain, says: A steamer just arrived from the Mediterranean reports having sighted Admiral Camara's squadron steering in the direction of Cartagena.

Gun practice was constantly carried on aboard the warships as long as they were in sight. The report that Commodore Watson's fleet is coming to Spain has caused great excitement and profound anxiety.

The inhabitants of Ceuta and Algeciras are leaving for inland towns.

Spanish Gunboat Captured.

London, July 15.—A despatch to the Daily Telegraph from Manila, dated July 9 says: "The Spanish gunboat Leyte, which was towing General Monet's column from Macabore, on meeting with an American warship, cast off the boats, which surrendered to the Americans. In the meantime the troops in the boats, fatigued and famished, were compelled by the sailors to beach the boats, the soldiers making the best of their way to Hagonoy.

Regarding the Irene affair the despatch says: "This is only one of several significant incidents which are likely, sooner or later, to develop into serious trouble."

FOR THE KOLAPORE CUP.

The Canadian Team Likely to Take Part in the Competition.

Bisley Camp, July 15.—In the Golden Penny competition Private J. McVittie, 48th Batt., with a score of 34, stands an excellent chance of winning a good prize.

Sergeant J. Broadhurst, in the Ind-Coops, seven shots, six hundred yards, unsquadded competition, made a score of 34.

For the Association Cup, 200 yards, Sergt. Hayhurst and Lieut. W. E. Forbes made excellent targets.

In the Association Cup, six hundred yards, seven shots, unsquadded competition, Lieut. A. A. Smith made a score of 34.

In the Thorburn, 800 yards, ten shots, unsquadded competition, Sergt. Simpson made 49, the highest score in the competitions yesterday. The score of Lieut. Robertson in the same match was 45, and that of Capt. Hutcheson 47.

For the Association Cup, seven shots, 600 yards, Lieut. Pain made a score of 34, and Staf.-Sergt. Hayhurst 35. Sergt. Broadhurst, in the Ind-Coope, seven shots, 600 yards, made a score of 34.

The team for competition for the Kolapore Cup to-day has not yet been chosen but the following are likely to be picked: Lieut. A. A. Smith Lieut. W. L. Ross, Capt. J. E. Hutcheson, Pte. J. McVittie, Sergt. J. Broadhurst, Col.-Sergt. H. C. Blair, Gunner W. Miller. Neither the commandant nor the adjutant will give any information on the subject.

Commandant Lieut.-Col. J. P. Cooke has read the rules to the team, instructing them to give no information to the press whatever, not even particulars of their own scores.

THE WALKERVILLE STRIKE.

Kerr Engine Co. Employes Have Joined Those of the Iron Company.

Windsor, July 15.—The employes of the Malleable Iron Company and the Kerr Engine Company, Walkerville, are out on strike. The trouble started with the moulders in the malleable iron works, who demanded a rise of 20 per cent. in the prices paid them. They sent a deputation to interview Manager Frees, but he told them that such an increase was altogether out of the question. He promised, however, to do something for them later on. The men were not satisfied with this and went out, taking with them the coremaker, laborers and others. The company expected the men back in a day or two and made no attempt to fill their places, although they had some large Toronto contracts on hand. Yesterday it was found necessary to transfer some of the work over to the engine works. As soon as this was done the men in the latter place struck work also. There are over 100 of the engine company's men out and 300 of the iron company's men.

WILL FIGHT HARD FOR CASSIAR.

Three Protests Already Entered in British Columbia Constituencies.

Winnipeg, July 15.—Protests have been lodged to void the election of Dean in North Yale, Ellison in East Yale, and Kelly in Revelstoke. Bribery and corruption in each case are alleged. The Opposition are preparing to make a hard fight for Cassiar, where the election is yet to be held. Messrs. Sword and Brown going up as nominees of the straight Opposition party and D. W. Higgins an independent.

Smallpox in Manitoba.

Whitewater, Man., July 15.—A terrific storm passed over here at 9 o'clock last night. Fred. D. Peters, C.P.R. agent, was struck by lightning and his right leg paralyzed.

George Urquhart, formerly porter at the Fort William Hotel, committed suicide at Scribner by jumping from the trestle bridge.

Malcolm McLeod, a farmer from the Territories, charges Moses Carroll with robbing him of $70. Carroll, it is alleged, got into the old man's confidence and stole the money while he was asleep.

The last batch of Galician settlers to arrive in the province were run through the city to the Stonewall district. Five cases of smallpox have been found among them and the whole party of Galicians are now dwelling in tents [illegible]

Perfectly Cured

Weak and Low Spirited—Nervous Prostration—Appetite Poor and Could Not Rest.

"I take great pleasure in recommending Hood's Sarsaparilla to others. It has been the means of restoring my wife to good health. She was stricken down with an attack of nervous prostration. She suffered with headaches and her nerves were under severe strain. She became very low spirited and so weak she could only do a little work without resting. Her appetite was poor, and being so weak she could not get the proper rest at night. She decided to try Hood's Sarsaparilla, as we had heard it highly praised, and I am glad to state that Hood's Sarsaparilla has perfectly cured all her ailments." G. THE FARMERS WELL LOOKED AFTER.

The Canadian farmer has little ground for complaint as to the quantity or character of the official publications issued for his benefit from either Toronto or Ottawa. The latest blue book, the report of the Dominion Commissioner of Agriculture and Dairying, is issued as an appendix to the report of the Minister of Agriculture, and the Globe remarks makes a bulky volume and one which should prove of considerable value to progressive farmers. It may be obtained free from the Department of Agriculture at Ottawa or through members of Parliament. Professor Robertson in his introduction touches upon the necessity of progress in every branch of agriculture, and the various sections of this report are straight in line with his views of the direction Canadian agricultural progress should take. The summaries of dairying service in the Provinces show what has been done in carrying on experimental dairy investigations in recent years, in the promotion of winter dairying, combination cheese and butter factories, co-operative dairying, etc. The problems of transportation and exportation and dealt with at length in the parts devoted to cold storage, trial shipments of fruit, eggs and poultry and the production of pork. A vast amount of information on the methods of preparing farm products of various kinds with a view to attracting the trade of the British consumer and retaining it is presented, the educational effect of which will doubtless reach to every part of the Dominion. Dairy legislation, registration, numbers of cheese factories and creameries, financial statements, dairy bacteriology and reports of the assistant commissioner and agents in Great Britain add to the size and general utility of the publication.

EDITORIAL NOTES.

LAURIER and Mulock are not the only ones to hit the mark in England. The Canadian boys at Bisley are "getting on to" John Bull's eye in fine style. The crack shots of the Bisley contingent are holding their own with their insular competitors.

THE London Daily Mail of July 1, says: "To-day is Dominion Day—the thirty-first birthday of the Canadian Confederation. The Daily Mail tenders its heartiest congratulations and good wishes. The Mother Country is proud of all her children, but of Canada most of all."

The Ottawa newspapers are at a deadly circulation war. If these same papers devoted the energy they expend in concocting bluffs, to the collection of news, the public demand would be appreciably increased. The people want news in a newspaper. The larger the circulation the better, but that wont be large long if the news is not supplied. Presentation of news is a better bonus to induce subscription than cheap silverware.

THE Independent Order of Foresters have mad an innovation which puts in peril their right to their distinctive name as an order. At the session of the High Court I.O.F. Lodge in Winnipeg on Wednesday, a report was brought in by the Committee on Constitutional Laws, that ladies be admitted to the order as members. A vote was taken, and it was carried by a large number of yeas.

DON'T, says the Dundas Banner, let any Tory newspaper run away with the idea that because some outspoken Liberal journals do not hesitate to criticise the growing expenditure under a Liberal administration, this means a desire for the return of the Tories to office. Heaven avert such a calamity. The country had eighteen years of Tory Government, and it would suffer a good deal before asking for a second dose.

THE manner in which the Drummond County Railway investigation has ended brings The Insurance and Financial Chronicle, a thoroughly independent and unimpassioned observer, which is published by a staunch Conservative and ex-candidate, to comment rather seriously upon the recklessness with which charges against members of the Ottawa Government have been made. "Such inquiries," it says, "tend to degrade us in the estimation of others, and the fear of being vilified and having unworthy motives imputed as the cause of activity in the performance of public duty, is calculated to keep many a good man out of the arena of politics."

BYSTANDER ON HAWIIAN ANNEXATION.

Bystander, Mr. Goldwin Smith, in the Farmers' Sun writes: The annexation of Hawaii by a vote of the American Congress without consulting the bulk of the inhabitants, is an act of high-handed contempt for public right, and is proclaimed as such with insolent exultation by the jingo press of the United States. It will probably be followed by other acts of "elevated philanthroy" if the jingo party party remains in power; but it is condemned and repudiated alike by the intelligence and the conscience of the best part of the American people. Mr. Cleveland, as we all know, opposed it, and it was furiously denounced by the jingoes for his want of patriotism; as though a statesman showed want of patriotism by doing what he sincerely believed to be the best for his country. It is satisfactory to see that one British journal of mark, the Manchester Guardian, is not swept away by the gush, but still upholds the principles, without which the world would become the prey of the strong.

The excuse for American jingoism is that it is liitte more than a very blatant and nauseous imitation of the jingoism of Europe. Not only the United States, but the world at large seems to be in process of re-alignment between two parties, one of which adheres to moderation and righteousness, while the other proclaims the re-livision of the earth among the possessors of ironclads. There is more of real affinity and of ground for general co-operation among the friends of moderation and righteousness in all countries than there is between them and the jingoes in any one country.

THE DEPARTING SPANIARD.

The matter of sending two members of the Spanish diplomatic service out of Canada is one of the most painful episodes of our recent history. This procedure was demanded by the United States at the hands of Great Britain, and by the Imperial Government at the hands of Canada. It is obvious that Canada must accept her foreign policy from Britain. If Britain insists on this at the hands of the Transvaal, an independent state, she will surely do so at the hands of a colony that claims her protection. The attempt, therefore, of certain party writers to affix odium upon Sir Wilfrid Laurier in this connection is contemptible. No one who has even a general knowledge of Canadians affairs will have any doubt how distasteful such an act must be to him. He is, however, ready to sacrifice sentiment to duty. As far as he was concerned the request of the Imperial Government made it duty. If our Conservative papers wish to denounce some one for this expulsion let them honestly denounce Lord Salisbury's Government and not the loyal and dutiful Canadian one.—Montreal Witness.

BINDER TWINE.

Where Raw Material for Twine Comes From.

Manilla "hemp" is secured from a species of banana native to the Philippines, the fibre being obtained by the natives scraping the leaves with a special knife requiring expert handling. It is one of the leading products of the islands, and is exported very largely to the United States, Europe and the Orient. Last year a total of 825,000 bales were shipped out. Measured in pounds, total imports in the United States, from the Philippines last year were 80,000,000 pounds. It is estimated that the present supply of Manilla hemp outside the Philippine Islands will be exhausted within three months, and cordage manufacturers fear that they will soon find themselves without raw material unless relief comes speedily. With the present general use of twine binders in the harvest fields, the obligatory return to the old-fashioned method of binding sheaves with straw would prove very burdensome to farmers. But this is only among the possibilities, and up to the present time we get no complaints of scarcity.

A Great Book Free.

When Dr. R. V. Pierce, of Buffalo, N.Y., published the first edition of his great work, The People's Common Sense Medical Adviser, he announced that after 680,000 copies had been sold at the regular price, $1.50 per copy, the profit on which would repay him for the great amount of labor and money expended in producing it, he would distribute the next half million free. As this number of copies has already been sold, he is now giving away, absolutely free, 500,000 copies of this most complete interesting and valuable common sense medical work ever published—the recipient only being required to mail to him, at above address, (31) one-cent stamps to cover cost of mailing only, and the book will be sent post-paid. It is a veritable medical library, complete in one volume. Contains 1008 pages, profusely illustrated. The Free Edition is precisely the same as that sold at $1.50 except only that the books are in strong manilla paper covers instead of cloth. Send now before all are given away.

16 BOATS LYING IDLE

Valuable Craft Tied Up on the Stikine River.

LACK OF A RAILWAY THE CAUSE

A Regular Forest of Smokestacks and Log Posts Along the Docks at Fort Wrangel—A Serious Matter for the Owners—Indians Who Made Their Pile.

Ottawa, July 15.—Mr. A. H. Taylor, customs appraiser, yesterday received a letter from his son, Andrew, at Fort Wrangel. The letter is most interesting, and is dated June 28th. Mr. Taylor says: "Since all the talk about a railroad has stopped the bottom has completely fallen out of the steamboat business on the Stikine. All the boats, with the exception of the Hudson Bay Co.'s, being tied up, there is a regular forest of smoke stacks and log posts along the docks. It is a great pity, for there are some very fine boats here tied up, sixteen altogether, and they cost from $85,000 to $50,000. I am afraid it will be a serious matter for the owners. The trail across from Telegraph Creek to Teslin Lake has not opened up yet, and I am going around by St. Michaels with Capt. Armstrong. Most of the people who came up here in the winter and spring are going back. There are always more people going south on the boats now than there are going north. This town has fallen flat, and I understand Skaguay and Dyea are just as bad. The Indians around here must have made their little pile last winter. They sold lots on the waterfront from $5,000 to $6,000 each, and they could be bought now for as many hundred."

General and Personal.

Ernest Donaghy, who resided with his parents on Slater street, died last night from the effects of the injuries sustained by being run over by an express wagon.

Sir Adolphe Caron has fully recovered from the accident that befell him a month ago in New York, and will return to Ottawa to-day.

The first fruits of the mining development on Grand Calumet Island passed through Ottawa yesterday en route to Belgium. A special train of fourteen cars, carrying 250 tons of galena ore, was brought down on the Pontiac & Pacific Junction Railway, and from here shipped to Montreal by a C.P.R. special, and was loaded on the boat being scheduled for Europe by the Furness Line on July 16th.

Captain McLean, who acted as A.D.C. to Major General Gascoigne, has been appointed to the permanent corps at Toronto, and will leave to assume the duties of his new post at the fort in a few days.

Hon. R. W Scott, Secretary of State, returned to the capital yesterday after a brief visit to the Maritime Provinces.

DANGEROUS DYSENTERY.

Have it checked and the inflammation allayed by Dr. Fowler's Extract of Wild Strawberry.

It is appalling how many people in the course of a year are hurried into untimely graves by an attack of dysentery.

It comes on so suddenly, its course is so rapid, its action on the system so weakening, its termination so quickly fatal, that any treatment must be administered promptly and the disease checked effectively at the outset. The only remedy that anyone would think of relying on in such an emergency as that, is Dr. Fowler's Extract of Wild Strawberry. For a generation and a half it has been curing all forms of bowel complaints of children and adults, and during that time has saved thousands of lives and many doctor's bills. Never be without it in your house. It's cost is trifling, only 35 cents, but the pain and weakness, yes, even death, it may save you from some day, or some of your family, is worth more to you than ten thousand times its price.

Mrs. Richard Gilbank, Coldwater, Ont., says: "I have used Dr. Fowler's Extract of Wild Strawberry and found it a reliable remedy for summer complaint, diarrhœa, dysentery and cholera morbus. I know it to be a grand remedy in the case of children and heartily recommend it."

Ribs Broken in a Runaway.

Belleville, July 15.—Mrs. A. W. Weese, wife of Capt. Weese of the 16th Batt., was badly hurt by a runaway near Rossmore yesterday. Several of her ribs were broken and she sustained other serious injuries.

About 200 negroes, who accompanied a trainload of racehorses bound for Montreal, rushed in a body into a hotel at the Grand Trunk yesterday evening, and in the confusion stole $10 from the till and some bottles of liquor.

German Government Out of It.

Berlin, July 15.—In response to an enquiry on the subject, the correspondent here of the Associated Press was officially informed yesterday that nothing, either officially or unofficially, is known by the German Government of the cruiser Irene's interference with the insurgents at Subic Bay.

Friendship For Friends.

The dogs of Constantinople are the scavengers of the city. For this reason, as well as from innate humanity, the Turks are tolerant of them, although visitors to the city find them unamiable. As a proof of their intelligence and recognition of friends Major Johnson relates this experience of his own:

One evening I was walking with an English officer, when a dog came up and licked his hand. He told me to notice that she would follow us to the boundary of her district, as he had once petted her and she had never forgotten it. Exactly as he had said, she followed us a little way and stopped short in the middle of the street. She wagged her tail and looked wistfully after us, but did not stir when we called her.

A few nights afterward, returning alone to my hotel, I passed the same spot, when I suddenly felt a cold nose put into my hand and a tongue licking my palm. I looked down and saw the same dog. She had recognized me as having been with her friend, the officer, and as before, she followed me to the boundary of her district.

A Siamese Punishment.

Another "decree of expulsion" has been issued by the king of Siam, this time against one of his own officials, Chow Pligh Rax, minister plenipotentiary, general adviser, etc., in which it said that "he shall be publicly stripped of his Siamese honors," that he shall then have his head shaved for the better preservation of his health, and "that he shall be, after the expiration of seven days, made to cut grass for the royal elephants for the rest of his natural life."—Advocate of India (Bombay).

Ask Your Doctor.

He will tell you that Scott's Emulsion cures poverty of the blood and debility of the nerves. He will say that it is the best remedy in the world for delicate children.

Your Pulse.

Is it regular in its beat, or is it weak and intermittent? A weak pulse indicates a weak heart. Milburn's Heart and Nerve Pills is the great remedy for weak, palpitating heart—makes them strong and steady.

Hagyard's Yellow Oil cures all pain in man or beast; for sprains, cuts, bruises, callous lumps, swellings, inflammation, rheumatism and neuralgia it is a specific.

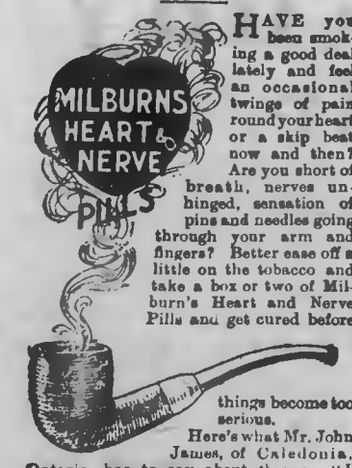
TOBACCO HEART.

HERE'S HOW IT CAN BE CURED.



HAVE you been smoking a good deal lately and feel an occasional twinge of pain round your heart or a skip beat now and then? Are you short of breath, nerves unhinged, sensation of pins and needles going through your arm and fingers? Better ease off a little on the tobacco and take a box or two of Milburn's Heart and Nerve Pills and get cured before things become too serious.

Here's what Mr. John James, of Caledonia, Ontario, has to say about them: "I have had serious heart trouble for four years, caused by excessive use of tobacco. At times my heart would beat very rapidly and then seemed to stop beating only to commence again with unnatural rapidity.

"This unhealthy action of my heart caused shortness of breath, weakness and debility. I tried many medicines and spent a great deal of money since I became aware of my condition, but could not get any help.

Last November, however, I read of a man, afflicted like myself, being cured by Milburn's Heart and Nerve Pills. I went to Roper's drug store and bought a box. When I had finished taking it I was so much better I bought another box and this completed the cure. My heart has not bothered me since, and I strongly recommend all sufferers from heart and nerve trouble, caused by excessive use of tobacco, to give Milburn's Heart and Nerve Pills a fair and faithful trial."

Price 50c. a box or 3 boxes for $1.25, all druggists. T. Milburn & Co., Toronto, Ont.

DU BOSE'S JOKE.

Carranza Represented at the Steamer by a Substitute.

Montreal, July 15.—There is no doubt now whatever but the United States detectives have been imposed upon, and Lieut. Carranza did not leave. His place was taken by a man resembling him, who wore a false beard, and all the newspaper men watching the Ottoman were equally deceived.

Mr. Wilson of the firm of St. Pierre, Pelissier & Wilson, who looked after the Spanish interests here, accompanied Du Bose and the supposed Carranza to the boat, and when they arrived in the cabin of the boat Du Bose pulled off the false beard from his companion, and said with great laughter: "Behold Mr. Carranza."

It is now said that Carranza himself had his beard shaved off when he turned up at the Windsor, and that it was he who went to the boat with a false beard.

Where Carranza is is still a mystery.

Trials of Translation.

English critics say that recently fate gave evidence of more than usual intelligence in the office of a Parisian journal. The Parisian editor saw a London critic's appreciation of Anna Thibaud, whose songs are as pointed and flowery as her "rosebud" slippers. The Londoner wrote that "mademoiselle's feet were incased in fairy boots." The Parisian set himself diligently to work with his dictionary, and soon had it correctly translated, we presume, but when it appeared in print instead of reading that mademoiselle's feet were incased in "bottes de fee," it said they were incased in "pots a fleurs" (flower pots).

An ordinary cough or cold may not be thought much of at the time, but neglect may mean in the end a consumptive's grave. Dr. Chase's Syrup of Linseed and Turpentine will not cure consumption when the lungs are riddled with cavities; but it will stop the cough, will cure consumption in its early stages, and even in its last stages gives such relief as to be a perfect Godsend to those whose lives are nearing a close.

HIGH AND LOW.

The Fluctuating Wheat Markets and the Causes Which Puzzle the Boards These Days—Prices.

Thursday Evening, July 14.

Decreases in receipts of new wheat at western points, as compared with the same period last year, and predictions of wet weather in the harvesting sections, caused the Chicago market early in the day to exhibit marked firmness. Encouraging reports from threshing regions later led to a falling off of 1¼c in the July delivery and of ⅛c to ¼c in the September and December options. Before the close the news that 40 loads of wheat had been taken at New York for export caused a rally. July closed ⅝c per bushel below and September and December ¼c to ⅝c, respectively above yesterday's final figures.

On the Liverpool board to-day July wheat closed ⅜d, September ⅝d and December ½d below yesterday's final figures. This was a holiday in Paris.

At Toronto new wheat was to-day quoted at 68c north and west, old red winter at 80c afloat at Montreal and No. 1 hard Man. at 97c afloat at Fort William.

Toronto Grain and Produce.

Flour—Dull. Straight rollers, in barrels, middle freights, are quoted at $3.80 to $4.

Wheat—Red winter to-day sold at 80c afloat at Montreal, and 68c north and west is a price for new wheat. No. 1 Manitoba hard, $1.04, Toronto and west.

Oats—White quoted at 25c high freights.

Barley—Nothing doing and prices nominal.

Bran—Sells at $9 west and shorts at $12.50 west.

Corn—Canadian, 33c west and 39c on track here.

Buckwheat—Nominal.

Peas—Quoted around 50c, high freights.

Oatmeal—Car lots of rolled oats in bags on track at Toronto, $4; in bbls., $4.10.

Toronto St. Lawrence Market.

Receipts of farm produce were larger to-day.

Oats easier, 400 bushels selling at 30c to 31c.

Hay plentiful, 30 loads selling at $8 to $9 per ton for old and $6 to $7 per ton for new.

Straw sold at $5 to $6 per ton for five loads.

Dressed hogs—Deliveries light; prices firm at $6.75 to $7 per cwt.

New potatoes plentiful, selling at 80c to 90c per bushel.

Butter firm at 15c to 16c for pound rolls.

Eggs firm at 13c to 15c per dozen for strictly new laid.

Poultry deliveries fair, prices unchanged.

Toronto Live Stock.

The run of live stock was large for Thursday, 45 car loads, composed of 850 cattle, 400 sheep and lambs, 800 hogs and 50 calves.

The fat cattle offered were of fair average quality generally speaking. Exporters and butchers' of choice quality were firm at Tuesday's quotations.

Exporters sold at $4.50 to $4.75, with a few extra choice lots at 10c more per cwt., the bulk going at $4.60 to $4.70.

Export bulls scarce and selling at $3.50 to $4.

Choice picked lots of butchers' cattle sold at $4.25 to $4.35; loads of good, $4.15 to $4.20; medium, $3.85 to $4; common, $3.30 to $3.60; inferior, $3.12½ to $3.30, and very inferior rough cows and bulls at $2.85 to $3. Loads of good butchers' and exporters' mixed sold at $4.25 to $4.35 per cwt.

Prices were unchanged for milk cows, of which there were about eight on the market.

Heavy feeders were firmer and sold at $3.50 to $3.75 per cwt.

Buffalo stockers were a little firmer than on Tuesday, selling at $3 to $3.50.

Receipts of calves were not equal to demand. Prices firm at $4 to $6 each for general run, with choice heavy veals at $7 to $8.50. More good calves would have sold readily.

Sheep and lambs—Supply not equal to demand, with prices firm, and ewes selling at $4 to $4.25, and bucks at $2.50 to $2.75 per cwt.

Spring lambs sold at $3.50 to $4.25 each, or, in other words, $5 to $6 per cwt. More good lambs would have sold.

Receipts of hogs were not large, 800 selling at $3.87½ to $3.90 for best selections, unfed and unwatered off cars; light fats, $3.90 to $4; heavy fats, $4.75.

Chicago Live Stock.

Chicago, July 14.—Hogs—Receipts to-day, 24,000; left over, 9000; market fairly active, 5c to 10c lower; light, $3.70 to $3.95; mixed, $3.80 to $4; heavy, $3.80 to $4.05; rough, $3.80 to $3.85. Cattle—Receipts, 9500; steady to stronger; beeves, $4.20 to $5.35; cows and heifers, $3.50 to $4.75; Texans, $3.40 to $4.05; stockers and feeders, $3 to $4.80.

Cheese Markets.

Barrie, July 14.—At the meeting of the cheese board here to-day there was a good attendance of both salesmen and buyers; 2886 boxes of cheese, all colored, and principally last of June, were on the board, and the market was decidedly stronger and active, all being sold at prices ranging from 7⅝c to 7¾c, the ruling price being 7 7-16c. Six buyers were in attendance. Factorymen complaing of the great drought prevailing over the entire district and are unanimous in their opinion that a light make of cheese for the balance of the season will follow. The board adjourned to meet on Aug. 4, at 1 o'clock.

Kingston, July 14.—At the cheese board to-day 1200 colored and 500 white boarded. Sales: a few at 7⅝c and balance at 7 9-16c.

Brockville, July 14.—At the cheese board to-day 53 factories offered 1503 white and 3920 colored, a total of 4923. About 400 sold at 7⅝c, balance at 7½c.

East Buffalo Cattle Market.

East Buffalo, N.Y., July 14.—Cattle—Receipts all consigned through to-day and nothing of note doing. Stockers and feeders—Receipts very heavy this week, both of Canadian and natives. Market dull and all of 25c lower for good to best lots and closed up fully 35c to 40c off for the only fair and common kind. Good to extra stockers, $3.75 to $4.15; common to good, $3.25 to $3.65; yearlings and calves, $4.15 to $4.40; feeders, good to choice, $3.75 to $4.10; do., common to fair, $3.25 to $3.65.

Hogs—Moderate. Good to choice yorkers, $4.12 to $4.15; prime light yorkers, $4.10 to $4.12; mixed packers' grades, $4.12; medium, $4.12 to $4.15; heavy hogs, $4.12 to $4.15; roughs, $3.35 to $3.50; stags, $2.75 to $3; pigs, $3.85.

Sheep and Lambs—Supply continues exceedingly light. Market for desirable handy grades was strong to higher. Choice to extra ewes and wethers, $6.40 to $6.65; buckey and fair, $6.75 to $6.25; culls, fair to good, $4.75 to $5.50; common to choice yearlings, $4.50 to $5.25. Native clipped sheep, choice to selected wethers, $4.65 to $4.75; fair to choice mixed sheep, $4.25 to $4.65; culls and common ewe sheep, $2.25 to $3.75.

A Durham Man's Deed.

Detroit, Mich., July 15.—At 11.30 last night George Lish of Durham, Ont, tried to cut his throat on Woodward avenue. He bled profusely, and was taken to the hospital, where he is resting quietly. He is 60 years of age. Yesterday he deeded his farm to his wife, and sent her $95, all the money he had, in a letter, stating his intention to kill himself.

THOSE PRICELESS BOXES

Of Dodd's Kidney Pills Cured Mr. Colwell of Bright's Disease.

Windsor, July 11th.—"Is it true, Mr. Colwell, that you have been cured of Bright's Disease by Dodd's Kidney Pills?" our reporter asked Mr. R. F. Colwell, jeweller, of No. 9, Oulette street, to-day.

"It is indeed," was the answer. "I suffered two years with Bright's Disease. My back ached all the time. I had awful, aching pains in my loins, a puffiness under my eyes, and my urine was very dark coloured.

"For a time I could find no remedy to do me any good. But one day a friend told me he had been cured of the same disease by Dodd's Kidney Pills. I bought a supply. A few boxes cured me thoroughly." Dodd's Kidney Pills cure all kidney complaints.

The Queen's Four Leaved Clover.

An amusing story of Queen Hortense, daughter of the Empress Josephine and wife of Louis Bonaparte, king of Holland, has lately been told. After her exile from Holland the ex-queen sojourned for a time in a modest habitation near Constance, in Switzerland.

As her health was broken down by her troubles her physicians prescribed a visit to the mountains of Appensell, and the ex-queen, accompanied only by a reader or female companion and two or three servants, went to a rustic neighborhood in the hills. There she and her companion found nothing better to do than hunt for four leaved clover and became quite excited in the search.

"To lend the matter interest," the queen wrote in a letter which has been brought to light, "we would assume that each discovery of a four leaved clover had some prophetic significance. The next one, if found so and so, meant that we should return to France; another meant that I was to receive a letter the next day from my son Louis, and so on. In this innocent pastime we found positively the only excitement that was open to us in the place.

"But soon it was noised abroad among the children of the neighborhood that we were continually hunting four leaved clover, and consequently, these children argued, we must want it very much. Then all the children and some of the grown people were out hunting four leaved clover, and soon great bunches of it were brought to us, for which we had to show ourselves very grateful.

"In another day our only resource for amusement was gone, for these kind but superserviceable people had stripped the neighborhood for a mile around of all its four leaved clover."

ASSURANCE CO.

OFFICE OF W. A. MURRAY & CO., 17 to 27 King St., East, Toronto.

Wm. McCabe, Esq., Managing Director, N. A. L. :

DEAR SIR :—In answer to your request for me to decide upon one of the following options offered me for settlement of my 15-payment Life Investment Policy for $5,000 which has matured this year, viz. :

1st, to take the value of the Policy in Cash $5,008 00

2nd, or fully paid-up insurance for 8,280 00

3rd, or take the profits in cash 2,060 25

and continue my policy without further payments being required from me, such policy participating in future profits.

I find it somewhat difficult to make a decision either of the three options being so satisfactory. I am certainly very much pleased with the results offered me, and as I find many others are giving full testimony to the profit-earning power of this company. I do not hesitate to give my endorsement as well, that the North American Life is one of our strongest Canadian institutions to day giving first class results on Investment Policies, on a safe and conservative basis. I find that my policy, which was originally a Life by fifteen payments, has become an Endowment at the end of the Investment period.

Fortunately he could swim and reached shore with no worse mishap than a wet dip.

Yellow Fever Outbreak is not Serious at Santiago—Martial Law Practically Declared in Spain — The Army Anxious to Resist to the Last.

Special 3 p. m. despatches to the Examiner

More U. S. Troops Landed.

London, July 15,—Madrid correspondent says: A despatch from Havana to El Imperial says, that 3,000 Americans have been landed near Cienfuegos under the cover of the guns of the U. S. cruiser Montgomery. General Torral cables that losses for the last few days have been four hundred killed, wounded and taken prisoners. He says he has 12,000 troops left in fit condition.

Rumours and Surmises.

Before Santiago, July 14, 12:15 p. m.—A commission of two Spaniards, one Englishman and three Americans is now arranging terms. There is an unconfirmed statement that the surrender and evacuation of the Spanish troops may extend to the entire Province of Eastern Cuba.

Spanish Prisoners Arrive.

Portsmouth, N.H., July 15—The United States vessel Harvard arrived in harbour this morning, having 8,00 Spanish prisoners on board.

A Mexican U. S. Spy at Madrid.

London July 15—A Gibraltar despatch tell a long story of a wealthy Mexican who turned out to be a confidential agent of the United States Government being lionized for six weeks at Madrid and Cadiz. He dined with Admiral Camara and inspected the fleet and the defences and in every way won the confidence of the officials, only to disappear the moment a warrant was issued for his arrest.

With Honours of War.

London, July 15.—The Daily Telegraph says: The terms of surrender are equivalent to marching out with honours of war. The most sensitive military pride may well be satisfied with this tribute to the respect in which the Spanish troops are held by their foe. All the morning papers are loud in their praise for the success of American strategy in securing possession eastern Cuba with so little bloodshed.

More Transports for Manilla.

Sanfrancisco, Cal., July 15.—The transports Peru and City of Pubelo will leave this port this afternoon for Manilla.

Practical Martial Law in Spain.

Madrid, July 15—The official gazette today publishes a royal decree temporarily suspending throughout the Spanish peninsula the rights of individuals as guaranteed by the constitution. The decree adds that the Government will render an account to Parliament of this measure. The publication of the decree is generally accepted as being convincing proof that Spain is now ready to sue for peace, and that negotiations to that effect are actually in progress. The Government wishes to have full power to suppress any evidence of discontent or rebellion whenever they appear. The

but the government cannot consent to such a useless sacrifice. Had we our fleet, the situation would be different.

Washington, July 15—The War Department has posted the following:

Few and Mild Cases of Yellow Fever.

Siboney, July 15—Only 23 new cases of yellow fever and three deaths reported within the past 24 hours. The type of disease is mild. Every precaution has been taken to prevent the spread of disease.

Spanish Conditions of Peace.

Madrid, July 15—The Minister of War, General Correa, is quoted as declaring in an interview that he thought peace might be arranged on the following terms: The United States and Spain to agree to let the Cubans decide by a plebiscite whether they desire independence or autonomy under the suzerainty of Spain, The two governments to agree to abide by the results of the vote, In the event of the Cubans voting for independence the United States to allow Spain nine months in which to withdraw her army gradually and dignifiedly from Cuba.

VISITING ODDFELLOWS.

A Rousing Meeting of Peterborough Lodge, No. 111. I.O.O.F.

Last evening there was a large attendance of Oddfellows at the regular meeting of the lodge, the occasion being the visit of about 20 members of Millbrook Lodge, who drove to town with six candidates to receive the third degree of Oddfellowship, by the Degree team of Peterborough Lodge.

It is unnecessary to say the work was well done, and the visitors were greatly pleased. After lodge closed refreshments were served and speeches made by Bros. Dr. Clarke, Dr. McKennie and Given and others, all expressing their pleasure at seeing the work so beautifully done. While it was pleasing to the older members it would create a lasting impression on the initiates. Bro. Ivory, of Pontypool Lodge, presided at the piano and accompanied himself on the mouth organ. It was after 12 o'clock when the meeting broke up. Members of the Millbrook Lodge say that the members of Peterborough Lodge are "all right."

A "Club Run" by Water.

The Canadian General Electric Works Bicycle Club will hold their annual picnic to Jubilee Point, Rice Lake, on Saturday, July 23rd, per steamer City of Peterborough. There will be a full list of sports, also dancing. The Works Football Club is open to meet any outside clubs that afternoon.

A Birthday Party.

A pleasant afternoon and evening was spent at the residence of Mr. and Mrs. A. O'Brien, of Elizabeth street, Ashburnham. Their eldest daughter, Miss Winnifred, celebrated her birthday, there being a large number in attendance. Among the many beautiful presents received were a silver knife, fork and spoon.—ONE OF THE GUESTS.

Missionary Rally.

A union meeting of the Epworth Leagues of the town will be held in the Charlotte street Methodist church on Monday evening, July 18th, at 8 o'clock. The object of of the gathering is to advance the interests of the "Forward Movement" in Missions. Rev. Mr. Emmerson, of the Victoria College, will give the address of the evening. All interested in missionary work are invited.

THE GOOD SAMARITAN IN STEAM-BOATING.

To the Editor of the Examiner:

On Wednesday when the City of Peterborough with the Bethany Mission excursion reached one of the landings, they found the steamer North Star stuck fast on a log. Seeing the steamer in such a plight, Captain M. Lane very magnanimously put about the City of Peterborough and throwing a line to the North Star, after some trouble pulled the steamer into deep water. As the current of the river is quite swift at that place it was a troublesome task, and took the City of Peterborough about an hour. Capt. Lane deserves great praise for his generosity for had he passed on it would have taken no little time for the North Star to free herself.

A PASSENGER.

AN ASHBURNHAM WEDDING.

Miss Susie Thompson and Mr. D. G. Hooey United.

At the residence of the bride's mother, Ashburnham, on Wednesday, the 6th, Mr. D. G. Hooey was married to Miss Susie Thompson, third daughter of the late Jas. Thompson, formerly of Perrytown. The ceremony took place in the presence of a number of friends of the bride and groom, and was performed by Pastor Zimmerman. Some beautiful presents testified to the esteem in which the bride was held. Among the gifts was a beautiful silver fruit dish, from the employees of J. C. Turnbull, also a fine set of table linen from Mr. and Mrs. J. C. Turnbull, and a fine upholstered chair from the bride's brother-in-law, Mr. W. J. Johnston.

Free Gift Excursion.

The ever-popular free gift excursion to Jubilee Point will be run again to-morrow afternoon per steamer City of Peterborough. Boat leaves C.P.R. wharf at 2 o'clock p.m., calling at Ashburnham. Return tickets 50c, children 25c.

PROHIBITION vs. LICENSE.

To the Editor of The Examiner:

DEAR SIR,—In the next few months we will hear a good deal about the non-enforcement of prohibitory laws and the failure of the Scott Act. As we consider these things I hope we will not forget the non-enforcement of our license laws. We might refer the public for an illustration to the late Wheelmen's Meet. At that time great preparations were made to accommodate the crowd, and our hotel friends did not forget to make arrangements for a big sale of liquor, even going so far as to have, in some cases, more than one bar, and to sell all night for two or three nights.

Now, I would ask if our license laws could be violated in any more contemptible way than that? In addition what pains me most is to know that these things were done with the full knowledge of the following officials of our loyal town: the Mayor, at least one of the License Commissioners, our License Inspector, and the police. Any, or all, of these men should have stopped such open violation, or have punished the offenders. We will see what they will do. In addition lager beer was openly sold at or near the wheelmen's racing track.

It is to be hoped that all Christian and temperance men will attend the convention in the Y.M.C.A. Hall next Wednesday, (July 20th), to devise means for getting out a full vote for the plebiscite on prohibition convention in the Y.M.C.A. hall at 2 p.m.; mass meeting in St. Andrew's church at 8 p.m.

Yours truly,

THE "SAND-BANKS" SUMMER RESORT.

A POPULAR PLACE FOR THE HEATED SEASON.

A Brief Description of its Beauties and Attractiveness—Excellent Hotel Accommodation—The Comforts and Conveniences of the Lake Shore House—An Unique and Charming Watering Place.

The Sand-Banks is becoming so popular amongst the citizens of Peterborough as a summer resort of late years, that a short description of the attractions which it holds forth to the summer tourist may not be considered untimely. There are three hotels at the Sand Banks, the most popular and largest by far being the Lake Shore House, which is owned by Messrs. McDonald & Hyatt. This hotel is situated on West Point, which is a pretty little peninsula, covered with shade trees and verdure, stretching out into Lake Ontario from the shores of Prince Edward County. The sand banks lie behind the hotel and along the shores of the lake to the north. Out of the barren waste of sand West Point stretches like an oasis in the desert.

Although the spot would be a pretty one in any event, the sand banks are its great attractive feature. Hills, nay, mountains of sand, almost as white as snow run parallel with the shore and inland for miles. The little ones never grow tired of playing in it and at times their elders yield to its mysterious fascination and can be seen enjoying themselves with the youngsters. The sand, of which the hills are composed and from which the spot derives its name, is washed up on the shore by the waves and then blows inland. Nowhere else is sand of the same quality to be found. Its cleanliness is proverbial and the whitest of frocks cannot be soiled by contact with it. A favourite pastime with the children is to allow themselves to be buried to the neck in the sand and then arising to free themselves of every particle by one quick movement.

A bowling alley, billiard room and large dance hall are amongst the other attractions, whilst the bathing facilities are

UNSURPASSED IN CANADA.

the beautiful sand beach being all that can possibly be desired in this respect. The fishing and boating are also excellent. Two fine tennis courts have been laid out; and the girls of several families of Americans who are spending the summer at the Banks are having great fun just now playing basket ball.

The Lake Shore House is a commodious frame structure, three storeys in height, entirely surrounded by spacious piazzas for every flat. All modern conveniences have been introduced and the cuisine and general attention to guests is above reproach.

The spot is accessible in several different ways. From the west and north tourists go to Trenton by the Grand Trunk and are transferred to the Central Ontario Railroad. In an hour they are in Bloomfield where a carriage is in waiting if notice has been sent to the hotel a few days previous. It is a beautiful drive of seven miles from Bloomfield to the Sand Banks. Tourists from the east generally go to Picton by boat and take the stage from that town to the Banks at three o'clock in the afternoon. The distance is twelve miles but no one minds this as the roads winds through the most fertile farm lands of Prince Edward county, which is famed for its fruits and its natural scenery.

During a brief stay at the Lake Shore House, the writer was made to feel so much at home by the proprietors that it would be discourteous not to pay a short tribute to the success which has attended their efforts to please their guests. No one who has ever spent a summer at the Banks has been given any cause for complaint, and "Uncle John and "Mac" leave no stone unturned to secure the comfort and pleasure of their summer visitors. —COM.

ST. LUKE'S SUNDAY SCHOOL PICNIC.

A Delightful Day's Outing—Record of Successful Contestants in the Sports and Games.

The annual picnic of St. Luke's church was probably the most successful outing of the Sunday school for many years. There was a very large turnout of both parents and children; all appeared to thoroughly enjoy themselves, and Mr. Harry Adams, the treasurer of the school, will rejoice in a substantial surplus of receipts over expenditure. The officers of the City of Peterborough by their courtesy and consideration, are deserving of thanks, and especial recognition must be made of the untiring efforts of Mr. Thos. Quartermain to render the day successful.

The following races were run off at Jubilee:

Girls under eight—Hazel Craig, Kathleen Long.
Boys under eight—Fred Graham, Ernest Dummitt.
Girls under ten—Lillie Scott, Clara Adams.
Boys under ten—Archie Craig and Fred Hickey, (tie.)
Girls under twelve—Ella Ray, Rossie Bennett.
Boys under twelve—Sam Long, Vernon Dawson.
Girls under fourteen—Sarah McGregor, Ella Ray.
Boys' under fourteen—Sidney Gibbs, Clarence Thompson.
Girls under sixteen—Addie Armstrong, Alice Scott.
Boys' under sixteen—Harold Graham, Bob Long.
Boot Race, boys—Achilles Turner.
Boot Race, girls—Maud Long.
Boys three-legged Race—Bob Long and Geo. Chrowe.
Young women's race—Edith Beattie, Mabel Scott.
Men's race—Reginald Turner, R. H Leary.
All fours—(special prize by Mr J J Turner)—Bob Long, Sid Tivey.

The prizes were distributed on the return home by the superintendent, Mr. David Spence. Good music was discoursed on the homeward journey, and some recitations were charmingly given by Miss Carrie White. On entering Little Lake, "Auld Lang Syne" was heartily sung, followed by the national anthem.

Three cheers, with musical honours, were given for Rev. H. Symonds, and the large party that remained after the Ashburnham people had disembarked, went on to Peterborough singing "Good-night Ladies."

An End to Bilious Headache.

Biliousness, which is caused by excessive bile in the stomach, has a marked effect upon the nerves, and often manifests itself by severe headache. This is the most distressing headache one can have. There are headaches from cold, from fever, and from other causes, but the most excruciating of all is the bilious headache. Parmelee's Vegetable Pills will cure it—cure it almost immediately. it will disappear as soon as the pills operate. There is nothing surer in the treatment of bilious headache.

Walking on Air.

The feeling of buoyancy produced by the action of Dr. Ward's Blood and Nerve Pills is remarkable. One feels bright and active, energetic and full of snap and vim. Rich red blood fills the veins, and the nerves tingle with the sensation of youthful life and vigor.

TREMBLING HANDS AND SHAKY MEMORY.
A HAMILTON MAN'S EXPERIENCE WITH A NEW MEDICINE.

DEAR SIRS,—
I have spent half a fortune in doctors' bills, all to no avail. These Pills seemed to reach the seat of disease at once, and they also seemed to possess a remarkable influence over me. The violent palpitation of the heart, the trembling of the hands, the loss of masculine vigor, the frightful dreams, the loss of memory and general collapse of the entire system, have yielded to Dr. Ward's Blood and Nerve Pills. Great were the results from the use of four boxes of these Pills. I am enjoying the very best of health. I fully believe they are able to do for others as much as they have done for me. Before using them I was a miserable wreck. To-day I am a well man.

Yours truly,
THOS. FLYNN, 51 Elgin St., Hamilton, Ont.

Dr. Ward's Blood and Nerve Pills are sold at 50 cents per box, 5 boxes for $2.00, at druggists, or mailed on receipt of price by The Dr. Ward Co., 71 Victoria St., Toronto. Book of information free.

PRIMITIVE ANCHORS.

STONES AND WOODEN TUBES FILLED WITH LEAD FIRST USED.

The Earliest Anchors Made on the Hook Principle Had Only One Fluke—Crude Devices That Are Still Used In Different Parts of the World.

There appear to be two ideas which have led up to the invention of the modern anchor: (1) the idea of attaching the vessel by means of a rope or chain to a weight sufficiently heavy to keep the vessel from moving when the weight has sunk to the bottom of the sea, and (2) the idea of using a hook instead of (or in addition to) the weight, so as to catch in the bottom. The English word anchor is practically the same as the Latin ancora and the Greek angkura, meaning "that which has an angle," from the root ank, bent.

The earliest anchors made on the hook principle probably only had one fluke instead of two. In the "Sussex Archæil. Coll." there is an illustration of what has been surmised to be an anchor made out of the natural forked branch of a tree. It was found with an ancient British canoe at Burpham, Sussex. There is in the British museum an interesting leaden anchor with two flukes bearing a Greek inscription. Its date is about 50 B. C. and it was found off the coast of Cyrene.

The invention of the anchor with two flukes is attributed by Pausanius to Midas, by Pliny to Eupalamas, and by Strabo to Anacharsis. Diodorus Siculus states that the first anchors were wooden tubes filled with lead, while another classical writer says that before the introduction of metal anchors lumps of stone with a hole through the middle for the attachment of the cable were used.

The form of the anchors used by the Greeks and Romans is well known from representations on Trajan's column and in the catacombs at Rome as an early Christian symbol. This form does not seem to have changed materially for quite a thousand years, as is shown by the Bayeux tapestry.

Some very primitive kinds of anchors are in use at the present day in different parts of the world, and a study of their construction may throw some light on the evolution of the modern anchor.

An anchor which came from Japan consists of a natural forked branch of a tree, slightly improved artificially, so as to make a hook. Two round bars are fixed at right angles to the shank, and to these two ordinary beach pebbles are tied. The length of the anchor is 2 feet 3 inches, the width across the hook 8 inches, and across the transverse bars 1 foot 5 inches. The stones are from 5 to 6 inches in diameter and 2 inches thick.

Another anchor was in use quite recently in the Arran islands, off the west coast of Galway. It is constructed of a sloping bar at each side and three crossbars, forming a figure not unlike the isosceles triangle in Euclid's pons asinorum. The lowest of the three crossbars is of square section and is fixed by iron spikes at each side to the sloping pieces so as to prevent them spreading outward. The stone, which acts as a weight, is slipped by means of the two side pieces, being held tightly by two spliced rings of rope passing under the upper crossbars.

These crossbars are of round section and project at each side, thus keeping the rope rings from slipping upward. The cable is fixed to the middle of the lowest transverse bar and is carried up on one side of the stone, then between the two sloping boards, and finally through a loop fixed to a hole at the top of the anchor. The boards at each side are 1 foot 10¾ inches long and the stone 1 foot 5 inches long.

It may seem strange that such primitive looking contrivances should continue to be used by fishermen who have a full knowledge of every modern appliance connected with navigation and vessels, yet there are good reasons why they should have survived. Where the sea or river bed is rocky anchors are easily lost. This is a serious matter when the anchor is of iron and of some value, but if it is constructed like those described there is not much difficulty or expense in replacing it. A beach stone and a few bits of wood are always at hand, and the skilled workmanship required to fashion them into a very serviceable anchor is but small.

Thus it is that under certain conditions primitive appliances must always hold their own against modern inventions. When, as often happens, a newly introduced contrivance gets out of order, it generally involves much greater loss of time and more expense to replace it than if it were of simpler construction and capable of being made by an ordinary workman out of materials easily procurable on the spot.

Highly civilized man has much to learn from his prehistoric ancestors and from uncultured races still existing as to how he should act in an emergency when deprived of his usual appliances. —Reliquary and Illustrated Archæologist.

An Army of Dragon Flies.

A professor of zoology at Lille, M. Charles Barrios, was making a tour through Morbihan, in France. As he was walking along the road he noticed that a multitude of dragon flies were alighting on the telegraph wires. The singular thing about it was that they all rested at an equal distance from each other, and all occupied the same position, with head turned toward the west.

From all sides the dragon flies arrived and always placed themselves in the same position and at the same distance from each other. They remained as if glued to the wire, motionless and paralyzed. Each new arrival flew over the fixed bodies of the others and took its place in the line.

This chain stretched itself out toward the west and turned toward the setting sun. Professor Barrios followed the route for a long distance and found the same strange phenomenon. He estimated the number at 60,000, at least. At an abrupt turn of the road to the south the telegraph line turned also. There not a dragon fly was in sight! The wire was absolutely free from them! With the change of direction it seemed to have lost attraction for them.

Was this chance? Did the electric currents running from the east to the west exercise any influence upon these insects? Was it the solar reflection? Explain it, who can. In any case it would be interesting to know whether this phenomenon be an isolated one or not.

Women Criminals In Austria.

In Austria, even for murder, a woman is never put into an ordinary prison, much less brought to the gallows. Whatever the crimes of which they are convicted, women are sent to the convents set apart for this purpose and are kept there as long as the judge determines.

The ladies superior have practically a free hand over their charges and receive from the government sevenpence a day for each criminal under their care. At Neudorf convent, which receives all the female offenders from Vienna, there is nothing in the appearance of the place to suggest a prison.

The courtyard stands open all day long, with only a nun as a doorkeeper. Once inside, all the convicts are on the same footing. They are employed in the domestic work of the convent, and in making matches, buttons, needlework, embroidery, lace, woodwork, etc., superintended only by the sisters.

For work beyond their allotted task they are paid by scale—half the money being given them at the end of the week and half being placed to their credit until their term expires, when it is paid to them on leaving.

Bye-Election at London.

London, July 14.—A Parliamentary election was held in the borough of Gravesend yesterday to fill the vacancy caused by the resignation of Col. James Dampier Palmer. The result was the return of the Conservative and Union candidate, Mr. J. H. Dudley Rider, by a majority of 371.

A Fatal Wisconsin Fire.

Racine, Wis., July 14.—Fire yesterday completely destroyed the large three-storey structure of the Racine Malleable & Wrought Iron Company, resulting in a loss of $100,000, together with probably 10 to 11 lives and serious injury to a score or more of persons.

In a Critical Condition.

Three Rivers, Que., July 14.—Bishop Lafleche was considered to be in such a critical condition that the last sacrament was administered to him. His feeble state yesterday alarms the household, and fears are entertained that he will not linger longer than to-day.

A WET MORNING.

Bisley's Second Day Disagreeable—Canadians Are Doing Well.

Bisley Camp, July 14.—The weather was all against the shooting yesterday morning. In addition to the discomfort of rain, there was a nasty shifting wind which sadly interfered with the designs of the riflemen and proved fatal to good scoring.

Up to the present, Lieut. Smith's score in the Centaur competition is in the top of three ties. The other high scorers among the Canadians are McVittie, Blair, Hutcheson and Armstrong.

In the Thorburn, Blair and Simpson are well up.

For the Golden Penny prizes Davidson, Hayhurst, Hutcheson, Simpson, Swaine, Cooper, Broadhurst, Morris and Blair are among the leaders.

For the 200 yards Association Cup, Robertson, Blair, McVittie, Ross and Hutcheson made good figures, while for the 600 yards Association Cup Ross and McVittie are in the lead.

The team will continue to fire in these or similar competitions to-day, and on Friday they will compete in the first big event of the meeting for which they are eligible, viz., the Kolapore Cup, which last year was won by the team representing the colony of Victoria, Australia.

A WINDSOR JEWELLER.

Cured of Bright's Disease by Dodd's Kidney Pills.

Windsor, July 4th.—(Special despatch)—"If the United States army had taken a supply of Dodd's Kidney Pills to Cuba it would have been able to withstand the ravages of disease arising from the drinking of bad water," said a promident physician to-day.

"Dodd's Kidney Pills he continued, are the greatest life savers in the world. I know a score of persons whose lives they have saved.

"Right here in Windsor Mr. R. F. Colwell, the Oulette street jeweller, has been cured of Bright's Disease by them after two years' suffering. I use them in my practice, and can cure the worst case of Bright's Disease, Diabetes, or any other Kidney complaint with them."

Gold Mining In San Francisco.

For over 17 years a gold mine has been worked right in the city of San Francisco. How much gold has been taken out none but the two miners themselves can say. One of them is supposed to be on his deathbed, and the other one disappeared on the day that his partner had to be taken to the hospital and the secret of their mine became generally known to the community.

Nelson Shoots, the discoverer of the lead, found the mine over 17 years ago while trying to locate the fountain of the gold dust found along the beach. He was a practical miner at the time and well versed in all the secrets of getting all the gold possible out of refractory ores.

That he succeeded in doing this in his Ingleside mine there is no question, for not only did he make a good living during the 17 years, but he paid $8,000 damages once for injuring the Spring valley water main while blasting. He and his partner lost large sums of money at the race tracks, and they were known as "spenders" among the resorts in the western side of the city. All the while they passed as hermits, with barely enough to live on.—San Francisco Call.

The door of health stands open to every woman who will enter. All that she needs is the key and a little knowledge. The knowledge that she needs is concerning her own nature, her own physical make-up and the principal cause of ill-health in women.

When a woman suffers from headaches and pains in the back and sides, and burning and dragging sensations and the weakness, nervousness and despondency that are caused by diseases peculiar to her sex, she cannot enjoy good general health. The key to the door of health—the cure for all disorders of this description—is Dr. Pierce's Favorite Prescription. It is a medicine specially devised for disorders of this nature and no other. It is the invention of an eminent and skillful specialist, Dr. R. V. Pierce, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. When a woman writes to Dr. Pierce she consults a physician who has practiced for thirty years right in one place, and who was some years ago honored by his own townspeople by an election to the National Congress. He will answer letters from women free of charge. All professional correspondence is regarded as sacredly confidential.

"For years I kept failing in health and getting worse and more nervous all the time," writes Mrs. Annie Dulan, of East Stroudsburg, Monroe Co., Pa. "I doctored with two different doctors without relief. My system was run down and my nerves weak. I had ulcers of the uterus which were so painful at times that I was afraid they must be cancers. I felt discouraged and did not get any better until my nurse advised me to write to Dr. Pierce. In May I commenced taking Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery.' I took twelve bottles in all, six of each. Thanks to God and Dr. Pierce's medicines, I am cured and am a well woman."

TOMORROW.

A fond, doting mother, with eyes full of love,
Said, "Charley, oh, do pray tonight,
And the angels will come on their shining wings
To cause you sweet dreams of delight."
"Oh, mother," he cried, "I am weary and sad,
But tomorrow, dear mother, I will."
Alas, alas, that night was his last!
Tomorrow he was pulseless and still.

An old man lay on his narrow couch,
And fever was racking his brain.
"Pray God to forgive you," his pastor would say,
"For the penitent's prayers are not vain."
"I am better, much better," he breathed in reply.
"Tomorrow"—and here he loud sighed—
"Tomorrow I'll ask"— No more could he say.
With the sentence unfinished he died.
—Finley Johnson in New York Ledger.

FOR HIS SAKE.

The twilight had deepened into darkness, and the fire was very low, but the red glow from the embers revealed the solitary inhabitant of the room sitting in an attitude of hopeless dejection. There was silence save for the ticking of the old grandfather's clock, and to Colonel Dalmaine the pendulum seemed to beat out the refrain that was echoing in his own mind, "Five hundred pounds, five hundred pounds!" Presently a red-hot coal fell from the grate and threw a faint flicker on the writing table, upon which was a photograph of a very lovely girl in a silver frame.

"Oh, beauty!" said the colonel, with a long drawn sigh, and a softened expression of infinite pity came over his rugged features as he looked at the beautiful girlish face. "Oh, beauty, my heart's dear queen!" And then a sob broke the stillness of the room, and Travers Dalmaine bowed his head on his hands and gave himself up to a paroxysm of silent agony.

Just at this minute the heavy oak door was pushed noiselessly open and a small figure softly entered the room and crossed to the writing table. A little hand was laid on the colonel's arm and a little voice announced, "Chappie's here!" and then Dalmaine raised his head, and the firelight danced with glee, for the sad face now beamed with love and tenderness as he put one arm round the little lad at his side and murmured, "Chappie, my beauty's little boy."

"'Es, Chappie's tum. What for oo kwy?" demanded the baby voice, and then, catching sight of the silver frame, he added, softly, "Chappie's movah—Chappie's booful movah!"

Then the little lad climbed on his father's knee and demanded a story. And hand in hand Dalmaine wandered with his little son through the delightful mazes of fairyland, forgetful of the overwhelming weight of trouble that had come upon him.

As they sat thus the library door opened and let in a flood of light from the hall. It fell on the curly golden head that nestled near the iron gray one, on the sweet baby features and on the man's rugged, sun tanned face. It was a touching picture that would have appealed to any woman's heart, and a little gleam of the sleeping womanhood in Beauty Dalmaine awoke as she paused on the threshold and watched her husband and her little son. Both turned, and then the child ran forward to greet the beautiful young mother, but she drew back, saying, "Be careful, child; you will crush my dress," and then daintily gathered up the shimmering satin train. But there was an ache in the heart of the loving little lad as he gazed at the faultless face above him, and then a kind hand was laid on his head, and his father said:

"You must run away now, Chappie. I want mother. Good night, my son," and he stooped and kissed the sorrowful little face with all the tenderness of a woman.

"Fardie wants Chappie's movah," the child repeated to himself as he ran up the stairs, and then the library door closed, and the husband and wife were alone.

"You'll be brief, Travers, because I have an engagement," the cold, clear voice rang out.

"To-night your engagement must fall through. I have much to say, and I must say it now."

The colonel spoke with decision, and it was hard to believe that he was the same man who had just been telling Chappie such wonderful fairy tales. The tender smile had vanished, and his usually stern face had assumed its severest expression.

"Pray sit down," he continued, pushing a chair toward his wife, but Beauty Dalmaine remained standing.

"Nonsense, Travers. I can't postpone tonight's engagement. We are going to the play. Sir Arthur has had the greatest difficulty in getting the seats, and as he has taken so much trouble I cannot put off going."

"There are worse faults that can be laid at your door, my child," her husband replied gravely. "You owe some obedience to your husband, and tonight I wish that you remain at home. I will send an apology to Sir Arthur." And so saying he rang for the lights and sat down to the writing table.

When the note had been duly dispatched, Colonel Dalmaine turned once more to his wife. She looked wonderfully beautiful, but it was the beauty of a statue. Her expression was cold and proud, and her attitude was one of haughty defiance. The severity died out of Dalmaine's face and gave way to a softer expression as he spoke.

"Did you hear what the little one said? 'Fardie wants Chappie's mother.' That is just it. I want you, beauty. I want a little of the wifely love and tenderness that is my due. Wherever I go I hear of Beauty Dalmaine's loveliness, of her sweetness, of her talents. I am the envy of all men, but if they only knew—if they only knew—that that sweetness is reserved for any one but her husband, that those talents are not used for the beautifying of her home, but to lure on other unfortunate men to the same abyss that was my fate; that her beauty, instead of being my pride and joy, is the cause of my most bitter misery! My child, I have excused you, even to myself, and have, moreover, blamed myself in a great measure that my love should not satisfy you. Perhaps I did wrong to marry you, a mere child in comparison with myself, but I loved you. Beauty, and I cannot see you rushing on headlong to your ruin without putting every obstacle in your way. Your name, the name of Beauty Dalmaine, my peerless wife, is on every tongue in London. Am I to stand that? Am I to let the name of the woman whom I chose from among all others to make my wife—am I to let that name be dragged in the dust? Is the mother of my son to be the plaything of these empty headed society men? What am I better than a brute if I stand by without interfering? You shall not drag my name and honor in the dust. Your insane vanity, which is leading you into all sorts of difficulties, must be curbed. Today I have a bill for £500 from your dressmaker. There was a time, child, when to please me seemed your greatest pleasure. That time has passed. But what have I done to forfeit your love? I have done my utmost to make you happy, and yet how I've failed!" And Travers Dalmaine drew his coat sleeve across his eyes, and there was silence for the space of a minute.

During this speech his wife had stood motionless, her eyes downcast. She was very pale, but otherwise showed no emotion. Presently he spoke again, but his voice sounded husky and far away.

"Beauty," he cried, "for my sake pause in your mad career, or if not for mine for Chappie's."

Surely that appeal would have touched any mother's heart, but Beauty Dalmaine heard it unmoved. She slowly crossed to the door, and turning she looked defiantly at her husband, and her voice rang out with metallic clearness as she said:

"I have listened to you patiently. Now I am going to the play with Sir Arthur Maynard." And then she vanished, and like one stunned her husband remained vacantly gazing at the door through which she had disappeared.

But Beauty Dalmaine did not go to the play that night. When she left the library, she slowly ascended the stairs with the intention of fetching a fan from her room. The servants were all at supper, and the house was very still, when suddenly a small voice broke the stillness, "Chappie wants movah!" followed by a sound of sobbing.

Beauty paused. The sobs continued, and again the little voice called: "Chappie wants movah! God send Chappie's movah!"

Swiftly she flew down the passage and entered the nursery. The little lad's prayer had not been in vain. God had heard it and used it as an instrument to unlock the mother's heart. In a few short seconds Chappie was in his mother's arms. The costly satin dress was forgotten, and freely her tears were mingling with his own. For the first time in his baby life he tasted the joys of a mother's love. Hitherto she had only been a beautiful, unapproachable dream. Now she was a living, loving reality.

An hour later, with weary footsteps and an aching heart, Travers Dalmaine climbed the nursery stairs, and on the threshold a beautiful picture gladdened his sorrow laden eyes. By the cot of their sleeping child knelt Beauty Dalmaine, her lovely face illumined with the light of the newborn mother love and her hands clasped in prayer. Softly her husband crossed the room and laid his hand tenderly upon her head, while she raised her dark eyes to his and still kneeling said:

"Travers, my husband, forgive me. I meant to go, but Chappie wanted me, and when I heard him say so there suddenly flashed on me the dark, loveless future I was making for my little son—our little son." She corrected herself softly, and then she was raised to her feet, and a pair of strong arms enfolded her and her husband's deep tones assured her she was forgiven.

"For his sake we'll start again, my darling," he added.

"And for Chappie's father's sake," she whispered, as her white arms stole round his neck. And the little sleeper moved, and they looked down to see a radiant smile dawn on his face and both stooped and kissed him. Then hand in hand they stole from the room.—Lady.

THE ONLY HOPE!

For Victims of Bright's Disease is Dodd's Kidney Pills.

Not a day passes on which the newspapers do not record the death of one or more persons from Bright's Disease. Already its victims number hundreds of thousands. Day by day the awful total grows larger. No class is safe from this destroyer.

War and intemperance, with all their miseries and fatalities, are not responsible for as many deaths as have been caused by Bright's Disease. Yet, there is a way of resisting it; of drawing its poisoned fangs, and making it as harmless as a summer breeze. That great medicine, Dodd's Kidney Pills, has cured thousands of the worst cases. It never fails to cure, hopeless as the case may seem.

Would you safely shield your loved ones from the fatal grip of this curse of mankind—Bright's Disease? Then use Dodd's Kidney Pills, the only cure on earth for this disease.

No Flowers Allowed at a Military Funeral.

"Flowers can play no part in a military funeral, the rules of army or naval burials forbidding them," explained an army officer to a reporter. "While I was down at Chickamauga recently it was rumored that one of the soldiers in a camp there had died. Indeed it was so printed in a local paper. The result was that on the following day a large quantity of flowers were sent by sympathetic ladies and others with a request that they should be placed on the coffin of the dead soldier. Now, the fact was that no soldier had died and the officers had the flowers sent to their quarters. If there were a death in the camp, the flowers could not be used, for they are not military in any sense. The only thing allowed on the coffin of a soldier or sailor is a flag. That has been decided to be decoration enough, and among military men I have never heard the slightest objection to the custom, which has always prevailed."—Washington Star

Test the KIDNEYS

They are the Great Feeders of our Bodies

The Purity of the Blood is Dependent on their Cleansing Powers

There's a time to all, old and young, man or woman, when poor health brings trouble, anxiety, and burdens hard to stand up under, and on efforts to rid himself or herself seem only to be baffled at every turn, and we are prone to grow discouraged.

That is not the time to give up—but the time for action, the time to seek out the seat of the trouble, and act as your best judgment and the experience of others will help you, guarding against mistakes in the treatment adopted for your particular ailment.

THE UPRISING IN CHINA.

Imperial Losses Reported 1,500 Killed—May Have to Surrender.

Canton, July 14.—Owing to the defeat of the Imperial troops near Woo-Chow, 1,000 picked braves have been despatched there, convoyed by two gunboats. The Prefect of Woo-Choo reports the Imperial losses to be 1,500 killed, and adds that unless he is reinforced before Friday he will be forced to surrender. The rebels declare their intention to overthrow the Manchu rule, and they promise ample reward to each locality supplying recruits.

The rebels are in camp two or three miles east of Woo-Chow. They expect to advance to-day or to-morrow. It is reported that the French Minister has informed the Government at Pekin that France may be obliged to intervene by force of arms owing to the menace to French commercial interests in the southern provinces.

THE PRESS EXCURSION.

A Bulletin Concerning It From President Holmes.

Clinton, July 14.—The following bulletin has been issued: To the members of the Canadian Press Association: I regret to say that I have been unable so far to complete satisfactory arrangements for the anticipated press excursion to the coast, and fear that it will have to be dropped. I am trying, however, to arrange for a short excursion some time in August, and if arrangements can be completed will announce particulars as soon as possible. Robt. Holmes, President.

BOILER EXPLOSION AT BUFFALO.

Niagara Starch Works' Building Wrecked—Six Killed and Many Injured.

Buffalo, N.Y., July 15.—By the explosion of a boiler in the Niagara Starch Works, at 5 o'clock yesterday, the building was wrecked, six persons killed, 26 injured, and two others are missing, who are supposed to have perished.

The causes which led to the explosion of the boiler will never be known. The engineer and fireman, who were both killed, were the only persons who could have possessed any knowledge on the subject. Of the five tubular boilers not a fragment could be found last night.

A London Boy Loses a Leg.

Chatham, Ont., July 15.—A serious accident occurred yesterday morning on the C.P.R. track just east of this city. A young lad named Charles Atkinson of London, in attempting to jump from a moving freight train, fell under the wheels, and his left leg was so badly crushed that amputation will be necessary. The little fellow is 15 years of age, and displayed wonderful nerve when found by the sectionmen. The lad claims he paid a brakeman 35 cents to be allowed to ride on the train, but the conductor ordered him off.

LACROSSE.

The Midland lacrosse team which is playing a league match with the local team, this afternoon, came up last night from Hastings, where they met the twelve of that village in a league game and were defeated by three goals to two. Hastings possesses a remarkably fast team this year and a defeat has not yet been experienced.

THE GAME IN HASTINGS.

Hastings, July 14.—A lacrosse match was played here to-day between our boys and the crack Midland team and resulted in an easy victory for the home team by a score of 4 goals to 2. The score is no criterion of the game, as our boys played rings around them and all that saved Midland was their goalkeeper, who deserves credit for the way he tossed ball after ball out from being a goal. We should like a Peterborough morning newspaper to understand that the score was 4 to 2 instead of 3 to 2, as given in that paper, and as for lemonade I think it is seldom they are treated to such a beverage on the lacrosse field and it must have been a surprise to their little stomachs or they would have been able to play better lacrosse.

Midland is playing Peterborough on P.A.A.A. grounds this afternoon. This is the third game in the north eastern district, participated in by Peterborough.

Midland played at Hastings yesterday and was defeated by the score of 4 to 2, in a close and exciting game.

Rat Portage won the Manitoba championship Wednesday last, defeating the strong Winnipeg team by 3 goals to 1. A crowd of three thousand witnessed the game and considerable money changed hands on the result. The Rat Portage contingent was accompanied by Jake Gaudaur the champion oarsman.

Beaverton and Orillia play at Beaverton on July 20th.

Toronto plays the Capitals at Ottawa on Saturday next.

CRICKET.

Elevens representing the bankers and the town respectively will play a match on the Nicholls Park oval to-morrow afternoon. Cumberland, the "pro." will play with the bank eleven. Wickets pitched at 2 30 sharp.

BASEBALL.

Interest in baseball appears to be falling off in Hamilton. The attendance at Wednesday's game was less than 100.

Joe Knight has deserted Wilkesbarre and returned home to St. Thomas. If he can be induced to play the season out, the Saints will be greatly strengthened.

Ottawa continues to win, taking another game from Syracuse yesterday.

Montreal is strongly situated in first place, and if they keep up the article of ball they have been serving out lately, they will be a hard team to dislodge.

The St. Louis baseball team has changed hands. Mr. Becker, of St. Louis, purchased the team from Chris Von der Ohe, and says he is ready to expend $50,000 in strengthening the team.

THE WHEEL.

The Electric Works bicycle club will make a run to Chemong Park to-morrow afternoon. The flag will drop at 2 o'clock, and it is expected tha about forty wheels will roll into line for the run.

ASHBURNHAM BREVITIES.

While repairs are in progress at Mark street church, all the services will be held in the new town hall, which is being cleaned up for that purpose. It will be used for the first time for this purpose next Sunday, July 17.

The Mark street Ladies' Aid social last evening on the parsonage lawn was a grand success in every sense of the word. The receipts were $30, and the bill of fare, programme, decorations, etc., were all that could be desired. The lawn was tastefully decorated with chinese lanterns, flags, coloured electric lights, etc. The ladies deserve great credit for the success which is crowning their efforts to pay off the parsonage debt. The S.O.E. band was present and furnished many pleasing selections. Mr. J. W. Wilson gave two songs; Miss Lottie Kindred and Mr. Wilson gave an organ and violin duet; Miss Strain and Mrs. Turner sang pleasing solos, and Miss Annie Downer gave an excellent recitation. Mrs. (Rev.) Moore, president, moved a hearty vote of thanks, which was seconded by Miss A. M. Smith, vice-president. The chair was filled by the pastor. Rev. J. E Moore, Ph. B. All were well pleased with the evening's enjoyment.

THE LATE MR. JOHN SHARPE.

A Long Time Citizen of Hastings Dies in Toronto.

The body of Mr. John Sharpe, latterly of Toronto and formerly of Hastings, passed through town this morning on the way to that village for interment. The deceased, who was for many years a merchant in Hastings and afterwards village clerk, died in Toronto yesterday. Mr. Sharpe was 63 years of age. He was a native of Dumfrieshire, Scotland, from which he came to Canada fifty years ago. He settled in Hastings where he carried on business as a merchant till a short time since when he retired and went to reside in Toronto with his son, Mr. H. F. Sharpe, of the firm of Sharpe, Eakins & Ferris. Mr. Sharpe was married to Miss Fowlds, of Hastings, who, with the son mentioned, survives him. He was highly respected and was a prominent citizen in the community where he passed the greater part of his life. Mr. Fred Fowlds, son of the late J. S. Fowlds, Mr. Harry, son of the late W. J. Fowlds, James, son of Mr. H. M. Fowlds, nephews, and Mr. H. F. Sharpe, son of deceased, accompanied the remains to Hastings, where the body was interred on the arrival of the train.

To Cure a Corn.

There is no lack of so-called cures for the commen ailment known in corns. The vegetable, animal, and mineral kingdoms have been ransacked for cures. It is a simple matter to remove corns without pain, for if you will go to any druggist or medicine dealer and buy a bottle of Putman's Painless Corn Extractor and apply it as directed the thing is done. Get "Putman's," and no other.

HAVANA'S CONDITION.

It Is Constantly Growing Worse as the Siege Prolongs.

70,000 TROOPS IN THE CITY.

Reconcentrados Drop Dead on the Streets, and Starvation Is Sapping the Loyalty of the Spanish Troops Themselves—Work on the Defences Continues With Tireless Vigor.

Key West, July 15.—A Cuban by the name of Blanco, who has just arrived here from Havana, reports that the conditions in that place are constantly growing worse, the greatest distress necessarily falling on the Cubans, because nearly all the food is seized for the troops. Of these there are about 70,000 in the city, consisting of volunteers, mobilized troops, militia and regulars. Their rations are largely rice and beans, without even bacon. Jerked beef, Blanco reports, sells for 30c a pound, bread of poor quality for 50c, lard $1, meat 75c, corn meal 25c and rice 50c.

Shark food even is eagerly sought, and the day before Blanco left the city one shark caught in Havana harbor sold for $13.50.

Those of the reconcentrados who have sufficient influence with the dispensing authorities sometimes contrive to get one wretched meal a day, but the others starve, and it is no uncommon thing, says this Cuban, to see persons drop dead in the streets. Even among the Spaniards, starvation is rapidly sapping their loyalty, and large numbers of men are banding together awaiting the first American attack on Havana as a signal for revolt. The grocery and provision stores are empty, and the only articles on the Havana wharves are about 1,000 barrels of cement, wet and useless. Only liquor is to be had cheaply.

Work on the defences continues with tireless vigor. Two lines of cables, bearing torpedoes, have been strung across the harbor, from the city side to Morro Castle, and the same has been done in the Bay of Mariel, where, it was reported in Havana, American troops are to be landed.

Sand battery No. 2, east of Havana, has lately mounted six-inch guns in the extreme eastern side of the battery commanding the coast line, and a few days ago sent two shots at the Mayflower, which had been cruising close to shore, supposedly out of range. New masked batteries are also being built along the shore.

Blanco further reports that three weeks ago the Spanish steamers Montevideo and Santa Domingo crept out of the harbor at midnight, with all lights out, and safely got through the blockade. The Spanish ships now in the harbor, he says, are the gunboats Conde Venadito, Marquise de la Ensenada, Nueva Espana, Filipinas and Nanez Pinzon, several of which are unfit for service.

The guns have been removed from the cruiser Alfonso XII. for shore batteries, Blanco says, and the cruiser has been converted into a hospital ship. There are also in the harbor several smaller warships of the nature of converted yachts, including the Flecha, Aguila Magallanes and two others. The merchant steamers Josefa, Adela and Maria Herrera are also in the harbor.

Beware of Cocaine.

Thos. Heys, Analytical Chemist, Toronto, says:—"I have made an examination of Dr. Chase's Catarrh Cure for cocaine and any of its compounds from samples purchased at the open market, and find none present." Dr. Chase's Catarrh Cure is a cure—not a drug. Price 25 cents, blower included.

IN PRICES DURING JULY.

$12,500 SLUMP IN ONE CLIP

Gough Bros.' Big Double Stores and Oak Hall Branch Included.

Mark these words! and study them over, and see what it means for you. Since the close of a great day's business last Saturday, we have deliberately slashed about $12,500 off prices in our two Big Double Stores and Oak Hall Branch—including a net shrinkage of fully 25 per cent. in profits.

This is a gigantic undertaking to save you money, and to rapidly reduce all summer stocks. We are not so awfully greedy after gain as not to make prices bend to our will when we want to—even if loss must follow. You can't move stocks fast enough in midsummer without cutting the life out of the profits. But as our great stocks are brought away down to begin with, we can afford to do some marvellous selling, still further away down to quickly clear them. Never anything done in Peterborough can compare with it:—

NAPANEE IS EXCITED

Over the Arrests of Mrs. Saucier, Pare, Holden, Richardson.

FINDING OF A BANK MONEY BAG

One That Was Stolen From the Dominion Bank a Year Ago—No Person Allowed to See Robert Mackie, One of the Prisoners—Interesting Points Cleared Up.

Napanee, July 16.—The town of Napanee is in a quiver of excitement owing to the latest developments in the Dominion Bank robbery case. Everybody is talking, everywhere, at the hotels, in the post-office, in the streets. The opinion is expressed that at last something tangible has been got onto.

The story runs back to two months before the bank was rifled, when Lawyer Lyons of Belleville warned the bank authorities that an attempt to burglarize a bank through a side entrance was in contemplation.

Soon after this episode some very suspicious characters were observed in and near the town, while several houses were broken into. These individuals were three men and a woman. The woman was a Mrs. Seymour, who lived at Mrs Scott's, just opposite the court house and dressed as a dashing widow of 30. Mrs. Scott said that she always noticed that there was something strange about this woman, while her son, Sidney, urged that she be asked to leave. This Mrs. Seymour is supposed to be the Mrs. Saucier of Montreal, recently arrested for circulating $10 Dominion Bank bills. The three men, Pare, Holden and Richardson, are in the current story supposed to be the other street prowlers who aroused suspicion.

Nine days before the bank robbery last year two men were arrested by County Constable Sills for vagrancy. They had been prowling around the town, sleeping in barns and in the pine grove just east of the town. These men were not of the party of four who camped at Haley's Point, though this has been currently said. These two men are alleged to be Pare and Holden, while the third, Richardson, whom the detectives are after, is thought to be the man who was frequently seen alone, looking intently at the residences of prominent citizens. When these two tramps were arrested a cartridge of coppers was found upon them; also the brace of an umbrella, filed to a needle point, and a crooked steel bar. The coppers were done up as it is usual in banks and this evidence created a little stir at the time, for E. H. Baines stated that 50c in coppers could very easily be extracted from the bank daily and the bank know nothing of it.

A pretty suspicious fact was that these tramps said they had had some laundry done by the Chinese just behind the bank. These facts are now put together, and it is thought that the two tramps were really professional crooks who had nightly been operating upon the safe and swiping coppers. The man Holden has been arrested in Boston, Mass., and Constable Sills left to-night to identify his man as one of the tramps.

George E. Pare was arrested two days ago in Manchester, N.H., where he had been concealing a large quantity of the stolen bills in an ingenious way. He had bored a hole into a scantling into which he placed bills and plugged the hole. The scantlings were put into a coke box in an outhouse, but the lynx-eyed emissaries of the law hunted out the treasure. Detective Dougherty said: "It was the most ingenious scheme I ever saw."

This man Pare was brought over to Kingston yesterday afternoon, where he was met by Chief Adams and Detective Dougherty and brought up to Napanee on the 2.30 a.m. train. The party drove at once to Magistrate Daley's house, where, after a preliminary examination the prisoner was remanded for eight days and sent to the jail to be under the same roof as Robert Mackie. Pare is a low-set Frenchman, dark, keen-eyed, moustached. "A mighty clever mechanic," said Magistrate Daley, before whom a year ago Pare appeared on a charge of vagrancy.

No one is allowed to see Robert Mackie, son of the proprietor of the Dominion House at Belleville, and a strange circumstance is that even Mackie's lawyer is refused permission to see him, so secluded do the detectives deem it necessary to keep their man. The charge against Mackie is burglary and larceny, no details being given.

It was gleaned from many sources that Mackie has been lately putting away lots of money in the bank, even while losing heavily at the races at Fort Erie. He had just returned from the races, when he was arrested in Belleville, having been in Napanee the day before. An important discovery was that three coins of a collection that Bank Manager E. H. Baines had specially marked were found upon him, besides about $40 or $50. These odd coins are considered of great interest by all on the scent. The fact of their having been found is told in a stage whisper with many a "Don't say I told you." Mackie is said to have been seen with Holden frequently last summer. That is where he comes into the story.

But the surprise of the whole affair remains to be told for the first time. It is thought that Pare squealed on the rest of the gang. Even Holden has intimated his fear of that, for immediately on Detective Dougherty's return from Manchester, N.H., on Thursday, he, Lawyer Madden and the section boss drove out east along the G.T.R. tracks to the first half-mile post. Straight north of this post, which is on the north side, there was a board in the fence labelled, "G.T.R.," having cut into it underneath an initial letter. This board has been cut off, and is in the hands of the detectives.

Right under the fence was found a hole about a foot in diameter, and a foot and a half deep, from which was taken a box, in which was found a money bag, the very one taken from the Dominion Bank, a year ago. This is now in the Police Department and is considered the richest find of the whole discovery. Those who think this box contained burglars' tools are mistaken, for it held evidence which the detectives consider to be the greatest surprise they have met with, and are confident that its discovery will lead to other arrests. It is thought that this box contained the share of the plunder that was to be given to those members of the gang that lived in the vicinity.

So far it is estimated that $9,000 of the stolen bills have been recovered. Lawyer Davidson of Montreal, E. H. Baines, R. D. Gamble and the American Consul from Belleville are in town, preparing the extradition papers to be served immediately upon Holden in Boston.

NAPANEE BANK ROBBERY.

Another Arrest in Connection Therewith at Belleville.

Belleville, July 16.—The detectives who arrested Robert Mackie in connection with the Napanee bank robbery searched his house, but gave no information. Mr. J. H. Maddin, solicitor to the bank at Napanee, accompanied the detectives. It is reported that Detectives Dougherty and Wilkes are in town, and rumors of additional arrests are prevalent.

Mgr. Baines' Rare Coins.

Kingston, July 16.—Robert Mackie, Belleville, under arrest at Napanee, has the collection of rare coins Manager Baines of the Dominion Bank had in his department, in the safe. Mr. Baines is in Napanee to recognize the coins.

A FATAL COAL OIL FIRE.

Maud Brandon, a 15-Year-Old Girl, Burned to Death.

Toronto, July 16.—A fire occurred last night on Queen street east over the Don, by which a 15-year-old girl was fatally burned and her mother received serious injuries. The house where the fire originated was occupied by Mr. Charles Brandon, a moulder in the employ of the Ontario Foundry Company. In the same house were his wife, a son and four daughters, besides the brother of Mrs. Brandon, by the name of Tweedie, who was boarding there. The daughters' names were: Pearl, aged 21, who has two weeks been convalescing from an attack of scarlet fever; Maud, who was fatally burned, and Edna aged 8.

Shortly after 7 o'clock, while Mrs. Brandon and her brother were in the dining room, the 16-year-old daughter, Maud, was in the back kitchen lighting the fire, when suddenly a scream was heard and Maud rushed into the dining room with her clothes in flames. Immediately smoke began to fill the house, but Mrs. Brandon's first thought was to extinguish the flames enveloping her daughter, and while so doing she received serious injuries, while John Tweedie, who came to the assistance of both, was slightly burned about the hands.

Charles Brandon, eldest son, was in the shed when he heard his sister scream. He says that the probable cause of the fire was that his sister Maud, experiencing some difficulty in making the fire burn, used coal oil, which she was in the habit of doing, and pouring on too much, created a blaze which caught her dress.

After lingering for a few hours, the young girl Maud died at 10.45 at the hospital. Mrs. Brandon, the mother, in her heroic efforts to save her child, was burned on the right side of the face, and on her right side and down the back to the waist. Mrs. Brandon will probably recover.

Corbett and McCoy.

New York, July 16.—George F. Considine, representing J. J. Corbett, and W. B. Gray, representing Kid McCoy, met yesterday afternoon and came to an agreement for the men to meet at Buffalo on September 10 before the Hawthorne Athletic Club in a twenty-round bout. Honest John Kelly should be the referee.

SPAIN REPUDIATES

And Washington Rejects General Toral's Demands.

SANTIAGO MAY YET BE SHELLED

Prime Minister Sagasta Says Government Had Nothing to Do With Toral's Surrender—President McKinley Wires Shafter That Toral Must Give Up City or Accept Bombardment.

Madrid, July 16.—Prime Minister Sagasta says that neither the Government nor Captain-General Blanco had anything to do with the surrender of Santiago. General Toral is entirely responsible for the capitulation of the city. The Government, he added, was not aware of the terms on which the surrender was made. General Correa, Minister of War, when questioned, professed that the capitulation had not occurred. He said he had received a message from General Toral, consulting him as to the basis of a possible surrender. He had replied that he would find a solution in the military code. General Correa hinted that General Toral would be court-martialed if he surrendered. He was certainly not empowered to surrender any troops but his own command.

REFUSE TORAL'S DEMANDS.

President McKinley Wires Shafter to Begin Hostilities if the Spanish General Doesn't Deliver the City.

Washington, July 16.—A despatch received at the War Department from General Shafter late last night contained the disappointing news that the arrangements of the Spanish and American commissioners for the surrender of Santiago had come to a standstill through the insistence of the Spaniards that they be allowed to retain their arms. General Toral, the Spanish commander, agreed to surrender, and did technically surrender, on the sole condition that his men should be sent to Spain at the expense of the United States. Gen. Shafter's message showed that Toral, through his commissioners, adheres to his willingness to surrender, but insisted on the concession which had caused the hitch. President McKinley discussed this new phase of the matter at the White House last night with Secretaries Alger, Bliss and Wilson, Postmaster-General Smith and Adjutant-General Corbin. As a result orders were telegraphed to Shafter not to grant any concessions beyond that agreed to in the first instance—the transportation of the conquered army to a Spanish port. The instructions sent to General Shafter were emphatic and imperative. It is certain that if the enemy does not redeem his promise to hand over Santiago to the American force hostilities will be resumed.

Cuban Provisional Government.

New York, July 16.—A special to the Journal from Washington says: It has been arranged that the Cuban Provisional Government shall take its seat at Santiago. Those who will go there at once are General Tomas Estrada Palma, Senor Moreno de la Torre, the Cuban Secretary of State; Col. Boza, envoy of General Gomez; Col. Augusto Arnao, envoy of General Calixto Garcia.

Bulletin From Shafter.

Washington, D.C., July 16.—The following bulletin has been posted at the War Department, from General Shafter:

Headquarters, Santiago,
Via Playa del Este, July 15.

Adjutant-General, Washington:

Sent you several telegrams yesterday, as did Gen. Miles, in regard to the surrender. Gen. Toral agreed yesterday positively to surrender all the forces under his command in eastern Cuba, upon a distinct understanding that they were to be sent to Spain by the United States; that this surrender was authorized by Gen. Blanco, and that its submission to-morrow was merely formal. The commissioners to arrange details were appointed—Wheeler, Lawton and Miley on the part of the United States. Points were immediately raised by the Spanish commissioners. The discussion lasted until 10 o'clock last night. My commissioners think the matter will be settled to-day, and met at 9.30 this morning. There are about 12,000 troops in the city and about as many more in the surrounding district; 25,000 in all will be transported. Gen. Miles was present, and said the surrender was as absolute and complete as possible. It cannot be possible there will be failure in completing arrangements. Water famine in city imminent. Have supply cut; this was told Lieut. Miley by an English commissioner. Will wire frequently when negotiations are progressing. (Signed)

Shafter, Major-General Commanding.

FOR SHAFTER'S GLORY.

General Miles Held Aloof and Assumed No Direction of Affairs at Santiago—Interesting Details.

Playa del Este, July 16.—General Miles took no part in the negotiations. He has been careful since his arrival here not to assume the direction of affairs or to detract in the least from the glory of General Shafter's achievement.

General Shafter insisted at the outset that the commissioners to be appointed should have paramount authority to make and conclude the terms of surrender in accordance with the general conditions of the American demands.

After parleying, General Toral acceded to this, explaining that since his last communication, he had received direct authority from Captain-General Blanco to

Acute Rheumatism

Pains in the Foot and Limb—A Complete Cure Accomplished by Hood's Sarsaparilla.

"For a number of years I was afflicted with acute rheumatism in my left side and all the way down my limb into my foot. I live five blocks from my work and had to stop and rest several times in going and coming. I could get no relief from my trouble and was on the point of giving up my job when I happened to hear of Hood's Sarsaparilla. I purchased a bottle of this medicine and a vial of Hood's Pills and began taking them. Before I had half finished them I was relieved and it was not long before I was completely cured. I never lose an opportunity to praise Hood's Sarsaparilla, for my cure meant a great deal to me, as I have a family and must always be at my post." SATURDAY, JULY 16, 1898.

THE ONTARIO LEGISLATURE'S SPECIAL SESSION.

Hon. A. S. Hardy is showing the country some of that fighting quality for which he has been celebrated ever since his entry into politics. It will be remembered that in the last general election in Ontario the result was exceedingly close, so close in fact that for a short time the Conservative leaders entertained some hope that their party had been successful. As it turned out, Mr. Hardy came through with a small majority, large enough, however, to warrant him in continuing in office for another term of the Legislature, unless the bye-elections should result adversely, remarks the Montreal Herald. In the eager canvassing of the prospects for election petitions some ingenious Conservative evolved the opinion that constables employed by the Crown to preserve order at the polling booths were disqualified from voting, although for thirty years they have been voting, and no one ever before challenged their right to do so. There is just a possibility, says the Herald, that on purely technical grounds the courts would be obliged to sustain this opinion and to decide against the constables having the right to vote. The act under which the elections are held contains a section designed to limit the expenses of candidates, so that they may not be able, by giving employment to a great number of persons, to bribe them under the excuse of legitimate employment. Persons so employed are not allowed to vote. Plainly it was never intended that persons employed by the Crown, and especially those employed for the express purpose of preserving the peace, should be disqualified. The issue has been raised, however, and the ground taken that all are disqualified from voting who receive payment for services in connection with the election "from any person whatever." Deputy returning officers and poll clerks are specifically stated to be entitled to vote, and the omission of reference to constables applies equally to the case of persons who rent buildings for public meetings, or who derive profit in any other way from the ordinary process of an election. No one can consistently argue that the performance of such services should disfranchise a citizen, as without them our elections would be an impossibility.

Mr. Hardy has, therefore, decided that whether the literal interpretation of the law disqualifies constables or not, the usage of thirty years is sufficient evidence that it was never intended they should be disqualified, that they exercised their franchise in good faith in the last as in all previous elections, and that they are not to be held blameworthy for having done so. He, therefore, proposes to ask the Legislature to pass whatever law may be necessary to establish the right of these men to their votes, and has called a summer session of the Legislature for the purpose.

The propriety of such a measure of justice is clear enough, but the Conservatives may be expected vigourously to resist the passage of legislation which will have a retroactive effect and which will deprive them of the one promising argument upon which they depended for success before the election courts. In support of Mr. Hardy's position there is a case on record in which the Dominion Parliament adopted exactly such a course at the instance of the three greatest parliamentarians the Conservative party has produced, Sir John Macdonald, Mr. Dalton McCarthy and Sir John Thompson. Indicative also of the manifest propriety of the act is the fact that Sir Richard Cartwright, Hon. David Mills and Mr. Edgar concurred heartily in the course then adopted. Mr. Edgar had indeed himself introduced a bill of the same tenor when the Government took up the question. This was within four months of the elections of 1887. Election trials were pending then as they are in Ontario now, and there was some disposition to challenge the right of deputy returning officers, poll clerks and constables to vote. The following dicussion took place:

"Sir Richard Cartwright—Is this a retrospective act?

"Sir John A. Macdonald—Yes, it is declaratory.

"Sir Richard Cartwright—This may have the effect of confirming an election wrongfully carried, if these people had not the right to vote.

"Sir John A. Macdonald—I have no doubt that they have the right to vote, but this is declaratory of that fact.

"Sir Richard Cartwright—Suppose the courts should take a different view?

"Sir John A. Macdonald—But they will not take a different view.

"Sir Richard Cartwright—They will not after this bill passes, I presume.

"Mr. McCarthy—I think it is better to put this as a sub-section to section 42 of the act, which is the clause which disqualifies certain parties, and this would explain that it was not intended to disqualify these people. I propose that the section shall read:—

"The following shall be read as sub-section C of clause 42 of the Dominion Elections Act: Nothing herein contained shall disqualify or make deputy returning officers, poll clerks and constables, whether appointed by the returning officer, or by a deputy returning officer employed in connection with any vote in any election, incompetent to vote in any election, and it shall be declared that such persons are and always have been entitled to vote at an election of a member of the House of Commons of Canada.

"Mr. Mills (Bothwell)—Do you strike out the preamble?

"Sir John A. Macdonald—No.

"Mr. Mills (Bothwell)—I want to see what the effect is?

"Mr. McCarthy—Just the same, it is the same as the local act. It is simply declaratory." (Hansard, 1887, p. 884.)

All the ablest lawyers in the House were agreed as to the propriety of confirming the right of men employed by the crown to their votes not only for the future but as to the past. "Are and always have been entitled" is Mr. McCarthy's plain definition. This is precisely what Mr. Hardy proposes to have done now, and it is so palpably an act of justice that even the Conservatives, much as they may dislike to do so, must see the propriety of the course. Probably they will not relish the testimony left by their Conservative predecessors, but what can't be cured must be endured and Mr. Whitney and his followers will have to accept the inevitable. Mr. Hardy has in grappling promptly with the difficulty given fresh evidence that the confidence of the people in his ability and sagacity is amply justified and Liberals everywhere will welcome this demonstration of the fact that he possesses, to a marked degree, that element of courage which is so essential to successful leadership of men.

ANAEMIA, OR BLOODLESSNESS.

Its Victims are Pale in Colour, Subject to Dizziness, Palpitation of the Heart and Other Distressing Symptoms.

From the Echo, Platteville, Ont.

Anæmia, which literally means bloodlessness, is prevalent to an alarming extent among young girls and young women of the present day, and is a fruitful source of "decline" and consumption. The symptoms of this trouble are many, but among the most noticeable are pallor of the face, lips and gums, shortness of breath on slight exertion, dizziness, severe headaches, weakness of the vital organs, palpitation of the heart, and dropsical swelling of the limbs. The more of these symptoms shown, the greater the necessity for prompt treatment. Among those who have suffered from anæmia and found a cure is Miss Emily Webb, a young lady residing near Wolverton, Ont. Miss Webb says:—My illness first came on when I was about sixteen years of age. My complexion was a pale waxy colour; I was troubled with general weakness, dizziness and palpitation of the heart. I was placed under medical treatment, but the medicine prescribed by the doctor did not appear to do me the slightest good. As time went by I was slowly but surely growing worse. I was unable to do any work about the house and my limbs would tremble to such an extent at the slightest exertion that I could scarcely stand upon my feet. Then my stomach became so weak that I vomited almost everything I ate; I grew despondent and feared I would not recover. While in this condition a friend urged me to try Dr. Williams' Pink Pills, and I followed the advice. After I had used two boxes I noticed an improvement and my heart was gladdened with the hope of renewed health. At the end of six boxes my appetite had fully returned, and with it strength, colour to my cheeks and brightness to the eyes. I still continued taking Dr. Williams' Pink Pills until I had taken in all twelve boxes, and I can truthfully assert that I am healthier and stronger than I ever was before. I owe this to Dr. Williams' Pink Pills, and I would urge all girls who suffer as I did to give them a fair trial.

Dr. Williams' Pink Pills have done more to make strong, healthy, rosy-cheeked, bright-eyed girls, than any other medicine ever discovered, and mothers should insist upon their daughters taking an occasional course of this medicine. Sold only in boxes, the wrapper around which bears the full name, "Dr. Williams' Pink Pills for Pale Pills." Offered in any other form the pills are substitutes intended to deceive.

NORTH SMITH.

From Our Own Correspondent.

The farmers are getting through with their hay; it being an immence crop.

Taking the grain crop as a whole it never looked so well. The farmers are looking forward to an abundant harvest this season.

The residence of Mr. Thos. Freeborn was the scene of one of those happy events, on Wednesday evening, July the 6th, when all care and sorrow are forgot (at least for the time being) it being the occasion of the marriage of his eldest daughter, Miss Mary J. Freeburn to Mr. William Freeman, of Bobcaygeon. The marriage ceremony was performed by the Rev. T. J. Edmison, B.A., B.D., in the Methodist parsonage, Lakefield. The bride was attended by her cousin Miss Jervis, of Lakefield, while Mr. John Freeman, brother of the groom, performed the duties of groomsman. After the ceremony the happy couple returned to the residence of the bride's parents, where a sumptuous repast was partaken of by the guests. The presents to the bride were both handsome and useful. The happy couple will take residence in Lakefield.

On Sunday, July 10th, at 2.30, the Rev. Mr. Dove, preached a sermon to the members L.O.L., No. 419, taking for his text, Matthew, 16th chapter and 18th verse. "And I say also unto thee, that thou art Peter, and upon this rock I will build my church, and the gates of hell shall not prevail against it." The sermon was an eloquent and forcible one; the reverend gentleman urged upon the members of the order, to be true to their obligations, if they only were, he (the speaker) had no fear for the welfare and future prosperity of this country. The singing of the national anthem brought a very instructive service to a close. The members of the order marched back to their hall, where a hearty vote of thanks was tendered the speaker for the very able sermon just delivered.

THE OFFICIAL FIGURES

Unprecedented Expansion of the Trade of Canada.

INCREASE OF OVER $44,000,000

An Increase of Revenue Also—Two Million Dollars More Duty Collected—The Imports Increased $19,336,000, the Exports $24,723,000—The Royal Military College Matriculants—Ottawa News.

Ottawa, July 16.—The increase in the trade of Canada for the fiscal year which ended on the 30th of June last is unprecedented in the history of the country. Last year's trade exceeded that of any other previous year, but the figures for 1898 are still more satisfactory, showing, as they do, an increase of over $44,000,000 in the aggregate trade as compared with 1897. The increase in the revenue from the duty collected is over $2,000,000. The official statement, as prepared by the Customs Department, only shows an increase of $1,938 263, but this does not take into account the $150,000 which has already been received by the department from the Yukon, nor the $75,000 which is on the way to Ottawa. None of the duties collected in the Yukon are accounted for, and the amount from this source will be about $250,000. The increase on the year's imports over that of 1897 is $19,336,000, while the exports exceeded that of 1897 by $24,723,000. The following are the official figures for 1897 and 1898:

Aggregate trade: 1897, $245,297,144; 1898, $289,536,998; increase, $44,059,852.

— Imports. —	1897.	1898.
Dutiable	$66,220,765	$74,542,947
Free goods.....	40,397,092	51,688,125
Coin and bullion...	4,676,194	4,389,123
Total	$111,294,021	$130,620,195
Duty Collected ...	19,801,997	21,830,209

— Exports. —	1897.	1898.
Canadian produce..	$119,686,410	$139,402,270
Foreign	10,825,163	14,691,911
Coin and bullion..	3,492,550	4,632,611
Total	$134,003,123	$158,726,801

The increase in the exports over 1894 is, therefore, $24,723,678, and the increase in the imports for the same period is $19,336,174. The large increase in the duty of $1,988,268 is all the more satisfactory when the reduced tariff caused by the operation of the preferential tariff is taken into consideration. As already said, when the Yukon figures are included the increase in duty will be over two million dollars.

The figures for the month of June compared with the same month in the previous year, are as follows:

— Imports. —	1897.	1898.
Dutiable goods ...	$5,342,537	$5,407,760
Free goods	3,796,041	6,165,110
Coin and bullion ..	26,971	82,559
Total	$9,135,549	$11,725,431

— Exports. —	1897.	1898.
Canadian produce.	$15,580,378	$12,504,240
Foreign	1,676,765	2,472,830
Coin and bullion..	61,695	77,760
Total	$17,318,838	$15,054,830

Although there is a big drop in the exports for the month the increase in the imports has more than made up for this, so that the aggregate trade for the month is over that of June, 1897.

Personal and General.

The Department of Agriculture has advised steamship owners that they should prepare space for the shipments of apples and other fruit under proper conditions before the present season opens.

Lord Herschell, the British co-representative with Sir Julian Pauncefore, will arrive in Canada about August 1st. It is not yet decided whether he will come straight to Ottawa or whether he will meet the Premier at Archabaskaville or Montreal. This will be a matter of arrangement between the Premier and his Lordship.

Lieut.-Col. Anderson, Chief Engineer of the Department of Marine, has prepared his report on the stranding of the Elder-Dempster steamship Milwaukee at Cape a la Roche. It appears that as the channel showed a depth of 32 feet the day before the accident, the ship must have grounded on the edge of the channel.

The Quebec Battery of the Royal Canadian Artillery, under Major Hudon, is to be increased in strength from 43 to 80 men, and from 19 horses to 33. This may involve an additional captain and lieutenant being added to the battery.

A WINDSOR JEWELLER.

Cured of Bright's Disease by Dodd's Kidney Pills.

Windsor, July 4th.—(Special despatch)—"If the United States army had taken a supply of Dodd's Kidney Pills to Cuba it would have been able to withstand the ravages of disease arising from the drinking of bad water," said a promident physician to-day.

"Dodd's Kidney Pills he continued, are the greatest life savers in the world. I know a score of persons whose lives they have saved.

"Right here in Windsor Mr. R. F. Colwell, the Oulette street jeweller, has been cured of Bright's Disease by them after two years' suffering. I use them in my practice, and can cure the worst case of Bright's Disease, Diabetes, or any other Kidney complaint with them."

OFFICE OF W. A. MURRAY & CO., 17 to 27 King St., East, Toronto.

Wm. McCabe, Esq., Managing Director, N. A. L.:

DEAR SIR:—In answer to your request for me to decide upon one of the following options offered me for settlement of my 15-payment Life Investment Policy for $5,000 which has matured this year, viz.:

1st, to take the value of the Policy in Cash	$5,008 00
2nd, or fully paid-up insurance for	3,780 00
3rd, or take the profits in cash and continue my policy without further payments being required from me, such policy participating in future profits.	2,050 25

I find it somewhat difficult to make a decision either of the three options being so satisfactory. I am certainly very much pleased with the results offered me, and as I find many others are giving full testimony to the profit-earning power of this company. I do not hesitate to give my endorsement as well, that the North American Life is one of our strongest Canadian institutions to day giving first class results on Investment Policies, on a safe and conservative basis. I find that my policy, which was originally a Life by fifteen payments, has become an Endowment at the end of the investment period.

Fatal Accident at River du Loup.

River du Loup, Que., July 16.—A fatal accident occurred here yesterday. Mrs. Judge Bosse and her daughter, were driving back from Kamouraska, on the top of Old Post-Office Hill, when a piece of the harness gave way. The horses ran down the hill, where the carriage struck a telephone pole, and upset in the ditch with the occupants. Mrs. Bosse was picked up unconscious and taken into Mr. La Pointe's house, where she died half an hour later after recovering consciousness for a few minutes. The remains were taken to the family cottage at the Point for the night, thence will be taken by express in the morning to Quebec, where the funeral will take place.

Guillemain's Preference.

Montreal, July 16.—Counsel for Guillemain, under sentence to be hanged at St. Hyacinthe, September 30th, for the murder of his uncle, intends to make his first application for a new trial to the Minister of Justice instead of to the Provincial Attorney-General. The application will be made as soon as the court record is ready. Guillemain, who he says does not yet realize his position, prefers life imprisonment to death.

Despondency, Suicide.

Hamilton, July 16.—Mrs. William Beckman, aged about fifty years, committed suicide yesterday morning at 808 Hunter street west, just after her children had departed for their daily employment, by hanging herself with a rope to a beam in the kitchen of her house. Mrs. Beckman's husband died some few weeks ago and she has suffered from despondency since.

A Trackman Killed.

Bronte, July 16.—Trackman Frank Oliver was struck and killed by a C. P. R. train here yesterday morning. The unfortunate man, who was working on a gravel train, stepped out of the way of one train only to be smashed by the other.

A Post-Office Robbed.

Wellandport, July 16.—The post-office was burglarized last night of $40 in stamps and $8 in cash. The thieves missed the registered letters.

APPALLING DEATH

From Kidney Disease Prevented by Dodd's Kidney Pills, Only.

"Kidney Disease." Do you know what it means? It means that the kidneys are either *rotten*, or rotting; the blood is full of poisonous, death-dealing corruption; that the Kidneys can't do their work; that the victim is a walking charnel-house; that his hours are numbered; that the victim MUST take Dodd's Kidney Pills if he does not want to die.

Have you Kidney Disease? Is your skin hot and dry; memory failing; breath short; urine, reddish, or pale colored; does it scald when passing; is your appetite changeable; do your ankles swell; have you bitter taste in the mouth on getting up mornings; is there a brick-dust deposit in your urine?

Any of these signs is proof positive of Kidney Disease. Will you be cured, or will you die? Dodd's Kidney Pills are the only means on earth that will cure you. They never fail.

THE KOLAPORE CUP.

Won by the Guernsey Team With a Total Score of 744.

London, July 16.—At the meeting of the National Rifle Association at Bisley yesterday the "Rajah of Kolapore" challenge cup, seven shots at 200, 500 and 600 yards, was won by the Guernsey team (eight men), with a total of 744. The Victoria team, the winners of this trophy in 1897, scored 741, the British team scored 741, the Canadian scored 735, the Jersey eight had 718 to their credit, and the Indian riflemen totalled up 700 points. The scores of the Canadians in shooting for the Kolapore cup were: Hayhurst, 96; McVittie, 89; Blair, 89; Forbes, 95; Ross, 96; Broadhurst, 98; Hutchinson, 90; Lieut. Smith, 82.

Preparing for the Press.

Toronto, July 16.—The Government has complied with the request of the Legislative press gallery, and ordered several alterations to correct the poor accoustic properties.

The press gallery will be lowered two and a half feet, members' seats will be turned to face the press gallery, and a row of seats will be raised at the back to accommodate correspondents not actually at work. Later a new staircase leading from the floor below to the gallery will be added.

Fatal Boiler Explosion.

Ridgetown, July 16.—At 7.30 yesterday morning the boiler in the sawmill operated by Charles Betts at Sycamore Siding, 28 miles west of here on the Lake Erie & Detroit River Railway, exploded, completely destroying the mill and killing two men and fatally injuring two others. The dead are James Payne and John Rambo; fatally injured, Charles Betts and Joseph Lee. Robert Henderson was also badly injured.

Later reports say Charles Betts is dead.

Two Negro Murderers Lynched.

Little Rock, Ark., July 16.—A double lynching, in which Jim Redd and Alexander Johnson, negroes, were the victims, occurred at Monticello, Ark., yesterday. A mob broke down the doors of the jail and poured a volley or shot into the cage where the men were confined. Johnson is dead and Redd is mortally wounded. They were convicted of killing W. F. Skipper, a rich planter and merchant of Baxter, and were sentenced to hang.

Kidney Trouble

FCR YEARS.

Nothing did Mr. R. E. Pitt any good until he got Doan's Kidney Pills.

Throughout the County of Leeds and the Town of Brockville there is no medicine spoken so highly of for all kinds of Kidney Diseases as Doan's Kidney Pills. As Canada's pioneer kidney pill, introduced by Mr. James Doan, of Kingsville, Ont., in 1885, they stand to-day far superior to all the imitations and substitutes that have been offered the public in their stead.

Mr. R E. Pitt, the well-known contractor and builder, voices these sentiments when he says, "I have had kidney trouble for years. I have tried numerous remedies without much relief, and had given up my back as gone for good, but since using Doan's Kidney Pills the result has been marvelous! The pain is all gone. I feel like a new man, and can highly testify to the virtues of Doan's Kidney Pills."

Doan's Kidney Pills are sold by all dealers or sent by mail on receipt of price, 50 cents a box or 3 boxes for $1.25. The Doan Kidney Pill Co., Toronto, Ont.

FLUCTUATING.

The Wheat Market Keeps Jumping From Pillar to Post These Days—The Latest Quotations.

Friday Evening, July 15.

The weakness of the Chicago wheat market at the opening this morning was due to the early weak cables from Liverpool, but later in the session all deliveries recovered. Later, still, however, the large receipts of new wheat and the prospects of still large ones brought about another reaction. At the close the July delivery was ½c below yesterday's final figure, while the later options showed gains of ¼c and ⅝c respectively.

On the Liverpool board to-day July wheat closed ¼d per cental above yesterday's final quotation, but the September and December options showed a decline of ⅛d.

Trade continues dull at Toronto, new wheat offering at 73c north and west, with 68c bid. Old red winter is quoted at 77c high freights and Manitoba is unchanged.

Leading Wheat Markets.

Following are the closing prices to-day at important centres:

	Cash.	July.	Sept.
Chicago	$0	73¼	$0 67⅜
New York	0	81½	0 72⅞

Toronto, No. 1 hard.	1 04	....	....
Toronto, red	0 78	....	....

Toronto Grain and Produce.

Flour—Dull. Straight rollers, in barrels, middle freights, are quoted at $3.85 to $4.

Wheat—Red winter to-day sold at 80c afloat at Montreal, and 68c north and west is a price for new wheat. No. 1 Manitoba hard, $1.04, Toronto and west.

Wheat—Old red winter was offering to-day at 77c high freights and new at 73c north and west, with 68c bid for the latter. No. 1 Manitoba hard afloat at Fort William 97c. Trade quiet.

Oats—White quoted at 25c high freights.

Barley—Nothing doing and prices nominal.

Bran—Sells at $8.50 to $9 west and shorts at $12.50 west.

Corn—Canadian, 33c west and 39c on track here.

Buckwheat—Nominal.

Peas—Quoted sound 50c, high freights.

Oatmeal—Car lots of rolled oats in bags on track at Toronto, $4; in bbls., $4.10.

Toronto St. Lawrence Market.

Receipts, although not large, were fair, considering the busy season for farmers.

One load of white wheat sold at 75c per bushel.

Oats were a little firmer to-day; 800 bushels sold at 31c to 32½c.

Hay plentiful and cheaper, 35 loads selling at $5 to $7 per ton for new and $7 to $9 for old.

Dressed hogs were more plentiful at $6.75 to $7, the bulk going at the former price.

Prices for butter, eggs and poultry were unchanged.

Toronto Live Stock.

The run of live stock to-day at the Cattle Market was not large—55 cars all told, composed of 900 cattle, 300 sheep and lambs, 50 calves and 1200 hogs.

The fat cattle were of fairly good quality and prices for exporters' and butchers' stock of good quality were firm.

Exporters sold at $4.50 to $4.80, light export bulls $3.50 to $3.90, and heavy bulls at $3.80 to $4.12½ per cwt.

Loads of good butchers' and exporters mixed sold at $4.30 to $4.50.

Choice picked lots of butchers' sold at $4.30 to $4.50, loads of good $4.15 to $4.35, medium $3.85 to $4, common $3.30 to $3.60, inferior $3.12 to $3.50, and very inferior rough cows and bulls sold at $2.75 to $3 per cwt.

Heavy feeders sold at $3.50 to $3.75.

Buffalo stockers were firmer, selling all the way from $3.25 to $3.70, the bulk going at about $3.40 to $3.50.

About 20 milk cows were offered and sold at prices ranging from $18 to $45, the bulk going at an average of about $33 each.

Calves—Prices firm, but unchanged.

Sheep were plentiful, selling at $3 to $3.25 for ewes, bucks $2.50 to $2.75 per cwt.

Spring lambs were more plentiful, prices ranging from $3 to $4.25 each, with a few extras at $4.75, or, in other words, $5.50 to $6 per cwt. live weight.

Hogs—Deliveries of 1200 sold at $5.37½ to $5.50 for choice selections, unfed and unwatered, off cars; the bulk going at about $5.40, light fats $5 and heavy fats $4.75. Corn-fed hogs are not wanted, but would be worth about $4.70 per cwt.

A Three Months' Course.

A new departure in connection with the Sunday meetings for men at the Y.M.C.A. will begin to morrow. The hour for the meeeting, until the end of September, will be from 4 to 5 p. m. During that period a series of studies will be taken up based upon Rev. Andrew Murray's book, "In the School of Prayer," given in turn by the leading Association workers. All men are invited; active members are especially urged to attend.

Fine Decorations.

The Lindsay Warder says: One and all agree that the decorations on Tuesday were the best that they have ever seen in Lindsay. They were entrusted to J. J. Turner & Sons of Peterborough, and they sustained their well earned reputation as decorators. From the foot of Kent street to Robson's store was a mass of flags strung across the street, together with suitable mottoes, such as "The Day we Celebrate," "God save the Queen," etc. A number of merchants also decorated their places of business, and last, but not least the town flag was hoisted to welcome the visitors.

Special 3 p. m. despatches to the Examiner.

More Talk of Peace.

New York, July 16.—A despatch to the World from London says:—News of definite peace proposals is expected hourly from Madrid.

No News in Spain Yet of Santiago.

Madrid, July 16.—On leaving the cabinet council last evening the ministers professed still to be without confirmation of reported capitulation of Santiago. Owing to the state of siege the censorship of despatches is extremely rigourous and and numerous messages are held back. All parts of the peninsula are officially described as tranquil.

Don Carlos is expected to issue a manifesto here. General Weyler has abandoned his intended journey and will remain at Madrid.

Spain Ready to Renounce Cuba.

London, July 16—The Vienna correspondent learns that the Austrian court was to-day informed that Spain has prepared to cede Cuba and pay an indemnity, but not to abandon Porto Rico. Senor Sagasta trusts to be able to retain the Philippines as a Spanish possession, the powers preferring the island to remain in Spanish rather than American hands.

Excitement at Cadiz Over Invasion.

Cadiz, July 16—There is great excitement here owing to the expected coming of Commodore Watson's squadron. Many are leaving.

Taking Refuge in France.

Marseilles, July 16.—A number of Barcelona steamers have taken refuge here, fearing an American attack on Barcelona.

Blanco Versus the Home Government.

London, July 16.—All the despatches from Madrid to the London morning papers agree that Captain General Blanco and his staff are not willing to let the decision as to peace or war rest with the home Government. This change of attitude is supposed to be due to the lack of provisions and equipment.

Post Mortem News.

Washington, July 16, 9.25 a. m.—The War Department has posted the following: —Before Santiago—Spanish surrendered. Particulars later. Signed. Shafter.

To Start for Spain To-Day.

New York, July 16.—A Washington special to the Tribune says: "The American squadron is expected to start for the coast of Spain on Saturday."

In the trenches before Santiago de Cuba, July 15.—The commissioners have concluded the arrangement of the terms covering the evacuation entirely in the Province of Santiago. These have been signed by both sides and now await the approval of Madrid.

Wheeler's Headquarters, July 15th, via Kingston, July 16.—The preliminary basis for the capitulation of the Spanish forces in Eastern Cuba was agreed to and signed half way between the lines shortly after midnight.

Washington, July 17.—The President sent a message to-day to General Shafter thanking him and praising him on behalf of the people of United States for his achievement causing surrender of Santiago and eastern Cuba.

Madrid, July 16, 9 a.m.—Several newspapers say the Spanish government opened peace negotiations to-day with Washington through the French Ambassador there.

Text of General Torral's Letter of Surrender.

Washington, July 16—The War Department has posted the following:

Playa del Este (near Santiago) July 16—The following letter has just been received:

Santiago de Cuba, July 16.

To His Excellency Commander-in-Chief of the American Forces:

Excellent Sir—I am now authorized by my Government to capitulate. I have the honour to apprise you, and requesting that you designate hour and place where my representatives shall appear to confer with those of Your Excellency to affect the articles of capitulation on the basis of what has been agreed upon to this date, in due time. I wish to manifest my desire to know the resolution of the United States Government respecting the return of army so as to vote on the capitulation. Also the great courtesy of your great graces and return for their great generosity and impulse for the Spanish soldiers, and allow them to return to the Peninsula with the honours the American army do them. The honour to acknowledge as dutifully descended. Signed, Py. Jose Toral, General Commanding, 4th Army Corps.

To General Shafter, Commanding American forces:

Washington, D. C., July 16.—Ebon Brewer, who had charge of the postal arrangements of the United States in Cuba, died near Santiago to-day of malarial fever.

GRANOLITHIC VS. SAND AND CEMENT.

To the Editor of The Examiner:

DEAR SIR,—I know what I am talking about. The action of the committee in selecting sand and cement for permanent pavement will result in a third class job. If we are going to have good walks let us have the best and not spoil a good job for the sake of a little extra expense. The ratepayers are willing to pay for the difference in cost between sand and cement and granolithic pavement. There is as much difference in the two in favour of the granite as there is between Scotch tweed and shoddy. We have made a grand splurge in favour of better streets—to have our work done to last, and we have declared for council reform, but by the look of things now, if the present intentions are carried out, we shall have to wait for a better council before the people can get what they want in the matter. I am a ratepayer and am willing to pay my share for a first-class, instead of a third-class job.

Yours, etc.,
RATEPAYER.

STRATTON & Co.

A Sad Case.

A gentleman from Smith who resides near Lake Chemong, reports to the EXAMINER the sad case of a citizen of Peterborough. The man lives in a dilapidated hut near the lake shore, and is in a very destitute condition —a condition of slow starvation, being without food, except such as the charity of the dwellers of the neighbourhood extend. He is without means, and generally unable to work. He is, however, very cleanly and methodical in his habits, with a good knowledge of cooking, and as such would be useful to a camping party of men.

A Fire on George Street.

The brigade was called out by an alarm arising from a brush heap in "Coon Hollow," the little valley running from Water to George, south of Antrim street. The fire had followed the dry grass and had taken the sidewalk on George street. It was put out without trouble. There is too great a tendency to put out fires carelessly. The brigade has had two or three needless runs recently through such little petty fires. The boys are quite willing to have a brush with fire, but they object to being called out for a fire of brush.

A DENNE OF GRAVEL.

Councillor Denne's Discovery Near Lakefield.

Councillor Denne brought down from near Lakefield a specimen of gravel occurring in a pit near Lakefied, to be an exhibit and a witness in the discussion of the pavement contract at to-night's council meeting. It is called "granite sand," composed of the detritus of the granite rocks of the north, and is claimed to be of the finest quality for use in the construction of cement walks. It is the same sand that was used by Messrs. Brown, Love & Aylmer in the construction work of the locks of the Trent Valley Canal. There is said to be a deposit of this sand of practically unlimited extent. The sand, which is very "sharp," is of a sandy colour—no pun intended, though ingrained habit is apt to crop out when discussing sand—and while good in the abstract, promises to be even better in the concrete, which the committee has adopted evidently with the best intentions. But in the matter of good pavement good intentions don't cut much figure, for, according to good old rugged Sam Johnson, "hell is paved with good intentions," and this idea applied to the pavement discussion, may account for the hot time in the old town to night, which it is expected the council meeting will develop.

OBITUARY.

The Late Miss Mary Nina LePlante.

The many friends of Mr. Thomas LePlante and family will deeply condole with them in the severe affliction that has befallen them in the death of their fourth daughter, Miss Mary Nina LePlante. The cause of death, was cerebral congestion, with which the deceased was attacked on Wednesday of last week, although she had not been feeling in good health for about a month. The disease baffled all attempts to combat it and the little girl, who was about thirteen years age, was unconscious from Thursday noon till last evening when death closed her earthly career. The family have the general sympathy in their bereavement. The funeral takes place on Sunday afternoon at three o'clock from the family residence, 230 Rubidge street.

PLANK vs. CEMENT WALKS.

The Evidence of Experience Largely in Favour of the Latter.

The following extract, taken from Ontario Road Commissioner Campbell's recent address at Orillia, may interest our readers: "Planks are not an economical material for sidewalks. Timber subjected to alternate moisture from the ground and rain, and heat from the sun, cannot help but decay rapidly. A plank walk properly constructed will last five years, then repairs commence. At the end of fifteen years the walk has cost a much for repairs as it cost in the first place, therefore the average life of a plank walk is put at seven years. The best material for sidewalks is artificial stone. The first cost of this is nearly three times that of the plank. Plank average about 5c. square foot; artificial stone, 12c. square foot. The latter when properly laid will last probably for a century; it has been on some Toronto streets now for thirty years and is apparently as good as ever."

WELL SATISFIED.

Satisfactory Work of Turners, the Decorators.

Messrs. J. J. Turner & Sons have had their wide reputation as successful decorators added to by their work in the decoration of the town of Lindsay for the Twelfth. The following letter received this morning speaks for itself:

Messrs. J. J. Turner & Son, Peterborough:

Gentlemen.—The committee in charge of decorating the Town of Lindsay for the 12th of July celebration wish to convey to you their thanks for the highly satisfactory manner in which it was done. It was admired by every one who saw it.

Yours truly,
JOS. BROWN,
ROBERT MIGHT,
For the Committee.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—Port Hope has declared July 20th a civic holiday.

A road grading machine arrived at Norwood last week, for the township of Asphodel.

—A court—No 3,852—of the Independent Order of Foresters—has been organized at Lakefield.

—The Peterborough Fire Brigade Band was a favourite at the Twelfth in Lindsay, the Warder says.

—Conference on the Sunday school lesson at Y. M. C. A. to-night. Topic—"Elijah on Carmel."

—Mr. W. Johnston, who has the contract for the improvements in the Mark street church, began work yesterday.

—There was a very small attendance on the market square this morning. Buyers as well as sellers were conspicuous, chiefly by their absence.

—Night work at the Northumberland Paper Mills had to be suspended a part of last week, owing to low water in the Trent river.

—The business premises of Messrs. A. H. Melville & Co., hatters, George street, is receiving the renovating touch of the painter's brush.

—Lindsay claims to be $20,000 richer by reason of the Twelfth demonstration on Tuesday. "Money was spent with a free hand" the Post says.

—A prohibition convention for the East riding of Durham will be held in Millbrook on Thursday, July 21st. Prominent speakers will be present.

—A meeting of musicians and others in the formation or re-organization of the 45th Battalion Band, with Allie Brown as leader, was held in Lindsay last night.

—The Methodists of the 14th line, Emily, are procuring plans and specifications preparatory to the erection of a new brick church. It will be erected directly opposite the present frame church.

—The Ponton case will be tried on Sept. 10th. The popularity of Ponton in the eastern towns made it inadvisable for the suit to be tried in Belleville or Napanee, so a change of venue had to be effected.

—Services will be conducted to-morrow at four o'clock at the pavilion, Chemong Park, and every Sunday thereafter till further notice, at the same hour. Rev. J. C. Davidson will take the sermon to-morrow.

—There will be a meeting of the town council to-night. There will be a hot time in the old chamber to-night, if the weather remains constant and the bellicose spirit that marked the abortive meeting of Thursday night still prevails.

—The Roman Catholic congregation at Kirkfield, Father Sweeney pastor, are taking steps towards erecting a new and large church, which will be of brick. Mrs. Wm. McKenzie, the popular wife of the president of the Toronto Street Railway Co., has headed a subscription list with a handsome amount.

—At the police court this morning George Richards was arraigned as a vagrant. He is a resident of Toronto, tired of waiting for the construction of the city hall buildings. To be consistent, the magistrate did not finish his case, and if the remand which was granted holds till the aforesaid buildings are finished, George will have become one of the oldest inhabitants of the happy hunting grounds of the unexplored future.

Mrs. J. P. Andress of Indian River station, is visiting friends in Lockport and Rochester.

Mr. J. R. Stratton, M.P.P., went to the Sand Banks, Prince Edward County, this morning.

Miss M. Murphy, town, was successful in her examinations at the Normal College, Hamilton.

Miss Gertie Deene has returned home after a pleasant visit to Kingston and the Thousand Islands.

Mr. Thos. Smart of Toronto, returned home to-day after spending a pleasant holiday with friends in town.

Mr. and Mrs. R. C. Braund, of Peterborough, have been the guests of Mr. Geo. E. Mitchell, Cobourg, for a few days this week.

Lieut. W. D. Leach left Millbrook a day or two ago for London, where he will take a three months course at the School of Infantry.

Miss Weddell of Peterborough, is, says the Cobourg World, visiting friends in Hamilton township, and expects to spend several weeks in that locality.

Dr. A. Rose, of Peterborough, says the Bobcaygeon Independent, is having a bicycle tour through Kinmount, Wilberforce, and Haliburton. He left Peterborough at 8 a.m., arriving here at ten, Tuesday.

This morning the freight to the Lakes was light. Mrs. Felix Brownscombe and Hon. Geo. A. Cox, who went out to join Mrs. Cox, and Mr. Wm. Hamilton, jr., were Peterborough's contribution to the Lake population.

Dr. E. H. Dewart, who for many years edited the Christian Guardian, and who contested North Toronto, in the last Provincial election, the Bobcaygeon Independent says, is staying at the Rockland, for a few days fishing, accompanied by his son Mr. E. R Dewart.

Mr. J. D. McIlmoyle, formerly a well-known citizen, is in town renewing old acquaintances. He has just returned from Halifax, where he has been in the interests of the Canada Loan and Savings Co. His numerous friends will be glad to meet him.

Mr. J. H. Fessenden, son of Mr. C. Fessenden, principal of the Collegiate Institute, has successfully passed the examinations of the the Military College, Kingston. "Jack" is receiving the hearty congratulations of his many friends on having mastered the intellectual goose step of his military career. Mr. Garnet Burke Hughes, son of Mr. Sam Hughes, M.P., was also one of the successful candidates.

SPORTING PASTIMES.

Wheeling and Other Items of Local and General Interest.

LACROSSE.

It was not a brilliant exhibition of lacrosse that was seen at the P. A. A. A Grounds yesterday afternoon between the teams in the District League representing Midland and Peterborough.

Ten goals to nothing in Peterborough's favour was the result and these figures tell the tale as explicitly as any detailed account. It was Peterborough's match all the way through, Midland not being factors in the contest for a moment. Midland is certainly not in its class when placed in the C. L. A. Intermediate Series and a few such defeats as that of yesterday will likely impress that fact upon them.

Though the playing was ragged, owing to the great difference in the abilities of the teams, yet there was no rough playing and the spectators had no reason to feel disgusted as to that.

The playing of the local team was of A-1 order and should be improved at the next game for yesterday's contest was a good practice match. The home and defence played rattling lacrosse and several of the members showed up prominently with pretty plays. The scoring was done in lightning order and the goals were tallied by about as many players as goals. King, Mooney and Hogarth did some exceptionally fine work on the home and the defence had several stars.

Mr. M.H. Halpin refereed the game satisfactorily.

AS OTHERS SAW THE PLAY.

McDonough, Hogarth and Glover all pass too low and on the home grounds a ball after it touches the ground is very hard to judge.

The defence fielders have a habit of following a man who plays behind them when going down the field, instead of dropping back in that man's position on the defence.

The home fielders, when the combination is worked in from centre and a game is not scored, all seem to bunch around the flags, thereby aiding the opposing team to block the flags. To my mind it would be better to return to their positions and bring the ball in again. Of course this play has to be made according to how the team are playing, but I think you would notice an improvement on the home if this was watched more closely.

Then again the home, when running in, bunch too closely and in order to complete the play have to make some almost impossible passes, running a chance of losing the ball amongst themselves.

Inside home requires an extra good man and Mooney, who filled that position for the home yesterday, should play a good game there as soon as he is in shape and knows the wording of the balance of the home.

AFTERMATH OF THE MEET.

A despatch to the Globe says: There are three hotelkeepers in Peterborough who will have very little faith in promises made by the leading officials of the town as to the freedom which was to be extended to the members of the Canadian Wheelmen's Association while here on July 1st. The bicyclists arriving by train late at night wanted refreshments and the hotel men gave them what they wanted. What was the result? This morning the proprietors of three of the prominent hotels were fined $20 and costs for helping the visitors out. It is quite clear that some one "ought to have been mussled," using the words of one of Peterborough's officials at the Good Friday meeting.

THE WHEEL.

The C. W. A.'s share of the Provincial Meet was $225. Of this amount Peterborough contributed $178 and Granby $77. Last year's contribution from Chatham was $247.

ORDERS FOR THE ELECTRIC WORKS.

Brisk Demand for the Products of the Canadian General Electric Company.

The current number of the Canadian Engineer, under the heading Electric Flashes, has the following, which is of special local interest:

The Lakeport Preserving Co. has given an order for the installation of a lighting plant for its factory to the Canadian General Electric Co.

The Toronto Railway Company has placed an additional order for ten C. G. E. 1,000 two motor equipments with the Canadian General Electric Co.

The Toronto Railway Co., which recently ordered a number of the Canadian General Electric Co's well known type of C. G. E. 1000-motors, has given an order for additional equipments.

The Wm. Cane & Sons Mfg. Co., Ltd., Newmarket, has placed an order with the Canadian General Electric Co. for a 17½ kilowatt 4-pole lighting generator and marble switchboard.

The Hamilton Electric Light and Power Co., Ltd., has placed an order with the Canadian General Electric Co. for a 200-kilowatt 250-volt generator which they intend using on their power circuit.

The Strathroy, Ont., Electric Co., Ltd., has met with so much success that it has recently placed an order with the Canadian General Electric Co. for the installation of another 500-light single-phase alternator.

The R. Forbes Co., Ltd., Hespeler, Ont., has placed an order with the Canadian General Electric Co. for two 500-light Generators. The generators are to be supplied of the Canadian General Electric Co.'s latest four-pole type.

La Compagnie Manufacturiers et Electrique de Montmagny, P.Q., has given an order to the Canadian General Electric Co. for a 100-k.w. monocyclic generator, which will be operated at a potential of 2,080 volts, together with the necessary station instruments for the operation of the plant.

The Lachine Rapids Hydraulic and Land Co., of Montreal, has given an order to the Canadian General Electric Co. for the installation of a seven panel power-house switchboard, which is to be built in accordance with specifications and drawings prepared by R. R. Kelsch, superintendent for the Lachine Rapids Hydraulic and Land Co.

The Hudson Bay Co. has given an order to the Canadian General Electric Co. for the installation of a complete lighting plant for its stores at Calgary, N.W.T. The plant will consist of one of the Canadian General Electric Co.'s latest four-pole type generators, having a capacity of 9 kilowatts.

The Cornwall, Ont., Electric Street Railway Company, Ltd., in consequence of the increased demands on the freight service, has ordered another freight locomotive and has placed an order with the Canadian General Electric Company for the electrical equipment, consisting of four C.G.E. 1,200 motors.

The Pembroke Navigation Company has placed an order with the Canadian General Electric Company for equipping the steamer "Victoria" with a complete electric lighting plant, which will include a six-kilowatt standard Edison type dynamo, a vertical automatic engine and a search lamp of 4,000 candle power.

The Canadian Pacific Railway, which has recently acquired the smelter at Trail, B. C., formerly operated by Aug. Heinze, has consumded negotiations with the West Kootenay Power and Light Co. for the supply of electric current to operate the smelter, and have ordered from the Canadian General Electric Co. two 75 k. w. three-phase revolving armature type synchronous motors, which will be operated at a potential of 550 volts. They have also ordered three 50-h. p. induction motors and three 30 h. p. induction motors which will also be operated at a potential of 550 volts.

The Lang Tanning Co., Berlin, Ont., has recently given an order to the Canadian General Electric Co. for a 100 k. w. multipolar direct current dynamo, which will be operated at a potential of 250 volts. This generator will supply current for the operation of two of the Canadian General Electric Co.'s latest type of multipolar direct current motors, each having a capacity of 50-h. p. motor. The order given to the General Electric Co. also includes the installation of marble panel switchboard, containing the necessary instruments for the operation of the plant and the wiring up of their factory.

BOBCAYGEON'S BOOM IN BROAD TIRES.

The Northern Hamlet Leading in a Good Cause.

The broad tire question is making good headway in this neighbourhood, says the Independent. Mr. Moore has changed ten wagons this season. The spokes of the old worn narrow wheels are cut down a little, and a new broad rim is put on. Two have been given four inches, two 3½ and the others 3 inches. This is a great step in advance. Four inches is none too narrow, in fact the test that was made so thoroughly at the Missouri Agricultural College established most conclusively that a six-inch tire required on an average one-third less power to draw than 1½ inch tires. A leading objection to wide tires is that they catch more stones. As soon as there are a fair proportion of broad tires in use, it will be like the boy and the apple core. There won't be no stones.

CAN'T EAT.

FOOD is the fuel that feeds the fires of life. Digestion is the process that turns the fuel into energy. Few possess perfect digestion. If your digestion is imperfect, if you cannot eat what you like without discomfort, if you cannot eat when you ought to eat, the time has come when you should take Dr. Ward's Blood and Nerve Pills. Hunger is the best Sauce. Take these Pills and get hungry. You may eat what you want if you take Dr. Ward's Pills.

WHAT THEIR MERITS ARE:

My system was entirely rejuvenated by the use of Dr. Ward's Blood and Nerve Pills, and I consider them a marvellous strength and nerve builder for dyspepsia. I was so sick and miserable that I seemed to have no life or energy left in me. I suffered so at times that I thought death would be better for me. I had tried Doctors and different kinds of medicines, but all failed to do me any good. I am in every way now a well woman, and have been for months. Before using these Pills I was so sick that I could not keep anything in my stomach. I was under the opinion that dyspepsia could not be cured, but now I am satisfied it can be cured, for I am able to eat like any healthy woman and feel better in every way. They have built me up also,—I now weigh several pounds more than I ever did before. In conclusion, I would advise every woman afflicted with poor digestion to give Dr. Ward's Pills a trial.

MRS. L. E. WATSON, Port Colborne, Ont.

Dr. Ward's Blood and Nerve Pills are sold at 50 cents per box, 5 boxes for $2.00, at druggists, or mailed on receipt of price by The Dr. Ward Co., 71 Victoria St., Toronto. Book of information free.

ALASKA.

Six sleeps in a sleeper from Montreal
And a moon or so from the end of the line,
And you stand at the foot of the great white wall—
That is, white with the snows that fall and fall
O'er the cedar dwarfed and the drooping pine
That grow at the feet of Alaska.

Old and wrinkled and cold and gray,
With her white pall pulled o'er her stony breast,
Frowning and frigid and far away,
She has ever stood, as she stands today,
In the desolate wastes of the wide northwest—
Stands this hoary old woman, Alaska.

Unmolested for thousands of years,
Isolated, remote and lone,
Her hard face glacial with frozen tears,
While over her shoulders and in her ears
The winds of the north land wail and moan
In the ears of old Mother Alaska.

A party of prospectors passed that way,
And they thought the old face had forgotten its frown,
And, pausing, they pulled her white robe away
And found her treasure. "Ah, q'est que c'est?"
Said the French Canadian, kneeling down
At the feet of old Mother Alaska.

They told their story, and men went wild
And pawned their chattels and joined the race.
The old ocean jingled her gold and smiled,
And the gold mad men of the world beguiled
With a promise of fortune in that far place
At the feet of old Mother Alaska.

But, oh, the rivers are wide and deep,
And the north wind breathes with a killing breath,
And over the mountains, so rough and steep,
The old dread reaper shall come and reap—
The rime old reaper that men call death
Shall reap the white fields of Alaska!

A MAN KILLER

Fierce and Ravenous, is Diabetes, Which Defies all Medicines.

Except Dodd's Kidney Pills, the Only Remedy on Earth That Removes the Cause of the Disease—Dodd's Kidney Pills Never Fail.

Quebec, P.Q., July 15—There are certain diseases that sap the brain, and dry up the springs of life, besides undermining the strength.

Diabetes is such a disease.

Its symptons are great thirst, failing sight, dry mouth, coated tongue, paleness, numbness in the thighs, pains or aches in the loins, or small of the back, increase of urine, sugar in the urine.

Any one, or two, seldom more, of these appear in the same case.

Diabetes is caused by poison in the blood.

Poison gets into the blood through defective action of the kidneys, which should filter it out.

Heal and strengthen the kidneys and they will cleanse the blood. Then Diabetes will vanish.

Dodd's Kidney Pills are the only medicine on earth that can cure Diabetes. They are the only medicine that can cure the kidneys.

Here is proof: Mr. Sam Desrochers, of 167 St. John Street, Quebec, says:

"I have suffered with Diabetes for five years.

"My feet were always cold. I had pains in my loins, and a terrible thirst.

"I tried a dozen remedies before I heard of Dodd's Kidney Pills. They all failed to relieve me.

"Five boxes of Dodd's Kidney Pills cured me completely. To-day I am well and strong."

Reader! Have you any of the symptoms above?

If you have, you have Diabetes, and nothing on earth but Dodd's Kidney Pills can cure you.

Dodd's Kidney Pills are sold by all druggists at 50c. a box, six boxes for $2.50, or sent, on receipt of price, by The Dodds Medicine Co., Limited, Toronto, Ont.

Ten Thousand in Annual Convention—Anglo-American Amity—Gratifying Report.

Buffalo, July 15.—Auspicious indeed was the opening of the eighth international convention of the Baptist Young People's Union in this city yesterday. It was estimated at registration headquarters at 10 o'clock that between 9,000 and 10,000 delegates and visitors had given their names and received badges.

John N. Chapman of Chicago, President of the Union, opened the convention. He said: "To-day we meet under two flags, but with one spirit. (Applause.) The Union Jack is drooping to-day because God has lately called home one of England's many heroes, William Ewart Gladstone. There is sorrow also beneath our flag, because we have been called upon to chastise another nation in the cause of liberty and right."

The annual report stated: "One of the partial compensations for the strife of war upon which our nation has entered in freedom's name, is the quickening of the consciousness of a common life. Differences have been forgotten, dividing lines have been obliterated; in enlistment in a great common cause there has been a fusing of the nation's life. To-day, in the face of common foe, there is no north, no south, no east, no west; one nation, loyal and individual; all hearts pulsating with noble patriotism.

"The conditions which have evoked this new manifestation of patriotism have also strengthened the bond of union with our brethren in the Dominion of Canada. Whatever may be the outcome of present discussion concerning an Anglo-American alliance, the events of the past few months have surely brought the two great branches of our common English-speaking stock closer together, and will tend towards a mutual good understnding. The Stars and Stripes and Union Jack will float proudly side by side, as banners of brotherhood, and harbingers of a new era for humanity. In this work of unification the B.Y.P.U. is a factor, weaving bonds of good-fellowship."

No other preparation has ever done so many people so much good as Hood's Sarsaparilla, America's Greatest Medicine.

SANTIAGO'S INVESTMENT.

Some of the Points in Which It Was Remarkable—The Loss on Both Sides Calculated.

Washington, July 15.—The siege of Santiago has lasted two weeks, and was remarkable in many respects, and in none more than the heavy percentage of loss through death, wounds or sickness, of the soldiers and sailors engaged on both sides. Looking back over the record of these two weeks, it is seen that a great ironclad squadron has been destroyed, that nearly 1,000 Spanish sailors have been drowned or killed by shell and flame, and that an untold number of Spanish soldiers have died in the trenches of Santiago.

On the other hand, about 250 American soldiers have been killed, and in round numbers 2,000 more have been sent to the hospitals from wounds, fever and other ailments.

The American fleet had a remarkable exemption from disaster in the many engagements it has had with the forts at the entrance of the harbor and with the Spanish squadron.

"Next is Porto Rico," said Secretary Alger, after receiving news of Santiago's formal surrender, "and then, if need be, Havana."

The Secretary said that the Porto Rican expedition will go forward immediately. It will comprise new men entirely. The warriors in the trenches before Santiago have distinguished themselves and it is not deemed prudent to bring them in unnecessary contact with new troops, in view of the danger of spreading contagion.

The sick soldiers will be nursed back to health and brought to the United States as soon as they can be safely removed. Immune regulars will be ordered to Santiago to garrison the town, and, as stated in the despatches yesterday, two of the regiments are already under orders to proceed.

The territory surrendered to us by General Toral makes 5,000 square miles. The line begins at Acerraderos, about 15 miles west of Santiago harbor, and then runs due north about 25 miles to Palma Soriano. Had the line continued due north it would have passed west of Holguin, thus taking the Spanish garrison at that point. Evidently General Toral wished to avoid the inclusion of Holguin, so the line turns abruptly to the northeast at Palma and runs to the coast town of Boca del Sagua on the coast. The extreme width is about 50 miles. The fortifications of Morro Castle, Socapa, Cayo, Smith, and others, are included in the surrendered zone.

The plan of the War Department for returning the surrendered army of General Toral to Spain will not necessitate the use of American vessels. It is the purpose of the department to ask for proposals from all steamship companies which desire to compete for transporting the Spanish troops to Spain, and the most advantageous bid will be accepted.

The advices of General Shafter state that the number of Spanish prisoners will be between 12,000 and 15,000.

A Great Book Free.

When Dr. R. V. Pierce, of Buffalo, N.Y., published the first edition of his great work, The People's Common Sense Medical Adviser, he announced that after 680,000 copies had been sold at the regular price, $1.50 per copy, the profit on which would repay him for the great amount of labor and money expended in producing it, he would distribute the next half million free. As this number of copies has already been sold, he is now giving away, absolutely free, 500,000 copies of this most complete interesting and valuable common sense medical work ever published—the recipient only being required to mail to him, at above address, (21) one-cent stamps to cover cost of mailing only, and the book will be sent post-paid. It is a veritable medical library, complete in one volume. Contains 1008 pages, profusely illustrated. The Free Edition is precisely the same as that sold at $1.50 except only that the books are in strong manilla paper covers instead of cloth. Send now before all are given away.

HER CAT IN HER POCKET.

Bismarck Travels In State Wherever His Mistress Goes.

A woman walked into the breakfast room of one of Chicago's swell hotels, dressed in traveling costume and carrying on her arm a cape of plaid cloth, which she hung over the chair next at table, disposing of it with some care, as if it might be of valne.

Then she gave her attention to the menu and discussed a service of fruit while she waited for her order. She was roused from a pleasing study of her plate by a series of "Ohs!" and "Ahs!" and "What a darling!" and a hasty glance showed her a big white Angora cat seated gracefully on the vacant chair at her side.

"Oh, Bismarck, you dreadful cat!" she said, as the head waiter approached with a look in his eye that boded no good to the cat.

"I mus' put him out, madam," he said, with the assurance that goes with head waiters.

But his mistress clicked her fingers and the cat disappeared. Every eye was upon him, yet no one saw him go. The waiter looked on the chair and under it, but pussy had vanished like a dream.

"Find the cat—he is in the picture somewhere," remarked the owner of the pet, as she buttered her toast. But the cat did not come back, and it was not until the woman had finished her breakfast and was leaving the table, with her traveling cape thrown over her arm, that the mystery of the animal's disappearance was explained, and pussy's head was allowed to peep from a capacious inside pocket in that cape.

"He has traveled in that pocket from the Pacific coast, and this is the first time he has given away his hiding place," said his mistress. "He will not pur for fear of being found, but he is near his journey's end now and is getting tired. This cape is his exclusive property, and the pocket is his private car."—Chicago Times-Herald.

A "Daisy."

"You are a daisy," is used by Dickens in "David Copperfield" in the sense of calling a person a daisy in the way to express admiration and at the same time to laugh at one's credulity. Steerforth says to young Copperfield: "David, my daisy, you are so innocent of the world. Let me call you my daisy, as it is so refreshing to find one in these corrupt days so innocent and unsophisticated. My dear Copperfield, the daisies of the field are not fresher than you."

A Successful Preacher.

An English bishop, as he was going about his diocese, asked the porter of a lunatic asylum how a chaplain whom he, the bishop, had lately appointed, was getting on.

"Oh, my lord," said the man, "his preaching is most successful. The hidiots henjoys it partickler."

A London curate the other day received an astonishing answer to an inquiry after a parishioner's health. "Well, sir," said the parishioner, "sometimes I feels anyhow, sometimes I feels nohow and there be times when I feels as stiff as a himmidge."

Oliver Wendell Holmes says that if a man truly loved a woman he would not marry her unless he was absolutely positive that he was the very best man in all the world that she could marry. According to this a man would have to be very conceited indeed or remain a bachelor.

This is going a little bit to extremes, but in sober fact, no man should marry a woman so long as he is the victim of ill-health. No man has a right to ask a woman not only to be his wife, but a life-long nurse. No man has a right to ask a woman to share the burden of his ill-health, and that is what he does when he asks her to be his wife. Ill-health in man is almost invariably the result of disorders of the digestive and nutritive organs. If a man's stomach is right and his liver right, his blood will be pure and rich, and his nerves strong and steady. When the blood is pure and rich a man cannot suffer from ill-health. Dr. Pierce's Golden Medical Discovery is the great digestive tonic. It is not a mere appetizer, but a scientific aid to the natural processes of secretion and excretion. It makes the appetite keen and hearty, promotes the flow of digestive juices, makes the assimilation perfect, the liver active and the blood pure and rich. It builds firm, healthy flesh tissues. It is the greatest known nerve tonic and restorative.

Mrs. P. Mortenson, of Sanger, Oliver Co., N. Dak., writes: "Dr. Pierce's Golden Medical Discovery is the best cough medicine I ever tried. A little over two years ago I was afflicted with a very bad cough and my home physician prescribed Cod Liver Oil and other kinds of medicine. He said I might go into quick consumption and might die in two or three months. His medicine did not do me any good. I heard of Dr. Pierce's Golden Medical Discovery and began taking it; when I had taken it about two months, according to directions, my cough was cured, and since that time we have always kept your medicine in the house."

Dr. Pierce's Pleasant Pellets regulate and invigorate the stomach, liver and bowels. By all medicine dealers.

THE BLACK DEATH.

THAT FEARFUL PLAGUE THAT FOLLOWS IN THE WAKE OF WAR.

In the Fourteenth Century It Swept the Whole of Europe, Killing Twenty-five Millions of People In Three Years—The Pestilence In London.

The plague, or pestilence, that mysterious and fearful visitation which has moved its hosts in the wake of armies to slay more than war itself, is supposed to have first originated among the dense masses of people who crowded together in the great cities of Asia and Egypt, or who formed the encampment of Xerxes, Cyrus and Tamerlane the Tartar. It probably sprang from the impurity which must have existed in the midst of such vast gatherings and in part also from leaving the unburied dead upon the field of battle. At any rate the germs of this fearful human poison have always been most active where conditions similar to those have prevailed. It has always been war and the march of armies that has spread it broadcast over the world from time to time, and as war became less frequent and less worldwide the frequency and extent of these ravages have lessened also.

The first recorded outbreak of the plague in Europe occurred in the sixteenth century. It came from lower Egypt. This was the first lapping of the wave that reached into the east again, there to stay its movement so far as the west was concerned until 544 A. D., when the returning legions of the Emperor Justinian brought it again into the western world from the battlefields of Persia. Constantinople was the first place it attacked. Here in a single day as many as 10,000 persons are said to have fallen victims to it. But the plague did not stop with Constantinople. It had found a too congenial soil in Europe, which was little else than one great battlefield at the time. It was carried into Gaul, where it followed close in the wake of the Frankish armies, and from Gaul it moved into Italy, with the Lombards, and so devastated the country as to leave it entirely at the mercy of the invaders.

The various crusades, which extended over a space of about 200 years, no doubt did much to hold the pestilence in Europe, for they served to keep open the channels of intercourse between the east and the west. Periodic epidemics were common during their continuance, and these seem to have culminated in the fourteenth century with what is known in history as the black death.

The black death was more fatal to human life than any other single cause since the world began. The havoc of war was nothing in comparison to it. It swept the whole of Europe, leaving in its path such misery and destitution as the world had never known. It killed in three years some 25,000,000 of people. Such figures stagger the comprehension, but the records of the time cannot be doubted. The entire population of Europe is estimated to have been about 100,000,000—kept down as it was by the constant warfare—and of these 100,000,000 at least a fourth perished.

The ravages of the plague in Italy, where it came in the track of the war of the Guelphs and Ghibellines, was particularly disastrous to mankind. It raged with terrible fury in Naples, where 60,000 persons are said to have died. It fell upon Pisa and seven out of every ten perished. It utterly and forever destroyed the prosperity of Siena. Florence also suffered severely, while 100,000 of the inhabitants of Venice were literally wiped off the face of the earth. From Italy it moved into France, where the mortality was almost as great; in Paris alone 50,000 people died from it. One of the worst features presented by the history of the black death was the cruel persecution it aroused against the Jews. They were supposed to have infected the air in some mysterious manner, and they were accused of having poisoned the wells and springs. In Strassburg 2,000 of them were buried alive in their own burial ground.

The order of the Flagellanto arose at this time, coming from the belief that the sins of the world had at last brought down the wrath of heaven. It was the beginning of the so called Hundred Years' war that carried the black death into England, where in London its victims numbered 100,000. When at last the plague had worked its ravages, it doubled back over its course, to disappear in the east. In 1845 it appeared again in England, first among the soldiers of Richmond after the battle of Bosworth Field, and when the victorious army marched to London the plague went with them to work its havoc there. As long as it lasted the mortality was as great as that caused by the black death half a century before. Five thousand people died in five weeks, and then the plague left London as suddenly as it had appeared there, to sweep over the rest of England.

In Scotland the plague of 1568 came immediately after the battle of Langside, when Queen Mary was dethroned, but no records of the mortality it occasioned seem to have been preserved. The plague visited London in 1675. This followed after the civil war which ended with the death of Charles II, but so many years intervened that it is impossible to trace any connection between the two events. In modern wars danger from the plague seems gradually to have lessened, perhaps as a result of better sanitary conditions maintained by the armies of today.—Philadelphia Press.

..Dr. Chase's Ointment..

His suffering from Ulcerating Piles Cured.

He says:—I was troubled with itching piles for five years, and was badly ulcerated. They were very painful, so much so that I could not sleep. I tried almost every remedy heard of, and was recommended to use Dr. Chase's Ointment. I purchased a box, and from the first application got such relief that I was satisfied a cure would be made. I used in all two boxes, and am now completely cured.

Every remedy given by Dr. Chase cost years of study and research, and with an eye single to its adaptation for the ailments for which it was intended. Dr. Chase detested cure-alls, and it has been proven ten thousand times that not one of his formulas leave a bad after-effect. Dr. Chase's Ointment is based on lanoline, and the best physicians prescribe it.

HELLO! DYSPEPTICS!

Read the Words that Tell How to Cure Dyspepsia.

The Cure is Simple, Easy and Sure—It is Effected by Dodd's Dyspepsia Tablets, which Cure by Removing the Cause.

"Oh! he's dyspeptic! There's no use talking to HIM."

How often we hear such expressions used with regard to some poor, suffering victim of a disordered stomach, or an imperfect digestion.

His misfortune is viewed as a wilful fault, and he is called a "crank," or a disagreeable boor, and is avoided and mistrusted by those who were once his friends and companions.

His physical sufferings are very great, and very hard to bear, but when mental torture is added his lot becomes unbearable.

Very frequently suicide is the result.

There is a way to escape all these tortures—all the physical and mental agonies that dyspepsia brings. It is a very simple and easy way.

To get rid of Dyspepsia we must remove the cause.

Dyspepsia is caused by imperfect digestion. Therefore to get rid of Dyspepsia we must make the digestion perfect.

Dodd's Dyspepsia Tablets do this. They digest the food themselves.

Thus they remove, thoroughly and absolutely, the cause of disease. Therefore the disease itself and all its effects must go too.

Two or three weeks' use of Dodd's Dyspepsia Tablets rests the stomach sufficiently to allow it to regain its strength.

The Tablets act on the stomach itself, imparting to it strength and vigour.

Dodd's Dyspepsia Tablets quickly and permanently cure Indigestion, Biliousness, Sick Headache and all other stomach troubles.

Dodd's Dyspepsia Tablets are sold by all druggists, at 50 cents a box, six boxes $2.50, or sent on receipt of price, by The Dodd's Medicine Co., Limited, Toronto, Ont.

A Famous Apple Tree.

The American Cultivator says that the original greening apple tree is still standing on the farm of Solomon Drowne at Mount Hygeia in North Foster, R. I. The tree was a very old one when the farm was sold in 1804. The seller informed the purchaser that it was a pity the old tree was going into decay, as it produced the best fruit of any tree in the orchard. The purchaser determined to see how long he could keep it alive, and it still survives, after almost another century has been added to its venerable years. But it shows signs of final decay, and the parent of all the famous Rhode Island greenings, which has set its grafts on the orchards of almost all the world, will soon be but a neighborhood memory. It is doubtful if there is a more famous apple tree to be found in all Pomona's groves from end to end of the earth.

HUMAN SACRIFICES

On the Altar of Diabetes, Saved by Dodd's Kidney Pills, Only.

Hardly a family in the country is free from Diabetes. Great thirst, failing sight, numbness in the thighs, bleeding gums, swollen ankles, emaciation, nervousness, pale or turbid urine, loss of sexual power, decaying teeth, pains in the loins or small of the back, are all positive signs that Diabetes is in the system.

Do you know how it ends? IN DEATH. A premature, horrible, agonized, pitiful death. The victim has no peace, no ease in life. His days are filled with tortures. His nights are waking dreams of agony. He longs to die, yet fears the terrors of his end. He dies, a bloated, fetid, repulsive mass of corruption. That is the only end of unchecked Diabetes. Dodd's Kidney Pills will cure it. They drive it out of the system thoroughly, create new, clean blood, rebuild the diseased kidneys, and restore robust health.

SPAIN'S LOSING GAME.

Things Which Have Slipped From Her Grasp In Three Hundred Years.

Macaulay drew this picture of the power of Spain 300 years ago:

The empire of Philip II was undoubtedly one of the most powerful and splendid that ever existed in the world. It is no exaggeration to say that during several years his power over Europe was greater than even that of Napoleon. In America his dominions extended on both sides of the equator into the temperate zone. There is reason to believe that his annual revenues amounted, in the season of his greatest power, to a sum ten times as large as that which England yielded to Elizabeth. He had a standing army of 50,000 troops when England did not have a single battalion in constant pay. He held, what no other prince in modern times has held, the dominion both of the land and the sea. During the greater part of his reign he was supreme on both elements. His soldiers marched up to the capital of France; his ships menaced the shores of England. Spain had what Napoleon desired in vain—ships, colonies and commerce.

She long monopolized the trade of America and of the Indian ocean. All the gold of the west and all the spices of the east were received and distributed by her. Even after the defeat of the armada English statesmen continued to look with great dread on the maritime power of Philip. * * * Whoever wishes to be well acquainted with the morbid anatomy of governments, whoever wishes to know how great states may be made feeble and wretched, should study the history of Spain.—Exchange.

Keene's Quarter Cigar.

Tom Keene was a good story teller. "For ten years," so went one of his tales, "I bought all my theatrical costumes from one dealer, and as during much of that time I was playing many new parts in the old California theater stock company of San Francisco my trade was a matter of considerable importance. When I was about to leave the slope and come east, I went to make a final order and bid my costumer goodby. 'I'm very sorry you're going,' he said. 'Here, Jake!' calling to a clerk. 'Run out and get Mr. Keene a good quarter of a dollar cigar.'

"As Jake started my costumer whispered behind his hand, 'Two for a quarter, Jake; two for a quarter.'"

STELLAR DEEPS.

In stellar deeps the midnight silence broods;
Worn with the day, the earth low lying sleeps,
While thought invades the eternal solitudes,
The stellar deeps.

Fleets, from a port beyond the explorer's ken,
Majestic move, great argosies of light,
Up from the nether voids unknown of men,
And cross the night.

A pathway sown with thistle down of stars,
A pathway white, as if thereon had trod
One whose winged feet shed luster in their flight,
Mounting to God.

Bridges the waste from rolling sphere to sphere,
Spans the blue seas of silence, shore to shore,
An arch of triumph o'er the primal dark
Forever more.

I tremble as a child that finds a door
And with swift, curious hand throws open wide
Into a vast, unpeopled corridor,
Where shadows glide.

Immensity! Thy surges unconfined
Buffet the sense with strong, benumbing shocks,
Hurling the little wreckage of the mind
Upon the rocks!

O thought, return! The engulfing billows toss
Thy tiny cockleshell, their helpless prey!
O reason, halt! Thy chart and compass vain
To find the way!

One envoy more. I wait upon the strand,
And while my soul her awesome vigil keeps
Faith finds safe anchorage, in sight of land,
In stellar deeps.

WILL GO TO JAMES' BAY.

Letter From Ernest Neelands, Lindsay, Who is with Surveyor Niven in the Far West.

RIVERSIDE HOUSE, PORCUPINE RIVER, July 12th.

By this time I suppose you will all be at Sturgeon enjoying yourselves and thinking of the poor "Kid" up here with Mr. Niven. Well, we left Halbury on Monday, 22nd May, and crossed a nine mile portage to Sharp Lake and over a series of small lakes to the Montreal river. It is a large and rapid stream, and we could not paddle up it in all parts; as it was too deep to tow we had to make our way up sometimes by pulling the boats by catching the branches and dragging. There were also many portages—mostly short ones—around chutes and much pulling and towing in the shallow water. One tow, known as the "Long Sault," was over half a mile long. I ran one canoe with two men in it.

After four days' hard work, on Friday morning we reached Fort Matchewan. There we left the river and proceeded by an overland route from lake to lake to the head of the line at Nighthawk lake. This we reached 10 days after leaving Matchewan. There is a number of Indians—about 30—encamped on the island with their chief, "Buffalo," and a trader called McLeod. Their camp was the most uninviting one I have seen.

Last Monday we started the new line and ran 11 miles over as fine farming land as could be had. No doubt there will be a large settlement here when the country is opened up. The timber is valueless, except as pulp wood; much spruce, balsam and popular, but so far little pitch pine, which was very common last year, but it usually prevails in a sandy country. Leaving Lake Matchewan, one of the Indians killed a moose in the water with a pole, and three days ago Ritchie shot another in Nighthawk river, so we have had abundance of fresh meat. The flies have been bad so far, and bother us a great deal, but the gauze sleeping bags have been most satisfactory.

Our line will cross the Abitibi river in about three weeks, when we will meet Ritchie, who goes to Abitibi House tomorrow for supplies, and will take this letter, care of the Hudson Bay Co. We will probably be in Moose Factory about Oct. 1, and will then come out either by Missauka, which will bring us out north of Sault St. Marie, and which is reported easier and shorter to the C.P.R., or by the Abitibi. I will likely walk in about Oct 15th.

FACE ON FIRE

Itchy Scaly Eczema Seven Years. Face and Head Full of Large White Scales and Sores.

So Disgusted I Was Ashamed To Be Seen in Company. Instant Relief and

SPEEDY CURE BY CUTICURA.

My case of Eczema was of about seven years' standing. It was of the scaly, itchy kind. I sometimes thought my face and arms were afire. My face was full of large, white scales, and my head was full of sores, in fact I was disgusted, I was ashamed to go in company. I took five bottles of CUTICURA RESOLVENT, washed my face and arms with CUTICURA SOAP, put on CUTICURA (ointment), and found *great relief instantly*, and I got a clean face again, thanks to the CUTICURA REMEDIES.

You may do as you see fit with this.

VALENTINE EGNER,

March 7, 1898. 168 Stagg St., Brooklyn, N. Y.

ACNE 2 YEARS CURED BY CUTICURA

I suffered two years with Acne. I have tried all kinds of medicines but they did me no good. I used six bottles of CUTICURA RESOLVENT, nine cakes of CUTICURA SOAP, and *I am cured. My* skin is as smooth as any baby.

Feb. 22, 1898. LEE L. FISHER,

223½ N. Compton Ave., St. Louis, Mo.

CUTICURA REMEDIES are beyond all doubt the greatest skin cures, blood purifiers, and humor remedies of modern times. Warm baths with CUTICURA SOAP, gentle anointings with CUTICURA (ointment), purest of emollient skin cures, and mild doses of CUTICURA RESOLVENT, greatest of blood purifiers and humor cures, have cured thousands of cases where suffering was almost beyond endurance, hair without or all gone, disfigurement terrible.

TOUGH TURF PATRONS.

A Gang of Petty Bandits Wake up Belleville.

The Belleville Sun turns its rays on a gang of toughs such as put themselves in evidence at all large gatherings, whether a race meet or a camp meeting. But this particular gang seems to have been unique of its class. Let the Sun tell it thus:

One of the toughest aggregations of humanity that ever honoured this city with a visit was here yesterday. A train of nineteen cars of race-horses left Buffalo en route to Montreal yesterday, and near Fort Erie it was boarded by a couple of hundred track followers, most of whom were negroes and not a few small, but exceedingly tough boys. A posse of police were procured and went to the train, but could not get the fellows off the cars. The outfit reached here about 1.30 o'clock yesterday afternoon and on its arrival a large number of the bandits visited Doctor's hotel, where they deliberately took possession of the bar and robbed the till of about $10. The railway men were powerless and could do nothing with the gang. One official who has been for years on the railroad said that beyond doubt they were the worst lot he had ever met with. Conductor John White, a man who is far from lacking in courage or muscle, brought the train from Toronto here, but could do nothing with them.

The train was here only about seven minutes, but in that time the touts made a great raid. Several bottles of a patent medicine known as "Moxie," were among the loot at Doctor's hotel, and they also stole a lot of Scotch and Irish whiskey. An effort was made to notify Kingston to close the station saloon, but the message failed to reach there. Hugh McKinnon, formerly chief of police here, and four officers were on the train, but they could not do anything with the mob of white and coloured bandits. Conductor Alex. Laughlin, who took the train from here to Brockville, was cunning enough to wire ahead, and the train was not stopped at the Brockville passenger station, but taken to Manitoba yards, where there are no hotels to pillage.

A despatch from Hamilton says that the railroad hotel there was assailed by the lot of touts and toughs, and was looted and windows and glassware smashed.

Cobourg and Kingston refreshment rooms also received the attention of the ruffians and were robbed and damaged.

THE METEOR DESCRIBED.

Streak of Light Seen by Many on July 5th Described by Astronomers.

The Astronomical and Physical Society, Toronto, held a very interesting meeting at the Technical School on Tuesday evening. A quantity of correspondence was read from a number of people who had seen the meteor on July 5th, (observed by Peterborough people about 9 p.m.) and the president of the society, Mr. Harvey, presented his report on the occurrence.

The President stated that as far as he had been able to calculate, the meteor, which was of iron, and apparently on its way to the sun, had come into the earth's influence about one hundred miles vertically above Lake Sougog, and had then described a curve of about three hundred miles, bursting over Lake Huron. Mr. Harvey believed that the mass was about two or three feet in diameter, and weighed probably more than a ton. It was oblong in shape and travelled at the rate of thirty miles a second. Peterborough is said to be the farthest point east where a loud noise was heard when the meteor burst.

The correspondents described it variously, as being of a red, yellow and orange colour. Many sketches were sent with the letters, and the society feels obliged to those who have furnished information in the matter.

DAILY TEMPERATURE RECORD.

The following are readings of the official thermometers for this afternoon, as well as the highest and lowest yesterday—shade temperature:—

SPAIN REPUDIATES.

(Continued From First Page.)

do so. This being the main point the interview soon concluded.

Before parting, General Shafter complimented General Toral highly upon the skill and gallantry of his resistance. Upon the return to General Wheeler's headquarters, the news of the complete victory was communicated to General Lawton, to General Kent and to the brigade commanders. A scene of general rejoicing followed.

General Shafter held a regular levee before he dismounted, and was congratulated and complimented by all. He immediately appointed General Wheeler, General Lawton and Captain Miley to be commissioners on his behalf to treat with those appointed by General Toral. He then issued orders to permit the American troops to retire from the trenches, but absolutely forbiding anyone, soldier or civilian, from going into the Spanish lines.

The refugees are to be permitted to enter the city at present.

The order as to Cubans is very specific. They have shown a disposition to loot everything and any place. But they are not to have the privilege of glutting their appetites for plunder in Santiago.

A guard is to be maintained about the city, and the camps of the American soldiers are to be removed just to the front or to the rear of the lines, as in individual cases is most practicable. The change of the camp sites will undoubtedly improve the health of the troops.

The whole purpose of the American commander now is to protect the health of the army, especially from the dreaded contagion.

It is claimed that there is no fever in Santiago, but the city is full of filth and stench, and if the United States soldiers are allowed to go in, it will undoubtedly become a pest hole.

The Spanish Commissioners.

Playa del Este, July 15.—12.15 p.m.—General Toral has named as the commissioners on behalf of his government to settle the terms of surrender, Mr. Robert Mason, British Vice-Consul, General Talon and his own chief of staff.

THOSE PRICELESS BOXES

Of Dodd's Kidney Pills Cured Mr. Colwell of Bright's Disease.

Windsor, July 11th.—"Is it true, Mr. Colwell, that you have been cured of Bright's Disease by Dodd's Kidney Pills?" our reporter asked Mr. R. F. Colwell, jeweller, of No. 9, Oulette street, to-day.

"It is indeed," was the answer. I suffered two years with Bright's Disease. My back ached all the time. I had awful, aching pains in my loins, a puffiness under my eyes, and my urine was very dark coloured.

"For a time I could find no remedy to do me any good. But one day a friend told me he had been cured of the same disease by Dodd's Kidney Pills. I bought a supply. A few boxes cured me thoroughly." Dodd's Kidney Pills cure all kidney complaints.

Paris Green Was Found.

Toronto, July 16.—Prof. Ellis, analyst for the Ontario Government, has made his report in the case of Peter Blair, who died somewhat mysteriously on July 7th, at Carleton. The stomach was sent here for analysis. Prof. Ellis has forwarded his report to the authorities at Carleton Place. In the stomach he found Paris green in fatal quantities, and it was that which caused Blair's death. The coroner's inquest into the case was adjourned from yesterday until the 28th, when the report of Prof. Ellis will be ready.

An Overdose of Medicine.

Stratford, July 14.—Mr. J. H. Flagg, Police Magistrate of Mitchell, died at 3 o'clock yesterday. For some time past Mr. Flagg had been suffering from rheumatism. He was taking colchicum for relief, and yesterday morning he took by accident an overdose. Two physicians were summoned and spent the forenoon with him, but though they did all in their power for him it was impossible to overcome the effects of the drug.

To Cure a Corn.

There is no lack of so-called cures for the common ailment known in corns. The vegetable, animal, and mineral kingdoms have been ransacked for cures. It is a simple matter to remove corns without pain, for if you will go to any druggist or medicine dealer and buy a bottle of Putman's Painless Corn Extractor and apply it as directed the thing is done. Get "Putman's," and no other.

Good Times Coming.

Under the use of Scott's Emulsion all the organs and tissues take on new life. The mind acts with more vigor, the heart beats stronger and the blood is greatly enriched.

Weak Heart.

"For years I suffered from weak action of the heart, dizziness and a watery condition of the blood. Milburn's Heart and Nerve Pills have made my heart strong and enrichened my blood so that now I am free from the troubles that formally distressed me." B. A. ROSS, Ailsa Craig, Ont.

Great Smash-up

IN PRICES DURING JULY.

$12,500 SLUMP IN ONE CLIP

Gough Bros.' Big Double Stores and Oak Hall Branch Included.

Mark these words! and study them over, and see what it means for you. Since the close of a great day's business last Saturday, we have deliberately slashed about $12,500 off prices in our two Big Double Stores and Oak Hall Branch—including a net shrinkage of fully 25 per cent. in profits.

This is a gigantic undertaking to save you money, and to rapidly reduce all summer stocks. We are not so awfully greedy after gain as not to make prices bend to our will when we want to—even if loss must follow. You can't move stocks fast enough in midsummer without cutting the life out of the profits. But as our great stocks are brought away down to begin with, we can afford to do some marvellous selling, still further away down to quickly clear them. Never anything done in Peterborough can compare with it:—

THE NAPANEE BANK ROBBERY.

Four Persons in Jail Charged With the Crime.

EX-TELLER PONTON ONE OF THEM

Pare, the Professional Burglar, Betrays His Confederates and Tells the Story of the Robbery—Ponton Takes His Arrest Very Coolly—Proceedings Before the Magistrate at Napanee.

Napanee, July 16.—Yesterday at 2.30 a.m. George E. Pare of Manchester, N. H., arrived in charge of Superintendent O'Dowd of that city.

The party, comprising the prisoner and five detectives, drove at once to Magistrate Daly's house and aroused the elderly gentleman from his slumbers. After being furnished with it, Mr. Daly read the indictment:

"George E. Pare, you are accused of breaking into the Dominion Bank at Napanee on the 27th of August, 1897, and extracting therefrom some $33,000 in cash and bills."

Pare, "Yes, sir."

The magistrate then said that he would remand Pare to the jail for eight days,

CAROLINE PARE, alias MME. SAUCIER
Now in jail at Napanee.

until a suitable time arrived to hold a preliminary examination.

Mrs. Saucier, the sister of Pare, was brought up to-night from Montreal, and is lodged in the jail along with her brother and Mackie, of Belleville.

W. H. PONTON ARRESTED.

The Ex-Teller Taken in Charge on Saturday Evening and Lodged in Napanee Jail.

Napanee, Ont., July 18.—W. H. Ponton, who was teller in the Dominion Bank here last August at the time of the robbery, was arrested Saturday evening by Chief of Police Adams and Constable Huff, at Massassaga Point, a summer resort on the Bay of Quinte, near Belleville. Ponton was brought here by the midnight G.T.R. express and lodged in the county jail.

If reports are true a declaration sworn to by Pare, the man that was circulating the unsigned bills in Manchester, N.H., waived extradition and was brought here last Friday night, implicates Ponton just as deeply as any of the others, including Mackie of Belleville, who is also in jail here.

If reports are true Pare in his confession at Manchester, N.H., went into every detail in connection with the Dominion Bank robbery last August, explaining all their movements for months before the robbery was planned and executed in August.

One who should know, reports that Pare says that after the robbery the money was taken to Ponton's room, where it was counted and done up in an oil cloth and put inside of a biscuit box, and then taken half a mile east of the town on the G.T.R. and buried, the spot being marked with the letters G.T.R. being cut on one of the fence boards right above where it was buried. After that was done they dispersed, Pare and Holden catching a freight train going east, up the steep grade at this place.

Pare says it was understood and agreed that the money was not to be molested in any way until last June, when they would meet and divide the spoils. Pare says when they did meet in June Ponton admitted taking $80 from the hidden box. For violating the agreement he was fined $2,000 and only received $3,000 as his share, instead of $5,000.

After Pare had made his confession in Manchester, Detectives Dougherty and Wilkes of the Pinkerton Detective Agency came to Napanee and were accompanied by one or two citizens to the spot described by Pare, when the fence marks were found without any difficulty and close by the empty biscuit box and oil cloth that the money was done up in.

When Ponton was arrested at Massassaga Point he was as cool and apparently unconcerned as though he had never heard of the robbery, and, although brought to Napanee and lodged in jail, still presents the same unconcerned demeanor.

The citizens are greatly excited over the turn affairs have taken, and Ponton's most intimate friends are very uneasy and alarmed over such a mass of circumstances as are claimed to be contained in Pare's confession.

The next move to be made is the extradition of Holden from Boston, Mass., to Napanee. This no doubt will be done early this week and he will be brought here.

Sympathy for Ponton.

Belleville, Ont., July 18.—William H. Ponton was Saturday night arrested at Massassaga Springs near the city, where he was camping, in connection with the Napanee Bank robbery. Mr. Ponton showed no excitement when arrested. He was taken to Napanee by Chief Adams and Constable Huff, who made the arrest, after a thorough search of his room had been made. Sympathy for the prisoner was shown by a crowd on Front street, by hooting and groans at the officers when they were taking Ponton to a restaurant for refreshments.

Ponton was apprised of the fact that he was to be arrested by a friend, who wheeled down about half an hour ahead of the Napanee police. He simply remarked: "Well, I am here when they come." His mother is quite confident of her son's innocence, and, although very ill, is bearing up wonderfully. The warrant on which he is arrested gives the same charge as the previous one.

THE ROBBERY.

A Clear and Succinct Account of How the Deed Was Planned and Carried Out.

Napanee, July 18.—The method of robbing the Dominion Bank here last August was a simple one. There is a passageway running from the main street down the side of the bank. The men passed down this and broke into a woodshed behind the bank. They then bored 18 or 20 holes with a large auger and cut out a piece of board large enough to admit the body of a man. This gave access to the hall of the bank. The doors were not locked.

The burglars opened the vaults, secured their booty, changed the combinations, carefully locked the doors and escaped without leaving a trace of their crime behind them.

The robbery was not suspected when the bank was opened for business Saturday morning. The combination lock of the outside vault had been out of order for some time, and frequently gave considerable trouble.

The cashier went to the vault when the bank was opened, and, finding trouble in working the combination, called in an expert locksmith. It was believed that if the outer vault was opened that the inner one would give no trouble.

While working upon the door of the outer vault it was discovered that the combination had been changed. Although the inner door was expected to open at once, as soon as access had been gained to this it was found that the combination of this lock had also been changed.

This so complicated matters that the officers worked until late Sunday evening before an entrance was effected. Then the truth was known. The bank was out about $34,000.

The bank people offered a series of rewards, amounting to $12,000, soon after the robbery. This was scheduled as follows: Five thousand dollars for information leading to the conviction of any person concerned, as a principal or otherwise, in the theft; $5,000 for information leading to the recovery of the money, and in like proportion in case any part of the money was recovered. A reward of $2,000 was also offered for the return of the uncountersigned $10 notes, and in like proportion in case only part of the notes were recovered.

This money stolen was in the following denominations:

Three hundred and ten Dominion Bank notes of the denomination of $10 each.

One thousand five hundred and twenty-four Dominion Bank notes of the denomination of $5 each.

One hundred and forty five Dominion Bank notes of the denomination of $20 each.

One Dominion Bank note of the denomination of $500.

Four hundred and seventy-two Dominion of Canada legal tender notes, denomination of $1 each.

Two hundred and one Dominion of Canada legal tender notes, denomination $2 each.

Three hundred and eighty-five Merchants' Bank of Canada notes.

One thousand one hundred and fifteen Bank of Montreal and Canadian Bank of Commerce notes.

Canadian silver to the amount of $643.

United States gold of all denominations to the amount of $2,000.

In addition, a number of drafts, cheques and notes were stolen. There were also 1,000 Dominion Bank notes of $10 each, dated Toronto, Jan. 2, 1898. These were uncountersigned in the lower left-hand corner by the cashier.

"OLD GLORY" WAVES

In Triumph Over Surrendered Santiago de Cuba.

SHAFTER GROWS PICTURESQUE.

The Terms as Finally Signed Between the Vanquishers and the Vanquished—The Surrender Completed and Spanish Troops Stack Their Arms Before the Americans—Latest War News.

Washington, July 18.—The War Department posted the following bulletin at 5.15 p.m. yesterday:

Santiago de Cuba, July 17.—Adjutant-General, U.S.A., Washington:

I have the honor to announce that the American flag has been this instant, 12 o'clock noon, hoisted over the house of the civil government in the City of Santiago. An immense concourse of people present. A squadron of cavalry and a regiment of infantry presenting arms, and band playing a national air. Light battery fired salute 21 guns. Perfect order is being maintained by municipal government. Distress is very great, but little sickness in town. Scarcely any yellow fever. A small gunboat and about 200 seamen left by Cervera have surrendered to me. Obstructions are being removed from the mouth of harbor. Upon coming into the city I have discovered a perfect entanglement of defenses. Fighting as the Spaniards did the first day, it would have cost five thousand lives to have taken it. Battalions of Spanish troops have been depositing arms since daylight in the armory, over which I have guard. General Toral formally surrender the Palaza and all stores at 9 a.m.

W. R. Shafter, Major-General.

STORY OF THE SURRENDER.

Spanish Flag, Which Had Floated for Centuries Over Santiago, Came Down to Give Way to "Old Glory."

Santiago de Cuba, Sunday, July 17.—(1 p.m.)—The American flag is floating in triumph over the Governor's Palace at Santiago de Cuba. General McKibbon has been appointed temporary military Governor. The ceremony of hoisting the Stars and Stripes was witnessed by a vast concourse of 10,000 people. As the chimes of the old cathedral rang out the hour of 12 the infantry and cavalry presented arms. Every American uncovered and Capt. McKittrick hoisted the Stars and Stripes. As the brilliant folds unfurled in a gentle breeze against a fleckless sky, the cavalry band broke into the strains of "The Star-Spangled Banner." At the same instant the sound of the distant booming of Capt. Capron's battery, firing a salute of 21 guns, drifted in. When the music ceased, from all directions around the line came floating across the plaza the refrains of the regimental bands, and the muffled, hoarse cheers of the American troops. The infantry came to "order arms" a moment later, after the flag was up, and the band played "Rally Round the Flag, Boys."

Instantly General McKibbon called for three cheers for General Shafter, which were given with great enthusiasm, the band playing Sousa's "The Stars and Stripes Forever."

The Official Capitulation.

Official endorsement of the terms of capitulation were received from Madrid at 10 o'clock yesterday morning and 22,000 Spanish soldiers have yielded their arms to their American conquerors, and the sovereignty of Spain in Eastern Cuba has ended. The Spanish officers retained their side arms, but the soldiers stacked their guns before the American lines and were placed under guard, either to return to Spain under convoy or to give their oaths to remain in Cuba as non-combatants. Several regiments of Gen. Shafter's army are now in possession of the fallen city.

What will be done with Gen. Shafter's force is not yet fully decided. The physicians declare that the army, owing to the hardships and the fever, will not be fit for active duty for some time to come, and Gen. Miles is believed to be seriously considering the proposition of leaving only immune regiments to hold the conquered province, and return the body of the forces to the United States, sending other immunes from there to reinforce the Santiago detachment if necessary.

New Cases of Yellow Fever.

New cases of yellow fever continue to appear daily, and fully 600 are now under treatment, but the disease is of a very mild form and the physicians say it is now well in hand. Only five deaths have occurred up to last night, the low mortality being remarkable, and most encouraging to the physicians, who had grave fears that the death rate would be heavy.

The formal sanction by the Madrid Government of the terms of capitulation yesterday unravelled the tangled skein of demands and counter demands between the opposing commanders, which threatened Saturday to end the negotiations and compel a return to arms.

After numerous conferences had resulted in the agreement already sanctioned by General Blanco, General Toral decided that the approval of the Madrid Government was necessary before he would leave the city. General Shafter maintained that no such approval was necessary. The whole matter was cleared up, however, when General Toral received the necessary sanction from Madrid.

The Agreement.

The agreement consists of nine articles: The first declares that all hostilities shall cease pending the agreement of final capitulation.

The second that the capitulation includes all the Spanish forces and the surrender of all war material within the prescribed limits.

A Nervous Toronto Woman Walked the Floor During the Night for Hours at a Time—She Makes a Statement.

TORONTO, ONT.—"I was troubled with nervousness. It was impossible for me to keep still and if the spells came over me during the night I had to get up and walk the floor for hours at a time. My blood was very poor and I was subject to bilious attacks. My feet would swell and I was not able to do my own housework. I treated with two of the best physicians here but only received relief for a time. I became discouraged. One day a friend called and advised me to try Hood's Sarsaparilla. I laughed at the advice but I was prevailed upon and procured one bottle. Before I used it all I began to feel better. I took several bottles and also several boxes of Hood's Pills. Now I can eat and drink heartily and sleep soundly. Hood's Sarsaparilla has entirely cured me and also strengthened me so that I now do all my own work. I cheerfully recommend Hood's Sarsaparilla to all sufferers from nervousness, weakness or general debility." MRS. H. F. PARM, Degrassi Street.

EDITORIAL NOTES.

AND to think, remarks the Montreal Herald, that all these years we have been cozened into thinking that Sir Charles Tupper, Bart., was the only Canadian who could get a word in edgewise in England.

THOSE Government figures published respecting trade returns are, remarks the Ottawa Free Press, refreshing as the flowers in May. An increase in trade of forty-four million dollars; an increase in customs revenue notwithstanding decreased taxation; a large sum from the Yukon, and things booming generally. The fiscal year of grace 1897-8 breaks the record.

LARGE as the figures of our excess of trade, forty-four millions over last year, they do not represent anything like the actual growth of trade in volume. Taking 1872-73 for instance, the first fat year, with a trade of $217,801,803, the figure of last year is nominally but seventy-two millions more. But prices in 1872-73 ran as a rule far higher than last year, and the foreign trade value in 1872-73 probably did not represent much more than half the volume of foreign business done last year. There is a good deal to be satisfied with about these latest facts of national trade, the Ottawa Journal thinks. Canadians should advertise them.

"WHO was it demanded that the rights of these three thousand constables should be confirmed by an extraordinary session of the Legislature?" says the Toronto World, the advocate of costermonger tactics in the Legislature. No one, perhaps, responds the Ottawa Free Press. But the World knows well enough that its party was going to ask the courts to deny the constables a right which was clearly theirs, had never been questioned, and had been exercised for thirty years. We are of the opinion that the action of the Government in the matter is somewhat superfluous and the "doubts" it proposes to clear up, after the manner of the Federal Parliament, formerly, are merely manufactured for political purposes by a faction desperate and at a loss for expedients. But the public will see that Mr. Hardy is right to take no chances.

MULHALL, the English statistician, has submitted the following table of estimates of the wealth of these eight countries:

United States	$81,750,000,000
Great Britain	59,030,000,000
France	47,950,000,000
Germany	40,260,000,000
Russia	32,125,000,000
Austria	22,560,000,000
Italy	15,800,000,000
Spain	11,300,000,000

Great Britain's colonies and territories are not included in the estimate of her wealth, otherwise she would lead the United States; and it must be borne in mind that a very large share of the wealth of the United States is represented by British capital; if the amount of British loans were deducted from the figures of United States wealth, and added to the British figures, they would, not including the colonies, be far in excess of United States figures. Also it is to be noted that the British Empire and the United States together would be wealthier than all the next six powers combined.

PREMIER HARDY claims the "Inalienable right to give a man a dollar to vote, and to call him a constable."—Toronto Mail.

The Mail is talking rubbish. For thirty years a constable's right to vote has been unchallenged, and now that Mr. Whitney sees a chance of winning a few protests by disfranchising votes he raises the question which was settled a dozen years ago by the Dominion Parliament by exactly the same means that Mr. Hardy proposes to employ. The Mail and Empire must take a very low view of human nature to think that a man will sell his vote for a dollar, that is a Conservative, for if a Liberal were appointed constable his vote was decided before he received his dollar. Besides, where does the bribery come in? A man paid a dollar for service as constable earns his money and is under no more obligation to his employers than his employees are to him. The organ talks at random. It is "rattled" because Mr. Whitney's game to disfranchise votes is spoiled. As the Globe pointed out a day or two ago, Mr. Whitney is reversing the process. Instead of getting power by votes, he is seeking power by robbing men of their votes.

IN its comment on the the action of the Hardy Government in summoning the Legislature for August 3rd the independent Toronto Star has the following:

Marter is reported as denouncing the Government's action and explanation for calling the Legislature. Other Conservatives may echo his remarks. They had better go slow, however. Every word of denunciation of the Hardy Government in this instance is condemnation of Sir John Macdonald, Sir John Thompson and Dalton McCarthy * * * * The condition that now confronts the Legislature is exactly analagous to that which confronted the House of Commons in 1887, and the precedent which the Government adduces is one at which the Conservative Opposition could hardly find grace to cavil. What was good enough for Sir John Macdonald, Sir John Thompson, and Dalton McCarthy should be good enough for Col. Whitney, Col. Matheson and Mr. Marter.

THE WALKERVILLE STRIKE.

A New Staff of Moulders Said to Have Been Engaged at Toronto.

Windsor, Ont., July 18.—The striking moulders at Walkerville have heard that the Kerr Engine Company has engaged a new staff of moulders at Toronto to take their places and that the Malleable Iron Company has sent a lot of work to the Kerr Engine Company's place at Oshawa. The strikers will send a delegation to thwart these plans.

THE U. S. COMMISSIONERS

Who Will Meet the Men From Canada and Adjust Our Relations.

Washington, July 18.—The President has appointed the following commissioners to meet a similar commission on the part of Great Britain and Canada for the purpose of adjusting the relations between Canada and the United States: Senator Charles W. Fairbanks of Indiana, Senator George Grey of Delaware, Representative Nelson Dingley of Maine, Hon. John A. Kasson of Iowa and Hon. John W. Foster of the District of Columbia.

Drowned at Pickering.

Pickering, Ont., July 18.—George Liscombe, a young man aged 26 years, was drowned at the mouth of the river here Friday night. The body was recovered in about half an hour by Prof. C. H. C. Wright and every effort made to resuscitate life, but without avail.

Dr. Beatty Dead.

Cobourg, Ont., July 18.—Dr. John Beatty, for 63 years a resident here, died yesterday morning. In his younger days Dr. Beatty had a very extensive medical practice in this vicinity. He was Mayor in 1860, when the Prince of Wales visited Cobourg, and for many years took a very active part in political and municipal affairs, as well as in matters connected with the Methodist church. His wife died about three years ago, after over 62 years of happy married life. Dr. Beatty leaves five daughters and one son.

CANADA'S BIG TRADE.

Wonderful Expansion in the Last Two Years.

UNIQUE EXPORT CONDITIONS.

For the First Time Since Confederation the Exports of Home Produce Exceeded the Total Imports—A Most Encouraging Outlook for the Development of the Country.

Ottawa, July 18.—The trade figures for the fiscal year which ended on June 30 disclose a condition of prosperity of which the history of this country affords no parallel. They indicate an enormous expansion in trade; but a still more encouraging feature is that, satisfactory as they are in themselves, they are prophetic of better things to come. Tremendous as are the strides which Canada has made during the past two years, no one who contemplates her resources and capabilities can dispute that she is only on the verge of her development, and it does not seem too much to expect that having at last struck her gait she will go forward to commercial and national greatness with a rush. When the present Government came into office two years ago the total trade of the country, including coin and bullion, was $239,000,000. It has advanced in the year just closed to $289,000,000, an increase of a round $50,000,000. Canada's exports were in 1896 $121,000,000; in 1898 they were $158,700,000, an increase of $37,000,000. The imports were, in 1896, $118,000,000; in 1898 they were $130,600,000, an increase of $12,600,000. Most Canadians would be satisfied to proceed at this rate of progress, but with the accretion of national, industrial and financial strength in a young country the pace of advancement is proportionately quickened. There is an aspect of the figures published in Saturday's Globe which should not escape the attention of those who contend for the argument that a favorable balance of trade is a sign of properity. Until the present Government came in power a favorable balanceof trade had been achieved on two occasions only since Confederation; in 1880, when the difference was under a million and a half of dollars, and in 1895, when it was about $3,000,000. The average yearly excess of imports over exports since Confederation up to 1887 was $16,766,000. In 1897 the value of our exports exceeded the imports by $18,732,000, and in 1898 by $27,096,000. If this test be worth anything, and it has frequently been applied as the measure of prosperity, Canadians may be pardoned if they swell their breasts with pride. In 1897 for the first time since Confederation the exports of home produce exceeded the total imports by nearly four and a half millions. The detailed figures for the year just closed are not yet available, but a still better showing in this respect will be made. The results of the past year are unique in that they show an increase in trade almost double that of any previous year in the history of the country.

Crow's Nest Investigation.

Mr. R. C. Clute, Q.C., has arrived at MacLeod, where he will begin his investigation into the circumstances attending the death of the two young Nova Scotians, Fraser and Macdonald, who, after working on the Crow's Nest Pass construction, were left to die unattended in a box car. The evidence taken by the commission has been forwarded to Mr. Clute. The inquiry will be searching and exhaustive.

Captain Theriault Arrested.

The Department of Justice is considerably relieved at the information conveyed by cable of the arrest of Capt. J. A. Theriault in London. Capt. Theriault of the 89th Battalion, at the close of the Levis militia camp, received the drill pay for his company, and, instead of turning it over to the men, skipped with the whole amount. He was accompanied in his flight by the color-sergeant and the two took passage on the steamer Labrador for France, via Liverpool. The Department of Justice was notified and, upon the arrival of the steamer in Liverpool, had the two fugitives shadowed. They went to London, and there, at the instance of the Canadian authorities, were arrested. Friday Capt. Theriault appeared before the Police Magistrate at the Bow Street Station, being remanded for a week. An officer of the Dominion police will be despatched at once to England with documentary evidence sufficient to ensure Theriault's commitment to stand his trial in Canada.

SERIOUS TROUBLE IMMINENT.

British Cruiser Goes to Settle Newfoundland Fisheries Difficulties.

St. John's, Nfld., July 18.—The British cruiser Cordelia, Commodore Bourke, sailed from here yesterday for the French shore to settle a series of disputes between the owners of British and French lobster factories.

A number of British settlers have had their huts torn down by the crews of warships for illicitly packing lobsters. These persons have invaded French locations and taken the Frenchmen's traps. Serious trouble is imminent.

A Manitoba Lady Tells About Her Case.

There is no need whatever for so many women to be the subject of faint spells, heart and nerve weakness, anaemia, or any of those health destroying ailments peculiar to her sex. Milburn's Heart and Nerve Pills regulate the heart beat and make it strong and full, tone the nerves, enrich the blood, and relieve the pain and weakness from which so many women suffer.

Mrs. Alexander Setter, of Pigeon Bluff, Man., writes an account of her case as follows: "I have great pleasure in giving my experience of Milburn's Heart and Nerve Pills. For about ten years I was troubled with throbbing and fluttering of the heart. I tried five doctors and several remedies but none of them did me much good. Lately I heard of Milburn's Heart and Nerve Pills and bought two boxes. Before I started using them I could not do my house work and gave myself up to die, as I thought I would never be cured. Now I feel really splendid since taking the pills, do my work, enjoy my meals and feel as if there was something in life worth living for."

Milburn's Heart and Nerve Pills cure palpitation, throbbing, skip beats, dizzy and faint spells, nervousness, sleeplessness, weakness, after effects of grippe, female troubles, etc. Sold by druggists or sent by mail on receipt of price, 50c. a box or three boxes for $1.25. OFFICE OF W. A. MURRAY & CO., 17 to 27 King St., East, Toronto.

Wm. McCabe, Esq., Managing Director, N. A. L.:

DEAR SIR:—In answer to your request for me to decide upon one of the following options offered me for settlement of my 15-payment Life Investment Policy for $5,000 which has matured this year, viz.:

1st, to take the value of the Policy in Cash $5,008 00
2nd, or fully paid-up insurance for 3,280 00
3rd, or take the profits in cash and continue my policy without further payments being required from me, such policy participating in future profits. 2,050 25

I find it somewhat difficult to make a decision either of the three options being so satisfactory. I am certainly very much pleased with the results offered me, and as I find many others are giving full testimony to the profit-earning power of this company, I do not hesitate to give my endorsement as well, that the North American Life is one of our strongest Canadian institutions to day giving first class results on Investment Policies, on a safe and conservative basis. I find that my policy, which was originally a Life by fifteen payments, has become an Endowment at the end of the Investment period.

"OLD GLORY" WAVES.

Continued from first page.

Third—The transportation of the troops to Spain at the earliest possible moment, each force to be embarked at the nearest port.

Fourth—That the Spanish officers shall retain their side arms and the enlisted men their personal property.

Fifth—That, after the final capitulation, the commanding officer shall furnish a complete inventory of all arms and munitions of war and a roster of all the soldiers in the district.

Seventh—That the Spanish general shall be permitted to take the military archives and records with him.

Eighth—That all guerillas and Spanish irregulars shall be permitted to remain in Cuba, if they so elect, giving a parole that they will not again take up arms against the United States.

Ninth—The Spanish forces shall be permitted to march out with all the honors of war, depositing their arms, to be disposed of by the United States in the future; the American commissioners to recommend to their Government that the arms of the soldiers be returned to those "Who so bravely defended them."

The articles were signed yesterday afternoon after a four hours session of the commissioners, who agreed that the terms of capitulation should await the sanction of the Madrid Government.

Turned in the First Day.

Washington, July 18.—At 11 o'clock last night Adjt. Gen. Corbin made public the following despatch from Gen. Shafter:

Headquarters Army, Santiago, July 17—My ordinance officers report about 7,000 rifles turned in yesterday and 60,000 cartridges.

TO END THE CONFLICT.

The Madrid Correspondent of London Sunday Times Asserts Main Points Have Been Agreed Upon.

London, July 18.—The Madrid correspondent of the Sunday Times says: "Despite official denials and preparations for a continuance of fighting, I have the best authority for saying that peace is assured. It is beyond doubt that the main points have been agreed upon with the authorities at Washington. It is understood that Spain will evacuate Cuba, the Americans undertaking the transportation of the troops to Spain.

"Spain, through the Mexican Minister, has represented to America that she is firmly decided on peace, at the same time explaining the difficulties arising from the opposition of the Cuban volunteers and Spain's total exhaustion through her enormous losses.

"The political situation is most critical, owing to the agitation in the principal towns."

Seeking Honorable Peace.

Madrid, July 17.—(8 p.m.)—A member of the Cabinet in an interview to-day asserted that the Government was seeking an honorable peace with the United States.

CERVERA AT ANNAPOLIS.

Distinguished Spaniard Courteously Conducted to His Prison Home.

Annapolis, Md., July 18.—Admiral Cervera, the recent commander of the Spanish squadron which was destroyed off Santiago, and about 40 Spanish officers were brought to this city on Saturday and are now prisoners of war within the historic precincts of the United States Naval Academy. The auxiliary cruiser St. Louis brought the foreign visitors up by Chesapeake Bay. The Admiral took courteous leave of the officers of the St. Louis and marched down the gangway of the ship with a stately tread.

Immediately following him were the recent Govenor of Santiago, Capt. Eulate, late of the Vizcaya, and the others of the Spanish uniform, but most of them were rgiged in duck uniforms that had been furnished them by the Americans.

Chairs had been provided in the rear of the tug for the prisoners, and here they sat while the tug steamed up to the quaint old city of Annapolis. At the wharf Commander Edwin White, with a detachment of United States marines, was awaiting their coming. He received the Admiral in person and escorted him immediately to the superintendent's carriage and drove to the residence of Admiral McNair, the Superintendent of the Naval Academy. A brief formal call was made there, at wich courtesies were exchanged, and Admiral McNair explained to the visitors the arrangements that had been made for their comfort. Admiral Cervera was then escorted to his quarters, a plain brick structure of three storeys, *in what is known as* Buchanan Row. The other officers signed the parole and were conducted to quarters in Stribling Row, which is used by the cadets in term time for dormitories.

OUR RIFLE SHOTS.

Canadians Showed Up Well on Saturday —Hon. Mr. Mulock a Visitor at the Ranges.

Bisley Camp, July 18. — Saturday morning opened bright and clear, with a nice steady breeze.

The camp was visited by many from London and elsewhere during the day, among whom was Hon. William Mulock, Canada's Postmaster-General.

The good weather was an encouragement to good shooting, and in the several events for which the individual members of the team entered they did remarkably well.

Shooting for the Prince of Wales Prize took place. It is a squadded competition, single entries, open only to winners of N.R.A. gold, silver and bronze medals (not recruits' medals). The aggregate value of the prize is £300, of which £100 is given by H.R.H. Prince of Wales, and a badge and £200 added by the National Rifle Association. The range is 200 and 600 yards, ten shots at each distance. Lieut. Robertson is a tie with five others for the prize. The tie will be shot off on Monday.

In the competition for the Elcho Challenge Shield, open to one team of eight from England, Scotland and Ireland, 15 shots at 800, 900 and 1,000 yards, England won with a score of 1,595, Scotland 1,540 and Ireland 1,505.

SHOOTING AT SKAGUAY.

"Soapy" Smith Wounds City Surveyor Reid and Is Shot and Killed.

Vancouver, July 18.—"Soapy" Smith, notorious confidence man, was killed at Skaguay last week by Frank Reid, surveyor. A returned Dawsonite was robbed of his sack of gold, and Smith defied the authorities to make the arrest of his gang, and whipped out a Winchester, with which he shot Reid through the hip. Reid replied with his revolver, killing Smith instantly. The steamer Tartar brought down thirteen of "Soapy" Smith's gang, who were driven aboard the vessel at the point of rifles. This was done in order to prevent their being lynched. Included among the thirteen is Jennings, bartender at "Soapy's" saloon, and Miss May Shanley, who is called "Soapy" Smith's wife. Before Miss Shanley was put on the Tartar the Citizens' Committee took from her several thousand dollars, which "Soapy" had collected in his lifetime. When the Tartar left the city Surveyor Reid was reported to be dying from the effects of his wounds from the dead gambler's gun. That was the reason why the Citizens' Committee put the rest of the gang aboard the steamer, or they would certainly before now have been shot by the infuriated citizens.

THOSE PRICELESS BOXES

Of Dodd's Kidney Pills Cured Mr. Colwell of Bright's Disease.

Windsor, July 11th.—"Is it true, Mr. Colwell, that you have been cured of Bright's Disease by Dodd's Kidney Pills?" our reporter asked Mr. R. F. Colwell, jeweller, of No. 9, Oulette street, to-day.

"It is indeed," was the answer. I suffered two years with Bright's Disease. My back ached all the time. I had awful, aching pains in my loins, a puffiness under my eyes, and my urine was very dark coloured.

"For a time I could find no remedy to do me any good. But one day a friend told me he had been cured of the same disease by Dodd's Kidney Pills. I bought a supply. A few boxes cured me thoroughly." Dodd's Kidney Pills cure all kidney complaints.

Dutch Rule In Java.

The natives of Java resemble very much in character the natives of the Philippines. It is therefore interesting to know how the Dutch have succeeded so well in governing them. A Dutch official thus explains the method:

"We pay the native priests, we support a large native police force, and we rule by the hands and mouths of the natives; but all the time we have our own people on guard, and no important move is made without our consent. Thus the people and their chiefs are contented and happy, and we keep them so by maintaining a condition more favorable than they could hope to maintain themselves."

Company J.

"Doesn't it strike you as peculiar," said the cheerful idiot, who knows everything, "that in the designation of the 12 companies composing a regiment the letter 'J' should be omitted. The companies are lettered through 'M' in each regiment, but nowhere can Company J be found."

"It does seem strange," replied the boarding house philosopher. "How do you account for it?"

"I expect it's because 'J' stands for 'Jonah,'" said the C. I. "Uncle Sam wants no 'Jonahs' in his regiments."—New Orleans Times-Democrat.

THE STRENGTH OF WHEAT

Affected by the Crop Reports and Likewise by the Receipts of New Wheat—The Prices.

Saturday Evening, July 16.

There have been large arrivals of new wheat at western United States points the past few days, and these, together with indications of an altogether extensive yield this season, have depressed wheat.

On the Chicago Board July wheat closes the week at 73⅜c, 3⅜c lower than last Saturday, the September delivery closes at 67⅝c, a net loss of 1⅜c for the week, and the December option winds up at 67½c, a net loss of ⅝c. Other American markets have acted in sympathy. The Liverpool board records a decline of 1⅜d per cental in July wheat, 1d in September wheat and 2½d in December wheat. Continental markets have likewise shown weakness in wheat.

In Ontario new wheat is offering around 73c north and west, but buyers are not offering over 68c north and west for export.

DYING BY INCHES!

But Dodd's Kidney Pills will Yet Renew Life.

Thousands of persons die in the prime of life because doctors think Bright's Disease and Diabetes incurable. But Dodd's Kidney Pills cure them both. They *have cured* thousands of cases.

These diseases and other Kidney complaints are as common as ordinary colds. But people don't realize that they are afflicted till the disease has eaten deep into the system. Even then, Dodd's Kidney Pills will positively cure.

Thousands of *people are dying on their feet, but do not realize it.* They notice one or more of these symptoms: shortness of breath, loss of memory, failing sight, ravenous appetite, pale or reddish urine, with brick-colored deposit, scalding when urinating, constipation, nervousness, pains in the loins. Their only hope is Dodd's Kidney Pills. They won't fail. They never do.

Death by Accident of a Barnardo Boy.

A very distressing accident occurred in Davey's sawmill at Bancroft, the terminus of the I.B. & O.R.R., on Wednesday. A young Barnardo boy named Green was sent below to open the water gate. While standing on some wet and slippery timbers he lost his balance and fell on the large cog wheel, which drives the machinery, and was in a frightful manner, large pieces of flesh being torn from his body by the teeth of the wheel. The injuries were so serious that he died the same evening.

A Big War Indemnity a Pretext for Seizing the Philippines.

WAR TO THE DEATH BEFORE RUIN.

Special 3 p. m. despatches to the Examiner.

Both Spain and Porto Rico in Danger

Peuva Del Este, Guantonamo Bay, July 18—Steam launches have entered the harbour and examined the batteries, the wrecks of the Merrimac and the sunken Spanish cruiser, Reina Mercedes. They discovered six Spanish merchant steamers and one small gunboat in the harbour, and a prize crew was placed upon the latter. The torpedoes were taken up or exploded. The warships may not enter the harbour for some days. Commodore Watson's squad is preparing to go to Spain. General Miles will probably leave for Porto Rico in a day or two. He says a sufficient force will be sent to the Island at once to take it and hold it. Several vessels are preparing for the expedition to Porto Rico.

Some Trouble About Notifying Spanish Soldiers of Surrender.

Guantonamo Bay, July 18.—The problem notifying the Spanish troops outside of those which composed the garrison of Santiago of the surrender of Toral's forces is likely to cause some trouble. A large number of the Spaniards of the 4th army corps are still ignorant of the surrender.

A New Element in the Muss.

Tangiers, July 18—The Sultan of Morrocco is concentrating his troops on the frontier in order to preserve neutrality.

Watson Fitting out for Spain.

Washington, July 18—Orders have been given to complete all preparations so that Watson's squadron may sail for Spain by the end of the week. The United States will take immediate steps to

COLLECT THE CUSTOMS REVENUES

at Santiago as a war contribution, and it is not improbable that a Government customs office will be opened there and ready for business as early as to-morrow morning.

Defences of Spanish Forts.

Madrid, July 18 (noon).—The defence works are being actively pushed at all the Spanish ports.

Uncle Sam's Pretext to Seize the Philippines.

The newspapers here assert that the United States intends to demand an enormous indemnity, in order to have a pretext to seize the Philippine Islands as a guarantee.

War to the Death.

The supposed American peace terms are greatly exercising the public and the opinion expressed among the people that war to the death would be preferable to the ruin of Spain.

Porto Rico to be Invaded.

Washington, July 18.—The President held a conference on the war situation at noon to-day with Secretaries Day, Long and Alger, Adjutant-General Corbin and and others. It is believed that plans for Porto Rico's invasion were under consideration. It is thought that an army can be embarked within a fortnight. It will consist of 25,000 men.

A SAD DROWNING IN LITTLE LAKE.

MR. T. J. SABINE FINDS A WATERY GRAVE.

Drowned While Nearly the Whole Town Slept—Met His Death While Fishing in Little at an Early Hour This Morning.

The community was greatly shocked early this morning as the news rapidly spread that Mr. T. J. Sabine, a well-known and highly respected citizen, had met his death while fishing in Little Lake What impresses the fact of the uncertainty of human life and the mutability of human plans, is that to-day at noon Mr. Sabine, in partnership with Mr. T. M. McFadden, was to sign the contract for the paving of George and Water streets with the town.

The circumstances of the sad accident are simple. Mr. Sabine resides at 46 Chamberlen street. Mrs. Sabine being in delicate health, had expressed to her husband a desire for fresh fish. Accordingly Mr. Sabine rose early this morning—about 5.30—and called his son Harry, who lives at home, though he conducts a butcher shop at 285 George street, telling him that he would have to look after his horse, which his father usually attended to in the morning, as he (Mr. Sabine) was going out for a fish.

It would appear that he proceeded to the Little Lake, and began trawling for lunge. About seven o'clock, when Mr. Tivey was crossing the lake to go to Mr. Howden's, on Lock street, he noticed an over-turned canoe near Peck's wharf, on the Ashburnham side of the lake. Upon investigation he found that a trawling line was attached, and on drawing it in Mr. Sabine's body was brought to the surface with the feet entangled in the line. It would appear probable that while making a turn a fish had taken the bait and the sudden strain on the line had overset the canoe. Mr. Sabine's feet becoming entangled in the line, it is also probable that the strain of a fish on the line prevented him from saving himself. It is also probable that the weeds, which abound in the vicinity, prevented his efforts to reach his canoe.

At all events his death was the result, though perhaps the exact mode of his sad and sudden ending will never be known.

The deceased gentleman was well known in town, where for the past twenty-seven years he has pursued his calling as a plasterer and decorator. He was a most skilful workman, having spent eight years in the old country in the acquirement of a perfect knowledge of his trade, four years at plain plastering and four as a decorator. He was a native of London, where he was born 50 years ago next September. Soon after his marriage he removed to Canada—coming to Peterborough where he has resided a highly respected resident for about twenty-seven years. Mr. Sabine was a member of the congregation of All Saints' church, to whose construction and decoration he devoted without money remuneration a large amount of highly appreciated work. He was at one time a member of the Sons of England and has been for many years one of the most faithful and prominent members of Court Peterborough No. 29, Canadian Order of Foresters' He leaves behind him to mourn his sadly sudden departure from life, a widow and eight children, three sons and five daughters. The daughters are Mrs. R. J. Wolstenholme, and Misses Julia, Lucy and Aggie. The sons are Thomas, who usually worked with his father; Harry, who conducts a meat market, and Charles, a younger brother.

The funeral, which takes place from the family residence, 46 Chamberlen street, on Tuesday, at 4 o'clock, will be under Forester auspices.

PERSONAL.

Miss Maggie Campbell of Keene is visiting friends in New York State.

Miss Edith M. Clifford, of St. Catharines, is visiting Peterborough friends.

Mrs. J. B. Larocque, of the Montreal House, left to-day for Quebec and Champlain, N.Y., on a visit to friends.

Miss Eva Strain and Miss Lizzie Shiells left this morning to spend their vacation at Rosedale, Ont. They will be the guests of Miss Dora Smith.

Mr. T. J. Wallace, principal of the Keene Public School, is spending his holidays by a wheeling trip through New York State, seeing the sights and visiting friends.

At the conclusion of the communion service in the Murray street Baptist church last evening, Rev. A. T. Dykeman tendered his resignation of the pastorate, to take effect Aug. 15th. So far no official action has been taken in reference to the resignation.

Mr. R. E. Wood came down from Oak Orchard to-day and went to Toronto to attend the meeting of the Board of General Purpose of Grand Lodge of Masons preliminary to the annual meeting in Toronto on Wednesday. Mr. Wood is also a member of the Committee on Finance and Audit.

The EXAMINER acknowledges with thanks the receipt from Mr. Dickson Hall of a copy of the Berliner Tagblatt, forwarded from the Savoy Hotel, Frederick street, Berlin. This is an indication that he is engaged in the purchase of a stock for the new departmental store into which the establishment of Messrs. Richard Hall & Sons will speedily develop.

The Grimsby Independent contains a report of the examinations for entrance to the Grimsby High School. Of the 23 that passed four are from Mr. Drope's school, Grimsby, and of those four two are from Peterborough—Master Gerald Hall and Master Harry Rush, jr. A very creditable record both for the school and the Peterborough boys. Only four boys were sent up from Lake Lodge, and all passed.

DEATH OF A PIONEER.

The Late Thomas Armstrong.

At his late residence, No. 106 Murray street, there died an old, well known and respected resident of this county, in the person of Mr. Thos. Armstrong. He was born on the 24th of February, 1818, at Mitcheltown, in the County of Cork, Ireland, his father being the late Capt. John Armstrong, his mother, Eliza Frances, fourth daughter of the late Hon Francis Hugh Massey, of Suir Castle, County Tipperary. He came to this country with his parents in the year 1825, his father being commissariat officer for the Robinson emigrants who settled in this county in that year, and he being seven years of age at that time, has been a resident of this county ever since. Mr. Armstrong was well known throughout the county from his long association with the grain trade. He retained his activity till very recently. Although of the advanced age of eighty years very few persons noting his erect carriage and alert movements, would take him to be more than 60 years of age.

In the year 1849 he married Mary A, second daughter of the late Joseph Carew, Esq., of Wodenston Castle, in the County of Tipperary, by whom he had twelve children. A widow and eight children—five boys and three girls—survive him. He was a member of the church of England, and a life long Conservative.

Funeral from the family residence, 106 Murry street, on Tuesday afternoon at 3 o'clock to the Little Lake Cemetery.

THE LATE MRS. M'MULLEN.

Death of the Mother of Mrs. (Rev.) S. J. Shorey at Picton.

Intelligence has been received in town of the death at Picton of Mrs. McMullen, of that place, mother of Mrs. (Rev.) S. J. Shorey. The funeral takes place at Picton to-morrow. Her numerous friends will sympathise with Mrs. Shorey in the great bereavement she has suffered and the sad interruption of her holiday visit.

A WINDWARD ISLAND WEDDING

Nuptials of Dr. Edwin Hatton, of Peterborough, and Miss Seton-Brown.

The many friends of Dr. Edwin Hatton, son of the late D. G. Hatton, Esq., will be much interested in reading a reference to his marriage, which took place recently. The Montreal Star says:—

"The announcement of the marriage of Dr. E. Fullarton Hatton, of Peterborough, medical officer of St. Andrew's Hospital, Grenada, one of the Windward Islands, British West Indies, will interest the many friends made by Dr. Hatton during his visit to Montreal last year at the meeting of the British Medical Association. The marriage of Dr. Hatton to Miss Marion Isabella Seton-Browne, only daughter of the late Captain N. G. Browne, R. H. A., was celebrated at the Parish Church, St. Andrew's, Grenada, by the Rev. R. Medley Fulford, assisted by the Rev. Canon Jones-Bateman. Dr. Hatton is a cousin of Mr. J. Cassie Hatton, Q.C., and Mrs. C. D. Tylee, of Montreal."

THE EXAMINER desires to join in the cordial felicitations the occasion calls for.

Chronic Eczema Cured

One of the most chronic cases of eczema ever cured is the case of Miss Gracie Ella Aiton, of Hartland, N. B. On a sworn statement Mr. Aiton says: I hereby certify that my daughter Gracie Ella was cured of eczema of long standing by using four boxes of Dr. Chase's Ointment. William Thistle, druggist, of Hartland, also certifies that he sold four boxes of Dr. Chase's Ointment which cured Gracie Ella.

Referred to the Finance Committee.

PAVEMENT TENDERS.

Mr. Dawson, chairman, presented the report of the Street and Bridge Committee:

To the Mayor and Council of the Town of Peterborough:

GENTLEMEN,—Your Street and Bridge Committee beg leave to report as follows:

1. Your committee received the following tenders for the construction of the granolithic sidewalks:

	Granite & cement. Sq ft.	Gravel & cement. Sq. ft.
W F Grant & Co (Granolithic crossing 47c, and vitrified brick, 27c)	23c	20c
J E Hayes George street	18½c	17c
" Water street	17c	15½c
(Granite 45c, brick 35c.)		
Silica Barytic Stone Co—George street	$2.58 l. ft	$2 28 l. ft
Water street	1 72 "	1 52
A Graham	17½c	15½c
T H McFadden & T J Sabin (Brick 17c.	14c	12½c
P L Marden & Co (Brick 23c.)	20½c	17½c
Jas Bogue, George street	20c	16c
" " Water street	18c	16c
(Granite 25c, brick 23c.)		
F Dolan & R J Sheehy	16½c	13½c

2. Your committee recommend that the tender of McFadden & Sabin be accepted.

3. We also recommend that all the sidewalks in the contract be constructed of gravel and cement.

4. Your committee also recommend that the town pay $65.00 of the cost of constructing a drain on Homewood Avenue from the Monaghan road to Walton street, when it is constructed and completed to the satisfaction of the Street Inspector.

All of which is respectfully submitted.

ADAM DAWSON, Chairman.

Mr. Dawson moved the adoption of the third and fourth clauses. He said he would not move the adoption of the first clause because he was opposed to the use of the sand and cement in pavement construction. He favoured the granolithic pavement. He was, however, in favour of giving the contract to the parties recommended in the report.

Mr. Langford moved, seconded by Mr. White, J. M., the adoption of the report.

Mr. Dawson moved, seconded by Mr. Hamilton, that the third clause be amended by substituting the word "granolithic" for the words "Sand and cement," as the material of the proposed pavement.

During the discussion Mr. Edwards' communication, read at the beginning of the meeting, provoked considerable discussion. He pointed out that the statute did not specify sand and cement as one of the materials of pavements for which a frontage tax could be levied and collected, but "granolithic" was specified, and the councillors took the risk involved by the adoption of the report.

The amendment was lost on the following division:

Yeas—Messrs. Best, Hamilton, Dawson, McWilliams and Davis.

Nays—Messrs. White, Robertson, Denne, Cobb, Meldrum, Langford, White (J. M.)

The report was adopted with the addition that the tenderers have till noon on Monday to furnish sureties.

All of which is respectfully submitted,

T. H. G. DENNE, Chairman.

The report was adopted.

Mr. Denne, for the

COMMITTEE OF THE WHOLE COUNCIL

reported as below:

To the Mayor and Council of the Town of Peterborough:

Gentlemen,—Your Committee of the Whole Council beg leave to report and recommend as follows:

1. That the matter of paying 40 per cent. of the cost of a concrete sidewalk in front of Mr. A. Comstock's property on George street be referred to the Street and Bridge Committee with power to act.

2. That the Fire, Water and Light Committee be authorized to purchase a horse and to sell one of those in the fire department.

3. That the members of the council visit Hamilton, where they can see two makes of steam rollers in operation, and that the treasurer be authorized to pay the expenses of the deputation on the certificate of the Mayor.

All of which is respectfully submitted.

T. H. G. DENNE, Chairman.

The report was adopted.

APPOINTMENTS.

Mr. McWilliams, chairman, presented the report of his committee as follows:

To the Mayor and Council of the Town of Peterborough:

GENTLEMEN,—Your Committee on Appointments beg leave to report and recommend that Messrs. T. B. McGrath, Thos. McKee, John Kincaid and Wm. Aldridge be appointed assessors for the year, and that Messrs. McGrath and Aldridge assess Wards Nos. two and four, and Messrs. McKee and Kincaid Wards Nos. one and three.

All of which is respectfully submitted.

J. B. MCWILLIAMS. Chairman

The report was adopted.

A bylaw appointing the assessors recommended by the report, was duly passed, placing the salaries at the same figure as last year. The bylaw also requires the assessors to add a local assessment column to the roll and to begin their duties not before the 1st of August, and conclude not later than the end of October.

Mr. Langford moved, seconded by Mr. W. J. White, that the dog tax of persons who are assessed for a dog or bitch and who have not had or harboured a dog or bitch since the first of April, 1898, be remitted on their taking a statutory declaration to that effect. The motion was carried.

Mr. Dawson moved, seconded by Mr. White (J. M.) that the Water Company be instructed to notify the Water Works Company to move at their own expense their shut-offs on George street to a line indicated by the town engineer.

The council adjourned.

STONY LAKE NOTES.

The services at the pavilion, Juniper Island, yesterday were conducted by Mr. T. Dixon Craig, M. P., Port Hope. He was unexpectedly called upon, but nevertheless he delivered a very practical and interesting address. There was a good attendance of the lake population.

The new pavilion pianoforte is installed and was of material assistance in the musical portion of the services.

Most of the cottages are now occupied.

Very few went up to the Lake this morning.

Bicycle riders or indeed any exposed to sun heat, should paste this in their caps: In cases of sunstroke, where the head, face and body are extremely hot, apply cold water to the head. Cold water can often be gotten from the roadside springs. If possible get ice water. If near a hotel put the patient into a bath-tub of water about the temperature of the body: then lower the temperature until the patient is cooled off. Such treatment is beneficial in case of sunstroke.

KINGSTON AND THE ISLANDS.

The excursion to Kingston and the Thousand Islands on July 21st will be one of the chances of the season. It goes via Grand Trunk to Kingston and down the river by steamer. THIS CERTIFICATE

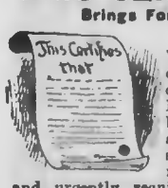
Brings Forth a Story.



BOWMANVILLE, ONT.

We, the undersigned, certify that the health of the Rev. R. A. Bilkey has for months been deteriorating, and that he is now suffering from severe nervous prostration, and urgently requires immediate and prolonged rest. J. W. McLaughlin, M.D., A. Beith, M.D., L. Holland Reid, M.R.C.S., etc.

THIS INTERVIEW TELLS IT.

A reporter called on the Rev. R. A. Bilkey, rector St. John's (Episcopal) Church, Bowmanville, Ontario, during a church function, and on congratulating him on the great change for the better in his appearance, the reverend gentleman said, "It is due entirely to Dr. Ward's Blood and Nerve Pills.

"I suffered for over three years from extreme nervousness, weakness and prostration, and could not obtain relief. A few months ago it became only too apparent that extreme nervous prostration had set in, as I lost flesh and appetite rapidly. Three of our four medical men pronounced me in urgent need of immediate and prolonged rest in order to build up my nervous system, giving me a certificate to that effect. About this time, by pure accident, Dr. Ward's Blood and Nerve Pills were brought to my notice. I decided to try them, and on doing so a decided change for the better took place at once. I have since continued taking the pills, with continued and marked benefit and improvement. My appetite has returned. I am gaining in flesh steadily, and my general health is now good. Further, I am sure that these results are due to the action of Dr. Ward's Blood and Nerve Pills, and I have every confidence that they will do for others all that they have done for me."

Dr. Ward's Blood and Nerve Pills are sold at 50c. per box, 6 boxes for $2, at Druggists, or mailed on receipt of price by the Dr. Ward Co., 71 Victoria Street, Toronto. Book of information free.

WILLING EXILES.

The English and Americans Are Important Factors In Paris Life.

"On and after this date," wrote Napoleon I to Fouche, "see that the English are expelled from Paris."

Such an edict would seem a very large order at the present day, but it was by no means a small one in Napoleon's time. What would the Paris of today be without its English colony? From Sir Edmund Monson, our embassador, to the pale boy who files the English journals at Neal's library in the Rue Castiglione the English are very important factors in Parisian life.

There has been an English colony in the French capital for many centuries, yet one might search in vain for a similar French colony in London. The Leicester and Soho square districts, although owning to a large French population, possess hardly a trace of the flavor or mien that distinguishes the quarter the English frequent in Paris, and it is not a fifth the size.

To speak broadly, Paris has within its walled borders a little London of many thousand persons—not squalid and impoverished, but boasting splendid mansions, fine shops, hotels, churches, hospitals and libraries, and all these to such an extent that it is difficult to believe one is not in the British capital *itself*.

The inhabitants of this colony might roughly be catalogued as follows: Retired people and gentlefolk who have seen better days, those who desire to have their children educated in the language, business people, authors, artists, students, journalists and professional men, those who have the best of private reasons for living out of England and cranks, which term includes certain individuals who for some cause or other have developed a feeling of hatred for the land of their birth. Nearly all are exiles of their own accord.

On Sunday the elite of the English colony turns out to the Church of the Embassy in the Rue d'Aguesseau. Here for a number of years Dr. Nayes, who was formerly an Ley tonstone incumbent, has preached, and here a collection bag goes regularly round, and is as regularly returned in a condition of comparative emptiness. For your Englishman of the English colony is either in a condition to help largely support the church and does or else gives nothing at all.

One thing must be said about the English and Americans who go to Paris. They support the city. Without their patronage there is scarcely a big shop on the boulevards that would not close its doors within a few months.—London Mail.

A Great Book Free.

When Dr. R. V. Pierce, of Buffalo, N.Y., published the first edition of his great work, The People's Common Sense Medical Adviser, he announced that after 680,000 copies had been sold at the regular price, $1.50 per copy, the profit on which would repay him for the great amount of labor and money expended in producing it, he would distribute the next half million free. As this number of copies has already been sold, he is now giving away, absolutely free, 500,000 copies of this most complete interesting and valuable common sense medical work ever published—the recipient only being required to mail to him, at above address, (31) one-cent stamps to cover cost of mailing only, and the book will be sent post-paid. It is a veritable medical library, complete in one volume. Contains 1008 pages, profusely illustrated. The Free Edition is precisely the same as that sold at $1.50 except only that the books are in strong manilla paper covers instead of cloth. Send now before all are given away.

THE RAVENS.

A Knotty Question Cleverly Answered by a Blacksmith Preacher.

Many years ago there lived in one of the mountain counties of this state a blacksmith who to his reputation for honest work during the week added that of being a powerful exhorter on Sundays. Held in high esteem by his neighbors, possessed of a sufficiency of this world's goods for that primitive community, he seemed to have solved the question of terrestrial happiness, but the "thorn in the flesh" is indigenous to all climes and conditions, and for the blacksmith it grew in the person of one Tom Bradley, a tall, lank mountaineer, who was the wit and wag of the neighborhood, and who also occupied the unenviable position of skeptic in that orthodox community.

Tom delighted to prod the smith with certain inexplicable Biblical statements, and these encounters sometimes resulted disastrously for the exhorter, causing him much humiliation and making him, as he said, "wrassle in prayer and cry to the Lord and spare not."

Once at the yearly camp meeting the old man was giving his "experience" in the tone and manner that were considered devotional in those parts. "My brethren, ah," he said, "as I was a-standin in my shop an gittin ready to shoe Billy Hite's old gray mare, ah, 'long come that son of a gun Tom Bradley, ah. He ast me ef I believed everything in the Bible, ah. I said everything, from kiver ter kiver, ah. 'Believe that yarn about Noah bein shet up in the ark with all them different sort of critters, ah?' sezze. 'Si, I done swallered Jonah an the whale, ah, an I wa'nt a-goin to gag at Noah, ah.' 'Well,' sezzo, ah, 'ef that raven Noah sent out got lost, ah, where did all these here ravens come frum, ah?' Brethren, I thought fer a minute, ah, that old satan had got the underholt on me, ah, an was about ter thoe me, ah, but, thank the Lord, ah, I jest thoed back my head, ah, an the sperrit of knowledge plum filled me, ah, an I sez, sezzi, 'It was the old he raven, ah, that got lost, an the old she raven was a settin on five eggs in the nest, ah, an that's where these here ravens come from, ah.'"
—Memphis Scimitar.

FIRST SOUTHERN TORPEDO.

Used In the James River After the Fight at Seven Pines.

The story of the first torpedo which was invented and used by General Gabriel Rains during the war with the Seminole Indians, April, 1840, ended in the fighting of 16 soldiers, who had gone with Captain Rains to investigate the cause of the explosion, with some 100 or more Indians, and among the casualties the wounding of the captain and his being carried to Fort King in the arms of his men. Another and second torpedo had been previously placed at the post by him, and soon after the fight 1,000 or more troops were collected there, and it became such a dread to the whole army that a soldier guard was put over it until Captain Rains was able to go and take it up.

"Suppose," said one officer to another high in rank, "that the captain had died of his wound. What would you have done?" "I thought," said the second officer, "of firing at it with a 9 pounder at a safe distance and thus knocking it to pieces."

The occasion of his first submarine torpedo was as follows: Soon after the battle of *Seven Pines General Lee, commanding*, sent for General Rains and said to him: "The enemy have upward of 100 vessels in the James river, and we think that they are about making an advance that way upon Richmond, and if there is a man in the whole Southern Confederacy that can stop them you are that man. Will you undertake it?"

"I will try," was the answer, and, observing that ironclads were invulnerable to cannon of all caliber used and were really masters of rivers and harbors, it required submarine inventions to checkmate and conquer them, so an order was issued forthwith putting General Gabriel Rains in charge of submarine defenses, and on James river bank, opposite to Drury's Bluff, his first submarine torpedo was made, the primogenitor and precursor of all such inventions, now world renowned, as civilized nations have each a torpedo corps.—Augusta (Ga.) Chronicle.

Half Ton Sturgeons.

I saw a sturgeon here on the cannery floor measuring 12 feet by the tape and weighing more than 600 pounds. Any one wishing to deceive the public by aid of a prevaricating camera should pose beside this 12 foot fish. The man who skillfully and laboriously reduced it to sections with an ax said it was not an uncommon fish, though the biggest on the floor; that they often found them far larger and weighing as much as 1,200 pounds.

Two men lifting a half ton fish into their boat is the exciting feature of sturgeon fishing. The sturgeon is not a lively fish, but when lifting hooks are fastened in his thick hide he is apt to resent it. He shakes his head in emphatic dissent, and a head 3 feet long and as big as a log, when vigorously shaken by a half ton body, is a thing to be avoided. The tail, too, is a source of danger, for it not only slaps with energy, but can cover a large surface with one application. The man new at the business is apt to get hurt the first time he helps to coax a wriggling sturgeon of standard size over a gunwale. —Victoria Letter in Toronto Globe.

Great Events From Little Causes.

While staying at the court of Frederick II of Prussia Voltaire presented Mme. de Pompadour's compliments to the king, who scornfully replied, "Je ne la connais pas." Out of vengeance for so much insult, as she deemed it, madame induced the weakminded Louis XV to convert his country's long standing hostility against Austria into friendship. A Franco-Austrian army then took the field against Prussia, and as it was an easy matter for madame to enlist the practical sympathy of Elizabeth of Russia, who had been the subject of Frederick's indiscreet remarks also, half a million lives were lost.—Notes and Queries.

FASHION AND FABRIC.

Hats that turn abruptly off the face are just now among the very fashionable styles.

The new parasols are more than usually elaborate, which is saying a great deal. Those made of chiffon are huge and billowy both outside and inside.

Color, as a rule, is very artistically considered this year, and even from red, white and blue as keynotes in both dress and millinery many pretty variations are made.

Flounces put on straight all around are equally as fashionable as those arranged to curve upward as they are carried toward the back of the skirt. The latter style is less familiar and on many forms more graceful.

Notwithstanding the appearance of many other models five and seven gored skirts remain in great favor. The fullness at the back of some of these skirts is disposed in fan plaits. On others it is adjusted by gathers closely massed.

The most stylish leghorn hats are trimmed with many short, very full ostrich plumes, all white, all black or else in black and white mixtures, black velvet ribbon ties, the clusters of feathers near the brim and over the crown, and on shepherdess shapes.

Sheer white lawn blouses will be very fashionable this summer. They may be in serpentine form, with long ends, or follow the conventional lines of the blouse, with a fitted back and deep yoke, formed of alternate rows of fine linen lace insertion and strips of embroidered lawn.

Military trimmings are elaborately used on some of the guardsmen's jackets of blue ladies' cloth of light weight. The fronts flare in a very stylish way, and the pocket is finished with a narrow turndown collar and revers that have a graceful roll to the waist line.—New York Post.

The victory rests with America's Greatest Medicine, Hood's Sarsaparilla, when it enters the battle against impure blood.

A Humane Engineer.

One never knows the value of an amiable deed till he knows all its consequences, and the merit of it is in not knowing them all beforehand.

An engineer of a passenger train on a Mississippi railroad was driving through a snowstorm, eagerly scanning the track as far as he could see, when, half way through a deep cut, something appeared lying on the rails. It was a sheep with her two little lambs.

His first thought was that he could rush on regardless of them, probably without damage to his train; but the sight of the innocent family cowering in the storm touched him, and as they paid no heed to his warning whistle he pulled the airbrake and sent his fireman ahead.

In a few minutes the fireman came back with a terrified face. There had been a landslide, and just beyond the cut the track was covered with rocks. It seemed certain that if the train had gone on at full speed in the blinding snow it would have been impossible to stop in time to escape disaster.

In the absolute sense the incident was providential—as everything is—but circumstantially the passengers on that railway train owed their safety, if not their lives, to an engineer who was too tender hearted to kill a sheep and her lambs.—Youth's Companion.

A woman does not have to be placed under an X-ray to show to all beholders that she is suffering from ill-health. Ill-health marks a woman much more quickly than it does a man. It destroys the sparkle in her eye, the bloom of health on her cheek, her vivacity of manner, her sprightliness of carriage and makes her nervous, petulant and despondent.

Generally ill-health in a woman is due to disorders or derangements of the delicate and important feminine organs which are the cradle of the race. No woman who suffers in this way can retain her good looks or her attractiveness. The daily burden of torturing, dragging pains that she carries, will soon make her a physical wreck, and eventually either kill her or drive her to insanity. Any woman may restore and retain her health and strength in a womanly way by the use of Dr. Pierce's Favorite Prescription. It cures absolutely and completely the weakness and diseases peculiar to her sex. It does away with the necessity for the obnoxious "examinations" and "local treatments" insisted upon by nearly all physicians, and enables her to treat herself in the privacy of her home. It is the invention of Dr. R. V. Pierce, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. Any woman may consult him by letter free of charge. All correspondence sacredly confidential.

"I was sickly for sixteen years with prolapsus, weakness, disagreeable drain, pain in the small of my back and costiveness," writes Mrs. Mary Ashlin, of Barronett, Barron Co., Wis. "When I began taking Dr. Pierce's Favorite Prescription I could not sit up. After taking it for one week I got up and did my housework. I have taken four bottles of the 'Favorite Prescription,' one bottle of the 'Golden Medical Discovery' and three bottles of the 'Pleasant Pellets.' These medicines have cured me. I feel as well as I ever did. Seven of the best doctors in the land treated my case, but gave me no relief."

THE INDULGENT FATHER.

An Account of One That Colonel Calliper Knew In Storkville Center, Vt.

"Speaking of indulgent fathers," said Colonel Calliper, "reminds me of an old friend of mine named Silas Zingtock, who formerly lived in Storkville Centre, Vt. Once when his little son Rufus wanted very much to fly a kite at a time when he was not well enough to be permitted to go out Mr. Zingtock rigged up a contrivance whereby the youngster's desire could be gratified in the house. He set up a blower in the back parlor, belted it to an engine in the cellar below, and when everything was all ready he started the fan and produced a current of air that was ample to float a kite.

"It was great fun for young Rufus to sit in the back parlor and fly his kite in the front, and for a time everything went all right, but on an unfortunate day Rufy, not satisfied with the amount of wind the fan was blowing, undertook to make it blow harder, which is something that Mr. Zingtock had expressly forbidden. It seems that the blower and the boiler and machinery were all much larger than were needed to produce a breeze sufficient to float a kite here, but Mr. Zingtock, who, though rich, was also thrifty, had had a chance to buy this plant second hand cheaper than a new plant of smaller size would have cost, and so he took it and had it set up, and every morning he used to adjust it so that it would not go above a certain speed, and several times he had cautioned his son never to touch it.

"About one minute after Rufus did touch it on this morning when he wanted it to blow harder the big fan was going at a gait that set up a hurricane in the parlors. It blew the kite against one of the windows and broke that the first thing, and within a minute the pictures were off the walls and their glasses smashed, tables were upset, bric-a-brac was knocked into flinders, and the whole parlor was a wreck, with the big blower going at top speed and churning everything there into fragments and blowing the debris out of the windows.

"That ended the father's indulgence."

NEW ORLEANS POLITENESS.

Eight Men Help a Stranger to Find a House at Night.

"I was given a good example of southern politeness the other night," said a gentleman from the north. "I had gone to the Comas ball and had agreed to escort a lady home. She was also a stranger in the city and was stopping with some friends on Bourbon street, about three blocks the other side of the opera house. As it was only a short distance we decided to walk. I was of course totally unacquainted with the street and when we left the lights of the opera house I felt very much at sea. The houses were dark and I could not see the numbers, and it was only by the number that the lady could identify her boarding place, as she had only been there once.

"Ahead of me was a small man. I asked him if he knew where the number was. He answered very politely that he did not, but was going that way and would help me hunt. He told another man in front of him about it, and that man told some of his friends. In a few minutes the gentlemen had formed an advance guard in our interest. We walked calmly behind while they went in front, on either side of the street, striking matches and looking for the number. There were eight of them, and their matches would go off one after the other. It was a regular flambeau parade. I was overcome. 'Here it is,' shouted an advance scout.

"We approached the house rapidly and found the eight gentlemen standing before it. It was almost with emotion that I raised my hat and thanked them for their efforts. 'Nothing at all,' they said politely, and the entire eight raised their hats and walked into the darkness."—New Orleans Times-Democrat.

The Catarrh Clutch

This Disgusting Malady is at the Throat of 900 of every 1,000 of our Country's Population.

This Is Not Heresay. It is Borne Out by Carefully Compiled Statistics of Diseases Most Prevalent. Its Development is Watched Carefully Because it is no Sure a forerunner of Consumption if Neglected. Most Catarrh Cures Contain Cocaine, which is a Dangerous Narcotic, and Prof. Heys, of the Ontario School of Chemistry and Pharmacy, says:—

"After an examination made from samples procured on the open market, I declare that there is no COCAINE contained in the preparation of Dr. Chase's Catarrh Cure." Most astonishing results are daily coming into Dr. Chase's office of the cures made. Here are a few in condensed form. We ask you to call or write to the following parties if at all sceptical:

OSWALD BURKHARDT, 139 PORTLAND STREET, TORONTO, suffered from Catarrh for nine years, and was cured by Dr. Chase's Catarrh Cure.

MR. J. PALMER, HAIR DRESSER, 673 QUEEN STREET WEST, TORONTO, could not sleep for years on account of the mucus dropping into the throat; cured by Dr. Chase's Catarrh Cure.

MR. WHITCOMBE, OF THE METHODIST BOOK ROOM, TORONTO, suffered for two years; cured by one box of Dr. Chase's Catarrh Cure.

MRS. COWLE, 467 QUEEN STREET EAST, TORONTO, thirteen years ago was attacked with Hay Fever. Never knew what it was to have any relief until she used Dr. Chase's Catarrh Cure. If anyone troubled with Catarrh calls on Mrs. Cowle she will give her endorsation as to her cure.

THE HAUNTED CITY.

Some heart's remembrance and regret
Fill every street with life profound.
This corner, where of old we met,
To me has since been hallowed ground.
I never pass in sun or rain
Now but I meet you here again.

We cannot go from where we dwell
And leave behind no lingering trace.
Where in the past our shadow fell
A shadow of us haunts the place.
Returning now, ourselves may there
Disturb some ghost of what we were.

The stones are thrilled by many a tread
That leaves no footprint where it strays.
Shades of the living and the dead
In silence throng the noisy ways.
Here where I meet in shower or shine
Your ghost, you haply meet with mine.

The air has sounds we cannot hear,
Is dim with shapes that none can see.
Though dear the living voice and dear
The sight of living faces be,
With kindlier yearnings yet we greet
The friends we see not when we meet.
—A. St. John Adcock in Spectator.

HIS BOAT FOR A LIFE.

An Instance of Real Benevolence by a Poor Kanaka.

A very curious and beautiful letter was once written to President Lincoln that would certainly have given him peculiar pleasure if he had read it, but he never did. This is how it was: In 1863 some pirates from Peru captured and carried off some natives from the Marquesas islands in the south seas. One of them was a son of a powerful chief, and the father made a vow that he would, for revenge, eat the first white man who fell into his hands.

A man named Whalan, the first mate of a New Bedford whaling ship, was before many months captured by the Marquesans. He it was who must furnish a feast for the cannibal chief, but all the people he ruled over were not cannibals. Among them was a native missionary from Hawaii named Kakela. Kakela had just received a present of a boat from religious people in Boston, a valuable six oared boat that he needed much in his missionary work. He set about trying to save Mr. Whalan's life, but the chief would give him up only on one condition—that he should have the new boat in exchange for the captive. Kakela bought him at that price and helped him to leave the islands.

The story came to President Lincoln's knowledge, and he characteristically found time to send a message and a present to the poor south sea missionary. Kakela wrote a letter of thanks in return, which closed with these sentences: "As to this friendly deed of mine, its seed was brought from your great land by certain of your countrymen who had received the love of God. It was planted in Hawaii, and I brought it here that these dark regions might receive the root of all that is good and true, which is love. How shall I repay your great kindness to me? Thus David asked of Jonathan and thus I ask of you, the president of the United States. This is my only payment, that which I received from the Lord—'love.' May the love of Jesus Christ abound toward you till the end of this terrible war in your land."

Before the letter reached the White House President Lincoln had died.—Chicago Inter Ocean.

TWIN TORTURERS!

Lumbago and Rheumatism made Harmless by Dodd's Kidney Pills.

Lumbago and Rheumatism cause endless pain and suffering. Every man and woman who runs chances of getting wet, or catching cold, is liable to suffer from one or both. Our hospitals are full of sufferers from these diseases; none are more painful. Every nerve is on fire; every joint is a centre of agony; every muscle an area of torture. To move hand or foot makes the victim shriek with agony.

Rheumatism makes more cripples than all the railroad accidents that ever happened. Twisted, mis-shapen caricatures of humanity, who cannot walk without misery, are to be seen every day. The kidneys are to blame. If they are healthy you needn't fear Rheumatism or Lumbago. Dodd's Kidney Pills keep the kidneys healthy and cure Rheumatism and Lumbago.

Dodd's Kidney Pills ALWAYS CURE.

DR. ROSE'S CENTURY RUN.

He Makes a Wheel Trip to the Far North—A Report of What he Said—Great Damage by Frosts—Great Improvement of Government Roads.

Dr. Rose, dentist, who left town on Monday, 11th instant, for a bicycle trip through the back townships north of Peterborough, arrived home on Friday evening. Dr. Rose was over the same country about 12 years ago, and was anxious go over the ground again and take observations of the changes and improvements that had been made in that time. On his first day out he wheeled to Kinmount, and from there took the train to Gelert, where the doctor has some intimate friends.

The second day out he started on his long ride through the townships of Minden, Dysart, Snowden and Glamorgan, where he rested at the village of Gooderham.

The doctor reports the country to have improved very much since his first visit. The farmers bad devoted a great deal of attention to stock-raising, for which the country is specially well adapted. They have also

IMPROVED VERY MUCH

in wheat raising, and quite a number of fruit orchards have been put in and are doing well. The crops had all promised well before the frost, especially hay, wheat and oats. A great deal of damage, however, has been done by July frosts. Corn, oats, potatoes and peas suffered severely. In fact, the doctor is certain that from Bobcaygeon back as far as Haliburton, nearly all the corn and buckwheat is destroyed, and one-half of the potato crop is useless, excepting perhaps the land east of Cameron, Sturgeon and Balsam Lakes. In Haliburton four-fifths of the potato crop is damaged. The settlers will no doubt suffer most heavily by the loss of this crop. Dr. Rose stated that the seriousness of this loss to the poorer classes is already being felt, and the outlook for food for the winter is very discouraging to these unfortunate farmers.

Dr. Rose was pleased to note the very great improvement that the Ontario Government had made in the condition of the roads in this county.

"Twelve years ago," he said, "it would have been an utter impossibility to use a bicycle through any portion of this country; now one can spin over the roads with his wheel in comfort and speed."

The doctor said the Government deserved every credit for the effort they had made in the past twelve years in making the country what it now is. The money that has been laid out, small as it was, has been judiciously expended in improving travel and in helping settlers to get in and out of their lands.

WORSE THAN YELLOW FEVER.

Kidney Disease Man's Deadliest Foe. Dodd's Kidney Pills its Only Cure.

Toronto, July 18.—"Yellow fever and smallpox combined do not kill as many people as Kidney Disease," was the assertion of a prominent Toronto physician, recently.

The assertion is fully borne out by facts, and were it not that there is a means of checking and curing Kidney disease the number of its victims would be trebled.

But the use of Dodd's Kidney Pills keeps the death-rate from this complaint quite low compared to its former height.

If Dodd's Kidney Pills were used, in every case of Kidney Disease, there would be no deaths from it.

A DEPARTMENTAL STORE FOR PETERBOROUGH.

Messrs. Richard Hall & Son's Expanding Business Demands Expansion of Premises.

The rapid expansion of the business of Richard Hall and Son compel them to enlarge their facilities in order to meet the demands of their rapidly growing trade.

It is their intention to proceed at once with the alteration of their extensive premises necessary to meet the requirements of what they propose to establish in the way of a departmental store; though the new business will hardly be a departmental store in the broadest meaning of that term, for the departments to be included in their business will be devoted entirely to dry goods.

The alteration in their premises will consist in the removal of the partition wall between the present carpet department and throwing the whole of the first floor into one spacious room similar to the present western portion of their main store. The offices will be removed to the rear of the space now occupied by the carpet department.

The new floor space will be entirely rearranged. Opposite the main door will be an aisle, and an aisle will extend around the entire store, the outer wall being devoted all around to shelving. Within this outer aisle will be distributed the departmental counters, which will extend from east to west, instead of from north to south, as at present.

The second floor will also be thrown into one large department, for the accommodation of the millinery, mantle and carpet departments of their business. Arrangements are made for the accommodation of the tailoring and gentlemen's furnishing department of the business of the firm, which will be removed from George street to the renovated store. The working department of the tailoring branch will be upon the third floor.

The scheme of alteration and improvements involves the most elaborate devices for converting the establishment into the most most modern and most complete stores of the kind in the province, so that when the changes proposed are effected Peterborough can boast, in the establishment of Messrs. Richard Hall & Son, of one of the most extensive, most conveniently equipped, most modern business establishments in the province. Nothing will be left undone to make it a model. The alterations have been forced upon the firm by the great expansion of its trade. The new departure will admit of a better display of, and larger and more varied stock of goods, and a better display conjoined with greatly increased facilities for the service of the public, will add to the already large popularity the business of Messrs. Hall & Son enjoys.

Work upon the alterations begin at once, so as to have them completed for the fall trade. Though the changes proposed are thus generally indicated, the public can depend upon the result being worthy of the enterprise for which the firm is noted. No time will be lost and we may expect to see the work rapidly carried on. When it is completed we shall have a mammoth dry goods establishment under one roof, equipped in the most elegant and perfect manner known to modern methods, for the prompt service of the public with a goods of a variety and extent never before presented under one roof, or for the matter of that, under half a dozen roofs in this district.

GRAND LODGE A. F. AND A. M.

Order of Proceedings at the Great Masonic Gathering to be Held Next Wednesday.

The members of the Grand Lodge of Ancient Free and Accepted Masons of Canada in the Province of Ontario will hold their annual meeting in Toronto, beginning on Wednesday afternoon.

The Board of General Purposes will hold its sessions on Monday and Tuesday prior to the meeting of the Grand Lodge and will prepare the business with which the Lodge has to deal. This board is composed of the Grand Lodge officers as follows:—The Past Grand Masters, the District Deputy Grand Masters representing each of the eighteen districts, together with twenty others, ten of whom are elected and ten appointed. This Board of General Purposes is subdivided into a number committees which deal with the different matters before they are presented to the Board of General Purposes. These committees are those on Benevolence, Condition of Masonry, Grievances and Appeals, Jurisprudence and Warrants.

On Wednesday at 2 o'clock in the afternoon the Grand Lodge will be opened. It is composed of representatives from all the lodges within the jurisdiction. All Past Masters of lodges are entitled to seats, and every Master for the year, together with his two wardens. This constitutes the voting strength of the Grand Lodge. There are within the jurisdiction of Grand Lodge 358 lodges, representing 23,500 Masons.

Mayor Shaw or his representative and the members of the City Council will meet and present the members of Grand Lodge with an address of welcome on the afternoon of the opening of the Lodge, after which the Masters of the city lodges will present an address to the Grand Master.

The address of the Grand Master will then be read and referred to a special committee. Reports of the various committees will then be submitted and discussed.

Among the notices of motion, which are few in number this year, there is one of more than ordinary importance to the local lodges. By this notice of motion it is proposed to divide the Toronto district into two, thus giving a new district to the Grand Lodge. There are two plans suggested towards doing this. The first is to group the city lodges and those in the immediate locality of the city together into one district and make the distinctly county lodges form the other district. The other suggestion, which seems to meet with more favour, is to take the lodges in rotation and separate them according to alternation into the two districts.

On Thursday morning the election of officers will take place and the new system of balloting will be given a thorough test. The announcement of the elections will be made at 1 o'clock in the afternoon and the instalation of officers will take place immediately before Grand Lodge adjourns.—Globe.

Dr. Chase Cures Catarrh after Operations Fail.

Toronto, March 16th, 1897.

My boy, aged fourteen, has been a sufferer from Catarrh, and lately we submitted him to an operation at the General Hospital. Since then we have resorted to Dr. Chase's Catarrh Cure, and one box of this medicine has made a prompt and complete cure.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—The Walter L. Main circus will be here July 30th.

—A meeting of the Committee of the Whole Council to-night to talk over pavement tenders.

—Mr. W. Turner caught a beautiful 11 pound lunge in the Little Lake on Friday night.

—The Wm. English Canoe Co. shipped about twenty canoes to-day to the various summer resorts on the Muskoka Lakes and on the St. Lawrence.

—An effort is being made among local canoeists to hold a regatta on Chemong Lake on Labour Day.

—Quite a number of picnic parties enjoyed an outing on the Otonabee on Saturday evening.

—The steam shovel which has been excavating at the site of the lock at the Little Lake, is being taken north to Armour's hill. It is expected that some night work will be done at the lock at the Little Lake and a system of portable lighting apparatus is being arranged for.

—Thos. Vosbourgh and Electa Vosbourgh, his wife, has issued a writ for $5000 damages against the township of Cramahe for injury to the plaintiff, Electa Vosburgh, who fell on a defective sidewalk in the village of Castleton in the Township of Cramahe.

—Tweed News: Mr. Asseltine, proprietor of the Tweed and Belleville stage line, has given his order for one of the new horseless carriages, propelled by storage batteries, and as soon as it is completed it will be placed on the route between Tweed and Belleville. These carriages run at the rate of twenty miles an hour. The distance between Tweed and Belleville will therefore be made in two hours easily. The carriage will cost in the neighborhood of $1,200.

—A vote was taken yesterday of the members of Bethany Mission as to the advisability of purchasing a lot for the erection of a building for public worship. The site in view is immediately south of Howden's butcher shop on George street, and is 55 x 110 feet. The trustees were authorized to purchase the lot. It is expected that a large tent will be pitched on the site at once, for holding meetings during the summer months. A decision has not been reached as to whether a building will be erected this summer or not.

A STUDY OF IDIOTS.

The Special Ability Sometimes Shown by the Weakminded.

Insane people and maniacs frequently present needless and great artistic activity, and idiots frequently display special aptitudes in which they become superior to normal men, some of them becoming true prodigies, as is shown by Dr. Peterson in The Popular Science Monthly, October, 1896, especially in arithmetical and musical ability, with a particular inclination to imitate in models, drawings and pictures the objects which they have before them.

One of the most curious examples of this is "Blind Tom," a pure blooded negro born in Georgia in 1840. Born blind he showed no intelligence, except for sounds. He could not speak a word, but he could repeat any sound which he heard. Merely by the aid of sound he could repeat Greek, Latin, German and English texts, however long after he had heard them recited, could play on the piano from memory any piece, however difficult to follow, and had learned by memory 500 pieces of music.

Among cases of extraordinary memory in idiots Morel cites a cretin who remembered the date of the funerals of all the persons who had died in his parish within 35 years, with the names of those who had taken part in these funerals. Morel also cites the case of an idiot who could not count up to 20, but who knew the names of all the saints in the calendar with dates of their respective feasts.

As to the imitative faculty the most curious cases are cited. At the asylum of Earlwood there was an idiot who constructed a perfect model of a ship with all its more minute details. Geoffry Mind, a cretin who died in 1814, drew cats with so much skill that his drawings are preserved in all the leading museums of Europe. Gideon Burton, the famous lightning calculator, who died in 1702, was stupid, and Zerah Colburn, exhibited at the age of 6 as a lightning calculator, could never learn anything. He had six toes and many characteristics of degeneracy. Dasah was absolutely a fool, and yet he could multiply mentally numbers of eight and ten figures.—Lombroso in Monist.

Volley Firing.

An old soldier says: "You often hear the story tellers speak about the firing of 'volley after volley,' but my experience was that mighty little volley firing occurred in battle. When a regiment went into battle you might hear two volleys or perhaps three, but after that it became a go as you please, with each man loading and firing as fast as he could without any attention to rhythm. The volley firing was regarded as a test of good drilling, however. If a regiment managed to fire, say, four consecutive volleys, you might hear the men boasting about it at the close of the battle. Of course there may have been instances where the volley firing was kept up for a considerable space of time, but I never was in such a battle. After about the second volley it became a confused rattle and roar and crash, with the small guns pattering indiscriminately like rainfall on the roof."—Kansas City Journal.

IN PRICES DURING JULY.

$12,500 SLUMP IN ONE CLIP

Gough Bros.' Big Double Stores and Oak Hall Branch Included.

Mark these words! and study them over, and see what it means for you. Since the close of a great day's business last Saturday, we have deliberately slashed about $12,500 off prices in our two Big Double Stores and Oak Hall Branch—including a net shrinkage of fully 25 per cent. in profits.

This is a gigantic undertaking to save you money, and to rapidly reduce all summer stocks. We are not so awfully greedy after gain as not to make prices bend to our will when we want to—even if loss must follow. You can't move stocks fast enough in midsummer without cutting the life out of the profits. But as our great stocks are brought away down to begin with, we can afford to do some marvellous selling, still further away down to quickly clear them. Never anything done in Peterborough can compare with it:—

HAS SAILED ALREADY

Gen. Miles With Seasoned Troops Off for Porto Rico.

4 ARTILLERY BATTERIES ALSO,

Thirty Thousand Unconvoyed Troops to Follow Him—"Old Glory" to Be Hoisted at Once—A Short and Easy Campaign Expected—The Corps and Brigades Ordered Out.

Washington, July 19.—The Porto Rican expedition has started on its mission to capture that island. General Miles, leading the Porto Rican expedition, left Siboney, Cuba, yesterday on the Yale, with four batteries of artillery and a few seasoned troops. Two brigades now at Charleston are embarking on transports to take them to Porto Rico. All the force at Tampa, 18,000 strong, embracing artillery, will be put aboard ship as rapidly as transports can be gotten there and sent to reinforce our other troops. General Brooke will take the first and second divisions of his corps from Chickamauga to Porto Rico. General Brooke left here yesterday afternoon for Chickamauga to get his troops started. It is expected that the whole expedition will be under way within the next four days. It has been decided to retain General Shafter's brigade at Santiago for an indefinite period.

Not a Naval Convoy.

There are some notable differences in the plans for this expedition and the stately naval pageant that sailed away from Tampa under General Shafter's command to attack Santiago.

First, there will be practically no naval convoys; the Navy Department has declared that they are unnecessary; that there is not a Spanish warship in the West Indies that dare thrust its bow out of port.

In the second place, the expedition does not start from one point, but will be divided among several, thus preventing the tremendous congestion that was encountered at Tampa in the effort to start the big fleet.

Lastly, there will be no effort made to get the ships away together, but the transports will be allowed to find their own way to their destination without concerted movements.

General Miles leads the way. He had been promised by the President that he should go to Porto Rico and the promise was redeemed yesterday, when the Yale headed from Siboney for Porto Rico, 800 miles distant.

General Brooke will be the senior officer in Miles' command, and upon him will fall the responsibility for the execution of the details of his superior's plans.

Will Hoist "Old Glory" at Once.

It is estimated that General Miles should arrive by Wednesday night at the point selected for the landing, and will hoist the American flag at once over Porto Rican soil. The point chosen for his landing is kept secret, as the General will land before the full body of the expedition is at hand, and it is consequently not desirable that the enemy should be able to assemble a superior force to meet him. The distance from Charleston, where the first body of troops for Miles' expedition was to start yesterday, is more than double the distance from Santiago to Porto Rico, so that the transports which sail from the former city will scarcely reach General Miles before the early part of next week. These Charleston troops are the first brigade of the first division of the first army corps, and are commanded by Brigadier-General George H. Ernst. The brigade comprises the Second Wisconsin, Third Wisconsin and 16th Pennsylvania regiments.

The purpose of Secretary Alger is to make the Porto Rican campaign a short one. An overwhelming force will be thrown upon the island, and it is possible that a bloodless victory will be achieved, when the Spanish become convinced that they have no reasonable chance to resist successfully.

Starts With 30,000 Men.

The expedition is to comprise 30,000 men at the start, and it will be soon swelled to 40,000 men, and, if necessary, to 70,000 men, the equipment of the volunteer forces having now progressed so well as to warrant the statement that that number of men can be ready for service in Porto Rico within a very short time. The entire body of troops at Tampa will be taken, numbering about 13,000 men, and including a lot of heavy and light artillery under command of General Rogers. The expedition will be particularly strong with artillery, as some of that at Santiago, commanded by General Randolph, is to be drawn upon. The Tampa troops are known as the fourth corps, under Major-General Coppinger, comprising the second division under Brigadier-General Snyder, and made up of the first brigade, Brigadier-General Schwan, 11th and 19th U. S. Infantry; second brigade, Brigadier-General Carpenter, 2nd New York and 5th Maryland; third brigade, Brigadier-General Hale, 3rd Pennsylvania, 157th Indiana and 1st Ohio; third division, Brigadier-General Kline commanding: first brigade, Col. C. L. Keenan, 5th Ohio, 1st Florida and 32nd Michigan; second brigade, Brigadier-General Lincoln, 69th New York, 3rd Ohio and 2nd Georgia; the provisional brigade, Col. Noyes, 5th U. S. and detachments of 1st, 2nd and 3rd, 6th and 16th U. S. cavalry and eight troops of rough riders; artillery brigade, General Randolph, two light and ten heavy batteries.

No Cavalry to Be Employed.

It is possible that none of the cavalry will be called upon.

General Brooke will take with him from Chickamauga Park most of the first and second brigades of his army corps, the first. These are in addition to General Ernst's brigade at Charleston: Second brigade, first division, General Haines, 4th Ohio, 3rd Illinois and 34th Pennsylvania; third brigade, Col. J. S. Culver, 1st Kentucky, 3rd Kentucky, 5th Illinois; second division, Col. J. S. Poland commanding, first brigade, Brigadier-General C. T. Roe, 31st Michigan, 1st Georgia, 160th Indiana; second brigade, General McKee, 6th Ohio, 15th Indiana, 1st West Virginia; third brigade, Brigadier-General Rosser, 2nd Ohio, 1st Pennsylvania, 14th Minnesota.

Manzanillo Bombarded.

London, July 19.—A special despatch from Havana, dated Monday, says:

Seven American warships heavily bombarded Manzanillo this morning. Three steamers of the Mendez Line were set on fire. Several gunboats that were in the harbor issued for the defence of the town, but were stranded. The result of the bombardment is not yet known here.

DEWEY FIRED ON THE IRENE.

United States Gunboat Signalled the German to Halt, and Enforced It With a Shell.

London, July 19.—The Hong-Kong correspondent of the Daily Mail says:

"United States Consul Wildman informed me that as the German cruiser Irene was passing Mariveles, off Manila, the other day, the United States gunboat Hugh McCulloch was sent after her to ask her to stop. As the Irene refused to obey, a shell was sent across her bows and a small boat went to discover what she was doing. The German Admiral protested, and insisted that German ships had a right to enter the harbor without being searched, a claim which Admiral Dewey declined to recognize."

Bryan Off to the War.

Omaha, Neb., July 19.—Col. William J. Bryan's regiment has at last started for the front, and the late Presidential candidate, in his soldier uniform, is now on the Burlington Road, en route to Jacksonville, where Col. Bryan and his regiment will be under the command of General Fitzhugh Lee.

RIOT AND BLOODSHED.

French Marines Fire on the Chinese at Ning-Po—Twenty Natives Killed.

Shanghai, July 19.—The Chinese having refused to accept an offer of money by the French and the promise of a new site to replace the Ning-Po joss house, the repository for Ning-Poese corpses pending their final burial, the French object being the removal of the nuisance and the improvement of the road, eighty sailors were landed from the French cruiser Eclaireur on Saturday and commenced pulling down the wall of the unused cemetery.

Twenty Natives Killed.

London, July 19.—The Shanghai correspondent of the Times, telegraphing Sunday, says: "In the riots at Ning-Po to-day a large mob attacked the police station. The French police and the marines from the French cruiser Eclaireur fired on the mob on two occasions. Thirteen natives were killed and over thirty wounded. The Chinese local authorities express their inability to maintain order or to compel the Guild to comply with French demands."

The Shanghai correspondent of the Daily Mail says: "Twenty natives were killed in the riot at Ning-Po to-day (Sunday). Two hundred Italian sailors have landed. Thus far everything is quiet in the English and American settlements."

Colton's Arrest a Practical Joke.

A practical joke that may have far-reaching consequences was played at Kingston on Sunday night, when a man named Chambers, passing himself off as Detective Dougherty, arrested Dr. Colton, proprietor of the Campbell House, Napanee. Some of the papers gave currency to this arrest as connected with the bank robbery, but this is ridiculous.

TO BE MORE ARRESTS

Detectives Have Others Under Surveillance.

NO ONE ALLOWED ADMITTANCE.

Counsel for Mackie and Ponton Excluded—They Complain to the Attorney-General of the Sweat-Box Methods—The Detectives Still Unsatisfied—Prisoners in the Jail.

Napanee, July 19.—There is a lull in the developments of the great bank robbery case, but it is the quiet of expectancy. The men who for a year have traced doggedly the movements of those who robbed the bank are still on the trail and a portion of their worry is still ahead. There will be other arrests. In fact, surveillance, amounting practically to arrest, is being exercised over other alleged participants in the robbery, and any moment may bring forth another denouement in the affair. Three men are in jail here, closely guarded, a woman in Montreal and a man in Boston, and still the detectives are unsatisfied. Detective Wilkes is still here, and as his theory, formed twelve months ago, is being borne out by the events of the last few days, the resentment against him is decreasing. The ex-teller is no longer a public idol, and although his friends hold an unalterable belief in his innocence, there is a feeling that his detention is justified by the confession of Pare, and that it will be at the trial that his guiltlessness will have to be sustained. He, with his two companions, are in isolated cells in the jail here and see no one. E. Gus Porter, counsel for Ponton, and W. G. Wilson, engaged yesterday upon behalf of Mackie, have made repeated efforts to interview their clients, but they cannot pass the barred doors into the jail corridor, and the prisoners are for the present absolutely without communication with the outside world.

The town is thoroughly agitated over what the majority of the citizens regard as unfair treatment of prisoner Ponton. At 7.30 yesterday morning Mr. E. Gus Porter of Belleville, Ponton's counsel, who had arrived in town to consult with his client, was surprised when he was informed by the Police Magistrate that even the prisoner's counsel could not be admitted to see his client, though the detectives are allowed free ingress at all times for any length of time to the prisoners. It is claimed that there is an attempt on the part of the police to put the prisoners through "a general sweating process." He characterized the treatment he had received as "unfair, lacking in fairness, unprecedented," and used other expressions equally emphatic.

Mr. Porter applied to the sheriff and jailer to be allowed to see the prisoner for the purpose of consultation at the prisoner's request, but was denied that privilege, a right, he says, which hitherto has always been accorded to prisoners.

Appeal to Toronto.

Mr. Porter immediately sent the following message to the Attorney-General's Department:

"Hon. Attorney-General, Toronto:

"Am retained to defend Ponton, charged with robbing Dominion Bank, and now in jail here. Jailer refuses to admit counsel to prisoner. Please wire authority to admit counsel.

"E. Gus Porter."

After waiting three hours Mr. Porter formally demanded of the sheriff and jailer admission to the jail to interview his client, and was again refused, being told that they were acting under instructions of W. S. Herrington, County Crown Attorney, who was out of town, and who during his absence had handed over the conduct of the proceedings to Messrs. Deroche and Madden, solicitors for the Dominion Bank, and upon application to them by the sheriff they declined to vary the instructions.

Later the following reply was received by Mr. Porter from the Department:

"E. G. Porter, Napanee, Ont.:

"Sheriff will be instructed to allow you to see Ponton as early as Wednesday, in good time at any rate before hearing.

"(Signed) J. R. Cartwright."

Indignation Prevails.

Great indignation prevails here at what is considered an outrage on British justice and fair play, and is looked upon here as a proceeding that is worthy only of a country in which the rights of a subject are unknown, and an insult to the people of Canada. Mr. Porter was compelled to return to Belleville without seeing his client, and to wait until the detectives got thoroughly satisfied.

Mackie Is Weakening.

Robert Mackie is weakening fast, and a confession may be expected at any time from him. It has leaked out that about 50 unsigned Dominion Bank bills were found at his house in Belleville.

This was last night corroborated by the local police. Mackie feels his position keenly, and presents a striking contrast to the placid demeanor of Ponton.

The prisoners in the jail at present are W. H. Ponton, Ed. Pare and Robert Mackie. None of them wear prison garb, and all have their food sent in to them. All have money, and especially Pare, who has a large amount in the keeping of the jailor. At 7 a.m. the cells are opened, and the prisoners let out. The day hours are spent in reading and walking up and down the corridors, though no communication among them is allowed.

Pare's Confession.

Pare's confession, made at Manchester, N.H., is in the hands of Police Magistrate Daley, who refuses to make it public, except in minor details. He claims to have rich material in his hands. In this confession, it is claimed—thus coinciding with the detectives' theory—that Ponton gave out the combination of the safe, helped to count the swag in his room, and got his share, amounting to $8,000.

Well Made and Makes Well

Hood's Sarsaparilla is prepared by experienced pharmacists of today, who have brought to the production of this great medicine the best results of medical research. Hood's Sarsaparilla is a modern medicine, containing just those vegetable ingredients which were seemingly intended by Nature herself for the alleviation of human ills. It purifies and enriches the blood, tones the stomach and digestive organs and creates an appetite; it absolutely cures all scrofula eruptions, boils, pimples, sores, salt rheum, and every form of skin disease; cures liver complaint, kidney troubles, strengthens and builds up the nervous system. It entirely overcomes that tired feeling, giving strength and energy in place of weakness and languor. It wards off malaria, typhoid fever, and by purifying the blood it keeps the whole system healthy.

Daily Examiner.

TUESDAY, JULY 19, 1898.

THE CASE IN BRIEF.

The discussion on the act passed by the Dominion Parliament in 1887, and its relation to the proposal to confirm the Ontario election constables in the right to vote, may be summarized thus:—

1. It has been objected that the Hardy Government has been trying to justify one wrong with another, making a tu quoque argument against the Conservative party by quoting Sir John Macdonald against them. This is the direct opposite of the truth. It is contended, not that Sir John Macdonald did wrong, but that he did right; that the measure was not a party measure; that it was at first proposed by a leading Liberal, Mr. Edgar; that it was supported by Sir John Thompson and Mr. McCarthy, and adopted with the unanimous consent of the House after its retroactive character had been clearly explained.

2. It is alleged that the sole object of the law of 1887 was to protect the officers, who had [illegible] from [illegible]. This theory is contradicted by the record at every point. The statute says nothing about giving immunity to the officers; the preamble does not recite the danger of prosecution as the reason for the enactment. Mr, Edgar gave no such reason, but said simply that the officers ought to be allowed to vote, because they were likely to be intelligent men. In the discussion between Sir John Macdonald and Sir Richard Cartwright it was distinctly stated that the amendment might affect pending election petitions, and nothing was said about indemnifying the officers.

3. It has been contended that the passage of a law qualifying the officers was itself evidence that the officers had not hitherto been entitled to vote. This ingenious theory is also contradicted by Hansard and the statute book. The law says that the officers are and always have been entitled to vote. Sir John Macdonald said:—"I have no doubt that they have the right to vote, but this is declaratory of that fact."

4. It has been contended that the statute of 1887 did not affect pending election petitions. The discussion between Sir Richard Cartwright and Sir John Macdonald, to which we have referred, shows that it was clearly understood that pending election petitions were affected.

5. It has been contended that the question of the right of these officers to vote had not been raised in any petition arising out of the general election of 1887. It was distinctly raised in the election petition against Sir John Macdonald himself:

> "And the said petitioner further says that the said Right Honourable Sir John Alexander Macdonald was only declared elected by a majority of 17 votes, and that at the said election votes were illegally cast and counted by the returning officer which were given by deputy returning officers, poll clerks, personators, by persons who during and before and at the same election or in reference thereto had been employed by the said the Right Honourable Sir John Alexander Macdonald, and by other persons, as counsel, agents, attorneys and clerks at various polling places at such election, and in other capacities, and who received and expect to receive sums of money, fees, offices, places, employment and promises therefor, and others who had no legal right to vote, to a number far exceeding 17, and so great as to affect the said election, whereby the said election and return of the said the Right Honourable Sir John Alexander Macdonald was and is wholly null and void."

The quarrel of the Opposition seems to be not so much with the Hardy Government as with the records.—Globe.

PROTECTING OUR LAKE FISHERIES.

The EXAMINER is frequently in receipt of complaints of the growing scarcity of fish, due to improper destruction and at unseasonable periods. It is claimed that for years maskinonge and bass were plentiful in the northern lakes and were taken without trouble. Now the capture of either the one or the other is very often paraded as a triumph, something like the discovery of a sea serpent. The lakes to the north, especially Stony Lake, are visited by hundreds attracted by the splendid angling it afforded. Among these are many Americans who are mighty fishermen, and who incidentally spend considerable money in the process of accumulating a catch. On broader grounds the fish of our northern lakes is a valuable food supply for this district, and a source of no little income to those who engage in the traffic. At least it has been so in the past, but their value it is claimed has been largely destroyed by indiscriminate fishing, especially out of season and during the spawning period. The close season at present is from April 15th, whereas those who profess to speak with authority state that it should be advanced to February 15. All through the spring "pot hunters" practice the taking of fish, not always by legitimate methods, and sell to dealers, who ship tons of them in the close season to the United States market. This should be entirely prohibited, as well as the practice of taking fish during the spawning season, which means the destruction of millions.

Another thing demanded is a fish hatchery at Burleigh or Buckhorn, which would furnish enough fish to stock the entire chain of lakes, and thus restore the abundance that has been destroyed by illicit fishing practices out of season. This hatchery would not be an expensive affair, demanding the services of a man for only a couple of months in each year. The cost would not exceed $200, and the advantages would in a very few years amount to thousands.

EDITORIAL NOTES.

A feature of British emigration for the first four months of the present year has been a large increase in the number destined for Canada. The total number was 40,706, an increase of 1,205 compaired with the corresponding period of the previous year. Of this increase 1,028 are recorded under the heading of English emigrants bound for British North America.

The London Speaker contains the following extract from a letter from a New Yorker:—"As I am a type, I state that for forty years I have hated England, have deemed her cruel, selfish, our enemy by tradition, history and policy—grasping, haughty, full of idiotic criticism of us and our institutions. And I, in common with a million others, have been forced to change front. No matter how much it may be true that England seeks an alliance with Uncle Sam solely on selfish grounds of interest and fear of the continent, the supreme fact remains that but for her Uncle Sam would have been humiliated, or found himself at war with all Europe. This has been and remains true of Cuba, the Philippines and our probable invasion of Spanish waters. It follows that this country owes to England a debt of gratitude it can never pay but with support and aid in kind. Hurrah for John Bull! It astonishes me to find myself feeling that way, and nearly all our citizens feel likewise. There is a complete reversion of feeling."

THE Buffalo Commercial notes the following pertinent facts: "The Channel and reserve squadrons of the British navy are about to undertake a combined cruise, in place of the usual manœuvres, which have been dispensed with this year. The ships are to be divided into four lines, each in command of an admiral, and proceed for a cruise in the channel, afterwards going to Bantry for torpedo exercises. These will probably terminate in August, when the squadron will leave for the Baltic, and take part in a naval review off Copenhagen. The combined squadron will include the battleships Majestic, Magnificent, Cæsar, Jupiter, Mars, Prince George, Repulse, Resolution, Colossus, Howe, Rodney, Collingwood, Benbow and Alexandra, and the cruisers Arrogant, Blake, Furious, Pelorus, Cambrian, Diadem, Spartan, Galatea, Mersey, Australia, Melampus, Medusa and Medea. This squadron is really a very small part of the tremendously powerful naval armament of Great Britain. It represents only the ships held in service in the home waters. Yet in battleships and cruisers it is far stronger, numerically, than the entire navy of the United States."

THE RIGHT OF CONSTABLES TO VOTE.

The Monetary Times (Independent) thus puts the case: "Prompt action has been decided upon by the Ontario Government in calling, at the unusual date of August 3rd, a meeting of the newly elected Legislature. By this act both parties will learn how they stand, at least until the election courts have had their say. In a letter laid before the Governor-in-Council, Attorney-General Hardy refers at length to the question, now raised (by the Conservatives) for the first time of the right of constables to vote at an election of a member of the Legislature. Certain classes are disqualified by name and others in general terms. Among the former constables are not found, and the question is whether they are confined to persons who business is to forward the interests of one of the candidates, among whom constables cannot be counted. The doubtful thing is the disqualifying any person employed in any capacity, but it is still a question whether the true meaning is not the being employed by or on behalf of a candidate. The legal question was referred to the courts, but for different reasons it was found that it could not be considered till after the holidays, which end with August. Following the precedent set in the Dominion by the late Sir John Macdonald, Parliament unanimously concurring, Mr. Hardy's Government proposes, under the circumstances, to pass a declaratory Act affirming the right of constables at the late election to exercise the elective franchise. A doubt may arise whether such declaration would prevent the courts ajudicating on the contested question. In the discussion in the precedent case Sir John Macdonald appears to have assumed that it would not, when he declared that he had no fear of an adverse decision. Mr. Hardy, with equal confidence, asserts his belief that the election law does not disfranchise constables. The Opposition, in raising the question, contended for the disfranchisement of these officers.

The future is uncertain, but if you keep your blood pure with Hood's Sarsaparilla you may be sure of good health.

LAKE GUNBOATS.

U. S. Lake Shipbuilders Will Ask the British Government for Certain Favors Estopped by Treaty.

Detroit, July 19.—The movement for the abrogation of the Rush-Bagot treaty between the United States and Great Britain, whereby each nation binds itself to maintain on the lakes only four gunboats of 100 tons, and armed with one 18-pounder to each boat, has again been revived, and Don M. Dickinson of this city has forwarded a brief to Washington on the subject.

The lake shipbuilders are looking forward to a season of depression that may last three years, and at the same time it is likely that the shipbuilders on both coasts will be rushed with orders for the building of the new navy, which it is hoped will be second only to that of Great Britain. The idea seems to be that the navy will be increased to 30 battleships and 20 armored cruisers, besides smaller craft. The lake builders think that the shipbuilding yards on the coast will not be able to do more than look after the larger vessels, and they see no reason why they should not hug the torpedo boats and destroyers, and even the smaller gunboats and cruisers. The lake shipbuilders are also convinced that the revenue cutter and lighthouse service fleet needs to be largely strengthened. The enlargement of the Canadian canal locks to 225 feet long, 45 feet wide and 14 feet deep, would enable them to build craft of a very respectable size. If the British Government would consent to these war vessels being built on the lakes and transported to the sea by way of the Canadian canals it would be a big thing for lake shipbuilders. The treaty could be abrogated by giving six months notice, but the consent of the British Government would still be necessary before a fleet built on the lakes could be sent down the St. Lawrence to the sea.

ZOLA'S SECOND TRIAL.

The Eminent French Novelist Again Sentenced by the Court.

Versailles, July 19.—The second trial of M. Emile Zola and M. Perreaux, publisher of the Aurore, on the charge of libel brought against them by the officers of the Esterhazy court-martial, was recommenced here yesterday in the Assize Court.

When the proceedings opened yesterday M. Labori raised several objections to the trial proceedings, which the court overruled. The public prosecutor charged M. Zola with shunning the trial, to which his counsel replied: "We will not shun the trial if we are allowed to bring our proofs." This statement led to a great uproar in the court and cries of "Down with Zola!" "Down with the Jews!" "Out of France with them!"

After the court had refused to suspend the trial while the defendants appealed against the overruling, M. Labori announced that he would allow judgment by default, and he and the defendants left the court. The trial then proceeded.

Later M. Zola and Perreaux were each sentenced to a year's imprisonment, to 3,000 francs' fine, and to pay the costs of the suit.

It is Safe to Follow

The example of the millions of women who have made the Diamond Dyes their chosen and only dyes for domestic dyeing. The faith of all is so firmly established in the powers and excellence of the Diamond Dyes that they would not use any other make, even if the common dyes were given away free of cost.

Valuable and useful goods should not be experimented on with poor and untried package dyes. Ruin and loss of goods and money will meet the users of adulterated dyes.

Follow the safe example of earth's millions and use the Diamond Dyes, and success, happiness and pleasure will be your reward.

EVE.

Outside the fast closed gates of her lost home
Lay hapless Eve,
And in her new, unequaled agony
She moaned: "Relieve,
O God, this pain! Have pity on my lot!"
The great God heeded not.
The sun shone on in heartless brilliancy,
The weary day dragged itself slowly by,
But in the evening—hark, a feeble cry!
God's curse hath been forgot
And past alarms,
Eve glories in her lot—
Her child is in her arms.

HEARTBURN.

"In the Spring of 1897, I was attacked with Dyspepsia and Heartburn. So severe was the pain that I could not sleep or eat, and I was troubled with headache most all the time. I remained in that state for three months, and tried everything I could think of. At last one day I read in the paper about Burdock Blood Bitters, and thought I would try it. Great was my surprise on finishing the first bottle to find I could eat better, the headache left me, and before I had used the second bottle, I was completely cured. I cannot advise too strongly all sufferers from stomach troubles to try B.B.B." MRS. WM. GRATTAN, Indiantown, N.B.

Two Northwest Drowning Cases.

Winnipeg, July 19.—William Moore of Selkirk was accidentally drowned in Lake Winnipeg on Friday last. He and John Scott had the contract for building a lighthouse on the lake. A small boat Moore had in use at the work had drifted a short distance out of his reach, and he started to walk after it. Stepping on to a rock near the boat he slipped and fell into deep water, and, being unable to swim, was drowned before help could arrive.

A Northwest Mounted Policeman named Sendamore was drowned Wednesday last at MacLeod while bathing. He leaves a wife and family in England.

Returned Klondiker Missing.

Ottawa, July 19.—John Kerr, a Klondiker who returned some weeks ago with considerable wealth, has been missing since July 12th, and is thought to be the victim of foul play. On that day he was in the company of a bad gang, who stole $20 from him, and were seen following him home.

ASSURANCE CO.

OFFICE OF W. A. MURRAY & Co., 17 to 27 King St., East, Toronto.

Wm. McCabe, Esq., Managing Director, N. A. L.:

DEAR SIR:—In answer to your request for me to decide upon one of the following options offered me for settlement of my 15-payment Life Investment Policy for $5,000 which has matured this year, viz.:

1st, to take the value of the Policy in Cash	**$5,008 00**
2nd, or fully paid-up insurance for	**3,780 00**
3rd or take the profits in cash	**2,050 26**

and continue my policy without further payments being required from me, such policy participating in future profits.

I find it somewhat difficult to make a decision either of the three options being so satisfactory. I am certainly very much pleased with the results offered me, and as I find many others are giving full testimony to the profit-earning power of this company. I do not hesitate to give my endorsement as well, that the North American Life is one of our strongest Canadian institutions to day giving first class results on Investment Policies, on a safe and conservative basis. I find that my policy, which was originally a Life by fifteen payments, has become an Endowment at the end of the Investment period.

HOW CANADA GETS EVEN.

War Taxed Articles Must Pay Duty on Their Final Cost.

Windsor, July 19.—The customs officers here have received instructions in regard to levying a duty on certain articles coming into the country from the United States. The move on the part of the Government is on account of the war tax placed on certain articles manufactured in the States and imported to Canada. Evidently the Canadian Government is desirous of securing an increase of revenue from these articles, the same as the States. The following are among the manufactured goods included: Medicinal remedies, chewing gum, wine (bottled), perfumery and cosmetics.

KLONDIKE CLEAN-UP.

Royalties Paid on $4,000,000 and to Collect on $3,000,000 Yet.

Vancouver, B.C., July 19.—The Bank of British North America at Dawson City sends its official report to the bank here. The official figures of the Klondike clean-up by the Inspector of Mines shows $7,000,000. The royalties collected amount to $400,000, representing $400,000,000 about to leave the country. The royalties on $3,000,000 are yet to be collected. No one is escaping the royalties. The police are collecting all that is due the Government.

Drowned While Bathing.

Zurich, Ont., July 19.—About three o'clock Sunday afternoon Jacob Howald, 23 years of age, with his brother and a number of other young men went into the lake to have a bathe. At this point there is a shallow sand-bar which leads out into the lake about twenty rods. This strip Howald and the others followed, when suddenly the unfortunate young man was seen to struggle and sink from view. It is supposed he took cramps. The drowned man was a son of Bartol Howald, bricklayer.

Tried Hard to Kill Himself.

Presque Isle, Ont., July 19.—John Marshall, North Keppel, shot himself yesterday morning. He first took laudanum and then shot himself in the ear. He was followed to the pond and, when caught, he was under water. Dr. McDonald of Kemble thinks he may recover. He has been ill all spring. He used a double-barrel shotgun, put two charges of powder in one barrel and two charges of shot in the other. As no shot was found in his head, it must have been done with powder alone.

Joseph Middlemas, engineer at the Deaf and Dumb Institute, Belleville, has been dismissed.

Doan's Kidney Pills Are Curing All Kinds of Kidney Complaints.

Anyone who wants proof of the efficacy of Doan's Kidney Pills for Backache, Lame Back, Rheumatism, Dizzy Spells, Bright's Disease, Diabetes, Dropsy, Urinary Troubles or Bladder Weakness, need not travel far to find it. Every day hundreds of people are being cured. From time to time their cases are being published in the papers. To-day we publish the statement of Miss Blanche Hawes, 17 Cornwallis Street, Halifax:

"I have been troubled with dull, aching pains in the small of my back for the last two years. My back ached so that I could scarcely stoop to pick up anything from the floor. I felt very dizzy and nervous and suffered from other symptoms of kidney troubles.

"I felt so certain that my kidneys were deranged, that when I saw Doan's Kidney Pills advertised, I immediately procured a box, and am now pleased to testify to the great benefit they have conferred upon me.

I have taken three boxes of these pills and am now cured, not having felt a pain or ache since taking Doan's Pills. With cheerfulness I recommend them to anyone afflicted with lame back or other disease caused by derangement of the kidneys. I have tested them and become convinced of their curative powers."

Doan's Kidney Pill are sold by all dealers, or sent by mail on receipt of price, 50c. a box or 3 for $1 25. The Doan Kidney Pill Co., Toronto, Ont.

THE QUEEN'S PRIZE.

The First Stage of the Great Match at Bisley.

CANADIANS DOING FAIRLY WELL

Five of Them in It for Prizes in the Prince of Wales' Match Shooting of the Past Week, However, Is Not Up to That of Last Year—Other Competitions.

Bisley Camp, July 19.—In the Prince of Wales' prize match on Saturday all with totals of 91 or over are likely to be in the prize list. This will make five of the Canadian team—St.-Sergt. Hayhurst, Capt. Hutcheson, Lieut. Robertson and Pte. McVittie—probable prize winners, and Lieut. Robertson, whose score was 95, who was tied with five others for first place.

The shooting of the Canadian team during the past week does not compare favorably with its marksmanship last year.

First Stages of the Queen's Prize.

Shooting in the first stage of the competition for the Queen's Prize, the biggest event in the whole meeting, began yesterday.

The prize is to be competed for in three stages. The match is open only to volunteers and retired volunteers. Altogether there are 500 prizes, with an aggregate value of £2,420, the first prize being that by her Majesty the Queen, £250, the National Rifle Association gold medal and the National Rifle Association gold badge. No retired volunteer may take the first prize. The second prize is £60, the third £40, fourth £30, fifth £20. There are ten prizes of £15 each, thirty prizes of £12, fifteen of £10, twenty of £8, twenty of £5, one hundred prizes of £4, one hundred prizes of £3, one hundred prizes of £2, and one hundred prizes of £1. With each prize goes a National Rifle Association badge. In addition to the foregoing there are one hundred prizes for S. R. tyros, who do not gain any of the other prizes in this competition, £1 each, making 600 prizes, with a grand total of £2,420.

Prize for the highest aggregate scores in the first and second stages, the N.R.A. silver medal, the N.R.A. silver badge. Prize for the highest aggregate scorer in the first stage, the N.R.A. bronze medal, the N.R.A. bronze badge. First stage (in the volunteer and grand aggregate), squadded competition, 200 yards; 500 yards, Monday, 18th; 600 yards, Tuesday, 19th. Distances 200, 500, 600 yards (aggregate,) seven shots at each distance. The entrance fee is £1 5s. till twelve o'clock, noon, Thursday, June 9; post entries £1 1s 3d. till 7 p.m., Saturday, July 16. The first 300 in the first stage are entitled to fire in the second stage.

The second stage, squadded competition, takes place Thursday, 21, 500 and 600 yards, aggregate, ten shots at 500 yards and fifteen shots at 600 yards. The places of the 300 competitors will be decided by their aggregate scores in the first and second stages. The first 100 will be entitled to fire in the third stage.

Competition in the third stage, 800, 900 and 1,000 yards, ten shots at each distance, will be held on Saturday, July 23. The places of the 100 competitors will be decided by their aggregate scores in the three stages.

Last Year's Canadian Scores.

The scores of the Canadian team in the first stage, 200 yards, last year, were as follows:

Sergt Blair, 78th	29
Lieut Carter, 93rd	32
Sergt Corrigan, 50th	33
Lieut Davidson, 8th	33

Capt White, 14th	31
Corp Windatt, RG	29

This Year's First Stage Score.

When the men lined up to compete in the first stage of the Queen's Prize, 200 yards, yesterday morning, conditions were unfavorable to good scores. The wind blew straight in the faces of the shooters, and the skies were dull. Following are the scores of the Canadians:

Sergt Armstrong, 10th Batt.	31
Col-Sergt Blair, 57th Batt.	29
Sergt Broadhurst, 5th Batt.	30
Lieut Crooks, QOR	29
Pte Davidson, 48th Batt.	28
Lieut Forbes, 73rd Batt.	30
Lieut Gilchrist, 1st Brigade FA	27
Staff Sergt Hayhurst, 13th Batt.	29

Lieut Pain, 13th Batt.	25
Lieut Robertson, 77th Batt.	31
Lieut Ross, 13th Batt.	30
Capt Runion, 59th Batt.	28
Sergt Simpson, 10th Batt.	30
Lieut Smith, 59th Batt.	32
Sergt Spencer, 13th Batt.	24
Pte Swaine, 14th Batt.	26

A number of scores of thirty-three and thirty-four were made by other competitors.

In the Centaur.

From an unofficial but reliable source it is learned that for the Centaur, seven shots at 500 yards, the sixth place has been secured by Col.-Sergt. Blair, 57th Battalion. Capt. Hutcheson, 43rd, is fourteenth; Pte. McVittie, 48th, twenty-seventh; Gunner Miller, 5th R. C. Artillery, twenty-eighth, and Lieut. Smith, 59th Battalion, thirty-eighth, making about 37 shillings each. Lieut. Smith will shoot off a tie.

In the Ind-Coope prize list Spencer, Broadhurst, Hutcheson and Ross each have 34 points. McVittie and Logie have each 33.

In the Golden Penny Hayhurst, Simpson and McVittie each win prizes.

THE LEADING CEREAL.

Big Decrease in the Visible Supply of Wheat, But New Wheat Prospects Keep Prices Down.

Monday Evening, July 18.

On the Chicago market to-day July wheat showed some strength, but the later options were inclined to be weak. The bullish factors were the week's statistics, issued to-day, showing decreases in the world's shipments, the American visible supply and the quantity afloat. Good receipts of new wheat in the West and lower English and Continental cables exerted a bearish influence on the situation. At the close to-day, July wheat was ¾c above Saturday's final figure, while the September and December options showed declines of ⅜c per bushel.

On the Liverpool board to-day, July wheat advanced ¼d per cental, while the September option declined ½d and the December delivery ⅝d.

In Ontario, new wheat is offered for export at 70c to 72c north and west, with 68c high freights bld. Old red winter is dull at 77c to 78c.

As compared with a week ago, the visible supply of wheat in Canada and the United States has decreased 2,055,000 bush; that of corn has decreased 2,968,000 bush, and that of oats has decreased 398,000 bush.

A NEW PEST.

"Clover Dodder" Near Hamilton—Result of Buying Cheap Seed.

Mr. James, Deputy Minister Agriculture, has received a sample of clover from several fields near Hamilton, which has been destroyed by dodder. This is a parasitic plant, the seed of which has probably come from Europe. At a certain stage of its growth dodder cuts itself off from its roots, and climbs with hair-like tendrils to the stem of the clover, from which it draws its nourishment and finally destroys both stem and seed. Although up to this time no complaints have been received, except from above locality, it would be well that farmers everywhere should examine their clover fields and see whether any of this plant is to be found. If any of it should be found, the best plan would be to have the clover crop plowed under. In no case should the seed from such fields be either sold or sowed.

Will ply between Harwood, Gore's Landing and Peterborough, every Saturday, leaving Harwood at 6.30 a.m., Gore's Landing at 7 a.m., arriving at Peterborough at 10 a.m., connecting with trains from the north at noon, and east and west trains, and leaving Peterborough on the return trip at 3.45 p.m. sharp.

On other days in the week the Beaver may be chartered for Excursion Parties at reasonable rates THOS. HARRIS, Proprietor, Gore's Landing, P.O.

We'd Rather Miss Sales Than Miss Fits

A Poorly Made—

And badly fitting Suit is "Too High" at any price. On the other hand, a price that allows more than a reasonable profit is a "Stiff" price for even a perfect fitting and stylish suit.

But there's a happy medium—a suit of perfect material, perfectly made and perfect in fit, at a reasonable price—that's a Real Bargain, and a rare one, too. It's just that kind of a Bargain we are offering our customers every day in the week

Steamboat Inspection.

Messrs. Donelly and Thompson, Government Inspectors of steamboats, are in town on their annual visit of inspection. On Monday they inspected the North Star, and found her seasonably and well equipped, and all regulations fully complied with. To-day they intend to inspect the "Beaver" (Capt. Harris, of Gore's Landing) and on Wednesday the "City of Peterborough" will be inspected.

Information Wanted

Of the whereabouts of WALLACE MCINDOO, who left his home, 12th concession of Cavan, on Sunday, 17th July. He is about five feet six inches high, dark complexion, full beard, about 38 years of age. He wore a light brown coat, dark pants and vest, light blue check shirt and cap. Is slightly deranged and has a habit of picking fingers while walking. Any information regarding his whereabouts will be thankfully received by his father, Mathew McIndoo, Mount Pleasant post office, and any one keeping him will be rewarded. 1d1w

St. Andrew's S. S. Excursion.

The second largest Sunday school picnic of the season went down the river this morning to Idyl Wyld, carrying the scholars, parents and friends of St. Andrew's church Sunday school. The steamer City of Peterborough carried the happy crowd and left the wharf shortly after eight o'clock with 350 on board. About 75 more were added to the excursionists at the Ashburnham wharf. The pastor, Rev. Mr. Potter, and Mr. C. S. Mallett, superintendant of the school, and most of the teachers accompanied the excursionists.

Arnott's Cheese Box Factory.

The hum of Mr. Robert Arnott's cheese box factory, near C.P.R. station, which was totally destroyed by fire about six weeks ago, may again be heard every day out of the din and noise of the railway rattle. With commendable push Mr. Arnott promptly cleared away the debris, and out of the ashes of the fire raised a temporary structure for continuing the manufacture of his cheese boxes. New machinery was purchased, including a jointer, header, banding machine and a portable engine—enough to proceed with until fall, when Mr. Arnott contemplates building a suitable factory. Already a full staff of men is at work and a good start has been made in getting out new stock and boxes, sufficent to meet present demands.

EXCHANGE OF FLAGS AT CAMINERA.

The Stars and Stripes Supplant the Spanish Standard.

22,780 PRISONERS TAKEN.

DOES GERMANY WANT PEACE OR WAR?

The Number of Spanish Prisoners Handed Over Exceeds in Number Shafter's Entire Army—No Property to be Destroyed in Santiago or on the Sandoval.

Special 3 p. m. despatches to the Examiner.

Camp McCalla, July 18, via Playo Del Este, July 19—A launch from the Marble Head went up the bay this afternoon to Vertcaya Del, to opposite Caminera, and gave formal notice to the Spanish commander of the surrender of General Torals troops. A limited time was fixed for hauling down the Spanish flag at Caminera. The American officer also gave notice that if the Spanish gun boat, Sandoval, was disabled in any way, or if any arms or ammunition, public buildings or barracks were destroyed, the Spaniards would not be treated as prisoners of war.

The Flag Down.

The flag was hauled down this afternoon.

Washington, July 19.—The ordinance department of War Department do not know what to do with the large quantity of arms, ammunition, etc., which have come into possession of the American Government through the surrender of Santiago. The difference in calibre makes it impossible to use American ammunition in the captured guns.

Is it Peace or War?

New York, July 19.—A Manilla despatch dated July 14th, to the World, says:—"Admiral Dewey sent a messenger to the German Admiral recently to inquire whether America and Germany were at peace or war. If they are at peace he demanded that the German warships here pursue a different course. If they are at war he wanted to know it, so he could govern himself accordingly.

The Roster of Prisoners.

Washington, July 19.—The war department has received from General Shafter a despatch saying that the roster of prisoners was handed in yesterday afternoon by General Toral, and that the total is 22,780 men. Shafter says that the number of prisoners handed over to him far exceeded in numbers the strength of his own army.

Trouble With Native Cubans.

Washington, July 19.—Some apprehension is expressed here that the assumption by the United States Government of the control of affairs at Santiago may lead to trouble with the Cubans. A few days before the surrender of the city, General Garcia sent a committee to General Shafter informing him that the Cubans had selected their man for Governor of the city.

Starting for Porto Rico.

General Miles did not start for Porto Rico yesterday, as was intended, but either has sailed this morning or will get away during the day. The delay was owing to a failure to receive the necessary orders through some mistake of persons through whose hands they travelled, and General Miles telegraphed here last night, and the orders were repeated to him and he was told to start for Porto Rico immediately and without delay.

A PAVEMENT COMPROMISE.

Conditional Acceptance of the Tender of Messrs. Dolan & Sheehy.

A meeting of the Committee of the Whole Council was held in the clerk's office last night. Mayor Davis occupied the chair and there were present Messrs. Best, Dawson, Cobb, Hamilton, White (Wm.), White (J. M.), Allen, Denne and Langford.

The mayor said that the meeting was called to break the practical deadlock that had arisen in regard to the paving proposal. At the council meeting on Saturday night there were seven in favour of sand and cement and five in favour of "granolithic," and as it required nine councillors to carry the bylaw, it was necessary to come to some amicable agreement. In reference to the granolithic it had been suggested that it was better to crush our own granite by purchasing a crusher, which would result in so great a cheapening in the contract as a whole as to warrant the acceptance of the granolithic tender.

Mr. Langford said he was in favour of sand and cement, but as there were a great many in favour of the granolithic, he was inclined to yield especially as to his mind, there could be a large saving made by the town purchasing a crusher, and providing our own crushed granite. The cost of imported crushed granite would be about $13 per cubic yard, whereas, by investing in a crusher at $900

WE COULD CRUSH GRANITE,

supposing we had to bring it from Stony Lake, at $4 per cubic yard. The difference in the cost in the whole contract would amount to about $900, enough to pay for the crusher, and still have it available for further work, such as Charlotte street, which long since had put in a request for a pavement from George street to the Grand Trunk Station.

A communication was received from Mr. McFadden asking that in view of the untimely death of his partner Mr. Sabine, that their tender for cement sidewalk be cancelled, and their deposit returned. The request was granted.

After pretty thorough discussion, Mr. Langford moved, seconded by Mr. J. M. White, that the tender of Messrs. Dolan & Sheehy for granolithic walk at 16⅔c per square foot be accepted on condition that they purchase from the town the crushed granite for the surface finish and pay for it the difference between the amount of their tender for sand and cement, 13½c, and their tender for the granolithic pavement, 16⅔c.

The motion was adopted and another motion passed, providing that Messrs. Dolan & Sheehy be given till six o'clock to-night to accept or reject the offer of the council.

The clerk was instructed to return the cheques of all tenderers except Messrs. Dolan and Sheehy.

The Mayor announced that there would be another meeting of the council to-night.

THE PLEBISCITE CAMPAIGN.

Convention on Wednesday Afternoon—Mass Meeting in St. Andrew's in the Evening.

Wednesday afternoon will witness the beginning of organized effort in behalf of the plebiscite campaign. A county convention of temperance advocates favourable to the plebiscite, will be held in the Y.M.C.A. hall to effect organization for the pushing of a vigorous campaign.

In the evening a mass meeting will be held in St. Andrew's Presbyterian church, to be addressed by Rev. Mr. Cade, of Millbrook, and Mr. Duncan Marshall, of Toronto. It is hoped that there will be a large attendance to listen to the facts that will be presented in favour of prohibition.

THEIR ANNUAL OUTING.

The Choir Boys of St. John's Church go to Stony Lake.

Mr. Percy Owens, organist of St. John's church, left this morning for Stony Lake, accompanied by about twenty-five members of the choir boys.

The party has engaged Mr. Wm. Lech's cottage and for the next few weeks will enjoy their annual outing in the vicinity of this pretty and conveniently situated island.

THE ST. ANNE PILGRIMAGE.

A Large Number of Peterborough People Take the Special Trains.

This is the day of the St. Anne's pilgrimage, and between 175 and 200 Peterborough people took advantage of the exceedingly cheap rate to the celebrated Shrine of St. Anne and the ancient capital. This morning the C.P.R. train, in charge of W. T. Dockeril, passenger agent, and Conductor Coker, consisting of ten coaches, came in and received an addition of about 75 from Peterborough. At noon the G.T.R. train from the north came in with five coaches and a Pullman, and about a hundred were added to the passenger list from town. Travelling Passenger Agent Quinlan and Conductor Pethick were in charge of the train. The train on the main G.T.R. line carried a big contingent.

DAILY TEMPERATURE RECORD.

The following are readings of the official thermometers for this afternoon, as well as the highest and lowest yesterday—shade temperature:—

To-day, 1 p.m.....85°

	Highest.	Lowest.
Yesterday	87°	63°

Although the thermometer has not risen to a very high figure either yesterday or to-day, yet owing to the sultriness prevailing the heat has been very oppressive. This is owing to the fact that the air is very moist, or humid, making perspiring humanity think that the weather is about 10 degrees warmer than it really is. The same conditions hold good in winter in the opposite extreme. When the air is clear and free from moisture the thermometer may sink to ten and fifteen degrees below zero and yet not be as severely felt as when at zero with a moist atmosphere.

He rose to depart as the clock sounded eight,
And, getting his hat and his cane,
His wife sweetly murmured: "Now don't stay out late,
Dear Charlie, 'Remember the Maine!'"
With that somewhat startling injunction in view,
He was back home at ten with his pet.
For should he stay later he very well knew
What a great blowing up he would get.

—A very ingenious weighing and computing maceine, designed for use in stores and meat markets, made by a Boston firm, has just passed successfully a most rigid test by the government inspectors in Ottawa. Incredible as it may seem, it is only necessary for a merchant to put an article on the pan when the scale gives not only its weight in pounds and ounces, but its exact value in dollars and cents. This is done without any manipulation, but wholly mechanically. The machine computes even to the half cent, and gives customers and dealers alike the exact weight and price, in place of the haphazard and careless method of figuring mentally.

DISCUSSING THE WATER WORKS BYLAW.

A MEETING OF ASHBURNHAM CITIZENS LAST NIGHT.

A Largely Attended Meeting—Facts and Figures Presented—The Advantages of a Water Works System Clearly Set Forth—Nearly Unanimous Feeling in Favour of the Bylaw—Popular Feeling Apparently in its Favour.

A well-attended meeting of the ratepayers of Ashburnham assembled in the council chamber, Ashburnham last night to discuss the water works bylaw.

Mr. Reeve Adams occupied the chair and after explaining the object of the meeting called for an expression of opinion.

Councillors Rutherford and Johnston, in support of the bylaw, gave as their reasons that the adoption of the bylaw would be greatly in the interests of the village. They left it for Mr. Adams to deal with the figures.

Councillor Morgan thought that the agreement was the very best that could be brought forward and stated that the only ones opposed to it were a few at the very outskirts of the village, who thought they would not get immediate benefit from it. He pointed out that the difference it would make in the insurance rates, as well as benefiting the village as a whole, would counterbalance any apparent disadvantages.

Reeve Adams explained that it was not the terms of the agreement with a view to changing any clause that they were discussing, as they stood to be either rejected or accepted by the ratepayers as they saw fit. It was the very best arrangement that could be entered into by the village and had the approval of the council. He showed that it was not intended to put the $15,000, which amount it is proposed to raise under the bylaw, into a waterworks system, but that $7,200 would fairly well give the whole village fire protection. The net cost to the village was shown to be about $359 00 or less than a mill on the dollar.

He thought that the system could be put in and still keep the rate below 17 mills. The amount of pipe to be laid was

VERY EVENLY DIVIDED—

about 3,050 north of Elizabeth street and 2,850 south of it. Several instances were cited of where the difference in insurance of premises in favour of the residents would amount to between $40 and $50 in consequence of the village receiving a better rating through having the system put in. After dealing with the matter very minutely, leaving no doubt as to the advantages to be derived by the village, he expressed the wish that all those in favour of the bylaw should do their best to have it carried.

Ex-Councillor Smith knew from experience that this was one of the most difficult questions the council had to deal with, and thought that the arrangements to be submitted were the very best under the circumstances. He would like to see the placing in of the system extended over a term of, say, three years, in order to give the residents of the village the benefit of the work.

(Mr. Adams explained that this was a matter to be decided by the council.)

Mr. Smith clearly showed, by presenting all the different propositions previously under consideration, that the present one was that in which the village received the greatest number of advantages for the least money.

Mr. Peck was very much interested in the passing of the bylaw, believing that it would be a great benefit to the village. As it is now people who have heretofore had the convenience of water in their houses were not going to settle in Ashburnham if they wished to make a change, and be put to the inconvenience of having no waterworks. Then again it would be a benefit for manufacturing purposes. So long as we have no better fire protection than we have now manufacturers will not locate. He thought the arrangement an excellent one and hoped the bylaw would pass.

Mr. Faint, Mr. McCarthy, Mr. Butcher, Mr. Scott and Mr. Courtney spoke strongly in favour of the bylaw.

Mr. Frank Hamilton said he was not opposed to the bylaw, but wished to know the terms of the agreement.

Mr. Fowler had his doubts as to the benefit it would be to him, but it was clearly shown him that the difference in insurance rates would wipe out the extra cost for the system, and as a man who wished to see the advancement of the village he stated that he would not oppose anything in its interest.

The meeting was strongly in favour of the bylaw, and very few speak against it in the village, nearly all appreciating the benefit to be derived from a good system of water works.

THOSE PRICELESS BOXES

Of Dodd's Kidney Pills Cured Mr. Colwell of Bright's Disease.

Windsor, July 11th.—"Is it true, Mr. Colwell, that you have been cured of Bright's Disease by Dodd's Kidney Pills?" our reporter asked Mr. R. F. Colwell, jeweller, of No. 9, Oulette street, to-day.

"It is indeed," was the answer. I suffered two years with Bright's Disease. My back ached all the time. I had awful, aching pains in my loins, a puffiness under my eyes, and my urine was very dark coloured.

"For a time I could find no remedy to do me any good. But one day a friend told me he had been cured of the same disease by Dodd's Kidney Pills. I bought a supply. A few boxes cured me thoroughly." Dodd's Kidney Pills cure all kidney complaints.

LACROSSE.

The next championship match played in Peterborough will be between the local team and the well known Beaverton Checkers. That the Checkers are very strong this year is evidenced by their decisive defeat of Midland in home and home games by the scores of 10 to 1 and 7 to 0. A close and exciting game may be expected a week from Friday on the P. C. A. A. grounds.

The standing of the clubs in this district is now as follows:

	Won.	Lost.	To play
Beaverton	2	0	2
Peterborough	2	1	3
Orillia	1	1	2
Midland	0	3	3

The Peterboroughs have to journey all the way to Midland on Friday to play the scheduled match. The expenses will run up to about $70, and it seems a useless expenditure when the result can not be other than a walk-over for the Peterborough team.

The Orillia News-Letter publishes an item which, needless to say, is not found on fact, as the letter referred to was not written from Peterborough to President Lennox. There was ground however for such a letter to be written, and anticipating that the matter would be brought to the attention of the C. L. A. the News-Letter gives itself away in the appended paragraph:

"So badly has the Peterborough lacrosse club smarted under the defeat administered them by Orillia four or five weeks ago that the other day they wrote to President Lennox of the Canadian Lacrosse Association, complaining of rough play on the part of M. Connors and B. Quinn and asked that they be suspended on that account. During the match two men were sent to the fence on each side for rough play, each side apparently sinning equally. Orillia has not asked that any Peterborough player be suspended. There is no supporter of the National Game here who disapproves of rough play. They recognize, however, that lacrosse is not tiddlywinks but one of the manly sports, which a hard knock must sometimes be given and taken, though seldom intentionally. Mr. O'Laughlin, past president of the C. L. A., was referee. Peterboro' has made no complaint against him. If their allegations are true he was grossly negligent of his duties and the one most to blame for neither of the players complained of were ruled off at any time during the match. When necessary he does likely have something to say. Sate grapes.

CRICKET.

A cricket match of unusual interest was played on Saturday last between the tobacco and the bankers. The bankers had the assistance of Cumberland the pro. He was a tower of strength to them as he took most of the wickets. However they were no match for the town team. Nearly everybody scored and all enjoyed the game.

A feature of the match were some splendid drives—two leg hits by Dr. Boucher, jr., and Miles Hamilton for 7 each, and a 5 run drive by Dr. Young. Mr. W. Parker made a phenomenal catch which was heartily applauded. Double figures were plentiful; four men in the bankers and out seven in the town getting into the coveted rank, this was the score;

"Which Wins?"

In nearly every man's career there comes a time when he stands between the angel of life and the angel of death, both contending for his mortal frame, and the question arises: "Which wins?" Will he be carried away by disease and death or will the angel of life prove the stronger and bring him back to health and happiness? When a man's energy and physical force have gradually weakened and wasted down to the lowest ebb, until perhaps consumption has already laid its grim hand upon him, and doctor after doctor and medicine after medicine have been tried in vain—now, perhaps, comes some kind friend who says, "Dr. Pierce can cure you, write to him: His "Golden Medical Discovery" has rescued thousands who were further gone than you."

"He is chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y.; he has been at the head of this great Sanitarium for thirty years; he has probably had more experience in treating severe chronic diseases than any other physician living. Write to him anyway; that will cost you nothing. He will gladly and freely answer your letters with friendly, fatherly advice which will be of value beyond all price!"

Now is the critical instant. Will the patient give up in despair and let the angel of disease drag him away from wife and family and children, or will he grasp the hand of the angel of life in one more supreme effort for restoration? Are you standing between the contending angels? Which wins?

Mrs. Emily Howe, of 7 Park Avenue, Chicago, Ills., writes: "About two years ago my son was afflicted with what seemed to be symptoms of consumption. I purchased three bottles of Dr. Pierce's Golden Medical Discovery and it cured him completely."

The People's Common Sense Medical Adviser, an illustrated volume by R. V. Pierce, M. D., will be sent free for cost of customs and mailing only,—21 one-cent stamps. Address Dr. Pierce, Buffalo, N. Y. Or send 50 stamps for a cloth-bound copy.

WHY HE ENLISTED.

As the recruits commenced to scatter around in the shade the journalist and the Hancock volunteer proceeded toward the headquarters of the colonel of the regiment. After the salutations had been exchanged before the tent of the commanding officer the volunteer addressed the colonel, saying, "Cap'n, if you need any more of Hancock county boys I'll get'm for you."

"If they're all as fine looking physical specimens as yourself," the colonel answered jovially, "I'd like to have a whole army of them. Our regiment will be filled up in a day or so, but I'll let you know in time."

After they had left the quarters of the colonel and were stretched upon the grass in the shade the newspaper man took occasion to put his favorite question, "Why do you enlist?" Sometimes this question elicits an outburst of patriotic ardor which fills the air with stars and stripes and eagles, sometimes (most frequently) it calls forth a hard luck story, which paints in glowing colors the virtues of the victim, but on this occasion the answer was merely, "Well, I have nothin to lose." "But," protested the newspaper man, "there's no telling how long you'll have to be from home, and there's no man that will take the same interest in running your plantation that you do, for I presume you are a farmer."

"That's true, sir; that's true," was his deliberate response, "but you see things ain't just as they was. Before Mary left I took interest in everything, but now—I jes' turnt the farm over to a couple of fellows an thought I might's well to come to the front an fight for my country. I'm 34 years old, an I ain't never done nothin but farm, an I thought I'd take a little fightin in mine jes' at this stage."

Here a forced smile played over his rugged, careworn features. The correspondent wished to follow the clew just thrown out about the desertion of Mary, but didn't know just how to proceed. "Well, I don't want to discourage your patriotism," he said, "but you're giving up the peaceful leisure of rural life for the dangers and excitement of a campaign in which disease is as much to be feared as Spanish bullets."

"Stranger," said the volunteer, "that's jes' it. From the way you talk bout 'peaceful' leisure I see you ain't never lived in the country. Farmin's a good thing if a man's got money or don't mind workin, an I don't, but that was jes' the whole trouble. I b'l'eve now when I think of it that if I had a had more time to make her happy she'd a been contented to stay, but it seemed to me we was married at the busiest time of the year, an then afterward it looked like I had jes' as much to do at all times. I always had to look after the milkin at daybreak, an then besides the regular work there's enough chores and the like to keep a fellow hustlin all the time. Even on rainy days there's harness to mend an such. But, friend," and here his face brightened up until it was radiant with the recollection, "if you could have seen that little wife of mine in the dairy you'd a seen the prettiest sight you ever saw. In a little speckled calico, skimmin the milk an washin the crocks, singin the whole time, jes' as happy as a lark. She looked like a little pink rosebud. Sometimes it seemed to me she was more like a angel than a woman. But I beg your pardon, sir," he concluded, refilling his pipe, "you said you wanted to meet all the Hancock boys here, an I guess I'd better go make you 'quainted with 'em 'stead of tellin you all my personal affairs, which isn't the right things to tell to strangers."

This sudden halt in the narrative annoyed the journalist, who had interviewed woman suffragists, heard the confessions of criminals, synopsized the prayers of ministers and even invaded the sanctity of the home for the purpose of publishing to the world the secrets of private life. The story had somehow placed him in that supersympathetic condition from which tact takes flight; but, summoning the little skill which remained, he determined to make the man lay bare his heart.

"No," he said, "don't apologize for anything you say to me. I'm interested in it all. When a man is manly and patriotic, his life is always interesting to me. We all have our sorrows, and it's a relief to tell them occasionally. Did you say your wife is no longer with you?"

Blundering as this speech may seem to a mind which seeks and finds hidden motives, it was sufficient to satisfy the simple son of Hancock county, so he continued:

"Yes, sir, it's over three months since I saw her. Understan, now, I ain't blamin her at all. She was young an pretty an full of life, an so I'd jes' rather to think of it all as a big mistake. For a little time after we was married she seemed to be happy, but then I noticed that she didn't 'pear to take the same interes' in things. It was jes' after she had spent the day at Sulphur Springs with a lot of young folks. I drove her over there to a picnic one mornin an then come for her in the evenin. There were a dozen or more girls there an several young men from the cities, but there warn't none of 'em could touch her when it comes to looks. She seemed to enjoy bein with 'em so much that I couldn't help kinder standin round an lookin on for awhile, but then I hurried on back, for I had a lot of hoein to look after.

"Well, sir, I was the proudest man in the world when I went back there for her that night. Everybody crowded round, even the old ladies, an told me what a pretty dancer Mary was. All the young folks in the country was there, but Mary was the populares' of 'em all. They wouldn't hear to our drivin back then, but made us both come right in to supper. I didn't exactly calculate on doin this, but Mary looked like she wanted to, so I did. They tried to make me dance, but I don't know how. It was the openin of a new summer hotel, yon know. A young fellow that set next to me at the table an was mighty polite in handin me everything said he was gonter be there at the hotel for some time, an that we mus' come 'round often. Of course I asked him to come see us too. He was a pretty glib talker. When we was leavin an tellin everybody goodby and promisin to come again soon, I heard a lady from New York say to another one, 'Wouldn't she be a queen with the right trainin?' We got in the spring wagon an drove home, an she was jes' all excitement tellin me what a time they had that day an how I ought to learn to dance.

"Two days after some ladies drove round in their carriages an asked her to go to the Springs with 'em again. She said 'No,' but when she seen I was anxious to have her go she went with them. They drove back after supper, her and the two ladies an a young man, an they all told me I ought to have been there. That night she seemed kinder unres'less. She talked a heap 'bout the nice things they'd all said 'bout her at the Springs, but mostly talked 'bout how nice it would be if we could go an travel an go to New York an everywhere, an she said we ought to read books an the like, an that a lady there said what she needed was cultivatin.

"I didn't like this, talkin 'bout her like she was a field to be plowed up, 'stead of a flower jes' to grow a bloom natural, an when I told her this she jes' laughed an slapped her hands over my mouth. She went to the Springs right regular for a time. Then she wouldn't go no more. Somebody sent her some books—four or five of 'em. She commenced to read one of 'em out loud to me one night. 'Twas a nice story about some rich folks, some artists, an how they was lovin each other, an the thing they went to, but while I got to likin the pesky books after awhile, I told her all the time that it was jes' stories an that there wasn't no such folks in Paris or New York or anywheres else. Since she was teachin me, a-readin out loud, I took to teachin her, tellin her what I thought 'bout the books. I told her that life was a reality an that even if there was such people they wasn't no better off than us, 'cause there's advantages an disadvantages everywhere, an it all 'mounts to 'bout the same an everything in its place is the best. That's the way I'd write if I wrote books.

"Maybe it was readin in them durn

Women's Worst Enemy

Some hesitate before giving an answer, but those who know best will immediately say HEADACHE.

Thousands of women live in misery day after day, and week after week, suffering untold agony from these dreadful headaches. Husbands are disheartened, children neglected, and happy homes ruined. Most women strive to bear in patience the suffering which they consider part of life without looking into the cause or searching for relief. Food cannot digest without the bile which the liver supplies and hence the necessity of keeping the liver in good working order. To cure the headaches you must cure the liver and thus remove the cause of disease.

Dr. Chase spent years of his life in perfecting a medicine which acts directly on the kidneys and liver. Thousands of grateful women have testified during the past ten years to the effectiveness of this remedy for sick headaches. Many a home has been restored to happiness as a result.

Dr. Chase's Kidney-Liver Pills, the greatest discovery of this great scientist, are put up to sell 25 doses for 25c. All dealers.

"Which Wins?"

In nearly every man's career there comes a time when he stands between the angel of life and the angel of death, both contending for his mortal frame, and the question arises: "Which wins?" Will he be carried away by disease and death or will the angel of life prove the stronger and bring him back to health and happiness? When a man's energy and physical force have gradually weakened down to the lowest ebb, until perhaps consumption has already laid its grim hand upon him, and doctor after doctor and medicine after medicine have been tried in vain—now, perhaps, comes some kind friend who says, "Dr. Pierce can cure you, write to him: His "Golden Medical Discovery" has rescued thousands who were further gone than you."

"He is chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y.; he has been at the head of this great Sanitarium for thirty years; he has probably had more experience in treating severe chronic diseases than any other physician living. Write to him anyway; that will cost you nothing. He will gladly and freely answer your letters with friendly, fatherly advice which will be of value beyond all price!"

Now is the critical instant. Will the patient give up in despair and let the angel of disease drag him away from wife and family and children, or will he grasp the hand of the angel of life in one more supreme effort for restoration? Are you standing between the contending angels? Which wins?

Mrs. Emily Howe, of 7 Park Avenue, Chicago, Ills., writes: "About two years ago my son was afflicted with what seemed to be symptoms of consumption. I purchased three bottles of Dr. Pierce's Golden Medical Discovery and it cured him completely."

The People's Common Sense Medical Adviser, an illustrated volume by R. V. Pierce, M. D., will be sent free for cost of customs and mailing only,—31 one-cent stamps. Address Dr. Pierce, Buffalo, N. Y. Or send 50 stamps for a cloth-bound copy.

WHY HE ENLISTED.

As the recruits commenced to scatter around in the shade the journalist and the Hancock volunteer proceeded toward the headquarters of the colonel of the regiment. After the salutations had been exchanged before the tent of the commanding officer the volunteer addressed the colonel, saying, "Cap'n, if you need any more of Hancock county boys I'll get'm for you."

"If they're all as fine looking physical specimens as yourself," the colonel answered jovially, "I'd like to have a whole army of them. Our regiment will be filled up in a day or so, but I'll let you know in time."

After they had left the quarters of the colonel and were stretched upon the grass in the shade the newspaper man took occasion to put his favorite question, "Why do you enlist?" Sometimes this question elicits an outburst of patriotic ardor which fills the air with stars and stripes and eagles, sometimes (most frequently) it calls forth a hard luck story, which paints in glowing colors the virtues of the victim, but on this occasion the answer was merely, "Well, I have nothin to lose." "But," protested the newspaper man, "there's no telling how long you'll have to be from home, and there's no man that will take the same interest in running your plantation that you do, for I presume you are a farmer."

"That's true, sir; that's true," was his deliberate response, "but you see things ain't just as they was. Before Mary left I took interest in everything, but now—I jes' turnt the farm over to a couple of fellows an thought I might's well to come to the front an fight for my country. I'm 34 years old, an I ain't never done nothin but farm, an I thought I'd take a little fightin in mine jes' at this stage."

Here a forced smile played over his rugged, careworn features. The correspondent wished to follow the clew just thrown out about the desertion of Mary, but didn't know just how to proceed. "Well, I don't want to discourage your patriotism," he said, "but you're giving up the peaceful leisure of rural life for the dangers and excitement of a campaign in which disease is as much to be feared as Spanish bullets."

"Stranger," said the volunteer, "that's jes' it. From the way you talk bout 'peaceful' leisure I see you ain't never lived in the country. Farmin's a good thing if a man's got money or don't mind workin, an I don't, but that was jes' the whole trouble. I b'l'eve now when I think of it that if I had a had more time to make her happy she'd a been contented to stay, but it seemed to me we was married at the busiest time of the year, an then afterward it looked like I had jes' as much to do at all times. I always had to look after the milkin at daybreak, an then besides the regular work there's enough chores and the like to keep a fellow hustlin all the time. Even on rainy days there's harness to mend an such. But, friend," and here his face brightened up until it was radiant with the recollection, "if you could have seen that little wife of mine in the dairy you'd a seen the prettiest sight you ever saw. In a little speckled calico, skimmin the milk an washin the crocks, singin the whole time, jes' as happy as a lark. She looked like a little pink rosebud. Sometimes it seemed to me she was more like a angel than a woman. But I beg your pardon, sir," he concluded, refilling his pipe, "you said you wanted to meet all the Hancock boys here, an I guess I'd better go make you 'quainted with 'em 'stead of tellin you all my personal affairs, which isn't the right things to tell to strangers."

This sudden halt in the narrative annoyed the journalist, who had interviewed woman suffragists, heard the confessions of criminals, synopsized the prayers of ministers and even invaded the sanctity of the home for the purpose of publishing to the world the secrets of private life. The story had somehow placed him in that supersympathetic condition from which tact takes flight; but, summoning the little skill which remained, he determined to make the man lay bare his heart.

"No," he said, "don't apologize for anything you say to me. I'm interested in it all. When a man is manly and patriotic, his life is always interesting to me. We all have our sorrows, and it's a relief to tell them occasionally. Did you say your wife is no longer with you?"

Blundering as this speech may seem to a mind which seeks and finds hidden motives, it was sufficient to satisfy the simple son of Hancock county, so he continued:

"Yes, sir, it's over three months since I saw her. Understan, now, I ain't blamin her at all. She was young an pretty an full of life, an so I'd jes' rather to think of it all as a big mistake. For a little time after we was married she seemed to be happy, but then I noticed that she didn't 'pear to take the same interes' in things. It was jes' after she had spent the day at Sulphur Springs with a lot of young folks. I drove her over there to a picnic one mornin an then come for her in the evenin. There were a dozen or more girls there an several young men from the cities, but there warn't none of 'em could touch her when it comes to looks. She seemed to enjoy bein with 'em so much that I couldn't help kinder standin round an lookin on for awhile, but then I hurried on back, for I had a lot of hosin to look after.

"Well, sir, I was the proudest man in the world when I went back there for her that night. Everybody crowded round, even the old ladies, an told me what a pretty dancer Mary was. All the young folks in the country was there, but Mary was the populares' of 'em all. They wouldn't hear to our drivin back then, but made us both come right in to supper. I didn't exactly calculate on doin this, but Mary looked like she wanted to, so I did. They tried to make me dance, but I don't know how. It was the openin of a new summer hotel, you know. A young fellow that set next to me at the table an was mighty polite in handin me everything said he was gonter be there at the hotel for some time, an that we mus' come 'round often. Of course I asked him to come see us too. He was a pretty glib talker. When we was leavin an tellin everybody goodby and promisin to come again soon, I heard a lady from New York say to another one, 'Wouldn't she be a queen with the right trainin?' We got in the spring wagon an drove home, an she was jes' all excitement tellin me what a time they had that day an how I ought to learn to dance.

"Two days after some ladies drove round in their carriages an asked her to go to the Springs with 'em again. She said 'No,' but when she seen I was anxious to have her go she went with them. They drove back after supper, her and the two ladies an a young man, an they all told me I ought to have been there. That night she seemed kinder unres'less. She talked a heap 'bout the nice things they'd all said 'bout her at the Springs, but mostly talked 'bout how nice it would be if we could go an travel an go to New York an everywhere, an she said we ought to read books an the like, an that a lady there said what she needed was cultivatin.

"I didn't like this, talkin 'bout her like she was a field to be plowed up, 'stead of a flower jes' to grow an bloom natural, an when I told her this she jes' laughed an slapped her hands over my mouth. She went to the Springs right regular for a time. Then she wouldn't go no more. Somebody sent her some books—four or five of 'em. She commenced to read one of 'em out loud to me one night. 'Twas a nice story about some rich folks, some artists, an how they was lovin each other, an the thing they went to, but while I got to likin the peaky books after awhile, I told her all the time that it was jes' stories an that there wasn't no such folks in Paris or New York or anywheres else. Since she was teachin me, a-readin out loud, I took to teachin her, tellin her what I thought 'bout the books. I told her that life was a reality an that even if there was such people they wasn't no better off than us, 'cause there's advantages an disadvantages everywhere, an it all 'mounts to 'bout the same an everything in its place is the best. That's the way I'd write if I wrote books.

"Maybe it was readin in them durn books 'bout the fashion an the wealthy, or maybe it was them people at the Springs put foolish notions in her head, or maybe it was jes' 'cause she come to know she was too good an pretty for a man like me, but anyhow she commenst to pine an droop like a flower that's witherin. I'd beg her to go to the Springs an enjoy herself like she was invited to do, but it warn't no use. She wouldn't do it. After 'bout a week of this thing that same lady from New York drove up to our gate an asked Mary to come in an pay a visit to her at the Springs. She wanted her to stay as long as she would, an then Mary did agree to go an stay a week, makin the condition that I was to come to see her every day.

"It's a lonesome time I had then. I didn't go to see her but three days, an every day it seem to me I was unwelcomer than before, so I thought I better not go no more an let the chile enjoy her visit. It look to me like the harder I try to please her the more things would go wrong. Wimmin folks is curious little things, stranger, an a awkward fellow like me don't know jes' how to handle 'em. I had done mortgaged my farm again an went in town an brought her silks an dresses an gloves jes' the right size, an when she see 'm she jes' cried an said I was too good to her. Then I got her a piano, but nothin would suit. This was befo' she went for the last time to the springs. The things is all at home now, but I never wants to see them again, an if God spares me I never will. There's nothin else to say now, but that I lef' 'cause I couldn't stan' the sympathy an the talkin of the neighbors after I got this letter."

Here he paused and took from the inside pocket of his corduroy coat a square envelope addressed in a round, girlish hand. The faint odor of violet sachet which had once permeated the pages could still be detected, though mingled somewhat with the aroma of tobacco. It read:

I hope that you will understand and forgive me, Jack, although I know that God never will. I was never happy with you, and I never was able to make you happy. A noble, unselfish man like you deserves a better wife. When you get this, I will be far away. Don't try to find me, for you never can. MARY.

After the correspondent had read and returned the letter both men were silent. They watched the little knots of officers and privates talking together under the shade trees, the squads of ununiformed recruits crossing the grounds to their various commands, the amateur cooks preparing the midday meal and all of the lazy restlessness of camp life. The Hancock volunteer was the first to speak. "What pesters me most in that letter," he said in a voice tremulous with suppressed emotion, "is that she says that she knows that God never will forgive her, an sure God (if there is any) shouldn't be more unforgivin than one of his creatures. If I b'l'eved prayers was ever answered, I'd be prayin for that little girl now, but as 'tis the bes' thing I can do is to go to the front an fight for my country."—Barton Pittman in St. Louis Globe-Democrat.

Women's Worst Enemy

Some hesitate before giving an answer, but those who know best will immediately say HEADACHE.

Thousands of women live in misery day after day, and week after week, suffering untold agony from these dreadful headaches. Husbands are disheartened, children neglected, and happy homes ruined. Most women strive to bear in patience the suffering which they consider part of life without looking into the cause or searching for relief. Food cannot digest without the bile which the liver supplies and hence the necessity of keeping the liver in good working order. To cure the headaches you must cure the liver and thus remove the cause of disease.

Dr. Chase spent years of his life in perfecting a medicine which acts directly on the kidneys and liver. Thousands of grateful women have testified during the past ten years to the effectiveness of this remedy for sick headaches. Many a home has been restored to happiness as a result.

Dr. Chase's Kidney-Liver Pills, the greatest discovery of this great scientist, are put up to sell 25 doses for 25c. All dealers.

HUMAN SACRIFICES

On the Altar of Diabetes, Saved by Dodd's Kidney Pills, Only.

Hardly a family in the country is free from Diabetes. Great thirst, failing sight, numbness in the thighs, bleeding gums, swollen ankles, emaciation, nervousness, pale or turbid urine, loss of sexual power, decaying teeth, pains in the loins or small of the back, are all positive signs that Diabetes is in the system.

Do you know how it ends? IN DEATH. A premature, horrible, agonized, pitiful death. The victim has no peace, no ease in life. His days are filled with tortures. His nights are waking dreams of agony. He longs to die, yet fears the terrors of his end. He dies, a bloated, fetid, repulsive mass of corruption. That is the only end of unchecked Diabetes. Dodd's Kidney Pills will cure it. They drive it out of the system thoroughly, create new, clean blood, rebuild the diseased kidneys, and restore robust health.

A Cyclists' Paradise.

Cyclists in rural France are well catered for in delightful little countrified cafes, with open air tables often set in an arbor of evergreens. A franc and a half or two will get you a perfection of an omelet, a plate of stewed wild rabbit, soft cheese, wine and black coffee, and for an extra 4 sous or so the waitress, if the wheelman is ungallant enough to let her do it, will inflate his tires, the merest "marchand de vins" being nowadays the proud possessor of a standard pump.—Caterer.

Warships were originally distinguished from merchantmen by their greater size. Now this distinction does not obtain, and the war vessel is of a totally different construction.

EN ROUTE TO THE KLONDYKE.

An Interesting Letter From a Peterborough Boy.

The following interesting letter is received from Mr. W. H. Fitzgerald, son of Mr. W.J. Fitzgerald, town, who is on his way to the gold paved Klondike:

WRANGEL, ALASKA, June 29.

I have just come down the Stickine river and am in Wrangel for a few days. I left here in May and ascended the river in company with two others in an Indian canoe. Canoes are the best, for the river is a swift one. The banks of the river were lined with the tents of those who had started on the ice and who failed to make up. At no time last winter was there good going on the river. A good many of those who failed to get through on the ice whip-sawed lumber and built boats, most of them heavy cumbersome things that they couldn't possibly get up the river, especially heavily laden, as some of them were. Upwards of twelve lost their lives, poor fellows, in the attempt. Those who never before had hardly seen a boat started up with boats

WHOLLY UNADAPTED

for river travel and heavily laden besides. Last February and March Wrangel was a lively town. People were flocking here to go up the river on the ice and everyone lived and acted in anticipation of the railroad being built later on. There were upwards of fifteen boats plying in the river and quite a lively town was started at Glenora, 150 miles up the river. Glenora was the prospective starting point of the Stickine and Lake Teslin Railway, but since the railroad has become a dead letter and work on the wagon road suspended Glenora has become deserted save for a few prospectors who, hoping against hope, expect to get through to Teslin Lake this summer. Only forty-three of the thousands who started up the river last March with outfits reached Teslin Lake, and

NOT HALF A DOZEN

of them have more than six months' supplies.

The Dominion Government seem to have acted in a very mysterious manner all through and complaints are loud on every side against its policy of inaction.* It has certainly been the cause of a good deal of loss on the part of miners. The Stickine River is a swift one, but for shallow draft steamers with plenty of power it is navigable for more than three months. The trail from Glenora to Lake Teslin is not all plain sailing by any means. It is hilly in places, there being climbs 2,000 feet high in places and there are long stretches of swampy, boggy flats that are almost impassable at times.

Have no fears on my account. I am well able to take care of myself, and I will write you whenever opportunity offers.

A RAILROAD IS BEING BUILT

from Skagway to Lake Bennett. Thousands of people are still encamped at Lake Bennett on their way to Dawson City.

I anticipate a big exodus from the Yukon country this fall, men who haven't provisions or money enough to tide them over the winter, and men who have plenty of both but who are unable, and unwilling to longer endure the hardships of an Alaskan miner's life.

I can't say now just where a letter would find me if you wrote, but I will write again at the earliest opportunity.

There are four immense glaciers along the river and the scenery thoroughout is grand and rugged.

The mosquitoes were terrible in the Stickeen and Lake Teslin country. I see that the U.S. is making short work of Spain, and I hope she does. Spain has proven herself unworthy of being entrusted with the government of any colony.

Your affectionate son,
WILLIE.

*The Dominion Government is technically responsible, but the Senate is practically responsible for the obstructive action that killed the Yukon railway bill. —ED. EXAMINER.

It is Extreme Folly.

To use medicine to cure effects instead of using Paine's Celery Compound to get rid of the cause. Paine's Celery Compound will make you well and strong. All the while you are using it the nerves gain in power and strength, the digestive organs are fully toned, and lost health is rapidly returning.

It is extreme folly to neglect the significant ills, aches, pains and tired feelings that some people look upon as merely trifles. You should remember that the hot summer weather aggravates the ills of life, and these little ills frequently develop serious disturbances and deadly diseases. Paine's Celery Compound should be used at once to brace up the diseased nerves, purify the blood and fortify the system. Weak children, frail and weary women, and tired and broken-down men find a new existence in Paine's Celery Compound, nature's true life-giver.

Removing Nuisances.

Having purchased the property used as a dumping ground for the town, I am prepared to take orders for the removal of dead animals, night soil, etc.—ROBERT NICHOLLS, 47 Park street. 30d138

PRAY—STUDY—GIVE.

A Union Meeting of Methodist Young People Held Last Evening in the Charlotte Street Church.

"The Evangelization of the world in the present Generation,"—this is the motto and battle cry of the student volunteers who are the originators of the forward movement in missions.

Last evening there was a grand rally of the Methodist Young People of Peterborough held in the Charlotte street church.

Rev. R. Emmorson, a student volunteer at the Victoria University, gave an interesting and inspiring address, setting forth in a clear and forcible way the objects of the now world-wide movement

Large delegations were present from the George street, Mark street and Charlotte street leagues, the latter having the programme in charge.

Rev. W. B. Smith occupied the chair and also gave an inspiring address along missionary lines.

Earnest missionary songs were sung and fervent prayers offered for the cause. A number of members of the Charlotte street League choir gave special musical selections.

Mr. Geo. Tovey read the lesson, which formed an excellent introduction to the programme. It was the address of Paul on Mars Hill to the Athenians, Acts 17, 22—31.

Misses Wilson and Combes rendered a duett, and Miss Flo Hall sang a solo prior to the address of the evening.

Rev. Mr. Emmerson said he was much pleased with the interest and enthusiasm, and said that the interest taken in the movement in Peterborough augured well for the success of the district, of which the town was the centre.

The speaker said that in all lines of life "forward" was the battle cry. Missions was not behind in the advancement that was going on in the world. He pointed out as a proof that both the Methodist and Presbyterian bodies proposed raising a million dollars for missions by the close of the 20th century.

A great event took place every 2000 years, and the event of the near future was the dawn of the day when the gospel of Christ should have been preached to all men.

Mr. Emmerson then pointed out that the old religions had no life. They could not save a single soul and never had done so. All had failed including Polytheism, Brahamin, Mohommedianism, Buddism and many others.

There was only one who could save and uplift it was He who said—"And I, if I, be lifted up will draw all men unto Me."

The forward movement began 10 years ago at Mr. Moody's Northfield meeting. Since then 5000 students had pledged to go to the foreign field.

Canada had taken an advance step above all others and arranging so that league districts could support their own missionary.

In the discussion which followed it was generally agreed that next year Peterborough district should fall in line with this arrangement.

The most successful rally closed by singing a missionery hymn. Rev. Mr. Moore, pronouncing the benediction.

CIRCUS COMMENTS CONDENSED.

What the Press Says of Main's Big Show.

Gives more than it advertises, cannot be classed among the cheerful liars in its advertising methods. The greatest and most thrilling wild beast performance on earth is a feature of Main's big show—and the whole show is good.—Pittsburgh Leader, Wednesday, April 27, 1898.

An honourable showman, does more than he promises—makes merit make the money. Finest show in every particular we have ever had, and we've had them all with us in the past ten years.—Pottsville, Pa., Herald, May 28, 1898.

A hundred thousand dollar baby was born last night on one of the Walter Main show trains. It was a little boy elephant only twenty-six inches high and weighed this morning on Holman's grocery store scales located near the D. and H. depot just 248 pounds. Mr. Main has already refused a hundred thousand dollars cash offer for him. He will be christened to-day.—Miners' Journal, Pottsville, Pa., May 27, 1898.

Governors and mayors make good teams when caught in a rain storm under a big circus tent, and they are as happy as boys, too, at times it seems, despite their weighty cares. Our beloved Governor Hill and our jolly mayor sat in reserved seats all through the rain storm to-day under Walter Main's big circus tent. The tents were proof against even dampness, and to see these two young old boys laughing, applauding and joking with each other, the austere frown and dignity an unknown thing on their grand faces, was a sight for sore politicians' eyes.—Daily (N.Y.) Saratogian, Wednesday, June 8th, '98.

ASHBURNHAM BREVITIES.

The services of Mark street church and Sunday school, were conducted in the new town hall for the first time last Sunday. All the services will be held here until the church is ready for re-opening. Much needed improvements are being made.

Mrs. (Rev.) Moore, Miss Edna Armstrong, Miss A Mackenny, Miss A. M. Smith, Mr. James Tighe, and Mr. M. W. Matchett, are the delegates from Mark street church Sunday school, and Epworth League, to the Prohibition Plebiscite Convention in the Y.M.C.A. hall next Wednesday, July 20.

Mark street Ladies' Aid, hald their regular monthly meeting on Monday afternoon, (instead of Wednesday for this month), at Mrs. John Dormer's. A very satisfactory report of the recent social was presented, showing the receipts to be over $30.00. The ladies expect to make quite a reduction this fall in the parsonage debt.

Considerable interest is being manifested in the vote on the waterworks by-law in the village on Wednesday, July 20.

IN PRICES DURING JULY.

$12,500 SLUMP IN ONE CLIP

Gough Bros.' Big Double Stores and Oak Hall Branch Included.

Mark these words! and study them over, and see what it means for you. Since the close of a great day's business last Saturday, we have deliberately slashed about $12,500 off prices in our two Big Double Stores and Oak Hall Branch —including a net shrinkage of fully 25 per cent. in profits.

This is a gigantic undertaking to save you money, and to rapidly reduce all summer stocks. We are not so awfully greedy after gain as not to make prices bend to our will when we want to—even if loss must follow. You can't move stocks fast enough in midsummer without cutting the life out of the profits. But as our great stocks are brought away down to begin with, we can afford to do some marvellous selling, still further away down to quickly clear them. Never anything done in Peterborough can compare with it:—

NOW IN PROGRESS AT THE

GOLDEN LION

It was a fitting termination of the spring and summer season of 1898, which shows the volume of business transacted to be the largest on our records.

The sizes are well assorted yet as we had large quantities of each number, they are disappearing quickly and the prices remain the same, the lowest ever quoted for such high-class garments, **50c.** and **75c.**, formerly $1.00 and $1.25. As we must soon turn attention to autumn importations, we direct special attention to the very great reductions at which we are clearing out the balance of all classes of summer fabrics, viz.:

—Prints, Printed Organdies, Spot Muslins, Victoria Lawns, Cocheco Flannels.

—Ladies' Ties, Collars and Cuffs, Gloves, Hosiery, Leather Belts, Fancy Ribbons, Valenciennes Laces, Velvet Ribbons, Sash Ribbons, Carpets, Curtains and Housefurnishings.

CHANCES OF RESCUE.

Precautionary Measures by the Napanee Jail Officials.

WHY COUNSEL WAS EXCLUDED.

Lawyers May Now Enter the Jail and See Their Clients—No Sweat-Box Tactics —Coins Found on Mackie May Prove Important Evidence —Mr. Baines at Boston.

Napanee, July 20.—Mr. E. Gus Porter, the gentleman who has spent one day and some money on telegraphic tolls to the Department of the Attorney-General at Toronto in an endeavor to gain an interview with his client, W. H. Ponton, charged with complicity in the great bank robbery, will have his wish gratified. Yesterday a notification was received from the Attorney-General's Department allowing an interview to his lawyer with the young man. Thus public feeling, which has been excited by talk of "sweating" prisoners, has been allayed. The authorities here regard the appeals of Mr. Porter with some amusement. It is intimated by them that Ponton had with the arrest of the woman, Saucier, ample notice of the approaching trouble and a great opportunity to confer with his legal advisers. It was not Ponton, who has in fact not been seen by a detective since his

MAGISTRATE DALY.

incarceration, that the police wished to isolate, but Robert Mackie, in whose possession a portion of the stolen bills has been found. Mackie's solicitors are Wilson & Wilson, and they, too, have received permission to visit him.

Why Counsel Was Excluded.

There is a reason for the delay, and it is given in the statement that in Mackie's possession, when arrested, was found a number of rare coins, evidently part of a collection. Mr. E. H. Baines of the Dominion Bank branch here had a collection of coins, some of which were taken in the raid on the bank. A hitch occurred in the identification of the coins for the reason that before the robbery Mr. Baines had presented a portion of his collection to a friend now residing near Boston, and was not sure of the exact pieces that he had given away. Yesterday, however, it is asserted by the bank authorities that the identification is complete, and accordingly the prisoners are at liberty to seek the advice of counsel. The identification of these coins will, it is expected, form an importan. part of the case against Mackie.

The People Doubt Pare.

The people in town are not satisfied with the bare confession of Prisoner Pare. Having regard to his past, they are clamoring for some additional evidence of Ponton's complicity. None is forthcoming from the police, though the Crown authorities make statements that lead one to suspect that some very large developments are at the door. One man remarked, "Why, we have evidence that will convict Ponton over and over again." When the alleged disclosures come they will have to be weighty or the Crown authorities will be ridiculed, so high a point have the people's expectations reached.

It is understood that when Ponton is brought before Magistrate Daly, unless there is evidence that he received part of the stolen money, and strong corroboration of Pare's alleged confession, the prisoner will be released on bail, which will be readily forthcoming.

Rumors of Arrests.

The report was circulated like the news of a fire last night that two arrests had been made in Montreal, but no authoritative confirmation of this report has been received. The fact that Detective Dougherty returns to town at 2.30 a.m. to-day from Montreal, and that Mr. Porter had been allowed to see his client, seems to show that something important in the eyes of the police has been accomplished, and that they fear no "queering" of their game. It was also rumored that Mackie had made a confession yesterday afternoon, but the police are silent, and Mr. Wilson, Mackie's lawyer, is in Belleville, arranging the details of his client's defence, and will not be back till Wednesday.

Another Burglary.

The bank robbery case is getting in its evil educative effects. It seems as if meditation upon the ways of the professional cracksman has produced in the minds of some persons a desire to emulate their example. Yesterday morning early the provision store of Casey Denison on Centre street was broken into and about $50 worth of goods extracted. An entrance was made through the north door of the store, by means of boring an auger hole large enough to admit a small hand. Then the single bolt that held the door was drawn back and the store was at the mercy of the depredators. Chief Adams has the case in hand and doubtless, spurred on by the work of his friends, the detectives, he will do something to distinguish himself.

Attempt to Rescue Mackie.

Tramps in large numbers are known to be in the vicinity of Napanee. The County Treasurer's cow has been milked by them, while private berry patches have been stripped by the prowlers. These facts have alarmed the prison officials. In the minds of many it is thought not unlikely that an attempt will be made to rescue Mackie, though no one suspects that Pare would run away even if the very prison walls fell down.

As for Ponton, outside of the police, not a dozen of the townsfolk think he is implicated at all, excepting as a necessary link in the chain of the detectives' original theory. Mackie is really the man who, as the precious jewel, needs much guarding.

"More light is required in and about the jail," said Sheriff Hawley. Last night the Sheriff sent a letter to Dr. Chamberlain, Inspector of Prisons, Toronto, asking that two electric lights be placed before the jail and four within, one lighting each corridor. At present it is as dark as Egypt round about the jail, and a man might raise a ladder up against the east wall unobserved.

Only One Way of Rescue.

In the opinion of the guard the only way in which a prisoner could be got out would be by an outside party climbing up the outside wall, and creeping along the bisecting wall and feeling his way into the corridors. Then it would be necessary to file a couple of bars and let the prisoner out. Once free from the jail it would be easy for the escaped to catch a train going up the steep grade a mile east of the town, "but that won't be done," significantly said the guard, as great precautions are taken by the guards during the night.

The Holden Case.

Evidence in the Holden extradition proceedings was taken yesterday in Boston, Mass. County Constable Sills positively identified Holden as one of the tramps he arrested on Aug. 18, 1897, on a charge of vagrancy in Napanee, and who was given two hours to get out.

Mr. Baines identified the money, coins and bills on exhibit in the case.

Constable Sills is expected to return to-day. He may go to Montreal to identify Mrs. Saucier, who is supposed to be Mrs. Seymour. It is possible that Holden may come with him.

On Thursday Mackie is expected to be brought before the magistrate for a preliminary examination, but he may be remanded for a further period.

Many of the townsfolk daily go around the jail and carry on a sign conversation with prisoners Ponton and Mackie. A wave of the hand is the best the friends of the prisoners can give.

Ponton and Mackie are in good health, but Pare is still under the care of Surgeon Leonard.

Jailer Van Luven has had a dozen cartridges loaded with buckshot, with which to repel any attack upon the jail.

At 12.30 a.m. yesterday word was received that Lawyer Wilson has been granted permission to visit his client, Mackie, commencing to-day. Lawyer Wilson has not received word personally, as he is in Belleville.

Tar and Feathers for Two.

Ottawa, July 20.—Reports have reached the city that in the village of Bunvegan, Prescott county, a widow named Bercier, her daughter, and a man named La Plante, who lived with them, have by their conduct so incensed the villagers that they were summarily dealt with. A party of men disguised as White Caps went to the house, stripped the man and woman, covered them with tar and feathers, and dipped them in a neighboring creek. The Berciers and La Plante left the next day.

AN ONTARIO BARBER.

The Leading Bass Singer in St. James' Choir, Montreal,

LEAVES THE CITY IN DISGRACE.

It Is Alleged That He Has Brought Ruin and Disgrace to Several Female Members of the Church Choir —Said to Have Admitted His Guilt to the Officials.

Montreal, July 20.—Have you heard of the scandal? Is there anything new in the choir scandal? is now on every tongue that wags in this city and no wonder, for a more vile, diabolical escapade has scarcely ever been heard of in the city of Montreal. The fact of the matter is that interest in everything else has completely subsided in the face of the great trouble that has come to the St. James' Methodist congregation, St. Catharine street. The congregation has been mentioned because they all feel the humiliation, from the worthy pastor down to the man who has charge of the furnace in winter, and who sweeps out the church in summer. When Rev. Dr. Rose was preaching his farewell sermon a short time since, he particularly lauded the services rendered by Mr. Marshall Williams, a former Ontario barber, later on a professional singer and at that time the leading bass in the St. James Methodist choir. But four weeks have elapsed, yet a tremendous change has taken place. Love has been turned to hate and to-day there are men in Montreal who would whip Williams within an inch of his life if they could get their hands upon him, while others aver that shooting would be too good for him. Williams, it is alleged, has brought ruin and disgrace to several female members of the choir and blasted the reputation of a good many more. His methods, as reported, were those of a mean yet cultivated scoundrel, the details of which cannot be published. Williams has left the city and so have the most deeply compromised of the lady choristers.

The sexton of the church was the first to suspect that acts far from holy were being consummated within the precincts of the house of God, and that official imparted his suspicions to the officers of the church. The latter, however, could not believe the monstrous tale; yet, when they were confronted by the evidence of a man who had been working in the organ loft, and had seen the worst, they were bound to believe and to take action. Williams was interviewed and at first he put on a bold face and denied all, yet at a later period he admitted his guilt and left the city by an early train. It is not an exaggeration to say that he has left ruin, disgrace and humiliation in his path. Last Sunday, out of 20 or more lady singers, only five put in an appearance, and a couple of these were told that their services were no longer required. In fact the choir will probably be completely reorganized, as the vast majority, not having been contaminated by Williams' rascally touch, will not feel like remaining in the organization.

Montreal News Notes.

A Madame De Bellefeuille was killed to-day while walking on the C.P.R. track, by an incoming train near Hochelaga.

The City Council is shortly to introduce a measure to tax the departmental stores in the city to the extent of $1,000 per annum. The move is said to be a popular one among the majority of the aldermen.

CANADA AND THE EMPIRE.

A Desire for an Inter-Imperial Defence Conference Expressed.

Montreal, July 20.—A Star special cable from London says: The success of the inter-Imperial postal conference has given a fresh point to the desire of the Canadian Government for an inter-Imperial defence conference. Right Hon. George J. Goschen, First Lord of the Admiralty, and Right Hon. Mr. Chamberlain are both most anxious that Canada and the other colonies should make a regular contribution to the maintenance of the navy and naval reserves. Canada feels that the question demands an all-around consideration, a full allowance being made for Canada's sacrifice in the cause of the Empire in building the Canadian Pacific Railway, etc.

The Pacific Cable Project.

The Pacific cable is again moving. Hon. Mr. Mulock yesterday met the Australasian Agents-General and went fully into the best means of bringing the project to a conclusion, especially in view of the probability that unless the British cable is shortly laid, the Pacific may be crossed by non-British telegraphs, namely, a cable from San Francisco to Hawaii, with extensions to New Caledonia, connecting with the French cable to Australia. The greatest obstacle to the British project is just the permanent officialdom which Hon. Mr. Chamberlain had to overthrow before Imperial penny postage could be carried.

Lord Herschell, the senior British Commissioner of Anglo-American arbitration commission, sails for Canada on Wednesday, accompanied by his son, Hon. Mr. Richard Herschell.

POWER EARLY IN AUGUST.

Cataract Power Co. Hope to Start in Hamilton Next Month.

Hamilton, July 20.—The Cataract Power Company is making fairly good progress in finishing its line between Decew's Falls and Hamilton. All the poles have been erected, and the heavy wiring has been completed to Stoney Creek. The company hopes to be able to turn on its power early next month.

Well Made and Makes Well

Hood's Sarsaparilla is prepared by experienced pharmacists of today, who have brought to the production of this great medicine the best results of medical research. Hood's Sarsaparilla is a modern medicine, containing just those vegetable ingredients which were seemingly intended by Nature herself for the alleviation of human ills. It purifies and enriches the blood, tones the stomach and digestive organs and creates an appetite; it absolutely cures all scrofula eruptions, boils, pimples, sores, salt rheum, and every form of skin disease; cures liver complaint, kidney troubles, strengthens and builds up the nervous system. It entirely overcomes that tired feeling, giving strength and energy in place of weakness and languor. It wards off malaria, typhoid fever, and by purifying the blood it keeps the whole system healthy.

EDITORIAL NOTES.

MONTREAL has come up, or down, to a society stud book; that is a record of who's who in society. The ratio of society people to the mortals of ordinary mud is rather small in the commercial metropolis. In a population of about 250,000 there are only 4100 names enrolled in the blue blood blue book. What monkeys we are, and what monkey capers we cut.

THE Japs are indeed moving and the English language is spreading. In order to show what they read, and in what tongue, they are issuing in Tokio a magazine called the Hansei-Zasshi, edited solely in Japanese and yet written in English. From a recent issue we learn that "the writing of the average globe trotter on the subject of the women of Japan is quite unworthy of serious reading."

The Sunday Schools of Peterborough have struck luck in having beautiful weather for their annual picnics; one dislikes to see the children disappointed with a wet afternoon. In this connection the Belleville Intelligencer says that to the late senator, the Honorable Billa Flint, is due the honour of being the first to conceive a Sunday school picnic. As Mr. Flint was in the heyday of his life not only an up-to-date man, but generally ahead of his time, it says, many of the things which to-day we think have ever been, were inaugurated by him. The first picnic was held in May, 1832, under large shade trees in Coleman Ward, and since then what is now known as Bridge Street Sunday School (then Pinnacle Street), has continued them, so that the last was held was the sixty-seventh. In 32 there was but the one Sunday school in Belleville, and it was composed of over 200 scholars, representing all shades of religious thought.

HYGIENE IN SCHOOL.

School Routine in its Relation to the Physical Health of Pupils.

The National Education Association, now meeting in Washington, D. C., is one of the most important bodies in the United States, and its deliberations are usually worthy of it. One of the most important papers read at a late meeting was that of Dr. R. T. Mackenzie, of Montreal, who discussed the influence of school life on Curvature of the Spine. He has made a study of the subject, and asserts as a result of personal examination, that about twenty per cent. of the children are injured or disfigured by the manner in which they are seated, especially at the desks, during school hours.

His solution of the problem that has been considered by so many educationists, and which is still before them, is to secure a different class of school furniture. The seat, he says, should allow the feet of the pupil to rest upon the floor, and it should have a high and proper support for the back. The desk should have a slope of one to six, and a distance from the seat which would bring it to the level of the elbows at the side. Vertical writing, he adds, is a great improvement upon the slanting writing, but it is not a panacea for the bad posture. It is, so far as the position of the pupil is concerned. One who writes vertically must sit directly in front of the desk, must have room for the free play of arm and muscles, and must write naturally—if the desk and seat are of the proper slope and height. This is a question which the Kingston school board has frequently discussed, at the instigation of Mr. Newlands. As director of writing he has been really in advance of the times, and has advocated what has appeared to some as the "fads" of his profession. Such a desk and seat as Dr. Mackenzie refers to were asked for by Mr. Newlands long ago, and when Frontenac school was being furnished an attempt was made to secure them from a local manufacturer. Unfortunately the board was disappointed, and it had to fall back upon furniture of the standard make. The day is coming when the school furniture must be adapted to the requirements of the pupils. Now a a certain size of seat and desk go with a certain grade, though in that grade the sizes of the pupils vary, and their positions at work must vary accordingly. This is a defect, a serious one, that must be overcome, and the sooner the better. School furniture makers must study the question and meet the requirements of the times as they are described by competent men.

"In every school," says Dr. Mackenzie, "there should be a medical officer to be consulted on these points of school hygiene, and who would also examine carefully all cases of dull or weak children. In cases of incipient scoliosis, or other deformity, teachers should be informed, and surroundings of pupils examined for misfit desks or bad lights, and if necessary parents informed. Treatment should not be undertaken in school. Prevention is the only way, and the gymnastic instructor has not time, or sometimes knowledge, to treat these deformities. His work should be general exercise only, and deformities left for the specialist." Sound advice, and advice that should be taken. Someone advocated, not long since, the appointment of a dentist by the school board, but, valuable as he would be, his service is not to be reckoned with that of the medical man who has to do with the general health of the children. Think about it, gentlemen of the school board.—Kingston Whig.

"[A seat constructed on the principle of a pianoforte stool might be used to meet the requirements of pupils of varied size.

A FAVOURABLE OUTLOOK.

Prospects, Bar Drawbacks, Point to This as Canada's Fat Year.

The crop reports from all parts of the Dominion indicate that if all goes well between now and the completion of the harvest, there will be a very much larger increase in production this year than ever before. The West, towards which we have so long been looking for signs of development, is considered likely to yield from thirty to fifty per cent. more grain this year than last, and in the other Provinces the excellent prices received for last year's crop have acted as a stimulus to enterprise; much larger areas than usual have been devoted to the cultivation of the leading cereals. And while there is a great deal of satisfaction derivable by the Canadian people from the knowledge that more and more of the rich lands of the West are being brought under crop, it is gratifying to know also that the farmers of the Dominion, in the older Provinces especially, but to a very considerable extent in Manitoba and the North-West, have had the wisdom to diversify their operations by adding to the production of field corps a considerable and constantly increasing attention to the production of live stock,

THE FINANCIAL RESULTS

of which are subject to much less fluctuation, principally because competition in it is more dependent upon skill and knowledge than upon soil and climate. Mr. Ed. Atkinson, the well-known American economist, has recently demonstrated that the value of a farm's products is ordinarily in direct proportion to the value of the live stock thereon. In proof of his statement he has collected statistics for two separate areas of about 16,500 square miles, one being of northern counties wherein the live stock bears a proportion of seventy per cent. to the ordinary products, and the other being a group of southern counties, where the proportion is only thirty-six per cent. In the first case the total value of the produce is $77,197,280, and in the latter case only $49,460,051. In many of the States the live stock is of greater value than all the other products, and in parts of Ontario and Quebec the same would probably be found to be the case. The Dominion Department of Agriculture, since it came under the direction of Hon. Sydney Fisher,

HIMSELF A PRACTICAL FARMER

and thoroughly conversant with the higher aspects of agriculture as the greatest of natural assets, has done a great deal towards establishing the live stock industry on the best possible basis by providing that system of cold storage accommodation for dairy and meat products which alone could give stability to the principal section of the industry. Further than that, Mr. Fisher was happily able to obtain, very soon after his assumption of office, the abrogation of needless quarantine arrangements which had previously rendered practically impossible any sale of Canadian live cattle in the United States. Since the removal of this barrier the trade has improved greatly. Moreover, the railway companies, and especially the C. P. R., have been induced to assist in the development of this important adjunct to agriculture in the north-west by giving specially favourable rates for the carriage of thoroughbred cattle westward. The result ought to be that in a very few years the farmers of the North-west will not be so

COMPLETELY AT THE MERCY

of fluctuation in grain prices or even of occasional frosts.

Moreover, the farmers of the West will benefit because the present Dominion Government wisely seized the opportunity offered by the need of a railway through the Crow's Nest Pass to obtain from the Canadian Pacific Railway a material reduction on the carriage of grain to Fort William. This, in its turn, brought about a further reduction on the winter rate from Fort William to Montreal. These reductions, three cents a hundred pounds west of Fort William, and eight cents a hundred from Fort William to Montreal, constitute a substantial gain to the western farmer, and we have no doubt go far to explain the confidence displayed in that section as shown by the reports of increased area under crop.

The new era that opened in British Columbia a little more than a year ago is already well established. In the bustle which has followed the quickening of impulse in all branches of industry, the sensation which accompanied the good news from the Kootenay district has already relapsed, so that prosperity

IN THAT FAVORED REGION

is no longer looked upon as a novelty, but as a settled fact. The stock in at least one British Columbia mine is now one of the most prominent factors in the business of Eastern stock exchanges, and the elections which have just taken place in the Pacific Province may be said to have excited a degree of interest hitherto unexampled.

The general prosperity of the country may perhaps best be gauged by the success that has attended the efforts of the Immigration Department, and the satisfactory returns emanating from the financial corporations and the public treasury. The bank statements show a constant expansion of note circulation, of mercantile loans, and of clearing-house returns. The volume of business requiring the employment of capital is manifestly increasing. In the affairs of the Dominion the people have been treated to a surplus of revenue over expenditure for the first time since 1893. The surplus is likely to be a clear million, and this after paying very large sums on account of railway construction and other large works. Decidedly the outlook for Canada as we enter the fiscal year 1898-99 in favorable to a degree unprecedented in the history of the Dominion.—Montreal Herald.

THE PRINCE'S HURT.

His Royal Highness Suffers Considerable Pain From His Accident.

London, July 20.—A bulletin issued last evening at Marlborough House, says:

The Prince of Wales has passed a fairly comfortable day, considering the severe accident from which he is suffering.

The affair causes some anxiety. Another surgeon has been called in and Roentgen rays are being employed.

It is feared that the accident will compel the Prince to remain indoors for a month.

There has been a stream of callers at Marlborough House all day, the names of Cabinet Ministers, ambassadors and others filling 15 pages of a quarto volume.

The Prince is quite cheerful, although he has had to endure considerable pain. It is understood that the examination and consultation of surgeons will be resumed to-day.

Fears are expressed that the injury to the patella (knee cap) may result in a permanent weakness, perhaps in lameness.

All his engagements for the next four weeks have been cancelled.

A SPLIT WITH THE CUBANS.

American Soldiers Not at All Enamored of Their New Allies.

Santiago, July 20.—A fact which is impressed more and more every day upon the American officers and men is the increasing strained relations between the Americans and Gen. Garcia's soldiers. Indeed, the situation has now reached a point where there is practically no communication at all between the two armies, and their relations border on those of hostility rather than the relations which one would suppose would exist between allies. As soon as Gen. Shafter announced his decision not to let the Cuban Junta enter the City of Santiago de Cuba, deep mutterings were heard among Gen. Garcia's men. It was evident the Cubans were greatly disappointed at the step taken by the American commander. On Friday last Castillo, a brother of Gen. Demetrius Castillo, went to Gen. Shafter's headquarters to ascertain the cause of this step on the part of the American General. "Why is Santiago to remain in the hands of our enemies?" he asked. "The Spaniards are not our enemies," replied Gen. Shafter. "We are fighting the soldiers of Spain, but we have no desire to despoil her citizens. No Cuban will be allowed to enter the city, nor will any American soldier. The government of the city is a matter for the people to decide. When the American army leaves it I presume it will be turned over to you, but not until then." Castillo, who came direct from Gen. Garcia's camp, did not attempt to conceal his chagrin. The Cuban soldiers now fully realize that there is a rising sentiment against them in the American army.

Poisoned by the Hash.

Washington, July 20.—Fifty-five men belonging to Company A, 22nd Kansas Volunteers, at Camp Alger, were poisoned yesterday by eating hash which had been cooked in a tin-lined vessel that had become corroded. Fifteen of the men are seriously ill and are not expected to recover. The hash was eaten at breakfast in the morning, and those who partook of it became ill shortly afterwards.

Pain Around the Heart,

AND ALL OTHER SYMPTOMS OF HEART DISEASE ARE TOO DANGEROUS TO NEGLECT.

An Ingersoll, Ont., Man tells how Milburn's Heart and Nerve Pills Restored his Heart to Healthy Action.

SOMETIMES a pain catches you in the region of the heart, now and then your heart skips beats, palpitates, throbs, or beats with such rapidity and violence you think it will burst. Once and a while you have a dizzy or faint spell, feel weak, nervous, irritable and depressed. There is no other remedy will do you so much good, restore your heart to a natural condition, build up your strength and give you back vigor and vitality as Milburn's Heart and Nerve Pills. Here's what Mr. Hugh Moore, Ingersoll, Ont., says about them: "Last year I was sick with Malaria. Since then I have had serious heart trouble, such as sharp pains beneath the heart, violent palpitation, shortness of breath, smothering spells on going to bed, etc. My rest was broken and disturbed, and I often woke up gasping for breath, while my heart beat so violently as to make me fear sudden death.

"I heard that Milburn's Heart and Nerve Pills were a good remedy for heart troubles and therefore got a box from Mr. G. A. Ionson's Drug Store, and to my surprise and delight obtained almost instant relief. My heart is now all right, the pain is gone, the heart beat is natural, the shortness of breath has vanished, and I have had no attack of smothering since beginning their use. I now get unbroken, restful sleep, so that I am feeling strong and well. Milburn's Heart and Nerve Pills have wrought this gratifying change, and I heartily recommend them to all sufferers."

OFFICE OF W. A. MURRAY & CO., 17 to 27 King St., East, Toronto.

Wm. McCabe, Esq., Managing Director, N. A. L.:

DEAR SIR:—In answer to your request for me to decide upon one of the following options offered me for settlement of my 15-payment Life Investment Policy for $5,000 which has matured this year, viz.:

1st, to take the value of the Policy in Cash..... $5,038 00
2nd, or fully paid-up insurance for..... 8,280 00
3rd or take the profits in cash 2,050 25
and continue my policy without further payments being required from me, such policy participating in future profits.

I find it somewhat difficult to make a decision either of the three options being so satisfactory. I am certainly very much pleased with the results offered me, and as I find many others are giving full testimony to the profit-earning power of this company. I do not hesitate to give my endorsement as well, that the North American Life is one of our strongest Canadian institutions to day giving first class results on Investment Policies, on a safe and conservative basis. I find that my policy, which was originally a Life by fifteen payments, has become an Endowment at the end of the Investment period.

MUNYON'S CATARRH CURE.

Catarrh seldom fails to affect the whole system and to break down the general health. It extends to the lungs, producing asthma, bronchitis or consumption; to the stomach and liver, and finally poisons the whole system, causing general debility and nerve troubles. Discharges from the nose and throat, bad breath, stuffed-up nostrils and head, pressure and sharp pains in the head, dizziness, sneezing, nose-bleed, inflamed watery eyes, deafness, and hawking and spitting of mucus are some of the symptoms of catarrh.

The Munyon treatment for catarrh is based upon the latest scientific discoveries and is a positive cure. The Munyon Catarrh Cure, price 25c., permanently eradicates the disease by its action on the blood and nerves, and the Catarrh Tablets, price 25c., cleanse and heal the diseased parts and restore them to a healthy condition.

THE QUEEN'S PRIZE.

Scoring in the First Stage Is Now Complete.

CANADIANS ARE DEPRESSED.

Their Showing Is Not so Favorable This Year as It Was Last—Their Full Scores in the First Stage at the Three Ranges—In the Prince of Wales' Match.

Bisley Camp, July 20.—Shooting off the ties in the Prince of Wales' competition, Lieut. Robertson, 77th Batt., came fourth, his last score being 5 2 3. Robertson secures fourth place in the prize list.

The commandant, Col. J. P. Cooke, and the adjutant, Capt. Smith, are much depressed over the unfavorable showing of the Canadian team yesterday and during the past week. Members of the team express the fear that the present visit will be a losing one.

Lieut. Robertson, 77th Battalion, in the Secretary of State for War competition, secured nineteenth place, his winnings being forty shillings.

In the Golden Penny match, St.-Sergt. Hayhurst, 13th Battalion, got thirteenth place; Sergt. Simpson, 10th Battalion, seventeenth; Pte. Davidson, twenty-first, each winning 20 shillings.

Shooting in the Ind-Coope resulted in Sergt. Broadhurst, 5th Battalion, gaining *twenty-second place*; Lieut. Ross, 13th Battalion, thirty-fourth; Sergt. Spencer, 13th Battalion, forty-first, and Pte. McVittie, 48th Battalion, fifty-fifth place, each winning 20 shillings.

The Queen's Prize Match.

Firing in the first stage of the Queen's Prize, 600 yards, took place yesterday. The day before there was shooting at the 200 and 500 yard ranges, so that scoring in the first stage of the big competition is now complete.

The first 300 in the first stage are entitled to fire in the second stage. Following is the aggregate score of the Canadians at the three ranges:

	200 Yds.	500 Yds.	600 Yds.	Total
Armstrong, Sergt., 10th	31	33	29	93

Spencer, Sgt., 13th	24	28	31	83
Swaine, Pte., 14th	28	34	34	94

All scores of 90 were shot off, two of the competitors obtaining places. There are 89 to shoot for the two places qualifying for the second stage.

Last year the aggregate score at the three ranges of the Queen's Prize was more satisfactory. Following were the scores:

APPALLING DEATH

From Kidney Disease Prevented by Dodd's Kidney Pills, Only.

"Kidney Disease." Do you know what it means? It means that the kidneys are either *rotten*, or rotting; the blood is full of poisonous, death-dealing corruption; that the Kidneys can't do their work; that the victim is a walking charnel-house; that his hours are numbered; that the victim MUST take Dodd's Kidney Pills if he does not want to die.

Have you Kidney Disease? Is your skin hot and dry; memory failing; breath short; urine, reddish, or pale colored; does it scald when passing; is your appetite changeable; do your ankles swell; have you bitter taste in the mouth on getting up mornings; is there a brick-dust deposit in your urine?

Any of these signs is proof positive of Kidney Disease. Will you be cured, or will you die? Dodd's Kidney Pills are the only means on earth that will cure you. They never fail.

Daily Telegraph Competition.

In the Daily Telegraph competition, single entries (in the all comers and grand aggregates) seven shots at 600 yards; prize, a cup, and £330 added by the National Rifle Association, the Canadian scores were as follows:

Armstrong, Sergt., 10th Batt	33
Blair, Col.-Sergt, 57th Batt	26
Broadhurst, Sergt., 5th Batt	35
Crooks, Lieut., Q.O.R.	32
Davidson, Pte., 48th Batt.	31
Forbes, Lieut., 73rd Batt	29
Gilchrist, Lieut., 1st R. F. A.	31
Hayhurst, St.-Sergt., 13th Batt	24
Logie, Sergt., 12th F. B.	29
McVittie, Pte., 48th Batt.	31
Miller, Gunner, 5th R. C. A.	31
Pain, Lieut., 13th Batt	24
Robertson, Lieut., 77th Batt	29
Ross, Lieut., 13th Batt.	33
Runion, Capt., 59th Batt.	27
Simpson, Sergt., 10th Batt	30
Smith, Lieut., 58th Batt.	28
Spencer, Sergt., 13th Batt.	31

Lieut. Smith, 59th Batt., shoots off a tie for first place in the Centaur competition to-day. He has seventeen competitors to shoot against.

Pte. McVittie, 48th Batt., will to-day shoot off a tie in the Golden Penny for second and third places. There are nine others to take part.

Sergt. Broadhurst, 5th Batt., has tied with four others for the cup in the Daily Telegraph match. The ties will be shot off to-day.

So far this has been the most unsuccessful visit the Canadian team has made to Bisley, and the men are very much afraid that the D.R.A. will be out of pocket.

In the competition for the Daily Telegraph Cup, seven shots at 600 yards, Capt. Hutcheson, 43rd Batt., made 25. Pte. Swaine, 14th Batt., 30, and Sergt. Broadhurst, 5th Batt., 35 points.

For the Alexander Martin, ten shots at 1,000 yards, Col.-Sergt. Blair, 57th Batt., made 47 points.

The Canadian Score.

London, July 20.—In the competition for the Queen's Prize yesterday at the Bisley Rifle meeting, the following were the scores of the Canadians:

Hayhurst 95, Simpson 95, Swaine 94, Broadhurst 93, Gilchrist 93, Armstrong 93, Blair 92, Robertson 92, Smith 92, Davidson 91, Forbes 91, Hutcheson 90, Crooks 88, McVittie 86, Rutnion 86, Loggi 86, Spencer 83, Pait 87, Miller 57.

In the Martins Cup competition Forbes, Crooks and Simpson, Canadians, led with 30 points in their favor.

In the contest for the Daily Telegraph Cup, the leading Canadians are Broadhurst 35, Armstrong 33 and Ross 33.

THE CALL COMES QUICK

Diarrhœa, Dysentery, Cramps and Colic come on without a moment's warning.

Keep on Hand Dr. Fowler's Extract of Wild Strawberry and be prepared to Check Them at Once.

There is no disease overtakes one so quickly and with so little warning as Colic or Diarrhœa. You are attacked, perhaps, when you least expect it.

You retire at night feeling in the best of health and before morning you may be seized with cramps and be prostrated with Diarrhœa or Dysentry.

Everybody should be prepared for such an emergency as this with a bottle of Dr. Fowler's Extract of Wild Strawberry. You cannot tell when you yourself or some member of your household may need its timely assistance.

Mrs. Geo. West, Huntsville, Ont., speaking of this great remedy says: "I have used Dr. Fowler's Extract of Wild Strawberry in my family for years and can highly recommend it for for Summer Complaint, Diarrhœa, Cramps, &c.

That is the universal note of praise that comes from thousands of Canadian homes where Dr. Fowler's Strawberry is always kept and recognized as a remedy that can be relied on to promptly check and cure Diarrhœa, Dysentry, Cholera Morbus, Cholera Infantum, Cramps, Colic and Summer Complaint. Sold by medicine dealers everywhere at 35c a bottle.

KILLED IN A RUNAWAY.

Mrs. (Rev.) C. J. S. Bethune Killed at Port Hope.

Port Hope, July 19.—About 7 o'clock last night, while Smith Bros., cabmen, were driving Mrs. (Rev.) C. J. S. Bethune from Trinity College School over to some friends in Englishtown, where she was going to spend the evening, the team ran away on Mill street, and Mrs. Bethune, no doubt fearing that they would run into the lake, jumped from the rig just below the Royal Hotel, receiving such injuries that she died about an hour after the accident. Had Mrs. Bethune remained in the rig she would have been uninjured, as the driver succeeded in stopping the horses before reaching the foot of Mill street. Rev. Mr. Bethune left for Orillia on the 4.25 train, and is not yet aware of the sad accident.

WHEAT UP 1 1-2 CENTS.

Due in Great Measure to Bradstreet's Estimate of a 7,000,000 Bushel Decrease in the World's Visible.

Tuesday Evening, July 19.

Bradstreet's estimate of a decrease of nearly 7,000,000 bushels in the world's available wheat supply was probably the main factor in strengthening the Chicago market to-day. Reports of damage to the spring wheat crop in the West also had a bullish influence on quotations. On the Chicago board, the July delivery rose 3c, per bushel, and the later options 1½c. Most of the gain was retained at the close.

In Liverpool to-day July wheat closed ⅜d per cental higher than yesterday, and the September and December options ½d higher.

In Ontario, new red winter sold to millers at 70c, north and west.

More Caterpillars.

Mr. J. Butcher brought to the EXAMINER office this morning a branch of a birch growing on St. John's church grounds. Upon this branch was a big cluster of caterpillars like a good sized swarm of yellow jacket hornets. These worms are not as large as the well known tent caterpillar, almost destitute of hairs and of lighter colour, a general dirty yellow caused by alternately longitudinal bars of light brown and yellow, the broadest occupying the middle line on the back. Will some entomologist call at the EXAMINER office where specimens of the larva may be seen so that the pest can be identified. Mr. Eloome who has a penchant for bugs might also give his opinion. To have a new brigade of caterpillers thrust upon us when the tent caterpiller has disappeared to make preparations for the next seasons campaign is somewhat disquieting.

IMPORTANT ITEMS.

The annual meeting of the Y. M. C. A. will be held in the building on Tuesday evening, Aug. 2nd, at 8 o'clock. An interesting meeting is expected. Light refreshments will be served after the meeting.

The management of the Association are desirous of making as good a financial showing as possible at the annual meeting and they ask all those whose subscriptions or membership fees have not yet been paid to hand in the amounts to the office at once. The contributions of any persons who have not been waited upon, and who wish to help along the good work, will be thankfully received. The books will be closed Aug. 3rd.

Arrangements are progressing favourably for the Association Boys' Camp. Boys who wish to go should send in their names at once.

THE FIRST NEW WHEAT.

To Check Germany.

New York, July 20—A despatch to the World from London says: It is learned on the best authority that an active interchange of views has been going on between the governments of the Australia colonies and Colonial Secretary Chamberlain concerning the scheme attributed to Germany in Manila. The establishment of German influence in the Philippines would be regarded with intense dissatisfaction in Australia, and Secretary Chamberlain has been strongly urged to induce the Imperial Government to use every influence to prevent such an eventuality.

Germany Not to be Feared.

He has replied that the British foreign office does not regard German interference in Manilla as likely, because the German government is anxious to avoid doing anything calculated to promote an Anglo-American entente.

Still Trouble at Home in Spain.

Madrid, July 20, 8 a.m.—The newspapers here say that a coalition is being arranged between the different parties and against the government on account of the suspension of the constitution.

Taking Shelter in Foreign Ports.

New York, July 20.—Madrid special to the World from Gibralta says: The Spanish Transatlantic steamship company fearing Watson's fleet that is coming to this side of the Ocean, is busy distributing its steamers among foreign ports.

The Pen is Mightier Than the Sword.

Santiago, D.C., Cuba, July 20.—Sylvester Scovel the newspaper correspondent who has been confined since Sunday for having assaulted General Shafter was removed to Siboney. Scovel attempted to make himself a part of flag raising committee at the palace on Sunday last. He forced his way through the crowd and slapped General Shafter's face.

Why Not Make Him a "Hero?"

Washington, July 20.—War Department officials are very indignant at the attack upon General Shafter by Scovel, correspondent of the New York World. They consider it not a single attack upon a citizen, but upon the head of an American army and as such was an affront to every American citizen. The whole management of making an example of Scovel is in the hands af General Shafter. General Miles has again been delayed in sailing from Siboney for Porto Rico.

—The street cars recommenced running to-day after a rest since the first of July.

—Caretaker Laing is to be congratulated on the greenness of the grass plot in front of the Collegitate Institute. It is in fine condition.

—Out of 13 applicants from the Ashburnham Public School, who wrote on the Entrance Examinations, 10 were successful. This is a good showing, and all due credit must be given Mr. Matchett for his work.

—Bill-poster Stocker is erecting another large bill-board in front of the space formerly occupied by a house belonging to Mr. Thos. Bradburn, on George street, just north of Brock street. The house was destroyed by fire and the bill-board will hide an eye-sore.

FOR THE PLEBISCITE.

A Meeting in the Interests of Probition to be Held in St. Andrew's Church this Evening.

The Plebisciters of the county are in session this afternoon in Association Hall, and are busily engaged in organization work.

This evening a grand union meeting will be held in St. Andrew's church, when a large attendance is expected, as all prayer meetings have been withdrawn.

Rev. Dr. Cade of Millbrook, who is considered one of the finest orators in the Dominion, will address the meeting, as will Duncan Marshall of Toronto, organizer of the Good Templars. A musical programme will be rendered, in which Miss Weddel, Miss Falconer and Miss Belleghem will assist.

BENSFORT.

Restored to his Family.

A few days ago a paragraph appeared in the Daily as well as Weekly EXAMINER, relating to the unaccountable absence of a lad named Peters, belonging to Bensfort. Through this paragraph the lad learned of the anxiety of his parents as to his whereabouts. After leaving Mr. Woods, of Chemong Lake, where he had been working, instead of returning home as he said he intended to do, he took service with a farmer near Stony Lake. The gentleman takes the EXAMINER, and seeing the paragraph he sent the lad home for a day or two to relieve his parent's mind, after which he returned to his work on the farm.

OBITUARY.

The Late Mrs. Daniel Hennessey.

Mrs. Hennessey, wife of Mr. Daniel Hennessey, foreman for Messrs. Cory & Laverdure, Trent Valley contractors, died yesterday at the family residence, opposite the old Methodist cemetery, from inflammation of the lungs. Mrs. Hennessey was a daughter of the late Patrick Tagney and leaves a husband and four children to mourn her loss. The funeral will take place to-morrow at nine o'clock.

LAID AT REST.

Funeral of the Late Thomas Armstrong.

Yesterday afternoon the funeral of the late Thomas Armstrong took place from the family residence, 106 Murray street, to Little Lake Cemetery, where the remains were laid at rest. The funeral service was conducted by Rev. J. C. Davidson. A large cortege followed the remains in tribute of the respect felt for an old and very much esteemed citizen. The pallbearers were Messrs J. E. Belcher, C.E., James Blackwell, John Savigny, Henry Reid, H. C. Strickland and A. P. Poussette, Q.C.

ST. ANDREW'S EXCURSION.

A Pleasant Day Spent Down the River at Idyl Wyld and Jubilee Point.

St. Andrew's Sunday school had an ideal day for its annual excursion down the river yesterday. The steamer City of Peterborough conveyed nearly four hundred excursionists to Idyl Wyld where the cool breezes off the lake made a delightful contrast to the heat experienced in town. A stay was made at Idyl Wyld until three o'clock in the afternoon, dinner being partaken of there and the games run off. The steamer then conveyed the party to Jubilee Point where they remained until five o'clock, leaving for Peterborough after tea. The result of the games was as follows:

Running race, 100 yards, boys under 10 years—Eddie King, Thos Ford.

Running race, 50 yards, girls under 10 years—Aunie Graham, Hazel Stanger.

Running race, 100 yards, boys 10 to 13 years of age — Harry King, Malcolm Braund.

Running race, 50 yards, girls from 10 to 13 years of age—Maggie Reid, May Ford.

Running race, 100 yards, boys from 13 to 15 years—Holly VanEvery, Walter Reid.

Running race, girls 13 to 15 years, 50 yards—Lizzie Allen, Georgina Mowat.

Jockey race, boys—Eddie Kimball and Malcolm Braund.

Girls' running race, 16 years and under—Mabel Robertson, Winnie Macfarlane.

Three-legged race, boys—Malcolm Braund and Harry King, Fred Richardson and Robt Reid.

Egg and spoon race, girls—Miss Blaylock, Lizzie Allen.

Sack race, boys—Walter Reid, Malcolm Braund.

Needle and thread race, girls—Mabel Robertson, Jennie Kennedy.

Obstacle race, boys—Harry King, John Morrison.

Blindfold race, girls—Teeny Maud, Mabel Robertson.

Blindfold race, boys—Malcolm Braund, Harry King.

Consolation race, girls—Ellen Harper.

The members of the Primary Class and email visiting friends were each supplied with a tiny watch and fob chain.

Dr. Chase Cures Catarrh after Operations Fail.

SPORTING PASTIMES.

Wheeling and Other Items of Local and General Interest.

THE WHEEL.

The current issue of "Cycling" states that the train arrangements at Peterborough were bad and claims that the only trains for the west were at 4.42 a. m. and 4.25 p. m. Brer Schutte had evidently been holding his end up with the boys before he looked over the time tables, as additional trains leave Peterborough for Toronto at 7.10 a. m., 8.05 a. m. 11.45 a. m., 1.18 p. m., 5.35 p. m. and 8.55 p. m.

The Trafalgar Bicycle Club members had a very pleasant trip through the country last evening. The club was very much pleased with the fresh air and a drink of cool water when about forty miles from home and dead-broke.

LACROSSE.

The Hastings seniors will play in town on Friday next. The game will be called at 4 p.m. The admission fee will be reduced to 10 and 15 cents. Hastings has not been beaten this year.

The members of the club are now practicing in earnest and are getting into good shape. Phelan claims to have worked off seven pounds last night on the field.

It is claimed that the Peterborough's have not yet had their strongest team on the field this year. By the time the two games with Beaverton have been played, the relative merits of the aspirants for positions on the senior team can be decided. There is a grand lot of players to pick from and the men who are in the best shape will get the call.

The Hastings team has been engaged to play an exhibition game of lacrosse with Marmora on the 27th inst., at Havelock, it being Havelock's civic holiday, for a silver cup valued at $25.

The Moon's Influence

Upon the weather is accepted by some as real, by others it is disputed. The moon never attracts corns from the tender, aching spot. Putman's Painless Corn Extractor removes the most painful corns in three days. This great remedy makes no sore spots, doesn't go fooling around a man's foot, but gets to business at once, and effects a cure. Don't be imposed upon by substitutes and imitations. Get "Putman's" and no other.

Compromise Measures.

As is our custom during the hot months of July and August, this store offers extra inducements for the sake of a speedy disposal of Summer Stocks and in the interests of our employees.

It's a sort of a compromise measure, to make room for coming Fall Goods and to keep the store busy at midsummer. Thought we had low prices before, but these certainly eclipse all former efforts:—

DOLAN & SHEEHY GET THE CONTRACT

For Laying Pavements on George and Water Streets.

WE WILL BUY A STONE CRUSHER.

The Question Discussed at Length as to Whether the Introduction of a Stone Crusher will be a Hardship to the Workingman or will be a Benefit to Him.

As Messrs. Dolan and Sheehy of Belleville, agreed to purchase what crushed granite they would require in the construction of granolithic pavements from the corporation, there was no difficulty last evening at the council meeting in quickly passing the bylaw authorizing the execution of the contract with them for the laying of the pavement at 16⅔ cents per cubic foot.

The Mayor occupied the chair, the other members present being Councillors Best, W. H. White, Robertson, Allen, Hamilton, Dawson, Cobb, McWilliams, Langford and J. M. White.

The bylaw to authorize the execution of the contract for street paving was introduced by Councillors Denne and Allen.

When the Council was in Committee of the Whole, Councillor Best asked from whom the authority was secured for the laying of the sidewalk on the east side of Water street, opposite Victoria Park?

The Clerk stated that the petition covered only the west side, but on looking up the minutes found that the motion for the construction of the walk mentioned both sides.

Councillor Dawson urged that the construction of the walk on the east side be postponed until such time as it could be ascertained if the county would not stand its fair share of the expenditure.

THE MAYOR EXPLAINED

that a new sidewalk had to be laid along in front of the park, anyway, and it would only cost the town a matter of $24 a year to cover the expense. If the citizens were urged to go in for granolithic pavement as an economy, surely the same course of reasoning would apply to the town's property as well.

Councillor Best wanted to see a pavement laid on the north side of Charlotte street. He thought this work more important than that on the east side of Water street, and asked to see it taken up before the latter.

The Mayor stated that the petition for the Charlotte street pavement was already being signed and that the work would be undertaken this fall, if at all possible.

Councillor Langford agreed with Mr. Best regarding the importance of having a pavement on Charlotte street, but stated that as the tenders were drawn only for portions of George and Water streets, it would be better to pass the bylaw as it stood and have the work begin at once.

Councillor McWilliams stated that if there was time this fall after the work contracted for was finished, Messrs. Dolan & Sheehy had stated their willingness to undertake the laying of a pavement on Charlotte street at the same figure as in their present tender.

The bylaw then received its final reading and was signed and sealed.

Councillor Langford stated that he had seen several stone crushers at work up west, and after the council had examined the one used in Hamilton it would be as well to see those made by other firms. He moved that himself, with Councillors Best and White, be a deputation to go to London and examine a stone crusher which was owned by that city, in order that when it was decided to purchase such a machine the council could be able to decide on the best make.

Councillor McWilliams thought that if there was any intention of buying a crusher a vote

SHOULD BE TAKEN

on the matter in the council before any further steps were taken in this direction. In his opinion the purchase of a crusher would prove a hardship to the labouring man as it would deprive him of the work of breaking the stone. The workingmen when voting for the bylaw to purchase a roller had no idea that a crusher was to be introduced.

Councillor Robertson stated that there was no misunderstanding in Ward No. 1, as he had plainly told all with whom he had come in contact that the securing of a roller meant the purchase of a crusher as well.

Councillor Best pointed out that no matter how much stone was crushed it would have to be laid on the streets, which would give the workingman just as much work as formerly, as the streets would be kept in better shape hereafter and more stone placed on them. According to Councillor McWilliams' course of reasoning the granolithic pavements would be a hardship to the labouringmen, as it was claimed they would last forever without repair, which would mean that the workingmen would lose the job of repairing the sidewalks (laughter).

Councillor Dawson stated that all these labour saving devices were simply another invention to cut the legs from under the workingman. He did not agree with Councillor Best in saying that the purchase of a crusher would increase the labour on the streets. It would decrease it.

The mayor desired to put himself on record in the matter and gave it as his opinion that the crusher would injure the workingman not one iota. Last spring $1,500 was spent on breaking stone, when by means of a crusher the expense involved would have only been $400. The $1,100 which would have been saved in the breaking would have been paid to the workingmen for preparing the streets, preparing and distributing the stone. The appropriation for the streets would be put the same every year and must consequently

BE PAID OVER

to the labouring man in the end. The Mayor considered himself as much a friend of the labouringman as any man in the council, and as the amount to be spent this year of $8,300 instead of $15,000 as last year, was so much less, the workingmen no doubt felt the loss, and in order to re-imburse them he had spent a good deal of time in his efforts to forward the construction of permanent sidewalks, and he felt a peculiar satisfaction in knowing that by the ready assistance of the council, a contract had been entered into to-night for work which would cost somewhere about $5,000.

Councillor Dawson demanded an answer to his question as to whether or not labour saving devices cut the legs from under the workingman.

The Mayor ruled the question to be foreign to the circumstances.

Councillor McWilliams inquired of the Mayor if he knew what it would cost per cord to break stone by the crusher?

The Mayor—From two and a half to three dollars per cord, including the cost of the stone.

Councillor McWilliams questioned if it could be done at this price. He had recently seen some reports from the hands of the Provincial Road Inspector stating that the cost of crushing in some of the western towns was five dollars and a half a cord.

Councillor Best called the previous speaker's attention to the fact that the raw material in these towns sometimes cost as high as $4.00 per cord which would bring the cost of crushing it down to $1.50 per cord. By his figuring he placed the cost of crushing the stone, exclusive of its purchase in the rough state, at about 80 cents a cord. Hand crushed stone was not of sufficient uniformity for the construction of permanent pavements, and the matter resolved itself into the question of crushing the stone by a machine in Peterborough, or purchasing machine-crushed stone from Belleville or some other point. The former course was far more in the interests of the labouring class.

To settle the matter Councillor Langford, seconded by Councillor J. M. White, moved that a crusher be purchased at the same time as the steam roller. The motion was carried and the council then adjourned.

OUR LADY OF THE SUNSHINE.

Morang's Magnificent Midsummer Annual for 1898.

A beautifully charming "counterblast" to Rudyard Kipling's, "Our Lady of the Snows," is found in Mr. Geo. N. Morang's delightful publication, "Our Lady of the Sunshine" just issued. Last year the capable Kipling, drunken with the potent effervescence of Jubilee wine, and taken by the appeal of an apt phrase, called Canada, "Our Lady of the Snows," and "Our Lady of the Sunshine," or "Morang's Illustrated Midsummer Annual," gives the lie, with the utmost grace and completeness to the unintentional, but still palpable, slander of the great verse maker. Morang has shown Kipling that if he will make phrases he must be careful with whom he takes liberties. "Our Lady of the Sunshine" consists of 70 large quarto royal pages, and contains between 25 and 30 articles of most pleasant reading, all written by Canadian contributors and some of the superbly illustrated by Canadian artists. The general subject of these articles bears more or less directly upon the summer beauties and perfections of the unsurpassed climate of Canada, and when Rudyard Kipling receives his copy of "Our Lady of the Sunshine," his "Lady of the Snows" will melt with hot humiliation. As a specimen of Canadian literature, art and typographical and illustrative workmanship, the book is one to make a Canadian proud. The work sets forth the "sunny ways" of the Canadian climate in a way to serve more than a sentimental purpose—to advance the good name and capabilities of the country in quarters which will yield substantial return in increased interest in the illimitable resources of this young, but great country. Among the contributors are well known Canadian names. One well known to Peterborough people is Mrs. J. M. Long, a former resident, who contributes a charming sketch in vindication of the beauties of our climate, especially as contrasted with that of her southern home.

The illustrations are simply superb. There are four full-page reproductions in colours of oils by Canadian artists—R. C. A's—which challenge unstinted admiration. The photogravures of scenes, flowers, etc., cannot be surpassed in delicate fidelity to the originals. A page is devoted to portraits of some prominent mayors and among them is the familiar face of Mr. A. L. Davis, Peterborough's popular mayor.

Taken as a whole—as a vindication of our climate, as a sample of the literary and artistic ability of Canadians and in a mechanical point of view, "Our Lady of the Sunshine" is equal in all these respects to anything produced on this continent. Mr. Morang is to be heartily congratulated upon the success of his first work in this direction, and the people of Canada are also to be congratulated that so beautifully set an epitome of the charms of our climate is available for their possession. With all its beauty and for its size it is a marvel of cheapness—only 25 cents. Published by Mr. G. N. Morang, Toronto, and on sale at the Peterborough Bookstore.

Retains Its Flavor

It is known to commerce that Indian Tea retains its strength and flavor while China, Japan and Ceylon "go off." Ram Lal's is a pure Indian Blend, and being put up in air tight packages, retains all its freshness. *This accounts for its great strength and delicious flavor.*

It goes one third further than other teas selling at the same price.

The Best and Greatest

BLOUSE OFFER

Ever offered to the Ladies of Peterborough. It is a well-known fact, from one end of the town to the other, that GEMMELL'S Blouses are without doubt the daintiest coloured and best quality Blouses ever shown, and would easily sell without a reduction. But now is the time for wear, and now is the time we wish to clear summer stocks—so we have started the Greatest Blouse Sale of the season by offering everything in store and factory, at a special reduction of from—

25 TO 33 1-3 PER CENT.

Off every Blouse. Prices start as low as 25c., then 45c., 50c. and 65c., and the choice of whole establishment for 98c. This will give some idea of the great reductions all over the stock.

THE FROST AND THE CROPS.

The Damage that has been Done by the Frost, Followed by Intense Heat and Drought.

Mr. Thos. Blezard, M.P.P., was in town to-day in connection with cheese operations. He has been travelling the past week through the greater part of the East Riding of Peterborough, and has taken particular notice of the crops. He informs the EXAMINER that three weeks ago the prospects of the most bountiful crop of the century were bright, but the last ten days have wrought a marked change.

The frost of ten or twelve days ago was, he says, the severest July frost he ever knew, and its effects have been in some cases disastrous. However, the effects of the frost though general have been by no means uniform. In one part a field of peas, or corn, or potatoes or buckwheat would be blackened and destroyed, and adjoining would be a plot almost entirely unharmed. He noticed in a field of potatoes where one hill would be cut down by frost several others in the vicinity would be uninjured.

Still on low lands there has been considerable injury done. Corn has been destroyed and peas especially late-sown, being in blossom, were destroyed, that is the grain, the foliage is still abundant and will be still more so because the vitality of the plant not being required to mature the seed is devoted entirely to the growth of the vine. Oats are affected also, and many of the fields are beginning to turn white. The

CROPS TO SUFFER WORST

are peas, corn, oats buckwheat and potatoes, only certain sections particularly low lying lands. In the valley of the river Ouse the destruction has been general, and on the low lands along the Otonabee there has also been sad havoc. Mr. Geo. Lockie, North Monaghan, has a field of 9 acres of peas almost literally destroyed by frost. Buckwheat seems to have suffered most though of this crop there is not generally a large area sown. Some assert that the spring wheat was injured by the frost but that is open perhaps to question. However the spring wheat has mature unusually early. The fall wheat crop was of course too far advanced to be affected by the frost and Mr. Blezard says that both in yield and quality of grain it is a magnificent crop. The grain, however, being so plump has in many cases burst the chaff and there has been some loss by "shelling" in the harvesting. Harvesting and haying are two weeks in advance of the average.

Still, with all the ravages of frost, Mr. Blezard thinks the outlook is not bad and there is little danger of a scarcity of fodder. Of course corn is injured considerably; but with a magnificently abundant crop of hay and abundance of straw this loss will not be so severely felt.

It is impossible to form an idea of the percentage of damage done by frost. The frost went in spots, so to speak, and even in the same fields the frost was very irregular in its attention to plants.

On the whole, while the frost is an element of large loss, the crops of the season of 1898 will be fairly satisfactory in the general result. A deficiency in one department is made up by an unusual yield in another.

THE STEAMER

"NORTH STAR"

(JAMES HAMILTON, Master.)

DAILY TRIP TO RICE LAKE

ONLY 50 CENTS.

With Dinner at Gore's Landing Included.

The "North Star" makes daily trips to Rice Lake and return, leaving C. P. R. Wharf at 9.15 a.m., reaching Gore's Landing at 12 o'clock for dinner, and afterwards makes a trip around the Lake, calling at the several landings and points of interest. Wednesday and Friday will run to the celebrated Serpent Mound. Returning, the Steamer will leave Gore's Landing at 4 arriving at Peterborough at 7.30. This trip is one of the most enjoyable in Canada. Everything first class.

On Saturday the steamer leaves Peterborough at 2 p. m. Supper at Gore's Landing. Fare 50c.

On WEDNESDAYS and FRIDAYS the steamer will take the excursionists to examine the SERPENTINE MOUNDS on Roach's Point, Rice Lake, free of charge. These remarkable evidences of the pre-historic occupation of the country by a people far ante-dating the Indian, will form one of the most interesting attractions of the "North Star" Rice Lake trips.

CAN'T ENJOY LIFE

Because of nervousness, dyspepsia, heart trouble, etc. Lots of people just have to sit and look on while their healthy, vigorous friends have all the enjoyment of a strong and robust body. Dr. Ward's Pills will bring back health, strength, snap, vim and energy to even the weakest and weariest of suffering humankind.

A BAD INVESTMENT MADE GOOD.

I have half a gross of empty bottles upon my shelves. Everything my neighbors and friends would tell me to try I would go straight away to the drug store and purchase. I was in a terrible condition from dyspepsia and liver troubles and was getting worse all the time. I was so discouraged buying one medicine and the other and receiving no benefit that I was about giving up all hope of ever getting better, when my husband brought me home a box of Dr. Ward's Blood and Nerve Pills, which he said had been highly recommended to him. I began using them at once, when, to my great surprise, I felt better in a very short time and continued them for about two weeks more which cured me entirely. I have not the least sign of dyspepsia or liver troubles now, and have also gained several pounds in weight.

Signed, ANNIE E. GAUNTLEY,
King Street, Berlin, Ont.

Dr. Ward's Blood and Nerve Pills are sold at 50 cents per box, 5 boxes for $2.00, at druggists, or mailed on receipt of price by The Dr. Ward Co., 71 Victoria St., Toronto. Book of information free.

A woman never really knows the meaning of happiness and content until she is the mother of a healthy happy child. The health of the child depends on the health of the mother, both before and after birth. Most all of woman's weakness, and particularly the weakness that most strongly influences the health of children, comes from some derangement or disease of the distinctly feminine organs. Dr. Pierce's Favourite Prescription will cure troubles of this nature. It should be taken regularly by every woman during the entire period of gestation. It gives strength to all the organs involved, lessens the pains of childbirth, and insures the health of both mother and child.

Murdered in Madagascar.

Kington, July 16.—William Wamsley, Waupoos, has been agitated during two years as to the whereabouts of his son, William. A few days ago he received a lengthy letter from F. N. Turner, acting British Consul at Antananarivo, Island of Madagascar, dated May 16, 1898, conveying the sad intelligence that his son, with three other prospectors, was brutally murdered by natives of Imerina, the central province of Madagascar, while prospecting during June or July, 1896. The ex-governor, who ordered the murders, is under arrest.

BILLVILLE WAR NEWS

THE GEORGIA EDITOR WRITES ON TOPICS OF THE DAY.

Giving Some Pertinent Remarks on Recruits, the Philippine Islands, the German Question, the War Tax and Many Other Kindred Subjects.

The following are the instructions the raw recruit with the army at Tampa received from home:

"You must be careful to eat only good cooking. Drink lemonade freely, but do not use much ice.

"Keep out of the hot sun. You must insist on that, as sunstroke is hereditary in the family.

"Be kind to your superior officers, remembering always that you may be an officer yourself some of these days.

"Do not fail to attend church regularly, and have the pastor to visit you at least three times a week.

"Get a furlough every month and come straight home to those who love you."

We don't know whether we can hold the Philippines or not. The watermelon season is upon us, and really we have about all we can hold conveniently.

The weather is intensely hot now, and it is quite natural that we should get at lagerheads with Germany.

"For sale or rent—fine residences in Spain," is an advertisement which is becoming familiar in the columns of leading American newspapers. Well, that's significant, following the announcement that an American fleet would soon cross over and tackle the dons at home.

The Spanish comic newspapers continue to picture us as pigs. But that is because we are rooting them out of their possessions.

Fitz-Hugh Lee speaks well of Blanco and says he is a good man in his way. The fact remains, however, that he's very much in our way just now and we'll have to remove him.

And now comes the stamp tax! How fortunate it is that some of us have no money on which to draw checks!

Santiago has not fallen on schedule time, but when it does fall it will fall far enough to hurt itself.

The Havana treaters are in full blast; but after awhile Havana won't have any show at all.

We see that the government is to tax every legacy. But as we only have one leg we will go in at half rate.

The war is developing heroes [illegible] that before we discover that we're third cousin to one we are brother-in-law to another.

There is no need to be alarmed about the presence of foreign warships at Manila. They are merely the audience in the theater of war.

An exchange, referring to the war, says, "The devil is to pay now." Well, let him wait until peace is declared, when we will make Spain include him in our indemnity.

WORSE THAN YELLOW FEVER.

Kidney Disease Man's Deadliest Foe Dodd's Kidney Pills its Only Cure.

Toronto, July 18.—"Yellow fever and smallpox combined do not kill as many people as Kidney Disease," was the assertion of a prominent Toronto physician, recently.

The assertion is fully borne out by facts, and were it not that there is a means of checking and curing Kidney disease the number of its victims would be trebled.

But the use of Dodd's Kidney Pills keeps the death-rate from this complaint quite low compared to its former height.

If Dodd's Kidney Pills were used, in every case of Kidney Disease, there would be no deaths from it.

INSANE MOTHER'S DEED.

A Montreal Woman Drowns Herself and Child in the Canal.

Montreal, July 19.—A sad case was reported yesterday to the police at Point St. Charles, where an insane woman named Mrs. Charles Lebreoque took her little girl, aged 6 years, and, dragging the poor little thing by the hand, jumped into the canal. Both bodies were recovered soon after the affair, but life was extinct. It appears that the woman has been out of her mind for some time past, but as she was perfectly harmless, no such sad ending was dreamed of. On the other hand, some neighbors state that Madame Lebreoque had threatened to drown herself and two little daughters, but it appears that when she went to put her insane resolutions into effect, the eldest girl refused to accompany her mother upon her fatal errand.

William H. Bowden, alias Heffernon, who was arrested on Saturday morning on a charge of forgery, was taken before the Police Magistrate yesterday, when he confessed to the crime. He was remanded until Tuesday.

TELEGRAPHIC BRIEFS.

Mrs. Rockhill, wife of Mr. W. W. Rockhill, U. S. Minister to Greece, died on Saturday at Athens of typhoid fever.

Eugene Arnold (colored) of Chatham was sentenced to three years in the Penetang Reformatory for the larceny of 75 cents.

The Wisconsin Power, Pulp & Paper Company's mill at Stephens Point, Wis., has been destroyed by fire. Loss between $150,000 and $200,000. Fully insured.

Sheriff Gemmill left Chatham for Kingston yesterday morning, having in charge Albert Chandler, sentenced to the penitentiary for three years for the theft of a bicycle.

Charles McKenna, a pressman in the Toronto Mail and Empire, while in somnambulistic condition leaped from the deck of the Empress of India, and although an attempt was made to save him, he was drowned.

B. J. Sandys was killed in St. Louis by S. H. Taylor for abducting his child and being his wife's paramour. The jury acquitted the murderer on the ground of self-defence. The Toronto Globe says there is little doubt that the murdered man was a son of the late venerable Archdeacon Sandys of Chatham.

Clara Ward's Condition.

London, July 19.—The Vienna correspondent of the Daily Mail says: "Since the birth of her son, the former Princess of Caraman and Chimay, who is in Budapest with Rigo, has been steadily gaining in strength. On hearing that Rigo's divorce action was to begin at Kaposvar Saturday, the court was thronged with gypsies, who tried to mob Rigo. He declares his intention to marry the ex-Princess as soon as he has obtained his divorce from Mme. Rigo."

If life were one long summer day and its journey through a garden of flowers, it might be possible for people to be careless of their health without fearing evil results. Unfortunately, since Adam and Eve were driven from the Garden of Eden, life has not been a toilless journey through a garden of flowers. Man must earn bread by the sweat of his brow, and woman must bring forth children in pain and suffering.

In both cases the curse is multiplied many times over because both men and women neglect their health. Man's toil is rendered a thousand times harder by the added burden of ill-health. The woman is a still greater sufferer. She suffers in silence untold agonies from weakness and disease in a womanly way. Motherhood becomes to her a menace of death, and her babes are born with the seeds of disease already implanted in their little bodies. There is but one unfailing remedy for women who suffer in this way. It is Dr. Pierce's Favorite Prescription. It acts directly on the delicate and important organs that bear the brunt of maternity. It makes them strong, healthy, vigorous, virile and elastic. It allays inflammation, heals ulceration, soothes pain and tones and builds up the tortured nerves. It fits for wifehood and motherhood. It does away with the trials of the period of apprehension and makes baby's advent easy and almost painless. Thousands have testified to its marvelous merits.

"I was afflicted for four years with local weakness, but would not confess it for a time," writes Mrs. Beulah Woodall, of Bateman, Patrick Co., Va., "then I took the 'Favorite Prescription' and 'Golden Medical Discovery,' and they cured me. I cannot praise Dr. Pierce's medicines too much."

HOUSEHOLD HINTS.

A chemist says that medicine stains usually yield very quickly to an application of alcohol. For the obstinate iodine stains ether is recommended.

To rejuvenate your leather covered chairs rub them frequently with a small, strong Turkish towel. Something in the fiber of this material gives to leather, when vigorously rubbed, quite a brilliant polish.

Upholstered furniture should be beaten with a rattan beater, then wiped with a thin cotton duster. All grease spots can be removed easily by using ether or chloroform for silk or the best turpentine for woolen stuffs.

Gilt frames for mirrors or pictures can be washed with white of an egg or with weak liquid ammonia and warm water, lightly applied with a sponge. The water in which a large onion has been boiled is also good for this purpose.

THE WRITERS.

Ouida recently refused to give facts for a biography of her, saying: "My works are there for all to read. With me individually they have nothing to do."

"One man does not make a newspaper," nor, for that, does one man make a magazine. But when James Payn wrote "Lost Sir Massigberd" for Chambers' Journal that magazine went up 20,000 copies every week.

Count Tolstoi, when he has a great work in hand, writes nearly all day and sometimes far into the night. Even in the summer, during the children's holidays, he rarely leaves his desk to spend a few moments with them.

W. E. Henley, one of the most conspicuous journalists in London and also a poet of no mean quality, has been honored by Mr. Balfour with a pension of $1,000 a year. A like sum was allotted to Tennyson in 1845, and the late laureate lived to draw it 47 times.

THOSE PRICELESS BOXES

Of Dodd's Kidney Pills Cured Mr. Ool well of Bright's Disease.

Windsor, July 11th.—"Is it true, Mr. Colwell, that you have been cured of Bright's Disease by Dodd's Kidney Pills?" our reporter asked Mr. R. F. Colwell, jeweller, of No. 9, Oalette street, to-day.

"It is indeed," was the answer. I suffered two years with Bright's Disease. My back ached all the time. I had awful, aching pains in my loins, a puffiness under my eyes, and my urine was very dark coloured.

"For a time I could find no remedy to do me any good. But one day a friend told me he had been cured of the same disease by Dodd's Kidney Pills. I bought a supply. A few boxes cured me thoroughly." Dodd's Kidney Pills cure all kidney complaints.

A CREAM DAIRYMAN.

One Eastern Farmer Who Is Making His Cows Pay Well.

"Were Jerseys your first move?"

"Yes. Oddly enough, I did not have to blunder in other directions before I 'struck oil,' or money fats, as they proved to be in this case," he laughingly rejoined.

"You began then in 1887?"

"Yes, with only eight cows, and most of these grades and natives. The first year I fattened calves, and cleared but a trifle after paying my expenses from an income of $38 per head. We saw we couldn't hold the fort in this way, my wife and I, for we go hand and glove in everything, and next year bought a deep setting creamery and increased the herd to 10 cows. We got an income of $48 per cow, but were only satisfied with the fact that we were to have some better butter cows later. In 1889 we began selling cream to the local creamery, and got $52 per head. The year following we boldly tried 12 cows, and got $65 from each for the cream sold to a New York hotel."

"That was a good return, and you were probably satisfied."

"Well, we were pleased. In 1891 we changed to a different house to which we have been sending ever since, receiving $87 per head the first year, and $103 the second. A still greater gross return is anticipated this year, not from an increase of price, but because the cows are better and the heifers are older."

"How many have you now?"

"Fourteen, counting heifers, and all but three are registered."

"Have you the record of a single month?"

"I have a record for last November, but it is not a creditable one, although we were milking 13 cows. The income was $127.65. Three were 2-year-old heifers and three more cows were nearly dry, being due to calve in six weeks."

"Has the system impoverished the land?"

"On the contrary, the farm increases in richness constantly. Last year I sold at a good price quite a large surplus of hay that had accumulated."

"What do you feed?"

"I get the cows on the grass as early as possible in spring and keep them on nothing else as long as possible. Later they begin with a little wheat bran or middlings with the feed, and as necessity increases the quantity is increased to four quarts. Usually the fall rains make the feed good again, and the cows go for a second term without grain. The extreme winter feed is seven quarts of grain, compounded as follows: Two pounds of cottonseed meal, 4½ quarts of cobmeal and bran, half and half. My aim is not to drive the machinery hard, but to get a large money crop from bulky farm foods that are cheap, nutritious and peculiarly adapted to the cow's economy. In this category I include corn fodder, pasturage and ensilage. The last I could not do without. My silo holds upward of 100 tons and never gives me any too much."

"May I ask what prices you receive?"

"We get 15 cents per quart for cream and 4 cents for milk."—Interview in Rural New Yorker.

What Food Makes Butter Hard?

The New Hampshire Experiment station has been conducting some experiments as to the effects of different foods upon the hardness of butter, and though the work in this direction is not as yet extensive enough to justify the drawing of conclusions, their experiments thus far indicate:

That gluten meal tends to produce a much softer quality of butter than cornmeal or cottonseed meal, and other things being equal tends to lessen the churnability of the butter fat.

That with the same cows the hardness depends much more upon the character of the food than upon the nutritive ratio.

That ensilage produces a much softer butter than does good hay, but it is also favorable to the flavor and texture of the butter produced.

That skimmilk has a very favorable effect upon the churnability and quality of the butter fat, and in a single trial apparently reversed the general rule that the volatile, fatty acids decrease as the period of lactation advances.

That cottonseed meal tends to produce an unusually hard quality of butter, and that cottonseed meal and gluten meal might be used together with excellent result.

That contrary to general belief the melting point of butter fat is not a good indication of the commercial hardness of butter. That while in general a soft butter melts at a lower temperature than hard butter, there is no definite relation between melting point and actual hardness.

That no relation can be traced between foods and volatile fatty acids, except in the case of skimmilk. That usually hardness and volatile acids vary inversely, hardness generally increasing and volatile acids decreasing as the period of lactation advances.

TWIN TORTURERS!

Lumbago and Rheumatism made Harmless by Dodd's Kidney Pills.

Lumbago and Rheumatism cause endless pain and suffering. Every man and woman who runs chances of getting wet, or catching cold, is liable to suffer from one or both. Our hospitals are full of sufferers from these diseases; none are more painful. Every nerve is on fire; every joint is a centre of agony; every muscle an area of torture. To move hand or foot makes the victim shriek with agony.

Rheumatism makes more cripples than all the railroad accidents that ever happened. Twisted, mis-shapen caricatures of humanity, who cannot walk without misery, are to be seen every day. The kidneys are to blame. If they are healthy you needn't fear Rheumatism or Lumbago. Dodd's Kidney Pills keep the kidneys healthy and cure Rheumatism and Lumbago.

Dodd's Kidney Pills ALWAYS CURE.

To Keep Cows Clean in the Stable.

A device I am using answers the purpose. It is simply a board (which may be padded to keep from rubbing the hair off) placed across the stall just high enough not to touch the animal when standing at ease. When she wishes to void excrement, she must arch her back. The position of the board prevents her, so she steps back to get into the position nature requires, and the excrement falls in the gutter, or offset, far enough away to permit her lying down in the clean stall. The board must be placed at different heights and lengths to suit the size of the animal. A little notice of the actions of each will give one the exact place to put it.—Cor. Country Gentleman.

Dr. A. W. Chase's Ointment...

Endorsed by Dr. C. M. Marian of the American Journal of Health

NOT A PATENT MEDICINE . . .

He says:—Among the proprietary medicines recognized is Dr. Chase's Ointment, compounded by Dr. A. W. Chase Medicine Co., Buffalo, N.Y., and Edmanson, Bates & Co., Toronto, as a remedy for Piles, Eruptions and Eczematic Skin Diseases, for which it has been used with marked success and has effected remarkable cures. It is not the practice of the Medical Profession indiscriminately to use proprietary medicines, but there are hundreds of physicians throughout this country who are using Dr. Chase's Ointment in their practice. We handed out during the last month 2,700 boxes of free samples of Dr. Chase's Ointment, and the thankful results have been something astonishing. Here is what one of the cures says:

Mr. O. P. St. John, 246 Shaw St., Toronto, in his letter states: I suffered for some years from Itching Piles, at times being unable to sleep for the annoyance caused by them. After trying almost every remedy known, I was induced to try Dr. Chase's Ointment, and can say one box entirely cured me. I cannot speak too highly of it, and have recommended it to several of my friends, all whom have been cured by its use.

ITCHING SKIN DISEASES

Chronic Eczema spread all over my head. I had two doctors and tried lotions, but received little benefit. The dreadful itching became almost intolerable, and when I was heated, the Eczema became painful, and almost distracted me. Tried CUTICURA REMEDIES, the Eczema rapidly disappeared, *and I am well with not trace of any cutaneous disease.*
J. EMMETT REEVES,
Feb. 22, '98. Box 125, Thorntown, Ind.

Was afflicted with an itching rash all over my body. I could not sleep, but was compelled to lie awake and scratch all the time. My father and two brothers were afflicted with the same thing. We all suffered terribly for a year and a half. Three cakes of CUTICURA SOAP and three boxes of CUTICURA (ointment) *cured the four of us completely.*
Feb. 22, 1898. RICHARD ANDERSON,
Geneva, Box Elder Co., Utah.

My hands were completely covered with Eczema, and between my fingers the skin was perfectly raw. I could get no ease night or day. I was in a rage of itching. My husband had to dress and undress me like a baby. The best physicians' medicines gave me no relief, and drove me almost crazy. I used the CUTICURA (ointment), and *five minutes after the first application I was perfectly easy, and slept soundly all that night*, and I have not had the Eczema in two years.

THE GREATEST SINCE THE BOOM.

The Influx of Solid Settlers into Manitoba.

"The greatest since the boom" is the unfailing answer to all inquiries as to the influx of settlers during the present season. It has been the same everwhere in the Territories and through northern Manitoba. Every locality feels the influx, and every locality has had its boom. Rapid City on the Little Saskatchewan, 27 miles north of Brandon, had a boom in preconstruction days for which many are still sorry. The town grew in population, but the site grew still more rapidly in value, and adjacent farm lands went up to $40 an acre. When it was announced that the line was going south along the Assiniboine there was the inevitable break, and a large part of the land came into the hands of mortgagees. The Great Northwest Central Railroad has since come within three miles of the town, but did not tempt it into bonusing. The Manitoba & Northwestern passed to the northward, but so far as the town was concerned it tended rather to draw away its business to Minnedosa. The present year has witnessed the first genuine revival, and along every road the thin, black layers of newly-broken sod are the visible signs of it. This is a farming revival without a trace of a townsite boom, and its connection with the general restoration of the price of wheat is obvious. The same rule of human nature that sent the goldseekers helter-shelter to the Yukon has brought farmseekers from many parts of the United States, from Europe and from older Canada to the grain-growing areas of the west. Wherever the conditions of productive industry improve, either through mineral discoveries, price fluctuations, legislation or other causes, the industrial community takes immediate advantage of them. Farms idle in the hands of mortgagees and disappointed investors since the collapse of the boom have been purchased not to be sold again but to be cultivated for profit. Mortgages regarded as an impossible burden a few years ago are now carried with ease. Arrears of interest are diminishing, and there is a growing feeling of satisfaction among the farmers.

STONY LAKE.

For about the first time in history a Toronto paper has acknowledged the beauty of that charming resort, Stony Lake, as below, which appeared in Saturday's issue of the Mail and Empire:

At a romantic point of what is known as the Burleigh shore, Stony Lake, rises stately Mount Julian, clothed in verdure, and studded with clumps of trees. Its summit commands a magnificent view of the wonderfully picturesque Stony lake, with silvery Clear lake as a background, stretching away to the southern horizon, whilst on the east and west extend the Stony Lake waters, dotted with rocky islands, ornamented with trees and shrubs, including the far famed red cedar and the spreading juniper. To the east, and in the shadow of Mount Julian, lies "beautiful Viamede," as it has been called by American visitors, nestling in a meadow whose monotony is relieved by patches of granite and groves of giant trees of oak, maple, beech, basswood, butternut, ironwood and poplar, besides the evergreen. "Viamede" is noted, amongst other things, for its healthy location, its pure spring water, and its care of those who seek rest, appetite and pleasure under its hospitable roof. The house, after being enlarged and renovated, has just opened for the season.

"The Graham Gem" is a family cottage adjacent to "Viamede," and here are summering, while boarding at "Viamede," the Misses Movie, Mr. David Moyle, Miss Evans, and the Misses Davies, of Toronto. Amongst other guests registered this season are Mr. and Mrs. Madill, with their sons, Holton and Glen, Lakefield; Mr. W. F. Hall, Toronto; and the Rev. Hamond Graeme, who is a son of Lady Mary Hamond Graeme, Isle of Wight.

OMEMEE.

From Our Own Correspondent.

There is no sickness in our village now.

Dr. Cameron has returned to his practice after a well deserved rest.

The farmers are very busy harvesting since the 12th of July. The heat and frosts appear to have brought the harvest in rapidly, which is excellent.

The 12th of July celebration passed off in a most exceedingly quiet and orderly manner. Not a drunk was to be seen, excepting a few old "bums" who will burst soon if they continue bowling up.

Mr. Beatty, of the Canadian General Electric Works, has been visiting friends here.

Mr. Jardine, principal of our High School, has been re-engaged.

Mrs. Orr and family are about to remove to Peterborough, having purchased a home there, selling their place here to Mrs. (Widow) Rea.

The tea and entertainment held at Mount Pleasant was quite a success on Monday evening and delighted those who attended from here.

THE SPANISH CABINET

Has Now Unanimously Agreed to Seek Peace—Would Give No Particulars of Their Conference.

Madrid, July 19, midnight.—The Ministers after leaving the Cabinet meeting to-night refused to talk concerning what had transpired at the meeting. Prime Minister Sagasta, the Minister of Foreign Affairs and the Minister of Public Works remained in conference after the meeting. It is believed that they were discussing peace.

A Unanimous Agreement.

Madrid, July 20, 2 a.m.—The Council has unanimously agreed to seek peace. The responsibility for capitulation is left to Captain-General Blanco and General Toral solely.

22,870 PRISONERS.

A Large Army Has Surrendered to General Shafter, Also a Lot of Guns and Cartridges.

Washington, July 20.—The War Department has received a despatch from Gen. Shafter, saying that the roster of prisoners was handed in yesterday afternoon by Gen. Toral, and that the total is 22,870 men.

The War Department at 3 o'clock posted the following bulletin:

Headquarters, near Santiago, July 19. — Adjutant-General, Washington — My ordnance officer reports over 10,000 rifles sent in, and about 1,000,000 rounds of ammunition. Send officers and troops tomorrow to receive surrender of interior garrisons, Guantanamo, Bolchon, Sagua and Pancinia. (Signed) W. R. Shafter, Maj.-Gen.

REFORMS FOR SANTIAGO.

New Tariff Now in Force Which Will Benefit the People.

Washington, July 20.—The tariff for Santiago was signed by President McKinley, after a brief conference yesterday afternoon with Secretaries Gage and Alger. The instructions were immediately cabled to the authorities in charge of Santiago, so that the tariff can be put in force to-day. The new tariff abolishes the discriminative tariff now in operation there. This country took as its basis the rates accorded products of Spain, and applies them to all countries, not even excepting the United States. The most important change effected is a reduction of the tonnage duty on ships carrying 2,000 tons or more, on ships which go in and out of the port from the present rate of $1 a ton to a rate of 20 cents per ton. This old prohibitive tonnage tax under the Spanish custom has been additional to the customs duties. In contrast to the 20 cent rate declared for Santiago, is our own tonnage of 3 cents, and that of the other countries of three or four times that much. The heavy export duty on tobacco and certain other Cuban products and the 5 cents export tax on iron are retained for a while at least.

Caimanera Surrenders.

Camp McCalla, July 18, via Playa del Este, Guantanamo Bay, July 19.—A launch from the Marblehead went up the bay this afternoon to Vertcaya del Toro, opposite Caimanera, and gave formal notice to the Spanish commander of the surrender of General Toral's troops, together with the conditions of the capitulation of Santiago. A limited time was fixed for hauling down the Spanish flag over Caimanera. The American officer also gave notice that if the Spanish gunboat Sandoval was disabled in any way, or if any arms, ammunition, public buildings, or barracks at Caimanera or Guantanamo were destroyed, the Spaniards would not be treated as prisoners of war. The flag was hauled down this afternoon.

To-morrow steps will be taken for a formal surrender. What disposition will be made of the prisoners has not yet been determined, because of the prevalence of yellow fever among them. A rigid quarantine will be maintained, and it is probable that transports for the removal of the prisoners will be sent up the bay and loaded there, instead of having the prisoners marched down here.

IN PRICES DURING JULY.

$12,500 SLUMP IN ONE CLIP

Gough Bros.' Big Double Stores and Oak Hall Branch Included.

Mark these words! and study them over, and see what it means for you. Since the close of a great day's business last Saturday, we have deliberately slashed about $12,500 off prices in our two Big Double Stores and Oak Hall Branch —including a net shrinkage of fully 25 per cent. in profits.

This is a gigantic undertaking to save you money, and to rapidly reduce all summer stocks. We are not so awfully greedy after gain as not to make prices bend to our will when we want to—even if loss must follow. You can't move stocks fast enough in midsummer without cutting the life out of the profits. But as our great stocks are brought away down to begin with, we can afford to do some marvellous selling, still further away down to quickly clear them. Never anything done in Peterborough can compare with it:—

SHIRT WAISTS

NOW IN PROGRESS AT THE

GOLDEN LION

It was a fitting termination of the spring and summer season of 1898, which shows the volume of business transacted to be the largest on our records.

The sizes are well assorted yet as we had large quantities of each number, they are disappearing quickly and the prices remain the same, the lowest ever quoted for such high-class garments, **50c.** and **75c.**, formerly $1.00 and $1.25. As we must soon turn attention to autumn importations, we direct special attention to the very great reductions at which we are clearing out the balance of all classes of summer fabrics, viz.:

—Prints, Printed Organdies, Spot Muslins, Victoria Lawns, Cocheco Flannels.

—Ladies' Ties, Collars and Cuffs, Gloves, Hosiery, Leather Belts, Fancy Ribbons, Valenciennes Laces, Velvet Ribbons, Sash Ribbons, Carpets, Curtains and Housefurnishings.

—Special clearing prices in Ladies' and Children's trimmed and untrimmed Millinery, Sailors and Straws, Jackets and Capes.

THE ARRAIGNMENT.

Napanee Prisoners Formally Hear Charge Against Them.

WILL BE REMANDED OR BAILED.

Holden Comes Back Without Extradition Proceedings—Mackie Charges Sweating Against Detective Dougherty—Efforts to Identify Pare as One of the Tramps About Town Before the Robbery.

Napanee, Ont., July 21.—The fact that prisoner's counsel could be admitted to the jail to see their clients was hailed with delight by the people of the town. The impression had gone abroad that it was unfair and un-British to allow the detectives to enter and cross-question the prisoners, while the counsel were refused admission.

The Arraignment.

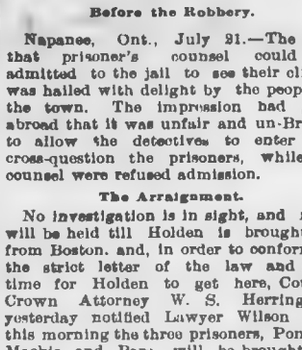
No investigation is in sight, and none will be held till Holden is brought in from Boston, and, in order to conform to the strict letter of the law and gain time for Holden to get here, County Crown Attorney W. S. Herrington, yesterday notified Lawyer Wilson that this morning the three prisoners, Ponton, Mackie and Pare, will be brought out and remanded by Magistrate Daly, and the remanding, which will take but a few seconds, and is entirely formal, will be held in the jailer's office, which can scarcely accommodate six men, of whom the magistrate must be one.

The Crown authorities still maintain that they have evidence that will convict and keep up the expectation of the citizens that some trump cards will be played. If no case is made out against Ponton this time, the case of Ponton against the bank will be called on Aug. 19 at Cobourg.

The expressions you hear on every hand are: "Ponton can't be convicted on Pare's evidence. Nothing new has been adduced except the alleged confession of Pare, which came through Inspector James M. Healey, and is received with a great deal of caution, for it is thought to be a blind."

Detectives Not Content With Case.

It seems evident that the detectives are not content with their case as now prepared. Anyone who has whispered, even to his most intimate friend, that he saw two tramps, who were arrested nine days before the bank robbery, is being interviewed by Detective Wilkes, and escorted by him to the jail to identify



GEORGE S. DOUGHERTY,

Pare. Wednesday afternoon G.T.R. Operator Laidley, and Bay of Quinte R.R. Operator Valleau visited the jail in company with Detective Wilkes, and the two prisoners, Pare and Mackie, were seen through the bars of their respective corridors. Both the operators were unable to recognize the men as having before been seen by them. No conversation was had with the prisoners, and no added strength was given to the theory of the detectives

G.T.R. Expressman Richardson, who says he saw two men on the very night of the robbery run down Court street to the east of the town, will likely be taken to see the prisoners to day, and the question of working the combination of the Dominion Bank safe is receiving much discussion.

Mackie in the Sweat Box.

Mr. W. G. Wilson, counsel for Robert Mackie, the Belleville man, lodged in jail for complicity in the robbery of the Dominion Bank last August, visited his client yesterday forenoon and had a long interview with him. He found Mackie in good spirits, and apparently not afraid of the investigation that will take place soon. Mackie told Wilson that Detective Dougherty had him in the sweat box on Sunday, the burden of his interview and questions being that he should confess. Mackie says Dougherty alleged that Pare and Holden had made a clean breast of the matter and that if he (Mackie) would confess, he would be released. This, Mackie says, Dougherty said was on legal advice. Mr. Wilson further stated that Dougherty told Mackie that he would be a fool to hold out when the other two had told all. Mackie listened patiently, but declined to make any statement.

Detective Dougherty, he declares, told him that Pare and Holden had both confessed everything and that he had authority from the Attorney-General and B. B. Osler, Q.C., that if he (Mackie) made an open breast of the whole affair, he would be allowed to go free.

Those Coins.

Belleville, July 21.—A reporter called on Mrs. Robert Mackie yesterday and she stated that the coins found had been in the possession of her husband since their marriage, which was some 12 or 14 years ago. Her little son said he had seen the coins ever since he could remember.

Holden Will Come.

Boston, Mass., July 21.—Contrary to expectations, William Henry Holden, the Roxbury man who was arrested last week, charged with complicity in the robbery of the Dominion Bank at Napanee, Ont., yesterday volunteered to return to Canada without opposition. At the proceedings last week, he intimated that he would engage in a legal contest before consenting to go there, but his attitude changed yesterday.

At the request of the defendant, a hearing was given by United States Commissioner Fiske, in the United States District Court in the afternoon, for the purpose of furnishing Holden with some knowledge of the evidence gathered against him. A large number of witnesses testified, including the arresting officers.

MONTREAL CHOIR SCANDAL.

Mr. J. Marshall Williams Gives an Unqualified Denial to the Charges.

Toronto, July 21.—Mr. Franklin Smoke of Paris, Ont., sends a letter to the press here which explains itself. In it he says: "Mr. J. Marshall Williams has shown me an article in to-day's paper containing very grave charges against him. It is not easy to check a story once it gets started, and it does not lose anything in the telling, either.

"Mr. Williams did not flee from Montreal, as one would infer from the article. He remained there for a week or so after the alleged scandal first was reported, and then, seeing that it was not going to die out, came here (his former home) to spend a short time. He is not afraid to meet his accusers face to face at any time.

"If the article affected Mr. Williams alone it would not be so bad, but affecting, as it does, several members of the choir, he feels compelled to give the story an unqualified denial. There is no use dragging such matters into court, but I think you will see that a great injustice has been done to Mr. Williams and the others whom the article connects with him, and I trust you will do what you can by way of retraction, and prevent further injustice being done."

ARRESTED FOR MURDER.

Four Indian Brothers Arrested on a Charge of Committing Eight Murders.

Port Arthur, July 21.—For some time the provincial authorities here have been arranging to capture four Indians, all brothers, named Moses. They are supposed to have murdered five section men, two Indians, their cousins, and a white fur trader. The crimes were all committed in the neighborhood of Heron Bay, on the north shore of Lake Superior, and they range over a period of four years.

Yesterday the capture was successfully made by Provincial Constable Whalen, assisted by Constables Dodds and Connors. Indian Agent Hodder was paying the treaty money to the band, which annually comes to Heron Bay, and, as expected, the four brothers turned up to get theirs. They were overpowered in the agent's office, handcuffed and brought to Port Arthur on No. 1, and have been turned over to the district jail for eight days.

Two Men Burned to Death.

St Flavie, Que., July 21.—At 1 o'clock yesterday morning the shingle mill of Mr N. Cayouette of Ste. Moise, Que., was completely destroyed by fire. Guillaume Ross and his son, about 17 years of age, employed as fire watchmen, both lost their lives in the mill.

Another Peg-Leg Arrested.

Three Rivers, Mich., July 21.—City Marshall Hahn arrested a man last evening suspected of the murder of Officer Twohey of London, Ont. He answers the description completely. Officers will come to identify him.

Healthy Cheerfulness.

Do not allow a melancholy person to enter the sickroom. There is nothing so absolutely necessary to an invalid as cheerful companions. A nervous woman may be thrown into a relapse by a well meaning but mischief making friend relating to her how a mutual friend suffered with a similar disease.

Weak and Run Down, With Heart and Kidneys in Bad Condition—Restored by Hood's Sarsaparilla.

"I was very much run down, having been sick for several months. I had been trying different remedies which did me no good. I would have severe spells of coughing that would leave me prostrate. I was told that my lungs were affected, and my heart and kidneys were in a bad condition. In fact, it seemed as though every organ was out of order. I felt that something must be done and my brother advised me to try Hood's Sarsaparilla. I procured a bottle and began taking it. Before it was half gone I felt that it was helping me. I continued its use and it has made me a new woman. I cannot praise it too highly." MRS. SUMMERVILLE, 217 Ossington Avenue, Toronto, Ontario. Get only Hood's, because

STIMULANTS AND ENDURANCE.

It was noted a few days ago in another column that Lord Wolseley, commander-in-chief of the British army, and General Miles, commander of the United States army, are in accord in believing that liquor is worse than useless to armies in war in hot climates. Also that General Kitchener had prohibited it in the Soudan campaign. A further testimony, although a modified one, comes from another noted general. Sir William Lockhart, who commanded the British army in the late Indian frontier war, has said to a reporter:

"It is wise to be sparing in the use of stimulants. The less the men get the better. Yet a good supply should always be on hand. My men in Tirah usually got a wineglassful of rum twice a week. If a difficult task was to be performed, or if the weather was cold, extra rations were given, and the total abstainers and the Mohammedians received extra rations of tea."

A wineglassful of rum twice a week is not prohibition, but some of our topers would feel that it was a mighty close shave. And the fact is, if men can get along with two drinks a week, it is quite difficult to see that they need any. Whiskey, like a mortgage, is all right in its place, but many think that its place is in some other fellow's stomach and on some other fellow's property.—Ottawa Journal.

OTTAWA will take a plebiscite on the question of Sunday electric cars next January. Peterborough is bothered with the problem of week-day cars and leaves such comparative trivialities as Sunday cars to cities more fond of an electric scrap.

THE RAPID POSTAL DELIVERY.

An Explanation of How it is Worked—Another Instance of its Benefit Between Ottawa and Toronto.

The new special rapid delivery which was inaugurated by the postal authorities on the first day of the present month, has worked, so far, with unqualified success, and it is a privilege which the public will undoubtedly take advantage of to an ever increasing extent the more they become accustomed to its use. The places to which the rapid system applies are the cities possessing free delivery of letters, namely, Halifax, St. John, N.B., Fredericton, Quebec, Montreal, Ottawa, Kingston, Toronto, Brantford, Hamilton, London, Winnipeg, Victoria and Vancouver. A ten cent stamp, printed and issued especially for the purpose, which, however, does not cancel the ordinary postage rates, affixed to a letter or parcel addressed to any of the above cities, which letter or parcel may be mailed in any post office in the Dominion—commands the right of way throughout the whole postal system of the country, and all employees of the department are enjoined to expedite its transmission in every possible manner.

When the letter bearing the special stamp arrives at the city of its destination, immediately after it comes under the observation of the sorting clerk, it is handed to a fleet bicycle rider, who wheels away to deliver it. When the bicyclist has handed the communication to the person to whom it is addressed he makes a memorandum of the time, and reports immediately to headquarters.

Mr. H. R. Holman of Ottawa, mailed two letters, one with and one without special delivery stamp, addressed to Mr. J. Flynn, 114 Bellevue avenue, Toronto, on the 11th inst., at ten minutes after ten o'clock in the forenoon. The epistle bearing the special stamp arrived at fifty eight minutes after eight on the evening of the same day, while the ordinary communication did not arrive until ten minutes after nine in the following forenoon — twelve hours and twelve minutes behind its companion.

Court Lakefield No. 43, C. O. F., will meet on Thursday evening this week.

For about the first time in history a Toronto paper has acknowledged the beauty of that charming resort, Stony Lake, as below, which appeared in Saturday's issue of the Mail and Empire:

At a romantic point of what is known as the Burleigh shore, Stony Lake, rises stately Mount Julian, clothed in verdure, and studded with clumps of trees. Its summit commands a magnificent view of the wonderfully picturesque Stony lake, with silvery Clear lake as a background, stretching away to the southern horizon, whilst on the east and west extend the Stony Lake waters, dotted with rocky islands, ornamented with trees and shrubs, including the far famed red cedar and the spreading juniper. To the east, and in the shadow of Mount Julian, lies "beautiful Viamede," as it has been called by American visitors, nestling in a meadow whose monotony is relieved by patches of granite and groves of giant trees of oak, maple, beech, basswood, butternut, ironwood and poplar, besides the evergreen. "Viamede" is noted, amongst other things, for its healthy location, its pure spring water, and its care of those who seek rest, appetite and pleasure under its hospitable roof. The house, after being enlarged and renovated, has just opened for the season.

A regular meeting of the town council was held in the town hall on Monday evening last.

Those present were Reeve Lillicrap in the chair and Councillors Burgis, Moore and Fraser.

The minutes of last regular meeting were read and confirmed.

The treasurer submitted his monthly report, the total receipts to date being $2,615.08, and the total expenditure $2,517.94.

The matter of purchasing a road roller from the Peterborough Council was brought before the meeting. The matter was favourably received and will be looked into.

BUSINESS FAILURE

Is Frequently Caused by the Worry Attendant on Dyspepsia.

Dodd's Dyspepsia Tablets Step in and Remove the Cause of the Trouble, Thus Bringing Success and Prosperity.

Many a man is ruined by Dyspepsia.

Many a business man becomes bankrupt through Dyspepsia.

A business man needs all his wits—a clear brain, steady nerves, and a strong, resolute will-power, to succeed in these days of fierce competition.

Dodd's Dyspepsia Tablets, by giving perfect digestion, give sound sleep—hence, steady nerves and clear head.

If he would have a clear brain and steady nerves, he must give both brain and nerves their proper rest.

To rest his brain and nerves he must sleep. Want of sleep clouds the brain, makes it confused and slow, and makes a man nervous—"shaky."

You can't lie awake all night, and keep awake yourself and keep all your senses awake in your store next day.

Dyspepsia robs a man of his sleep. It causes mental suffering as well as physical agony.

It robs him of his keenness, his clearness of foresight, and his power of concentrating his attention.

He leaves his business to the care of employees, who are careless. Or he is gruff and ungracious to customers.

Trade falls off. He worries more and more. He makes mistakes. Matters grow worse and worse, and finally, he "breaks."

If he had been free from pain—if he had slept well, he would have prospered.

Dodd's Dyspepsia Tablets give sound and refreshing sleep. They give perfect digestion by digesting the food themselves.

Dodd's Dyspepsia Tablets are sold by all druggists at fifty cents a box, six boxes $2.50, or sent, on receipt of price, by The Dodds Medicine Co., Limited, Toronto.

His Opinion Unchanged.

Two citizens of Nebraska were caught in one of those violent funnel shaped clouds, and as they scooted along in the midst of ruins of buildings and flying trees one of them remarked:

"This is the worst cyclone I ever saw."

"Ignorant man!" cried the other in tones of scorn that were almost drowned by the rush of the storm. "Can't you distinguish a cyclone from a tornado? Are the teachings of science altogether lost upon you? This is a tornado, and, as described by Professor Loveland and Meteorologist Gere, it is"—

Just then a church steeple transfixed the speaker, and he perished in great agony, while the other man drifted along for ten miles or so and was dumped softly into a sand bank. As he brushed the sand out of his teeth and ears he remarked:

"Well, that was the worst cyclone I ever saw."—Nebraska State Journal.

North American Life

ASSURANCE CO.

OFFICE OF W. A. MURRAY & CO., 17 to 27 King St., East, Toronto.

Wm. McCabe, Esq., Managing Director, N. A. L.:

DEAR SIR:—In answer to your request for me to decide upon one of the following options offered me for settlement of my 15-payment Life Investment Policy for $5,000 which has matured this year, viz.:

1st, to take the value of the Policy in Cash	$5,008 00
2nd, or fully paid-up insurance for	8,280 00
3rd or take the profits in cash	2,060 25

and continue my policy without further payments being required from me, such policy participating in future profits.

I find it somewhat difficult to make a decision either of the three options being so satisfactory. I am certainly very much pleased with the results offered me, and as I find many others are giving full testimony to the profit-earning power of this company, I do not hesitate to give my endorsement as well, that the North American Life is one of our strongest Canadian institutions to day giving first class results on Investment Policies, on a safe and conservative basis. I find that my policy, which was originally a Life by fifteen payments, has become an Endowment at the end of the Investment period.

ARE UNCLE SAM'S MEN

The Difference-Settling Commissioners of the Republic.

PEACEFUL ERRAND TO CANADA.

Characteristics and Records of the Statesmen Who Will Stand for Their Country's Interests in Friendly Conference With Our Able and Distinguished Representatives—Canadian Commissioners.

New York, July 21.—President McKinley has appointed the five commissioners who are to meet an equal number of representatives chosen by the Dominion of Canada to adjust, if possible, all outstanding causes of difference of friction between the Governments of Canada and the United States.

The American members of the proposed joint conference are:

Senator Charles W. Fairbanks of Indiana.

Senator George Gray of Delaware.

Representative Nelson Dingley of Maine, chairman of the Ways and Means Committee of the House.

John A. Kasson of Iowa.

John W. Foster of the District of Columbia.

The commissioners named will be recognized as exceptionally qualified for

SENATOR GEORGE GRAY
of Delaware.

the delicate and important task entrusted to them. Of the five, Senator Fairbanks is, perhaps, the only one without a wide experience, either legislative or diplomatic, in the field of American relations with Canada. Mr. Gray has been for many years a member of the Senate Committee on Foreign Relations, and has always taken an active interest in the settlement of pending disputes between this country and its northern neighbor. Mr. Dingley, as a New Englander, has been called on again and again to deal with the problems growing out of the regulation of trade and commerce across the Canadian border, as well as with the intricacies of the deep sea fisheries and international transportation question. Mr Foster's career as a diplomat and as the head of the State Department has put him in touch with all the matters in dispute between the Governments at Ottawa and Washington, while Mr. Kasson's functions as the negotiator of reciprocity treaties under the Dingley Tariff Act have likewise brought him into contact with many of the controversies to be submitted to the Joint High Commission. It is understood that the commissioners will meet and organize about Aug. 1.

The British Commissioners.

The British members were selected by the Imperial Government a month or two ago, and are:

Baron Herschell.
Sir Wilfrid Laurier.
Sir Richard Cartwright.
Sir Louis Davies.
Mr. John Charlton, M.P.

Strenuous efforts were made by representatives of northwestern states to get a member from that part of the country, and the name of Senator Hansbrough of North Dakota, upon whose motion the provision authorizing the appointment and work of the commission was put into law, was suggested, but it did not bear fruit. There was also a movement to supplant either Mr. Kasson or Mr. Foster with a citizen of the North Pacific coast, but that, too, failed.

The choice of the Democratic member, it was understood, lay between Senators Gorman and Gray. Preference was given the former, for the reason that Mr. Gray has to make a campaign in Delaware this autumn for re-election, and Mr. Gorman was definitely out as a result of the contest last year in Maryland. But Mr. Gray evidently is of the opinion that the work of the commission will be concluded by Oct. 1, and that he can have that month in which to do his campaigning, unless, indeed, it should develop that he is not to enter the contest at all.

Senator Charles W. Fairbanks.

Charles Warren Fairbanks was born in 1852, of Welsh and Scotch ancestry. He was graduated from the Ohio

HON. NELSON DINGLEY
of Maine.

Wesleyan University in 1872. Two years later he was admitted to the bar by the Supreme Court of Ohio, and in 1874 he removed to Indianapolis, where he has since practised his profession. He never held a public office prior to his election to the United States Senate as a Republican, Jan. 30, 1897. He is chairman of the Committee on Immigration and a member of several other committees, including those on the census and on claims.

Senator George Gray.

George Gray was born in 1840, and was graduated at Princeton in 1859. He studied law with his father at Newcastle, Del., and at Harvard College. He was admitted to the bar in 1863, and has practised his profession with distinguished success. He was appointed Attorney-General of Delaware in 1879, and again in 1884. In 1885 he was elected to the United States Senate to fill the vacancy caused by the appointment of Thomas F. Bayard as Secretary of State. He was re-elected in 1887 and again in 1893. Senator Gray was always an earnest champion of Grover Cleveland. He is a tariff reformer, a sound money man and a friend of civil service reform. He is a member of several committees, including those of the Civil Service, Foreign Relations and the Judiciary.

Representative Nelson Dingley.

Nelson Dingley, jr., the leader of the Republicans in the House of Representatives, was born in Maine in 1832. He entered Waterville College (now Colby University) in 1851, but was graduated from Dartmouth College in 1855. He studied law and was admitted to the bar, but has never practised that profession, but took up journalism. He purchased the Lewiston Journal in 1856, and began the publication of a daily edition in 1861. It has ever since been distinguished for its vigorous advocacy of Republicanism.

After serving several terms in the State House of Representatives, he was elected Governor of Maine in 1873, and again in 1874 by an increased majority, but after his second term declined nomination. He was elected to Congress at a special election on Sept. 13, 1891, and has been elected every time since. His first speech in Congress was upon "Protection to American Shipping," and he has always done much to further legislation to develop American shipping and fishery interests. As a member of the Ways and Means Committee he helped to frame the McKinley tariff law of 1890, and was an active and obstinate opponent of the Wilson law of 1894. It was but natural that Speaker Reed should choose him chairman of the Ways and Means Committee of the 55th Congress, and that the present tariff law should be framed by him.

John A. Kasson.

John Adam Kasson was born in Burlington, Vt., in 1822. He was graduated from the University of Vermont in 1842. He studied law and was admitted to the Massachusetts bar, but soon removed to St. Louis, and later to Des Moines, Iowa. He was an active supporter of Lincoln for the Presidency, and was by him nominated Assistant Postmaster-General. Since then he has been constantly in public life. In 1869 he was a commissioner to the first International Postal Congress, held in Paris; he was a member of Congress, 1863-1867, 1873-1877 and 1881-1885; he served as Minister to Austria, 1877-1881, and to Germany, 1884-1885; he was special envoy to the International Samoan Congress at Berlin in 1889, and in 1897 he was chairman of the commission to promote reciprocity between this and other countries.

John W. Foster.

John Wilson Foster was born in Indiana in 1836. He was graduated from the Indiana State University in 1855, studied law at Harvard and began the practise of law at Evansville, Ind. On the breaking out of the civil war he entered the army as major of volunteers. At the end of the war he was a brigadier-general by brevet. From army life he turned to edit the Evansville Daily Journal. In 1873 Gen. Grant appointed him Minister to Mexico, and he was reappointed by President Hayes. In 1880 he went as Minister to Russia; in 1889 he went to Spain in the same capacity. Since his return from Spain he has practised law in Washington. In November, 1890, he was engaged as a special agent of the State Department to assist the President and Secretary Blaine in the negotiations of reciprocity treaties, and in this task he was particularly successful. Gen. Foster also rendered efficient aid in the settlement of the Chilian affair, and in the Behring Sea controversy he was named as the agent to prepare and conduct the case of the United States before the arbitration tribunal. On the death of James G. Blaine he was appointed Secretary of State, and in 1894 he aided the Chinese Government in the negotiations for peace with Japan.

WHEAT STRONGER.

July Changed Little and the Early Delivery Manifested Strength. The Latest Quotations.

Wednesday Evening, July 20.

The Chicago wheat market this morning was weak in sympathy with Liverpool's early cables. More encouraging advices from the English market later caused an advance in the July delivery, while the more remote options were toned up by reports of frost in Dakota and other States. At the close on the Chicago board July showed a clear gain for the day of 2c per bushel, while the September and December lines wound up the session ½c and ⅝c, respectively, below the previous final figures.

On the Liverpool board to-day July wheat advanced 1⅝d per cental, the September delivery closed at yesterday's final figures, and the December option declined ½d.

Seventy cents was to-day paid for new Ontario wheat at points in the Chatham and Simcoe districts. Old red winter is still quoted around 77c north and west. No. 1 Manitoba hard, 96c to 97c, afloat, at Fort William.

Of Dodd's Kidney Pills Cured Mr. Colwell of Bright's Disease.

Windsor, July 11th.—"Is it true, Mr. Colwell, that you have been cured of Bright's Disease by Dodd's Kidney Pills?" our reporter asked Mr. R. F. Colwell, jeweller, of No. 9, Oulette street, to-day.

"It is indeed," was the answer. I suffered two years with Bright's Disease. My back ached all the time. I had awful, aching pains in my loins, a puffiness under my eyes, and my urine was very dark coloured.

"For a time I could find no remedy to do me any good. But one day a friend told me he had been cured of the same disease by Dodd's Kidney Pills. I bought a supply. A few boxes cured me thoroughly." Dodd's Kidney Pills cure all kidney complaints.

Information Wanted

Of the whereabouts of WALLACE MCINDOO, who left his home, 12th concession of Cavan, on Sunday, 17th July. He is about five feet six inches high, dark complexion, full beard, about 38 years of age. He wore a light brown coat, dark pants and vest, light blue check shirt and cap. Is slightly deranged and has a habit of picking fingers while walking. Any information regarding his whereabouts will be thankfully received by his father, Mathew McIndoo, Mount Pleasant post office, and any one keeping him will be rewarded. 1d1w

Care Needed.

This system of distributing samples of patent medicines through the city, says the Guelph Herald, should be under some proper control or authority. Some of these are harmless enough, but if others fall into the hands of children they cause trouble, if not danger. Some months ago purgatives were distributed, ranging from mild to strong, and one little fellow swallowed the whole lot. His parents got a bad scare, and he was a pretty sick boy. Yesterday a little lad picked up the samples left at the door and swallowed the medicine; emetics and a doctor were necessary to help him. Before a distribution of this kind is made, permission ought to be had from the city clerk and a guarantee given that such distribution shall be done in a way that will prevent danger to little ones.

PERSONAL.

Mayor Davis has returned to his Stony Lake cottage.

Miss Maud Kelly is visiting friends in Lindsay.

Mr. Ken. Chowen is in Lindsay for a few days.

Miss L. White left on the noon train for an extended visit to friends in Port Hope, Cobourg and Toronto.

Messrs. Lionel King and Bert Dolan went down the river to-day to select a site for the Hogan's alley camp.

The many friends of Mrs. J. A. Raymond will regret to hear that she is seriously ill at her daughter's home in Bay City.

Among the registrations at the Penetanguishene Hotel occur the names of Mrs. R. S. Davidson, Miss Helen Davidson and Miss Gertrude Davidson.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—No lacrosse match to-morrow.

—An assault case in the police court this morning, was laid over until Monday.

—Messrs. Kincaid and McKee, assessors for wards one and three, began their duties to-day.

—Several violations of the sanitary enactments were reported by the police this morning, before Magistrate Dumble. The cases were enlarged.

—Very few berries are being received from the north country. The reason given is that people are now too prosperous to waste time picking wild fruit at 50c. per pail.

—In the police court this morning a wages case was dismissed without costs, the complainant been awarded the amount he had been offered in settlement of his claim.

—Mr. Wm. Prust, license inspector for Haliburton county, was in town to-day and confirmed reports concerning the richness of the recent mineral finds in that county. He says the placer beds yield $5 and $6 to the ton, some of the gold nuggets found being as large as small peas.

—The Hastings Star says: From present indication it would appear that the government meant business as never before in pushing the completion of the Trent Valley Canal. As soon as the dredge is completed work will begin cleaning out the channel where the blasting was done last year. Two more sluice ways will be put in the dam to carry off the spring freshet. To carry out the present programme will necessitate the expenditure of many thousands of dollars. Surely persons in town wanting work will be able to find ample employment.

PORTO RICO IS TO BE THE PRICE.

To be Held by the United States as Security.

EXPEDITION STARTED TO-DAY

The Prospects for Immediate Peace Are Gloomier.

DEWEY HAS BEEN REINFORCED.

Special 3 p. m. despatches to the Examiner.

"Mum" as to Peace Prospects.

Madrid, July 21.—Ministers maintain absolute reserve on the question of peace. It is certain until yesterday no negotiations were opened; nevertheless public opinion favours peace. Orders have been issued to close the Carlist Club.

A French squadron is cruising in the vicinity of the Balerics Islads.

Toral's Possible Punishment.

The military code prescribes life imprisonment for any officer who includes in the capitulation of his own forces, fortified posts which though dependent upon his command, are not troops or places included in the action which causes the capitulation. It is doubtful, however, whether General Toral will be thus punished.

Peace or Dismissal.

London, July 21.—The Madrid correspondence of the Daily Mail says:—Unless peace makes speedier progress the Queen-Regent will seriously consider changing the ministry. General Palavieta is regarded as the coming man.

Havana and Bianco Shut off From Spain:

Washington, July 21.—The closing of the Cienfuegos cables by order of the chief signal officer absolutely isolates Havana and General Blanco from Madrid.

Peace Prospects Have Declined.

Madrid, July 21.—The prospects of peace have perceptibly declined and rumours of cabinet crises have increased. The Carlists are delighted at the turn affairs have taken.

Another Hero—His Ear Drum Ruptured.

New York, July 21.—Lieut. W. H. Harrison, of Washington, one of the officers of the battle ship Oregon, is in the naval hospital in Brooklyn with his hearing almost destroyed. At the first bombardment at Santiago an 8-inch gun was fired directly over his head and the concussion was so great that the drum of his left ear was broken and his right ear seriously injured.

Reinforcement for Dewey.

Hong Kong, July 21.—The American reinforcements for Admiral Dewey arrived at Cavite on Saturday and Sunday last. The news of the destruction of Carveras fleet created consternation among the Spaniards.

McKinley Thoroughly Aroused.

Washington, July 21.—President McKinley is thoroughly aroused over the delay which occurred in the starting of General Miles for Porto Rico.

Sagasta Wants to Resign.

London, July 21.—According to special despatch from Madrid, Senor Sagusta, the Premier, has again offered to resign. He has been counselled by the Queen Regent to advise with other political leaders relative to his future course.

Porto Rico is to be Retained.

Washington, D. C., July 21.—The Island of Porto Rico is to be held as a permanent possession of the United States as the price of the war.

Convoy For Porto Rico Forces.

Washington, July 21.—Orders have been sent to Admiral Sampson to furnish a convoy for General Miles' forces, which will start for Porto Rico to-day.

Spanish Ships Badly Battered.

New York, July 21.—A special from Hong Kong says: Expert divers' examination of of sunken Spanish ships show complete destruction of the interior. The cruiser Reina Christina shows traces of ruin from stern to waist from the Olympia's 8-inch shells.

CHINESE REBELLION IS SUPPRESSED.

The Insurgents Played a Losing Game.

Special to The Examiner.

London, July 21.—The Hong Kong correspondent of the Daily Mail says: The rebellion in the Province of Kwang is being rapidly suppressed. The Imperial troops are dispersing the rebels and recapturing cities they had seized.

DAILY TEMPERATURE RECORD.

The following are readings of the official thermometers for this afternoon, as well as the highest and lowest yesterday—shade temperature:—

To-day, 1 p.m. ..... 84°

	Highest.	Lowest.
Yesterday	86°	54°

Remember the Maine

and don't forget that Saturday, July 30th, is the date of the Walter L. Main Grand-est and Best Shows, Consolidated, and that reserved seats will be on sale the morning of the exhibition at William Madill's drug store, 142 Hunter street.

A QUIET WEDDING.

Nuptials of Miss Stella E. Schneider and Mr. Charles Rishor.

An interesting event took place this afternoon, at the residence of Mr. George Schneider, No. 567 George street, when his only daughter Miss Stella E. Schneider, was united in marriage to Mr. Charles Rishor, traveller for the firm of Kenner & Co., Toronto, and formerly of Peterborough.

The ceremony was performed by Rev. J. G. Potter, of St. Andrew's church in the presence of only a few of the relatives of the parties interested. The bride was attired in a most charming travelling costume, and immediately after the ceremony the wedding party repaired to the C.P.R. station, from where Mr. and Mrs. Rishor left on the 4.25 p.m. express for the west. On their return they will live in the residence on the corner of London and Park streets.

The bride was the recipient of an unusual number of beautiful gifts.

TOOK FOUR HUNDRED WITH THEM.

The Firemen's Excursion to the Thousand Islands was Well Patronized.

Fully four hundred excursionists accompanied the Firemen on their trip to the Thousand Islands this morning. A special train, leaving at eight o'clock, conveyed the party to Kingston, via Belleville, on the Grand Trunk. It was expected that Kingston would be reached by eleven o'clock and a steamer would then be taken for a trip through the far-famed Thousand Isles of the River St. Lawrence. Arrangements were made to leave Kingston at nine o'clock in the evening on the return journey and the excursionists would then reach home at about twelve o'clock to-night. Those wishing to do so are allowed to stay over in Kingston until to-morrow.

RESIGNATION ACCEPTED.

Murray Street Baptists Will Lose their Pastor on August 15th.

At a meeting of the congregation of the Murray street Baptist church last evening the resignation of the pastor, Rev. A. T. Dykeman, was accepted with great reluctance.

The resignation takes effect on August 15th and the congregation unanimously decided to allow Mr. Dykeman's salary to run on for another month in lieu of holidays.

DEPUTATION TO HAMILTON.

The Council Takes a Trip in the Interests of the Town.

All the members of the council with the exception of the Mayor left this morning on the C. P. R. for Hamilton, where they will witness the workings of several different makes of steam rollers and stone-crushers. Councillors Langford, Best and White will go on to London before returning.

PUBLIC SCHOOL LEAVING.

Five candidates wrote at the Public School Leaving Examinations here, of whom one was successful—Louisa Middleton, who secured 738 marks. She attended S. S. No. 1, Smith, and was was taught by Mr. John Mahood.

PERMANENT PAVEMENTS.

We are on the eve of beginning the construction of permanent pavements. The contract has been signed. Mr. Dolan, of Sheehy & Dolan, contractors, is in Belleville preparing to remove his plant to Peterborough and as soon as it arrives work will begin.

Now the town wants to look sharp that the pavements put down are permanent in there true sense. From neglect to compel the putting in of sewer services at the time the sewer was laid, the services are being put in now. The past few days several have been put in on George street the line of the proposed permanent pavement. Now we know how the trenches were filled. There hasn't been a sewer trench or sewer service trench filled in town that has not sunken after it has been nominally filled. In filling in the sewer service trenches on George street the earth has not been compacted so that it will not settle. The consequence will be that when a block of pavement is placed on it it will collapse and sink at that spot.

The town should see that the trenches for sewer services are properly filled. With a little extra labour and care trenches can be filled so that they will not sink. The town should see that it is done. It may cost a dollar or so more to put an extra man in a trench and have every shovelful of the filling properly rammed. If this is done and water used at the same time there will be no sinking. This will be a little trouble and expense, but not half so troublesome and expensive as to take up a block of sunken pavement, to form a proper foundation and replace it. The Post Office pavement, which has sunken in places, shows that the most essential thing, next to a proper surface is the foundation. Let this thing be properly looked after. A pavement laid over sewer service trenches, filled as they almost always are, will have no proper foundation.

ASHBURNHAM WATERWORKS.

The Property Owners Decide to Introduce Them.

The vote on the bylaw yesterday in Ashburnham authorizing the village council to issue debentures for $15,000 to defray the cost of introducing a waterworks system was carried by the overwhelming majority of 103 to 3.

Specifications will be gotten out at once for the work and tenders asked for. An endeavour will be made to make the connection with the town system and carry the pipes as far as Stewart street on Elizabeth street this fall.

Reeve Adams would prefer not having the pipe carried under the river and is writing away to ascertain the feasibility of protecting the pipe from frost and running it along just beneath the Hunter street bridge.

GREATER AND GRANDER THAN EVER PETERBOROUGH'S BIG STORE TO BE AGAIN ENLARGED, RE-MODELLED, MODERNIZED.

Peterborough, the premier town to have a modern Departmental Store—equal to the best in all Canada is the motto of this store. Arrangements are now in progress. The architect is busy with plans and specifications. In a few days an army of workmen will be hard at demolishing and re-building, till not a vestige of the old work remains. We are going to give Peterborough a store she may be proud of and we are going to do it at once. It will be ready for the early fall trade.

ALL SAINTS' EXCURSION.

The Members of the Sunday and Their Friends Enjoy Themselves Down the River.

It was a beautiful day down the river yesterday and those who patronized All Saints' Sunday School excursion report having enjoyed themselves immensely. Everything passed off most agreeably and not a single mishap occurred to mar the pleasure of the day. There was a large party of excursionists. The result of the list of sports which was run off was as follows:

Boys, Infant class — Arthur Sawers, Alfie Gilbert.

A COMPLAINT.

To the Editor of the Examiner:

I would like to know who is responsible for keeping the streets free of weeds, especially those horrible burdocks. I hope the authorities will see to it soon by having them not only cut down but piled in heaps and burned. They are now going to seed and everyone knows what the consequences will be hereafter when they come in contact with them. West of the South Ward School to the Canadian General Electric Works is really shameful.

Thanking you, Mr. Editor, for your valuable space, I remain

A CITIZEN.

[A lady left in the above letter. It is quite natural that her sense of neatness should be shocked by the condition of things she refers to. It is past finding out why our local authorities should neglect the destruction of weeds. The lady enquires who is responsible. The answer is plain—the town authorities, and it is to them that the people should look to have such things attended to, and it should be done without their being urged to it. They should lead and set a good example.

Our city fathers seem to be exceedingly solicitious about giving employment to working men. There are plenty idle who could be very profitably employed in destroying weeds. It is true that some men have been sent out armed with a scythe, which only rubbed off the weeds in a sort of a way, but not in a way to destroy them. Burdocks should be taken out by the root, otherwise they speedily grow again, and before one hardly knows it they are in full bloom, bearing seed, ready for extending their existence in largely increased numbers to other parts of the town. Burdocks make a big show, but in reality there are only a few main plants whose roots could be cut. Take a strong sharp spade, or a spud is perhaps better, cut through the root below the crown, that is, below the point where the leaf stems start and the plant is gone forever. The rough uneven surface left where street work is done prevents easy destruction of weeds. The latter spring up in the spaces between big clods and cannot be got at without great trouble. If corporation matters were attended to with the same care that private citizens attend to theirs, there would be much better results. Our correspondent can be told that not only are the town authorities responsible for destruction of weeds on the streets, but it is their duty to see that they are destroyed on private property or vacant lots, many of which are breast high with Canada thistles, ready almost to scatter their seeds on the wings of the wind to far distant points. If the owners of these publics lots have not enough public spirit to destroy these weeds the Police Court is available to prevent these places from being made public nuisances. As a sample an owner of a vacant lot on west Charlotte street whose property was hidden under weeds cut down his crop and, letting it dry a few days, raked it in windrows and burnt it. That was a public spirited action, and if other owners of weed-hidden vacant lots will not do something of the same kind, the town should make them do it. Corporations, as a rule, do things automatically—practice the policy of drift—let things do themselves. But street weeds grow automatically, and a contrary policy is demanded. Councillors and public officials are for the purpose of doing things for the citizens and they should do what is needed to be done without being continually poked up. A raid on weeds in public as well as private places should be made at once. A few days delay will mature seeds that will certainly bring a bigger crop of weeds next season. Immediate action is demanded.

PROHIBITIONISTS IN CONFERENCE.

THE COUNTY UNION ORGANIZES FOR WORK.

Committees Selected — The Evening Meeting in St. Andrew's Church— Stirring Addresses by Rev. Dr. Cade and Duncan Marshall.

The County Prohibitionists met yesterday afternoon in Association Hall for the purpose of organization.

The convention was called to order at 2.30, by Mr. William Yelland, acting-President, in the absence of Dr. Fife.

On motion, the appointment of Mr. Yelland as President, in the absence of Dr. Fife, and of Mr. G. W. Powell as Treasurer, was approved.

On motion the following committees were appointed:

Ways and means committee: Mr. Powell, Rev. Mr. Potter, Mr. Riddel, Mr. I. Manning, Mrs. Patton, Mr. Garbutt, Mr. Spence, Mr. Elmhirst, Rev. Mr. Moore, Mr. Geo. Stuart.

Organization committee: Robt. Deyell, Jas. Tighe, John Sargent, Miss Armstrong, Miss Agnew, Rev. A. T. Dykeman, B. R. Matthews, Rev. Mr. Foster, John Deyell, Jas. Martin, A. D. Russel, S. Armstrong.

Literature committee: Rev. S McCauley, Mrs. Jas. Stubbs, J. O. Fife, J. Roesel, G. G. Pratley, P. G Might, Miss Howson, Mr. Griffin, Rev. W. P. Rodgers, D. M. Spence.

THE MASS MEETING.

The warm weather was undoubtedly accountable for the somewhat limited attendance last evening at the meeting held in St. Andrew's church in the interest of the plebiscite. The audience was composed almost entirely of ladies and was a most attentive one, following the remarks of the speakers with the closest interest.

Rev. J. G. Potter occupied the chair and the meeting was opened by the singing of the hymn, "Crown Him Lord of All." Short prayers were offered by Rev. Mr. Kilgour, Rev. J. E. Moore, Ph. B., and ex-Mayor Yelland. Vocal solos were excellently rendered by Miss Weddel, Miss Clara Belleghem and Miss Falconer.

The first speaker of the evening was Rev. Dr. Cade, of Millbrook, who, in opening, regretted his inability to attend the afternoon session of the County Association. The whole history, he stated, of the evils resultant in the sale of intoxicants remained as yet unwritten. There was an evil existing more devastating than war, more destructive than fire or earthquake. Its victims could not be numbered. Only the Great Statistican could give the figures of the sum total of the wrecks caused through the love of lust and intoxicants. The picture could not be drawn too ghastly. Its awfulness could never be realized. The message came from Heaven to take away this stumbling block. The raging of the unsanctified thirst for liquor in the human heart was unequalled by any other craving known to man. No creditor

WAS SO EXACTING

as this unquenchable thirst. It was a stumbling block in the way of the young man. The first question asked a young man entering the world was whether he was addicted to intoxicants, and what company he kept. No one could say but this national evil was not the greatest stumbling block of the age. It was in the way of the young, the weak, the Church, and every Christian organization in existence. It was in the way of the country. It was in the way at the immortal gates, as the decree that no drunkard could enter the Kingdom of Heaven had never been repealed.

The speaker claimed that it was a crying shame to allow a wine glass to figure at any banquet.

An instance was related concerning a friend who had given brandy to each of his children when first born, and each had died a drunkard's death. Liquor should not be allowed in any home. It lay in the power of the electorate to make it a crime to sell intoxicants. The armies of the present day were taking strong drink out of the reach of their men. Medical men were not prescribing strong drink any more, employers were placing strong drink out of the reach of their employees. Manitoba, Prince Edward, Ontario and Nova Scotia had all endeavored to do away with the sale of liquor.

God and eternity called upon all Christian people to unite in suppressing the evil. Thousands of mothers were calling aloud for the way to be cleared of this stumbling block. Act after act of the Ontario Legislature in late years had been devoted to this end.

As the signal had flashed from watch tower to watch tower, when Troy fell, so would it be flashed even in

THE PRESENT AGE

from Nova Scotia to British Columbia where the greatest curse of the age had fallen and was swept away.

Mr. Duncan Marshall, of Toronto, organizer of the Good Templars was then introduced. Plunging at once into his subject the speaker claimed that the greatest national problem of the age was approaching a solution. Society was the foundation of the nation, the homes of a nation were its strongest forts. The laws of every country should therefore be formed to protect and foster the home.

Instead of gladdening the home the license law was doing just the opposite. Nothing was dulling the brightest interests in the world like it. If the country was to be built up socially and financially, laws must be enacted to do away with its greatest hindrance. The liquor traffic originated in the demand for liquor. The License Law was enacted to curb the evil if possible. It was introduced by the legislatures of the country, and as the people were the legislature, the responsibility rested on them if the enactment did not go far enough. With them it rested whether it should be done away with or not. Recently

HON. G. W. ROSS

had made the statement at a public meeting in Toronto that the Legislatures were not to blame if the laws concerning the selling of liquors, were not sufficiently prohibitory because the Legislatures were just as the people made them. A murmur of acquiesence came from his audience, as the force of this truth dawned on them.

The people, continued Mr. Marshall, are responsible for the acts of the Legislatures, and if we are to have a law in this country to do away with the liquor traffic then the people must enact it.

The trouble with prohibition in the past was that men were too willing to preach it until election day and then turn around and vote against it.

It was to be hoped that prohibition was not to be made a party question, but that all Christian people would unite and, while not praying less, yet working more, bring about the desired end.

Now was the time when the matter was to be finally put to the test.

It was said that the great fight was to be on the question of revenue. The liquor men are going to endeavour to use as largely as possible the local press. They showed that they had good business ability in this. They were sending out circulars to the papers, asking their rates and intended to

FIGHT THEIR BATTLE

through the columns of the papers.

It was claimed by the liquor party that $212,000,000 had been paid into the country's coffers by them, and that the yearly revenue from license was $8,000,000 per year.

At a low estimate the country was paying $39 000,000 in purchasing liquor every year. An admirable way would be to keep the $39,000,000 in the pockets of the people and continue to give the country $8,000,000 a year in some other way. A saving of $31,000,000 a year would thus easily be effected.

Wherever prohibitory laws have been passed the people have had plenty of money to pay their legitimate debts. The member for Halton county stated in Parliament that where his constituency had a prohibitory law in operation he was able to collect debts which he had regarde as hopeless.

The result of prohibition would not be direct taxation. Such a statement was sheer nonsense. The revenue was collected by customs duties and the prospect was that it would continue to be done in this manner for years. The duties had been reduced on other articles before and by simply adjusting the tariff the revenue had been made up in other ways. This cry of

DIRECT TAXATION

was but an effort to secure a catch verdict when the plebescite was taken.

Then again the public is asked if the country is ready for prohibition?

The fact that these evils do exist makes us ready for this prohibition at once.

The question is can you enforce the law? You can if you have fearless legislators, which will be the case when they know they have a fearless constituency behind them.

You make the Legislature and it will do as you direct. It represents the wishes of the majority.

The new law must call for imprisonments not fines. It may do for a first offence to be punished by a fine as a warning, but there must be only one first offence. Through a rigid enforcement of its prohibitory law, Prince Edward Island was able to completely kill out the liquor traffic.

Some people shirked their duty in the cause of prohibition by trying to lay the blame on the men in the traffic. This was a poor policy. Some liquor dealers were bad men, but quite as many were good citizens, who went into the business for purely financial reasons. No one had a right to vilify these gentlemen. As long as there was a demand for liquor there must be someone to supply it. The business was a glittering financial inducement and no one had a right to rail against

THE LIQUOR SELLER

when a law had been passed legalizing his business. He was a law abiding citizen, but when we get a law putting him out of business then we can call him a criminal and punish him as such if he infringes the enactments drawn up for this purpose.

Many excuses are made by those who do nor want to put themselves on record as being in favour of prohibition. "It would put the Government in a hole" or "the Government would not enforce the law."

In the latter case those who made these excuses were blaming the Government for a fault which they should lay at their own doors. If the law was not enforced it would be the fault of the people, as the Government was completely in their hands and should be placed in such a position that the will of the people would have to be carried out.

The opportunity was now being given to every voter to say whether he would cast his ballot to bring gladness into the homes in Canada, or gladness into the drunken revels which would take place in the event of the vote going against prohibition.

If men would only be honest with themselves in this matter the election would be carried by a most convincing and overwhelming majority.

NO POLITICAL PARTY

in Canada had ever had the courage to come out squarely for prohibition and the blame lay at the door of the people.

Some people would say the license law was good enough. As a licence law it was good, but the good features in it were prohibitive clauses—nothing else. Liquor dealers were prohibited from selling on Sundays and at late hours. Were not these prohibitive clauses?

Touching on the argument again, in regard to the statement that the law would not be enforced even if it was passed, the speaker quoted the stanza:

Trelawney must not die,
Trelawney must not die,
Or twenty thousand Cornishmen
Will know the reason why.

If the law was not enforced five million Canadian people would "know the reason why."

The odds in the fight would be great, but if the people of Canada lived up to their convictions, these odds could be overcome. Evils are prevalent, but they are not necessary. The scriptures say in effect that if a man's ox fall into a pit on the seventh day he may take it out. But if the ox fall into the pit on every seventh day, would it not be considered advisable to either close up the pit or do away with the ox.

You have a duty to perform, those of you who possess the ballot or possess influence.

Is there any good in the traffic of intoxicating liquors as a beverage?

The business is absolutely bad in every one of its principles. There is no question which ever came before the Canadian people of such national importance.

Do you want to see Canada become a great nation? Then remove the greatest hindrance which lies in her path.

The meeting which had warmed up to a high pitch of enthusiasm by Mr. Marshall's eloquent words, was closed with the offering of prayer by Rev. Dr. Cade.

PRINTING OF PHOTOS.

Mr. Topley of Ottawa, Claims to Have Made an Important Discovery.

Mr. R. H. Topley of the Department of the Interior, Ottawa, who recently discovered a method of developing negatives without the use of a dark room, has made another important photographic discovery. It is that the printing of photos is not dependent on nitrate of silver. Heretofore the nitrate has had to be used in all prints, but Mr. Topley has discovered that the juices of certain fruits are equally as good as, if not better than, the nitrate for photo printing purposes. He says that he can, by means of his discovery, print a photo upon anything—wood, pulp paper, or anything which can absorb these juices. The juice is not used just as it comes from the fruit, but it is subjected to a process which Mr. Topley of course desires to keep secret.

CANADA'S GREAT EXPOSITION.

Many new and interesting features will be offered at the Toronto Exhibition this year, which is to be held from the 29th August to the 10th September. The harvest throughout the Dominion is good, and with the return of better times and the unusually low fares now being given by the railways, many will be induced to visit this great exhibition who perhaps would not otherwise do so. The entries in all departments will be great, and the attractions offered will be of a character to draw. Among the many will be realistic representations of the present Cuban-American War, the blockade, bombardment and battles of Santiago, or Havana, firing and explosion of shells, explosion of sub-marine mines and blowing up of vessels on the lake in front of the exhibition grounds, exhibitions by Maxim and Gatling machine guns, etc., all of a specially interesting nature at the present time. The programme of attractions promises to far excel that of last year, which is saying a good deal. The exhibits will include many from Great Britain, France and the United States, while almost every section of the Dominion will be represented. 1d1w

PEOPLE GETTING OLD.

As age advances, vitality retreats. Old people find themselves tired, listless, dyspeptic and lacking in strength. They lose interest in the active affairs of life, and may either become chronic complainers, burdening their friends, or they may, by using Dr. Ward's Blood and Nerve Pills be made bright, cheery, happy and healthy, as witness the following interesting example. The words of those who have lived many years carry wisdom with them. Why not profit by them?

WISE WORDS.

Nothing does a right-thinking man more good than helping his neighbors, especially the sick and weary. In recommending Dr. Ward's Blood and Nerve Pills, and helping to bring them before the public, I feel that I am truly helping my neighbors. Both my wife and myself have used these Pills and derived great benefit from them. We are getting along in years, and like many others feel the need of a tonic and strengthening medicine. My blood was thin and impoverished, and my wife was miserable with general debility, brought on by dyspepsia. We used many kinds of medicine, but nothing did so much good as the Dr. Ward's Blood and Nerve Pills.

Yours very truly,
Signed, MR. & MRS. CLARK, Victoria St., Glencoe, Ont.

Dr. Ward's Blood and Nerve Pills are sold at 50 cents per box, 5 boxes for $2.00, at druggists, or mailed on receipt of price by The Dr. Ward Co., 71 Victoria St., Toronto. Book of information free.

SUSAN JANE.

I may be wrong about it, but it seems to me, by gum,
That this here war we're in ain't bein managed right!
I know somebody that I'll bet could fairly make things hum
And knock the Spaniards out of time before tomorrow night.
S-s-s-h! Say, don't let her hear us! But I'll bet if Susan Jane
Could be appointed admiral fer jist abont a day
The powers couldn't stop her—it'd all be up with Spain.
One look from her, and every don would want to sneak away.

I'd like to see Cervera or old Blanco when she got
Him cornered, as she often corners me,
And then looked through and through him—Laws, I'll bet you he would not
Be long in beggin fer a chance to scoot across the sea!
Talk about your fiery looks! One look from Susan Jane
Jist sets my blood a-tinglin and upsets me fer a week!
If she could meet Sagasta, that would settle things fer Spain!
She'd make him give up all before he'd got a chance to speak!

Why, she can take a pair of pants when I have wore them out
And make a jacket fer herself that's jist as good as new,
And she can take an empty ba'l and make a chair about
As nice to set and rock in as you ever heard of too!
I'll bet that with a hairpin she could figger out some way
To wreck the whole foundation under Spain,
And I'll bet them dons'd all conclude Old Harry was to pay
If there only was some way to make them cope with Susan Jane!

Oh, I'd like to see old Weyler go if she was in pursuit
With a pair of trusty scissors in her hand!
I'll bet he wouldn't argue, and I'll bet that he would scoot,
As he'd go it from Old Nick and all his brimstone entin band!
I wouldn't want to say it if I thought that she could hear,
But it'd be a chilly day fer poor old groggy Spain
If our commodores and admirals were all to disappear
And the whole affair was put into the hands of Susan Jane.

A woman never really knows the meaning of happiness and content until she is the mother of a healthy happy child. The health of the child depends on the health of the mother, both before and after birth. Most all of woman's weakness, and particularly the weakness that most strongly influences the health of children, comes from some derangement or disease of the distinctly feminine organs. Dr. Pierce's Favourite Prescription will cure troubles of this nature. It should be taken regularly by every woman during the entire period of gestation. It gives strength to all the organs involved, lessens the pains of childbirth, and insures the health of both mother and child.

WANTED ALL THE FRILLS.

Got Them, Too, and Perhaps He Wasn't So Very Thankful.

Of course it didn't happen in Chicago. It happened in a town where they have fenders on the fronts of their trolley cars—fenders that are designed to pick up the incautious pedestrian, throw him up into the air two or three times and then toss him over the platform railing. Of course they don't do that, but that is what the agent always insists that they will do, and some of them look as if they might. Anyway the old fellow with the carpetbag evidently thought so. He was standing in the middle of the track when the car came along, going at a rate of a mile a minute or less and clanging its gong at a terrible rate. But he didn't move. Consequently there was nothing for it but to put on the brakes or take chances of having to defend a suit for damages. The car stopped within about two feet of him.

"Get out of the way!" yelled the motorman.

"Come on, consarn ye!" roared back the countryman.

"Get off the track!" shouted the motorman angrily.

"Not much," retorted the countryman determinedly. "I'm waitin fer ye. Why don't ye come on?"

"Do you want to be killed?" demanded the conductor, coming to the front of the car to see what was the matter.

"No, sirree," returned the countryman. "I want to git aboard yer blamed old car."

"Well, come on, then," said the conductor, indicating the step at the side of the platform, but the countryman only shook his head.

"Ye can't work it that way," he asserted doggedly. "I'm down here to see the hull town, an ye bet I want all the frills. Come on an h'ist me now an be quick about it."

"H'ist you!" exclaimed the conductor. "Are you crazy?"

"No, I ain't," was the indignant reply, "but I reckon I know my business an can't be put upon by any dern street car man that lives. I've heerd all about yer luxurious way of doin things in the city, an while I have money in my pocket I'm goin to have all the frills an fixin's there are. Ye jest come ahead with that there scoop an pick me up an put me aboard jest the way ye do for swell city folks or I'll report ye to the boss, ding me if I don't."

In another minute he was lying in the wire netting yelling like a Comanche while the car continued its journey, still at the rate of a mile a minute or less.—Chicago Post.

Not True to Nature.

A visitor to the British museum reports that he saw a countryman standing before the bust of a woman in a collection of statuary. The woman was represented in the act of coiling her hair, and as the visitor came up the countryman was saying to himself:

"No, sir, that ain't true to nature. She ain't got her mouth full of hairpins."—Tit-Bits.

WORSE THAN YELLOW FEVER.

Kidney Disease Man's Deadliest Foe Dodd's Kidney Pills its Only Cure.

Toronto, July 18.—"Yellow fever and smallpox combined do not kill as many people as Kidney Disease," was the assertion of a prominent Toronto physician, recently.

The assertion is fully borne out by facts, and were it not that there is a means of checking and curing Kidney disease the number of its victims would be trebled.

But the use of Dodd's Kidney Pills keeps the death-rate from this complaint quite low compared to its former height.

If Dodd's Kidney Pills were used, in every case of Kidney Disease, there would be no deaths from it.

AN HISTORIC GAVEL.

Made of Maine Relics and Presented to Canadian Masons by Michiganders.

Toronto, July 20.—A unique gavel, the gift of the Michigan Grand Lodge to their Canadian confreres, will be presented here at the Grand Lodge session this afternoon. The handle, which is 10 inches long, was part of the pike hook by which Captain Sigsbee of the battleship Maine was pulled out of the water by Mr. Sigmond Rothschilds when that ill-fated ship was blown up in Havana harbor. The head is of Maine oak, 5 inches long, and there are brass tubings at each end, made of the exhaust steampipe of Sigsbee's vessel. The beaver and maple leaf on the mallet head are carved, and, on the reverse side, is the Michigan coat of arms. At one end of the mallet head is a maple leaf in silver, and on the other, in Michigan copper, the dates of the 43rd Canadian, and of the 53rd Michigan convention. The crossed flags, Canadian and American, on the handle, lie on silver and are beautifully enamelled.

Arthur Harris of Barrie Drowned.

Brantford, July 20.—Arthur Harris, aged 19, employed in the plow works here, was drowned in the Grand River. Harris went to the river to bathe about 9 o'clock. He had not been in the water long before he went down. His companion could not swim, and gave the alarm, which quickly brought willing hands to assist in recovery. After about fifteen minutes the lifeless body was found and brought to land. Every means was made to resuscitate, but without effect. The body was sent to Barrie yesterday for interment.

The man is considered the most reckless of men who risks his life by putting his head into the mouth of a savage lion. The men who perform this foolhardy act are few and far between.

There are tens of thousands of men who daily do a much more rash and dangerous deed. They are the men who overwork and neglect their health. No man can do this with impunity. The inevitable result is serious illness and premature death. One of the most common results of carelessness in regard to health is consumption. There is one, and only one, unfailing remedy for this dread disease. It is Dr. Pierce's Golden Medical Discovery. It has a record of thirty years, during which time it has cured 98 per cent. of all cases of bronchial, throat and lung affections. It acts directly on the digestive and nutritive organism. It creates a healthy appetite for food, facilitates the flow of digestive juices and promotes the assimilation of the life-giving elements of the food. It is the great blood-maker, flesh-builder and nerve-tonic. In cases of nervous prostration it builds up the nerve fibres and gives sound, refreshing sleep.

"I took a severe cold with sore throat," writes Mrs. A. S. Everhart, of Oard Spring, Scott Co., Ind. "Soon I began to cough. My right side became sore so that when I coughed it seemed as though my side would burst. The physician said I had pleurisy. I took his medicine for some time and got no better. All through the spring and summer I used mustard plasters and fly blisters on my side and over lungs. Finally I began to ache so badly between my shoulders that I could hardly endure it and at times almost smothered. My breath was so short that I could scarcely talk. Several of my near relatives had died of consumption. I thought I would try Dr. Pierce's Golden Medical Discovery. I took two bottles of it, and two of his 'Pleasant Pellets,' and am a new person. I would not take any money for the benefit received."

TAKEN LITERALLY.

I'd gone that night to learn Sue's mind—
Joe Beekly was the reason.
A rival's good at times, I find,
To make us force a season.
I'd dallied for a year till Joe
Set jealousy a-burnin,
An then I wrote I'd call to know
Jest how she viewed my yearnin,
An in the letter that I sent,
Although a sorry scholler,
I paid her many a compliment,
Such as the ones that foller,
"I've heard in songs your voice arise
An seen the flowers springin,
An often, lookin in your eyes,
I've heard the mockbirds singin!"

But when I called she seemed more shy
Fer some cause or another
An tried, I thought, as time flew by,
My fondest hopes to smother.
"Dear Sue, be mine!" I said at last
An edged a little nigher,
But not one word—her eyes downcast
Or lookin in the fire,
An then she raised her eyes ag'in
An said, my bosom thrillin:
"You say you've heard, by lookin in
My eyes, the mockbirds trillin.
Why should I speak, then? Seems to me
That you're a curious man, sir,
For if you look once more, you see,
Why can't you hear my answer!"
—Will T. Hale in Chicago Times-Herald.

THE PUBLIC HOUSE.

"A fine public house," said Blanco Watson, the humorist.

"Yes," I replied, looking at the building we were approaching, "but a strange position—away from the highroad, and surrounded by villas."

"A very strange position. We will rest in the public house, and I will tell you how it came to be built in such a very strange position."

I smiled and followed him into the saloon bar. We sat at one of the tables and were silent for a time, he thinking and I watching him.

"The story begins," he said presently, "with a burglary committed by a certain Bill Jones one night long ago.

"Bill was a young member of his profession. Hitherto he had not attempted anything very big, but continued success in small things had made him bold. On this night he broke into the country house of a well known actress, in the hope of carrying off her jewels.

"He succeeded in getting the jewels and was leaving with them when he found that the slight noise he had made had attracted attention. A servant girl met him at a turn of the stairway and began to shriek. He rushed by her and to the window through which he had entered. As he passed through it again he heard doors being opened and knew that the house was fully aroused."

"I understand," I said. "Bill escaped. The actress employed a detective. The detective built this public house in an out of the way place, hoping that Bill, as an out of the way young man, would call in one day for a drink. Curiously enough, Bill did."

Blanco Watson frowned.

"This is an intellectual story," he said. "It does not depend on coincidences.

"I will continue. Bill avoided the first pursuit by a long run across country, and then walked toward his home, not daring to use the railway. He kept to the byroads as much as possible, and at the close of the next day had reached the neighborhood of London.

"A spade lying inside a field gate suggested to him the advisability of hiding the jewels until he had arranged for their sale. After making sure that he was not observed he entered the field and picked up the spade. A tree of peculiar growth stood just beyond him. In the manner of fiction, he counted 20 steps due north from the tree and then dug a deep hole, placed the jewels in it and filled it up again.

"He arrived home safely that night, but was arrested in the morning. The servant girl had given an accurate description of him to the police, and they had recognized it.

"In due course he was tried. The evidence against him was very strong. The servant girl swore that he was the man she met on the stairs. Some of the villagers swore that they had seen him near the house previous to the burglary. He was found guilty and sentenced to seven years' penal servitude.

"Bill behaved very well in prison and at the end of five years was released on a ticket of leave. He decided to wait until the ticket had expired and then to get the jewels and leave the country. But a day or two after his release he walked out to look at the fields.

"There was no field. During the five years he had been in prison the estate of which the field was part had been built upon. He wandered about the houses in despair. But as he turned a corner he saw something which suggested hope. Behind some railings was a tree of curious growth.

"It was the tree 20 steps due north of which he had buried the jewels. He recognized it immediately and ran toward it. Again he was in despair. A yard or two north of the tree was a chapel, and the jewels were under the chapel. He leaned against the railings, covering his face with his hands.

"It happened presently that the head deacon of the chapel, a kindly old man, came down the road. He saw Bill standing like one in trouble and stopped and asked what was the matter and whether he could help.

"For a few moments Bill did not know what to reply, but then he spoke well. He said that once he had been a burglar, but that he had learned in prison that burglary is wrong; that now he was trying to live an honest life, but that as he had no friends it was not easy.

"The old man was touched. He had found Bill leaning against the chapel railings, and Bill had said that he had no friends. Was it not his duty as head deacon of the chapel to be a friend to Bill? Clearly it was.

"He took Bill home with him. He was a bachelor, and there was no one to restrain his benevolence. They had supper and talked together. The deacon found Bill intelligent and fairly well educated and offered him employment. He was a builder in the neighborhood, he explained, and had a vacancy in the works. Bill gratefully accepted the offer and began his new career on the following Monday.

"Months passed. Bill had changed wonderfully. He had forgotten his old habits and learned new ones. The deacon was delighted. Not only was Bill the best of his workmen, but he was the most regular attendant at the chapel.

"Bill longed for the jewels, and he worked hard because he knew that money would help him to get them. He attended the chapel because while there he was near the jewels, the seat he had taken being just 20 steps due north from the tree. At first he had meditated digging down through the floor one night, but the chances of detection were great and he had given up the idea.

"Years passed. The deacon had become an invalid, and Bill practically managed his business. He was an important man at the chapel, too, and was often intrusted with a collection box. One day the deacon died. Soon afterward it was known that having no near relatives he had left his property to his friend William Jones."

"I see," I exclaimed. "Bill"—

Blanco Watson shook his head.

"Bill was Bill no longer," he said. "He had become a man of wealth. At the next election of deacons he was one of the successful candidates. In future we must refer to him as Mr. Jones and not as Bill.

"Mr. Jones was a most energetic deacon. He introduced new members, and he persuaded old ones to attend more regularly. He started a young men's literary society and a series of Saturday entertainments. He made the chapel the most popular in the district, and then, at a New Year's business meeting, he struck boldly for the jewels.

"The chapel was too small, he said in the course of an eloquent speech. They must erect another on a larger site. There was but one such site in the neighborhood. They must secure it before others did. He himself would undertake the building operations, charging only what they cost him. He would also purchase the old chapel. The net expenditure need not be very great.

"The proposal was well received, and a committee, with Mr. Jones as chairman, was appointed to consider the details. Their report was very favorable, and at another business meeting it was decided to carry out the proposal.

"The necessary funds were subscribed or guaranteed. Contracts were made with Mr. Jones. In the spring of that year the building operations were commenced, and by the autumn they were finished. The congregation removed to the new chapel. Mr. Jones purchased the old one at a high price and entered into possession.

"And then," I said, "I suppose he got the jewels?"

Blanco Watson laughed.

"No," he said, "he did not. He broke up the floor himself, counted the steps due north from the tree again and dug. He did not find the jewels. He counted the steps again and dug deeper. He did not find them. Then he tried other places; but, although he kept on until he had tried everywhere beneath the floor, he never found the jewels."

"Why, what had become of them?"

"I cannot say. It is possible that when the foundation was being laid a workman had discovered and appropriated them. Again it is possible that there were two trees of similarly curious growth, and that the one outside the chapel was not the one Mr. Jones first saw. Again"—

"And what has the story to do with the public house? But I can guess."

"Of course you can. Mr. Jones was very angry with the chapel members. He considered that by false pretenses they had led him into buying the old chapel dearly and building the new one cheaply. He resigned his deaconship and then sought a way to be revenged on them. He found one. On the site of the old chapel he built a public house—this public house in which we have sat so long."—Edgar Turner in Sketch.

Cautious Praise.

Mr. Orchardson, the famous English artist, has lately given the public an insight into his experiences with golf—that mysterious game, so fascinating to the initiated, of which the charm is so incomprehensible to the outsider.

It is but recently that Mr. Orchardson, who is past middle life although in the prime of healthful vigor, has transferred his affections from hunting and tennis, his former favorite sports, to the national game of his country—for he is a Scotchman. He played his first game of golf at St. Andrews.

"I remember," he says, "I had the queerest, most solemn looking caddie imaginable. I made a fearful mess of it at first, and the little chap looked on without a word. At last, when I had finished the round, he looked up at me in the funniest way and simply said, 'It's nae use playin golf unless ye lairn it as a laddie.'

"But I must tell you that the next day I had this same caddie, and I got on much better. I was almost annoyed with him for not praising me, for he was as silent as on the day before. But when we finished, he turned to me and said, as if resuming our last conversation, 'Aweel, A' dinna ken.'"

Being a Scot himself, the artist was therefore satisfied with what he doubtless interpreted as a handsome apology and hearty encouragement.

THE ONLY HOPE!

For Victims of Bright's Disease is Dodd's Kidney Pills.

Not a day passes on which the newspapers do not record the death of one or more persons from Bright's Disease. Already its victims number hundreds of thousands. Day by day the awful total grows larger. No class is safe from this destroyer.

War and intemperance, with all their miseries and fatalities, are not responsible for as many deaths as have been caused by Bright's Disease. Yet, there is a way of resisting it; of drawing its poisoned fangs, and making it as harmless as a summer breeze. That great medicine, Dodd's Kidney Pills, has cured thousands of the worst cases. It never fails to cure, hopeless as the case may seem.

Would you safely shield your loved ones from the fatal grip of this curse of mankind—Bright's Disease? Then use Dodd's Kidney Pills, the only cure on earth for this disease.

Gladstone as a Linguist.

A remarkable illustration of the scope of Mr. Gladstone's power as a linguist was given many years ago when he addressed an assembly on the island of Corfu in modern Greek, a little later spoke to an assembly in Florence in Italian, a few days later conversed with ease in German with Bismarck, soon afterward responded in fluent French to a toast at a banquet in Paris, and then crossed the channel to deliver a five hours' speech in parliament on the budget.

"Never be critical upon the ladies," was the maxim of an old Irish peer, remarkable for his homage to the sex. "The only way that a true gentleman ever will attempt to look at the faults of a pretty woman is to shut his eyes."

Successful At Last.

"I was a sufferer from neuralgia in my side, and headaches. I followed numerous prescriptions without benefit and was persuaded to try Hood's Sarsaparilla. When I had taken only one bottle I realized it was doing me good and I continued taking it until I was cured." MRS. CARRIE PRICE, Georgetown, Ontario.

Miss Patterson, of the Arcade, has gone to Hamilton for a short vacation.

Mr. J. A. O. Carmichael, of Toronto, formerly of Norwood, was in town last week the guest of Mrs. J. B. Pearce. Mr. Carmichael will spend a week with his mother, at Stony Lake, before returning to Toronto.

Miss M. McGregor and Mr. L. McGregor are visiting friends in Lindsay and Midland.

Mr. R. Nicoll's family left for the lake last week.

Miss Weir, of Madoc, is the guest of Miss McLachlan, Peterborough street.

Mr. H. Dawson, of Peterborough, is visiting at Mr. W. H. Birt's.

Messrs. M. E. Knox and W. Fry left for Stony Lake on Monday morning, where they intend spending a few days. We expect to hear of a large catch of fish.

Mr. H. Bertram, of Peterborough, spent Sunday with Mr. D. A. Fraser.

Rev. Chas. E. Platt, of Toronto, occupied the pulpit in the Methodist church on Sunday afternoon. He also delivered a very interesting lecture in the school room of the church on Monday evening. Subject—"Success in Life and Self-made Men."

Mr. E. Rowntree, of Toronto, is visiting at Mr. A. Frosts.

Mrs. Hunter and Mr. D. M. Hunter are at Stony Lake.

Mr. W. Stephenson, of Midland, is spending a few days with his parents.

Mr. W. E. Roxburgh was in town Saturday, but drove back to the lake again the same day.

Mr. Ross Cameron spent Sunday at the lake.

Dr. Moore is visiting friends in Toronto.

Quite a number from Campbellford were in town on Sunday.

The English church held their Sunday school picnic at Trent Bridge on Wednesday.

Mr. W. P. Plant, Mr. C. Fowlds, Mr. Wilson, of Hastings, Miss Gallagher and Mr. C. Gallagher, of Warkworth, and Miss McCarthy and Mr. D. Keeley, of Norwood, left Tuesday morning by the special excursion train for the Shrine of St. Anne.

Mr. R. Wigmore has secured a position with Mr. J. L. Squire, as clerk in the flour and feed store.

Mr. Duffield and family are at present spending a few weeks at Stony Lake.

Miss M. Carey and Miss C. Waller, of Havelock, were in town Sunday.

Master Douglas Calder, of Toronto, is visiting his uncle, Mr. Jas. Calder, Queen street.

MOUNT PLEASANT.

(From Our Own Correspondent.)

Mr. Josiah Hayes, of Bobcaygeon, is visiting among his many friends in and around this village.

Mr. Wm. Stacey, our late school teacher, was in the village on Sunday.

Frost has done some damage to the late grain crops and to the potatoes and corn.

A nephew of Mr. Watson Handley's arrived at his home recently, from England.

Mr. Wm. Hunter, of Bobcaygeon, an ex-resident of our town, paid a visit to some of his old friends on Saturday.

Mrs. John Best, of Peterborough, was the guest of Mrs. Geo. Jamieson, on Sunday.

Mr. and Mrs. Wesley Elliott, of Goodwood, were callers at his parental abode this week.

Mr. Wilbert Best, of Lindsay, spent part of his vacation in our town.

Hay has been an abundant crop. It is about all garnered and has been selling for $4 a load. A great amount of fall wheat is out; the sample is fine and the yield a desirable one. A great many of the apples, plums and pears are falling off the trees apparently for the need of rain.

Mr. Josiah Best, of Toronto, was in the village last week.

On Sunday the Methodist church was re-opened. Sermons were preached by the following reverend gentlemen: Messrs. Pope, of Omemee, Coon, of Cavanville, and Tanner, of Omemee. The congregations at each service were large, and on Monday evening a tea was given, followed by a programme of addresses and music in the church.

Messrs. Handley and Preston are engaged again in the fruit cleaner trade.

OETRY ON A NEW PLAN.

Canadian Editor Gives a Few Views of His Own.

Persons who present poems to editors are not infrequently told that the idea is an excellent one and that the verses give evidence of considerable force, genius and originality, but that in the working out of the idea some error has been made which could doubtless be corrected by two or three months' labor. The sincerity of the editorial desire to see the work in its amended form is never doubted, but it sometimes happens that in the process of decomposition the poetic fervor evaporates and the stage of reconstruction is never reached. It has been suggested that all this might be avoided by submitting the plans and specifications in the first instance and explaining what if anything the writer intends to prove or to do, a method adopted with no little success by Euclid. We have now before us a proposition for a Canadian national poem. The writer conceives that most of his predecessors in this field of labor have erred in enumerating mountains, valleys, large bodies of fresh water, prairies, forests, etc., among the advantages of Canada. All countries, he observes with much force, contain these things to a greater or less extent, and the whole subject might be disposed of in a line or two, thus:

Oh, Canada, stretching from sea unto sea,
How dear are thy physical features to me!

The idea is certainly a striking one, and it can be confidently asserted that nothing exactly like the second line has ever appeared in the masterpieces of the greatest poets of ancient or modern times. It stands alone. As to the staple Canadian products, on the other hand, he would be more specific than is usual, as shown in the following rough sketch:

Oh, what can thy glory and progress retard
With blank million bushels of No. 1 hard?

The proper number of millions of bushels could be filled in from year to year, thus keeping the poem always fresh and up to date. Age cannot wither it nor custom stale its infinite variety. When the quantity becomes too large to be stated in bushels without destroying the beauty of the line, the bushels can be reduced to quarters or even tons.

We think this is about enough for one day. It is good, but it is strong meat, and would probably agree with the average reader in the diluted form in which we hope to be able to present it at some future day. The contract has been awarded without tenders, and the poet has been instructed to go ahead.—Toronto Globe.

A Family Affair.

A wealthy widow was about to marry a widower whose sole possession consisted of a family of small children.

On the day set apart for the happy event a friend of the prospective groom met one of his children, a little girl of 6 years, and to see what she would say he accosted her with:

"Where are you going, Mamie, all dressed up so fine?"

"I'm going to a wedding," she said proudly.

"Whose wedding?" was his next query.

"Mrs. Noble's," replied she.

"And who is Mrs. Noble going to marry?"

"Why," said she in an astonished tone, "don't you know? She's going to marry us!"—New York Truth.

Recognized.

"Aha!"

The lone traveler in the Asiatic jungle gave a wild start as he suddenly found himself confronted by a huge and fierce faced lion, which was only too plainly about to spring upon him.

INVASION OF SPAIN.

The Date Postponed and Dependent on the Progress of the Porto Rican Campaign.

The date of the departure of Commodore Watson's squadron for Spain is growing more and more remote. It is certain that he will not start from Santiago until after Admiral Sampson has selected the naval force to be sent to Porto Rico to assist the army in its operations there. Sampson has not yet notified the Navy Department of the names of the ships that will participate in the Porto Rican campaign, and it is said at the department that the selection of more vessels for Watson's squadron will not be made until that matter has been settled.

GARCIA'S DEATH REPORTED.

One of the Oldest and Ablest of the Cuban Generals Dead.

New York, July 21.—A Kingston, Jamaica, cable to the Evening Post says that Cubans arriving from Siboney report that Gen. Garcia is dead.

The last word directly received by the Cuban Junta in this city from General Garcia was dated before Santiago, July 11. It was a cable message, and stated briefly that he was well, and that the progress of events was satisfactory. At that time Garcia was to the west of Santiago, guarding the approaches from expected reinforcements to the city.

General Garcia was one of the older and abler of the Cuban revolutionists. Admiral Sampson spoke in high terms of his soldierly and intelligent bearing when he went on board the flagship. His special field of observations for the past two years has been the Province of Santiago where he successfully evaded the superior Spanish forces sent out to defeat and capture him.

Porto Rico Expedition.

Charleston, S.C., July 21.—With bands playing and 30,000 people cheering, the first expedition to follow General Miles to Porto Rico got away from here at 7 o'clock last evening. The expedition is under the command of Major-General J. B. Wilson.

Scovel Slapped Shafter.

Santiago de Cuba, via Del Este, July 21.—Sylvester Scovel, the newspaper correspondent, who has been confined in the Carcel Real since Sunday for having assaulted Gen. Shafter, yesterday was removed to Siboney in the tug Colon, under a small guard. It is not known how his case will be disposed of. He may be tried here or taken as a prisoner to the United States. Scovel attempted to make himself a part of the Flag Raising Committee at the Palace Sunday. He attempted to go to the roof of the Palace, when he was ordered down by the guard. Forcing his way through the crowd, he slapped Gen. Shafter in the face. He was promptly arrested.

Indignation at Washington.

Washington, July 21.—Among officials at the War Department, indignation was expressed yesterday morning at the attack upon Gen. Shafter by Sylvester Scovel, correspondent of the New York World. One of these officials, high in authority, said it was not a simple attack upon a citizen, but upon the head of an American army and as such was an affront to every American citizen. This official said that an example should have been made of the correspondent in such a way as to become historic. At the same time, it has been ascertained that no orders touching the case had gone from the department, and that the whole management of it would be left to Gen. Shafter.

Chronic Eczema Cured

One of the most chronic cases of eczema ever cured is the case of Miss Gracie Ella Alton, of Hartland, N. B. On a sworn statement Mr. Aiton says: I hereby certify that my daughter Gracie Ella was cured of eczema of long standing by using four boxes of Dr. Chase's Ointment. William Thistle, druggist, of Hartland, also certifies that he sold four boxes of Dr. Chase's Ointment which cured Gracie Ella.

Great Smash-up

IN PRICES DURING JULY.

$12,500 SLUMP IN ONE CLIP

Gough Bros.' Big Double Stores and Oak Hall Branch Included.

Mark these words! and study them over, and see what it means for you. Since the close of a great day's business last Saturday, we have deliberately slashed about $12,500 off prices in our two Big Double Stores and Oak Hall Branch—including a net shrinkage of fully 25 per cent. in profits.

This is a gigantic undertaking to save you money, and to rapidly reduce all summer stocks. We are not so awfully greedy after gain as not to make prices bend to our will when we want to—even if loss must follow. You can't move stocks fast enough in midsummer without cutting the life out of the profits. But as our great stocks are brought away down to begin with, we can afford to do some marvellous selling, still further away down to quickly clear them. Never anything done in Peterborough can compare with it:—

SHIRT WAISTS

NOW IN PROGRESS AT THE

GOLDEN LION

It was a fitting termination of the spring and summer season of 1898, which shows the volume of business transacted to be the largest on our records.

The sizes are well assorted yet as we had large quantities of each number, they are disappearing quickly and the prices remain the same, the lowest ever quoted for such high-class garments, **50c.** and **75c.**, formerly $1.00 and $1.25. As we must soon turn attention to autumn importations, we direct special attention to the very great reductions at which we are clearing out the balance of all classes of summer fabrics, viz.:

—Prints, Printed Organdies, Spot Muslins, Victoria Lawns, Cocheco Flannels.

—Ladies' Ties, Collars and Cuffs, Gloves, Hosiery, Leather Belts, Fancy Ribbons, Valenciennes Laces, Velvet Ribbons, Sash Ribbons, Carpets, Curtains and Housefurnishings.

—Special clearing prices in Ladies' and Children's trimmed and untrimmed Millinery, Sailors and Straws, Jackets and Capes.

GARCIA TO SHAFTER.

Protest Against Latter's Treatment of Cubans.

WITHDRAWS ARMY TO THE HILLS

The Cuban General Repels With Indignation the Aspersions on the Civilization of His Ragged But Patriotic Army—Sampson to Shafter Also —Watson's Spanish Invasion Postponed.

Santiago de Cuba, July 22.—The ill-feeling produced among the Cubans by Gen. Shafter's latest orders in Santiago culminated yesterday morning in a serious rupture between Gen. Shafter and Gen. Garcia. As a consequence Gen. Garcia has withdrawn, with his army, from the outskirts of Santiago to the interior, taking the road to Jiguani. He first held a council of his officers, and tendered to Gen. Gomez, the Cuban commander-in-chief, his resignation as commander of the Cuban army of the east. A special courier was sent to Gen. Gomez's headquarters, carrying the resignation.

Garcia's Letter to Shafter.

Gen. Garcia also sent the following letter to Gen. Shafter: "Sir.—On May 13 the Government of the Republic of Cuba ordered me as commander of the Cuban army in the east to co-operate with the American army. Following the plans and obeying the orders of its commander, I have done my best, sir, to fulfil the wishes of my Government, and I have been until now one of your most faithful subordinates, honoring myself in carrying out your orders and instructions as far as my powers have allowed me to do it. The city of Santiago surrendered to the American army, and news of that important event was given to me by persons entirely foreign to your staff. I have not been honored with a single word from yourself informing me about the negotiations for peace or the terms of the capitulation by the Spaniards. The important ceremony of the surrender of the Spanish army and the taking possession of the city by yourself took place later on, and I only knew of both events by public reports. I was neither honored, sir, with a kind word from you inviting myself or any officer of my staff to represent the Cuban army on that memorable occasion. Finally, I know that you have left in power at Santiago the same Spanish authorities that for three years I have fought as enemies of the independence of Cuba. I beg to state that these authorities have never been elected at Santiago by the residents of the city, but were appointed by royal decrees of the Queen of Spain. I would agree, sir, that the army under your command should have taken possession of the city, the garrison and the forts. I would give my warm co-operation to any measure you may have deemed best under American military law to hold the city for your army and to preserve public order until the time comes to fulfil the solemn pledge of the people of the United States to establish in Cuba a free and independent government, but when the question arises of appointing authorities in Santiago de Cuba, under the peculiar circumstances of our thirty years' strife against the Spanish rule, I cannot see but with the deepest regret that such authorities are not elected by the Cuban people but are the same ones selected by the Queen of Spain, and hence are ministers to defend against the Cubans the Spanish sovereignty. A rumor too absurd to be believed, General, ascribes the reason of your measures and of the orders forbidding my army to enter Santiago to fear of massacres and revenge against the Spaniards. Allow me, sir, to protest against even the shadow of such an idea. We are not savages, ignoring the rules of civilized warfare. We are a poor, ragged army, as ragged and as poor as was the army of your forefathers in their noble war for independence; but, as did the heroes of Saratoga and Yorktown, we respect too deeply our cause to disgrace it with barbarism and cowardice. In view of all these reasons I sincerely regret to be unable to fulfil any longer the orders of my Government, and therefore I have tendered to-day to the commander-in-chief of the Cuban army, Major-General Maximo Gomez, my resignation as commander of this section of our army. Awaiting his resolution, I withdraw my forces to the interior. Very respectfully yours, Calixto Garcia."

Besides the above document, other important letters have been passed between General Shafter and Admiral Sampson about the possession of the gunboat Alvarado, the capture of which, Admiral Sampson claims, was an operation that only the fleet had the right to conduct.

PRISONERS FOR SPAIN.

A Spanish Transportation Co. Will Get the Contract, It Appears.

Washington, July 22.—The War Department has awarded the contract for transporting the Spanish prisoners captured at Santiago back to Spain to the Campania Transatlanta Espanola. The award was made after a long conference at the department between Secretary Alger, Col. Frank Hecker, the volunteer officer appointed by the War Department to negotiate for the charter and purchase of transport vessels, and several representatives of the transatlantic steamship companies from New York. At the end of the conference, which closed at the hour named, it was decided that the bid of the Spanish company was the most advantageous for the Government, and the award was made accordingly. The terms of the Spanish company's bid provide for the transportation of the soldiers at $20 per capita and of the officers at $55 per capita. The company agrees to furnish subsistence.

The Invasion Abandoned.

Washington, July 22.—The raiding squadron under Commodore Watson has been disbanded. Some of its vessels will come north to be docked, and the others have been ordered at once to Porto Rico. This was the result of this morning's meeting of the War Board, at which Secretary Long and Secretary Alger were present. All idea of sending any warships across the Atlantic, either to the Canaries or to the coast of Spain, has been definitely abandoned, and American ships will stay in American waters. This announcement is official. It is expected to remove a serious obstacle to peace, and give Spain opportunity to take the first step toward negotiations for peace.

U. S. Fixes Cuba's Tariff.

Washington, D.C., July 22.—A conclusion has been reached as to what disposition shall be made of the prohibitory list in the Cuban tariff laws. The only articles retained on the prohibited list are firearms and ammunition, oleomargarine, artificial or adulterated wines and objects offensive to morality. Rates of customs duty on the remaining articles have been decided upon as follows: Sugar, raw, 1⅜c a pound; refined, 2c a pound; honey, 20c a gallon; molasses, 6c a gallon; saccharine, $1.50 a pound; tobacco in carrots, $10.50 per 100 kilogrammes or 220 pounds; tobacco in powder or snuff, 55c a pound; cigars and cigarets, $4.50 a pound. The prohibition on pharmaceutical preparations of unknown composition is removed, and the rates fixed are according to the Cuban law for the individual articles to be determined by the customs officer.

Porto Rico to Be Held.

Washington, July 22.—The authoritative declaration was made yesterday that the Island of Porto Rico is to be held as a permanent possession of this country as the price of the war. The subjoined practically official statement was made to the Associated Press yesterday: Porto Rico will be kept by the United States. That is settled and has been the plan from the first. Once taken it will never be released. It will pass forever into the hands of the United States and there never has been any other thought. Its possession will go toward making up the heavy expense of war to the United States. The American flag once run up there will float over the island permanently.

A Cuban Blockade Runner.

Halifax, July 22.—The Newfoundland, which has been seized while trying to run the Cuban blockade, cleared here on the 8th inst., for Kingston, Jamaica, and Vera Cruz, after returning from a successful trip to Porto Rico. While on the voyage she was boarded at Guantanamo and warned by a United States warship to refrain from further attempts at blockade-running.

The Santiago Mail.

Washington, D.C., July 22.—The President yesterday issued a general order, opening postal communication between the United States and the Santiago district and other districts that may be taken hereafter.

New Cylinder on Government Engines.

Colborne, July 22.—The Department of Railways and Canals has just completed arrangements with Mr. A. M. Pearson of this town for the use of the Cleveland cylinder, a Canadian invention, which it is claimed will develop a great speed. If entirely satisfactory the locomotives of the Government system will all be fitted with the new cylinder.

Result of Election in First District of Prince, P.E.I.

THE QUEBEC CONFERENCE DATE.

American Commissioners Will Not Be Ready Until August 10—Canada's Exhibit at the Omaha International Exhibit Greatly Appreciated—Our Great Butter and Cheese Market in Britain.

Charlottetown, P. E. I., July 22.—Meddie Gallant, Liberal, was elected to the Local House from the first district of West Prince Edward Island by a majority of 245 over F. J. Buote, Conservative. The election was caused by the resignation of Edward Hackett, in order to run for the House of Commons.

Conservatives are completely crestfallen over the result, having confidently expected to carry the seat. Provincial politics here are mainly run on Federal lines and this, therefore, is another indication of the popularity of the Laurier Government.

CANADA'S EXHIBIT

At the Omaha International Exposition Greatly Admired.

Ottawa, July 22.—Mr. W. H. Hay of the Experimental Farm, who was in charge of the installation of all Canada's exhibits at the Trans-Mississippi Fair, Omaha, returned yesterday from Omaha. He says Canada's exhibits at the exhibition are the most popular of the exhibits of foreign countries, and occupy the largest space at the exhibition. Canada's exhibit covers 5,000 square feet of ground, and consists of wood, minerals and grains. These are all of the first quality, and caused very favorable and special comment from all who saw them.

THE QUEBEC CONFERENCE.

American Commissioners Will Not Be Ready Till Aug. 10.

Washington, July 22.—The members from the United States on the Canadian commission will hold a preliminary meeting to-day for organization and to talk over the situation. It will be the first time the members have all been together. Senator Fairbanks will be chosen chairman, and a secretary may be selected from the several candidates seeking the place. It had been expected that the full commission would assemble in Quebec about August 1, but owing to Senator Fairbanks' engagement to preside over the Indiana State Republican Convention August 8, Secretary Day has notified Sir Julian Pauncefote, British Ambassador, that it will not be convenient for the American commissioners to report there before August 10. After the meeting to-day the members will separate until the time of meeting at Quebec.

OUR BUTTER AND CHEESE.

Some Information About the Big Demand for Them in Britain.

Montreal, July 22.—Ex-Mayor George Robertson of St. John, N.B., who has been speaking before the commercial bodies of London, Liverpool, Manchester, Belfast and Bristol in the interest of Canadian trade, arrived here yesterday by the Lake Huron, and he declares that few Canadians have any idea of the extent of the English market. The district of Manchester, an area of less than 30 miles, has a population of seven millions, and they want the best cheese, butter and farming produce the world possesses. He interviewed the leading shippers and ship builders of the three kingdoms, and their message to Canada is that no one can over-estimate the value of exports that will go from Canada to the Mother Land in the near future. He also states that his experience on the other side has brought him to believe that a commercial agent for Canada is absolutely necessary in London. The greatest wisdom, however, would have to be exercised in the appointment, and, above all, he must be a commercial man. With such a gentleman Mr. Robertson is sure that Canada would reap the greatest benefit.

FACTS ABOUT HEALTH

It is Easy to Keep Well if We Know How—Some of the Conditions Necessary to Perfect Health.

The importance of maintaining good health is easily understood, and it is really a simple matter if we take a correct view of the conditions required. In perfect health the stomach promptly digests food, and thus prepares nourishment. The blood is employed to carry this nourishment to the organs, nerves, muscles and tissues which need it. The first great essential for good health, therefore, is pure, rich blood. Now it is certainly a fact that no medicine has such a record of cures as Hood's Sarsaparilla. It is literally true that there are hundreds of people alive and well today who would have been in their graves had they not taken Hood's Sarsaparilla. It is depended upon as a family medicine and general regulator of the system by tens of thousands of people. This is because Hood's Sarsaparilla makes the blood pure. This is the secret of its great success. Keep your system in good health by keeping your blood pure with Hood's Sarsaparilla, which absolutely cures when other medicines fail to do any good whatever.

Hood's Pills are the only pills to take with Hood's Sarsaparilla.

FACTITIOUS AND REAL HEROES.

THE Spanish-American war has originated a great crop of heroes. The Americans, both on sea and land, have achieved cheap success, as least what might properly be denominated success if they had met foemen in any way worthy of their steel. It was no very difficult undertaking to bowl over Spanish iron-clads, indifferently equipped and manned by indifferent crews and by gunners who had not mastered the first elements of taking sight and hitting the mark. If the Americans had had to face almost any other power, the success, if they had reached the same degree of it, would have been more dearly bought. It is to be expected that our good cousins over the line, whose besetting sin is by no means modesty, should become vain-glorious in their boastings. The excitable and hysterical press has created heroes out of the most common-place materials and conditions. They have heroes to burn, so abundant are these characters that are rather scarce in proportion to the general ruck in the history of the world. Only the other day we saw in the window of the Peterborough Music Store an American war song with a star spangled title page, which bore the inscription, "The Heroes that Went Down with the Maine." The Maine was a United States battleship that blew up—from spontaneous combustion or Spanish dynamite—in a Cuban harbour. Most of the "heroes" that went down on that occasion were asleep at the time of the explosion, and it would strike the ordinary individual that it required very little heroism to be drowned in one's bed—not much more than would be placed to the credit of a fox caught in a trap. It is of course deplorable that men should meet death in such a manner, but that the passive endurance of death by drowning or blowing up in which no moral element of courage or self-sacrifice exists, should be called heroism, is an outrage upon orthoepy. But it is what is to be expected. Brother Jonathan has always had some difficulty in getting a hat that would fit him and his recent enlargement of head is no surprise. The present war has changed history. Dewey has wiped out Nelson and we may expect that Shafter, who had his face slapped by a drunken penny-a-liner at Santiago, will do the same thing by Wellington and Napoleon and we may expect the petty naval officer, as recorded in yesterday afternoon's despatches to the EXAMINER, who had his ear drum "busted" by the firing of a gun over his head to be enrolled in the ranks of Uncle Sam's cheap heroes. Its all very well to talk of the Anglo-American entente and that sort of thing, but one feels like drawing the line at the hero manufactory of our enthusiastic neighbours.

Apropos, the London News says: "Whether we agree with them theologically or not, is of small consequence. But no one can read of the demeanor of the Catholic priests on board of the ill-fated Bourgogne which went down off the coast of Nova Scotia without feeling that they were the stuff of which true manhood is composed. One of the survivors is Patrick McKeown, of Wilmington, Del., who says a feature of the last few minutes upon the doomed liner that had cut itself vividly on his memory, was the calm demeanor of three priests, who serenely walked about the deck, administering the rites of the Roman Catholic church to such as wished them. One of the priests he recognized. He was Father Anthony Kessler. McKeown had talked with him the day before the disaster and recognized him easily from his raft. "He seemed to have not a thought of himself," said McKeown, "but encouraged and blessed the fated passengers." None of the priests tried to save himself, according to McKeown, so intent were they upon giving the benediction."

Here is true heroism and it comes in sharp contrast with the imaginary heroes that are evolved out of the little United States fracas with Spain.

FRUIT CANNING.

It is a singular fact that we are indebted to Pompeii for the great industry of canning fruit. Years ago, when the excavations were just beginning, a party of Cincinnatians found in what had been the pantry of a house many jars of preserved figs. One was opened and they were found to be fresh and good. Investigations showed that the figs had been put into jars in a heated state, an aperture left for the steam to escape, and then sealed with wax. The hint was taken, and the next year canning fruit was introduced into the United States, the process being identical with that in vogue in Pompeii twenty centuries ago. The old ladies in America who can tomatoes and peaches do not realize that they are indebted for the art to a people who perished nearly 2,000 years ago.—Exchange.

That may be all right so far as it goes, but remarks the London News the art of canning was re-discovered before the excavations at Pompeii. At the London exposition of 1851, there were exhibited specimens of canned salmon that were put up at a little place called Hants Harbour in Newfoundland. The exhibitor, an old gentleman named Tilley, received a gold medal. He discovered the process after a great many experiments in his own kitchen, the upshot of which was that he found out that by leaving a small aperture in the top of the can, boiling to a certain temperature, and then dropping a pellet of melted lead on the aperture, he had a perfectly air-tight can.

PREFERENCE TRAFFIC.

The Customs department is issuing another circular upon the subject of the new preferential tariff coming into force on the 1st of August. It contains instructions to collectors concerning the invoicing of goods, and is calculated to make the law in this connection even more stringent than it is at present. The countries to which the preferene will apply after the end of this month are :—The United Kingdom of Great Britain and Ireland, the colony of Bermuda, the British West Indies, including the Bahamas, Jamaica, Turk's Island, Calcos Islands, Antigua, St. Christopher Nevis, Dominica, Montserrat, the Virgin Islands, Granada, St. Vincent de Lucia, Barbadoes, Trinidad, Tobago, British Guiana, British India, Ceylon, the Straits settlements and New South Wales.

MORAVIANS PROSPERING.

In Alberta there is a colony of Moravians who were induced to come out to this country from Russia to take up land. They came over almost penniless, and for the first two seasons had a hard fight to make ends meet at all. Since the results of their application to work and knowlege of farming began to tell, a new era has opened out for them and many of the families are well on the road to prosperity, their farms being models of thrift and skill.

GALICIANS NOT SO BAD.

Of the Galicians who have been landing on the shores in thousands this year for the purpose of taking up land in the west, it is said that the majority are fairly well educated, and many skilled mechanics. In the districts where they have been settled for some time it has been found that they very quickly picked up the customs and language of the people around them and they give good promise of success as agriculturists.

THE COMING GENERAL.

He Will be Found in General Kitchener.

At the commencement of the civil war in the United States, nearly forty years ago, there was not in that country a single military commander of tried ability or well-founded reputation. During the first few months of the struggle those of whom much had been expected disappeared one after another ingloriously from the scene. The war made high reputations on the one side for Lee, Jackson, and a few of less note, and the other for Grant, Sherman, and some of their associates. Not one man is now before the public who made any military reputation during the four years of the conflict, and it seems unlikely that anyone will make himself famous for generalship out of the Cuban campaign. The circumstances and conditions forbid it. The movements of the forces are controlled at Washington through the electric telegraph and the war has been to short and too one-sided to call forth any great commander to meet any unforseen crisis.

There is no room to suppose that any European nation is in this respect any better off than the United States. The great German and French generals of 1870 have all gone, and even the Russian and Turkish commanders of 1878 are no longer available. There is no certainty that Germany has another Moltke to rise to the occasion any more than she can duplicate Bismarck. These men were the product of conditions which no longer exist, one of them being the occupation of the Prussian throne by a monarch who, while he had a firm belief in the divine right of kingship, knew perfectly well his own human limitations. Russia and France may have great generals in reserve, but, if so, they are in posse, rather than in esse.

There is only one military commander in the field anywhere at the present time whose achievements warrant great expectations—General Kitchener,

THE SIRDAR OF THE SOUDAN.

Lord Wolseley made one brilliant campaign years ago in the same region, but it was made at great expense and for a temporary purpose, and Lord Wolseley is now an invalid. Lord Roberts did brilliant work some years ago in Afghanistan, but his campaign was soon over, and he had never had occasion to go through another. Moreover, in the event of the expected early retirement of Lord Wolseley from the Horse Guards, "Bobs" is slated to succeed him as Commander-in-Chief.

To understand the full magnitude of General Kitchener's achievements so far in the Soudan one must take into consideration the difficulties which he had to overcome. He has been charged with varied and formidable administrative duties as well as with a military commission. He has been compelled to organize the Soudan step by step as he wrested it from the Mahdi. He had to raise and prepare an army by enlisting barbarian Soudanese soldiers and making them amenable to military discipline under British officers. He had to prepare a fleet of gunboats to patrol the Nile, and had to build a railway through a sterile country, infested by alert and courageous opponents in the shape of dervish cavalry. Worst of all he has been greatly hampered through the difficulties thrown in the way of Egyptian finance by France and other European countries. In spite of all these obstacles, his forward movement has been steady, though far from rapid. He has suffered no reverse; he has persistently pressed back his vigilant and troublesome enemy, on whom he has inflicted with lightning suddenness one crushing reverse, and for whom he is now quietly and surely preparing the final stroke. Those who want to see the world's great military commander of the close of the century should keep their eyes fixed on the movements of General Kitchener in the Soudan.

BARRIE'S BIG BLAZE.

Boat House and Box Cars Badly Burned —Station Severely Scorched.

Barrie, Ont., July 22.—Shortly after midnight yesterday a fire destroyed a boat house belonging to A. W. Wilkinson, but rented by E. H. Williams, who lost two good boats and all their belongings.

In the morning about 3.30 o'clock fire was discovered in the G.T.R. freight sheds, and in less than an hour they were totally destroyed. The fire brigade bent every effort to save the station, which adjoined the sheds, and they were in a large degree successful, only the western part of this building being burnt. The wind was blowing from the northwest, which was a lucky thing for the town, the sparks being carried out into the bay. The steamer Enterprise, moored at the Bayfield street dock, had to put out into the bay to escape from the shower of sparks.

It is impossible to estimate the loss, which will be very heavy and affects many merchants besides persons removing to the town who had not yet taken their furniture from the station. Among the losers are: James Vair, grocer; P. J. Moore, H. H. Otton, J. Neelands and Jos. Otton, furnaces, piping and radiators; John Barr, piping; N. Hughes, J. Steele and S. Barkley, agents for the Massey-Harris Company. The Fleury and Maxwell companies respectively lost several binders and other farm implements. S. Caldwell, grain buyer, lost $800 worth of grain and J. J. Brown & Co. lost about $500 worth, both covered by insurance.

The fire spread to the G.T.R. boat house, occupied by M. Shanacy, J. Darby and J. F. Smith, who lost three rowboats, a canoe, fishing tackle and camping outfits. The railway tracks were badly twisted, but were relaid as soon as possible, so that traffic was not impeded.

MOTHER AND DAUGHTER CURED.

Mrs. Lydia A. Fowler, Electric Street, Amherst, N.S., testifies to the good effects of the new specific for all heart and nerve troubles: "For some time past I have been troubled with a fluttering sensation in the region of my heart, followed by acute pains which gave me great distress and weakened me at times so that I could scarcely breathe. I was very much run down and felt nervous and irritable.

"I had taken a great many remedies without receiving any benefit, and I scarcely knew what to do, when a friend induced me to try Milburn's Heart and Nerve Pills. I had only been taking them a short time when I felt that they were doing me great good; so I continued their use and now feel all right. I can heartily recommend Milburn's Heart and Nerve Pills for nervous prostration."

MILBURN'S HEART AND NERVE PILLS.

Mrs. Fowler adds: "My daughter, now fifteen years of age, was pale, weak and run down, and she also took Milburn's Heart and Nerve Pills for some time, and is now strong, healthy and vigorous."

Milburn's Heart and Nerve Pills cure palpitation, skip beats, smothering sensation, dizzy and faint spells, nervousness, sleeplessness, anaemia, weakness, after effects of grippe, female troubles, etc. Price 50c. a box or three boxes for $1.25. Sold by all druggists or sent by mail on receipt of price. T. Milburn & Co., Toronto, Ont.

Mr. Melville Miller, Bensfort, Ontario, says: "Laxa-Liver Pills made a new man of me. I was troubled with indigestion and pains in the small of my back, and after taking Laxa-Liver Pills for about three weeks they completely cured me." Price 25c., all druggists.

ASSURANCE CO.

OFFICE OF W. A. MURRAY & CO., 17 to 27 King St., East, Toronto.

Wm. McCabe, Esq., Managing Director, N. A. L.:

DEAR SIR:—In answer to your request for me to decide upon one of the following options offered me for settlement of my 15-payment Life Investment Policy for $5,000 which has matured this year, viz.:

1st, to take the value of the Policy in Cash..... $5,008 00
2nd, or fully paid-up insurance for..... 8,280 00
3rd or take the profits in cash 2,050 25

and continue my policy without further payments being required from me, such policy participating in future profits.

I find it somewhat difficult to make a decision either of the three options being so satisfactory. I am certainly very much pleased with the results offered me, and as I find many others are giving full testimony to the profit-earning power of this company. I do not hesitate to give my endorsement as well, that the North American Life is one of our strongest Canadian institutions to day giving first class results on Investment Policies, on a safe and conservative basis. I find that my policy, which was originally a Life by fifteen payments, has become an Endowment at the end of the Investment period.

A Martyr to Diarrhoea.

Tells of relief from suffering by Dr. Fowler's Ext. of Wild Strawberry.

There are many people martyrs to bowel complaints who would find Dr. Fowler's Extract of Wild Strawberry a wonderful blessing to them. It not only checks the diarrhoea but soothes and heals the inflamed and irritated bowel, so that permanent relief is obtained.

Mrs. Andrew Jackson, Houghton, Ont., sends the following letter: "For the past two or three years I have been a martyr to that dreadful disease diarrhoea. I tried every remedy I heard of and spent a good deal of money trying to get cured but all failed until I happened to read of a lady who was cured by using Dr. Fowler's Extract of Wild Strawberry. I purchased a bottle and commenced taking it according to directions and was cured in a very short time. I cannot praise the remedy too highly for what it did for me."

IS INTERNATIONAL.

THE FIRST TROLLEY LINE TO CROSS NIAGARA'S GREAT STEEL ARCH.

It Has a Double Track, and, as the Bridge Stands in Full View of the Falls, the Scene From the Car Is Delightful—Decorated With Anglo-American Flags.

The first international electric road between the Dominion of Canada and the United States has been opened across the new steel arch bridge built at Niagara Falls. This bridge has been described as the greatest steel arch in the world, and now it bears the further distinction of having the first international trolley line to cross the gorge on its deck. This trolley road has a double track, and the trolley wires are suspended on poles running through the centre. The first car to cross the bridge made the trip on a recent evening. It was about 7 o'clock that the car passed through the switch on the Canadian side and ran upon the bridge track. Officials of the Niagara Falls Park

FIRST INTERNATIONAL TROLLEY LINE.

& River Railway and also of the bridge company boarded the car and soon they were enjoying their first trolley ride across the Niagara. As the bridge stands in full view of the falls, the scene from the car is delightful, and no doubt the trip will prove one of the desirable incidents of a visit to the Falls. The company controlling the franchise is the Niagara Falls Park & River Railway, the electric road that skirts the bluff on the Canadian side from Chippewa to Queenston. The car that crosses the bridge will make close connection with the cars on the main line, and it would appear that it is destined to divert no small amount of tourist travel from the channels on the New York State side to the routes on the Canadian side. The car that made the initial trip was decorated with the British and American flags, a decoration which is growing in popularity on the Niagara border these days.

APPALLING DEATH

From Kidney Disease Prevented by Dodd's Kidney Pills, Only.

"Kidney Disease." Do you know what it means? It means that the kidneys are either *rotten*, or rotting; the blood is full of poisonous, death-dealing corruption; that the Kidneys can't do their work; that the victim is a walking charnel-house; that his hours are numbered; that the victim MUST take Dodd's Kidney Pills if he does not want to die.

Have you Kidney Disease? Is your skin hot and dry; memory failing; breath short; urine, reddish, or pale colored; does it scald when passing; is your appetite changeable; do your ankles swell; have you bitter taste in the mouth on getting up mornings; is there a brick-dust deposit in your urine?

Any of these signs is proof positive of Kidney Disease. Will you be cured, or will you die? Dodd's Kidney Pills are the only means on earth that will cure you. They never fail.

FLUCTUATING.

The Wheat Market Is Feeling Adverse Influences and Responds Accordingly—The Latest Prices.

Thursday Evening, July 21.

To-day's Chicago wheat market was irregular. After a little manifestation of weakness around the opening there was a rush to cover by shorts, caused by the depletion of Chicago and St. Louis stocks, the unexpectedly small receipts of new wheat, the refusal of farmers in many sections to accept present bids, and the strong demand for cash wheat. The July delivery sold up to 80½c, the September option at 69¼c, and the December future at 695/8c. Later the cabled advices of big declines in Paris brought about a reaction. July wheat closed only ⅞c above yesterday's close, while the final figures for September and December showed losses of ⅜c and ¾cs respectively.

On the Liverpool board July wheat declined ¼d per cental, but the September and December options gained ½d and ¼d respectively for the day.

Toronto grain buyers report more willingness among dealers to accept 70c at north and west points for new wheat, and some business is being done around that figure. Old red is still quoted at 70c to 71c north and west, and No. 1 Manitoba hard at 96c to 97c afloat at Fort William.

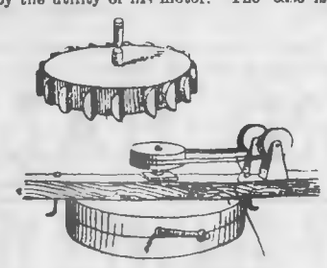
SIMPLE WATER WHEEL.

What a *Skilled Mechanic Can Do With* Even Limited Facilities.

Many machines, like lathes, churns and sewing machines, are operated by hand or foot power; but if a man has a small stream of water at his disposal and possesses a certain amount of ingenuity, he can make a wheel that will utilize the power of his stream, and keep it at work, if he so desires, in his absence. A correspondent of the Iron Age tells the editor of that publication of a motor which he constructed recently. He says that he lived in a city where he could get water, but not electricity. From the latter remark it is to be inferred that he would have bought a small electric motor if he had only enjoyed the means for driving it.

His homemade wheel was about seven inches in diameter, not counting the buckets, which were an inch and a half long, radially. The body of the wheel was four inches thick, and the buckets were of that height, therefore. The wheel was of sheet iron, soldered at the joints. To drive it he had a fall equal to 40 feet, but admitted only a small jet. For this purpose he inserted a nozzle taken from a large oil can. To get the best effect, he incased his wheel, and then set the nozzle in the casing at the proper angle. On the further side of the casing, of course, he had an outlet pipe, which discharged into a basin, and this into a drain. As he got not more than a twelfth of a horse-power, it hardly seems as if the work was worth doing. Still he considers himself repaid by the utility of his motor. The case is



IMPROVISED WATER WHEEL.

worth putting on record, not for precise imitation, perhaps, but as an example of what may be done with poor facilities.

THOSE PRICELESS BOXES

Of Dodd's Kidney Pills Cured Mr. Colwell of Bright's Disease.

Windsor, July 11th.—"Is it true, Mr. Colwell, that you have been cured of Bright's Disease by Dodd's Kidney Pills?" our reporter asked Mr. R. F. Colwell, jeweller, of No. 9, Ouiette street, to-day.

"It is indeed," was the answer. I suffered two years with Bright's Disease. My back ached all the time. I had awful, aching pains in my loins, a puffiness under my eyes, and my urine was very dark coloured.

"For a time I could find no remedy to do me any good. But one day a friend told me he had been cured of the same disease by Dodd's Kidney Pills. I bought a supply. A few boxes cured me thoroughly." Dodd's Kidney Pills cure all kidney complaints.

Those Weird Presentiments.

"Did you ever, when looking for something that you had lost, on a sudden feel strangely that you were just going to find it?"

"Yes, often, and then I knew that I wasn't."—Vim.

PERSONAL.

Miss Edna Stanger left yesterday to visit friends in Norwood.

Mrs. Charles McGill and family left today for Grimsby Park.

Mr. and Mrs. C. Bertram are visiting Mr. and Mrs. D. A. Fraser of Norwood.

Mr. and Mrs. P. W. McGachie, of Simcoe, are the guests of Mr. and Mrs. T. W. Martin, Stewart street.

Messrs. F. McEvoy and P. J. Anderson, of Campbellford, were in town on business to-day.

Mrs. Henry Denne, George street, is visiting her daughter, Mrs. Graham, in Kingston.

In the list of hotel arrivals at Chateau Frontenac, Quebec, appear the names of Mr. R. B. McKee and Mr. H. LeBrun.

Mr. John Chesney has been appointed caretaker of the dam at Scott's Mills, Mississaqua and Mr. John Westlake of the dam at Gull and Bottle lakes.

Mrs. James Fairweather, Gilmour street, accompanied by Miss Jessie Fairweather, is at Preston Springs for the benefit of her health.

The family of Mr. J. B. McWilliams left this morning for Stony Lake, where they will occupy Tecumseh Lodge for the season.

Mr. R. Maitland Roy, Asst. Engineer of the Hamilton Bridge Works, is in town on business. He leaves shortly for a trip to the coast.

Robert G. Weigester, of Elmira, N. Y., son of Mr. Jacob Weigester, formerly of Ashburnham, passed through to-day with his wife to spend a few weeks at Stony Lake.

Very Worshipful Bro. Harry Rush is receiving the hearty congratulations of his many friends on account of his election by acclamation to the honourable position of Junior Warden of the Masonic Grand Lodge. This is a tribute to the intelligently active part Mr. Rush has always taken in the promotion of the interests of the Order.

The local delegation of Masons returned from Toronto last evening. The persons from this district elected to office were H. Rush, Peterborough, G. J. Warden; Jas. Evans, Port Hope, D. D. G. M., and A. R. Hargraft, Cobourg, who was elected to the Board of General Purpose. Amongst those who went up from Peterborough were Messrs. R. E. Wood, Alex. Gibson, A. C. Herridge, E. H. D. Hall, D. Burritt, H. Rush, F. D. McKay and W. Stocker.

Mr. C. W. Kempt, of Detroit, formerly of Peterborough, and predecessor of Mr. John McKee, druggist, is in town for a few days vacation, and is the guest of Mr. E. H. D. Hall. Mr. Kempt's former friends are pleased to see him looking so well, and glad to see him back to his former home for a few days. Mr. Kempt notices many improvements since he left the town, being wonderfully enlarged and improved in many ways. He speaks highly of the parks in the north and west of the town, and thinks provision should be made for a playground for the south ward. Mr. Kempt has not forgotten his former home, though a member of the great republic to the south.

MARTIAL LAW NOW AT MANILLA.

Special 3 p. m. despatches to the Examiner.

Spanish Prisoners Escape.

Atlanta, Ga., July 22.—It is reported that four Spanish prisoners confined at Fort McPherson since the beginning of hostilities with Spain escaped last night.

No Hope For Speedy Peace.

London, July 22.—The Madrid correspondent of the Times says hope of speedy peace must be abandoned.

Weyler Comes to Terms With the Republicans.

New York, July 22.—World's Madrid despatch says Weyler has at last made overtures to the Republicans and a majority have accepted the proposition to act with him in opposing the Queen Regent and her ministers if peace is made on terms harsh for Spain. There is a rumour that the Government will arrest Weyler.

Peace is Said to be Probable.

Madrid, July 22.—The Minister of Public Instruction, Senor Gomaso, is authority for the statement that peace honourable to the Spanish army will shortly be concluded.

A Rough Rider Governor.

Playade Este, Santiago de Cuba, July 22.—General Wood of the Rough Riders has been appointed military governor of Santiago de Cuba.

Martial Law at Manilla.

Washington, July 22.—A despatch from Col. Anderson at Manilla says: Aquinaldo has declared a dictator and martial law. The natives expect their independence.

Another Aspect of the Peace Rumours

London, July 22.—Inquiries made in official circles here fail to confirm the statement of the Spanish minister telegraphed from Madrid to-day to the effect that peace will shortly be concluded.

Insurgents Successes in the Philippines.

Manilla, July 19—via Hong Kong, July 22.—The insurgents are gradually getting artillery into action against Pondo Santimero and Maleta. The fighting is desultory. The Spaniards have been driven from the trenches outside Maleta and the insurgents are strongly entrenched near the walls of the fort. It is said on semi official Spanish authority in Manilla that the recent news from Cuba is a vile English fabrication that in reality the Spaniards have been victorious, and that Admiral Camara's squadron has cooled at Singapore and is expected here on July 25.

THE SEA GIVES UP ITS DEAD.

Rather Large Statement Regarding the Victims of the La Bourgogne Disaster.

(Special to The Examiner.)

Chester, Pa., July 22—The captain of the British tank steamer, O'Halefields, reports she passed 2,000 bodies floating off the Newfoundland Banks, supposed to be some of the victims of La Bourgne disaster.

[The despatch says 2000 bodies, but that is plainly an extravagant estimate. Two hundred would perhaps be nearer the mark.

THE STE. ANNE PILGRIMAGE.

The Peterborough Excursion Trains Grew to Fifty Full Coaches.

A correspondent of the EXAMINER with the St. Annede Beaupre pilgrimage says it arrived safely at its destination. The C P. R. pilgrim train, which left Peterborough at 10.30 on Tuesday, consisted of twenty-three coaches when it steamed into St. Anne on Wednesday morning at five o'clock. The G, T. R. train with twenty-seven coaches, which left the same day at 1.15 a. m., arrived at seven o'clock and consisted of 27 coaches. There were on Wednesday 6,000 persons at St. Anne's and incoming boats and trains would largely increase the number.

LACROSSE.

The members of the seniors cannot afford to lose one night's practice. Only those who are in the best possible shape will be picked to go on the prospective trip to Rochester and other points in the United States.

THE WHEEL.

Mr. Peter Larson, of town, has developed into quite a flier on the bicycle. Yesterday he started from Lakefield at the same time as the train and beat it into Peterborough. He is anxious to make a match for a ten or twenty mile race, and would like to hear from Mr. Milt Walker.

FISHERY LAWS.

Complaint is made in some quarters that a gentleman fined in Lakefield for infraction of the Fishery Act was dealt harshly with, and it is apparently claimed that the clause of the Act, under which the penalty was imposed, is practically obsolete, having never been enforced. Persons interested in fish taking will do well to bear in mind that this, or no other, clause will hereafter be allowed to remain obsolete. The circumstances demand that the fishery laws be enforced, and they will be enforced. There are those who think that there is no limit to the number of protected fish they may catch, yet they will insist on the other provisions of the fishery act being enforced, especially when violated by others. Those fond of fishing will do well to make themselves acquainted with the provisions of the law, so that they will know when they may make an infraction of it, for they may make up their minds to the fact that the law is to be enforced. The fish supply in our lakes is being rapidly depleted; and complaints are continually being made of the great and wanton destruction of fish, or of their capture, for commercial purposes, out of season. Under these circumstances it is an absolute necessity that the fishery laws be rigidly enforced. Those who keep within the limits permitted by the statute not fear being harshly dealt with. No true sportsman, who is not animated by purely selfish motives, will object to the strictest measures necessary to preserve our fish and game and it is to the co-operation of these with the authorities that we must look for a proper and complete observance of the law.

Since the above was in type it is learned that the gentleman fined did not come under the clause of the act, which restricts the taking of only twelve fish and one maskinonge to tourists and aliens. This changes the aspect of this individual case, but it does not change the fact that the law must be enforced if our fisheries are to be maintained or placed in a productive condition.

OUR ALDERMEN IN HAMILTON.

They See the Rollers at Work.

A Hamilton correspondent says that the members of our town council, with Mr. James English and Mr. A. Macfarlane, were received by Mayor Colquhoun and several members of the Hamilton council, and after a luncheon at the Waldorf they were given an exhibition of the two rollers at work on John street south. The rollers "picked" the roadway where old macadam forms the pavement, and then they rolled it, the Peterborough men being given a good opportunity to judge of the relative merits of the city's Pitts roller and the Sawyer-Massey Roller. The deputation is stopping in the city to-night, viewing the sights and seeing stone crushers at work.

Remember the Maine

and don't forget that Saturday, July 30th, is the date of the Walter L. Main Grandest and Best Shows, Consolidated, and that reserved seats will be on sale the morning of the exhibition at William Madill's drug store, 142 Hunter street.

TOWN COUNCILLORS, WEEDS AND STONE CRUSHERS.

To the Editor of The Examiner:

DEAR SIR,—I notice your remarks on the town council's bad management in allowing the weeds and long grass to attain almost to the wonderful density of Cuban undergrowth right here on our public streets. I don't think you are treating councillors right, you must remember that all spare shillings to be picked up by the town treasurer are needed to pay for those pleasure trips to Ottawa and Hamilton. Take the purchase of a $900 dollar article for the town for example—it needs the whole council to buy that article, although it may add 10 per cent to the price and notwithstanding the fact that three fifths of the council do not know the difference between a stone crusher and a threshing machine.

Yours,
A TAXPAYER.

[Our correspondent should do the council justice, which he, to some extent, fails to do in his communication above. The whole council went to Hamilton to witness rival steam rollers at work. Only three of them are going on to London to inspect a stone crusher—at least that was the arrangement when the members left. The remark that the civic solons "do no know the difference between a stone crusher and a threshing machine," may be a little severe, yet many ratepayers think it was wise that a practical man like Mr. Andrew Macfarlane, acquainted with machinery, should have been taken along to give expert advice in the purchase of a steam roller. A roller may seem to work all right on trial but there are parts about the engine which machinists say may develop weakness afterwards, that need special watchfulness. From time immemorial representative bodies have had fun poked at their civic jaunts, and it is probable that, like the poor, we shall have them with us always.—ED. EXAMINER.

YESTERDAY'S EXCURSION.

The Firemen's Annual Outing Was a Big Success.

The Firemen and those who journeyed with them to Kingston and the Thousand Islands report a most pleasant trip. The train service on the Grand Trunk was all that could possibly be desired. By special request Engineer Billy Hamilton was in charge of the locomotive and he ran the party through to Kingston in two hours and fifty minutes. Arrived in the city, the majority embarked on the steamer "America" and enjoyed a delightful sail through the Islands. The party were much pleased with the attention shown them by the captain and crew. Mr. W. Bunton, local ticket agent of the Grand Trunk, accompanied the excursion in order to see that no want went unsupplied. The special train arrived in Peterborough at 1.15 o'clock this morning.

FRIDAY, JULY 22, 1898.

AN OPEN MEETING.

City Lodge Spent an Enjoyable Evening at Their Lodge Rooms Last Evening.

The regular meeting of City Lodge, No. 404, I.O.G.T., was varied somewhat last evening, when an invitation was extended to the friends of the order to be present and enjoy themselves to the full extent. Despite the hot night there was a good attendance, and the programme, though short, was rendered in a manner which reflected much credit on those taking part. The programme was as follows:

Song (encored)	Miss Estella Davis
Recitation (encored)	Miss White
Song	Miss Georgina Taylor
Remarks	Chairman
Song	Miss M. Hunton
Recitation	Miss H. Holmes
Song (encored)	Mr. Baker

After the programme refreshments consisting of ice cream and cake were furnished by the committee, and the meeting adjourned after singing God Save the Queen.

In his remarks the chairman emphasized the great responsibility which is placed upon all temperance people, and all christian and moral people in the Plebescite conflict which has just begun. He urged the need of all being willing to sacrifice something to help along the side of right, to try to unite the moral and social and intellectual forces of the community in a warfare upon this giant evil.

The announcement was also made for the moonlight excursion of City Lodge, on August 2nd, per steamer North Star.

The Moon's Influence

Upon the weather is accepted by some as real, by others it is disputed. The moon never attracts corns from the tender, aching spot. Putman's Painless Corn Extractor removes the most painful corns in three days. This great remedy makes no sore spots, doesn't go fooling around a man's foot, but gets to business at once, and effects a cure. Don't be imposed upon by substitutes and imitations. Get "Putman's" and no other.

GOLDEN FLOOD FROM KLONDIKE.

ABOUT $6,250,000 DISTRIBUTED AMONG LESS THAN FORTY MINERS.

Martial Law in Skaguay—Shooting of "Soapy" Smith, a Gambler. Forces United States Troops to Take Prompt Action.

Dawson, N.W.T., June 28, 1898, via Seattle, Wash., July 18—The steamers Bella, Weare, Hamilton, and May West have left here for St. Michael, and the Seattle No. 1 will start to-morrow. The Bella carried for the Alaska Commercial Company probably $5 000,000 in bullion. The Weare carried the bullion of the North American Company, probably a larger sum.

Banks do not care to state for publication what sums they are sending out. I suppose that the total carried from here by the boats for the companies, for the banks, for private individuals, and what they will pick up at Circle City and other points, will amount to another $3,000,000 or $4,000,000. Yet there should have been more than double that amount on hand in town and in the creeks.

Water has been very scarce in the El Dorado, and, as a consequence, many dumps are not yet washed. I see no reason to doubt that the local yield will exceed $12,000,000. But for the royalty and dissatisfaction with the methods of the officials here more mines would have been made ready for summer sluicing. This will mean a much smaller output than was expected.

There are in Dawson probably more than 200 000 persons. Many have gone out to the creeks, a very few to look for work, most of them to find claims.

They are all a most dissatisfied lot, for unless they go far afield they can find no creeks open to location. It is impossible to learn how many have gone down the river to the American side, but probably several thousand. The steamers have carried away nearly 10,000 passengers who are going out to the States, and they have all taken all they could carry, even with the rate of passage $300.

It is surprising how large a number of new arrivals, who have been here but a few days and have never seen the mines, say they will go home. Of course such men should never have come, and could not do good if they stayed.

ARRIVE WITH TREASURE.

Victoria, B. C., July 17.—On the steamer City of Seattle, which arrived here yesterday, were eighteen miners from Dawson City, bringing about $500,000 in gold dust and drafts. On the steamer Cottage City, which also arrived yesterday, were twenty miners from Dawson, with about $750,000 in dust and drafts.

News came by the City of Seattle that martial law has been declared in Skaguay as a result of the killing of "Soapy" Smith, a notorious gambler, and the subsequent arrest of several alleged thieves. Bowers, one of the ringleaders, had stolen $2,700 from a newly returned Dawson City miner. This led to an indignation meeting and "Soapy" Smith's shooting.

Citizens then armed with rifles and patrolled the streets, announcing their intention to arrest all implicated with the dead gambler. The search resulted in the apprehension of Bowers and about a dozen others.

Captain Yeatman, of the Fourteenth Infantry, stationed at Dyea, brought the soldiers to Skaguay and proclaimed martial law. Fearing his inability to restrain the indignation of the citizens, who threatened to lynch the prisoners, he decided to give the men a chance for their lives and allowed them to go free.

THAT WRESTLING MATCH.

Sporting Editor of The Examiner:

DEAR SIR.—Will you be good enough to allow me space enough in your widely circulated paper to refute a malicious statement that I am credably informed is gaining ground during my absence from the city, re the Doyle and Collins wrestling match that took place in Toronto some time since. In a letter I received from my partner, dated Peterborough, July 13, he says: "All the sports blame you for the fake wrestling match in Toronto, and they are boycotting the house. I wish it had never have happened." My reply to him was, "and so do I, because I lost a hundred dollars." I am not going to squeal. I am not going to charge Mr. Doyle with crookedness nor anyone else, because if I did it would only be a guess, and I respect the feelings of my fellowman too much to charge him with crookedness or even insinuate the same unless I can point out where I am right. That Doyle was a very sick man there can be no doubt, and in my opinion his sickness caused him to lose the game. Now I tell you Sir, if those people dare to charge me with the malicious crime of doping Doyle or of being the direct cause of his losing the match to Collins, I will proceed against them as soon as I return to Peterborough. Now let me trace my relations with Doyle. He comes to Peterborough with a letter of introduction to me. I meet him with the same civil attention I have extended to a great many others whose acquaintance I have made in the same way. He, as you know, arranges a wrestling match with Harrison. I accept the position of referee, and give my decision against him on a foul. I well know that I was charged with crookedness for so doing by people who pose as my friends, but I took it all with a wink. Then another match of no particular importance comes off. I positively refuse to have anything to do with it. Then another match is arranged and I have nothing to do with that until the eleventh hour, when Doyle and a certain professional man of Peterborough came to me and wanted to know if I would take a part of the stake money. I did so to the extent of $25. That match, as you know, was very properly stopped by the Chief of Police, and the referee compelled the match to come off in Lindsay or no money refunded." Doyle won. Along with the twenty-five I won, I also won in company with two other gentlemen, fifty dollars and a twenty-dollar side bet. I cut all my winnings in the middle with Doyle. Then another match was arranged—Doyle vs. an unknown. Styles of wrestling, collar and elbow and catch-as-catch-can. Now here comes the hour of discontent. No one came to me after Doyle's victory in Lindsay and showered me with roses and inflated my head with praises, as being the smartest man in creation. They threw their chests out and in accents wild cried "Come on boys, this game is open and there is no limit. We go to Toronto and there and then we meet our Waterloo and the yell goes up mad dog, and every one hallos "shoot the dog," and this unfortunate canine is Felcher. I regret very much to know that I am held so low in the estimation of people whom I had learned to regard as my friends. It shall be cleared up. They must tell the people all they know. I challenge them. As I point to my eighteen years record associated with sporting matters in Toronto. I ask you sir, to make the most searching enquiries from Frank Nelson, sporting editor of the Globe, Frank Ellmore, sporting editor of the Mail and Empire, H. J. P. Good, sporting editor of the Toronto World, Inspector Stark, chief of the Toronto detective department, Toronto, ex-President of Ontario Athletic Association. Let them tell those hay loft gamblers how much I was ever associated with crooked sport. Besides that reference, it was my pleasure and privilege to take full charge of the county constables "game" for the county of York for four consecutive years, where all kind of athletic sports were engaged in, and when I tell you that the executive was composed of his honour the County Judge, the Toronto Police Magistrate, High Constable Jones, the County Crown Attorney, the City Crown Attorney, I think you will agree with me that I must have possessed honour and merit to have been associated with people occupying exalted positions of that character. It is simply contemptible and infamous and if I take a charitable view of it all, I would recommend that they all be placed in padded cells in an insane asylum. Now, here are facts: Doyle went to Toronto. I did not see him. I was not with him until I met him in the hall in company with all concerned, and I was not in his company alone one minute from the time I entered the hall until he was taken sick. If Doyle was doped let those speak that took their meals with him, and provided him with beverage. I am more generous than to charge anyone with doping him. My opinion is in view of the strangle hold being barred, Collins took every advantage of working on Doyle's stomach. I saw him do it and I think that it is not unwise to conclude that this caused the sickness. I am not going to extol Doyle's virtues. He may have thrown us all down. If he did I don't know it. If I was thrown down it was not the first time. In all my experiences with the old national game I never was associated with a crowd that could come up with full hands and flushes with a greater degree of regularity than some of those who take advantage of my absence to stick the knife in me. I am well aware that Peterborough—one of the loveliest and most picturesque little cities that it has ever been my pleasure to visit—will ever continue to prosper without me and I, too, in my own heathenish way will ever continue to thrive in some other location. So, as far as the boycott is concerned that is horse and horse. The Felcher portion of the Palace is now in the market cheap—when disposed of, I will say as Pope, the famous poet, when he was about to take his departure from a little hamlet: Yea, d———d, distracted mercenaries, fakirs, etc.; but that by no means applies to all. I had learned to regard the greater portion of Peterborough's citizens as particularly kind, hospitable and generous to a fault and I regret to take my departure so soon after establishing myself there; but before I go, I consider that I have a right to expect those who charge me with being the cause of Doyle's losing the match to speak out. I did sound a note of warning; I told my partner, Mr. LeBrun, Harry LeBrun and Alex. Elliott, the parties I am most associated with financially, that they had better keep out of it. Associated as I was with it, I did not want them to be in a position to cast any reflections on me in case we did get the throw down, and I would not be surprised if we did.

At present, Mr. Editor, I am basking under the shade of my own fig tree, quite oblivious to all the cares surrounding the gilded Palace and otter people. No bother in fact at present. I have none of my own, and I trust that I shall ever continue to conduct myself in that commendable manner that will entitle me to a seat on the shore of the beautiful river of Jordan, and while bathing my feet in its sparkling waves, mingle my voice with the many gone before in singing its music in the sportsman's corner, to hear the sucker kick.

Yours truly,
LEM. FELCHER.

A HAMILTON MAN'S EXPERIENCE
WITH A NEW MEDICINE.

DEAR SIRS,—
I have spent half a fortune in doctors' bills, all to no avail. These Pills seemed to reach the seat of disease at once, and they also seemed to possess a remarkable influence over me. The violent palpitation of the heart, the trembling of the hands, the loss of masculine vigor, the frightful dreams, the loss of memory and general collapse of the entire system, have yielded to Dr. Ward's Blood and Nerve Pills. Great were the results from the use of four boxes of these Pills. I am enjoying the very best of health. I fully believe they are able to do for others as much as they have done for me. Before using them I was a miserable wreck. To-day I am a well man.

Mark Twain's Latest Portrait.

Here is the latest portrait of Mark Twain, reduced from a black and white sketch made in Vienna, says Harper's Weekly. For an American who is busy

writing books Vienna must be just now a pretty good place to be in. Nothing goes in these parts except war and war news, and in London, so far as appears, fights and fighting interests engross attention almost as completely as in New York. Although Austria is the country whose Government seems closest to Spain in its sympathies, we have not heard of any such discourtesies towards Americans in Vienna as have been reported from Paris. Certainly in Mr. Clemens's portrait, which was dated "May 24," there is no indication that the relationship between the Austrian Emperor and the Queen Regent of Spain has caused him personal embarrassment or disturbed his ease of mind.

A woman never really knows the meaning of happiness and content until she is the mother of a healthy happy child. The health of the child depends on the health of the mother, both before and after birth. Most all of woman's weakness, and particularly the weakness that most strongly influences the health of children, comes from some derangement or disease of the distinctly feminine organs. Dr. Pierce's Favourite Prescription will cure troubles of this nature. It should be taken regularly by every woman during the entire period of gestation. It gives strength to all the organs involved, lessens the pains of childbirth, and insures the health of both mother and child.

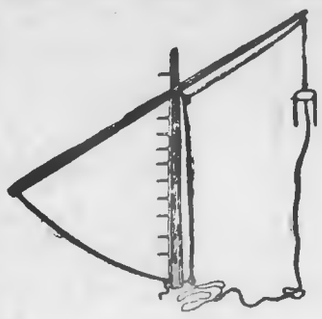
FARM AND GARDEN

THE POLE STACKER.

A Simple Implement That Is Very Popular In the Far West.

The farmers of Utah live in towns and have but few barns or sheds on their farms, which, in many instances, are two or three miles away. They often stack hay and grain in small, fenced lots or corrals on an upland spot, where an artesian well or reservoir furnishes water, and there feed horses and cattle during the severest months of the winter. Numerous devices have been used in hay stacking, some being too expensive and others being patented by inventors who occasionally demanded royalties for the use of their ideas.

The most complete and the cheapest device yet discovered is what is generally called the pole stacker. It is simple in construction, easily handled and is not patented. Although in use but two



A POLE STACKER.

or three years, the pole has become a universal favorite and can be seen in many fields, corrals and stockyards.

The material necessary for the pole stacker consists of two poles 20 and 30 feet or longer, as desired, three pulleys, two chains and two ropes. The short pole, usually a dry red pine or balsam, is set three feet in the ground after slats have been nailed on, or pins driven in auger holes every two feet, which makes a ladder for getting up and down when necessary to fix the top chain or drop the lifting pole. A short chain is fastened around the standing pole and left to drop about two feet, where it hooks around the stacker. This gives the pole plenty of play and enables the man on the stack or wagon to swing it around at will. The long pole is fixed at the butt end with a chain which regulates the height of the stack and holds it in place after being swung around for the hay on the wagon. The pulleys, ropes and fork are handled as with other stackers. —Joel Shomaker in Denver Field and Farm.

Experience In Curing Hay.

When the grass comes well into the blow, it is time to begin cutting. If the weather promises to be good, I get out the machine in the morning as soon as the dew is fairly off and cut down as much grass as I can care for in an afternoon. This lies in the swath until afternoon, say 3 o'clock, when the rake is started. The rake is followed shortly by men with forks to put up the hay. Just here is a chance for good or poor work. A great deal depends upon the way in which hay is put up. It should not be rolled along the windrow in a great tangled heap, for such a mass would wet down to the bottom very easily if a little shower should come up, thus seriously damaging the hay. I would, on the contrary, lay the hay up forkful by forkful, taking care to have the sides raked smoothly down. Such a haycock will shed water and not wet in more than a few inches. It pays to do this work well.

Next morning the machine is started, as on the day previous, and when the dew is gone I open the hay put up day before. During the night it has sweat nicely, and by now scattering it out quite thin upon the ground, so that the sun and air may reach it, by 1 o'clock it will be in good condition to go in. Sometimes it may be necessary to turn the hay, say about 11 o'clock, especially if the sun be not hot. Hay put in as I have described will come out in beautiful shape next spring, and cattle will eat it with great relish, says a writer in New England Homestead.

WORSE THAN YELLOW FEVER.

Kidney Disease Man's Deadliest Foe
Dodd's Kidney Pills its Only Cure.

Toronto, July 18.—"Yellow fever and smallpox combined do not kill as many people as Kidney Disease," was the assertion of a prominent Toronto physician, recently.

The assertion is fully borne out by facts, and were it not that there is a means of checking and curing Kidney disease the number of its victims would be trebled.

But the use of Dodd's Kidney Pills keeps the death-rate from this complaint quite low compared to its former height.

If Dodd's Kidney Pills were used, in every case of Kidney Disease, there would be no deaths from it.

When to Pull Flax.

Mr. Eugene Bosse says, in a report to the department of agriculture, regarding the growth of flax for fiber in Minnesota and Wisconsin, that "the flax in this part of the west should be ready to pull in from 85 to 92 days after sowing when sown between the 15th and 25th of April, and from 75 to 85 generally when sown from the 1st to the 15th of May, but the capsules must be just turned yellow, and the lower half of the plant free from leaves. The richer the land the earlier the flax may be sown and the earlier the flax is sown the more seed it will take to have a good stand."

When a Japanese girl marries, she blackens her teeth, thus to a great extent marring and spoiling her beauty. American husbands would not dream of such barbarism, but on the contrary, want their wives to remain beautiful and attractive just as long as possible. In fact, every woman owes it to herself and society to preserve her beauty, attractiveness and amiability to the very end.

Thousands of women fail of this for one great prevalent reason. While they resort to every device to preserve their beauty of complexion by external applications and possibly take the best care of their general health, they are too frequently utterly neglectful of their health in a special womanly way. No woman can remain beautiful, attractive or amiable, who suffers from weakness and disease of the delicate and important feminine organism. A woman who suffers in this way will lose her clearness of complexion, her eyes will become dull, worry and pain will mark her face with wrinkles and she will become nervous, sickly, fretful and despondent. There is a sovereign remedy for all troubles of this description. It is Dr. Pierce's Favorite Prescription.

"My illness was caused by lack of medical attention during childbirth. It lasted for a period of three years, during which my suffering was almost indescribable," writes Mrs. Edith Petty, of Texanna, Cherokee Nat., Ind. Ter. "Owing to the injuries received—rupture, internal displacement, etc., I became a physical wreck. I was in a constant state of pain and nervous collapse. I became so nervous I feared insanity. My heart was affected and I had spells of palpitation and smothering. Was reduced in strength and could take no solid food. The doctors told me that recovery was impossible without a surgical operation. My monthly periods ceased entirely. My mother bought a bottle of Dr. Pierce's Favorite Prescription. I took twelve bottles. Thanks to an All-wise Providence and Doctor Pierce's medicines, the symptoms have all disappeared. I can now do a hard day's work, eat anything and everything I wish. I regard my recovery as permanent, for it is nearly two years since I stopped taking Dr. Pierce's medicines."

MICHAEL MUNKACSY.

GREAT ARTIST WILL NEVER AGAIN USE PALETTE AND BRUSH.

Work of the Famous Painter—The Great Hungarian Has Experienced Poverty and Deprivation as Well as All Earthly Joys That Fall to Man's Lot—His Christ Before Pilate.

The world has realized for many months past that it was more than probable that Michael Munkacsy would never again take up palette and brush. The recent report that he is at death's door in a German sanitarium confirms the rumor, and so far as the world is concerned the well-known Hungarian artist lives only in his paintings, and pictures, like books, are immortal. The successful days of his career were spent for the most part away from his native land, and it was not until his powers were waning, a year or more since, that he returned to Hungary to win, as he supposed, new laurels for himself, when his mental malady seized him.

Munkacsy is a popular painter among the people of the republic to the south of us. In fact, it was a Yankee who gave him his first commission to paint an important picture. His works decorate the walls of almost every public museum and large private art gallery in the United States. One of the most satisfactory pic-

"CHRIST BEFORE PILATE," BY MICHAEL MUNKACSY.

tures ever executed by him may now be seen at the Chicago Art Institute in the Munger collection. It is called "The Wrestler's Challenge," and it is painted in his earlier manner, which was his best. It presents an assemblage of men, women and children in a dimly lighted tavern. The wrestler, in tights and trunks, is addressing the host, while the men and women wait with suppressed excitement the outcome of the challenge, and the eyes of the boys, astride wine casks in the background, gleam with excitement. The figures are vigorously modeled; the composition is excellent. Two other pictures from his hand are features of the Hanford collection. They are entitled respectively "Washerwomen in Hungary" and "Grandfather Sleeps."

Munkacsy's personality is more interesting than much of his work, although he is a painter who has appealed directly to many people. He has devoted his life to genre subjects of more or less interest. He has been particularly successful in setting forth scenes in the popular life of his native country, which for a number of years he depicted with singularly impressive truthfulness. Many of his earlier efforts were dramatic and filled with the grandeur of poverty and desolation which appeals to human sympathy. He chose themes that bespoke his condition in life, and whereas many quarreled with him for his use of somber, blackish tones, they were daring and artistic revelations of the painter's soul. Later, when fortune favored him, he began to essay brighter phases of life, but vastly less interesting ones. Color has been a strong element in Munkacsy's art, even if at times it is deficient in luminosity. Again, it is not always durable, as he has been given to an excessive use of bitumen. He is an excellent draughtsman, and whereas he often abandons texture to achieve forceful color, he is an able technicist. Several of his pictures have moved the world, but it is questionable whether they are great enough to perpetuate his memory for all time. It has been generally understood for some years past that Munkacsy's popularity as a painter in Paris was a thing of the past, which made him willing to give up his superb studio and home in the French capital and return to his native land, where, indeed, he is a prince among his people. His home in Paris was compared to the feudal castle of a Magyar.

Michael Munkacsy was born in Hungary in 1846, the land of Albert Durer, Sebastian Bach, Haydn, Joachim and many other geniuses, but, like many of his countrymen, his father bore a German surname, that of Lieb, which his son exchanged for the genuinely Magyar one of Munkacsy. He took his name from that of the town in which he was born, Munkacs, a town known hitherto in history only for its fortress, which the heroine, Helen Zrinyi, defended against the Austrian Marshal Coprara, and where for six years the noble Greek patriot, Alexander Ypsilanti, was imprisoned. John R. Tait, Munkacsy's commentator and friend, says that "his history is as that of Wilhelm Meister." His family was ruined in the revolution of 1849. His father, a subordinate in the Austrian customs, joined the patriots under Kossuth, and in the reverses which followed on the Russian occupation was thrown into prison, fell ill and died. Young Munkacsy was adopted by an aunt, who was killed by a band of robbers. An uncle next took charge of the boy. The revolution had left the family so penniless that means were wanting for the merest rudiments of education, and the lad at the age of 8 became the apprentice of the village carpenter—a "jack of all trades." His earliest experience in color was painting the outside of a cottage door, and his first rude attempts at drawing were made on the smooth surface of a plank he had planed. Even of late years he has used a panel more often than a canvas. Among the Hungarian peasants an indispensable piece of furniture of every rustic bride's trousseau is a chest of drawers, ornamented with bright-colored flowers, wreaths and garlands. It was the business of the village carpenter to manufacture them, and the apprentice was allowed to try his hand at decorating one, which he did with marked success. This chest determined the course of his life.

Once in the right path, the "muses of art" watched over him. He went to Gyula and became a pupil of Szamosy, who gave him his first instructions in art. His ambition then was not to become an artist, but a house painter and decorator. His talent developed rapidly, and he drew portraits which the villagers applauded. He spent his evenings and his nights devouring books. Later he went to Pesth, traveling as a journeyman, making strange acquaintances among the gypsies on the road—people that later served as models. He saved a small sum of money, and he went to Vienna. He entered the academy, but he was dropped because his money gave out. Courage and industry never failed him, and he worked his way to Munich. He tried to become a pupil of Piloty, but his classes were full. His ability was soon recognized, and he painted pictures for the lower class dealers. With the proceeds obtained from his sales he went to Dusseldorf.

He had little sympathy with the Dusseldorf school, and he startled the conventional artists by what they chose to consider his peculiarities. In a brief time however, he became a universal favorite in the ateliers and in society. It was during his stay in Dusseldorf that he received his commission to paint his first important canvas, "Siralomhaz"—the condemned man. The order came from Mr. Willstack of Philadelphia. This work was one of the sensations of the salon of 1870, and Munkacsy went to Paris and was the lion of the season. He was offered a professorship at the Academy of Weiman, but his heart was in Paris. In 1874 Munkacsy married the charming widow of his friend, Baron de Marches, who left a considerable fortune. Within ten years his genius, industry and courage transplanted him from a waif in a country village to an atelier in Paris, the acknowledged equal of modern masters. When the artists of Paris, just before his death, gave a medaille d'honneur to Corot, Munkacsy was the one selected to make the presentation.

Munkacsy has been a contributor to various magazines. His favorite poets were Burns, Poe and Petori. He was destined to be a great social favorite, for he possessed many accomplishments. "Alexander Dumas and Rossini affected to be cooks par excellence. Lieb's weakness, like that of Kuans, is physical strength, and Munkacsy's is conjuring." The Hungarian painter also entertained his friends at his Paris home by whistling. Mr. Tait says that he "whistled as Patti sings. Mournful Hungarian melodies came from his lips plaintive as a sigh, rising and falling in improvised variations, and then bursting into a clear, liquid warble like that of bird. There was a Paganin like perfection in this music that I have rarely heard equaled by any virtuoso or any instrument." Munkacsy's love for music is well known, and it was always a feature of the receptions given in his Paris studio. When he exhibited his "Death of Mozart," Mozart's "Requiem" was an effective part of the programme.

Munkacsy visited Canada and the United States in 1886, when his "Christ Before Pilate" was placed on exhibition. A work that is destined to be forgotten. The scene is painted on the modern spirit of naturalism, free from traditional sentiment. It has been stated that it illustrates the gospel according to Renan. But it is hardly strong enough to suggest any factor of that philosopher's theories. The face of Christ is weak and without sympathy. Among Munkacsy's best known pictures are "Milton Dictating 'Paradise Lost' to His Daughters," which is in the Lenox library, New York; "The Music Lesson," owned in New York; "Afternoon Tea," in the collection of Morris K. Jesup, New York; "Studio Interior" hangs in the Layton art gallery, Milwaukee: "The Two Families" is in the W. H. Vanderbilt collection; "The Story of the Battle," in the Walters gallery, Baltimore. One of the latest works from his hand is the ceiling for the Art Historical Museum in Vienna, "The Apotheosis of Light."

Munkacsy has had a full life. He has experienced poverty, deprivation, as well as all of the earthly joys that are man's lot.

Three Years in Bed.

From Kidney Disease—Although a Man of Three-Score and Ten, Dr. Chase's Kidney-Liver Pills gave him back perfect health.

This is to certify that I was sick in bed the most of the time for three years with kidney disease. I took several boxes of pills—different kinds—and a great many other kinds of patent medicines; besides that I was under treatment by four different doctors during the time and not able to work. I began to take Dr. Chase's Kidney-Liver Pills, and since that time have been working every day, although a man nearly 70 years of age. Dr. Chase's Kidney-Liver Pills have cured me.

JAMES SIMPSON,
Newcombe Mills, Ont.

If the Kidneys are not in a perfectly clean and healthy condition, the blood becomes impregnated with impurities, and a decay of the kidneys soon takes place. Bright's Disease, Diabetes, Gravel, Stone in the Bladder, Inflammation of the Bladder, and a long list of Kidney diseases become seated, and sooner or later in so many instances end fatally. Dr. Chase's Kidney-Liver Pills cure all Kidney troubles. Sold by all dealers, price 45 cents per box.

HUMAN SACRIFICES

On the Altar of Diabetes, Saved by Dodd's Kidney Pills, Only.

Hardly a family in the country is free from Diabetes. Great thirst, failing sight, numbness in the thighs, bleeding gums, swollen ankles, emaciation, nervousness, pale or turbid urine, loss of sexual power, decaying teeth, pains in the loins or small of the back, are all positive signs that Diabetes is in the system.

Do you know how it ends? IN DEATH. A premature, horrible, agonized, pitiful death. The victim has no peace, no ease in life. His days are filled with tortures. His nights are waking dreams of agony. He longs to die, yet fears the terrors of his end. He dies, a bloated, fetid, repulsive mass of corruption. That is the only end of unchecked Diabetes. Dodd's Kidney Pills will cure it. They drive it out of the system thoroughly, create new, clean blood, rebuild the diseased kidneys, and restore robust health.

The Passing of the Court Fool.

"The Court Jesters of England" is the title of an article by Amelia Wofford in St. Nicholas. The author says of the jester of Charles I.:

"Muckle John was the last of the court jesters. Tom Killigrew, master of the revels, groom of the bed chamber, is often spoken of as jester to Charles II., but there is no authority to support this claim. He was a companion of the King, he used his tongue with the license of the jester of old, but he never had an official appointment to that office. Some effort was made during Charles' reign to restore the jester, but it failed.

"The protests of Sir Philip Sidney and other grave writers of his time against all fools were not without effect, but the rule of the commonwealth was mainly responsible for the banishment of the court fool. They were especially against the fool of the stage, and so playwrights omitted them from their list of characters long before their disappearance from the court. Shadwell's play of "The Woman Captain" (1680) is probably the last in which a regular fool appears. The character of fool was well liked by the old playwrights and in several of the old plays his disappearance is bewailed.

"As has been said, the custom of keeping fools was common to all classes of society in England; but the court sets the fashion, and with the banishment of the court jester the fool disappeared from his other haunts."
